### SALE OF WAREHOUSE.

I have the honor to report that under the authority of the Board given April 25, 1906, I sold the old warehouse building on the south campus for \$250.50 cash, which has been paid to the Chief Clerk and credited to the United States Agricultural Experiment Station account.

### RECEIPTS AND EXPENDITURES, COLLEGE OF MEDICINE.

I have the honor to report that I have checked up the receipts and expenditures of the College of Medicine including those of the College of Dentistry for the year ending May 1, 1906.

Balance from 1904-5.....	\$ 2,594 98	
Collections.....	105,858 32	
Warrants issued.....		\$108,453 30
Deficit for the year.....		112,342 54
		\$3,889 24

Of the warrants issued, two of them, one for \$2,000.00 and one for \$1,000.00, were for a division of the balance of the year 1904-05. There has been no division since June, 1905.

The collections should be increased by \$240.00 on account of four Rea scholarships given by the College of Physicians and Surgeons. The same is true of the collections of 1904-05. There is a fund of \$4,800.00 held by the College of Physicians and Surgeons for these scholarships.

## RECEIPTS AND EXPENDITURES, SCHOOL OF PHARMACY.

I have the honor to make herewith a report of the receipts and expenditures of the School of Pharmacy for the two years, 1904-05 and 1905-06, ending May 1, 1906.

Receipts 1904-5 .....	\$18,380 33	
Expenditures 1904-5 .....	26,408 03	
Receipts 1905-6 .....	\$18,419 79	
Expenditures .....	17,588 35	
Balance .....		\$831 44

This balance has been paid to the members of the faculty as per agreement. In checking the receipts from students with the lists reported by Mr. Pillsbury, the Registrar, I find for 1904-05 that \$588.56 was not collected at the end of the year. \$64.07 of this has since been paid. For 1905-06 \$816.23 has not been collected. For 1906-07 \$35.00 matriculation fees have been paid and have been reported in the receipts for 1905-06.

The large difference between the actual collections and the amount reported by the Registrar is caused by students dropping out before the year is completed.

The books of the Actuary's office are in good shape and the receipts are promptly reported.

Respectfully submitted,  
S. W. SHATTUCK,  
*Comptroller.*

The appropriations were made as in Paper I.

MATTERS PRESENTED BY THE PRESIDENT.

I recommend that the appropriations be made.

The recommendation was approved.

## RUNNING TRACK.

2. I submit a communication from Mr. Spencer with regard to the running track in the Gymnasium.

CHAMPAIGN, ILL., June 4, 1906.

*To the Board of Trustees of the University of Illinois:*

GENTLEMEN: I feel it my duty to call your attention to the matter of the construction of the running track in the Men's Gymnasium for which I was architect, also to the fact that it is being used in a manner which was

strictly forbidden during the first two years after the building was completed, a matter which was carefully considered and agreed on at the time the plans were being made.

At that time it was considered objectionable to have any posts or obstructions on the main floor, so construction was made accordingly, but when proposals for the building were received, it was found necessary to make a reduction in order to keep cost within the appropriation. This was done to the extent of something like five or six thousand dollars with the distinct understanding with the Committee on Buildings and Grounds, and with President Draper that the running track was made for running purposes only, and not for seating purposes in any way, though we allowed a maximum number of two hundred, equally distributed, during exercises in the building.

Mr. Bullard will doubtless recall this fact, as the matter was talked over particularly with him.

The running track is, in its present form, suspended from the roof. When loaded to its capacity it simply throws a heavy strain on the roof, which might, especially in time of wind, cause a serious accident. It should not be used this way in its present condition.

If it is desirable to continue to use the track as a seating for spectators, it can be made safe by the addition of steel posts under the track, which in turn will cause additional strain on the girder below, which can easily be reinforced. I think the expense of strengthening as suggested would not exceed five hundred dollars and the obstruction would be so slight as not to be objectionable to work in the gymnasium.

I have been prompted to lay this matter before you from the fact of having recently attended exercises in this building, when the running track was loaded far beyond the safe limit. I beg of you not to let this matter go unnoted.

Very truly yours,

N. S. SPENCER.

Also a communication from Dean White, inclosing an opinion from Professor Dufour as to the condition of the running track.

Voted that the Committee on Buildings and Grounds be directed to make such alterations in the gymnasium as will put the safety of the building beyond question, even when crowded to the utmost.

#### HIGH SCHOOL CONFERENCE: VISITATION.

3. I submit herewith a communication from Professor H. A. Hollister, High School Visitor:

URBANA, May 17, 1906.

*President Edmund J. James:*

DEAR SIR—As chairman of the Committee on High School Conference, and after consultation with other members of the committee, I wish to recommend that the appropriation for the conference of the ensuing year be \$500.00, the same as for the past year.

As High School Visitor, I would like to suggest, also, that the appropriation for expenses of my office, including cost of visitation, furniture, and supplies, printing, and postage, be the same as that of last year, viz.: \$750.00. This sum will readily cover all expenses for the year 1906-07.

Respectfully submitted,

H. A. HOLLISTER,

*High School Visitor.*

Voted that the appropriations be made.

The Board took a recess till 2:00 o'clock p. m.

### Afternoon Session.

When the Board met after the recess, the same members were present as in the morning.

An invitation received from the executive committee of the Alumni Association of the University of Illinois, inviting the members of the Board of Trustees to be present at the address to be given in the Physics lecture room at 10:00 o'clock, Tuesday, and to be the guests of the Alumni at the dinner to be given in the armory at 12:00 o'clock, was received and gratefully accepted.

### COAL BIDS.

Upon motion of Mr. Abbott the following was adopted:

It is hereby ordered that the Purchasing Agent advertise for proposals for coal for the year beginning September 1, 1906, and for the hauling of the same, and with the approval of the Committee on Building and Grounds be authorized to contract for such supply of coal and hauling.

### REPAIRS IN HEATING PLANT.

Mr. Abbott submitted a request from Mr. J. A. Morrow, Superintendent of heat, light and power plant, with regard to changes and repairs in the heating plant as follows:

"It will be necessary to make some changes and repairs in the equipment of the steam department during the coming summer. The estimated cost of these will be about \$2,400.00, divided as follows:

(a) General repairs to boiler house piping system, boilers, stokers, coal and ash machinery, etc.....	\$1,000 00
(b) General repairs to tunnels and tunnel piping, heating, lighting and plumbing systems of the various buildings.....	1,400 00
Total .....	\$2,400 00

I have on file in my office an itemized list of this work, and should be glad to consult with you concerning it at your convenience.

These requests were approved by Professor Breckenridge.

### ADDITIONAL EQUIPMENT FOR HEAT, LIGHT AND POWER PLANT.

Mr. Abbott submitted the following letter:

URBANA, ILLINOIS, June 8, 1906.

*Hon. William L. Abbott, Chairman Committee on Buildings and Grounds,  
University of Illinois:*

DEAR SIR—In my communication of June 1, 1905, to Mr. S. A. Bullard, President of the Board of Trustees, I indicated that it would be necessary to expend \$12,000.00 during the two years following for additional equipment for the heat, light and power plant. I recommended at that time the expenditure of \$8,000.00. The recommendation was approved, and this amount has been expended for the equipment and repairs indicated. It seems to me that some additional equipment should be provided for the power plant. All of the items listed below are very much needed, and I trust that the Board will see fit to approve the purchase of these items, if you so recommend.

I estimate that the cost of the items given below will be approximately as indicated:

1. Air compressor .....	\$1,200 00
2. Electric motor for coal and ash conveyer.....	350 00
3. Electric motor for wood shop.....	160 00
4. Electric generator, direct current, for power plant.....	1,200 00
5. Tunnel mains for direct current generator.....	350 00
6. Water meters for boiler room.....	350 00
7. Wattmeters for buildings.....	250 00
8. Preparations of plans for extension of plant.....	250 00
9. Installation of Paul system in laboratory.....	50 00
10. Thermostatic control for fan system.....	100 00
Total .....	\$4,260 00

I recommend that authority be granted for the purchase and installation of the above apparatus.

Respectfully submitted,

L. P. BRECKENRIDGE,  
*Professor of Mechanical Engineering.*

On motion of Mr. Abbott, \$6,660.00 was appropriated to meet these requests with regard to the heat, light and power plant, the sum to be expended at the discretion of the Committee on Buildings and Grounds.

#### ACCOUNTANCY.

The special committee to which was referred certain papers in the case of Eric Everett, candidate for the C. P. A. degree, made the following report.

URBANA, June 11, 1906.

*To the Board of Trustees:*

Your special committee, appointed to ascertain the time which Eric Everett has been a public accountant, reports that he was doing the work of public accountant for the Consumers Company and other corporations previous to July 1, 1899.

Respectfully submitted,

CHARLES DAVISON, *Chairman.*

The report was laid on the table for future consideration.

The Board adjourned to meet at 9:00 o'clock a. m., Tuesday.

#### MATTERS PRESENTED BY PRESIDENT JAMES.

##### LAND FOR USE OF MILITARY DEPARTMENT.

4. I submit herewith a request from the head of the Military Department for the assignment of the field south of the experiment fields and east of Mathews avenue and north of the Agronomy building, extending to the forestry, for the purposes of military drill.

Voted that such assignment be made.

##### LAND FOR USE OF CIVIL ENGINEERING DEPARTMENT.

5. I submit herewith a request from Professor Baker for permission to use the campus of the University for the purposes of the Department of Civil Engineering:

URBANA, ILLINOIS, May 29, 1906.

*"Edmund J. James, President of the University of Illinois:*

"DEAR SIR—In accordance with our verbal conference of a few days ago, I beg to submit the following requests:

"1. That the Civil Engineering Department be permitted to use the area between the Chemistry building and the Woman's building for field practice in surveying.

"2. That the Civil Engineering Department be permitted to use the tract of ground bounded on the west by Mathews avenue, on the north by the agricultural experiment plats, on the east by the forestry reservation and on the south by the cultivated plats and enclosures of the Agricultural Department. It is agreed by Dr. Hopkins that the use of the above tract for field practice by the civil engineering students will not interfere with the agricultural experiment. The above use will not seriously interfere with the use of the same tract for military drill, since the surveying exercises nominally close at 3:00 o'clock, while the drill does not begin until 4:00 o'clock. It is the intention of the Civil Engineering Department that no stakes shall be left which will be liable to trip a cadet; and the few stakes that may possibly be left are very unlikely to cause any embarrassment.

"3. I request the authority to use the rectangle of ground southwest of the Observatory, between Burrill avenue and Mathews avenue, for surveying purposes; excluding, of course, the cultivated plats near the Observatory. It is understood that the use of this tract for surveying purposes is not in the least to interfere with the use of the tract by students for games. It is further understood that the Civil Engineering Department will not attempt to use this tract on Saturday or after 3:00 o'clock on other days, at which time it is likely that students may desire to use it for games.

"4. I respectfully urge that the Civil Engineering Department be permitted to use the north campus for topographical surveying, it being understood that instrument stations are to be established only upon the walks, driveways or in the corners of the walks where the grass is already trodden down, and it being understood that civil engineering students are not to be on the grass, except to carry a stadia rod to the various topographical features, and upon any evidence that this use of the ground is damaging the lawn, said use is to stop.

"In consideration of the fact that the Civil Engineering Department has no other area for field practice for 120 students during the first semester, and about 250 during the second semester, I respectfully urge that the above requests be granted. On account of the uncertainties of the location of buildings and of our occupancy, the facilities for field practice are in a very unsatisfactory condition. And if the above requests can be granted soon, I shall take steps during the summer vacation to re-establish the points used in field practice, and thus greatly improve our facilities in that direction.

"Respectfully submitted,

"IRA O. BAKER,  
"Professor of Civil Engineering."

Voted that such request be granted.

#### MISS BRONSON'S LOTS.

6. I submit herewith a letter from Miss Bronson with regard to sale of lots at southwest corner of Springfield and Mathews avenues:

URBANA, ILLINOIS, June 8, 1906.

"Mr. S. A. Bullard, President University of Illinois Board of Trustees, Springfield, Illinois:

"DEAR SIR—As I have two opportunities to dispose of my ground right away (the ground that is the corner just north of the Y. M. C. A. ground you bought), thought I would give the University of Illinois the first chance before either of the other two, as it is a corner right out of the University campus, as well as the north end of the engineering strip. Whatever is done will have to be done inside of a week, or I will close out to one of the other companies before the end of next week. It is now or never for the University of Illinois to ever own this ground. One offer is from a hotel syndicate, who want to build a hotel there. The other company wants a perpetual lease on the ground for another and still better purpose financially. The latter would be a big income for me always, \$25,000.00. Answer, 'yes or no' by first part of next week. Yours very respectfully,

"LILLY O. BRONSON."

Voted to refer the letter to the Finance Committee.

Later Mr. McLean, chairman of the Finance Committee, reported that he had had an interview with Miss Bronson; that Miss Bronson stated that her price for the land was \$25,000.00; and that he had told her the University had at present no money to use in purchasing land.
