

Board Meeting  
November 18, 2010

## ROLL CALL

### CAMPUS MASTER PLAN UPDATE, CHICAGO

**Action:** Update Campus Master Plan

**Funding:** Institutional Funds Operating Budget

In May 1990, the Board adopted a master plan for the future development of the University of Illinois at Chicago (UIC) that included plans for both the east and west sides of the campus. The 1990 plan was updated in January 1997 to reflect newly built facilities, buildings in planning and under construction at that time, as well as minor planning adjustments. The UIC master plan was updated again in September 1998 (south campus) to reflect the public-private development partnership south of Roosevelt Road on the east side of campus. In November 2008, the Board approved the employment of a consultant, Booth Hansen, for the Master Plan Update, Chicago.

With consideration of strategic and academic goals, this master plan update addresses anticipated facility program and land use needs with the development of a guideline plan, provides anticipated sequencing for expansion, identifies desired gateways and connective greenways, describes potential streetscape and courtyard upgrades, and suggests interim landscape development.

Accordingly, the President of the University with the concurrence of the appropriate administrative officers recommends approval of the Campus Master Plan Update as a general guide for the long-term growth and development of the Chicago Campus.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois Statutes, *The General Rules Concerning University Organization and Procedure*, and the Board of Trustees policies and directives.

Funds for the study have been available from institutional funds operating budget of the Chicago Campus and University Administration.

A copy of the Campus Master Plan Update has been filed with the Secretary of the Board for record.
