Next, Dr. Pierre provided information regarding the item recommending sabbatical leaves of absence for Academic Year 2015-16. Dr. Pierre provided a presentation (materials on file with the clerk) that outlined the purpose of sabbatical leaves of absence, and he presented an overview of the process. Dr. Lynn Pardie, vice chancellor for academic affairs and provost, Springfield, provided information regarding the recommendation to the Master of Arts in Teacher Leadership. Dr. Pardie stated that the proposed name – Master of Arts in Education – better reflects the breadth and depth of the curriculum, distinguishes the program from a state-level endorsement for teachers, and supports student recruitment efforts.

Dr. Gislason provided information regarding the recommendation to the Master of Science in Pharmacology and Doctor of Philosophy in Pharmacology, Chicago. Dr. Gislason stated that the name of these degrees would change to the Master of Science and Doctor of Philosophy in Cellular and Molecular Pharmacology, reflecting the research and training done in the department and similar changes made at other universities.

Resolution Concerning College of Medicine on the Urbana-Champaign Campus

At 3:17 p.m., Ms. Basara asked Dr. Easter to present information on the resolution concerning the College of Medicine, Urbana. Dr. Easter provided background information on the review process for the proposal. He reviewed the criteria by which the Urbana campus proposal for an independent college should be judged, including advancement of the land-grant mission of the University, advancement of the research and educational mission of the Urbana campus, and the viability of the economic and governance model. Dr. Easter stated that the proposal met those criteria. He commented on the valuable role of the College of Medicine in Chicago and its contribution to the health sciences and community. He also noted that there were issues that would need to be navigated, and he provided examples. Dr. Easter said he recommended approval of the recommendation at the following day’s Board meeting, and he discussed possible next steps and goals. Mr. Montgomery asked about Carle Healthcare System’s long-term financial support of the proposed college. Dr. Wise and Dr. James C. Leonard, president and chief executive officer, The Carle Foundation, provided further details. Discussions were had on the
potential effect of donors giving to this proposal instead of others at the University; on the potential relationship between and culture surrounding the proposed college and the College of Medicine in Chicago; and on the future of medicine and medical education.
