CHALLENGES

Talent

- Illinois **losing talent** at all levels, **insufficient supply** relative to **demand**
- Employers struggling with **skills gap** across both digital and higher order skills
- Existing solutions often **fragmented**

Mobility & inclusion

- Illinois' new economy workforce **does not represent the diversity** across its community
- Existing industry approaches often recruit within the existing pool of diverse talent **without expanding it**

R&D economy

- While Illinois ranks among the top 5 states in GDP, it **lags in its R&D economy**
- University-industry R&D partnerships tend to be ad hoc and driven by existing relationships-not capturing **full potential** for collaboration

TALENT PROGRAMS

	Launch	FY29 Scale
Immersion Programs	FY20	2,000 Students
Skilling Accelerator	FY21	5,000 Participants
