# MEETING OF THE BOARD OF TRUSTEES, SEPTEM-BER, 1880.

The Board met at the University parlor at 3:30 P. M. on Sep-14th, 1880.

Present-Messrs Cobb, Gardner, McLean, Millard and Fountain. Absent-Governor Cullom, Messrs Byrd, Mason and Scott.

The minutes of the June and July meetings were read and approved.

The Regent pro tem. then submitted the following report; which was read and received:

## REGENT'S REPORT.

#### To the Trustees of the Illinois Industrial University:

GENTLEMEN: Before I proceed to consider the topics which are to be laid before you<sup>r</sup> honorable body in this my first official report. I have to express my profound acknowl<sup>-</sup> edgments for the compliment you have paid in entrusting to me the Regency of this University, until you shall have chosen to place its responsibilities in other and abler hands. But for every expression of confidence and encouragement which I have received from yourselves, from my colleagues of the Faculty, and from the students. I should shrink from assuming the duties of this position even temporarily. Until the time, which should not be remote, when you will make a more suitable and a permanent choice. I shall earnestly endeavor so to discharge this trust, that the interests of the University may not suffer suffer.

#### THE CORPS OF INSTRUCTION

THE COBPS OF INSTRUCTION needs no encomium from me. It includes learned, accomplished, and tried Professors and tutors, deficient only in numerical strength to meet the demands made upon them by growing numbers of students, and a variety of courses of study. The corps is too small for the duty and the deficit is made up by the painstaking and self-denying overwork of those who feel that their reputations and their lives are at stake. The process of depletion is so gradual that possibly the fact has been overlooked. At the end of the year, in June, 1878, eight persons were employed, who have since vacated their positions: viz. Dr. Gregory, Professors Webb, Robinson and Allen, and Instructors Baker, Clark, Wild and Taft. In these places are found now only Baker vice Webb, Peabody vice Robinson and Sondericker vice Clark. The other five are vacant, and their duties have been distributed to others of the Faculty, or not provided for. It is true that the names of certain courses of study have been suppressed, but the courses still remain, and their work is done as before. As no one could have said that the force two years since was unnecessarily large, it must ap-pear that the University is notably short-handed now. The closing of the classes of the Preparatory year at the end of the current Academic year will relieve this difficulty in a measure, but for this year these students are with us, and while they are here they are en-titled to the competent instruction we promise in our circulars to the public. It is hardly in my province to suggest to you a solution of this whole problem, since so instruction hitherto connected with it. For the present, it has been arranged that the Historical part of that work shall be undertaken by Prof. Crawford, and the Philosophical part by myself. I have not found that any authority has been given to the Regent, or to any other officer, to provide for the work of the preparatory class in the term now begin-ning. To provide for the emergency, I have made the following arrangement

## THE SCHOOL OF DOMESTIC SCIENCE

is left without a Professor, and the University without a Preceptress, by the resignation of Mrs. Gregory. While I would avoid any interference with the duties of the Committee which you have appointed to consider this matter. I ask leave to suggest a single thought upon the principle involved. I believe that both Dr. and Mrs. Gregory had very clear and positive ideas as to the scope of the work in this School, the ends to be attained by it, and its value to its graduates, the University, and the public. The means by which those ends were to be secured, and the details of instruction, were doubtless subjects of experiments, subject to modification, improvement, or rejection, as the experiment should progress. If it is your wish that these ends should still be sought, and these experiments should be continued, it will be necessary that they should be entrusted to some lady whose ideas of the work are high and comprehensive, whose capacity for it is assured, and, above all, whose convictions as to its value, and of her duty in regard to it, are settled and impera-tive. A woman who has the necessary character, ability and zeal, may have to undertake the work on a plane lower than that which Mrs. Gregory had reached, but she would mount the ascent more quickly, because the road has already been surveyed and partly graded. graded.

If, on the other hand, you assume that the course in this School has no valuable aim, or one unknown, or even one that cannot be formulated, and that the whole is an experiment into darkness; if you should appoint a person, otherwise of the most desirable qualities, who is, I will not say inimical, but not positively friendly to this course, it will speedily become a dead issue, and one very soon to be removed from our present programme of work.

#### STATE APPROPRIATIONS.

I have received a communication from Hon. Jas. P. Slade, the Superintendent of Public Instruction of this State. asking for a report of the progress of this University during the last two years, and I am informed that the Trustees are required by law to make a similar report to the Governor of the State by the end of the present month. In each of these reports a statement will be expected as to the grants which will be asked of the Legisla-ture during the next session. I respectfully suggest that this subject, already receiving your earnest attention, may be considered so early that the results of your deliberations may be brough to the notice of these officers in time for their consideration, and, as may be honed for their approval and earnest advocacy

may be brought to the notice of these officers in time for their consideration, and, as may be hoped, for their approval and earnest advocacy. I am informed that it is your wish that the University should place in the State House in Springfield an exhibition which may fully illustrate our scientific and practical work in the several colleges and schools, and that this work should be done before the Legislature convenes. I earnestly approve this design, and shall work zealously in its execution. An appropriation will be needed to refit cases for a suitable display of the exhibit, and to pay for four bulk to have a suitable display of the exhibit.

appropriation will be needed to real cases for a suitable display of the exhibit, and to pay for freight, labor and contingent expenses. I lately received a request for an exhibit of our elementary work from the Machine and Carpenter shops, to be placed in the Exposition Building at Chicago. The occasion appeared to be one which it were unwise to neglect, and a selection of shop-work, models and drawings was forwarded. I ask that you will authorize the payment of the expenses of this display, which I think should not exceed \$25.

## APPROPRIATIONS.

I ask that you will make the usual appropriations for the ensuing six months, as per schedule of the Business Agent, and I recommend the following special appropriations, asked by the several Professors, whose communications are herewith transmitted:

For cases in the room of the Professor of Agriculture. For expenses of shop practice, Machine shop, per month For expenses in the Architectural shop, per month For frames in Printing Laboratory, College of Engineers For apparatus and repairs in Physical Laboratory. For cases in the Museum, cabinet case fund . For models for School of Civil Engineering, to be made at shops For be priodical source.	$\begin{array}{c} 20 \\ 20 \\ 10 \\ 360 \\ 300 \\ 25 \\ 1,000 \\ \end{array}$	00 00 00 00 00 00
For books and periodicals For music and leader of the choir, Fall term	1,000 ( 25 (	

I invite attention to Prof. Ricker's request that the salary of Mr. Spencer, Foreman of the Agricultural shop, be made \$40 per month from September 1 to July 1. The wages seem to be well earned by Mr. Spencer.

I also ask your attention to the request of Prof. Morrow, that a house be provided for

I also ask your attention to the request of from morrow, and a base of generating a farm laborer. I present herewith the quarterly report of the Head Farmer, Mr. E. L. Lawrence. Mr. Lawrence desires attention called to the fact that his year, as now arranged for convenience of accounts, ends with the first of December. while his service, contracted for by the year, began on the first of March, and he wishes that that may be taken into account in his final settlement.

In section of that authority be given to the Faculty to employ instructors in Vocal Music and in Elocution, to be paid by the fees accruing from their several classes. Mr. A. B. Baker, the efficient and ubiquitous Janitor of the main building, asks that his compensation be raised to \$50 per month. From a familiar knowledge of the nature and quality of his labors and cares, I am led to think his request reasonable. Respectfully submitted.

S. H. PEABODY, Regent, pro tem.

The Board then proceeded to the consideration of recommendations contained in the report of the Regent.

Mr. Chas. I. Hayes was reappointed for the year, salary and position to remain as before.

The recommendation in regard to the teaching of preparatory classes was approved.

The arrangements made for the exhibit at the Chicago Exposition were concurred in, and \$25 appropriated for expenses.

The salary of Mr. Nelson S. Spencer, foreman of Carpenter

shop, was increased to \$40 per month for 10 months. The request of Prof. Morrow, in regard to house for farm hands, was referred to the Farm Committee and the President of the Board, with instructions to report.

The Faculty was given authority to appoint instructors in Oratory and Vocal Music, such instructors to be paid by the fees collected from their pupils.

It was resolved that all fees for special instruction at the University be paid to the Business Agent, and that he report the amount of same to this Board at its regular meeting.

The salary of Mr. A. P. Baker, the Janitor, was increased to \$50 per month.

Recess taken at 8:30 P. M.

## EVENING SESSION.

The Board assembled on time.

Present, as before.

Mr. J. W. Bunn, the Treasurer, read his report, which was received :

URBANA, September 14, 1880.

JOHN W. BUNN Treasurer.

The report of Prof. S. W. Shattuck, Business Agent, was read and accepted:

ILLINOIS INDUSTRIAL UNIVERSITY,

BUSINESS OFFICE.

CHAMPAIGN, ILL., Sept. 14, 1880.

Hon. Emory Cobb, President Board of Trustees Illinois Industrial University:

SIR: I have the honor to herewith make my report, as Business Agent, for the three months ending August 31, 1880.

Paper "A" is a statement of the current appropriations and receipts passing through my hands for the six months from February 29 to August 31. Paper "B" is a statement of the State appropriations August 31, showing an expenditure of \$7,456 03 in the last six months and a present balance of \$6,223 36.

The State Auditor has accepted our filed vouchers for all expenditures under the appro-priations to June 1, 1880.

Paper "C" is a list of the warrants drawn, with vouchers, since the June meeting of the Board.

The circular authorized at your July meeting has not been printed, but is ready to be put into the printer's hands; and I recommend that an editition of 6,000 or 10,000 be printed. I enclose bids for those numbers, as well as for the 3,000—paper "D."

Respectfully.submitted.

S. W. SHATTUCK, Business Agent.

The chairman of the committee on appointment of Regent asked and was granted further time.

Prof. Shattuck, from committee on employment of foreman for carpenter shop during vacation, reported that Mr. N. S. Spencer had been employed as such, at \$50 per month.

---17

The President reported that the guit-claim deed to Morton Chase had been executed, as directed by the Board at the June meeting.

The Regent pro tem., from committee on employment of additional teaching force, reported the following recommendations: That Lieut. W. T. Wood be employed to teach classes in Preparatory Mathe-matics, with compensation of fifteen dollars per month per class; and Mr. J. G. Allison to teach the class in Preparatory Bookkeeping, at twenty dollars per month.

The report was approved and adopted.

Adjourned to 9 o'clock A. M.

## SECOND DAY'S SESSION.

The Board met at 9 o'clock A. M. Present as before, with Mr. Scott added. Mr. Millard offered the following resolution, which was carried:

*Resolved*, That the Regent be and is hereby authorized to prepare and place on exhibition in the State capitol at Springfield, during the coming winter, such exhibits relating to the University as he may deem advisable: and that he prepare a brief report, for general use, showing the experiments and work that has been and is now being carried on in the several departments of the University, and anything he may deem advisable for the purpose of giving general information to the people of this State, of the work and scope of this University. *Resolved*, That the Regent be authorized to expend in the above matter not to exceed \$300; and said amount is hereby appropriated out of the general fund of the University.

Mr. Gardner presented the following report from committee on Buildings and Grounds:

#### To the Honorable Board of Trustees:

To the Honorable Bogrd of Trustees: Your committee on Buildings and Grounds submit the following report: Many improvements were desired and intended to be made the past season; sufficient funds were at our disposal to complete them at the commencement of the season. But the injuries to our buildings by storms, amounting to about seven hundred dollars, so reduced our funds that we had to confine ourselves to mere necessities. As far as the grounds are concerned, we think they are in a very creditable condition, showing that they have received proper care from those directly in charge. The want of soft water for steam and other purposes has been supplied by the putting in of a cistern of 300 barrels capacity, which we think will fully supply the wants. The Veterinary Building has been moved back, as instructed by your Board. Owing to the ab-sence of Dr. Prentice the details are not yet completed, but will be as soon as he returns. The dwelling near the Veterinary Building, formerly occupied by farm hands, did not seem to your committee suitable or much needed for that purpose. It is now in course of repairs, as also is the house near the street railway, and both will be rented to students. The dol Dormitory Building is now occupied by four students. It has been much and seriously debated what is to be done with that building. Your committee do not feel very proud of its present appearance and condition; we have previously asked your honor-able Board for instructions concerning it; have no definite answer in view of all the facts, and would ask from the Board further instructions as to its final disposal. In its present condition we consider it unsafe for occupancy and unsightly to the grounds. The trees and plants set out last spring have generally lived and made a good growth. All of which is respectfully submitted.

D. GARDNER, ALEXANDER MCLEAN. Committee.

## Mr. Scott made the following report from committee on Uniforms:

## To the Honorable Board of Trustees:

Your committee would report that after having received bids and propositions from various firms, they have decided to accept the bid of Sweitzer and Woody, and recommend that the students make their purchases of suits of said firm.

E. COBB, J. R. SCOTT, D. GARDNER, Committee.

# The following report, from a special committee on Department of Domestic Science, was received and adopted:

To the Honorable Board of Trustees:

To the Honorable Board of Trustees: The undersigned, a special committee appointed at your last meeting, relative to the School of Domestic Science, would respectfully report: That we are not sufficiently advised as to details necessary in this department to justify us in recommending any particular course of action. We would, therefore, recommend that the matter be referred to the Regent and Faculty, to fully ascertain the wants of this department and to recommend such plan as they may deem advisable to the Executive Committee, in a reasonable time, and that this com-muttee, after such report is made to them, are hereby authorized to take such action as they think proper, with a view to advance the interests of the Institution, and make such recommendations as they may see proper to the next meeting of this Board. ALEXANDER MCLEAN. D. GARDNER. S. W. SHATTUCK, *Committee*.

# Mr. McLean offered the following resolution, which was adopted:

Resolved, That the communication to this Board from Dr. F. W. Prentice be placed on file, and that this Board hereby express their high appreciation of his services in this val-uable department of science, but under the present condition of the finances of his Uni-versity it would be difficult to provide for an advance in salary at present, but recommend that at the earliest practicable moment the salary of Prof. Prentice be increased in accord-present by the increased his department of the salary ance with the importance of his department.

The Auditing Committee submitted the following report:

To the Honorable Board of Trustees:

The undersigned, a special committee to audit accounts and vouchers as reported by Business Agent, for the quarter ending August 31, 1880, would respectfully report that we have examined the same from voucher No. 584 to No. 748 both inclusive, making an aggre-gate of \$14,705 21, and find the same correct, each voucher being accompanied by receipted bib, for which warrants were issued.

Respectfully submitted.

T. T. FOUNTAIN, ALEXANDER MCLEAN. Committee.

# The following resolution was offered and carried:

Resolved. That the Regent and Executive Committee be and are hereby authorized to prepare a report to the Governor of the State and such other persons as they may deem advisable—in which report the necessary appropriations for the years 1881 and 1882 be fixed, and that in said appropriations to be asked for the committee are requested to name the sum of \$10,600 per annum for current expenses of the University; and that the committee also report the to Governor and Legislature the condition of the old Dormitory building, and ask that the building be disposed of, or converted into such new building as may be most needed.

## Mr. McLean made the following motion:

Resolved. That the salary of Head Farmer Lawrence be continued until the first day of March, 1881, at the present rate; and further, that the said Lawrence shall give up possession of the house he now occupies, on the first day of January, 1881, the Farm Committee giving him (Lawrence) at least ten days' notice to that effect.

The motion was carried.

The following preamble and resolutions were offered by Mr. Millard, and adopted:

WHEREAS, Horace H. Morgan, Principal of the High School of St. Louis, Mo., has gener-ously donated to the University library fifty volumes of British poets; therefore, *Resolved*, That the Board of Trustees of the Illinois Industrial University hereby tender to Prof. Morgan its thanks for his generous gift and kind remembrance of the University. *Resolved*, That the Secretary is hereby instructed to forward to Prof. Morgan a copy of Resolved, That these resolutions.

Assistant Professor M. A. Scovell was given the title of Professor of Agricultural Chemistry.

A communication from Mr. E. L. Hill was referred to Prof. Morrow for report.

Adjourned.

E. SNYDER, Secretary.

EMORY COBB. President.
