BUDGET FOR 1962 SUMMER SESSION AND FACULTY APPOINTMENTS

(2) Submitted herewith are the budget and appointments to the faculty for the 1962 Summer Session.

The eight-week summer session at Urbana-Champaign will begin June 18 and end August 11; at the Chicago Undergraduate Division this session will begin June 22 and conclude August 17. The College of Pharmacy will have two

six-week terms, June 18 to July 28, and July 30 to September 8.

The budget totals \$857,953 plus a reserve of \$70,318 for Urbana-Champaign; \$11,549 for the Medical Center; and \$139,482 plus a reserve of \$5,518 for the

Chicago Undergraduate Division.
Salaries of members of the University faculty recommended for summer session appointments are computed on the basis of the standard formulae: twoninths of the salary of the academic year for eight weeks of service, with proportionate amounts for shorter periods or for part-time service. The appointments being recommended include a number of visiting lecturers from other colleges and universities at the salaries indicated.

I recommend that the appointments to the summer session staff be approved as submitted, and that the President of the University be authorized to accept resignations and make such changes and adjustments and additional appointments as are necessary in accordance with the needs of the University within the alloca-

tions of funds indicated.

On motion of Mr. Swain, these appointments and the Summer Session budget were approved, and authority was given as requested. This action was taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

salary of \$9,300 (A, B).

12. Franklin D. Yoder, Professor of Public Health and Senior Member in the Center for Zoonoses Research, College of Veterinary Medicine, beginning January 1, 1962, on one-fourth time, at an annual salary of \$5,000 (FY25).

On motion of Mr. Dilliard, these appointments were confirmed.

APPOINTMENT OF ASSISTANT TO THE VICE-PRESIDENT OF THE CHICAGO UNDERGRADUATE DIVISION

(4) The Vice-President for the Chicago Undergraduate Division recommends the appointment of Ora L. Railsback, presently Professor and Head of the Division of Physics at the Chicago Undergraduate Division, as Professor and Head of the Division of Physics on one-third time, and Assistant to the Vice-President on two-thirds time, beginning March 1, 1962, at an annual salary of \$13,000 (A33, D67).

I concur.

On motion of Mr. Dilliard, this appointment was approved.

APPOINTMENT OF DIRECTOR OF THE EXECUTIVE DEVELOPMENT CENTER

(5) The Dean of the College of Commerce and Business Administration has recommended, and I have approved, the appointment of Professor Robert O. Harvey of the Department of Finance as Director of the Executive Development Center, effective December 1, 1961, and continuing through August 31, 1962, at his present salary of \$12,300 per year, plus a two months' summer appointment at the same rate to provide for the standard adjustment of salary from nine months to full year service.

This appointment is to fill the vacancy created by the resignation of Pro-

fessor R. G. Seymour.

On motion of Mr. Clement, this appointment was approved.

APPOINTMENT OF DIRECTOR OF UNION AT CONGRESS CIRCLE CAMPUS

(6) The Vice-President for the Chicago Undergraduate Division, upon the nomination of the Director of the Physical Plant, recommends the appointment of James J. Overlock, Seattle, Washington, presently Assistant Director of the Associated Students of the University of Washington and of the Union Building at the University of Washington, as Director of the Union at Congress Circle Campus beginning April 1, 1962, at an annual salary rate of \$13,000. The present appointment is for the balance of the current academic year and reappointment will be on an annual basis.

It is desirable that Mr. Overlock be brought into this position soon so that he can assist with the planning of the new building. He will also be Director of the student union activities in the recently remodeled quarters at Navy Pier and will be responsible for the operation of these facilities, including the development of student programs which will eventually be housed in the new building at Congress Circle.

I concur.

On motion of Mr. Johnston, this appointment was approved.

DEANSHIP OF THE COLLEGE OF NURSING

(7) Dean Emily C. Cardew of the College of Nursing has asked to be relieved of her administrative duties as Dean as soon as a suitable replacement can be made. She will, however, continue serving on the faculty as Associate Professor, teaching in both a baccalaureate program and developing a graduate program leading to the master's degree, for which there is a pressing need.

I have approved Dean Cardew's request and report this action for record.

A search committee has been appointed to consider available candidates for this position and to make recommendations.

This report was received for record.

BANK ACCOUNTS FOR EXTENSION COUNCILS

(8) Agricultural and home economics extension work in the counties of the state of Illinois is supported by federal appropriations, state appropriations to the University of Illinois, and contributions from local sources. Under the present system, local funds are paid to the University and become one of the financial resources for payments by the University of salaries, travel, rent, and other expenses incidental to operating the county offices. To expedite the payment of local operating costs of the offices and to increase participation and responsibilities of local citizens, it is proposed that the expenditures for local operations other than salaries, travel, and rent—be made at the county level from the contributed funds. The kinds of expenditures are: office supplies, telephone, utilities, and the service activities mentioned below.

In 1955 Councils in Agriculture Extension and in Home Economics Extension were established in each county. Members are appointed by the Director of the Cooperative Extension Service under authority granted by the Board of Trustees. These Councils assist the University in carrying out its Cooperative Extension Service programs. It is a present responsibility of the Extension Councils to develop detailed budgets for the extension work in the respective counties with the assistance of the County Advisers and to obtain local contributions in support of such budgets, which are submitted to the Cooperative Exten-

sion Service for approval.

The Councils forward to the University the grants obtained from local sources to support these programs. It is now proposed that funds received—except those for salaries, travel, and rent—be deposited in a bank within the county in the name of the University of Illinois. Local operating costs, other than those indicated, will be paid from this account. Into this account will also than those indicated, will be paid from this account. Into this account will also be deposited receipts from local service activities, such as 4-H premiums and prizes and camping activities, and from which equivalent disbursements for these purposes will be made. All checks drawn will be signed by the Council Treasurer and co-signed by the County Farm or Home Adviser. Audits of the accounts will be regularly performed by a University auditor, and financial reports will be periodically submitted to the Cooperative Extension Service.

It is recommended by the Director of the Cooperative Extension Service.

and by the Vice-President and Comptroller that the Board authorize establishing accounts in banks in (selected) counties for the funds for local operations, as outlined above, for each of the Councils in Agriculture and in Home Economics. For the present, this procedure will be initiated in only a few selected counties to test its operational effectiveness. If such a procedure proves successful, it may be extended to all of the counties of the state desiring such a service. A report of the accounts thus established will be made to the Board.

On motion of Mr. Swain, this recommendation was approved, and authority was given as requested.

ANTI-TRUST LITIGATION

(9) On February 5, 1962, suit was filed on behalf of the University in the Federal District Court for the Northern District of Illinois (Case 62 C 362) against eighteen electrical manufacturers who were involved in the electrical against engineer rice-fixing conspiracy which was the subject of federal anti-trust action in 1960 and 1961. The complaint seeks recovery of treble damages under the Sherman and Clayton Anti-Trust Laws, for overcharges on purchases of electrical equipment by and for the University during the period of the conspiracy.

The Legal Counsel states that the institution of the suit on the date indicated was necessary to preserve the University's rights in the matter. He requests confirmation and ratification by the Board of the filing of the suit, the employment of Attorney Lee A. Freeman, Chicago, as special counsel to represent the University in connection therewith, and authority to proceed with the litigation

and to employ such other special consultants as may be appropriate.

I concur.

On motion of Mr. Clement, the actions taken in this matter were confirmed and ratified, and authority was given as requested.

Mr. Johnston asked to be recorded as not voting on grounds of conflict of interest, being a member of the Board of Directors of one of the defendant corporations.

CHANGES IN STUDENT FEES

(10) In October, 1956, the Board of Trustees approved, in principle, the assessment of building fees of \$20.00 per semester to make possible the construction of student service facilities—the Illini Union Addition, Student Services Buildings (including a Health Service Building), and the Assembly Hall—on a self-liquidating basis. This has been a firm commitment to the state of Illinois in connection with the biennial budgets since the biennium of 1957-59, but the fees have not been put into effect pending completion of the buildings to which they are related.

The Committee on Fees now recommends that the fees for students on the Urbana-Champaign campus be increased by \$20.00 a semester, effective September, 1962, in order to provide for operation and debt service on the service buildings. It also recommends, for simplicity in assessment and accounting, that a single service fee be assessed, to be distributed to the various activities as shown in the internal budget each year. Thus, at Urbana-Champaign and the Medical Center there will be only three fees: tuition, service fee, and hospital-medical-surgical insurance fee. At the Chicago Undergraduate Division, there will be, in addition to the above three, an activities fee. The revised schedules of fees as recommended by the Committee appear below as Exhibit A.

The Committee also recommends that the number of credit hours included in the three ranges of fees be adjusted so that one-third of the normal load of fifteen hours be included in each successive range. Some revisions in the amount of fees for part-time students are made and the hospital-medical-surgical fee

is charged all students who do not have equivalent coverage.

The Committee also recommends that a late registration fine of \$15.00 be assessed all students who register for work in residence after the close of the regular registration, in addition to the tuition and fees presented in the schedule. The fine may be waived on petition in emergencies, such as illness or death in the immediate family.

The Committee also recommends that the charge for deferment of payment of fees be uniformly set at \$2.00 and that it be nonrefundable. The charge is not applicable when arrangements have been made to bill the fees to an agency.

The Committee also recommends that the visitor's fee be increased from \$10.00 to \$15.00 for each course on campus. Persons paying full fees (Range I) and those who are exempt from tuition are not assessed the fee.

The laboratory, library, and supply fee is discontinued, and applied to the total service fee, which will be distributed in 1962-63 as follows:

Urbana-Champaign: Illini Union and Health Center, 461/4 per cent; Assembly Hall, 461/4 per cent; Student Services Building, 71/2 per cent.

Medical Center: Union Building, 15 per cent; Dentistry-Medicine-Pharmacy Revenue Bond Fund, 85 per cent.

Chicago Undergraduate Division: Union Building, 30 per cent; Union Building Replacement, 70 per cent.

The Director of Auxiliary Services and the Vice-President and Comptroller recommend that the housing deposit be increased from \$30.00 to \$40.00. This will eliminate confusion with the tuition deposit of \$30.00 required for new students. (The housing deposit is applied to the rental, but is forfeited if the student does not withdraw his application before a specified date.)

The Committee further recommends some revisions in the regulations governing assessment of and exemptions from fees, submitted herewith as Exhibit B.

I concur in these recommendations.

On motion of Mr. Johnston, the revisions in fees and in the regulations governing the assessment of and exemptions from fees were approved as recommended herein; and the schedules of fees as they appear below were authorized.

Summer Fees

Summer fees in Dentistry, Medicine, Pharmacy, Occupational Therapy, and Nursing are the same as for a regular quarter except one-half tuition and the service fee are charged for students taking a six-week program or one-third tuition and the service fee for students taking a four-week program when such is scheduled, rounded to the next higher dollar amount.

Exhibit B Assessment and Exemptions

Tuition and fees are assessed all students, as applicable. The nonresident tuition fee is assessed against those students who are defined as nonresidents of Illinois under the Regulations Governing Assessment of Resident or Nonresident Student Fees.

For fee assessment purposes, a staff appointment must require service for not less than three-fourths of the term. (This is interpreted as a minimum of three and one-half months in a semester, nine weeks in a quarter, and six weeks in an

¹ Persons on the academic, administrative, or permanent nonacademic staff of the University, or on the staffs of the allied agencies, and persons registered in absentia or off-campus will be exempt from the service fee.

² Students presenting evidence of equivalent coverage may receive a waiver of the hospital-medical-surgical insurance fee upon approval of a petition submitted to the University Insurance Office not later than the final day established for full refund of fees. Persons registered for thesis research in absentia will not be assessed the hospital-medical-surgical insurance fee.

eight-week summer session.) Staff tuition and fee privileges do not apply to students employed on an hourly basis in either an academic or a nonacademic capacity nor to persons on leave without pay.

Waiver of one or more of these charges may be provided as follows:

 Persons on the academic, administrative, or permanent nonacademic staff of the University, or on the staffs of the allied agencies, persons having graduate tuition and fee waivers described under 4d below, and persons registered in absentia or off-campus will be exempted from the service fee.

 Students presenting evidence of equivalent coverage may receive a waiver of the hospital-medical-surgical insurance fee upon approval of a petition submitted to the University Insurance Office. Persons registered for thesis research in

absentia will not be assessed the hospital-medical-surgical insurance fee.

3. The nonresident portion of the tuition and fees is waived for all staff members,

and for others as specified below:

- a. All staff members and the spouses and dependent children of staff members of the University, of allied agencies, or of the faculties of state-supported institutions of higher education in Illinois, and teachers in the private and public elementary and secondary schools in Illinois shall, if subject to the payment of tuition and fees, be assessed at the resident rate during the term in which the staff member, faculty member, or teacher holds such an appointment. This privilege also extends to the summer session immediately following the term for which such appointment was effective
- b. Any nonresident student who qualifies for resident tuition and fees by reason of an appointment described under 3a above shall become subject to nonresident tuition and fees if the appointment qualifying him for the resident benefit is vacated by resignation or otherwise prior to completion of threefourths of the term in question.
- c. Persons who are actively serving in one of the Armed Forces of the United States and who are stationed and present in the state of Illinois in connection with that service, and the spouses and dependent children of such persons, are permitted to attend the University upon paying the same tuition and fees assessed against resident students as long as such first-mentioned person remains stationed and present in this state and the spouse or dependent child attending the University is also living in this state.

4. Tuition waivers are provided under the following conditions:

- a. For holders of tuition waiver scholarships established by the General Assembly for use at the University of Illinois, and for all holders of tuition waiver scholarships established by the Board of Trustees.
- b. For all academic employees of the University or of allied agencies whose official appointments call for not more than 67 per cent of full-time services

in the term for which waiver is granted.

- c. For all permanent nonacademic employees under appointment with the University or allied agencies who register in University courses in Range II or III. (Nonacademic employees may register in University courses only upon recommendation of the head of the department in which the individual is employed and upon approval by the Director of Nonacademic Personnel, and the usual schedule limits apply.)
- d. For holders of tuition and fee waivers authorized by the Board of Trustees, to be awarded to University fellows and others at the discretion of the Dean of the Graduate College. These persons are also exempt from the service fee.
- of the Graduate College. These persons are also exempt from the service fee. For students attending University courses under grants or contracts with outside sponsors which provide payments to cover the total costs of instruction. The service fee and the hospital-medical-surgical insurance fee are also waived if such fees are charged to the contract or grant funds.
- f. For cooperating teachers and administrators who receive assignment of practice teachers. Such persons who register in University courses are exempted from both tuition and the service fee for one semester or summer session for each semester during the calendar year, September to September, in which service is rendered.
- g. Any graduate student not subject to tuition and fees by reason of his appointment who resigns from his position before rendering service for at least

¹ Unless otherwise noted or unless item 1 or 2 above applies, these waivers apply only to tuition and not to the service fee and the hospital-medical-surgical insurance fee.

three-fourths of that term provided he completes clearance for graduation and terminates active study within one week following the date of resignation. He need not cancel his registration.

h. Any student who resigns his staff appointment before rendering service for at least three-fourths of the term becomes subject to the full amount of the appropriate tuition and fees for that term unless he withdraws from his University classes at the same time.

i. Students holding appointments during the final term of an academic year either as employees or fellows, and for whom tuition and/or fees have been provided through waiver or cash payment by an outside agency, are entitled to a wavier of the same kinds of tuition and fees for the summer session immediately following, provided they hold no appointments during that summer session.

j. Students holding summer session appointments as fellows or as employees are subject to such tuition and fees as would be assessed in accordance with the principles expressed above.

Refunds

Urbana-Champaign Campus and Chicago Undergraduate Division

- 1. A student subject to tuition and/or fees who withdraws from the University during any term receives refunds as follows:
 - IN A SEMESTER
 - a. During the first ten days of instruction in a semester, refund is made of the full amount of the tuition and fees assessed except for a nonrefundable charge of \$30.00. When the total assessment has been less than \$30.00, the full amount of the assessment, if any, is nonrefundable.
 - b. After the first ten days but within the first half of the semester, one-half of the total amount of the tuition and fees assessed which remains after deduction of the above mentioned amount is refunded.
 - c. After the midpoint of the semester, no refund is allowed.
 - IN AN EIGHT-WEEK SUMMER SESSION
 - a. During the first five days of instruction in the summer session, refund is made of the full amount of the tuition and fees assessed except for a non-refundable charge of \$15.00. When the total assessment has been less than this amount, the full amount of the assessment, if any, is nonrefundable.
 - b. After the first five days but within the first half of the summer session, one-half of the amount assessed which remains after deduction of the above mentioned \$15.00 is refunded.
 - c. After the midpoint of the summer session, no refund is allowed.
- 2. A student who reduces his registration to a lower range receives a refund of the full amount of the difference in tuition and fees specified for such schedules provided the changes are made during the period designated for refund of full fees in case of withdrawal from the University. One-half the above difference is refunded if the changes are made during the period for one-half refund in case of withdrawal from the University. Thereafter, no rebate is allowed.
- 3. A person registered as a visitor who desires to withdraw receives a full refund of the visitor's fee, if originally charged, provided he makes personal request for a refund at the Office of Admissions and Records within the full rebate period in any semester, term, or session. Thereafter, no rebate is made.
- 4. A student who withdraws from a flight-training course receives a refund of the full flight-training fee during the first ten days of instruction in a semester or the first five days of instruction in the eight-week summer session; a half refund during the remaining half of the term; and no refund thereafter.
- 5. For University terms of different lengths of time, the full and half refund periods and the amount of the retained portions of the fees are determined proportionately in accordance with the above principles
- proportionately in accordance with the above principles.

 6. Tuition and fees of a student dismissed from the University during any term are refunded on the same basis as indicated above for a student who withdraws with permission.

¹ The nonrefundable charge includes the hospital-medical-surgical insurance fee, if originally paid, and the student who withdraws from the University continues to be covered by the insurance until the close of the term. The remainder of the retained amount is allocated first to the service fee and then to tuition.

ASSEMBLY HALL REVENUE BONDS, SERIES OF 1962

(11) The University's enrollment has increased at a higher rate than the enrollment projections on which the original financing plans for the Assembly Hall were based and the income from student fees presently authorized will be sufficient to provide for repayment of additional bonds.

It is now planned to recommend additional expenditures for facilities and features, most of which were in the original planning but were deferred when final plans were submitted for bids and contracts were awarded. The architects and engineers now recommend that these and certain additional improvements be included, if possible, to add to the usefulness of the new multi-purpose structure and to improve opportunities for operating revenue.

Accordingly, the Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of a supplemental issue of \$600,000 of revenue bonds for financing additional construction in connection with the As-

sembly Hall.

A supporting memorandum describing these facilities and improvements in detail is submitted herewith, and a copy is being filed with the Secretary of the Board for record. Specific recommendations for each of these projects will be submitted to the Board of Trustees for approval at subsequent meetings.

¹The nonrefundable charge includes the hospital-medical-surgical insurance fee, if originally paid, and the student who withdraws from the University continues to be covered by the insurance until the close of the term. The remainder of the retained amount is allocated to the service fee.

White, Weld, and Company, who handled the original bond sale, received consent from the present holders for the issuance of the additional bonds. Two of the original purchasers have agreed to purchase the supplemental issue at an effective interest rate of 3.90 per cent. This compares with a rate of 4.32 per cent on the original issue and is in line with changes in the market since 1959. The bonds will become due through the operation of the sinking fund after the original bonds have been retired.

I concur in the foregoing recommendation.

The Finance Committee has also been consulted and concurs in recommendations that the bonds be sold at an effective interest rate of 3.90 per cent, and that bonds totalling \$400,000 be sold to Allstate Insurance Company and \$200,000 to State Farm Mutual Automobile Insurance Company; that White, Weld, and Company be paid a fee of \$2.00 per \$1,000 for its services in connection with the sale; and that Chapman and Cutler be employed as counsel for the bond issue.

A formal resolution will be presented to the Board for adoption at a sub-

sequent meeting.

On motion of Mr. Swain, the supplemental issue of revenue bonds was authorized, and the recommendations relating to the same were approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

HOUSING AND HOME FINANCE AGENCY LOAN FOR CONSTRUCTION OF ILLINOIS STREET RESIDENCE HALLS

(12) The Vice-President and Comptroller and the Director of the Physical Plant recommend authorization of:

An application to the Housing and Home Finance Agency for a loan of \$3,350,000 for construction of the Illinois Street Residence Halls;

An issue of revenue bonds to be sold publicly to finance the remainder of the con-

HOUSING AND HOME FINANCE AGENCY LOAN FOR CONSTRUCTION OF CONGRESS CIRCLE UNION BUILDING

(13) The Vice-President and Comptroller and the Director of the Physical Plant recommend authorization of:

An application to the Housing and Home Finance Agency for a loan of \$5,000,000 for construction of the Congress Circle Union Building, this amount representing approximately one-half of the estimated cost;

An issue of \$5,000,000 of revenue bonds to be sold publicly to finance part of the construction cost, and to be amortized from student fee income;

Employment of Chapman and Cutler, Chicago, as counsel for the bond issue; Advertisements for bids on the construction of the Union Building and for the sale of bonds at times deemed most appropriate by the Vice-President and Comptroller.

An assignment from the state capital appropriations from the Universities Building Fund will also be recommended for the construction of this building since

it will include certain physical education and recreation facilities which are a proper charge against state funds.

I concur in these recommendations.

On motion of Mr. Harewood, these recommendations were approved, and authority was given, as requested, this action being taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

CONTRACT FOR INSULATION AND PIPE COVERING WORK IN PLANT SCIENCES BUILDING

(19) Contracts for the construction of the Plant Sciences Building, approved by the Board on December 19, 1961, did not include insulation and pipe covering since bids on this work had not been taken at that time. The Director of the Physical Plant and the Vice-President and Comptroller now recommend award of a contract for \$48,000 to the Chicago Pipe and Boiler Covering Company, Chicago, the lowest bidder, for insulation and pipe covering work in the Plant Sciences Building.

Funds are available in the state capital appropriations to the University from

the Universities Building Fund.

The Board of Trustees action on December 19 provided that all contracts other than the general contract, and including the contract for insulation and pipe covering when it was let, be assigned to the contractor for the general work, W. E. O'Neil Construction Company, Chicago.

I concur.

CONTRACT FOR REMODELING IN RESEARCH AND EDUCATIONAL HOSPITALS

(24) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$38,391 to the Mueller Construction Com-

pany, Chicago, the lowest bidder, for remodeling the eighth floor, north wing, of the Research and Educational Hospitals.

The work will include rearrangement of partitions, installation of laboratory furniture, new floor covering, new ceilings, and the necessary mechanical and electrical services to change this area into laboratories and offices to be used by the Department of Medicine for research in infectious diseases. The remodeled diseases. The need for these facilities for training doctors for research in infectious diseases. The need for these facilities is related to a United States Department of Health, Education, and Welfare grant for training of doctors for academic and research careers.

Funds are available in United States Public Health Service Grant E-208.

On motion of Mr. Swain, this contract was awarded, as recommended, by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson: no, none: absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

CONTRACT FOR SOIL TEST BORINGS AND SOIL ANALYSIS ON CONGRESS CIRCLE CAMPUS

(25) The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of a contract with Soil Testing Services, Inc., Chicago, for soil test borings and soil analysis in the areas of the Congress Circle Campus

on which buildings will be constructed.

This work, including analysis of soil and ground water conditions, is fundamental to structural design of the buildings. Fifty-five borings will be required, of which eight will go to bedrock. A firm quotation on the total cost of the work is not feasible since soil conditions to be encountered cannot be anticipated. Accordingly, it is proposed that the agreement with Soil Testing Services, Inc. be upon the following unit costs:

Advancing the bore hole and split spoon sampling:

Under 60 blows	
Sixty blows and over	
Shelby tube sampling 2 in. diameter	
Rock coring	
Unconfined compression test	
Calibrated penetrometer tests	
Atterberg limits	
Triaxial tests	75.00 per test
	(3 circles)

In addition to the above, the proposal provides for the following charges:

Moving personnel and equipment on and off the site,

Description of soil and ground water conditions.

Analysis and recommendations of the type of foundation to be used, allowable bearing values, basement excavation methods and bracing, method of relieving hydrostatic pressure, and special conditions which may affect the design and construction of the

Soil Testing Services, Inc. is recommended because it has a large experienced staff on soil testing analysis and is equipped to do the entire program promptly. It has had experience in soil analysis work on high-rise buildings, having done such work on a number of major projects in Chicago.

It is anticipated that the total cost of the work for the fifteen buildings to

be constructed will be approximately \$30,000.

Funds are available in the state capital appropriations from the Universities

Building Fund.

Submitted herewith is a supporting memorandum from the Physical Plant Department on this project, a copy of which is being filed with the Secretary of the Board for record.

I concur.

On motion of Mr. Swain, this contract was awarded, as recommended, by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

CONTRACT FOR ENGINEERING SERVICES ON STORM AND SANITARY SEWERS AND WATER MAINS

(26) The Director of the Physical Plant and the Vice-President and Comptroller recommend employment of Wilson and Anderson, Consulting Engineers, Champaign, for the engineering services to design the construction of, and to write the specifications for, sanitary and storm sewers and water mains to service the new buildings for the College of Commerce and Business Administration and the College of Education, and the Illinois Street Residence Halls.

Payments for these services will be on the basis of Schedule A of Minimum Fees of the Illinois Society of Professional Engineers, exclusive of the services of a resident engineer for field inspection:

Cost of C	onstruction	$Basic\ Fee$
First	\$ 50 000	12.00 per cent
Next	100 000	9.00 per cent
Next	150 000	7.50 per cent
Next	200 000	6.50 per cent
Next	500 000	6.00 per cent
Next	1 000 000	5.50 per cent
All over	2 000 000	5.00 per cent

The total estimated cost will be approximately \$10,000 for the engineering services on storm and sanitary sewers and water mains for the Commerce and Education Buildings and \$10,000 for the engineering services on the same utilities for the residence halls.

Funds are available in the state capital appropriations from the Universities

Building Fund.

Submitted herewith are supporting memoranda from the Physical Plant Department, copies of which are being filed with the Secretary of the Board for record. The Committee on Buildings and Grounds has been consulted and supports the recommendation.

I concur.

On motion of Mr. Johnston, this contract was awarded, as recommended, by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson: no, none: absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

CONTRACT FOR ENGINEERING SERVICES FOR CORRECTION OF ELECTRICAL DEFICIENCIES AT URBANA-CHAMPAIGN

(27) The Director of the Physical Plant and the Vice-President and Comptroller recommend employment of the firm of Carroll-Henneman and Associates, Consulting Engineers, Urbana, for engineering services in designing and writing specifications for correction of electrical deficiencies, including transformer vault improvements in thirteen buildings on the Urbana-Champaign campus. The total construction and installation cost of correction of electrical deficiencies in these buildings is estimated to be \$245,000. The firm recommended will do the work on the basis of Schedule B of Minimum Fees Adopted by the Illinois Society of Professional Engineers, which, exclusive of the services of a resident engineer for field inspection, is:

Cost of C	Construction	Basic Fee
First	\$ 20 000	10.00 per cent
Next	30 000	9.00 per cent
Next	50 000	7.00 per cent
Next	200 000	6.00 per cent
Next	200 000	5.50 per cent
Next	500 000	5.00 per cent
Next	1 000 000	4.75 per cent
All over	2 000 000	4.50 per cent

Based on estimates of construction costs, the total estimated cost of the engineering services, exclusive of those of a resident engineer and/or inspectors for supervision of the work, is approximately \$20,000. The Physical Plant Department will provide the supervision from its own personnel.

Funds are available in the state capital appropriations from the Universities

Building Fund.

Submitted herewith is a supporting memorandum from the Physical Plant Department, a copy of which is being filed with the Secretary of the Board for record. The Committee on Buildings and Grounds has been consulted and supports the recommendation.

I concur.

On motion of Mr. Swain, this contract was awarded, as recommended, by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

IMPROVEMENT OF FOURTH STREET IN CHAMPAIGN

(28) The city of Champaign is planning to widen and resurface South Fourth Street from its present width to forty-four feet from curb to curb from Springfield Avenue south to Armory Avenue; with the University's participation, the City will extend the improvement south to Florida Avenue.

The University owns one-half the street frontage in the block between

Armory Avenue and Gregory Drive, and all the frontage from Gregory Drive south to Florida Avenue, except for the Roselawn Cemetery frontage of about 625 feet north of Florida Avenue and on the east side of Fourth Street. The improvement from Armory south to Florida Avenue would include widening and resurfacing the street from the present width of approximately thirty-five feet to forty-four feet between curbs, a mercury vapor lighting system, a new eight-foot wide sidewalk on both sides of the street between Armory Avenue and Gregory Drive, traffic signals at the intersection of Gregory Drive, drainage and incidental construction related to these improvements.

The City has requested the University to share in the estimated cost of the

improvement on the following basis:

For that portion of the project from the center line of Armory Avenue to the south property line of Gregory Drive including the traffic signals at the latter intersection on the ratio of University property frontage to the total property frontage, or 50 per

For that portion of the project from the south property line of Gregory Drive to the north curb line of Florida American Science 188

100 per cent of cost for University-owned property

The Roselawn Cemetery is not within the Champaign city limits and can not be assessed for this improvement. The Roselawn Cemetery Association has advised it has no funds to participate on a voluntary basis. The proposal here submitted provides that the University and the City will share equally in the cost of the improvement along this frontage, estimated at approximately \$15,800, or approximately \$7,900 to be paid by each party. The University's share of the cost will be based on the actual cost of construction, plus engineering, legal, and miscellaneous expenses where applicable, and will be due and payable in one lump sum within thirty days after completion of the project.

Funds are available in the state capital appropriations to the University for

1961-63 from the Universities Building Fund.

I recommend that the Comptroller and the Secretary of the Board be authorized to execute an agreement with the city of Champaign for the University's participation in this improvement on the basis of the above estimates and that funds be assigned for this purpose.

On motion of Mr. Swain, this recommendation was approved, and

authority was given as requested, this action being taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none: absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

IMPROVEMENTS OF PUBLIC AND UNIVERSITY ROADS ON URBANA-CHAMPAIGN CAMPUS

(29) The Board of Trustees has authorized employment of Clark, Daily, and Dietz, Consulting Engineers, Urbana, to provide complete engineering services in designing the following described improvements of University roads and public streets on the Urbana-Champaign campus, these improvements being scheduled for the summer of 1962.

Concrete pavement, forty-five feet wide, back to back of curb, extending from Florida Avenue south to a point approximately 650 feet south of St. Mary's Road, including necessary drainage.

Concrete sidewalk, eight feet wide, five inches thick, on east side of First Street from Florida Avenue to St. Mary's Road, to include provision for future widening to a twelve foot walk if found necessary.

Concrete sidewalk, eight feet wide, five inches thick, on south side of Florida Avenue from Fourth Street to First Street and on north side of Florida Avenue from First Street to the Illinois Central Railroad underpass, to include provision for future widening to 12 feet if found necessary.

Street lighting from Florida Avenue to and including St. Mary's Road.

Traffic signals at intersection of Florida Avenue and First Street.

Fourth Street south of the corporate limits of the city of Champaign, referred to above, and St. Mary's Road from First to Fourth Street are in Urbana Township. A portion of First Street south of said corporate limits is in Urbana Township and the balance in Champaign Township. St. Mary's Road from First Street west to the Illinois Central right-of-way is in Champaign Township. Therefore, the improvements proposed will require the approval of both Urbana and Champaign Townships.

This improvement program has been reviewed with the Champaign City Manager and City Council, who have reported that it meets with their approval and that the City Attorney has been designated to work with the University in developing a mutually satisfactory agreement. The program has also been reviewed with the highway commissioners and supervisors of both Urbana and Champaign Townships, who have indicated that the improvements are highly desirable and have suggested that the Townships will be willing to dedicate any interest they may have in rights-of-way of streets and roads to the University, subject to review and approval by their legal advisers.

Funds are available in the University's state capital appropriations from the

Universities Building Fund, subject to release by the Governor.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize its Comptroller and Secretary to execute agreements with the city of Champaign and with Urbana and Champaign Townships for the improvements outlined. Construction contracts and assignments of funds for the same will, of course, be subject to approval by the Board of Trustees.

I concur.

On motion of Mr. Johnston, this recommendation was approved, and authority was given as requested.

IMPROVEMENTS AT HOTT MEMORIAL CENTER

(30) Mr. and Mrs. Maxwell R. Hott have given the University their home in Monticello, the gift being designated as the Hott Memorial Center for Continuing Education. The property is being given to the University over a period of years. The University now has an undivided one-fourth interest in the title and Mr. and Mrs. Hott have leased their remaining interest in the property to the University of Illinois Foundation for twenty years. They plan to give additional fractional interests to the University until the complete title is transferred.

To make the residence more useful as an extension center will require remodeling and additions in order to increase the number of guest rooms required for such use. The estimated cost of the improvements, which would include air conditioning the entire first floor, is \$137,500. The First National Bank of Chicago has agreed to loan this amount to the Foundation at one-half the prime interest rate, plus one-fourth per cent (presently a total of two and one-half per cent), with retirement of the principal at the rate of \$12,000 per year. Should the Bank incur tax liability on the income from the loan, the Foundation will pay the

prime interest rate plus one-fourth per cent.

The Dean of the Division of University Extension and the Vice-President and Comptroller recommend that the Foundation be requested to make these improvements to be financed by the Bank loan. To assist in accomplishing this, they recommend that the University transfer title to its interest to the Foundation and that the University lease the property from the Foundation until June 30, 1963, at a rental sufficient to cover interest and principal payments on the loan, with option in the lease for renewal for successive biennial periods. During the early years of the operation of the Hott Memorial Center for Continuing Education, income may not be adequate to pay the debt service and funds will be included in the operating budget of the Division of University Extension to cover the difference; however, in a few years the Center should be completely selfsupporting.

I concur and recommend adoption of the necessary resolution to implement

this transaction.

On motion of Mr. Swain, this recommendation was approved.

Resolution

Be It, and It Is Hereby, Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the Comptroller and Secretary of this public corporation be, and they hereby are, authorized for and in the name of, and on behalf of, this public corporation (1) to sign, execute, and deliver an agreement with and to University of Illinois Foundation, a not for profit corporation of the State of Illinois, hereinafter referred to as "Foundation," which agreement shall provide that this public corporation will convey its interest in certain hereinafter described property in Monticello, Illinois, to Foundation; that Foundation will borrow money for the purpose of making improvements to Hott Memorial Center located on said property, and will contract for and make said improvements, in accordance with plans and specifications approved by the Director of the Physical Plant Department of this public corporation; that Foundation will lease said premises, including the building and improvements, to this public corporation at a rental sufficient to pay Foundation's indebtedness incurred in connection with said remodeling; and that Foundation will upon completion of the repayment of said indebtedness from said rentals reconvey said property, including all improvements, to this public corporation; (2) to sign, execute, acknowledge, and deliver to Foundation a good and sufficient warranty deed conveying to Foundation in accordance with the terms of the hereinbefore mentioned agreement this corporation's interest in the property previously referred to, which is legally described as:

An undivided one-fourth (1/4) interest in Block Ten (10) of Rhoades' First Addition to the Town, now City of Monticello, situated in the County of Piatt in the State of Illinois;

(3) to sign, execute, and deliver a lease with and from Foundation of said premises, including said improvements, and including Foundation's leasehold interest in and to the other three-fourths undivided interest in said premises, under which lease this public corporation will agree to pay a rental sufficient to meet all payments required of Foundation on its indebtedness incurred in connection with the remodeling and improvement of said property, said lease to run from the date of the closing of Foundation's loan for the purpose of making said improvements and remodeling to June 30 of the first subsequent odd-numbered year, with the right in this public corporation to renew said lease for successive two-year periods from July 1 of each odd-numbered year to June 30 of the next succeeding odd-numbered year by giving written notice to Foundation between the 1st and 15th of July in each year when such renewal is to be made, until said lease is finally terminated by the payment and liquidation of the above mentioned indebtedness; (4) to commit this public corporation to act as agent for Foundation in the carrying out of said remodeling and in the administration and service of such indebtedness and the payments and disbursements from and of funds made available by the creditor of Foundation for the purpose of said remodeling; (5) to accept reconveyance of said property, including all improvements thereon, from Foundation when Foundation's indebtedness has been retired as provided above; and (6) to sign, execute, acknowledge, and deliver any and all other documents and instruments deemed necessary or desirable by said Comptroller and said Secretary to accomplish the purposes herein set forth.

On motion of Mr. Swain, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

BEQUEST OF CHARLES P. HOWARD

(31) The will of the late Dr. Charles P. Howard of Champaign, who died July 21, 1943, set up a trust with the First National Bank of Chicago for the benefit of his brother, Hartwell C. Howard of Champaign, who received the income from the trust during his lifetime. The will and the trust provide that upon the death of Hartwell C. Howard, one-half of the trust estate shall be paid to the Young Men's Christian Association of Champaign and one-half to the Board of Trustees of the University of Illinois to establish the Dr. Hartwell C. Howard Memorial Fund in memory of the testator's father. The University's share is approximately \$194,000. This shall be an endowment fund, the income therefrom to be used to aid premedical and predental students at the University of Illinois in any way that the Board of Trustees deems proper. In the event the purposes of this trust become obselete or undesirable, the Board of Trustees may use the income for any purpose it sees fit. The Board is not limited by any statute or law regarding investments of this fund.

Mr. Hartwell C. Howard died January 2, 1962.

The First National Bank of Chicago has submitted to the University and to the Young Men's Christian Association of Champaign a proposed distribution of the trust assets which would divide the common stocks and bonds equally, except for the sale of one block of bonds and a distribution of cash to make the total distribution equal between the two beneficiaries.

The proposed plan of distribution has been approved by the Finance Committhe proposed plan of distribution has been approved by the Finance Committee and it has also approved the merging of these assets with the general endowment pool of the University held by the First National Bank of Chicago. The Bank has recommended the sale of certain of the stocks and bonds and reinvestments of the other securities. The Finance Committee has approved these changes. The Bank has requested adoption of a resolution by the Board of Trustees

accepting this request under the conditions cited with the usual agreements to protect the trustee against loss. Submitted herewith is a resolution prepared by the University's Legal Counsel and approved by the Bank.

Resolution

Be It, and It Is Hereby, Resolved by the Board of Trustees of the University of Illinois that the bequest in favor of this public corporation contained in the Will of Dr. Charles P. Howard, who died on July 21, 1943, of a remainder interest in the trust created of his residuary estate, be, and the same is hereby, accepted by said public corporation for the uses and purposes set forth in said

Will and said bequest; and

Be It, and It Is Hereby, Further Resolved that the Vice-President and Comptroller of this public corporation be, and he is hereby, authorized to accept payment and delivery of said bequest on behalf of this public corporation, and to execute and deliver to the First National Bank of Chicago, as survivor Trustee of the testamentary trust created by the Last Will and Testament of said Charles P. Howard, deceased, the receipt of this public corporation in satisfaction

On motion of Mr. Clement, the foregoing resolution was adopted.

PROCUREMENT OF LARGE-SCALE COMPUTING SYSTEM FOR ALL-UNIVERSITY USE

(32) The Executive Vice-President and Provost and the Vice-President and Comptroller recommend the acquisition from the International Business Machines Corporation on a rental basis, with an option to purchase, of an IBM 7090-1401 high-speed computer system, on the following terms which represent 40 per cent of commercial rates:

Annual rental including maintenance for the 7090-1401 system plus peripheral gear for ILLIAC II: \$350,016.

Rental of the 7090-1401 system with option to buy plus peripheral gear for ILLIAC II: rental price of \$350,016, of which 62 per cent is applicable to the purchase price; option to buy, \$12,580.18, all of it applicable to the purchase price of \$1,363,104 (the commercial price would be \$3,407,700).

The term "peripheral gear for ILLIAC II" refers to input-output equipment needed for the new computer now under construction in the Digital Computer Laboratory. For use with this computer, the International Business Machines Corporation would lend to the laboratory, without additional charge, equipment worth \$529,488 at the educational discount price (commercial price \$1,323,720). In return, the University agrees: (a) to use the equipment for its educational and research purposes only, and solely in connection with ILLIAC II; (b) to provide "a non-exclusive royalty-free license to IBM relative to developments resulting from the University's work in adaptation of the input-output units to ILLIAC."

No state tax funds would be used either for the rental or for the ultimate purchase of this equipment. Contract research funds are available for the annual

rental, and the purchase option will be exercised if sufficient funds from outside sources can be provided by the delivery date.

The bid proposal was dated January 16, 1962, and was submitted to the firms listed below, and was also advertised publicly in the official state newspaper in accordance with the Illinois Purchasing Act.

International Business Machines Corporation, Springfield Control Data Corporation, Minneapolis, Minnesota

Burroughs Corporation, Detroit, Michigan Remington Rand Univac, Detroit, Michigan Bendix Aviation—Computer Division, Chicago RCA—Electronic Data Processing Division, Chicago

A supporting statement by the Executive Vice-President and Provost reviews the development of high-speed computer programs at the University of Illinois, discusses the need for a large-scale system to replace present equipment, and explains the procedure followed in securing quotations. The statement is submitted herewith, and a copy is filed with the Secretary of the Board for record. The conditions of this transaction as stated above and as set forth in greater detail in the supporting statement will be incorporated in the contract with the International Business Machines Corporation.

I recommend that the Board authorize a contract with International Business Machines Corporation for the acquisition of this equipment on the terms stated

in these documents.

On motion of Mr. Pogue, this contract was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Wilkins.

I concur.

On motion of Mrs. Watkins, these changes in contracts were authorized, as recommended.

ADDITION TO CONTRACT FOR ARCHITECTURAL SERVICES ON UNION BUILDING AT CONGRESS CIRCLE

(35) The Director of the Physical Plant and the Vice-President and Comptroller request approval of a change in the contract with C. F. Murphy Associates (formerly Naess and Murphy) for architectural services for the Union Building at Congress Circle to include authorization to employ the firm of Fred Schmid Associates, Chicago, as consultants on food service facilities to be included in this building. It is estimated the cost of such services will not exceed \$12,500.

I concur.

On motion of Mr. Johnston, this change in the contract was authorized.

EASEMENTS TO ILLINOIS BELL TELEPHONE COMPANY

(36) The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Illinois Bell Telephone Company be granted permission to lay telephone cables across the north ten feet of the University's parking lot at 1008 South Fifth Street, Champaign, between the north curb of the parking lot and the north property line; and on University property on the south side of Nevada Street between Mathews and Goodwin Avenues, Urbana.

I concur and recommend adoption of the following resolutions:

Resolution

Be It, and It Hereby Is Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the Comptroller and the Secretary of this Board of Trustees be, and they hereby are, authorized to execute, acknowledge, and deliver in the name and on behalf of this Corporation such instruments of conveyance, contract, or other document or documents as to them may seem necessary or desirable in order to

grant to Illinois Bell Telephone Company, an Illinois corporation, hereinafter referred to as "Grantee," its successors and assigns, the right and easement to lay, operate, and maintain a communication cable for the transmission of telephonic signals under and through the land hereinafter described and the right of ingress to and egress therefrom. Grantee shall agree to repair any damage to property of this Corporation by the laying, construction, reconstruction, operation maintenance, renewal, or removal of said cable, and Grantee shall further agree to relocate said cable at its expense if and when said cable would interfere with any construction undertaken by this Corporation during the term of the right-of-way easement to be hereunder granted. The right-of-way easement shall terminate ninety (90) days after Grantee ceases to use said transmission line for rendition of service. The right-of-way easement shall be over the following-described property:

The North ten (10) feet of lot 1 in Ben Baer's Addition to the City of Champaign, situated in the City of Champaign, County of Champaign, and State of Illinois.

On motion of Mr. Swain, this resolution was adopted, without dissent.

Resolution

Be It, and It Hereby Is Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the Comptroller and the Secretary of this Board of Trustees be, and they hereby are, authorized to execute, acknowledge, and deliver in the name and on behalf of this Corporation such instruments of conveyance, contract, or other document or documents as to them may seem necessary or desirable in order to grant to Illinois Bell Telephone Company, an Illinois corporation, hereinafter referred to as "Grantee," its successors and assigns, the right and easement to lay, operate, and maintain a communications cable for the transmission of telephonic signals under and through the land hereinafter described and the right of ingress to and egress therefrom. Grantee shall agree to repair any damage to property of this Corporation by the laying, construction, reconstruction, operation, maintenance, renewal, or removal of said cable, and Grantee shall further agree to relocate said cable at its expense if and when said cable would interfere with any construction undertaken by this Corporation during the term of the right-of-way easement to be hereunder granted. The right-of-way easement shall terminate ninety (90) days after Grantee ceases to use said transmission line for rendition of service. The right-of-way easement shall be over the following-described property:

The South Three (3) feet of the East Thirty-five (35) feet of Lots Four (4) and Five (5) in Block Four (4) of Nina B. Bronson's Subdivision of part of the East Half of the Southwest Quarter of the Northeast Quarter of Section Eighteen (18), Township Nineteen (19) North, Range Nine (9) East of the Third Principal Meridian, situated in the County of Champaign, in the State of Illinois.

On motion of Mr. Swain, this resolution was adopted, without dissent.

QUARTERLY REPORT OF THE COMPTROLLER

(38) The Comptroller presented his quarterly report to the Board as of December 31, 1961.

This report was received for record, and a copy has been filed with the Secretary of the Board.

SALES AND PURCHASES OF SECURITIES

(39) In its semi-annual review of the assets of the University's endowment funds, the First National Bank of Chicago recommended the sale of 750 shares of J. C. Penney Company common stock and reinvestment of the proceeds in approximately 1,500 shares of Tennessee Gas Transmission common. The Finance Committee of the Board has approved this recommendation.

The University received 175 shares of Avnet Electronics Corporation common stock from the Shaw Process Development Company as a gift to support research in foundry work in the Department of Mechanical and Industrial

Engineering.

Six shares of Standard Oil Company of New Jersey common stock were also received as a dividend from Standard Oil Company of Indiana, to be credited to the general endowment income account.

The First National Bank of Chicago recommends sale of these securities. The Finance Committee has approved the sale of the Avnet stock. The Board has approved the sale of Standard Oil of New Jersey in previous dividends of

this kind.

The University of Illinois Foundation received one share of Owens-Corning Fiberglas Corporation common stock as a gift for the Faculty Center. The Executive Committee of the Foundation has approved the sale of this stock and applying proceeds to the purpose of the gift. Since the stock is registered in the name of "University of Illinois," it will be necessary to have authorization of the Board of Trustees for its sale.

Submitted herewith are the resolutions required to authorize these trans-

On motion of Mr. Swain, the following resolutions were adopted, without dissent.

Resolution

WHEREAS, the Board of Trustees of the University of Illinois is the owner of 750 shares of J. C. Penney Company common stock, and
WHEREAS, the Finance Committee of that Board has determined that it is

advantageous to sell such security,

Now, Therefore, Be It Resolved by the Board of Trustees of the University of Illinois that such security be sold and that H. O. Farber, Comptroller, and A. J. Janata, Secretary, be authorized to execute all documents necessary to complete such sale.

Resolution

WHEREAS, the Board of Trustees of the University of Illinois is the recipient of a gift of 175 shares of Avnet Electronics Corporation common stock in the name of the University of Illinois and owns 6 shares of Standard Oil of New Jersey common stock, and Whereas, the Finance Committee of said Board has determined that it is

advantageous to sell the above securities,

Now, Therefore, Be It Resolved by the Board of Trustees of the University of Illinois that these securities be sold and that H. O. Farber, Comptroller, and A. J. Janata, Secretary, be authorized to execute all documents necessary to complete such sales.

Resolution

Whereas, one share of Owens-Corning Fiberglas Corporation common stock is registered in the name of "University of Illinois," and

WHEREAS, such stock was received as a gift toward a project of the Univer-

sity of Illinois Foundation, and

WHEREAS, the Executive Committee of the University of Illinois Foundation

has determined that it is advantageous to sell such security,

Now, Therefore, Be It Resolved by the Board of Trustees of the University of Illinois that this security be sold and that H. O. Farber, Comptroller, and A. J. Janata, Secretary, be authorized to execute all documents necessary to complete such sale.

On motion of Mr. Swain, this report was received for record. At this point, Mr. Hughes joined the meeting.

FINAL SETTLEMENT OF CONTRACT WITH WALSH BROS. INC. FOR CONSTRUCTION OF EAST DENTISTRY-MEDICINE-PHARMACY BUILDING

(41) Walsh Bros. Inc., Chicago, was the general contractor for the construction of an addition to the East Dentistry-Medicine-Pharmacy Building completed in 1957 at a total cost of \$985,000; the amount of the general contract plus additions

authorized during construction was \$335,867.01.

Disputes arose concerning final settlement of the contract with Walsh Bros.
Inc. when the work was completed and the balance due under the contract was \$52,852.71. Walsh Bros. Inc. claimed an additional payment of \$23,504.03 for damages due to alleged delays incurred in the construction; the University had

counterclaims amounting to \$4,162.71.
Since completion of the building, these claims have been under negotiation. The firm of Walsh Bros. Inc. has now agreed to accept the \$52,852.71 due under the contract, plus \$162.22 for additional labor required as a result of roof damage. The Director of the Physical Plant and the Vice-President and Comptroller

recommend approval of this settlement and that an appropriation of \$53,014.93 be made from the General Reserve for this payment.

I concur.

On motion of Mr. Johnston, this settlement was approved, as recommended, and an appropriation of \$53,014.93 was made from the General Reserve for this purpose. This action was taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Wilkins.

POLICIES GOVERNING STUDENT HOUSING AND MEMBERSHIPS IN STUDENT ORGANIZATIONS

(42) Two proposals have come to me from the Urbana-Champaign Senate Committee on Student Affairs and both deal with the general subject of discrimination. Although the full text of both follows (Appendix A), the major action called for can be stated as follows: that deadlines be established within which (1) operators of non-University operated rooming houses will endorse a nondiscriminatory policy as to race; and (2) fraternities and sororities will affirm that membership selection is based on criteria other than race.

In each case compliance would be a condition for University approval or

In each case compliance would be a condition for University approval of recognition. The deadlines suggested by the Committee are September, 1963, for Item 1; and September, 1965, for Item 2.

You will find in Appendix B a brief narrative of actions and policies of the University of Illinois concerning discrimination in recent years. Noted there is the record of the Board of Trustees in support of the elimination of discrimination, the University's traditional commitment to nondiscriminatory procedures, and the statement of the Board of Trustees in 1946 which directed the officers of the University to continue to "favor and strengthen those attitudes and social the University to continue to "favor and strengthen those attitudes and social philosophies which are necessary to create a community atmosphere in which race prejudice can not thrive." It is evident that during the past few years the University has attempted to procure, on a voluntary basis, full compliance with its own objectives, procedures, and policies with reference to nondiscriminatory treatment of students.2

In considering the two recommendations from the Committee on Student Affairs, it is clear that, even though both relate to discrimination, in reality they

are different proposals and require separate analysis. For example, on the one hand, the University requires undergraduate students to live in approved housing. Housing regulations have developed naturally from that requirement and the University's obligation to provide equal opportunity can be clearly defined. On the other hand, we do not require students to affiliate with student organizations. We have definite responsibilities here too, but the best means of fulfilling them is not necessarily the same or as readily determined.

It should also be noted that both proposals involve racial discrimination only. Yet, the University is opposed, in philosophy and practice, to other forms of discrimination as well, including those based on creed or religion and national

origin.

Of the two proposals, I believe that clear action with respect to commercial housing can be taken at this time and I offer comment and a recommendation in the section immediately following. The proposal as to fraternities and sororities is more complex and by implication involves all student organizations and other bases of social discrimination than race. I should like to deal with that subject in a later section. In each case the conclusions offered take into account a careful study of both questions and my consultation with appropriate officers of the University.

Commercially-Operated Rooming Houses

The housing of students for many years has been viewed as a matter in which the University has a responsibility. For example, as early as 1940, standards were established to insure that facilities met University standards as to "health, safety, comfort, moral surroundings, study conditions, social facilities, and reasonableness of charge."

Under present regulations all single undergraduate students must live in

housing approved by the University as being in accord with its standards.

As revised March 16, 1960, Section IX of the Code of Fair Educational Practice reads as follows:

The University administration encourages nondiscriminatory practices in commercially-operated rooming houses. However, health, safety, and moral standards are recognized as the basic criteria for approved housing.

The University administration encourages those who serve the general student body to treat all students alike, regardless of race, creed, or national

origin.

The University will approve no new privately-operated student rooming house unless the owner agrees to make its facilities available to all students without discrimination with respect to race or religion. When ownership of presently approved housing changes, University approval will be continued only if the new owner agrees to make its facilities available to all students without discrimination with respect to race or religion. These provisions do not apply to a house which is the private home of the owner and in which no more than three rooms are rented.

The first two paragraphs quoted above represent the version of September 15, 1958. The third paragraph was added on March 16, 1960. The 1960 action was approved as a practical step toward attaining greater compliance with the University's stated objective, without applying a new standard retroactively to house owners who entered the housing business before that standard was stated as a condition of University approval. The move was also thought to be an additional encouragement to voluntary compliance.

The Urbana-Champaign Senate Committee on Student Affairs now proposes that "University approval be denied to all non-University operated rooming houses which have not endorsed a nondiscriminatory policy (as to race) by September of 1963." The Committee also proposes that in the meantime the University make further efforts to encourage voluntary conformity to the policy of nondiscrimination.

nation.

The Office of Off-Campus Housing has supplied data which reflect the changes in voluntary compliance during the most recent rental periods. In terms of housing units, in March, 1960, 8 per cent (a total of twenty) stated that they were non-discriminatory, while 25 per cent (sixty-four houses) had submitted such statements by January 30, 1962.

¹ Meeting of February 16, 1940, Transactions of the Board of Trustees, pages 753-754.

The picture in terms of the total numbers of student living spaces is more significant. Whereas only 26 per cent of the total spaces was available on a non-discriminatory basis in March, 1960 (848 spaces), the percentage has increased to 49 per cent at the present time (1,862 spaces). Percentagewise, the greatest gain was made in houses for women, although the total number of spaces available

for women is relatively small as compared with the total for men.

The gains reflected in these comparative figures lend some support to the University's position that encouragement of voluntary compliance will reduce discrimination (combined with the policy of nonapproval of new houses or houses that change ownership if discrimination is practiced). However, a total of 194 housing units with some 1,932 student spaces (the latter representing 51 per cent of such spaces available for undergraduates) is still operated on a presumed discriminatory basis. While continuing progress toward compliance with University policy may be anticipated, it is now obvious that many years would elapse before nondiscrimination would voluntarily be accepted completely as the practice.

Thus, I believe that the time has arrived when the University should specify a date within which owners or operators of commercially-operated rooming houses will be expected to meet the standards which the University applies to its own housing and I recommend that the Code of Fair Educational Practice be amended so that University approval will be demied to such houses which have not, by September 1, 1965, indicated that their facilities are available to all students, without

regard to race, creed, or national origin.

You will note that the recommendation is broader than that offered by the Committee on Student Affairs, applying as it does not only to race but to creed and national origin as well. The broader scope is in accord with our general University philosophy and responsibility and is consistent with past actions and

positions on this subject (cf. Appendix B).

The exception to the requirement recommended should be, I believe, the one applied in March, 1960, to houses which are the private homes of the owners and in which no more than three rooms are rented. This exception would not result in a material loss of student living spaces. There are sixty-three such homes with a total capacity of 157 student spaces, a capacity which represents 4 per cent of the total spaces. We will, of course, continue to seek voluntary compliance with University policies from among these owners.

Although the Senate Committee proposed September, 1963, as an effective date for the application of the new standard, I believe that September, 1965, is a fair deadline. It allows three years for rooming house operators or owners to adjust or make other arrangements for their property. It also allows the University time to build additional housing units if needed to offset any withdrawal of housing

as a result of the action here described.

I suggest that your action on the recommendation before you be the adoption of the following statement of policy, which may then be implemented through appropriate amendments to the regulations governing approval of housing for students:

Statement of Policy

The Board of Trustees of the University of Illinois reaffirms its position that discriminatory practices based on considerations of race, creed, or national origin affect the general welfare of its students and are detrimental to a proper educational environment. So far as may be practicable and consistent with its paramount obligation to provide appropriate facilities for higher education of qualified students, the Board will discourage, limit, or seek to eliminate student involvement in such discriminatory practices. The Board now deems it appropriate to particularize this policy further as it relates to the housing of students at the Urbana-Champaign campus. It is therefore determined that:

From and after September 1, 1965, single undergraduate students will not be permitted to reside in commercially-operated rooming houses in which the occupants are selected on the basis of race, creed, or national origin. There may be excepted from the foregoing a residence in any facility which is the private home

of the landlord and in which no more than three rooms are rented.

On motion of Mr. Dilliard, the statement was amended by the addition of the following sentence: "It is to be hoped that full compliance will be achieved on a voluntary basis long before the 1965 date."

On motion of Mr. Johnston, this statement of policy, as amended, was adopted; and the recommendation of the President with respect to further consideration of policies affecting student organizations, as presented below, was approved.

Student Organizations

The Code of Fair Educational Practice, a codification issued in 1958, reads as follows:

The problem of restrictive clauses in the constitution and by-laws of student social organizations is primarily a student problem and therefore should be solved by the students concerned. However, the University encourages student organizations to eliminate qualifications based on race, creed, or national origin.

The University may make the information which it gathers in connection with the registration of students available to authorized representatives of student organizations. It does not supply information concerning the race, creed, or national origin of students for the specific purpose of membership selection by student social organizations.

Later, the Interfraternity Council and Panhellenic groups voted not to admit any new organizations with discriminatory restrictions, and the Code on Student Affairs (as distinguished from the Code on Fair Educational Practice) was amended on October 1, 1959, to include the following statement:

No new student organization which has a clause restricting membership on the basis of race, religion, or national origin, shall be granted University recognition.

In the meantime, fraternities and sororities were advised that the University would expect periodic reports on their progress in eliminating discriminatory clauses or policies and were alerted to the depth of the University's concern about the matter.

At the time of the adoption of the Code of Fair Educational Practice in 1958, there were four fraternal organizations on the Urbana campus governed by restrictive clauses or acknowledged policies in national constitutions with regard to race. Three of the four have since changed their constitutions at national conventions either to eliminate the discriminatory clause or to provide waivers of the application of the clause where conditions warrant such waivers for individual chapters. Hence, at present there is but one organization about which we are in doubt in this matter. This is indicative of substantial accomplishment and it would seem unfortunate now to invoke a terminal ultimatum for one organization; indeed, I feel that we can expect full compliance without waiting overly long.

However, the proposal of the Senate Committee on Student Affairs would require a statement of affirmation from each fraternity and sorority that membership selection is based on criteria other than that of race. This is a proposal which would not reflect consistency or fairness in University policies: the restriction is limited to fraternal organizations, making no mention of the numerous other student associations; and the restriction is limited to race.

As noted earlier, the Code on Student Affairs now precludes recognition of any new organization which restricts membership on the basis of race, religion, or national origin. The question, then, is essentially—shall existing student organi-

zations be required to eliminate all similar qualifications for membership?

A brief review of existing student organizations will suggest the dimensions of the problem: There are at the University a variety of established religious associations for students which require a specific church affiliation for membership. There are student houses, halls, and cooperatives with religious ties. There are student groups created by various nationality groups which require a specific national origin for full membership privileges. Finally, fraternities and sororities may require religious commitment in their rituals; occasionally religious symbols and other affirmations are involved in fraternal activity.

This organizational pattern represents the development of groups with mutual interests over many years. Where there are requirements of the type I have mentioned, many have been stated with no intent to discriminate unfairly but in

the natural manner of a group with common interests stating its membership qualifications in terms of the cultural and educational purposes and interests of

While I believe fully in the general intent of the Senate Committee to work against discriminatory practice wherever it is found, and have approved administratively the implementation of the educational steps suggested to gain voluntary compliance with University objectives by all student organizations, the present

proposal is inadequate and unsound.

I believe, however, the University has the duty to make a comprehensive effort to clarify the purposes of existing student organizations as distinguished from membership requirements. The provisions of the Student Code insure that we shall not compound the problem by establishing new organizations without study of their charters on this point at the time of establishment. To some extent, then, a study of purposes has been going on by this means. We have found that organizations frequently are able and willing to hold to their basic purposes, yet welcome association with students who are interested in those purposes but who are not members of the specific religion or national group involved.

What is needed now is a period of study of voluntary association to develop

a University-wide pattern and a guidance program, fair to all and consistent with the spirit of the University's philosophy of nondiscrimination.

Therefore, because I am unwilling to deal with the question of racial discrimination alone; and because I do not have before me a plan capable of applying a consistent and equitable enforcement of regulations pertaining to race, creed, or national origin in all student organizations — I am asking the Senate Committee on Student Affairs to give further consideration to this subject.

> DAVID D. HENRY President

Appendix A. Recommendations of the Committee on Student Affairs' Sub-Committee on Housing Discrimination

As a result of its study on racial discrimination, the Committee on Student Affairs recommends that:

Section I. Off-Campus Housing

- 1. A letter be sent to operators and/or owners of non-University owned residence halls and rooming houses to encourage their voluntary operation on a policy of nondiscrimination toward race. This letter would:
 - a. List by name the houses which have signed the nondiscriminatory pledge; b. Include a statement that racial integration has met with student approval and has not affected the successful operation of these houses;
 - c. Commend those house operators following a nondiscriminatory policy;
 - d. Encourage house operators who have held back in fear of financial loss to integrate their houses.
- 2. Students be encouraged to take the responsibility of educating the house directors, owners, and students so that voluntary action will follow.
- 3. University approval be denied to all non-University-operated rooming houses which have not endorsed a nondiscriminatory policy by September of 1963.

SECTION II. THE GREEK SYSTEM

- 4. The Greek system be encouraged to:
 - a. Discuss fraternity and sorority responsibilities regarding the discrimination roblem;
 - b. Work to create an atmosphere conducive to inter-group relations;
 - c. Observe criteria for selection of members solely on the basis of individual worth and without regard to racial distinction.
- 5. The University:
 - a. Issue a definite statement declaring its opposition to all national and local policies of discrimination based on race;
 - b. Notify all local, national, and alumni groups of this statement.
- 6. The Committee recommends that all the above measures be adopted regarding race by September 1, 1965; and that the University withdraw recognition from any chapter that has not endorsed a policy of nondiscrimination. This would be interpreted as a statement duly signed in good faith by local chapter members affirming membership selection based on criteria other than racial distinction.

Appendix B. The University of Illinois and Discrimination: Actions and Policies

Over a period of years the University has sought to sustain its abiding commit-

ment to nondiscriminatory practices which involve its students.

This commitment was reaffirmed in 1946 when the Board of Trustees confirmed the University's obligation "to provide facilities for higher education for all qualified young people who may choose these facilities rather than the facilities of other colleges and universities." At the same time, the Trustees stated, the University "will expect to expand the use of its present facilities and of any new facilities it may secure by the addition of University-owned and operated housing to which its own standards of health and of social and moral conduct can be applied." Further, in the statement of 1946 the Trustees directed the officers of the University to "continue a policy of long standing which will favor and strengthen those attitudes and social philosophies which are necessary to create a community atmosphere in which race prejudice cannot thrive."

Implementation of the commitment noted has been carried out in a number of

Commercially-Operated Rooming Houses

For a long time the University has depended upon a large measure of commerciallyoperated housing for students. In 1939 an Office of Housing was established and in 1940 the Board of Trustees adopted policies and procedures by which facilities might be inspected and approved and set up standards which approved housing would be required to meet. The standards covered such areas of concern as "health, safety, comfort, moral surroundings, study conditions, social facilities, and reasonableness of charge." In recent years all single undergraduate students have been required to live in approved housing.

In August, 1955, the director of housing, in a letter to the operators of rooming houses, reiterated the University's policy of encouraging all who serve students in the Champaign-Urbana community to do so without discrimination. He also wrote: "In the University residence halls and temporary housing units, assignments (of rooms) are made without regard to race, religion, or nationality.

We urge that you follow the same policy in assigning your facilities."

On October 6 of the same year, the President of the University reviewed the situation and expressed regret that the policy of approving housing had been interpreted by some persons as an endorsement of the discriminatory policies of some of the operators. He reaffirmed the University's intention to make clear that it "deplores any discrimination on the part of operators . . . and will encourage landlords and businesses to follow University standards and practices. . . . "

As noted earlier, on September 15, 1958, the University issued a Code of Fair

Educational Practice which represented in general a codification of existing practice. The Code guaranteed the traditional freedom from discrimination at the University, stipulating its application in admissions, student aid, classroom and curricula, college employment, campus housing and boarding, health facilities, physical education and recreation. The Code also served to identify areas in which the extension of the University position on discrimination was affected by the attitudes of those outside the institution, for example: in the employment of University graduates; clauses in the constitutions of social organizations (as noted above); and in the availability of off-campus housing. In each of these areas the Code contained a statement in which the agencies and individuals con-

cerned were urged to comply with the University's policy of nondiscrimination.

In succeeding years the encouragement of nondiscrimination in off-campus housing was continued by University housing officials and approved and reviewed by the Provost. In December, 1958, the new Code was interpreted for the operators, and each was asked to sign a pledge not to discriminate as to "race, color, religious preference, or national origin." Each was informed that the University lists of housing facilities would carry notations as to which operators

² Meeting of February 16, 1940, Transactions of the Board of Trustees, pages 753-754.

As an example of University action concerning faculty housing, on June 28, 1961, the University Council approved a procedure of raising the two-year ceiling generally imposed on the rental of University housing by members of the faculty. This was done to accommodate faculty members who experienced difficulty in securing housing in the community because of Facial artifulae. racial attitudes.

had agreed to sign. By the spring of 1959 approximately 20 per cent of the off-campus housing spaces were pledged to be available on a nondiscriminatory

Late in 1959 further study of the Code was undertaken, with a view to its possible revision to insure more general compliance with University practices. Proposed revisions were submitted to and approved by the Legal Counsel who pointed out that if the proposed regulations resulted in the dissipation of offcampus housing to the extent that qualified students could not find housing, the University's obligation to admit and educate students would take precedence over its commitment to nondiscrimination.

Accordingly, on March 18, 1960, a revision of the Code was approved by which newly established commercial rooming houses would not receive University approval unless their owners agreed not to discriminate. When ownership of presently approved housing changed, the new owners would be required to accept a nondiscriminatory policy or face nonapproval. Excepted from these regulations were houses which were the dwellings of their owners and which provided no

more than three rooms for rent.

Since the spring of 1960 the University has continued to seek compliance. As of January 30, 1962, an over-all percentage of 49 per cent of off-campus space was available on a nondiscriminatory basis (71 per cent of the space for women; 44 per cent for men). Further, student groups have been interested in working with student leaders in the houses to seek additional pledges of nondiscrimination by means of persuasion and education.

Student Organizations

The existence of racially restrictive membership clauses in the organic laws or avowed policies of student organizations, social organizations in particular, has been the subject of national debate for many years. At the University of Illinois, in the Code of Fair Educational Practice issued in 1958, the problem was seen as "primarily a student problem" which therefore "should be solved by the students themselves." However, the Code noted, "the University encourages student organizations to eliminate qualifications based on race, creed, or national origin." The Code also stipulated that, although the University would supply information gathered at student registration to student organizations, it would not supply "information concerning the race, creed, or national origin of students for the specific purpose of membership selection by student social organizations." Moreover, representatives of such organizations were informed that periodic reports on their progress in the elimination of discriminatory clauses or policies

would be expected by the University.

On October 1, 1959, following discussion and approval by the Student Senate, the Urbana-Champaign Senate Committee on Student Affairs, and fraternity and sorority groups, the Dean of Students issued a supplement to the Code of Understanding Court of the Code o graduate Student Affairs. The supplement stated, "No new student organization which has a clause restricting membership on the basis of race, religion, or national origin, shall be granted University recognition." The supplementary provision was applied during the 1959-60 academic year to the establishment of two new organizations of foreign students, organized on the basis of national

origin.

LITIGATION TO CONSTRUE PROVISIONS OF ILLINOIS PURCHASING ACT

(43) At the request of the President, Mr. James J. Costello, Legal Counsel, submitted a report, on behalf of Mr. Ralph F. Lesemann, Special Counsel, on the case instituted in the Circuit Court of Champaign County by a number of heating and plumbing contractors, doing business in Champaign County, against the University for the purpose of securing a declaratory judgment construing the provisions of the Illinois Purchasing Act of 1957.

Prior to enactment of this law, the state of Illinois and its agencies, including the University, had an option to let construction, remodeling, renovation, repair, and other work upon their buildings out on contract or to purchase the equipment and materials needed for the work and have the latter performed by their own employees. Also, the State, the University, and other state agencies, if they saw fit to let such work out to contractors, were not required by law to award contracts upon a competitive bidding basis; nevertheless the University, as a matter of institutional policy, awarded contracts on a competitive basis, when the cost of any job exceeded \$2,500.

The suit instituted challenged the right of the University to undertake any construction or remodeling, repair or other work using its own staff involving any expenditures of state funds which exceeds the cost estimate of \$1,500. The

Illinois Purchasing Act provides that any purchase of any commodity or article, the cost of which exceeds \$1,500, shall be on the basis of competitive bids.

Judge Charles E. Keller of the Circuit Court of Champaign County, in a decision announced on February 19, 1962, ruled that it is not the intention and purpose of the General Assembly in enacting the Illinois Purchasing Act to deprive the University or any other state agency of the right and privilege it had prior to the enactment of that legislation to perform construction, renovation, repair, remodeling, etc. work with its own employees if it has funds appropriated to it in an appropriation "For personal services" which will enable it to do this. He further ruled that the Act should be construed in other respects in accordance with the University's contentions and contrary to those of the plaintiffs. In short, the decision announced by him on February 19 upheld all the University's contentions and rejected all those advanced by the plaintiffs which we did not concede.

A formal judgment order has been entered. If the case is appealed, the University's Legal Counsel and Special Counsel will vigorously oppose it.

A more detailed report has been filed with the Secretary of the Board.

This report was received for record.

SECRETARY'S REPORTS

The Secretary presented for record the following lists: (1) appointments made by the President; (2) graduate fellows; (3) cancellations and resignations; (4) leaves of absence; (5) cancellation of sabbatical leave of absence.

APPOINTMENTS MADE BY THE PRESIDENT

(The date in parentheses is the date on which the appointment was made by the President of the University. C = College; S = Station; E = Extension.)

ALVAREZ, JULIAN, Research Associate in Biological Chemistry (Medicine), eight months from January 1, 1962, \$7,000 a year (1-29-62).

Amon, Albert H., Research Associate in the Digital Computer Laboratory, February 1-June 15, 1962, \$722.22 a month (1-24-62).

Anzalone, Charlene B., Assistant in Physical Education for Women (Chicago Undergraduate Division), nine months from September 16, 1961, without pay (1-8-62).

Argoudelis, Christos, Assistant Professor of Food Technology (S), seven months from February 1, 1962, \$7,950 a year, supersedes (1-29-62).

BICKELHAUPT, Roy E., Research Associate in Ceramic Engineering (S), seven months from February 1, 1962, \$9,500 a year, supersedes (1-24-62).

EXECUTIVE SESSION

On motion of Mr. Clement, an Executive Session was ordered for consideration of a property acquisition.

ACQUISITION OF PROPERTY AT 1009 WEST GREEN STREET. URBANA

(1) The Board of Trustees on November 28, 1961, approved the design of the Illinois Street Residence Halls for single students, to be constructed in the area between Green Street and Illinois Street, Urbana, east of the present Student Staff Apartments. Construction is scheduled to start in the fall of 1962 with occupancy in the fall of 1964.

In order to assure that the site is available to meet the time schedule, representatives of the University have been negotiating for the purchase of the property at 1009 West Green Street, Urbana, which is the only remaining parcel not owned by the University in the area required for construction of the halls, with the understanding that this property must be made available by not later than July 1, 1962.

The property consists of a lot 90 feet by 267 feet, with a three-story and basement frame house, formerly a fraternity house and subsequently converted into an apartment house with eight apartments. There is also a garage on the premises. Appraisals range from \$66,380 to \$75,000.

The Director of the Physical Plant and the Vice-President and Comptroller recommend the purchase of this property at a price of \$68,000 and have made the owner a tentative offer to buy subject to approval of the Board of Trustees. They further recommend that if the University's offer is not accepted by March 2, 1962, the Board authorize the institution of condemnation proceedings for the acquisition of the property.

On motion of Mr. Pogue, the purchase of this property, at the price recommended, was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Hr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none: absent, Mr. Kerner, Mr. Wilkins.

Resolution

Be It, and It Is Hereby Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois, a body corporate and politic and a public corporation of the State of Illinois, that the following-described real estate situated in the County of Champaign, in the State of Illinois, to-wit:

The West Half (W ½) of the West Three-fifths (W ¾) of Lot Two (2) in Block Three (3) in Burpee, Curtiss and Somers' Addition of Out Lots to the City of Urbana, except the West Five (5) feet thereof and except the South One Hundred Ninety-nine and Sixty-four Hundredths (199.64) feet thereof, situated in the City of Urbana, County of Champaign, and State of Illinois:

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, for a site for residence halls buildings for single undergraduate students and for related educational purposes conducted and to be conducted by said University of Illinois and for the further expansion of the educational facilities of said University of Illinois and to enable said University of Illinois to discharge its duty to the people of said State and for public use; that funds have been appropriated by the General Assembly of the State of Illinois for the purchase of said land for said educational purposes; that this Board of Trustees has negotiated with the owner of said land through her duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but that said owner has refused to sell and convey said land, or any portion thereof, to said The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems unreasonable and excessive and is, therefore, unwilling and has refused to pay; and

Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land cannot be agreed upon between this Board of Trustees and the owner of said property and she and it are unable to agree upon the purchase price to be paid to said owner for the sale and conveyance of said land by said owner thereof to said The Board of Trustees of the

University of Illinois; and

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owner thereof for such land cannot be agreed upon between her and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the owner thereof and any and all other persons who may have any

right, title or interest in and to said land determined in the manner provided by law for the exercise of said right and power of eminent domain; and

Be It, and It Is Hereby Further Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction and that the Legal Counsel of the University be, and he is hereby, authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name and on behalf of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefore, and to employ such special legal counsel, appraisers, and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Pogue, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Harewood, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Wilkins.

On motion of Mr. Clement, the Board adjourned.
