

SECOND DAY—MORNING—MARCH 10, 1869.

The Board met at ten A. M., pursuant to adjournment. Reading of scriptures and prayer by Mr. LUTHER LAWRENCE. Present, Messrs. Allen, Blackburn, Brown of Pulaski, Burchard, Burroughs, Cobb, Dunlap, Edwards, Pearson, Galusha, Goltra, Lawrence, Kile, Pickrell, Pullen, Wright, Van Osdel, the Regent—18.

Minutes of the previous meeting were read and approved. The minutes of the last meeting of the Executive Committee were read and approved.

Resignation of Jonathan Periam, as head farmer, on motion of Mr. BURCHARD, referred to the Committee on Agriculture.

Mr. LAWRENCE was called to the chair and the report of the Regent was read, except the concluding portion, for which time was asked.

ANNUAL REPORT OF THE REGENT.

*Gentlemen of the Board of Trustees :*

The By-Laws require the Regent to make "An Annual Report to the Board exhibiting the progress and condition of the several departments of the University, with such suggestions as he may deem needful for their improvement." The present report marks the close of the first year of actual work of the University. This fact lends to this annual review both interest and importance.

The University was opened for the reception of students the second day of March, 1869. During the brief year allowed for maturing our plans and preparing for the opening, strenuous efforts were made to advertise the University thoroughly throughout the State. The Regent visited many counties and addressed agricultural fairs, and other gatherings of the people. A competitive examination was held in most of the counties, for students, and both the State Superintendent of Public Instruction and the County Superintendents of Schools gave hearty and efficient aid to make the new institution favorably known among the people. The applications for admission were numerous

and but for the false charges which were made against the University before it had put in operation a single plan or done a single day's work, it seemed certain to open with at least 200 or 300 students. There is evidence that many were diverted from their purpose of coming by these mischievous assaults. But notwithstanding all opposition, the first term showed an attendance of seventy-seven students. The second or autumn term opened with a considerable increase of numbers. The entire number who have entered up to the present time is 136.

The distribution of the students in the several courses cannot be precisely stated, since many have been engaged in preparatory studies, and many have not decided upon their course. It is believed that nearly one-third of the whole number are looking to the agricultural course. Several are entering the mechanical course, while others are pursuing engineering or commercial courses.

The instruction was given in the spring term by four instructors, the Regent, Professors Baker and Atherton, and Assistant Professor Burrill. There are now actually employed beside the Regent, three Professors and three Assistant Professors, representing the departments of History, English Language, Chemistry, Agriculture, Botany, Mathematics, Book-keeping and Modern Languages. Besides these, there are two lecturers, one on Pomology, Dr. John A. Warder, of Cincinnati, and one on English Literature, Rev. Edward Eggleston, of Evanston. Professor Powell, appointed by the Board to the chair of Natural History, has tendered his resignation on account of his continued detention with his expedition. I communicate herewith his letter of resignation and also that of Professor Atherton.

It is important that several additions be made to the Faculty before the opening of the next year, in September. The chairs of Horticulture, Mathematics and Mechanics, and either a professor of Natural History or one or two lecturers in this department should be chosen. A lecturer on Geology and another on Zoology, each spending a month with us in the winter term, would sufficiently reinforce those departments of study for the present.

A lecturer on Veterinary Science should also be appointed at an early day. I recommend that the Committee on Faculty and Courses of Study be instructed to recommend suitable persons to fill these places, and employ temporarily such teachers as may be needed before the next meeting of the Board.

#### STUDIES.

According to the plan of the University the students have been left entirely free to select their own studies. These students are not mere boys, but mostly grown men, many of them having been engaged in teaching or other independent business for their own support. They are competent judges of their own tastes and needs. To attempt to impose any study upon them without their consent would be simple oppression, and to refuse them any study the law requires us to teach would be equal oppression.

Most of the students have studied during the year some branch of Natural Science, as Natural Philosophy, Chemistry or Botany. Many have studied Book-keeping, English Composition, History, and all have either studied or

attended lectures on Agriculture. A considerable number, and always at their own option, have studied either the ancient or modern languages. Considering the somewhat violent prejudices which many persons have conceived against the languages, it is perhaps a pity that these young men should have chosen to embrace language among their studies. But as none of the so-called, more practical studies have been neglected on account of the languages, we may leave these students without offence to gain the advantages or suffer the loss resulting from their choice.

I cannot forbear to remark here, that to my mind it is a most pitiful business that any one should have narrowed this magnificent question of industrial education down to a petty debate on the study of languages—a matter which seems to me as irrelevant as the question whether students shall eat butter with their toast, or take sugar in their coffee—and a matter over which we as trustees have little or no control, since the laws of Congress and of the State forbid the exclusion of classical studies.

The Faculty, without exception, came from the laboring classes. They were all trained in boyhood to hard labor, and, by their own industry, won and paid for the education which now enables them to teach others. Becoming educated men, they have not ceased to be practical men—farmers and mechanics. Holding each a different creed, they work with one heart for interests broader than sects, and dear as humanity itself.

#### CHEMICAL LABORATORY.

The chemical laboratory has been opened for students, and I submit herewith Prof. Stuart's plan of compensation for chemicals used by students. In January Dr. Warder gave a course of twelve lectures on vegetable physiology and fruit growing, which were attended by the entire body of students. Most of the students also attended the lectures and discussions of the Farmers' Institute held at the University in January. The influence of these lectures was happy, in helping to create a fresh interest in agricultural affairs.

#### STUDENT LABOR.

During the spring term the students labored two hours each day. In the autumn the time was reduced to one hour per day, as we were unable to provide employment for so large a number of students for a longer time. The labor system has cost much solicitude and care on the part of those managing it, and it will always be attended with many difficulties; but so manifold are its advantages that we may well question whether it ought not to be persevered in against even greater obstacles. It is difficult to see how we are to give the practical character and bearing we all desire to our courses of instruction, without these practical exercises on the farm, or in the gardens. All book study tends to grow unpractical and abstract. It must be closely linked with the daily exercise of the senses and muscles in the same field of study, if you will insure it against dwindling to mere theorizing.

It is often urged upon us by those who never stop to inquire into the facts, that our students will be farmers' sons, who get their practice at home. Now it happens that a large proportion of our agricultural students come from the

cities or villages, and are the children of merchants, lawyers, etc., who often desire to make farmers of their sons. Such was also the case at the Michigan Agricultural College, while I was acquainted with it, and such will be largely the case with all the agricultural colleges. This is a fact we should hold in mind, or as trustees we may be imposed upon by unfounded assumptions.

But while these students of agriculture, who come not from the farms, certainly need the practical training furnished by the labor plan, those who come from the farms will be more helped than hindered by the fresh practice, tice, under different guidance, which they find here. I do not stop to urge again the considerations of health, of physical culture, of honor done to labor, and of the aid furnished to indigent students, by the labor system. It is useful for all these reasons, but it seems indispensable as a part of a practical education. It is certainly a very significant fact that most of the agricultural colleges are adopting it. The Massachusetts Agricultural College requires one hour a day. Maine also requires it. Michigan has maintained it for years. Iowa and Kansas require labor; and President White, of Cornell, said lately that a labor system to enable students to pay their way is *desirable*, but educational labor is *essential*.

The main difficulty of the labor system is to apply the labor effectively and profitably. To accomplish these ends, the labor should be performed in small parties, and under close supervision. I am inclined to believe that the maximum rate of compensation should be raised to twelve and one-half cents an hour, which is the price paid for volunteer labor. Inferior wages tempt to inferior performance of work. But lower rates may be paid for young or inferior workmen, and forfeiture of some part of the wages may be imposed for unexcused absence, or gross neglect of duty in the labor. Mechanical students ought, as far as practicable, to be furnished with mechanical labor.

I would also suggest that lots of half an acre or one acre be allowed, under proper conditions, to such students as may desire it, for experiments in agriculture or horticulture.

#### THE FARMS.

The work upon the farm and garden during the past year has already been reported to you in the report of Mr. Periam, the Head Farmer, made in November last. Much could not be done with the very limited means at our command, but Mr. Periam accomplished a good season's work in preparing the grounds for future cultivation. His services have been quite valuable and important.

The Griggs farm was rented for \$1175.

A considerable part of the stock and experimental farms were rented, under such stipulations as to crops and culture as would best prepare them for their future uses. The rents received in kind for the portions so rented are estimated at \$———. The remainder of these farms have been cultivated by the University force.

We are now prepared to begin the development of the several farms with reference to their final use. The Board will remember that, according to the plan of organization early adopted, the Professor of Agriculture is the Super-

intendent of the Farms—these being his laboratory and apparatus of illustration. It was also provided that his plans for the management of the farms should be annually submitted to the Regent and Faculty, and, after discussion and adoption by them and the Trustees or Executive Committee, shall be put on record. I have the pleasure to submit herewith Prof. Bliss' plans of management for the farms for the current year, which have been discussed and concurred in, though not formally adopted by the Faculty. To make clear the aim and scope of his plans for the year, he has presented a series of diagrams, exhibiting the proposed rotation of crops on the stock farm for the next ten years.

Accompanying this report, I submit a paper from Prof. Bliss, prepared by my request, and a plot illustrating his suggestions regarding the ultimate subdivision of the Experimental Farm. I concur heartily in his suggestion of the need of an intelligent foreman to aid in carrying out the practical work on the farms, and recommend that he be authorized to employ such foreman at a reasonable rate, and also such other farm laborers as may be necessary.

The 200 acres lying nearest the University will doubtless be found sufficient both for the horticultural grounds and the experimental farm. The plan accompanying this report exhibits the proposed distribution of this 200 acres, which is as follows, beginning on the north, next the street railroad:

For arboretum, ten acres.

Allowing sixty trees to the acre, which it is believed would leave abundant space for the paths and drives, this would afford room for 600 trees. Only eighty species are reported as indigenous to Illinois. But a much larger number can be acclimated here from other parts of this continent, and from the old world. The arboretum should be divided so as to exhibit, as far as practicable, the trees of each quarter of the globe by themselves. A distinct department should be made of the Illinois trees.

Next the arboretum, if the ground is suitable, may be placed the nurseries, occupying five acres.

Next this is the market garden, ten acres.

These two departments, which will furnish considerable labor for students, will thus be found near at hand.

Next may follow the small fruit plantations, viz;

For strawberries, two acres.

For raspberries, blackberries, etc., two acres.

For currants, gooseberries, whortleberries, two acres.

For grapes, two acres.

These plots will be large enough to exhibit the several varieties of these fruits.

This will bring us near a swale or slough susceptible of perfect drainage, but probably unsuitable, on account of its greater liability to early frosts, to most of horticultural purposes. It may be used for the cranberry or other shrubs or trees loving a wet soil.

Passing this swale we again reach high ground, where we may plant our specimen and experimental gardens requiring five acres. In this garden we

should exhibit as large a variety as possible of culinary vegetables; carefully measured plots should also be provided here for experimenting with the different fertilizers and modes of culture.

Through the 160 acre lot, two farm avenues should be extended, one from north to south and the other from the east to the west. These may be lined on either side by deciduous or evergreen trees, serving at once to give beauty and to serve as shelter belts. Near the outer gateways, opening into these avenues, small and tasteful cottages should be placed both to accommodate the farm laborers, and to provide protection for our grounds. The grounds embracing about fifty-three acres west of the north and south avenue is judged to be fit for orcharding, and may be occupied as follows:

1. By specimen apple orchard, sixty trees to the acre, planted in quincunx order. .... 25 A
2. Market apple orchard of approved varieties..... 10 A
3. Cherry orchard..... 5 A
4. Pear orchard, dwarf and standard..... 5 A
5. Peaches, plums and other fruits..... 5 A
6. Roads and shelter belts ..... 3 A

These orchards should be well protected by both hedges and a paling fence, and may be surrounded by a shelter belt of evergreens.

East of the north and south avenue there will be found abundant space and favorable grounds for the farm experiments. Room will be found here also for the plots spoken of for students.

East and south of the crossing of the farm avenues will be found a favorable site for a superintendent's house and a large barn, unless it is deemed best to place these at north entrance to the experimental farm. A plan and estimates for a barn are herewith presented, as also plans for laborers' houses.

#### HORTICULTURAL GROUNDS.

There is herewith presented a colored plan for the ornamental grounds about the University building, and some plans are expected to be contributed by Mr. Letz, of Chicago, for the glass structures needed. It is hoped that some part of these structures may be erected the current year. Mr. Franks, the gardener, has made good use of the small propagating house erected last fall, and has a large number of bedding plants to adorn our grounds this summer. A small appropriation is asked for seeds, ornamental trees and shrubs and tools for this department, as stated in the accompanying schedule.

An appropriation of \$600 is needed for seeds, stocks, and young trees for the nurseries. We have a bill of imported evergreens offered us at rates which seem quite favorable, with a guarantee of excellent condition.

The 3,000 specimen apple trees already received, will cost \$750. Other trees, for orchard and arboretum, needed this spring, will cost about \$700.

The entire orchard grounds, and as much as practicable of the gardens, should be underdrained at once. One main drain has already been put down through the ornamental and parade grounds. Another should be made at once on the west side. Hedges also may be set at once along the east and west lines of garden plots and experimental farms.

It is asked that a strip fourteen feet wide be relinquished to the public from the west side of the forty acre lot. This will make the line correspond with the west line of the University grounds and make the street of equal width throughout.

I recommend also that a proffer be made of one-half of a four rod street along the north line of experimental farm, between Wright street and Mt. Hope avenue.

In order to save to the Trustees the opportunity to buy the two lots which separated our lots south of the Springfield road, and which I judged would be needed in time for buildings, I purchased these lots at very reasonable rates, and now hold them subject to the decision of the Board. The purchase price was \$400.

#### MECHANICAL.

The shop erected last summer will not be sufficient for our work if much building is to be done this summer. I recommend that the stable now occupying one part of it be vacated and the whole be fitted up as a shop. We have several students in the mechanical course who have sought for practice in the shop, and are already exhibiting some skill in the use of tools. If a supply of tools can be furnished they will render effective service in our building operations.

We shall need at once some draughting tables or stands for the students in mechanical drawing. It should not be forgotten that instruction in Mechanics is as obligatory upon us as instruction in Agriculture, and a Professor in this department should be put on service at the opening of the fall term at latest.

#### THE UNIVERSITY BUILDING.

The intense heat of the last summer so nearly ruined the slate composition roofing, that only by repeated patching have we been able to keep out the rains. It is evident that the roofing must at once be replaced by something more substantial. I recommend that a good tin roof be put on and well painted.

A slight inspection will also convince you that something must be done immediately to preserve the brick of the basement story from further decay. A good coating of stucco or mastic might perhaps suffice. The steeple and cornice need repainting, and I recommend also that the side walls in the several halls be painted to some height at least, that they may be more easily washed and kept clean.

An ornamental gateway, the gift chiefly of Mr. John Burchard, of Beloit, is ready to be erected at the main entrance.

The sidewalk on the west front should be extended to the Springfield road, if not across the brook.

#### FINANCES.

I report herewith a statement of the warrants issued during the year. The total expenditure for all purposes, not including the railroad donation, nor the trees, etc., donated by Champaign county, from Dunlap's nursery, is

**\$36,698 03.** The purposes for which these expenditures have been made, are submitted elsewhere.

These expenditures have slightly exceeded the estimates for the year, but a portion of them has been made in anticipation of the appropriation, and are properly chargeable to it as permanent improvements. Some considerable income may yet be expected from the sale of farm produce now on hand and from rents.

The Treasurer's report will give you a statement of the receipts of the year.

The amount received on account of the Illinois Central Railroad freight donation, up to March 1st, is \$3.

The accompanying statement will show the number of trees and shrubs received from Mr. Dunlap, together with the sizes of the same. These have been taken by actual count and measurement on the ground made by the gardener. A few trees, which were mostly overgrown when received, have died, an account of which is added. Mr. Dunlap has not yet presented any written statement of the account. The officers who received these trees had nothing to do with fixing prices, those being determined by the deed of gift as at "catalogue rates." It will be necessary, therefore, for the trustees to settle the account thus far, and decide how much more is due on the donation.

An application was made in due form to the Legislature for an appropriation for the several departments, and copies of the memorial prepared have already been seen by you. A bill making an appropriation of \$60,000 has passed the House of Representatives and is now pending before the State Senate.

Patents have already been issued for most of our lands, and taxes have begun to accrue. Ought not some plans and terms of sale of these lands to be adopted at once?

#### LIBRARY, CABINETS AND APPARATUS.

Some additions have been made to the library since the last meeting of the Board, but it is still wholly inadequate to our needs. If the appropriation now pending is passed, I recommend that the Library Committee be authorized during the coming summer to make such purchases as are needed.

A paper relating to botanical excursions, proposed by Assistant Professor Burrill, is herewith submitted. I heartily recommend that he be furnished with the necessary materials and outfit, and that as far as practicable he and his class be encouraged to make excursions, if not in term time, at least, in the vacations.

The cabinets we have in possession are here only on exhibition, and are offered for sale. Measures should be taken this present year to begin the collection of cabinets.

A set of meteorological instruments ought to be provided at once, that a series of regular observations may be opened here at an early date. I am informed that a full set will cost \$100.

## HONORARY SCHOLARSHIPS, ETC.

The language of the statute, strictly construed, restricts the honorary or free scholarship provided for each county to the descendant of a soldier or sailor. It is, however, permitted to the Board to provide other honorary scholarships. In order to give some regularity to this business, I recommend that it be provided by resolution that when the regular honorary scholarship in any county is not claimed, one free or honorary scholarship be offered to such student as shall pass the best examination and shall be of good character and promise.

There is already one application from a graduate of a college to come here and study as a resident graduate. Other applications of this sort may be received. I would recommend that a rule be adopted that resident graduates be admitted on the payment of the ordinary fees, excepting the matriculation fee.

On motion of Mr. BURROUGHS the report of the Regent, with the accompanying documents, was referred to the proper standing committees.

Mr. BURROUGHS' resolution was as follows :

*Resolved*, That the different subjects contained in the Regent's report be referred to the several committees on the subjects, for the coming year, and that a committee on nominations be now appointed to bring in, as soon as possible, names of such committees.

Carried.

On motion, Messrs. Lawrence, Edwards and Goltra were appointed a Committee on Nominations.

On motion of Mr. GOLTRA, Mr. J. S. Slade was invited to take a seat with the Board.

Moved and seconded that the new members be sworn in.

Carried.

Messrs. Pearson, Griggs, Kile and Wright were then sworn in, Judge A. res administering the oath.

On motion, the report of the Treasurer was read.

## TREASURER'S REPORT.

November 13, 1868.	By balance .....	\$6140 99
December 9, 1868	By J. M. Gregory, tuition, etc., balance for fall term .....	169 50
January 4, 1869.	By interest on \$109,000 Illinois bonds .....	3270 00
January 4, 1869.	By interest on \$25,000 Chicago water bonds .....	875 00
January 27, 1869.	By J. Periam, sales of farm produce. ....	328 34
January 27, 1869.	By J. Periam, notes for rent of land. ....	468 75
March 5, 1869.	By J. M. Gregory, collection of fees for winter term .....	785 50
		<hr/>
		\$12,058 08

To amount paid for salaries .....	\$4468 24
To amount paid expense of trustees .....	433 20
To amount paid salaries, expenses, for lecturers .....	883 45
To amount paid for insurance .....	251 50
To amount paid Superintendent's salary and labor for farm .....	1289 74
To amount paid students' labor .....	404 40
To amount paid for printing and advertising .....	137 50
To amount paid for coal and wood .....	283 55
To amount paid for wages of carpenter, gardener and janitor .....	631 33
To amount paid for library apparatus and cabinet .....	549 50
To amount paid for freight and express charges .....	55 20
To amount paid for stationery .....	11 60
To amount paid for draining tile .....	270 00
To amount paid for labor, material for University and grounds .....	1053 68
Balance on hand .....	1324 59
	<hr/> \$12,038 08

CHAMPAIGN, ILL., *March 9, 1869.*

JOHN W. BUNN,  
*Treasurer.*

[The above report, as will be seen, embraces only the latter part of the year, from November 12, 1868. The report for the first part of the year was made to the Board at the meeting in November, 1868.]

On motion of Mr. BURCHARD, the report of the Treasurer was referred to the Auditing Committee.

Then the report of Committee on Military Department was received.

On motion of Mr. BURCHARD, it was received and laid on table for future action.

Judge BROWN offered the following resolution:

*Resolved*, That the Treasurer be authorized to sell 50,000 acres of the remaining land scrip, at such prices as he may be able to obtain: *Provided*, he shall not sell at a lower price than may be approved by the Finance Committee.

On motion of Mr. PEARSON, it was laid on the table until Thursday morning, March 11.

Judge BROWN moved then, that the Finance Committee be instructed to devise and report to the Board a plan for putting on the market and selling the lands entered by virtue of the Congressional scrip issued to this University.

On motion, the bills and accounts now in the hands of the Regent were referred to the Auditing Committee.

Mr. J. H. PICKRELL offered the following resolution:

*Resolved*, That the boarding arrangements made with Mr. Aaron Potter, as set forth on page 93 of Annual Report, be annulled, and that the Executive Committee are directed to sell or otherwise dispose of the fixtures, and give Mr. Potter notice to vacate the premises.

Carried.

Mr. M. L. DUNLAP moved that the Committee on Library and Cabinets be directed to settle with Prof. Powell in regard to specimens of natural history, and that any expense incurred in relation to same be paid out of the library fund.

Laid on the table.

Mr. EDWARDS made the motion that Messrs. Edwards, Pearson and Pullen be a committee of three to make a final settlement with Mr. Dunlap in regard to the donation of \$2,000 worth of trees and shrubbery, and report the same to this Board before its adjournment.

Carried.

Motion to adjourn until two o'clock P.M. prevailed.

---

## TWO O'CLOCK P. M.

Board met pursuant to adjournment—Regent in the chair.

On motion of Mr. PICKRELL, Mr. Slade was asked to take his seat, and be qualified as soon as the proper officer should arrive—a telegram having previously been read from Senator Flagg, stating that the new Trustees had been confirmed by the Senate, except Mr. Scott.

The committee to which was referred the nomination of the standing committees made their report.

A motion to recommit their report was carried.

The committee then reported back the following nominations, as amended:

*Executive Committee*—Regent, Cobb, Brown of Pulaski, Pickrell, Cunningham, Griggs, Goltra, Pullen and Wright.

*Agricultural Department*—Pickrell, Johnson, Allen, Kile and Blackburn.

*Horticultural Committee*—A. M. Brown, Pullen, Galusha, Pearson and Edwards.

*Finance Committee*—Cobb, Burchard, A. M. Brown, Pickrell and Griggs.

*Building and Grounds*—Goltra, Van Osdal, Griggs, Cunningham, Johnson and the Regent.

*Auditing Committee*—Lawrence, Dunlap, Cunningham, Pearson and Galusha.

*By-Laws*—Burchard, Lawrence, Slade and the Regent.

*Faculty and Course of Study*—Regent, Edwards, Pickard, Hayes, Bateman and Blackburn.

[Mr. Griggs substituted for Mr. Pickard. See page —.]

*Military Affairs*—Brayman, Dunlap, Scroggs, Kitchell and Kile.

*Library and Cabinet*—Regent, Bateman, Mahan, Allen, McMurray and Slade.

*Mechanical Department*—Van Osdel, Brown of Chicago, Dunlap, Goltra and Griggs.

On motion, the nominations were adopted.

The question arising whether, in the election of officers, a majority of the full Board should be required to elect, or only a majority of the members present,

Mr. PICKRELL offered the following resolution:

*Resolved.* That in the election of officers, a majority of the members present (being in all cases a quorum) shall only be required; and that all resolutions and rules of the Board in conflict with this resolution are hereby repealed.

Carried.

Judge BROWN moved that the Board proceed to the election of officers.

Carried.

On motion of Mr. LAWRENCE, the subject was deferred, and made the special order for Thursday, March 11, at ten o'clock A.M.

The Finance Committee then reported as follows:

#### REPORT OF FINANCE COMMITTEE.

The Finance Committee submit the following:

The gross expenses for the year ending March 1, 1869, are as follows:

Board expense.....	\$2,381 26
Library .....	809 12
Land scrip .....	219 25
Salaries .....	18,000 00
Chemical apparatus.....	978 00
Engineering instruments.....	545 45
Philosophical apparatus.....	504 50
Fuel, lights, repairs and incidental expenses.....	3,175 04
Improvements and alterations in buildings and grounds.....	8,222 12
Farm and garden, including purchases of teams, wagons, implements, fencing, building of barn, and running expense.....	7,863 28
Total.....	\$56,698 02

Receipts for the year ending March 9, 1869, were as follows:

Interest on Champaign county bonds.....	\$10,000 00
Interest on Illinois bonds.....	6,865 00
Interest on Sangamon county bonds.....	2,250 00
Interest on Chicago water bonds.....	1,750 00
J. M. Gregory, for freight.....	649 18
Rent of farm lands.....	468 75
Tuition and other fees.....	3,329 50
Sales of produce of farm.....	941 27
M. C. Goltra, refunded on land scrip.....	1,185 10
R. M. Eppstein, for University buttons.....	65 55
Amount on hand, March 9, 1868.....	\$27,503 85
Total.....	10,173 10
Less disbursements.....	\$37,176 95
Leaving balance in hands of Treasurer, after paying warrants now outstanding.....	36,698 02
	\$978 93

At our November meeting, the Treasurer and Finance Committee were authorized to sell 50,000 acres of land scrip at ninety-five cents. As yet we have not been able to effect a sale, and would suggest that the limit be removed, and authority to sell without limit be granted.

The location of the 25,000 acres of scrip will probably be attended to at as early a date as possible the coming spring and summer, by the Treasurer and Mr. Goltra, in whose hands it was put at our November meeting.

The sale of lands already located should receive attention as soon as practicable; and with a view of furthering the same, the Treasurer was authorized, at our November meeting, to procure books, classifying said lands, with such other information as could be obtained in relation to them.

The interest-bearing securities in the hands of the Treasurer remain the same as at our November meeting. The Treasurer and the Chairman of the Finance Committee are doing their utmost to obtain county bonds (issued for other than railroad purposes) bearing a rate of interest at least eight per cent., into which we may convert most or all our Illinois bonds, bearing six per cent.

The estimates of expenditures for the coming year will have to be made after the Board, through the various committees, have signified their wishes in regard to improvements, etc.

In regard to our expected appropriation from the State, we would recommend that the Board, before its adjournment, should signify its wishes as to the expenditure of the same, as much in detail as possible, and would recommend that it should be put in substantial improvements, economically as may be, and strictly for the purposes appropriated.

Respectfully submitted.

EMORY COBB,  
H. C. BURCHARD.

On motion, the report was accepted and approved.

It was moved that the report of the Regent be taken up in detail, and allotted to the appropriate committees.

On motion, the first or introductory portion was referred to the Committee on Faculty and Course of Study; so much as relates to the farm, to the Committee on Agriculture; so much as relates to buildings and grounds, to the Committee on Buildings and Grounds; so much as relates to Horticulture, to the respective committee; so much as relates to Library and Cabinets, to the committee on same; so much as refers to the Mechanical Department, to the committee on this department; so much as relates to Finances, referred to the Committee on Finances; so much as relates to warrants drawn, to the Auditing Committee; so much as relates to honorary scholarship, to the Committee on Faculty

and Course of Study; so much as relates to newspapers and scurrilous reports, be referred to a Special Committee, consisting of Messrs. Pearson, Lawrence and Blackburn.

On motion, the Board took a recess until 7 o'clock P. M.

## SECOND DAY—EVENING—7 O'CLOCK.

Board was called to order at 7:30 P. M. Regent in the chair.

The roll being called, the following gentlemen answered to their names:

Allen, Blackburn, Brown of Pulaski, Burchard, Burroughs, Cobb, Dunlap, Edwards, Pearson, Galusha, Goltra, Griggs, Lawrence, Mahan, Kile, Pickrell, Pullen, Wright, Van Osdel, the Regent—20.

Report of Finance Committee in relation to accounts, was then received and adopted.

## REPORT OF COMMITTEE.

Your committee to whom was referred the resolution in regard to the appointment of a book-keeper, with instructions to examine the books of account of the University, would respectfully report that they have considered the resolution in regard to the appointment of a book-keeper, and while they find the latter correctly kept, yet they deem it advisable that fuller accounts and entrees should be made so that the books will show, at all times, the monetary transactions, and exact financial condition of the University, and that accounts should be opened so as to exhibit the receipts and expenditures in each department as well as the general expenditures and the amount of debit or credit of every fund or appropriation.

Your committee would, therefore, recommend the passage of the following resolution:

*Resolved*, That the Finance Committee be instructed to employ a competent accountant, and to see that a set of books be opened in double entry, in which shall be represented the entire business of the University, including distinct accounts of the leading sources of income and expenditures; and the said accountant to present a proper balance sheet at each annual meeting of the Board, and oftener, if required; and said books to be open at all times to the inspection of the Trustees and Officers of the University; and said accountant shall be subject to the call of the Regent or Recording Secretary for any clerical services they may require.

Carried.

On motion of Mr. VAN OSDEL, a committee of three, Messrs. DUNLAP, PURCHARD and COBB were appointed to examine the books for errors, if any there be.

The Auditing Committee made a report as follows:

REPORT OF AUDITING COMMITTEE.

The Auditing Committee to whom was referred the Treasurer's Report, beg leave to report that they have examined the same, with the vouchers accompanying, and find that the accounts have been kept correctly, and show that warrants numbered from 1 to 412, inclusive, have been paid except No. 113 for \$179, and No. 403 for \$166 66, amounting to \$345 66, leaving a balance now in the Treasurer's hands of \$1324 59.

The committee recommend that the report be accepted, and that they have canceled the warrants from No. 279 to No. 412, inclusive, except No. 403, by cutting a notch in lower side of the same.

They have examined the following bills and recommend that warrants be ordered for the payment of the same, viz:

Doty & Mitchel.....	\$50 00.
Walker Brothers.....	9 37.
O. L. Barber.....	25 00.
J. A. Hutchinson.....	16 00.
Mowlding & Harland.....	66 00.
W. S. Maxwell....	2 00.
William Price.....	27 30.
Dodson & Hodges.....	81 58.

Respectfully submitted.

L. W. LAWRENCE,  
JOHN M. PEARSON,  
O. B. GALUSHA,  
M. L. DUNLAP,

*Auditing Committee.*

On motion, the report was adopted.

The following resolution was offered by Mr. EDWARDS:

*Resolved*, That female students be admitted to recitations and class lectures on the same terms as to qualification and charges for tuition as male students. But in no case are they to have rooms in the institution; and shall be under such rules and regulations as the Faculty shall from time to time prescribe, until otherwise ordered by the Board.

On motion, it was postponed until Thursday, 11 o'clock A. M.

The Special Committee to whom was referred that portion of the Regent's report relating to newspaper criticisms, reported that the same should be expunged from the records, together with the report relating thereto.

The report of the Committee on Buildings and Grounds was read. (See report, page—.)

After discussion, on motion of Mr. BURROUGHS, it was voted that this report and all other reports which may be made calling for appropriations, be referred to the Committee on Finances, with instruction to report to the Board a schedule of all the appropriations asked for.

The report of the Horticultural Committee was read, and on motion recommitted to be reported Thursday.

Report of the Committee on Mechanical Department was referred to Finance Committee.

Report of the Committee on Agriculture was read and adopted.

#### REPORT.

The Committee on Agriculture beg leave to report that they have had the resignation of Mr. PERIAM under consideration, and would recommend that it be accepted. We have also partially examined his accounts and vouchers, and have no hesitation in saying that we believe them correct. We also find that there is an item charged against the farm of team labor performed at the grounds of the University building amounting to \$831 75; also an average of three months time of the Superintendent was spent on the grounds of the building, which would make an amount of \$375. These two items we would respectfully ask may be placed to the credit of the farm and charged to their proper accounts.

We have had under consideration that portion of the Regent's report accompanied with plans for the future rotation of crops, etc. We would say that we fully concur in said reports and recommendations, except so much of it that requires the Professor of Agriculture to submit the management of the farm to the Regent and Faculty for their approval. We would respectfully ask that instead of the Faculty, the Committee of Agriculture be substituted, and that only so much of the plans of the Professor of Agriculture as may relate to the classes shall be submitted to the Faculty.

We would also recommend that the Professor of Agriculture be empowered to employ such help as he may deem necessary, and keep separate and correct accounts of the farm and his acts and doings, to manage the farm known as the Experimental and the Busey Farm.

The Griggs Farm, we understand, has been satisfactorily rented for the next year. We would respectfully ask that the Professor of Agriculture be authorized to have an accurate survey of the Busey Farm made, in order that the hedges may be set in the proper place. We would further recommend that the present crop of produce that will not be needed for the farm should be sold and placed to the credit of the Farm account.

All of which is respectfully submitted.

J. H. PICKRELL,  
WILLIAM KILE,  
A. BLACKBURN,  
LEMUEL ALLEN.

Mr. PEARSON moved that the recommendations of Prof. Stuart in relation to needed apparatus and chemicals, and the method of using and disbursing the same, be referred to Committee on Mechanical Department.

Carried.

Report of Military Department was then read, and, on motion, recommitted, to be reported Thursday, March 11, 10 A. M.

Mr. EDWARDS introduced the following resolution:

WHEREAS the Board of Trustees contains too many members, incurring too much expense, therefore

*Resolved*, That the Board suggest to the General Assembly the propriety of so amending the law in regard to the number of Trustees, that the Board shall hereafter consist of one member from each Congressional District and the present members *ex-officio*, a majority of whom shall form a quorum.

*Resolved*, That the Recording Secretary transmit a copy of these resolutions to the Governor.

On motion it was laid on the table.

Mr. BROWN offered the following resolution:

*Resolved*, That fourteen feet in width along the west side of the forty-acre tract be conceded to the public, for the purpose of widening the avenue along the line.

It was moved that the resolution lie on the table. Lost—yeas 9, nays 12.

On motion, the whole matter was recommitted to the Committee on Buildings and Grounds.

The following motion was offered by Mr. PICKRELL:

I move that tuition be free for the Departments of Agriculture and Mechanic Science and Engineering, and that five dollars per term be charged for the other scientific and classical studies; that twelve dollars be charged for the use of chemicals and apparatus in the Department of Analytical Chemistry, and that two and a half dollars per term be charged to all students for incidental expenses, provided that students holding honorary scholarships shall be exempt from incidental expense.

After discussion, Mr. PICKRELL offered the following:

Moved, that the question of tuition be reconsidered, so far as may apply to the next calendar year.

On motion, they were referred to the Finance Committee.

Mr. BLACKBURN offered the following resolution:

*Resolved*, That the two lots referred to in the Regent's report, purchased by him and offered the University at cost, be accepted, and he be directed to draw upon the Treasurer for the amount required for this purchase and the proper conveyance of said lots to the University.

On motion, it was referred to the Finance Committee.

The Special Committee, to whom was referred the bill of Mr. Dunlap, made the following report:

Your Committee, to whom was referred the bill of Mr. Dunlap for trees and shrubbery furnished the University, would report, that whilst in many localities the prices of many of the articles would be considered too high, yet, owing to the scarcity or impossibility of obtaining the larger sizes of trees and plants, either here or at any point near by, at lower figures, also from the fact that such plants are much more valuable if obtained near home, under the circumstances we recommend the allowance of the bill as before us. The amount of the bill is \$1,547, and now due \$453.

SAMUEL EDWARDS,  
JOHN M. PEARSON,  
B. PULLEN.

The report was recommitted to the Committee for further consideration.

On motion of Mr. COBB, it was resolved that the balance of trees be received by the Horticultural Committee.

On motion of Mr. BROWN, the name of Mr. Griggs was added to the Committee on Course of Study, in place of Mr. Pickard.

The Board thereupon adjourned to Thursday, March 11th, at 9 o'clock, A. M.

The following "Statement of Warrants drawn by the Regent" should have appeared after the Regent's Report, on page 70, but did not reach the printer in time.
