

**University of Illinois Board of Trustees Meeting
January 15, 2015**

University of Illinois Hospital,
part of the University of Illinois Hospital & Health Sciences System

Medical Staff Credentialing Report

The Joint Commission (TJC) requires that the Board of Trustees receive a report on the credentialing of members of the University of Illinois Hospital medical staff on an annual basis. The Credentials Committee of the Medical Staff reviews every application for privileges to determine if appropriate standards are met. The recommendations of the Credentials Committee are passed on to the Medical Staff Executive Committee during the monthly Medical Staff Executive Committee Meeting. If approved, the recommendations from the Medical Staff Executive Committee are then passed along to the University Healthcare System Committee of the Board of Trustees for review and approval. The Joint Commission requires active involvement of the Board of Trustees as the entity to which the health system reports.

In 2014, there were 136 new members appointed to the Medical Staff. During 2014, there were 127 resignations from the medical staff. Also during 2013, there were 385 members reappointed.

New members appointed to the medical staff are required to have a Focused Professional Practice Evaluation (FPPE). Active members of the medical staff that submit an application for reappointment undergo an Ongoing Professional Practice Evaluation (OPPE). Both FPPE and OPPE evaluations are reviewed and recommended by the organized medical staff committees and documentation of review is included in the Credentials Committee meeting minutes that are forwarded for approval by the University Healthcare Committee, sub-committee of the Board of Trustees.

No members were expelled.
