## Introduction

We are pleased to present the inaugural University of Illinois System Office of Investments Annual Report for the 2017 calendar year. This report will be produced on a fiscal year basis in the future. All data in the report is as of December 31, 2017, unless noted otherwise.

Calendar year 2017 was characterized by strong equity markets, low volatility and slow but steady increases in interest rates by the Federal Reserve. In this environment, the Endowment managers produced a one year return of 15%, while the Operating Pool returned 1.3%. As a whole, the Endowment and Operating Pools distributed \$58.4 million in investment income to the University System.

The Investment Office recommended and enacted several key changes to the Program during the year. The team conducted a Request for Proposal for an investment consultant to address the contract expiration of the incumbent firm. The consultant serves a key role in the investment function through guidance on program-related initiatives, the production of reporting and performance calculations, and fund sourcing and due diligence. Fund Evaluation Group was retained as a result of the search. In the Endowment Pool, three investments were made into private market funds—BlackRock Multi-Alternative Opportunities Fund, L.P., Clearlake Capital Partners V, L.P., and Merit Mezzanine Fund VI, L.P. The mandate of our relationship with Attucks Asset Management was also transitioned from equity to fixed income. In the Operating Pool, the mandate within our Core liquidity layer was altered from passive to active management, and the allocation was divided amongst two existing investment managers.

Enclosed is an overview of invested assets, key performance and asset allocation measures for the Endowment and Operating Pools, as well as a summary of the costs incurred and income distributed from the Program. A fee summary and security inventory are included as appendices to the report.

### Office of Investments Overview

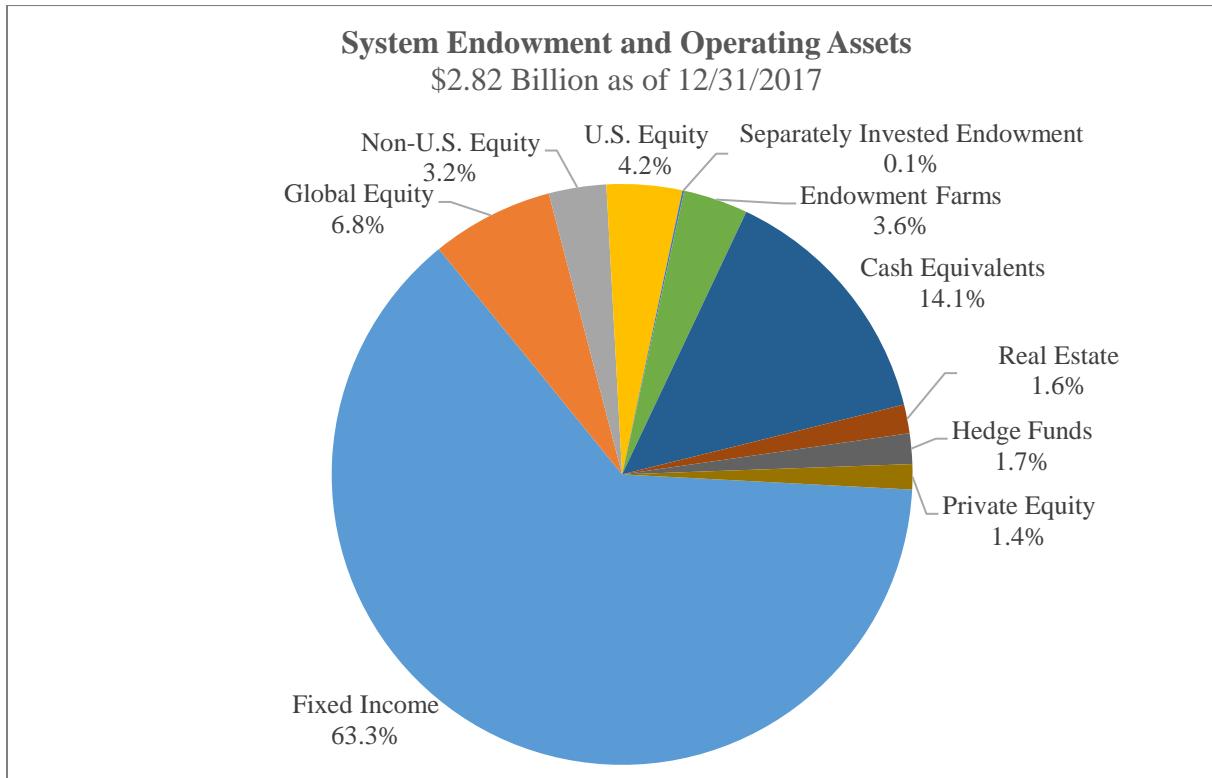

Under supervision of the Comptroller, the Office of Investments manages the University System's Operating and Endowment assets, including farmland donated to the University. Operating and Endowment assets are invested through carefully selected external investment firms, while farmland is managed internally by the Agricultural Property Services department.

The University of Illinois Board of Trustees (BOT) establishes policies for managing University asset pools. The Investment Policy sets forth asset allocation ranges for the Endowment and Operating Pools. The Audit, Budget, Finance, and Facilities (ABFF) Committee of the BOT actively reviews asset allocation and performance on a semi-annual basis and makes recommendations to the BOT regarding investment policy. The BOT has delegated to the Comptroller management of the University's assets within the BOT approved policies. The Comptroller has charged the System Investment Office within Treasury Operations with the day-to-day management of the Investment Program. It is important to note that the assets managed by the Office of Investments are distinct from those managed by the University of Illinois Foundation (UIF). UIF, a university related organization with an independent board, manages an active endowment fund with a market value of \$1.65 billion as of June 30, 2017.

## Invested Asset Overview

The Investment Office manages two distinct categories of funds, the Endowment Fund and the Operating Pool. The distribution of the collective pools by asset class is displayed in Figure 1.

**Figure 1**

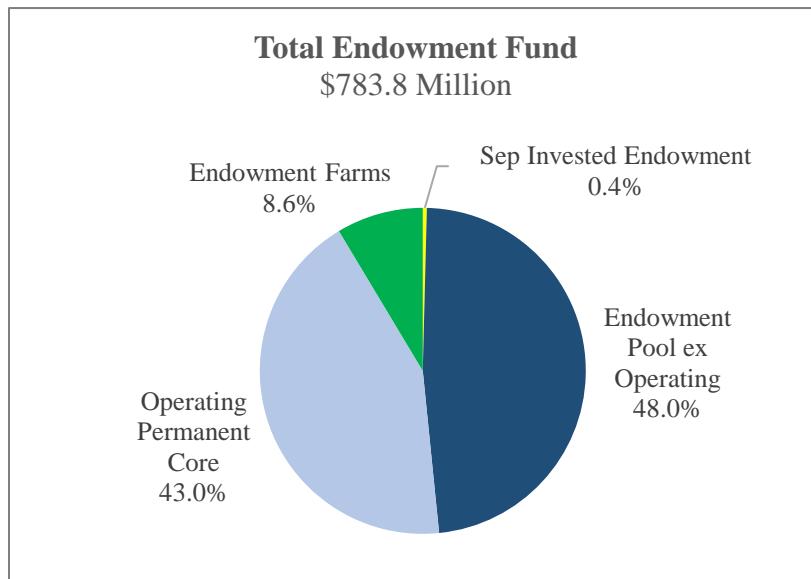

The sections that follow elaborate on the investment program for the Endowment and Operating assets of the University of Illinois System.

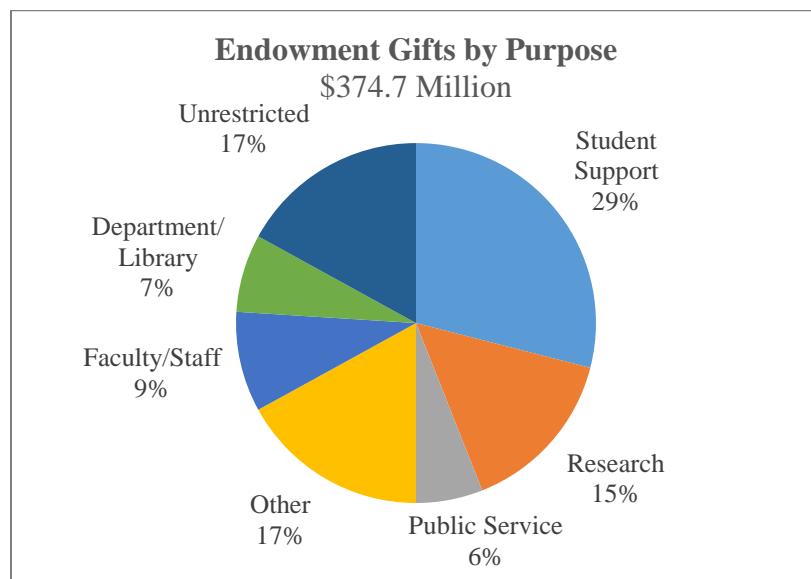

## Endowment Fund

The *Endowment Fund* (market value \$783.8 million) consists of two distinct sources of funding. The first source is comprised of gifts donated to the University System to support its mission (green, yellow and dark blue segments in Figure 2). Some gifts are restricted to a specific purpose while others may be for unrestricted use. The distribution of Endowment Pool gifts by purpose is presented in Figure 3. The second source of funding consists of Operating Pool funds that are managed as part of the Endowment Pool. This comprises 43% of the Endowment Fund. With the exception of gifts that are associated with separately invested endowments and endowed farms (0.4% and 8.6% of the Endowment fund, respectively), the *Endowment Pool* (light and dark blue slices in Figure 2) is managed on a consolidated basis to permit a pooled total return investment approach with a long term investment horizon.

**Figure 2**

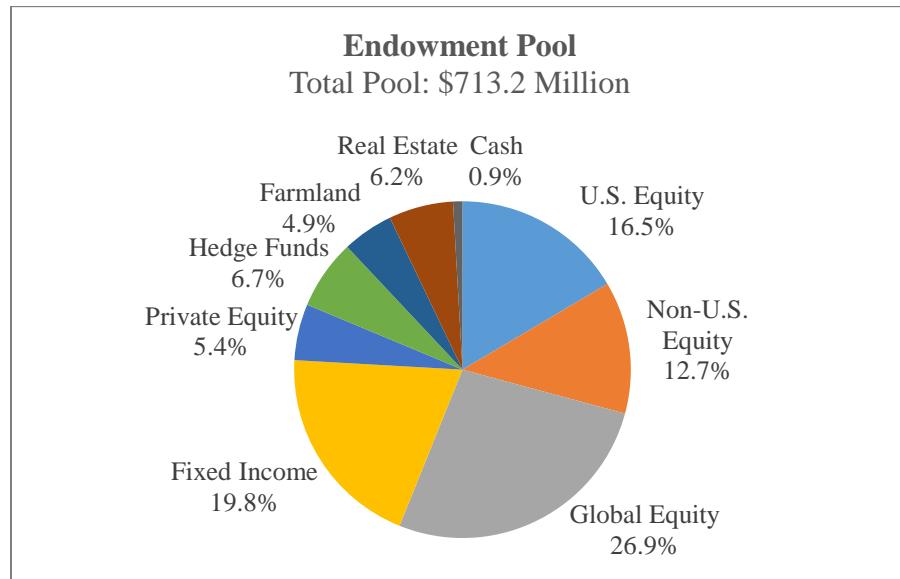

**Figure 3**

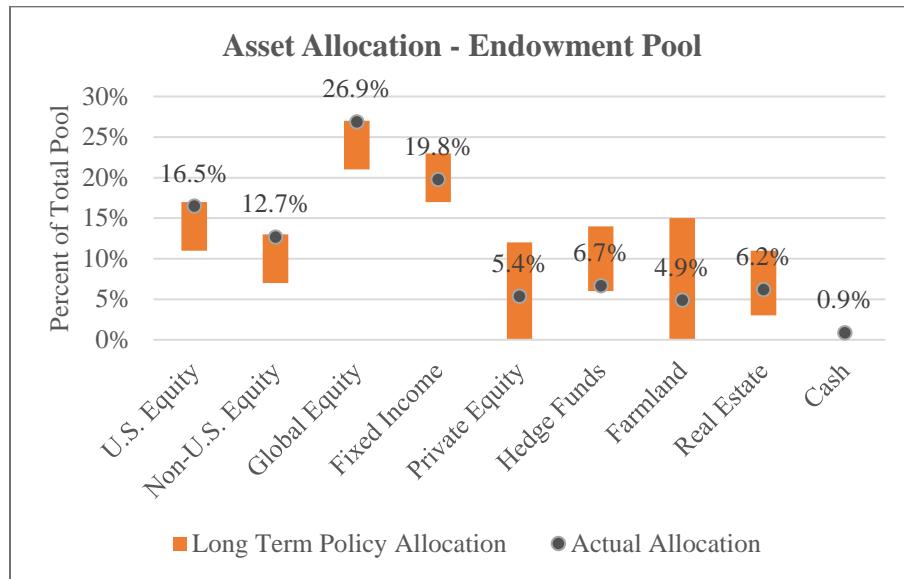

## Asset Allocation

The *Endowment Pool* is invested in a variety of asset classes in accordance with policies formulated by the BOT. The current distribution of Endowment Pool funds across asset classes is shown in Figure 4. Figure 5 compares the actual allocations to policy ranges.

**Figure 4**

**Figure 5**

The Endowment Pool is unique compared to peers in its relatively low allocation to alternative assets. Approximately 76% of the pool is comprised of traditional asset classes, which reflects the relatively low liquidity risk tolerance of the Operating Pool segment. This public market allocation allows for efficient rebalancing as redemptions and contributions can be transacted on relatively short notice and reduces management fees as traditional asset classes generally charge lower fees than alternative investment vehicles. Hedge funds and core real estate were augmented into the Endowment Pool asset allocation in 2010, and Staff has begun to transition the private equity program from the fund-of-fund structure that originated in 2004 to a direct model. The inclusion of farmland as an asset class also distinguishes the Endowment Fund from its peers. Farmland includes agricultural land donated to the University. The income from farms supports student scholarship and research programs. Agricultural land consists of 49 farms on 13,438 acres located throughout the State of Illinois. For the 2016 calendar year the farmland distribution to programs was \$2.3 million.

## **Spending Policy**

The investment objective of the *Endowment Pool* is to preserve the purchasing power of pool assets and provide annual support for an infinite period. The Endowment Pool annual spending policy for fiscal years 2017 and 2018 is based on a percentage of a six year moving average of the unit market value of the Endowment Pool. The spending rate—set by the Comptroller annually in consultation with the President—is 5.45%, inclusive of a 1.45% administrative fee. The Endowment Pool distributed approximately \$12.6 million to academic units during the 2017 calendar year (excluding income distributed from the Operating Pool funds managed as part of the Endowment Pool). By another measure, from a unitholder perspective, if a department had invested \$1 million in the Endowment in 1991—the inception of spending data—a distribution of approximately \$78,000 would be received for calendar year 2017, which equates to approximately 7.8% of the investment on a nominal basis and 4.09% on an inflation-adjusted basis.

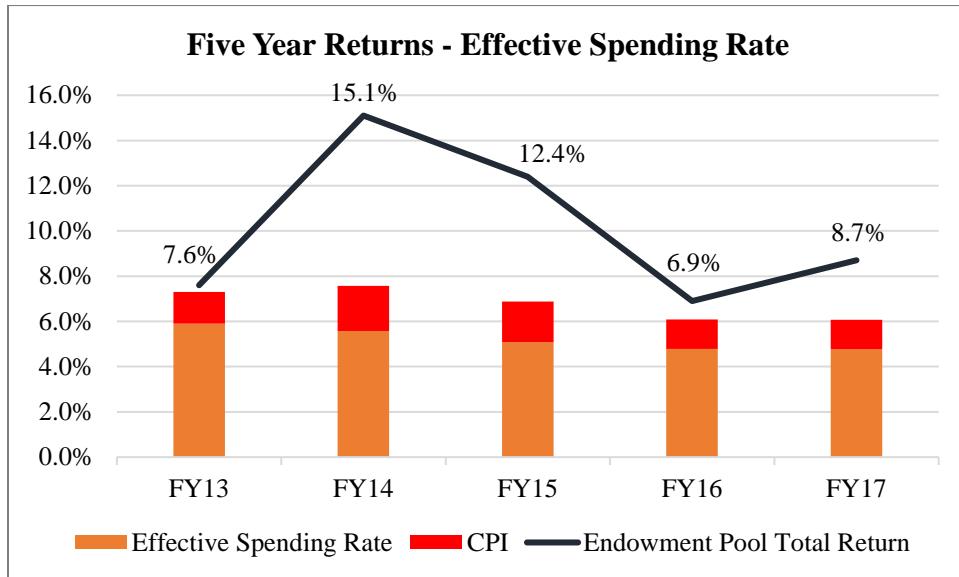

## **Performance Measurement**

A variety of approaches, each with advantages and disadvantages, can be taken in measuring investment performance. Four methods—(1) total return relative to the combined rate of spending and inflation, (2) peer rankings, (3) total return relative to the performance benchmark, and (4) cash flow activity—are presented below to provide a holistic view of Endowment Pool performance.

### Total Return Relative to Spending and Inflation Rates

In recent years, Endowment Pool returns have consistently outpaced combined inflation and spending requirements. Annualized five year returns are presented as of each fiscal year end for the prior five years relative to the effective spending rate (*i.e.*, spending rate inclusive of the administrative fee as a percentage of the year ending Endowment market value) and the consumer price index (CPI) in Figure 6.

**Figure 6**

#### Peer Rankings

The University System Endowment has consistently performed favorably over longer term periods when compared to peers. Figure 7 provides the most recent available comparison—as of June 30, 2017—of the University System Endowment performance against peers. For this time period, the Endowment ranked above the median for the three-, five- and ten-year reported time periods and in the top quartile for five- and ten-year periods.

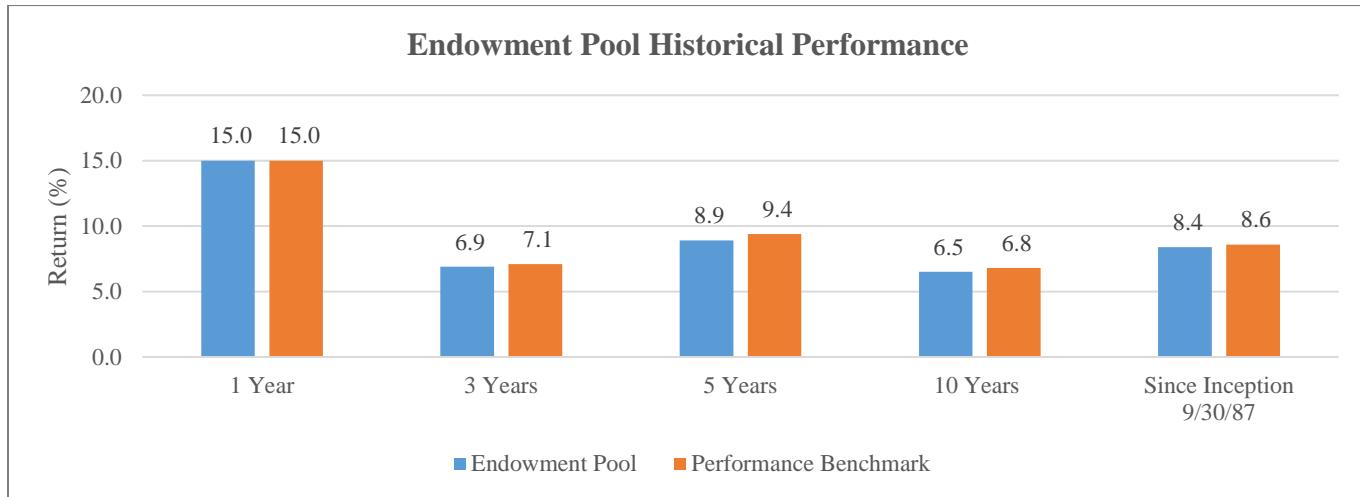

**Figure 7**

		1 Year	3 Year	5 Year	10 Year
<b>University System Endowment Return</b>		<b>12.1%</b>	<b>4.6%</b>	<b>8.7%</b>	<b>5.6%</b>
NACUBO-Commonfund U.S. Higher Education and Affiliated Foundations	75 <sup>th</sup> Percentile	13.7%	5.0%	8.7%	5.2%
	Median	12.5%	4.1%	7.9%	4.4%
	25 <sup>th</sup> Percentile	11.1%	3.3%	7.1%	3.8%

#### Total Return Relative to Performance Benchmark

The Endowment has generally performed in line with its performance benchmark over time. Modest underperformance has primarily resulted from an underperforming hedge fund manager and active equity managers that have since been terminated. In conjunction with Fund Evaluation Group, the team is currently reconsidering the suitability of the Pool's private equity benchmark—U.S. public equity markets plus 3%. The historical investment performance of the Endowment has been provided in Figure 8.

**Figure 8**

### Cash Flow Activity

The balance of the Endowment Pool is impacted by three factors—net additions (*i.e.*, gifts, Operating Pool Permanent Core additions), the spending distribution to invested units and investment performance. The impact of the aforementioned factors over a ten year period as of June 30, 2017, is summarized in Figure 9. Over the prior ten years, the balance of the Endowment Pool has more than doubled due to net additions and positive investment performance that has outpaced spending requirements.

**Figure 9**

Summary of Endowment Pool Activity FY08-FY17	
All figures in millions	
Ten Year Totals	
Beginning Balance	<b>294.4</b>
Net Additions	344.1
Spending	-160.6
Administrative Fee	-49.4
Subtotal Net Spending	-210.0
Investment Performance	242.1
Ending Balance	<b>670.6</b>

## Operating Pool

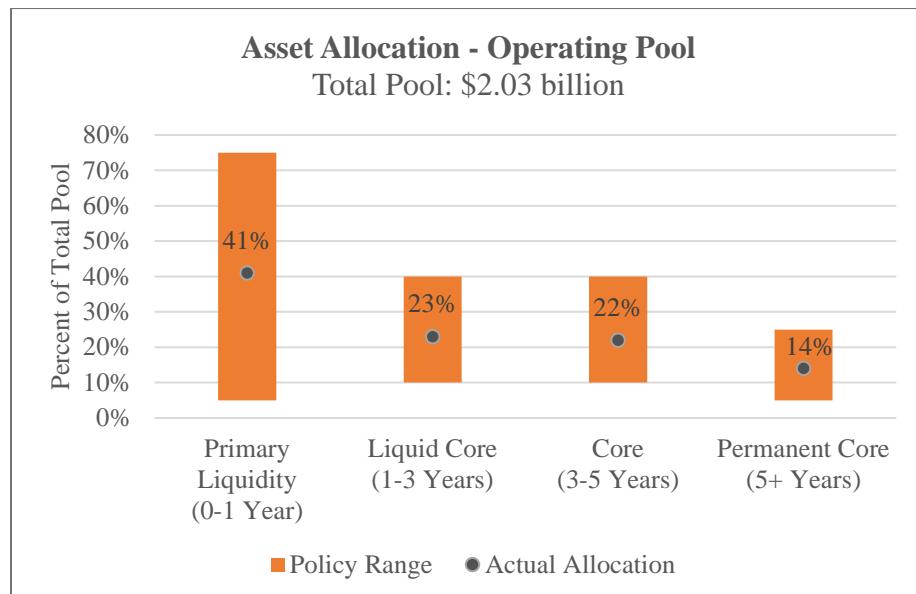

The *Operating Pool* (market value \$2.03 billion) consists of funds available for current use by academic and administrative units within the System. The Pool includes cash from state appropriations, tuition and fees, student loan funds, grants, self-insurance programs, and hospital and auxiliary services. The consolidated management of funds provides robust tracking and efficient investment management.

The investment objective for the *Operating Pool* is to preserve the value of the principal, maintain liquidity appropriate to the forecasted working capital requirements of the System, provide prudent diversification and maximize the rate of return on investment. Income from the pool is returned to units in proportion to their share of the assets. During calendar year 2017, \$37.1 million was distributed from the Operating Pool to units.

### Asset Allocation

*Operating Pool* assets are invested in fixed income securities and cash equivalents (with the exception of the Permanent Core allocation in the Endowment Pool). The assets are allocated by liquidity layer. Investment managers within a given liquidity layer follow fundamentally consistent investment guidelines that set forth restrictions on duration, credit quality, diversification, performance benchmarks and permissible security types, among others. Provided that state regulation does not allow the System to borrow for working capital, the Operating Pool is reasonably liquid and of high quality with an average A+ credit rating. Figure 10 demonstrates the Operating Pool's asset allocation on December 31, 2017, within the policy ranges by liquidity layer.

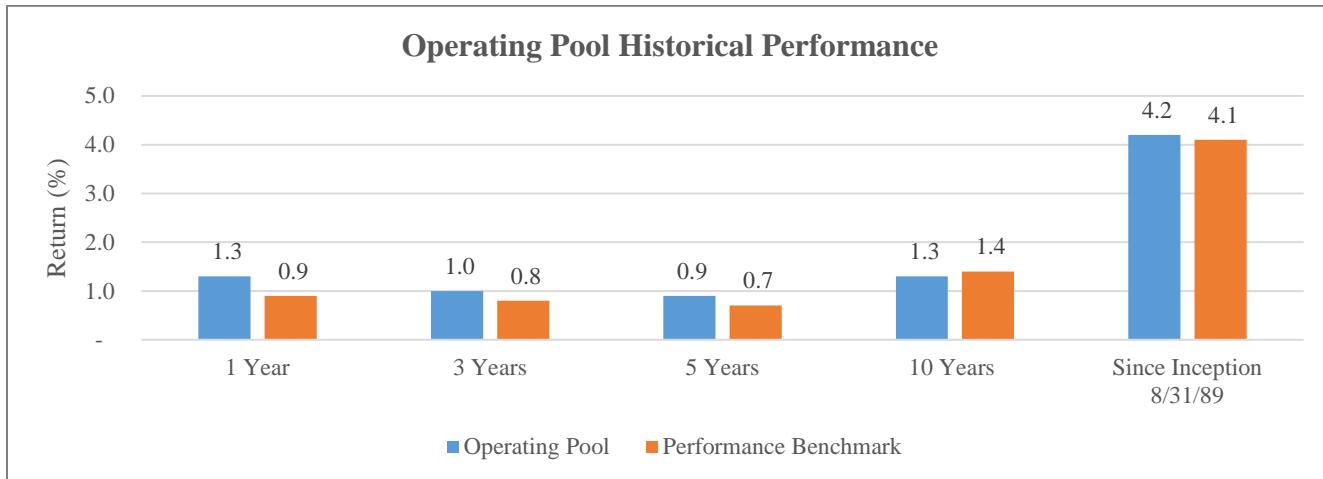

**Figure 10**

## Performance Measurement

The Operating Pool managers have consistently outperformed the performance benchmark in recent years. Underperformance on a ten year basis resulted from losses following the Global Financial Crisis. Historical performance relative to the performance benchmark is displayed in Figure 11.

**Figure 11**

## Financial Impact

The Investment Program generates investment income, as well as investment management costs, to the University System. All costs are offset or paid directly from investment income. The Investment Office works diligently to maintain the cost structure at a reasonable level.

### Income Distribution

During the 2017 calendar year, the Investment Program distributed income of \$58.4 million in total to units across the University System. The summary of the distribution by source is shown in Figure 12. Please note that the farmland distribution is not included in the Investment Program distribution.

**Figure 12**

(\$ Millions)	Q1	Q2	Q3	Q4	Total
Administrative Fee (Endowment)	2.07	2.07	2.24	2.25	<b>8.63</b>
Endowment Spend (ex-Permanent Core)	3.05	3.07	3.23	3.26	<b>12.61</b>
Permanent Core Distribution (Operating)	2.85	2.85	2.95	2.95	<b>11.62</b>
Operating (ex-Permanent Core)	4.72	6.61	7.11	7.06	<b>25.49</b>
<b>Total Distribution</b>	<b>12.69</b>	<b>14.60</b>	<b>15.83</b>	<b>15.52</b>	<b>58.35</b>

### Program Costs

The most significant cost to the Investment Program is external counterparty (*i.e.*, investment manager, custody, investment consultant) fees. For calendar year 2017, this comprised \$7.9 million or 28 basis points of total assets. The fees are net against performance or covered through investment income. A fee summary is enclosed in Appendix A. In addition, external legal counsel is often consulted for fund agreement reviews, resulting in annual costs of approximately \$5k-15k. Internally, the Investment Office is comprised of three full time employees with an annual salary cost to the System of approximately \$260k with annual travel expenses of \$5-10k and a technology expense of \$66k.

An inventory of security holdings has been included in Appendix B.
