

Board Meeting  
July 13, 2017

## ROLL CALL

### APPROVE PROJECT FOR LOWER LEVEL SIMULATION LABORATORY, COLLEGE OF NURSING, CHICAGO

**Action:** Approve Project for Lower Level Simulation Laboratory, College of Nursing

**Funding:** Institutional Funds Operating Budget and Gift Funds

This \$5,570,700 project will build state-of-the-art simulation laboratories on the lower level of the College of Nursing Building located at 845 South Damen Avenue, Chicago. The existing lower level contains an outdated simulation laboratory and abandoned locker and toilet facilities. The goal of this project is to develop a series of simulation laboratories that present students with a variety of health care settings, including a hospital setting, a clinic setting, and a home care setting. Students will be presented with simulated patients to treat with the student's response recorded and then discussed during de-briefing sessions with the instructors. The simulated settings will give students additional clinical experience in an environment where actual patient health cannot be compromised. The project also includes additional instructional space and student support spaces.

Accordingly, the Chancellor, University of Illinois at Chicago, and Vice President, University of Illinois with the concurrence of the appropriate administrative

officers recommends that the Lower Level Simulation Laboratory, College of Nursing project be approved with a budget of \$5,570,700.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes, The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

Funds for this project are available from the institutional funds operating budget of the University of Illinois at Chicago and gift funds.

The President of the University concurs.
