IN ANY EMERGENCY YOU HAVE THREE (3) OPTIONS:

EXIT

EMERGENCIES CAN HAPPEN
anywhere at any time. It is important to have a plan in place to respond to an emergency in your area. It is important to know what to do in an emergency. When you are faced with any kind of emergency, you have three options to help you survive: Run, Hide or Fight.

OTHER RESOURCES
police.illinois.edu/safe for more information on how to prepare for an emergency, including how to get help or find and barricade floor plans that can show you safe areas.
emergency.illinois.edu to sign up for the "I Alert" text messages.
Follow the [University of Illinois Police Department](https://twitter.com/illinoispolice) on Twitter and Facebook to get regular updates about campus safety.

URBANA-CHAMPAIGN**

**RUN
IF IT'S SAFE.**

Leaving the area quickly is the best option if it is safe to do so.

- Take time now to learn the different ways to leave your building.
- Leave personal items behind.
- Assist those who need help, but consider whether doing so puts you at risk.
- Alert authorities of the emergency when it is safe to do so.

**HIDE
IF YOU CAN'T RUN.**

When you can't run, take shelter indoors.

- Take time now to find paths to shelter near you.
- If there is weather in the forecast, go to the nearest indoor storm refuge area.
- If someone is trying to hurt you and you can't get out, find a place where you can't be seen, lock or barricade your area, and once your phone, don't make any noise and don't come out until you receive an "I Alert" indicating it is safe to do so.

**FIGHT
AS A LAST RESORT.**

As a last resort, you may need to fight to increase your chances of survival.

- Think about what kind of common items are in your area which you can use to defend yourself.
- Team up with others to fight if the situation allows.
- Minimally preserve yourself - you may be in a fight for your life.
