Introduction

This Official Statement, including the cover page, the inside cover page and the appendices hereto, is provided in connection with the offering by The Board of Trustees of the University of Illinois (the "Board") of \$_____* principal amount of its University of Illinois Auxiliary Facilities System Refunding Revenue Bonds, Series 2011C (the "Series 2011 Bonds").

The Board is authorized by the University of Illinois Revenue Bond Financing Act for Auxiliary Facilities, 110 ILCS 405/1, *et seq.* (the "Act") to borrow money and issue and sell bonds to acquire by purchase or otherwise, construct, enlarge, improve, equip, complete, operate, control and manage student residence halls, apartments, staff housing facilities, health facilities, physical education buildings, union buildings, auditoriums, gymnasiums, or any other revenue producing buildings or facilities for student services, and educational facilities leased to the Federal government and the Nuclear Physics Laboratory, or any combination thereof, of the type and character as the Board deems necessary and required for the good and benefit of the University of Illinois (the "University"). The Board also is authorized to refund or refinance, from time to time as often as it shall be advantageous and in the public interest to do so, separately or in combination, any and all bonds issued and sold by the Board pursuant to the Act.

Under the Act, the Board is authorized to hold in the treasury of the University all revenues derived from the operation of any such buildings or facilities and to supplement such revenues from University income authorized by law to be retained in the University treasury for such purpose, constituting Student Tuition and Fees, and to pledge such revenues and income for the payment of operation and maintenance costs and for the retirement of such bonds.

The Series 2011 Bonds are being issued pursuant to the Act and the resolution adopted by The Board of Trustees of the University of Illinois on September 20, 1984 (the "Original Resolution") as amended and supplemented by bond resolutions adopted on June 20, 1985, May 8, 1986, May 9, 1991, June 11, 1993, January 18, 1996, October 15, 1999, June 1, 2000, March 8, 2001, May 23, 2001, May 15, 2003, March 10, 2005, July 14, 2005, September 7, 2006, May 22, 2008, January 15, 2009, May 20, 2010, June 9, 2011 and December 2, 2011 (together with the Original Resolution, the "Bond Resolution"). Initially capitalized terms used but not otherwise defined in this Official Statement have the same meanings given them under the caption "DEFINITIONS OF CERTAIN TERMS" in APPENDIX D.

The proceeds of the Series 2011 Bonds will be used to (i) refund certain outstanding obligations of the Board and (ii) pay costs of issuing the Series 2011 Bonds. See "PLAN OF FINANCE" and "ESTIMATED SOURCES AND USES OF FUNDS."

^{*} Preliminary, subject to change.

As further described under the caption "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS," the Series 1991 Bonds, the Series 1999A Bonds, the Series 1999B Bonds, the Series 2001A Bonds, the Series 2001B Bonds, the Series 2003A Bonds, the Series 2005A Bonds, the Series 2006 Bonds, the Series 2008 Bonds, the Series 2010A Bonds, the Series 2011A Bonds and the Series 2011B Bonds (collectively, the "Prior Parity Bonds"), and any Parity Bonds (hereinafter defined) issued in the future, are secured by a pledge of and lien on (i) the Net Revenues of the System, (ii) Student Tuition and Fees (subject to prior payment of operating and maintenance expenses of the System, but only to the extent necessary), and (iii) the Bond and Interest Sinking Fund Account.

The Series 1991 Bonds are further secured by income received from, and funds on deposit in, the Debt Service Reserve Account established under the Original Resolution. The Series 2011 Bonds will not be secured by the Debt Service Reserve Account.

Additional bonds secured on a parity with the Series 2011 Bonds and the Prior Parity Bonds (together, the "Parity Bonds") may be issued by the Board for the purposes set forth in the Bond Resolution and subject to the condition, among others, that for each of the two completed Fiscal Years immediately preceding the issuance of any Parity Bonds, the average of the sum of annual Net Revenues plus Student Tuition and Fees must be at least equal to two times Maximum Annual Net Debt Service for the then Outstanding Bonds and the proposed Parity Bonds, and, so long as any UIC South Campus Development Project Revenue Bonds, Series 2000 (Taxable) (the "UIC South Campus Bonds") are outstanding, after applying such test, that the remaining amount of Student Tuition and Fees (but excluding fees assessed for the use and operation of the System and fees assessed for the use and operation of the Health Services Facilities System of the Board) in each such Fiscal Year, after providing for the additional parity bonds test for each year for the University of Illinois Health Services Facilities Revenue Bonds described in APPENDIX A, is at least equal to 1.10 times maximum annual debt service on the then outstanding UIC South Campus Bonds. See "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS - Parity Bonds" and "THE UNIVERSITY OF ILLINOIS - Other Outstanding Indebtedness and Leasehold Obligations" in APPENDIX A. The Series 2011 Bonds, the Prior Parity Bonds and any Parity Bonds issued in the future are collectively referred to herein as the "Bonds" or the "Outstanding Bonds."

The Board covenants in the Bond Resolution to establish rents, fees, charges and admissions for the use of the System and Student Tuition and Fees at such a level that the amount of Net Revenues plus Student Tuition and Fees in each Fiscal Year is at least equal to 2.0 times Maximum Annual Net Debt Service. See "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS – Rate Covenant."

THE SERIES 2011 BONDS WILL BE SPECIAL, LIMITED OBLIGATIONS OF THE BOARD AND WILL BE PAYABLE ONLY FROM THE SOURCES DESCRIBED HEREIN. THE SERIES 2011 BONDS ARE NOT OBLIGATIONS, GENERAL, SPECIAL OR OTHERWISE, OF THE STATE OF ILLINOIS. THE SERIES 2011 BONDS SHALL NOT CONSTITUTE A DEBT, LEGAL OR MORAL, OF THE STATE OF ILLINOIS, AND SHALL NOT BE ENFORCEABLE OUT OF ANY FUNDS OF THE BOARD, OR OF THE UNIVERSITY, OTHER THAN THE REVENUES AND INCOME PLEDGED FOR PAYMENT THEREOF. THE BOARD HAS NO TAXING POWER.

The descriptions and summaries of various documents hereinafter set forth do not purport to be comprehensive or definitive, and reference is made to each document for the complete details of all terms and conditions. All statements herein are qualified in their entirety by reference to each document.

SECURITY AND SOURCES OF PAYMENT FOR THE BONDS

General

The Bonds are payable from and secured by a pledge of and lien on (i) the Net Revenues of the System, (ii) Student Tuition and Fees (subject to prior payment of operating and maintenance expenses of the System, but only to the extent necessary), and (iii) the Bond and Interest Sinking Fund Account. All such income and revenues are irrevocably pledged for the prompt and punctual payment of the principal of, premium, if any, and interest on the Bonds according to their terms, and all are equally and ratably secured by the pledge and lien without priority or preference one over the other by reason of series designation, denomination, number, maturity date, terms of redemption prior to maturity, date of sale or delivery or otherwise. All the Bonds are co-equal as to the pledge of and lien on all of the Net Revenues of the System, Student Tuition and Fees and Bond and Interest Sinking Fund Account, as described above, securing the payment of the Bonds and share ratably, without preference, priority or distinction as to the source or method of payment and security for the Bonds.

The Series 1991 Bonds are further secured by income received from, and funds deposited in, the Debt Service Reserve Account. No other Prior Parity Bonds are, nor will the Series 2011 Bonds be, secured by or have any claim upon the Debt Service Reserve Account.

Student Tuition and Fees

The Board is authorized by law to retain all Student Tuition and Fees in its treasury and to credit such amounts to an account known as the University Income Fund. The Bond Resolution requires the Comptroller of the Board to deposit annually the Student Tuition and Fees into the Revenue Fund established by the Bond Resolution, as shall be necessary, together

with Operating Revenues, to meet (i) operating and maintenance expenses of the System and (ii) together with transfers, if any, of investment income from the Debt Service Reserve Account to the Bond and Interest Sinking Fund Account (which investment income shall be applied to debt service only on those Bonds secured by the Debt Service Reserve Account), annual debt service and required deposits to the Debt Service Reserve Account and Repair and Replacement Reserve Account.

Repair and Replacement Reserve Account

Pursuant to the Bond Resolution, the Board is required to establish and maintain a Repair and Replacement Reserve Account. On or before the close of each Fiscal Year, the Comptroller shall deposit in the Repair and Replacement Reserve Account from the funds remaining in the Revenue Fund, an amount not less than ten percent (10%) of the Maximum Annual Net Debt Service. The maximum amount which may be accumulated in such Account shall not exceed five percent (5%) of the replacement cost of the facilities constituting the System, as determined by the then current Engineering News Record Building Cost Index (or comparable index). All money and investments so held in such Account shall be used and held for use to pay the cost of unusual or extraordinary maintenance or repairs, renewals and replacements, and renovating or replacement of fixed equipment not paid as part of the ordinary maintenance and operation of the System. Moneys on deposit in the Repair and Replacement Reserve Account are not pledged as security for the payment of the Bonds. See "Summary of Certain Provisions of the Bond Resolution – Flow of Funds – Repair and Replacement Reserve Account" in Appendix D.

Rate Covenant

The Board covenants and agrees that it will adopt such rules and regulations as are necessary to assure reasonable occupancy and use of the System; and that the rents, fees, charges and admissions (including charges for utility and janitor services) chargeable to the occupants of, and students, faculty members and others using or being served by, or having the right to use or having the right to be served by, the System and Student Tuition and Fees shall be so fixed and revised from time to time and shall be so collected that the amount of Net Revenues plus Student Tuition and Fees in each Fiscal Year is at least equal to 2.0 times Maximum Annual Net Debt Service.

Parity Bonds

Parity Bonds may be issued under the terms of the Bond Resolution only upon compliance with all of the following conditions:

- 1. The Comptroller must sign a written certificate to the effect that the Board is not in default as to any covenant, condition or obligation in connection with all Outstanding Bonds, and the resolutions authorizing the same.
- 2. All transfers and deposits to the Bond and Interest Sinking Fund Account, the Debt Service Reserve Account (if any) and the Repair and Replacement Reserve Account, as provided in the Bond Resolution, must be current.
- 3. Parity Bonds must be issued for the purpose of repairing, improving or adding to the

System, or for the purpose of refunding Bonds, or for any combination of such purposes.

- 4. For each of the two completed Fiscal Years immediately preceding the issuance of any Parity Bonds:
 - (a) the average of the sum of annual Net Revenues plus Student Tuition and Fees must be at least equal to 200 percent (2.0 times) of Maximum Annual Net Debt Service for the then Outstanding Bonds and the proposed Parity Bonds; and
 - (b) so long as any UIC South Campus Bonds are outstanding, after applying the test in (a) above, the remaining amount of Student Tuition and Fees (but excluding fees assessed for the use and operation of the System and fees assessed for the use and operation of the Health Services Facilities System of the Board), in each such Fiscal Year, after providing for the additional parity bonds test for each year for the University of Illinois Health Services Facilities Revenue Bonds is at least equal to 110 percent (1.10 times) of maximum annual debt service for the then outstanding UIC South Campus Bonds.
- 5. At the time of delivery of the proposed Parity Bonds, a determination must be made in the resolution authorizing such Parity Bonds whether such Parity Bonds shall be secured by or payable from any funds on deposit in the Debt Service Reserve Account. The Board has provided in the authorizing resolution for the Series 2011 Bonds that the Series 2011 Bonds will not be secured by or payable from the Debt Service Reserve Account.
- 6. Such Parity Bonds shall be authorized by a resolution adopted by the Board which shall conform in all respects to the terms and provisions of the Bond Resolution.

Outstanding Parity Bonds

As of December 1, 2011, the Board had outstanding thirteen series of Bonds, including the Series 1991 Bonds, the Series 1999A Bonds, the Series 1999B Bonds, the Series 2001A Bonds, the Series 2001B Bonds, the Series 2003A Bonds, the Series 2005A Bonds, the Series 2006 Bonds, the Series 2008 Bonds, Series 2009A Bonds, the Series 2010A Bonds, the Series 2011A Bonds and the Series 2011B Bonds aggregating \$1,027,606,168 (including the accreted value of outstanding capital appreciation Bonds), which are secured by a pledge of and lien on (i) the Net Revenues of the System, (ii) Student Tuition and Fees (subject to prior payment of operating and maintenance expenses of the System, but only to the extent necessary), and (iii) the Bond and Interest Sinking Fund Account. The Series 1991 Bonds are further secured by income received from, and funds on deposit in, the Debt Service Reserve Account.

BOOK-ENTRY ONLY SYSTEM

General Provisions

The following information concerning The Depository Trust Company, New York, New York ("DTC") and its book-entry is based solely on information provided by DTC. Accordingly, no representation is made by the Board, the University, the Bond Registrar or the Purchaser as to the accuracy or completeness of such information, or as to the absence of changes in such information subsequent to the date hereof.

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Series 2011 Bonds. The Series 2011 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Series 2011 Bond will be issued for each maturity of the Series 2011 Bonds, in the aggregate principal amount of each such maturity, and will be deposited with DTC.

DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiary. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has Standard & Poor's highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of the Series 2011 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2011 Bonds on DTC's records. The ownership interest of each actual purchaser of each Series 2011 Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial

Owner entered into the transaction. Transfers of ownership interests in the Series 2011 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Series 2011 Bonds, except in the event that use of the book-entry system for the Series 2011 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2011 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2011 Bonds with DTC and their registration in the name of Cede & Co., or such other DTC nominee, does not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2011 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2011 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of the Series 2011 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2011 Bonds, such as redemptions, tenders, defaults and proposed amendments to the documents. For example, Beneficial Owners of Series 2011 Bonds may wish to ascertain that the nominee holding the Series 2011 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Bond Registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Series 2011 Bonds of a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Series 2011 Bonds unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Board as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2011 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, principal, and interest payments on the Series 2011 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detailed information from the Board or the Bond Registrar, on each payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the

Bond Registrar, or the Board, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, principal, and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Board or the Bond Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Series 2011 Bonds at any time by giving reasonable notice to the Board or the Bond Registrar. Under such circumstances, in the event that a successor securities depository is not obtained, certificates for the Series 2011 Bonds are required to be printed and delivered.

The Board may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, certificates for the Series 2011 Bonds will be printed and delivered to DTC.

Successor Securities Depository; Discontinuation of Book-Entry System

In the event that (i) the Board determines that DTC is incapable of discharging its responsibilities described in the Bond Resolution and in the blanket letter of representations from the Board and accepted by DTC (the "Representation Letter"), (ii) the Representation Letter shall be terminated for any reason, or (iii) the Board determines that it is in the best interest of the Beneficial Owners of the Series 2011 Bonds that they be able to obtain certificated Series 2011 Bonds, the Board will notify DTC and the Direct Participants of the availability through DTC of certificated Series 2011 Bonds and the Series 2011 Bonds will no longer be restricted to being registered in the registry maintained by the Bond Registrar in the name of Cede & Co., as nominee of DTC. At that time, the Board may determine that the Series 2011 Bonds shall be registered in the name of and deposited with a successor depository operating a universal bookentry system, as may be acceptable to the Board, or such depository's agent or designee, or if the Board does not select such an alternate universal bookentry system, then the Series 2011 Bonds may be registered in whatever name or names registered owners of Series 2011 Bonds transferring or exchanging Series 2011 Bonds shall designate, in accordance with the provisions of the Bond Resolution.

PLAN OF FINANCE

Purpose of the Series 2011 Bonds

The proceeds of the Series 2011 Bonds will be used to (i) refund certain outstanding obligations of the Board described under "Refunding Plan" and (ii) pay costs of issuing the Series 2011 Bonds. See "ESTIMATED SOURCES AND USES OF FUNDS."

Refunding Plan

The net proceeds of the Series 2011 Bonds will be applied to refund certain of the Board's outstanding University of Illinois Auxiliary Facilities System Revenue Bonds (the "Refunded Bonds"). The specific series or bonds within a series of Refunded Bonds to be refunded with the

proceeds of the Series 2011 Bonds will be selected by the Comptroller of the Board prior to the date the Series 2011 Bonds are issued. The Board will notify the Municipal Securities Rulemaking Board (the "MSRB") through its Electronic Municipal Market Access system ("EMMA") in a timely manner of the Refunded Bonds to be refunded in accordance with the undertakings of the Board required by Securities and Exchange Commission Rule 15c2-12 with respect to each series of Refunded Bonds.

To provide for the advance refunding of the Refunded Bonds, the net proceeds of the Series 2011 Bonds will be used to purchase U.S. Treasury obligations (the "Government Obligations"), the principal of which, together with interest to be earned thereon and any initial cash balances, will be sufficient to pay (i) the interest on the Refunded Bonds when due and (ii) the principal amount or redemption price of the Refunded Bonds on the applicable maturity date or redemption date. The Government Obligations will be held in one or more escrow accounts established for the Refunded Bonds. The principal of, redemption premium (if any) and interest on the Refunded Bonds will be payable from the escrow accounts administered for the benefit of the Board and the holders of the outstanding Refunded Bonds.

Neither the maturing principal of the Government Obligations purchased to refund the Refunded Bonds nor the interest earned thereon will serve as security or be available for the payment of the principal of or interest on the Series 2011 Bonds.

ESTIMATED SOURCES AND USES OF FUNDS

The estimated sources and uses of funds for the Series 2011 are as follows:

PRO FORMA MAXIMUM ANNUAL NET DEBT SERVICE COVERAGE*

The following table compares the Net Revenues of the System and Student Tuition and Fees with the estimated Maximum Annual Net Debt Service for the Series 2011 Bonds and the Outstanding Bonds, in order to determine a pro forma debt service coverage as if such debt service had been applied during the periods shown. For purposes of estimating debt service on the variable rate Series 2008 Bonds, interest is estimated at 5.34%.

AUXILIARY FACILITIES SYSTEM

Background

The University of Illinois Auxiliary Facilities System was created in June of 1978 pursuant to the provisions of the Act which authorized the Board to combine and consolidate into a single System certain housing, parking, union, recreation/athletic, student-oriented health and miscellaneous facilities, the net revenues of which were then pledged to secure outstanding indebtedness of the Board. As described below, certain facilities of the Springfield campus of the University were transferred to and became part of the System during Fiscal Year 1996.

At the time of formation of the System, the Board refinanced, through advance refunding or exchange, all then outstanding indebtedness secured by the various buildings and facilities initially intended to form the System.

Since the creation of the System, the Board, in addition to providing for routine maintenance, has assessed one-half of one percent of the Replacement Value of its facilities annually for renewals and replacements, unusual or extraordinary maintenance or repairs, and renovation or replacement of fixed equipment to sustain the physical and operating integrity of the System. Approved mandatory transfers for such purposes approximate \$12 million each year.

Description of Facilities

The facilities comprising the System service various aspects of student campus life and include student residence halls, parking structures, student unions and recreation and athletic facilities. The University currently has residence hall and apartment facilities for about 14,022 single students and apartments for about 1,151 students and ten parking structures with a total capacity for approximately 10,248 cars. The University has three student union buildings, one at the Urbana-Champaign campus and two at the Chicago campus, which include lounges, food service, bowling and billiards facilities, meeting rooms, bookstores and other recreational facilities.

The development of recreation and athletic facilities dates back to 1925 on the Urbana-Champaign campus with the construction of Memorial Stadium, which seats approximately 62,000 persons, and the Ice Arena, which was originally constructed in 1930. The multi-purpose 16,000 seat Assembly Hall, which provides a venue for entertainment and sporting events, was constructed in 1963 at Urbana-Champaign. The multi-purpose 9,500 seat Pavilion, which serves a similar function in Chicago, was constructed in 1982. The University's McKinley Health Center, originally constructed in 1925-26, provides clinical treatment for students and staff at the Urbana-Champaign campus.

Student Services buildings in Chicago and in Urbana-Champaign provide centralized locations for comprehensive programs of student services, including career development and placement, student financial aid, student activities and student counseling and assistance. UIS facilities added to the System include a 56 unit on-campus housing complex known as University Court, food service operations, parking operations, bookstore operations, the 2,000 seat

Sangamon Auditorium, a 10,000 square feet multi-purpose gymnasium and a child care center.

Recent additions to the Auxiliary Facilities System include: (1) infrastructure repairs and improvements to the Illini Union in Urbana, (2) construction of the Student Dining and Residential Programs building in Urbana and (3) construction of the first phase of Nugent Residence Hall in Urbana. Construction is progressing on the second phase of Nugent Hall and Residence Hall #2 in Urbana, both part of a long-term redevelopment plan of the housing stock known as Ikenberry Commons.

Housing Occupancy Rates

For the past five Fiscal Years, ended June 30, 2011, the average occupancy of existing housing facilities of the Board, included within the System, has exceeded 90%.

Financial Condition of the Auxiliary Facilities System

The financial statements of the System are presented in accordance with U.S. generally accepted accounting principles.

Included in APPENDIX B are the most recent Audited Financial Statements of the Auxiliary Facilities System for Fiscal Year 2010. The Audited Financial Statements of the Auxiliary Facilities System set forth as APPENDIX B consist of the Balance Sheet as of June 30, 2010, the Statement of Revenues, Expenses and Changes in Net Assets for the Year Ended June 30, 2010, the Statement of Cash Flows for the Year Ended June 30, 2010, and the notes to financial statements.

TAX MATTERS

General

The Internal Revenue Code of 1986, as amended (the "Code"), contains a number of requirements and restrictions that apply to the Series 2011 Bonds from and after the date of issuance of the Series 2011 Bonds, including investment restrictions, periodic payments of arbitrage profits to the United States, requirements regarding the proper use of Series 2011 Bond proceeds and the facilities financed or refinanced therewith, and certain other matters. The Board has covenanted to comply with all requirements of the Code that must be satisfied in order for interest on the Series 2011 Bonds to be excludable from gross income. Failure to comply with certain of such requirements could cause interest on the Series 2011 Bonds to become includable in gross income, in some cases retroactively to the date of issuance of the Series 2011 Bonds.

Subject to the Board's compliance with the above-referenced covenants, under present law, in the opinion of Bond Counsel, interest on the Series 2011 Bonds is excluded from the gross income of the owners thereof for federal income tax purposes. Interest on the Series 2011 Bonds will not be included as an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations but will be included in the "adjusted current earnings" of certain corporations for purposes of computing the alternative minimum tax for such corporations. Interest on the Series 2011 Bonds is not exempt from current State of Illinois income taxes. The proposed form of Bond Counsel's opinion is provided as APPENDIX E to this Official Statement.

In rendering its opinion, Bond Counsel will rely upon certifications of the Board and certain other parties with respect to certain material facts solely within their knowledge relating to the facilities to be financed or refinanced with proceeds of the Series 2011 Bonds, the application of the proceeds of the Series 2011 Bonds and certain other matters pertinent to the tax exemption of the Series 2011 Bonds. Additionally, in rendering its opinion, Bond Counsel will assume, without independently verifying, the validity and tax-exempt status of the Refunded Bonds to the extent described in the opinions of bond counsel for the Refunded Bonds delivered on the date of issuance of the Refunded Bonds.

Ownership of the Series 2011 Bonds may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, (i) corporations subject to the branch profits tax, (ii) financial institutions, (iii) certain insurance companies, (iv) certain Subchapter S corporations, (v) individual recipients of Social Security or Railroad Retirement benefits, (vi) taxpayers who may be deemed to have incurred (or continued) indebtedness to purchase or carry tax-exempt obligations, and (vii) individuals otherwise eligible for the earned income tax credit. In addition, ownership of the Series 2011 Bonds may result in state and local tax consequences to certain taxpayers. Bond Counsel expresses no opinion regarding any such collateral federal income tax consequences or (except for the application of the current Illinois income tax to interest on the Series 2011 Bonds) as to the application of any state or local taxes. Prospective purchasers of the Series 2011 Bonds should consult their tax advisors as to the applicability of any such collateral federal income tax consequences, as well as any applicable

state or local tax consequences.

Payments of interest on tax-exempt obligations, including the Series 2011 Bonds, are generally subject to reporting to the Internal Revenue Service (the "Service") on IRS Form 1099-INT under the applicable information reporting requirements and, if the owner of a Series 2011 Bond is subject to backup withholding under those requirements, then the payment of interest on the Series 2011 will also be subject to backup withholding. The reporting and withholding requirements do not affect the excludability of such interest on the Series 2011 Bonds from gross income for federal income tax purposes.

The Service has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the Service, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. It cannot be predicted whether or not the Service will commence an audit of the Series 2011 Bonds. If an audit is commenced, under current procedures the Service may treat the Board as a taxpayer and the Series 2011 Bondholders may have no right to participate in such procedure. The commencement of an audit could adversely affect the market value and liquidity of the Series 2011 Bonds until the audit is concluded, regardless of the ultimate outcome.

Bond Premium

An amount equal to any excess of the purchase price of a Series 2011 Bond over the principal amount payable at maturity of such Series 2011 Bond constitutes amortizable Series 2011 Bond premium that may not be deducted for federal income tax purposes. A purchaser of a Series 2011 Bond must amortize any premium over such Series 2011 Bond's term using constant yield principles, based on the Series 2011 Bond's yield to maturity. As Series 2011 Bond premium is amortized, the Purchaser's basis in such Series 2011 Bond and the amount of tax-exempt interest received will be reduced by the amount of amortizable premium properly allocable to such Purchaser. This reduction will result in an increase in the gain (or decrease in the loss) to be recognized for federal income tax purposes on the sale or disposition of such Series 2011 Bond prior to its maturity. Even though the purchaser's basis is reduced, no federal income tax deduction is allowed. Purchasers of any Series 2011 Bonds at a premium, whether at the time of initial issuance or subsequent thereto, should consult with their own tax advisors with respect to the federal, state and local tax consequences of owning such Series 2011 Bonds.

Original Issue Discount

The issue price (the "Issue Price") for each maturity of the Series 2011 Bonds is the price at which a substantial amount of such maturity of the Series 2011 Bonds is first sold to the public. The Issue Price of a maturity of the Series 2011 Bonds may be different from the prices set forth, or the prices corresponding to the yields set forth, on the inside cover page hereof.

If the Issue Price of a maturity of the Series 2011 Bonds is less than the principal amount payable at maturity, the difference, if any, between the Issue Price of each such maturity of the Series 2011 Bonds (the "OID Bonds") and the principal amount payable at maturity is "original issue discount."

For an investor who purchases a Series 2011 Bond in the initial public offering at the

Issue Price for such maturity and who holds such OID Bond to its stated maturity, subject to the condition that the Board complies with the covenants discussed above, (a) the full amount of original issue discount with respect to such OID Bond constitutes interest that is excluded from the gross income of the owner thereof for federal income tax purposes; (b) such owner will not realize taxable capital gain or market discount upon payment of such OID Bond at its stated maturity; and (c) such original issue discount is not included as an item of tax preference in computing the alternative minimum tax for individuals and corporations under the Code. (The recognition of tax-exempt income may have collateral tax consequences for certain taxpayers, as described above in connection with the receipt of tax-exempt interest on the Series 2011 Bonds.) Owners of OID Bonds should consult their own tax advisors with respect to the state and local tax consequences of original issue discount on such OID Bonds.

Owners of Series 2011 Bonds who dispose of their bonds prior to the stated maturity (whether by sale, redemption, or otherwise), who purchase Series 2011 Bonds in the initial public offering, but at a price different from the Issue Price, or who purchase Series 2011 Bonds subsequent to the initial public offering should consult their own tax advisors.

Market Discount

If a Series 2011 Bond is purchased at any time (other than in the initial public offering) for a price that is less than the Series 2011 Bond's stated redemption price at maturity, the purchaser may be treated as having purchased a Series 2011 Bond with market discount subject to the market discount rules of the Code (unless a statutory de minimis rule applies). Accrued market discount is treated as taxable ordinary income and is recognized when a Series 2011 Bond is disposed of (to the extent such accrued discount does not exceed gain realized) or, at the purchaser's election, as it accrues. The applicability of the market discount rules may adversely affect the liquidity or secondary market price of such Series 2011 Bond. Purchasers should consult their own tax advisors regarding the potential implications of market discount with respect to the Series 2011 Bonds.

Pending and Future Legislation; Other Considerations

Bond Counsel has not undertaken to advise in the future whether any events after the date of issuance of the Series 2011 Bonds may affect the tax status of interest on the Series 2011 Bonds. It is possible that future legislation or amendments to the Code, if enacted into law, could contain provisions that might eliminate or reduce the exclusion of the interest on the Series 2011 Bonds from gross income for federal income tax purposes or that might otherwise adversely affect the benefit of such exclusion or the value or marketability of the Series 2011 Bonds. For example, on September 12, 2011, President Obama proposed to Congress the enactment of legislation entitled the "American Jobs Act of 2011" (the "Jobs Act"). If enacted in the form proposed, certain provisions in the Jobs Act would result in federal income tax being imposed on a portion of the interest received by certain individual owners of state or local bonds, including the Series 2011 Bonds, for taxable years beginning on or after January 1, 2013. From time to time, other legislation has been proposed that, if enacted, could affect the tax treatment, value or marketability of the Series 2011 Bonds. No prediction can be made as to whether any such legislation will be enacted in the future or the form such legislation may take. Prospective purchasers should consult with their own tax advisors regarding pending or proposed federal

income tax legislation.

Bond Counsel's opinion is based on existing law, which, as noted above, is subject to change. Such opinion is further based on factual representations made to Bond Counsel as of the date thereof. Bond Counsel assumes no duty to update or supplement its opinion to reflect any facts or circumstances that may thereafter come to Bond Counsel's attention, or to reflect any changes in law that may thereafter occur or become effective. CERTAIN VERIFICATIONS

Grant Thornton, LLP (the "Verifier"), upon delivery of the Series 2011 Bonds, will deliver to the Board and the Purchaser a report stating that the firm, at the request of the Board, has reviewed the mathematical accuracy of certain computations based on certain assumptions relating to (i) the sufficiency of the principal and interest received from the investment in Government Obligations, together with any initial cash deposit, to meet the timely payment of the applicable principal or redemption price of and interest on the Refunded Bonds, as described under "PLAN OF FINANCE" and (ii) the actuarial yield on the Series 2011 Bonds and the Government Obligations, such computations with respect to such yields to be used to support the conclusion of Bond Counsel that the Series 2011 Bonds are not "arbitrage bonds" under Section 148 of the Code. The Verifier will express no opinion on the attainability of any assumptions or the tax-exempt status of the Series 2011 Bonds.

THE UNIVERSITY OF ILLINOIS

Background

The Board of Trustees of the University of Illinois (the "Board") is a body corporate and politic of the State of Illinois (the "State") created in 1867 by the Illinois General Assembly in response to the Federal Land Grant Act of 1862. The Board is responsible for the oversight and governance of the University of Illinois (the "University"), one of the nation's largest universities. Complementing the University's primary missions of education, research and public service is the University's role as an agent of economic development. The operating budget for Fiscal Year 2012 from all funding sources is approximately \$5.0 billion.

Education. The University has three campuses located in Urbana-Champaign, Chicago and Springfield, as well as health professions sites in Rockford and Peoria, with a combined total enrollment of 77,635 students (Fall 2011). In addition, the University has continuing education centers in suburban and downstate Illinois, extension offices in most of the State's 102 counties, a major teaching hospital and health clinics, and research farms. Fall (2011) enrollment on the campus of the University of Illinois at Urbana-Champaign (the "Urbana campus" or "Urbana") totaled 44,407; on the campus of the University of Illinois at Chicago (the "Chicago campus" or "UIC") totaled 28,091; and on the campus of the University of Illinois at Springfield (the "Springfield campus" or "UIS") totaled 5,137. Illinois residents comprise 68 percent of the student body on the Urbana campus; 86 percent at UIC; and 83 percent at UIS. The University awarded more than 19,400 undergraduate, graduate and professional degrees in 2010-2011.

There are 5,661 (full-time equivalent) faculty on the three campuses, including members of the National Academy of Sciences, the American Academy of Arts and Sciences, and the National Academy of Engineering. Since 2000, 55 Urbana faculty have been named fellows of the American Association for the Advancement of Science. The University's faculty and alumni have won 27 Nobel prizes, including John Bardeen who won in 1956 and 1972, the only person to have won the physics prize twice. The Urbana campus had two faculty members win Nobel Prizes in the same year: Paul C. Lauterbur shared the 2003 Nobel Prize in medicine for seminal discoveries concerning the use of magnetic resonance to visualize different structures and Anthony J. Leggett shared the 2003 Nobel Prize in physics for pioneering contributions to the theory of superconductors and super fluids. The University has had seventeen National Medal of Science recipients on its faculty, including Carl Slichter, who was recognized for establishing nuclear magnetic resonance as a powerful tool and microbiologist Carl Woese, whose discovery of a third form of life was also recognized with a Crafoord Prize in 2003. In 2011 May Berenbaum received the Tyler Prize for Environmental Achievement. More than 45 faculty in Chicago and Urbana are listed on the ISI highly cited publications list, indicating significant contributions to the advancement of science and technology through fundamental, referenced research.

The three campuses of the University offer a diversity of programs that lead to baccalaureate, graduate and professional degrees as well as certificates. The University offers professional programs through the colleges of dentistry, law, medicine, pharmacy and veterinary medicine. The University is one of only four universities in the nation with a school of public health and five health sciences colleges: applied health sciences, dentistry, medicine, nursing and pharmacy.

Research. The University is a nationally ranked, research intensive institution as ranked by the Carnegie Foundation. Total Federal research expenditures now top \$710 million annually on the three campuses. The Urbana campus attracts more than \$395 million in Federal support, and the Chicago campus attracts more than \$310 million. Because of its strong medical and healthcare research programs, over 66 percent of support to the Chicago campus comes from the National Institutes of Health.

The knowledge being generated and transmitted through University research has far-reaching implications for health, engineering, agriculture, business as well as basic and applied research. Recent developments include the following:

• In a study funded by the National Science Foundation, UIC researchers have discovered a signaling mechanism in the bacterial ribosome that detects proteins that activate genes for antibiotic resistance. Understanding how

signals are generated and transmitted within the ribosome may one day lead to better antibiotics.

- A new research center on the Urbana campus will investigate whether regular exposure to bisphenol A (BPA) and phthalates chemicals widely used in plastics and other consumer products can alter infant and adolescent development, cognition or behavior. The Children's Environmental Health and Disease Prevention Research Center is funded by a \$2 million grant from the National Institute of Environmental Health Sciences and the U.S. Environmental Protection Agency.
- UIC researchers will use a \$950,000 grant from the U.S. Department of Agriculture to integrate obesity-prevention strategies into programs delivered to low-income families through the University of Illinois Extension Cook County, and Supplemental Nutritional Assistance Program Education. Among young children, obesity has tripled since 1980, and the prevalence is highest among black and Hispanic children.
- Farmers and entrepreneurs around the world are benefiting from a new approach to sustainable development education that reaches a much larger audience than traditional methods and at a fraction of the cost. A team of extension educators and faculty at the University of Illinois are producing animated educational videos that can be watched at home, over and over again, on cell phones. Nearly 60 percent of the 2.4 billion cell phone users in the world live in developing countries. Animation reduces the costs associated with making a video on a particular topic. The narration can be recorded in any language with any dialect or accent.
- Using a \$25 million gift, UIC's College of Medicine at Peoria is constructing the Jump Trading Simulation and Conference Education center with state-of-the-art technology for medical students, nurses, residents and experienced clinicians to learn and practice new clinical skills in a safe environment.
- A team of Urbana researchers have developed a form of ultra-low-power digital memory that is faster and uses 100 times less energy than similar available memory. The technology could give future portable devices much longer battery life between charges. The collaboration was funded by the Office of Naval Research and the Marco Focus Center Research Program.

The University has expanded its investment in research and development capabilities and emphasizes the transfer of ideas to the marketplace. The University of Illinois has research parks located on the Urbana and Chicago campuses. Among the companies housed in the Urbana research park are Abbott Labs, Yahoo!, State Farm's research and development center, Wolfram Alpha and Qualcomm. Located in the Illinois Medical District, the Chicago Technology Park (CTP) on the UIC campus has a life-science focus and includes such firms as HumanZyme USA, Novadrug, LLC, Great Point Energy and BioChem Analysis. CTP is a collaborative effort among the University, Rush University Medical Center and Cook County Health Services.

New facilities continue to enhance the resources on the University's three campuses. Among the facilities opened in the last few years are the Business Instructional Facility in Urbana, the institution's first platinum certification through LEED (Leadership in Energy and Environmental Design); the UIC Forum, a state-of-the-art, multipurpose venue that hosts a variety of events including UIC's annual Urban Forum; and on the Springfield campus, Founders Hall, a residence for students that also houses a new bookstore and coffee shop.

Economic Development. As both an employer and a consumer, the University has a direct, annual economic impact of more than \$13 billion on the state of Illinois, including the creation of more than 150,000 jobs. For every dollar the state spends on the University, the system generates more than \$17 into the Illinois economy.

The University makes an additional impact through its role as a creative force that generates new ideas. This role encompasses the four central missions of the University – teaching, research, service and economic development – and engages it with the economic life of the State and nation. The University works with Illinois leaders in government and business on three primary research efforts within the University that will have a significant impact on the Illinois economy. They are:

• NCSA and the engineering and computer science fields that support information technology

- Biotechnology in the agriculture and life sciences
- Biotechnology in the health sciences

Existing strengths and major new capital investments in these areas by the state and private donors have positioned the University to leverage these strengths in the future.

Public Service. The University has a longstanding commitment to the communities it serves. Through its outreach units and programs, University faculty and staff provide expertise and resources in business and management, education, natural resources, health, engineering, and the arts. The University organizes and runs hundreds of public services activities around the State, which are cataloged in the University's public service database (www.uops.uillinois.edu/ui-service/).

Each campus has an Office of Continuing Education. Across the University, credit and non-credit courses, degree programs, online courses, conferences, professional development, summer session classes and programs for older adults are offered (www.online.uillinois.edu/). The University of Illinois Extension, a coordinating program offered through the Urbana campus, provides practical, research-based information and programs to help individuals, families, farms, businesses and communities throughout Illinois.

Urbana-Champaign Campus (Urbana)

The Urbana campus is the oldest and largest campus of the University, enrolling more than 44,000 students each year in a wide variety of undergraduate, graduate and professional programs offered by the colleges of agricultural, consumer and environmental sciences; applied health sciences; business; media; education; engineering; fine and applied arts; law; liberal arts and sciences; and veterinary medicine. Urbana also has schools of library and information sciences, social work, and labor and employment relations and an institute of aviation. The campus is internationally known for its leading-edge research programs, outstanding faculty, top-tier alumni, and its many contributions to the state of Illinois, the United States and the world.

The Urbana campus conferred more than 11,500 degrees in Fiscal Year 2011. Doctor's degrees (professional practice) are offered in three fields, doctor's degrees (research/scholarship) in 92 fields, post-master's certificates in 17 fields, master's degrees in 203 fields, bachelor's degrees in 134 fields, and one two-year certificate in aviation.

The Urbana campus is the home of more than 150 research laboratories, institutes and experiment stations, including the Institute for Genomic Biology, Beckman Institute for Advanced Science and Technology, the Center for Nanoscale Science and Technology, the National Soybean Research Laboratory, and the National Center for Supercomputing Applications. Urbana has the largest public university academic library in the country with more than 35 departmental libraries located across the campus. The library acquired its 11-millionth volume in 2009.

Urbana is consistently ranked highly by a variety of publications. The 2012 national rankings from *U.S. News & World Report* include: the College of Engineering ranked sixth (tie) in undergraduate and fifth in graduate programs; the College of Business ranked 14th in undergraduate programs nationally; the College of Education ranked 23rd (tie) in graduate programs; the Master of Fine Arts ranked 21st (tie) in graduate programs; and the Ph.D. programs in computer science and mathematics ranked fifth (tie) and 20th (tie), respectively. The Ph.D. Chemistry program is ranked sixth in graduate programs nationally. The Graduate School of Library and Information Science's programs tied for first in the nation in 2009.

The Urbana campus hosts a total of eight federally funded U.S. Department of Education Title VI Centers in international and area studies, each focusing on a different world region or issue. Over 600 faculty from all colleges on campus are affiliated with one or more of these centers. The campus maintains over 200 active institutional linkages with international partners representing more than 40 different countries around the world. In 2008, Illinois was recognized for its international achievements with the prestigious Senator Paul Simon Award for Campus Internationalization, awarded annually by NAFSA: Association of International Educators.

Faculty members at the Urbana campus have been named to the National Academy of Sciences, the

National Academy of Engineering, and the American Academy of Arts and Sciences and are fellows of the American Association for the Advancement of Science. Two faculty members have been awarded Pulitzer Prizes and 17 alumni (and one graduate of the university high school) have received this honor.

The Urbana campus was chartered in 1867 as one of the 37 original land grant universities. Today, the Urbana campus consists of 705 total buildings (316 main campus buildings), spread across 4,938 acres. More than 10,600 faculty, academic and civil service staff members are employed in Urbana. Near the campus are the University's 1,700-acre Willard Airport, the 1,800-acre Allerton Park and Conference Center, an antenna research site, a radio telescope, an optical telescope, and a radio direction finding and meteor radar site. The University also has about 100 acres of timber reserves located in four counties. Students can use the 70,000 computer connections across the campus and access the network in the more than 250 campus buildings that offer wireless connectivity. More than 90 percent of all classroom seats have wireless access.

Chicago Campus (UIC)

The Chicago campus of the University of Illinois traces its origins to medical colleges that opened during the 1800s. The Chicago-based colleges of pharmacy, dentistry, and physicians and surgeons officially affiliated with the University of Illinois in 1896-97 and were incorporated into the University in 1913. A temporary, two-year branch campus of the University was established after World War II on Navy Pier and students completed their studies in Urbana. Demand in Chicago remained high and, in 1965, the Chicago Circle campus opened west of the Loop area, replacing the Navy Pier site.

UIC was formed in 1982 by the consolidation of the Medical Center and the Chicago Circle campuses of the University. The campus received Carnegie Research 1 status in 1987.

The Chicago campus occupies approximately 350 acres in a mid-city location southwest of Chicago's downtown business district. Including the Rockford and Peoria campuses of UIC brings the total acreage to more than 420 acres. Today, the Chicago campus has more than 15 million gross square feet in more than 130 buildings (including the regional campuses). Almost 100,000 square feet are devoted to research. Students have benefited from the construction and refurbishment of two student recreation and sports centers with a total of more than 240,000 gross square feet at a cost of more than \$45 million. The Rockford campus opened a new 58,000-square-foot addition in 2010 that provides space for new health science initiatives. Throughout the campus, 20 casual gathering spots furnished with couches and comfortable chairs have been established through Project Oasis.

UIC employs more than 11,000 faculty, professional and support staff. The Chicago campus has an enrollment of 28,091 (fall 2011), more than 600 of whom are located at regional medical schools in Peoria, Rockford and Urbana. Degrees are conferred upon more than 6,500 students annually at the Chicago campus. Degree programs are offered in 14 colleges and schools: applied health sciences; architecture and the arts; business administration; dentistry; education; engineering; the graduate college; liberal arts and sciences; medicine; nursing; pharmacy; social work; urban planning and public affairs; and public health. Doctor's degree (professional practice) are offered in 8 fields, doctor's degree (research/scholarship) in 68 fields, post-master's certificates in 11 fields, master's degrees in 117 fields, post-baccalaureate certificates in 3 fields, and bachelor's degrees in 85 fields.

UIC is the largest public university in the Chicago area and is a leader in health-related research. The UIC health sciences center is the largest institutional unit in Chicago's West Side Medical Center District. As an integral part of its research, instruction and public service program, the center operates a major teaching hospital and clinics, with nearly 114,000 inpatient days and over 437,000 outpatient visits annually. The average daily census of patients changed slightly from 317 in Fiscal Year 2010 to 314 in Fiscal Year 2011. The University of Illinois College of Medicine is the largest medical school in the United States, with a longstanding reputation for diversity. The Hispanic Center of Excellence, which strengthens the pipeline of medical school applicants and enriches the education of Latino medical students, is celebrating its 20th anniversary in 2011. Other health science colleges include dentistry, applied health sciences, nursing and pharmacy and the school of public health.

UIC researchers are expected to be awarded nearly \$430 million in funding by the end of FY11. The Chicago campus received more than \$310 million in Federal support for research, primarily from the National Institutes of Health, because of its strong medical and healthcare programs. The top-ten ranked College of Pharmacy

ranks fourth among U.S. colleges of pharmacy for National Institutes of Health research funding. UIC is the fourth-ranked research and development-intensive university in the state and 57th nationally based on expenditures.

UIC's engagement with the Chicago metropolitan area is embodied in the Great Cities Commitment, an umbrella name for the hundreds of teaching, research and service programs that connect the campus with the community. Industry partnerships, internships, business and entrepreneurial development, infrastructure improvement and neighborhood revitalization are examples of how the campus' partnership with Chicago benefits urban neighbors as well as faculty and students.

Faculty members serve as heads of national associations and societies, are the recipients of national research, teaching and achievement awards, and are members of international and national honor societies. More than a dozen faculty are listed among the most highly cited researchers in their fields.

Springfield Campus (UIS)

The University of Illinois at Springfield (UIS) is a small public university with innovative, high-quality liberal arts programs. UIS enrolls more than 5,000 students (fall 2011) in 24 bachelor's degree, 6 post-baccalaureate certificates, 23 master's degree programs, three post-master's certificates as well as one doctoral program in public administration. The campus awarded more than 1,300 degrees in 2010-2011, many to online students whose first time on campus is for their graduation ceremony.

UIS is a national leader in online education. The campus received the 2007 Excellence in Institution-Wide online teaching and learning programming award and the 2008 Gomory Award for quality online education from the Sloan Consortium, a group of institutions and organizations committed to quality online education. Two UIS staff members have been recipients of the Sloan Consortium's individual outstanding achievement award.

Academic programs range from traditional disciplines such as English, history, psychology and biology to more career-oriented concentrations such as business administration, management information systems, criminal justice, accountancy and social work. UIS offers a four-year baccalaureate program for high-achieving students called the Capital Scholars Honors Program. The Springfield campus has been a four-year university since 2006.

Norris L. Brookens Library supports UIS with a collection of more than 566,000 volumes (including nearly 30,000 e-books); more than 2,000 DVD/CDs; over 1,860,000 microforms; and provides access to more than 125 databases containing journal articles and other research materials. The collection also contains nearly 200,000 government documents.

Other campus resources include the Public Affairs Center with the 2,000-seat Sangamon Auditorium performing arts center, conference facilities and the campus bookstore. The Health and Sciences Building houses the Visual Arts Gallery, science laboratories and a number of computer labs. Founders Hall, an environmentally friendly, 200-bed residence hall, opened on the campus in the fall of 2008. The 62,000 gross-square-foot structure also houses the campus bookstore and a café.

The Center for State Policy and Leadership is instrumental in carrying out UIS's unique public affairs focus by identifying and addressing issues of state and national public policy and promoting governmental effectiveness and civic engagement. The Center offers a graduate public service internship program and hosts the annual Lincoln Legacy lecture series. Among the nine units of the center are *Illinois Issues* magazine, WUIS/WIPA public radio and the Institute for Legislative Studies.

Accreditations and Memberships

The University is fully accredited in all of its departments and divisions by the North Central Association of Colleges and Schools. In addition, University programs are individually accredited by more than 30 professional associations, including American Library Association, American Psychological Association, American Bar Association, American Veterinary Medical Association, and Association to Advance Collegiate Schools of Business. The University is a member of the American Council of Education and the Association of American

Universities.

2012 Budget and State Appropriations

The University receives a major portion of the revenues needed to sustain its educational and research activities from state appropriations, tuition revenues and the Federal government. The state appropriation reflected in the University's budget for Fiscal Year 2012 reflects a 3.2% decrease from Fiscal Year 2011 to \$694.0 million. Payments on behalf reflected in the budget increased by 9.7% or \$70.0 million, to \$793.3 million. In September 2011, the Board approved a final operating budget for Fiscal Year 2011 that provided a 5.2% increase over the final Fiscal Year 2011 operating results. The table below shows the components of the Fiscal Year 2012 budget compared with the final amounts from the adjusted Fiscal Year 2011 budget. General operating funds were reduced by 1.1% from Fiscal Year 2011 and the remaining decrease is related to a technical issue in funding for the State

The Governmental Accounting Standards Board ("GASB") Statement 24 (Accounting and Financial Reporting for Certain Grants and Other Financial Assistance) requires State universities to recognize in their financial statements and notes the amount the State contributes to the State Universities Retirement System of Illinois ("SURS") on behalf of the University employees. The amount recognized each year has been relatively consistent.

The State of Illinois had not had a significant capital program since FY 2003. Funding for several years in the first decade of the 2000's was sporadic at best. However, FY 2010 marked a change, albeit temporary, as several projects were appropriated by the legislature and released by the Governor. In FY 2010 the University was encouraged to obtain appropriations in the amount of \$255 million dollars for ten projects. To date the majority of those projects have been funded and in several cases the facility constructed or under construction. \$60 million dollars dedicated for the Petascale facility to house the world's most powerful computers was released and the facility has been constructed and is currently in use. The same holds true for \$14.8 million dollars in construction funds for the College of Medicine at Rockford as that facility is complete and in service at this time. Construction

funds in the amount \$57 million for Lincoln Hall project was also released and that project is under construction with an occupancy date of fall 2012. A full release of the \$32 million in repair and renovation funds has been realized and those funds will be deployed toward critical remodeling projects on each of the three University campuses. Additionally a partial release of \$2.5 million dollars was released to begin planning the Dentistry Building Modernization at the Chicago campus. Other recent positive news includes the release of construction funding of \$44 million and \$20 million respectively for the Electrical and Computer Engineering Building and the Integrated Bioprocessing Research Lab, facilities at the Urbana Champaign campus. The University is encouraged by funding of these recent capital appropriations and hopes to benefit from a more stable and measured capital funding plan in the near future.

Outstanding Indebtedness and Leasehold Obligations

The Board and the University have debt outstanding as of June 30, 2011, including:

- (i) University of Illinois Health Services Facilities System Revenue Bonds, Series 1997B (the "Series 1997B Health Facilities Bonds") and the Variable Rate Demand Health Services Facilities System Revenue Refunding Bonds, Series 2008 (the "Series 2008 Health Facilities Bonds," collectively with the Series 1997B Health Facilities Bonds, the "Health Facilities Bonds"). The Series 1997B Health Facilities Bonds were issued to finance a portion of the costs of the construction and equipping of an outpatient care center on the Chicago campus and a medical office building in Rockford, Illinois. The Series 2008 Health Facilities Bonds were issued June 26, 2008, together with certain other available monies, to refund the Series 2007 Health Facilities Bonds. (The Series 2007 Health Facilities Bonds were defeased on July 28, 2008.) The Health Facilities Bonds are secured by the net revenues of the Health Services Facilities System, revenues received from the Board's medical services plan and a lien on Student Tuition and Fees generated at the College of Medicine subordinate to the AFS Bonds (defined below in paragraph (ii)) but prior to the South Campus Bonds. As of June 30, 2011, there were \$17,800,000 Series 1997B and \$41,215,000 Series 2008 Health Facilities Bonds outstanding;
- (ii) University of Illinois Auxiliary Facilities System Revenue Bonds, Series 1991, Series 1999A, Series 1999B, Series 2001A, Series 2001B, Series 2001C, Series 2003A, Series 2005A, Series 2006, Series 2008, Series 2009A, and Series 2010A (together, the "AFS Bonds"). The AFS Bonds were issued to fund improvements to the University's Auxiliary Facilities System. The AFS Bonds are secured by Net Revenues of the Auxiliary Facilities System and a lien on Student Tuition and Fees prior to the Health Facilities Bonds and the South Campus Bonds. As of June 30, 2011, there were \$955,021,009 AFS Bonds outstanding (including capital appreciation bonds at their compound accreted value at June 30, 2011); and
- (iii) University of Illinois UIC South Campus Development Project Taxable Revenue Bonds, Series 2000, and UIC South Campus Development Project Revenue Bonds, Series 2003, were issued to finance the cost of acquiring, equipping and improving certain facilities and improvements at the University's South Campus Development Area (the "Area") in Chicago, and the Variable Rate Demand UIC South Campus Development Project Revenue Refunding Bonds, Series 2008 (such Series 2000, Series 2003 and Series 2008 Bonds collectively, the "South Campus Bonds"), were issued to advance refund outstanding UIC South Campus Development Project Revenue Bonds, Series 2006A, which were issued for such purposes. The South Campus Bonds are secured by (a) certain incremental taxes to be received from the City of Chicago with respect to the Area, (b) Student Tuition and Fees, subordinate to the Health Facility Bonds and the AFS Bonds described above, and (c) funds on deposit in the UIC South Campus Development Bond and Interest Sinking Fund Account (into which the Board may, but is not required, to deposit funds). The Series 2000 Bonds are additionally secured by a portion of the funds derived from certain sales of real property in the Area. As of June 30, 2011, there were \$66,325,000 South Campus Bonds outstanding.

As of June 30, 2011, the University had a total principal amount of \$1,080,361,009 of Bonds outstanding (including capital appreciation Bonds at their compound accreted value as of June 30, 2011, referred to as "CABs"), which are summarized as follows:

Future Capital Plans

The Board has an ongoing capital improvement program consisting of new construction and renovation of existing facilities. Capital improvements are expected to be funded from a variety of sources including gifts, state capital funds, revenue and lease financing and University funds.

The Board may also from time to time refund or refinance its outstanding bonds, lease purchase obligations or installment purchase obligations to restructure its indebtedness or to take advantage of more favorable interest rate levels.

Faculty

The University has over 5,600 full-time equivalent faculty. Approximately half of all faculty are tenured, including those that are neither tenure nor tenure-track. Of those in the tenure track, about three-fourths are fully tenured. Scores of faculty members have been elected to distinguished academic societies such as the American Academy of Arts and Sciences, the American Philosophical Society, the National Academy of Sciences and the National Academy of Engineering.

^{*} Based on the Illinois Board of Higher Education definition of full-time equivalency. Undergraduate student full-time equivalent is computed as the total number of fall semester credit hours divided by 15. Graduate and professional student full-time equivalent is computed as the total number of fall term semester hours divided by 12. Credit hours are included for students enrolled in coursework with zero credit at UIC and UIII IC.

Note: Does not include students who were enrolled off-campus, on-line, and in home study programs. In Fall 20102011 there were 4,2354,144 of these students (511 at Chicago, 541;1,827 at Springfield, 1,777;and 1,806 at Urbana-Champaign, 1,917). Off-campus data is not yet available for Fall 2011.).

Because of space limitations, the Urbana-Champaign campus annually denies admission to a number of fully qualified applicants. Demand for programs at the Urbana-Champaign campus, especially those in engineering, the sciences and business, continues to be extremely high, so that even if the overall pool of high school graduates declines, the campus is likely to be able to retain its current level of enrollment without any significant loss of the extremely high quality of the student body. In addition, new efforts are planned to identify highly qualified applicants from outside the State to enhance the overall diversity of the undergraduate student body.

The Chicago campus consistently has attracted students from a more diverse age group than the traditional 18-21-year-old undergraduates. These older students are typically employed full or part-time, and represent a continuing source of new enrollment prospects. Enrollments in the programs for health professionals are limited by the amount of facilities available to serve such students. The demand for admission to the programs remains strong.

The on-campus student body of UIS is currently composed of 66% undergraduate students and the rest graduate students, a large proportion of whom are employed adults who attend part-time and appreciate the abundant class offerings in the evening. Most UIS students come from the central Illinois area, but a number of degree programs attract students from other regions of Illinois, other states and other nations. UIS emphasizes excellence in teaching and active learning. Faculty are teacher-scholars who maintain strong connections to state government, business, and not-for-profit organizations, providing students with extraordinary internship opportunities. UIS is also a national leader in online education, offering select high-quality online degrees, particularly in the liberal arts.

Tuition and Fees

The University operates its programs on a two-semester and summer session basis. Fees, tuition and other educational costs of attending the University vary by campus, program and resident status. General undergraduate tuition rates for the 2011-2012 academic year range from \$15,510 to \$25,996 for non-residents and \$6,360 to \$11,104 for State residents depending primarily on the campus attended and the year of admittance. General graduate tuition rates range from \$6,978 to \$10,908 for State residents and \$15,282 to \$24,174 for non-residents depending on the campus attended. Professional schools of law, medicine, veterinary medicine, dentistry, pharmacy and physical therapy have separate tuition rate schedules, depending on the program of study.

Pursuant to the University of Illinois Act, subject to certain conditions, for an undergraduate student who is an Illinois resident and who first enrolls at the University after the 2003-2004 academic year, the tuition charged for 4 continuous academic years following initial enrollment shall not exceed the amount that the student was charged at

the time the student enrolled in the University.

In March 2011, the Board approved increases for fall 2011 in the guaranteed tuition level for entering resident full-time general undergraduate students of \$359 per semester at the Urbana campus, \$315 per semester at the Chicago Campus and \$18.75 per credit hour at the Springfield campus. The Board also approved comparable increases in the non-guaranteed tuition level for resident full-time general undergraduate students at each campus. The Board also approved increases in the tuition level for resident general graduate students of \$352 per semester at the Urbana campus, \$335 per semester at the Chicago Campus and \$8.50 per credit hour at the Springfield campus. In addition there are differential tuition increases for students who are enrolled in several special undergraduate and graduate degree programs. Undergraduate International students at Urbana are assessed a tuition surcharge above the non-resident rate.

Financial Aid to Students

Students at the University of Illinois receive financial assistance in a variety of ways:

State and Federal Scholarships, Grants, Fellowships and Traineeships. These come primarily through the Illinois Student Assistance Commission and Federal Pell Grant program. However, all are supplemented by a significant amount of private funds administered by the University.

Loans. Most loans are subsidized with respect to the timing and/or amount of the effective interest rate by the Federal government, although many are administered through the Illinois Guaranteed Loan Program.

Tuition and Fee Waivers. Some are need-based, but the dollar value of most are related to the employment of graduate teaching and research assistants, who not only receive a stipend for their employment but also receive a waiver of tuition and fees.

University-provided Employment. The University employs both graduate assistants for whom the stipend provides a major source of income, and undergraduates, who depend on the job as a significant component of their total college budget.

The <u>abovebelow</u> sources of financial aid totaled more than \$1.2531.3 billion in Fiscal Year 2010,2011, an average of more than \$14,90015,400 per student enrolled. The average does not reflect the fact that much of the aid was directed at needy undergraduates and graduate assistants.

Voluntary Support

The University of Illinois Foundation (the "Foundation") is an independent nonprofit corporation that raises and receives private gifts, administers funds and manages assets to enhance the quality of the University and its programs. Gifts to the University's three campuses and the Foundation totaled \$216.6 million for Fiscal Year 2011. On June 1, 2007, the University announced a new fundraising campaign, Brilliant Futures, with a goal of \$2.25 billion. As of September 30, 2011, the campaign has raised \$2.283 billion or more than 101.5% of the goal.

University and Foundation Investments

The University's investments provide funds to support University academic programs and student related activities. Endowment and Similar Funds consist of both restricted and unrestricted funds, which are accounted for and invested as endowment. Income from endowments is distributed to unrestricted and restricted fund groups according to the designation of the donor. Income from other invested funds is distributed at the University's discretion. The Foundation held approximately \$1,353 million in cash and investments as of June 30, 2011, which is included in Endowment and Similar Funds in the table below.

The fair value of the University's and the Foundation's investments at the end of each of the past five Fiscal Years is summarized as follows:

Employee Relations

Employees of the University are generally covered, pursuant to statute, by the State Universities Civil Service System, a separate entity of the State of Illinois under the control of the University Civil Service Merit Board. The statute exempts faculty, principal administrative employees, and student workers from its coverage. Effective January 1, 1984, all employees of the University (including faculty) gained the right to bargain collectively with the University by virtue of the passage of the Illinois Educational Labor Relations Act. This act provides for the right to bargain on conditions of employment, the right to strike and the right to negotiate for a service fee for the elected employee representative group. Of the University's approximately 25,800 full-time faculty, administrative, and support staff employees for Fiscal Year 2010, approximately 30% (none of whom are faculty) are represented by 43 separate collective bargaining units.

The University believes its employee relations are satisfactory.

Retirement Benefits

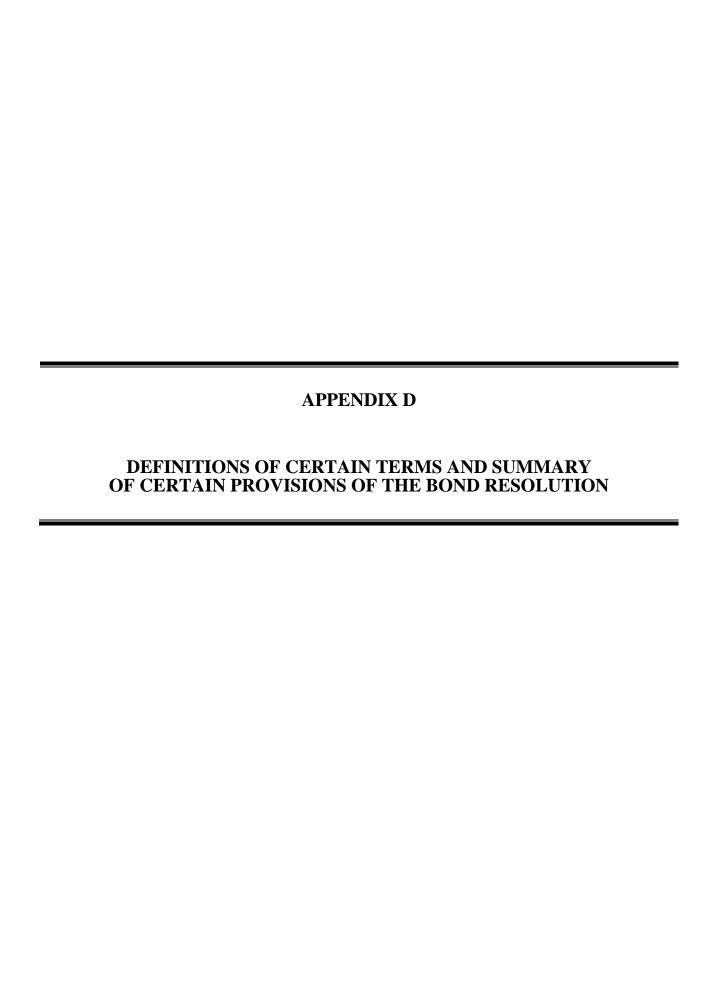

Retirement benefits are provided for substantially all full-time employees under a separately created retirement plan administered by the State Universities Retirement System of Illinois (SURS). The liability of SURS relating to University participants is not a liability of the Board.

SUMMARY OF CERTAIN PROVISIONS OF THE BOND RESOLUTION

The Series 2011 Bonds will be issued under the Bond Resolution adopted by the Board on September 20, 1984, as supplemented and amended. Reference is made to the Bond Resolution for complete details of the terms of the Series 2011 Bonds and the security for the Series 2011 Bonds. Certain provisions of the Bond Resolution are summarized under the heading "SECURITY AND SOURCES OF PAYMENT FOR THE BONDS." The following is a summary of certain additional provisions of the Bond Resolution and should not be considered as a full statement of the Bond Resolution.

BOND PROCEEDS

The proceeds of the Series 2011 Bonds will be used to (i) refund certain outstanding obligations of the Board and (ii) pay costs of issuing the Series 2011 Bonds.

FLOW OF FUNDS

The Operating Revenues of the System shall be deposited as collected by the Comptroller of the Board in a general banking account of the University to the credit of a special fund created and designated as the Auxiliary Facilities System Revenue Fund (the "Revenue Fund") which fund will be maintained by the Bond Registrar. The Comptroller shall also deposit in the Revenue Fund such Student Tuition and Fees as shall be necessary together with Operating Revenues to meet (i) operating and maintenance expenses of the System and (ii) together with transfers, if any, of investment income from the Debt Service Reserve Account to the Bond and Interest Sinking Fund Account (which investment income shall be applied to debt service only on those Bonds secured by the Debt Service Reserve Account), annual debt service on the Bonds and required deposits to the Debt Service Reserve Account and Repair and Replacement Reserve Account, all as required by the Bond Resolution.

The Bond and Interest Sinking Fund Account shall be held in trust by the Bond Registrar for the benefit of the Owners of the Bonds. All moneys credited to such Account shall be irrevocably pledged to and used solely for payment of interest on the Bonds and for payment, redemption, and retirement of principal of the Bonds; *provided* that moneys credited to the Debt Service Reserve Account are not pledged to, and will not be used to pay debt service on, the Series 1999 Bonds, the Series 2001 Bonds, the Series 2003A Bonds, the Series 2005A Bonds, the Series 2006 Bonds, the Series 2010B Bonds or the Series 2010A Bonds, the Series 2011B Bonds or the Series 2011 Bonds.

All moneys in the funds and accounts established pursuant to the Bond Resolution shall be used and held for use only in the manner and in the order designated below.

Operation and Maintenance. Current expenses of the System shall be payable from the Revenue Fund as the same become due and payable and shall include all necessary operating expenses, current maintenance charges, expenses of reasonable upkeep and repairs, fees due the Bond Registrar on the Bonds, a properly allocated share of charges for insurance and all other expenses incident to the operation of the System. At the end of each Fiscal Year, the Board may retain in the Revenue Fund moneys sufficient for operation and maintenance expenses for the next 30 days as an operating reserve.

Bond and Interest Sinking Fund Account. The Comptroller, after providing for the payment of current operating and maintenance expenses, shall transfer from the Revenue Fund, and deposit to the credit of the Bond and Interest Sinking Fund Account such amounts, together with any investment income transferred from the Debt Service Reserve Account and deposited to the Bond and Interest Sinking Fund Account for the purpose of paying maturing principal and interest (which investment income shall be applied to debt service only on those Bonds secured by the Debt Service Reserve Account and not to any other Bonds), as will be sufficient to pay the principal and interest on the Bonds as they become due.

For Parity Bonds, the supplemental resolution creating the issue shall amend the provisions of the Bond Resolution summarized in the preceding paragraph, as necessary, to provide for the deposit of moneys in the Bond and Interest Sinking Fund in sufficient amounts to pay or redeem such Parity Bonds in accordance with the terms thereof.

Debt Service Reserve Account. The Prior Parity Bonds, except for the Series 1999 Bonds, the Series 2001 Bonds, the Series 2003A Bonds, the Series 2005A Bonds, the Series 2006 Bonds, the Series 2008 Bonds, the Series 2009A Bonds, the Series 2010A Bonds and the Series 2011 Bonds are secured by income received from, and funds deposited in, the Debt Service Reserve Account. None of the Series 1999 Bonds, the Series 2001 Bonds, the Series 2003A Bonds, the Series 2005A Bonds, the Series 2006 Bonds, the Series 2010A Bonds, the Series 2011A Bonds, the Series 2011B Bonds or the Series 2011 Bonds have any claim upon the Debt Service Reserve Account.

With respect to the issuance of future Parity Bonds, the Board may create subaccounts in the Debt Service Reserve Account securing a particular series of Parity Bonds, or the Board may provide that a particular series of Parity Bonds to be issued (i) shall not be secured by the Debt Service Reserve Account, (ii) shall be secured by a separate subaccount in the Debt Service Reserve Account in an amount equal to or less than the Maximum Annual Net Debt Service on such Parity Bonds, or (iii) shall be secured by a Reserve Account Credit Instrument.

Any subaccount securing any future issue of Parity Bonds shall be maintained in an amount equal to the requirement provided in the supplemental Resolution authorizing the issuance of such Parity Bonds (the "Reserve Requirement") for the Parity Bonds secured by such subaccount. Funds on deposit in such subaccount shall be transferred by the Bond Registrar to the Bond and Interest Sinking Fund Account and used to pay debt service on the Parity Bonds secured by such subaccount in the event funds on deposit in the Bond and Interest Sinking Fund Account are

insufficient therefor. If at any time the amount on deposit in the subaccount exceeds the Reserve Requirement for the Parity Bonds secured thereby, the excess may be withdrawn and used to pay debt service on such Parity Bonds or to purchase or redeem such Parity Bonds.

The Debt Service Reserve Account shall be held in trust by the Bond Registrar. All moneys credited to the Debt Service Reserve Account shall be irrevocably pledged to and solely used as described in the Bond Resolution.

If at the end of any Fiscal Year the amount on deposit in a subaccount of the Debt Service Reserve Account (valued on the basis of market) is less than the Reserve Requirement for the Bonds secured thereby, the Comptroller shall transfer funds from the Revenue Fund and deposit into the subaccount not later than the end of the next succeeding Fiscal Year an amount not less than that necessary to restore the subaccount to the Reserve Requirement for the Bonds secured thereby.

The Board may provide for the deposit of a Reserve Account Credit Instrument in lieu of cash to satisfy the Reserve Requirement in the Debt Service Reserve Account for any future Parity Bonds; provided that in such event the Board shall create a separate subaccount in the Debt Service Reserve Account to secure such Parity Bonds, and such Parity Bonds shall have no claim on any other cash or assets in the Debt Service Reserve Account.

Repair and Replacement Reserve Account. The Comptroller shall transfer from the funds remaining in the Revenue Fund and deposit in the Repair and Replacement Reserve Account on or before the close of each Fiscal Year, an amount not less than ten percent (10%) of Maximum Annual Net Debt Service for a repair and replacement reserve. The maximum amount which may be accumulated in such Account shall not exceed five percent (5%) of the replacement cost of the facilities constituting the System, as determined by the then current Engineering News Record Building Cost Index (or comparable index). All money and investments so held in said Account shall be used and held for use to pay the cost of unusual or extraordinary maintenance or repairs, renewals and replacements, and renovating or replacement of fixed equipment not paid as part of the ordinary maintenance and operation of the System. Moneys on deposit in the Repair and Replacement Reserve Account are not pledged as security for the payment of the Bonds.

Non-Instructional Facilities (Development) Reserve Account. The Comptroller shall transfer from funds remaining in the Revenue Fund and deposit into the Non-Instructional Facilities (Development) Reserve Account such funds as have been approved by the Board for expenditure or planned for expenditure for new space or construction in, or an addition to, a facility constituting a part of the System consistent with the purpose and mission of that facility. Moneys on deposit in the Non-Instructional Facilities (Development) Reserve Account are not pledged as security for the payment of the Bonds.

Equipment Reserve Account. Prior to the close of each Fiscal Year, the Comptroller shall transfer from the funds remaining in the Revenue Fund and deposit to the Equipment Reserve Account such funds as have been approved by the Board for expenditure in connection with the acquisition of movable equipment to be installed in the facilities constituting the System. The maximum amount which may be accumulated in such Account shall not exceed 20% of the book value of the movable equipment of the System. Moneys on deposit in the Equipment Reserve

Account are not pledged as security for the payment of the Bonds.

Surplus Revenues. At the close of each Fiscal Year and after all transfers and maximum deposits shall have been made, and after any deficiencies in any such transfers and deposits which may exist from any previous Fiscal Year shall have been remedied, the balance of any excess funds in the Revenue Fund then remaining may be used by the Board: (i) to redeem, on the next interest payment date, the Bonds of any series then outstanding which are subject to redemption prior to maturity; (ii) to purchase Bonds of any series then outstanding for cancellation by the Bond Registrar; (iii) to advance refund any series of Bonds then outstanding or (iv) for any other System purpose permitted by law and applicable regulations.

Investment of Revenue Fund Accounts. Any moneys in the Debt Service Reserve Account may be invested or reinvested in Government Obligations having a maturity not exceeding ten years from the date of each such investment. Moneys held in the Bond and Interest Sinking Fund Account may be invested in Government Obligations. All such securities so purchased shall mature or be redeemable on a date or dates prior to the time when such moneys so invested will be required for expenditure.

All other moneys held in the other accounts in the Revenue Fund may be invested or reinvested in any investments permitted by the Bond Resolution and the laws of the State of Illinois for the investment of public funds. All such securities so purchased shall mature or be redeemable on a date or dates prior to the time when such moneys so invested will be required for expenditure.

Interest on each subaccount of the Debt Service Reserve Account will be deposited in the Bond and Interest Sinking Fund Account and used to pay the principal of and interest on the Bonds secured by the respective subaccount.

GENERAL COVENANTS

Under the provisions of the Bond Resolution, the Board covenants and agrees with the holders of the Bonds, as long as any of said Bonds remain outstanding, as follows:

Student Tuition and Fees. The Board will deposit annually to the Revenue Fund an amount of Student Tuition and Fees sufficient, together with Operating Revenues, to meet (i) operating and maintenance expenses of the System and (ii) together with transfers, if any, of investment income from the Debt Service Reserve Account to the Bond and Interest Sinking Fund Account (which investment income shall be applied to debt service only on those Bonds secured by the Debt Service Reserve Account), annual debt service and required deposits to the Debt Service Reserve Account and Repair and Replacement Reserve Account, as provided in the Bond Resolution.

Insurance. The Board will keep the System continuously insured against loss or damage by fire and lightning, the perils covered by fire and extended coverage insurance, vandalism or malicious mischief, and boiler explosion on boilers in a facility within the System in an amount not less than \$100,000, but with a deductible amount per occurrence not exceeding \$25,000, by a responsible insurance company or companies authorized and qualified under the laws of the State to assume such risks. Coverage by such insurance, other than the boiler insurance hereinabove

referred to, shall be in amounts sufficient to provide for, at a minimum, the lesser of (i) full recovery whenever the loss from causes covered by such insurance does not exceed 80% of the full insurable value of the part of the System so damaged or (ii) the redemption price, plus accrued interest to the next available call date, of all outstanding Bonds after deducting therefrom any cash or investments held in the Debt Service Reserve Account (if the Debt Service Reserve Account secures such Bonds) but any such policy may have a deductible amount per occurrence not exceeding one-tenth of one percent of the full insurable value of the System. The Board may, upon (i) resolution adopted in good faith, (ii) the recommendation of an independent insurance consultant and (iii) the approval of an appropriate agency, if any, of the State, adopt reasonable equivalent alternative risk management programs. The Board shall (i) use the proceeds from any insurance to reconstruct, repair or rehabilitate the part of the System damaged or destroyed or (ii) pay such proceeds into the Bond and Interest Sinking Fund Account, which funds may be used to redeem outstanding Bonds but shall not offset or be counted as funds which are otherwise required to be deposited in such account.

Business Interruption Insurance. The Board will maintain in effect business interruption insurance on the System in an amount sufficient for the Board to deposit in the Bond and Interest Sinking Fund Account, out of the proceeds of such insurance, an amount equal to the sum that would normally be available for deposit in such account from the revenues of the damaged part of the System during the time the damaged part of the System is non-revenue producing as a result of loss of use caused by fire and lightning, the perils covered by fire and extended coverage insurance, vandalism or malicious mischief, and boiler explosion on boilers in a facility within the System.

Title-Disposition-Encumbrance. The Board has indefeasible title in fee simple to the sites of the System, except for certain leased parking spaces, subject to Permitted Encumbrances, and the Board will not sell, mortgage, pledge or otherwise dispose of or encumber the System, or its sites, or any part of the System, except for equipment, including any facility necessary to the operation and use of the System (unless the service provided by such facility will be provided by the same or an alternative source at reasonably equivalent costs), provided that any property, when determined by the Board not to be income producing because of being destroyed, worn out, obsolete, or otherwise physically or structurally unfit for the use and occupancy of such property for which the same was initially acquired, may be abandoned for economic nonfeasibility; or, when otherwise determined by the Board not to be suitable for the use and occupancy for which the same was initially acquired, may be converted for academic or administrative purposes.

"Permitted Encumbrances" means with respect to the sites of the System (i) liens for taxes and special assessments which are not then delinquent, or if then delinquent, are being contested in good faith; (ii) utility, access and other easements and rights-of-way, restrictions and exceptions that will not interfere in any substantial way with or impair the operation of the System; (iii) any mechanic's, laborer's, materialman's, supplier's or vendor's lien or right in respect thereof if payment is not due under the contract in question or if such lien or payment is being contested in good faith; (iv) such minor defects, irregularities, encumbrances, easements, rights-of-way and clouds on title as normally exist with respect to properties similar in character to the property included in the System and do not materially impair the property affected thereby for the purpose for which it was acquired or is held; (v) zoning laws and similar restrictions and

liens arising in connection with workmen's compensation, unemployment insurance, taxes, assessments, statutory obligations or liens, social security legislation, undetermined liens and charges incidental to construction, or other similar charges arising in the ordinary course of operations and not overdue, or if overdue, being contested in good faith; (vi) such other liens and charges at the time required by law as a condition precedent to the transaction of the activities of the Board or the exercise of any privileges or licenses necessary to the Board or the University; and (vii) existing leasehold and similar interests in connection with athletic and recreation facilities constituting a part of the System.

Operation of Facilities. The Board will at all times continuously operate and manage the System in an efficient and economical manner and on a revenue-producing basis; and it will at all times, from income made available for such purpose, maintain, preserve and keep the System in good repair, working order and condition so that it will at all times be available for reasonable use and occupancy.

Records and Audit. The Board will keep proper books of records and accounts (separate from all other records and accounts of the Board) in which complete and correct entries shall be made of all transactions relating to all income and revenues from and all expenditures for maintaining, operating and repairing the System. There shall be furnished to any owner of the Bonds, upon written request to the Board not more than 120 days after the close of each Fiscal Year, copies of the audit reports prepared by an independent public accountant or by the Auditor General of the State of Illinois, reflecting in reasonable detail the financial condition of the Board with the operation of the System in accordance with the covenants of the Bond Resolution. Such audit reports shall particularly include a schedule of all insurance then in force, the enrollment at the University, the occupancy of and the rates charged for the use of the System and the status of each account described in the Bond Resolution.

Pledge of Performance. The Board pledges punctually to perform all its duties and obligations with reference to the System as required by the Bond Resolution and the statutes under which the Bonds are issued; including the operation and maintenance of the System, the making and collecting of sufficient rates, fees, rentals and charges for the use and occupancy of the System and the making and collecting of reasonable and sufficient Student Tuition and Fees, the maintenance of the accounts as provided in the Bond Resolution, the segregation of all revenues and income and transfer to said accounts and the proper application of all moneys in said accounts and investments of such revenues and income.

Defeasance. The Bond Resolution provides that the Board may pay or provide for the payment of the entire indebtedness of all outstanding Bonds, or Bonds of a particular series or of any portion of a series of outstanding Bonds, by depositing with the Bond Registrar, in trust, moneys and/or Government Obligations in an amount as the Bond Registrar shall determine will, together with the income or increment to accrue on such Government Obligations, without consideration of any reinvestment thereof, be fully sufficient to pay or redeem (when redeemable) and discharge the indebtedness on such Bonds. In such case, if the Board shall also pay or cause to be paid all other sums payable by the Board under the Bond Resolution with respect to such Bonds and, if such Bonds are to be redeemed prior to the maturity thereof or if provision for the payment of only a portion of the Bonds of a particular series is being made, notice of such redemption or of such provision, as the case may be, shall have been given or

provided for, the liability of the Board in respect of such Bonds shall continue, but the owners of such Bonds shall thereafter be entitled to payment only out of the moneys or Government Obligations so deposited with the Bond Registrar.

Modification of the Bond Resolution. The Board may, from time to time and at anytime, without the consent of or notice to the owners of the Bonds, amend the Bond Resolution as follows:
