

Offices of Technology Management

University of Illinois at Chicago

- Research collaboration between a former UIC inventor- Dr Arun Ghosh and the National Institute of Health/ PHS has resulted in an FDA approved HIV protease inhibitor drug known as **Prezista**. Prezista's sales potential may be \$25M this year, \$181M in 2008, and \$781M by 2010.
- Commenced license enforcement proceedings against **Organon** regarding royalty underpayment for **Tice® BCG tuberculosis vaccine**, based on license audit.
- In the UIC business plan competition, first place was awarded to **Optimal Vision Corporation**, of which Dr. Jay Vijayan (tech manager and MBA student) is one of three owners. One of the two third place winners was **FinerFlow Corporation**, owned by Shayan Sartipi (MBA student and tech manager) and Jillian O'Neill (junior analyst and MBA student). Both companies were developed around UIC technologies and both will be given an opportunity to represent UIC in regional and national business plan competitions in their respective technologies.

University of Illinois at Urbana-Champaign

- Start-ups licensed: **Semprius, DzymeTech, Quicksilver Scientific, & Solidware**
- Co-hosted a seminar on Intellectual Property Basics, more than 100 faculty, staff & students attended
- Visited with **Intervet** – a leading producer of animal vaccines – 2 potential licenses under negotiation
- Presentation by the Director at a local chapter of the American Chemical Society

*Preliminary data **2007 figures do not include patent reimbursement – 2006 Q2 and YTD were adjusted

Illinois VENTURES, LLC

Highlights

- Total funding to-date now approximately \$15.4 million with over 7:1 “leverage” of third-party investor and grant funding.
- Developmental progress for existing portfolio companies continued:
 - **ABI** – completed a \$1M Series A financing;
 - **RiverGlass** – completed a \$4M Series B financing, secured a significant recurring federal earmark and closed several new pieces of business;
 - **Tekion** – completed a \$6.5M Series C financing;
 - **Nextumi** – chosen to present at DEMO conference in January, launched **share2me** content sharing application;
 - **iCyt** – completed beta for reflection industrial call sorter and initiated commercial launch, completed year with 160% revenue increase;
 - **Phoenix Coal** – completed \$24M combined Series C equity and debt financing.
- Several new projects launched or funded during period:
 - Developmental funding provided for a new project involving an autoimmune therapeutic technology based on work of Dr. Bellur Prabhakar at UIC
 - Developmental funding was provided for a new project involving an optical probe for detecting blood clots in surgical settings, based on work of Dr. Fady Charbel at UIC
 - Developmental funding was approved for a new project involving microdischarge technology developed by Dr. J. Gary Eden at UIUC
 - Developmental funding was approved for a new project involving self-healing plastics technology developed by Dr. Scott White at UIUC
- **iVentures10** project launched – new venture incubation program launched in association with Technology Entrepreneurship Center at UIUC, aimed at identifying and supporting student innovation before graduation and before students migrate out of state

<i>Summary</i>		Total (Since January 2003)
Clients:	Engaged Consultatively	612
	Receiving Developmental Funding	47
*Funding:	Dollars Approved	\$17,270,000
	Dollars Funded*	\$15,360,000
	Additional 3 rd Party Co-Investments	\$144,750,000
	Grant Funding Secured by Above	\$12,614,000

*Funding typically lags approval due to closing process, sequential execution of activities or failure to reach agreement on terms

Chicago Technology Park

Thirteen buildings within the Park

Six anchor tenants:

- Red Cross Headquarters
- Core Center for Infectious Disease
- Cook County Institute for Forensic Medicine
- City of Chicago Communication Center "311"
- Illinois Medical District Headquarters
- Washington Irving Elementary School

Highlights

- IMD issued RFQ and subsequent RFP to construct new Graduate Research Facility in Chicago Technology Park
- IMD selected three finalists from RFQ competition for Design Build RFP, selected and engaged winning Design Build entity; design and value engineering underway
- **STAT Analysis Corporation** completed consolidation of activities in 2242 W. Harrison Facility, vacating space in Enterprise Center II and CTP Research Center
- **BiTmaP** Biotechnology Training Program relocated from Research Center to Enterprise Suites (EC1); enrolled 6th Cohort of students in training programs at UIC; graduated 8 students from prior cohorts
- **Chempetitive Group** relocated from CTP (2100 Harrison to downtown Chicago location)

Seven commercial/multi-tenant buildings:

- Research Center (incubator)
- Enterprise Center I (ECI)
- Enterprise Center II (ECII)
- 2242 W. Harrison Facility
- 2100 W. Harrison
- 2140 W. Harrison
- Litholink, Inc.
