#### CADET UNIFORMS.

The report of the committee on awarding the contract for furnishing cadet uniforms for two years beginning Sept. 1, 1909, was received and ordered printed:

URBANA, ILL., June 14, 1909.

To the Board of Trustees, University of Illinois:

The committee "authorized to make a contract for furnishing uniforms for the University regiment for the two following years on receipt of a satisfactory bid and bond for the faithful performance of the contract," begs leave to report advertising for bids March 25th for the military uniforms for the ensuing two years commencing Sept. 15, 1909, the bids to be opened at 10:00 a. m., April 30, 1909.

The committee met at 10:00 a.m., April 30, 1909, in the office of the Commandant of Cadets; present, Professor S. W. Shattuck and Lieut. Col. E. G. Fechet, U. S. A.; absent, President E. J. James, and proceeded to open the bids in the presence of the bidders. An abstract of the bids with the original bids is attached hereto.

Only two bids received, although specifications were furnished on request to six or eight other firms.

From an examination of the papers mentioned it will be seen that the Pettibone Mfg. Co. of Cincinnati are the lowest bidders for the cadet uniforms, viz: \$14.50; while that of Mr. Kaufman is \$15.00.

In view of the following the board feel that the interests of the military department require that the bid of Mr. Kaufman should be accepted. Inasmuch as Mr. Kaufman has been the uniform contractor for our military department for the past nine years, and has given perfect satisfaction in every way, in quality of material, fit of garments and delivery within the specified time, gaining for the University the reputation of having the best uniformed corps of cadets among the land grant institutions of this country. This has been the consensus of opinion of the War Department inspectors for years past.

On the other hand the Pettibone Company had this contract for 1899-1900 and failed utterly in living up to the terms and specifications of their contract, both as to material and fit of garments. Their conduct at this time was such that for several years ensuing thereafter no attention was paid to their bids. They are known as manufacturers of cheap uniforms, and we do not believe that they can manufacture uniforms of the grade and standard required for the figures bid. In this matter it would be well to say that the junior member of this board has made a careful and exhaustive inquiry as to the cost of manufacturing uniforms of the grade demanded by our specifications. A statement in detail of the cost of material and manufacture amounting to \$13.66 is attached hereto. This, however, does not include the cost of transportation, collar clips and the cost of alterations. These items would add at least seventy-five cents to the cost of each suit, making a total of \$14.41. The statement of the cost of manufacture was submitted to the Messrs. Gulick of the Gulick Tailoring Company of Champaign who after carefully going into the subject assert that the figures are altogether too low, and express unhesitatingly their belief that the Pettibone Mfg. Company cannot handle the contract at their figures without loss, unless they lower the grade of material and make-up, and are able to get them

To give more emphasis to our contention we will say that the board is in possession of a letter of the M. C. Lilley & Co., one of the largest and most reliable manufacturers of uniforms in the United States, to the Gulick Tailoring Co., offering to make the University of Illinois uniforms for \$14.77 f. o. b. Columbus, net cash. To this amount would have to be added the distributors' commission, the cost of transportation, collar clips, and the cost of alterations, making a total, according to Messrs. Gulicks' estimate, of at least \$16.00.

Your committee felt that it would be unwise, if not detrimental, to change from a contractor who has given satisfaction for nine years to another who has been tried and found wanting, particularly where the difference is so small, and, after consulting with members of your board, awarded the contract to Mr. Kaufman, who on being advised of the acceptance of his bid completed a contract in accordance with the specifications required by this department (military). Mr. Kaufman also furnished a satisfactory bond, which with the original contract is now on file in the office of the secretary of the board.

# EXCHANGE OF INSTRUCTORS.

The exchange of instructors for the year between Leland Stanford University and the University of Illinois by which Mr. Ponzer goes to Leland Stanford and Mr. Manning comes to the University of Illinois was authorized, each University to pay its own instructor.

#### FILLING VACANCIES.

The president was authorized to fill all vacancies according to the budget adopted and such as might occur because of resignation or declination.

#### FURNITURE.

The president was authorized to approve the purchase of furniture for Dean Clark's office, not to exceed \$400.00 in amount, by the following vote: Yeas, Crebs, Abbott, Davison, Grout and Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Messrs. Meeker, Blair and Hatch and Mrs. Bahrenburg.

The president of the University was also authorized to approve the request from the State Geological Survey for the furnishing of its new offices in the Natural History building, excluding items which belong under the head of scientific equipment rather than under the

head of furniture.

#### MINING ENGINEERING DEPARTMENT.

The following proposition with regard to mining engineering prepared by Dean Goss was approved by the following vote: Yeas, Crebs, Abbott, Davison, Grout and Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Blair, Meeker, Hatch, and Mrs. Bahrenburg.

URBANA, ILL., June 12, 1909.

President Edmund J. James, University of Illinois:

DEAR SIR—By an act of the Legislature the Trustees of the University of Illinois are "authorized and directed to establish in the College of Engineering at the University, a department of mining engineering," and the sum of \$7,500.00 per annum has been appropriated to carry out the purpose stated.

I recommend that the full sum appropriated be assigned to the purpose

named, to be expended under the following conditions:

1. That the cost of the department in its specialized functions arising from salaries and other accounts, shall not exceed the amount appropriated.

2. That as a first step in the establishment of the department, there be appointed a professor of Mining Engineering at a salary of not less than \$3,000.00 nor more than \$4,000.00, and that later when courses shall have been arranged, there be appointed such instructors and assistants as may be needed, subject to the condition set forth in paragraph 1.

3. That the head of the department be given an opportunity to study with some care the requirements of the mining interests of the State before attempting to formulate a course in mining engineering.

4. That the course in mining engineering be made up of specialized subjects, to be administered by the mining engineering staff, and of subjects al-

ready offered by the several colleges of the University.

In explanation of these recommendations, I would say that if this general outline is approved, it will be my plan to announce at an early date the purpose of the trustees to establish a department of mining engineering, to define in general terms its scope, and to proceed with the several steps as rapidly as may be practicable, but with the understanding that a complete statement concerning courses might not become effective before the beginning of the second semester of the next school year. The fact that the course in mining engineering will not be expected to differentiate from existing courses until after the freshman year will permit the execution of such a plan without embarrassment to the prospective candidates of the course. Respectfully submitted,

W. F. M. Goss, Dean of the College of Engineering.

## CERAMICS BUILDING.

The site of the new Ceramics building north of the Engineering Experiment Station and spanning the creek was approved and the Committee on Buildings and Grounds was authorized to proceed with the construction of the building, the cost to be charged against the special appropriation for ceramics, by the following vote: Yeas, Crebs, Abbott, Davison, Grout, Moore and Mrs. Evans and Mrs. Busey; nays, none; absent, Governor Deneen, Blair, Meeker and Hatch and Mrs. Bahrenburg.

#### NUTRITION INVESTIGATION.

The motion to approve the recommendation of Professor Grindley with regard to the publication of the results of the investigations and charge the same to the balance of the appropriations for the Veterinary College and Research Laboratory made by Mr. Grout and seconded by Governor Deneen just at the close of the meeting of June 24, 1909, and laid over for future consideration was then taken up.

Mrs. Busey moved that the question of using the appropriation in this way be referred to the Attorney General.

This motion was lost.

The original motion was then adopted by the following vote: Yeas, Crebs, Abbott, Davison, Grout, Moore and Mrs. Evans; present and not voting, Mrs. Busey; nays, none; absent, Governor Deneen, Meeker, Blair and Hatch and Mrs. Bahrenburg.
