The Interim Vice President, University of Illinois, and Interim Chancellor, University of Illinois at Springfield with the advice of the Springfield Senate recommends approval of a proposal from the College of Public Affairs and Administration to establish the Bachelor of Arts degree in Environmental Studies.

The establishment of the Environmental Studies (ENS) Bachelor of Arts Degree Program will further develop a growing area of study at the Springfield campus, which currently offers both graduate degrees and a minor in ENS. This degree will provide students with the skills to engage in the many processes that are necessary to confront the challenges citizens, businesses, governments, and non-governmental organizations face in light of rapidly changing modern global environmental issues.

Environmental concerns are of growing importance in both the private and public sectors, requiring the attention of a variety of stakeholders. This program will offer a multi-disciplinary curriculum with interdisciplinary learning goals, incorporating
natural sciences, social sciences, and humanities to ensure that graduates will gain a holistic understanding of complex environmental concerns and ethical implications while providing analytical tools for understanding and engaging in concerns related to the natural and social world.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois Statutes, The General Rules Concerning University Organization and Procedure, and Board of Trustees policies and directives.
