### **Medical Staff Credentialing Report**

The Joint Commission (TJC) requires that the Board of Trustees receive a report on the credentialing of members of the University of Illinois Hospital medical staff on an annual basis. The Credentials Committee of the Medical Staff reviews every application for privileges to determine if appropriate standards are met. The recommendations of the Credentials Committee are passed on to the Medical Staff Executive Committee during the monthly Medical Staff Executive Committee Meeting. If approved, the recommendations from the Medical Staff Executive Committee are then passed along to the Healthcare Committee of the Board of Trustees for review and approval. The Joint Commission requires active involvement of the Board of Trustees as the entity to which the health system reports.

In 2012, there were 136 new members admitted to the Medical Staff. Individuals who join the medical staff are required to have a Focused Professional Practice Evaluation (FPPE). This is completed in conjunction with the clinical department.

During 2012, there were 119 resignations from the medical staff. Also during 2012, there were 386 members reappointed. Individuals who are on the medical staff and applying for reappointment are required to undergo Ongoing Professional Practice Evaluation (OPPE). These reviews are completed in conjunction with the clinical department.

No members were expelled.
