We must...

- ❧ recruit and retain the very best faculty by providing the very best colleagues and working environment
- ❧ provide an environment where innovation, creativity, collaboration reigns
- ❧ make the boundaries between learning, discovery, and engagement invisible for faculty and students
- ❧ invest differentially with the long term future in mind to take advantage of our strengths, our niche, and emerging opportunities

We need to redouble our efforts to recruit AND retain the very best faculty.

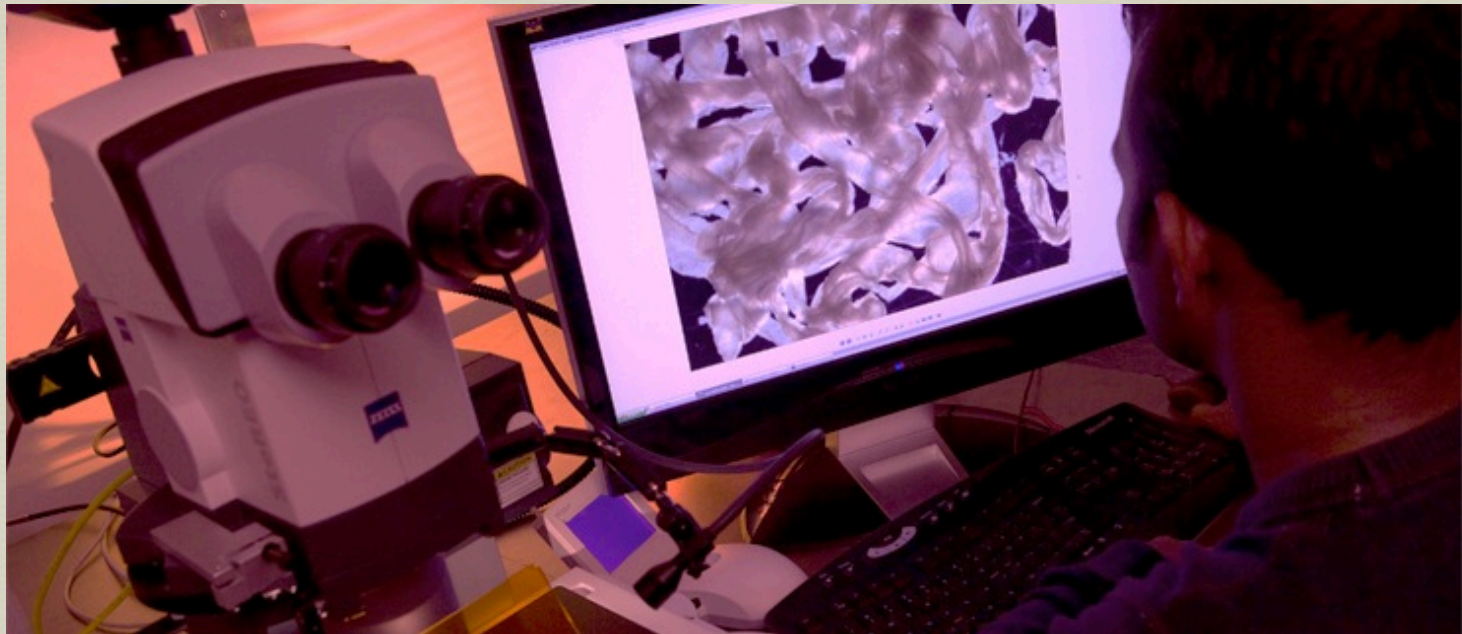

We can accomplish our goals by growing an environment where innovation, creativity, and collaboration reign.

We must make the boundaries between learning, discovery, and engagement seamless for faculty and students.

We need to invest differentially with the long term future in mind to take advantage of the nexus of our strengths, our niche, and emerging opportunities.

Visioning Excellence: maintaining and growing this world-class university
