Illinois Medicaid System Transformation

30 years
UIC

UIC in Partnership with the Illinois State Medicaid Agency

OVERVIEW

Presented to the Board of Trustees

January 24, 2013

Illinois Medicaid System Transformation

Triple Aim: Better Healthcare, Better Health, and Lower Cost

“Illinois intends to be a national leader in reforming the healthcare system that cares for the most vulnerable members of our population.”

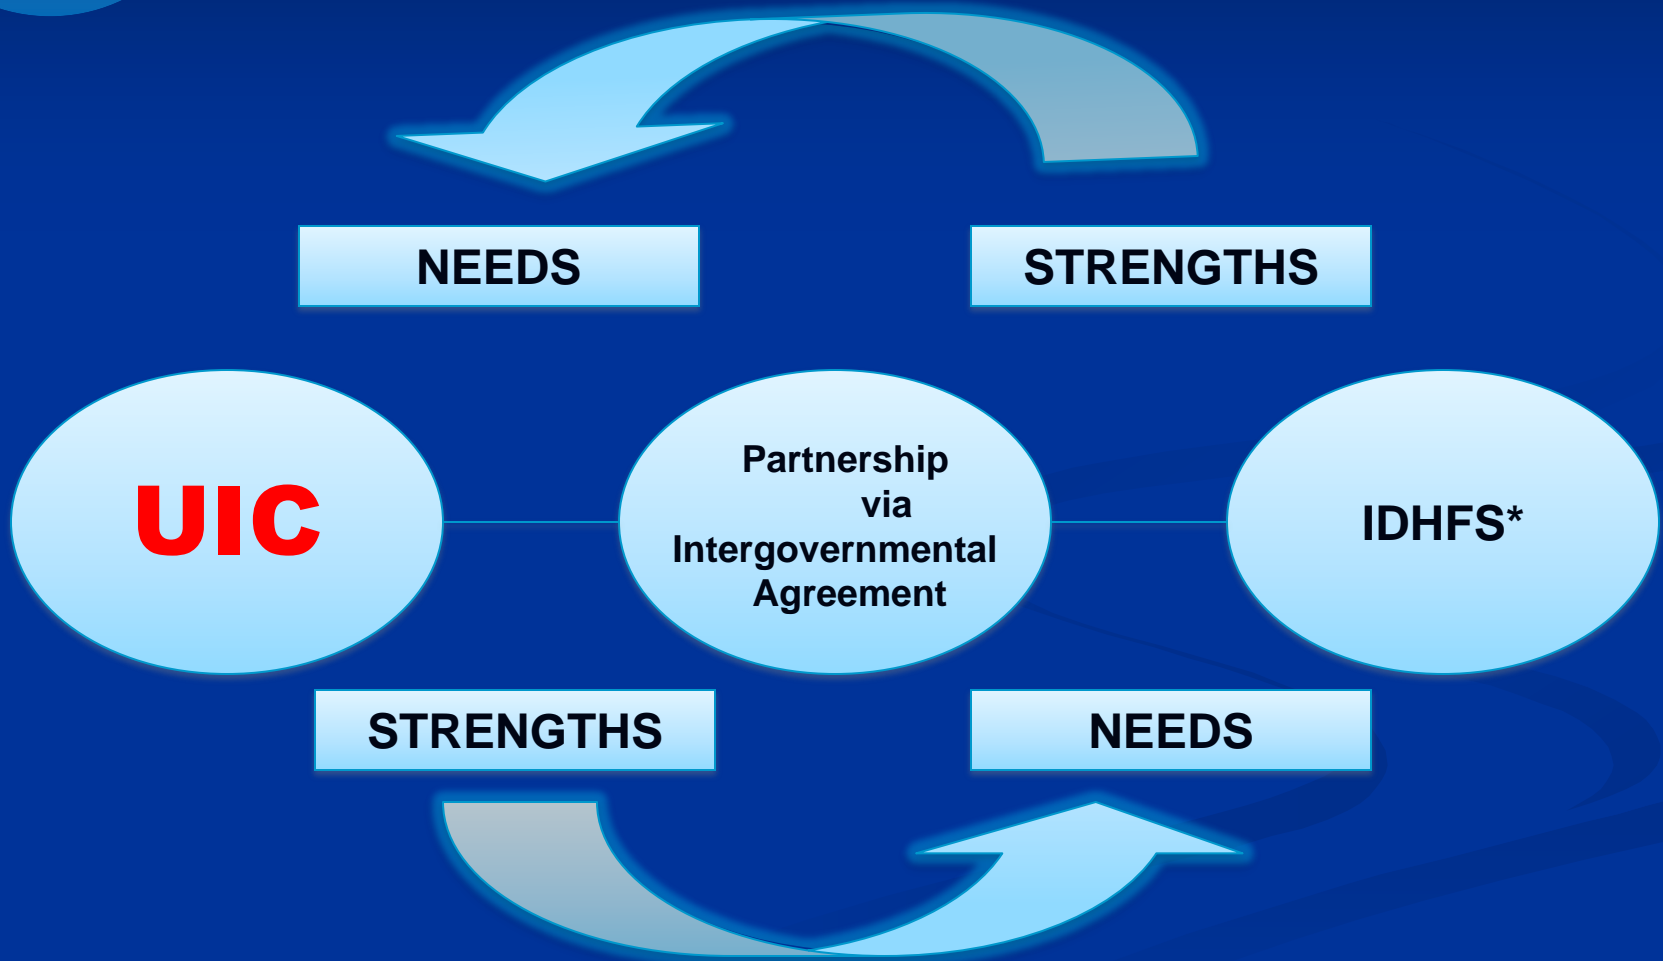

Governor Pat Quinn

“The University is honored to accept its new critical role in assisting the State to reform the Medicaid system to better meet the needs of the approximately three million people who rely on the program for their healthcare.”

UIC Chancellor, Paula Allen-Meares

Illinois Medicaid System Transformation New UIC/State Partnership Model

30 years
UIC

Purpose and Goals of Medicaid Transformation

To Achieve the Triple Aim: Better Healthcare, Better Health, and Lower Cost, UIC and the state Medicaid Agency will:

- **Build on an existing successful and growing partnership between the UIC health sciences colleges and the Illinois Department of Healthcare and Family Services (State Medicaid Agency).**
- **Identify and coordinate expertise from UIC and eventually other campuses in the restructuring of Illinois' Medicaid system, including:**
 - **Data Analytics**
 - **Evidence-Based Clinical Models**
 - **Outcomes Measurement**
 - **Alternative Delivery Models**
- **Coordinate existing and proposed Medicaid transformation initiatives to maximize federal funding.**

To avoid any potential conflict of interest between the University's role as a Medicaid provider and as a Medicaid Transformation partner, UIC will maintain a strict "firewall" between the University's Medicaid clinical/provider activities and UIC's Medicaid Transformation partnership with the State.

UIC Medicaid Transformation Initiatives

EXISTING INITIATIVES

Drug Formulary Management

Drug Prior Authorization

Drug Limit/Utilization Review
(SMART Act)

Nursing Home Review
(Money-Follows-the-Person)

Children's Program
Administration/Coordination

Integrated Care Evaluation
(IDPH)

PROPOSED INITIATIVES

Data Analytics

Children's Program
Administration/Coordination
Expansion

Medical Utilization Review
(SMART Act)

Governor's Work Force
Development Initiative

Governor's State Health
Innovation Plan
(Federal Initiative)

Partnership Benefits to UIC

Increase UIC's national profile as it helps to address one of Illinois' most urgent needs – transforming the State Medicaid system.

Align UIC's on-going research and educational missions with immediate, practical needs facing Illinois state government in the administration of the Medicaid system.

Expand UIC research and educational opportunities under a specific Medicaid data sharing agreement.

Expand federal funding opportunities both for UIC and the State.
