

mendation was referred to the committee on November 10, with power to act (Report, 1912, p. 530); on December 12 the committee authorized the expenditure of \$125 out of the \$400 for improved lighting in the room of the Library School (Report, 1912, p. 534). It was voted to authorize the Supervising Architect to expend the remaining \$275 in accordance with plans submitted by him.

#### TEMPERATURE REGULATION, NATURAL HISTORY BUILDING.

It was voted to recommend that the request that \$1,600 be appropriated for the installation of temperature regulation in the old part of the Natural History Building, referred to the committee on December 12 for consideration and report (Report, 1912, p. 538), be not approved at the present time on account of lack of funds.

#### COMPLETION OF THIRD STORY OF WOMAN'S BUILDING.

It was voted to authorize the completion of the top story of the Woman's Building, in accordance with plans to be agreed upon by the President of the University and the Supervising Architect, and to be submitted to the Committee on Buildings and Grounds for approval. This matter was referred to this committee on April 10, with power to act (Report, 1912, p. 581).

#### PAVING DRIVEWAY BETWEEN ENGINEERING AND PHYSICS BUILDINGS.

The committee considered Professor White's proposal for the paving of the driveway between Engineering Hall and the Physics Building, from Green Street to Springfield Avenue, at an estimated cost of \$3,500 (referred to this committee on April 10 for consideration and report, Report, 1912, p. 581); but no action was taken.

#### PAINTING.

The committee approved Professor White's request for an assignment from the State appropriation for buildings and grounds for the exterior painting of the following buildings at estimated costs as given below (this matter having been referred to this committee at the meeting of April 10, with power to act, Report, 1912, p. 582):

Agronomy Building .....	\$ 80 00
Horticultural Building .....	130 00
State Entomologist's Building .....	125 00
Woman's Building .....	200 00
University Hall .....	800 00
President's House .....	250 00
North Greenhouses .....	300 00
South Farm Buildings .....	1,000 00

Total ..... \$2,885 00

#### PAVING MICHIGAN AND LINCOLN AVENUES.

The committee considered the communication from the Mayor of Urbana with respect to the paving of Lincoln Avenue from the north end of the Forestry running south to the city limits, and of Michigan Avenue from Lincoln Avenue to Orchard Street (referred to this committee on April 10 for consideration and report, Report, 1912, p. 585), and requested the Supervising Architect to furnish further information, particularly with reference to the questions of drainage involved, and to make a recommendation with estimates.

#### 1912 MEMORIAL.

A request from the Senior Memorial Committee of the Class of 1912 for the approval of a site for their proposed memorial (consisting of a light on a Doric column with a semi-circular seat 14 feet in diameter), a little to the south of Lincoln Hall, was referred to the Supervising Architect for recommendation.

#### FIRE INSPECTION.

The following report was received from the Supervising Architect on the recent inspection of the University buildings by the State Fire Inspector:

URBANA, April 20, 1912.

To the Committee on Buildings and Grounds:

I enclose herewith correspondence relating to fire inspection of the University premises by the State Fire Marshal on January 18 and 19, 1912. Three inspectors visited us and looked through the buildings, spending about ten hours. No report has been made of their findings. They did not inspect either fire hose,

and in other ways the inspection was not the kind of one that we need. I recommend that our former plan of inspection be continued.

Yours very truly,

JAMES M. WHITE.

The committee adjourned.

Respectfully submitted,

W. L. ABBOTT, *Chairman.*

May 3, 1912.

*Mr. C. M. McConn, Secretary, University of Illinois, Urbana, Ill.*

DEAR SIR: The Buildings and Grounds Committee held a meeting at the Blackstone Hotel, Chicago, May 2, 1912.

Present: Mrs. Mary E. Busey, Mrs. Laura B. Evans, Mr. Fred L. Hatch, Mr. W. L. Abbott.

State Architect W. C. Zimmerman was also present.

#### TRANSPORTATION BUILDING: BIDS AND CONTRACT.

A statement from the supervising architect was presented, giving a tabulation of bids received for the erection of the Transportation Building, as follows:

##### SCHEDULE OF BIDS ON THE TRANSPORTATION BUILDING—UNIVERSITY OF ILLINOIS.

Contractors.	"A" Building complete; four months.	"B" Building omitting north wing, four months.	"C" Building complete, ten months.	"D" Building omitting north wing, ten months.	"E" Price per cu. yd. add. excava- tion.	"F" Price per cu. ft. add. concrete in founda- tion.
V. Jobst & Sons.....	\$106,150 00	\$83,250 00	\$101,650 00	\$80,250 00	\$0 60	\$0 27
English Bros.....	107,873 00	85,500 00	104,378 00	82,000 00	50	25
W. M. Allen, Son & Co.....	109,521 00	87,721 00	101,790 00	80,401 00	75	30
Fitzsimmons-Wheeler Con. Co.....	No bid.....	No bid.....	97,755 00	78,800 00	50	25

After full consideration, it was voted to direct the State Architect to award the contract to V. Jobst & Sons for the erection, within four months of date of contract, of the entire building, omitting the north wing, at a price of \$83,250.

The architect was directed to draft a contract which would provide for the erection of the remaining portion of the building by the same contractor within four months of date of notice to proceed with the work, providing such notice is given within two months of the date of the original contract; the cost of the entire building in that case to be \$106,150. The architect was also directed to provide in the contract for a sufficient penalty to insure the completion of the building within the time limit specified.

#### 1912 MEMORIAL.

A communication from the supervising architect was read, recommending that the Class of 1912 be permitted to locate a Senior Memorial just west of Burrill Avenue and between the Woman's Building and Lincoln Hall; the memorial to consist of a Doric column 12 feet high, with a half-circle seat 14 feet in diameter, all of stone. The recommendation was approved.

Committee adjourned.

Respectfully submitted,

W. L. ABBOTT, *Chairman.*

The foregoing reports of the Committee on Buildings and Grounds, of the dates of April 20, 1912, and May 3, 1912, were approved in full.

#### REPORT OF COMMITTEE ON AGRICULTURE.

##### ROOFING OF COURT OF AGRICULTURAL BUILDING.

The secretary presented the following report from the Committee on Agriculture:

URBANA, April 20, 1912.

*To the Board of Trustees of the University of Illinois:*

Your Committee on Agriculture, at a meeting held at the University on this date, with all the members present, authorized the roofing of the court of the Agricultural Building, at a cost of \$6,000, as recommended by the Dean of the

College, and voted that the Supervising Architect be instructed to proceed at once with this construction; this matter having been referred to the committee, with power to act, at the meeting of March 19, 1912 (Report, 1912, p. 570).

Respectfully submitted,

FRED L. HATCH,  
A. F. GROUT,  
O. W. HOIT,

*Committee on Agriculture.*

The foregoing report of the Committee on Agriculture, of the date of April 20, 1912, was received for record.

## REPORT OF JOINT COMMITTEE ON BUILDINGS AND GROUNDS AND AGRICULTURE.

The secretary presented also the following report of a joint meeting of the Committee on Buildings and Grounds and the Committee on Agriculture:

URBANA, ILL., April 20, 1912.

*To the Board of Trustees of the University of Illinois:*

Your Committees on Buildings and Grounds and Agriculture held a joint meeting at the University on this date. There were present: Mr. Abbott and Mrs. Busey, of the Committee on Buildings and Grounds; Messrs. Grout and Hoyt, of the Committee on Agriculture; Mr. Hatch, member of both committees, and Professor White, Supervising Architect.

### HORTICULTURAL GREENHOUSES: LOCATION AND APPROPRIATION.

The joint committee considered the request for authority for the removal of the horticultural greenhouses with the necessary extensions and grading, which was referred to these committees on April 10 for consideration and report (Report, 1912, p. 582), and voted to recommend to the board:

- (1) That the present horticultural greenhouses be not removed at this time.
- (2) That the new greenhouses be constructed on the locations already approved by the board (Report, 1912, pp. 461, 505, 557).
- (3) That an appropriation of \$50,000 be made for this purpose (Report, 1912, p. 489).

Respectfully submitted,

W. L. ABBOTT,  
MARY E. BUSEY,  
A. F. GROUT,  
FRED L. HATCH,  
O. W. HOIT,

*Joint Committee.*

The foregoing report from the Committees on Buildings and Grounds and Agriculture, of the date of April 20, 1912, was approved in full.

### AUDITOR'S REPORT.

Mr. Grout, as Chairman of the Finance Committee, presented the following report from the Audit Company of Illinois of their audit of the books of the University for the quarter ending March 31, 1912, with the recommendation that it be received for record, and that the opening summary thereof be printed in the minutes of the board. This recommendation of the Finance Committee was accepted.

CHICAGO, June 10, 1912.

Mr. A. P. Grout, Chairman Finance Committee, University of Illinois, Winchester, Ill.

DEAR SIR: We have made our regular quarterly audit of the books and records of account of the University of Illinois for the third quarter, ended March 31, 1912, of the fiscal year, and submit herewith our report thereon, together with the appended exhibits and schedules, showing the receipts and disbursements in detail.

We reconciled the chief clerk's cash account on the morning of May 6, 1912, proved the cash book footings from January 22, 1912, to May 6, 1912, verified the cash in the office by count, and examined and proved the footings of the approved and receipted vouchers in process of entry.

We obtained a certificate from the First National Bank, of Champaign, Ill., certifying to the cash on deposit May 6, 1912, as—

#### REPORT ON CASE OF MR. GORDON H. SOMERS.

The secretary presented a second report of the Special Committee on the case of Mr. Gordon H. Somers, a certified public accountant of Chicago, against whom the Board of Examiners in accounting had brought charges of unprofessional conduct (see Report, 1912, pp. 468, 505 and 536). The report of this committee was received to be filed.

At this point Mr. Anthony took his seat with the board.

#### MATTERS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY.

President James presented the following matters for consideration:

##### PLANS FOR THIRD FLOOR OF WOMAN'S BUILDING.

(1) A communication from Professor James M. White, Supervising Architect, outlining the proposed arrangement for the third floor of the addition to the Woman's Building, including the following important points: (1) Two rooms for additional literary societies for the women of the University; (2) space for a practice apartment, with living-room, dining-room, kitchen, bath, and two bedrooms, for the use of the Department of Household Science; (3) several rooms which may be used as practice-rooms for the School of Music or for other purposes as needed.

It is proposed that if this arrangement be made two new literary societies shall be organized, to which every woman will be assigned by lot upon matricula-

tion in the University; the Council of Administration has granted permission for the organization of these literary societies, in answer to a request signed by the presidents of all the present women's literary societies in the institution, and the presidents of other organizations of the women students, such as the Women's League.

Attention being called to the fact that the final approval of the plans for the third floor of the addition to the Women's Building had been referred by the board to the Committee on Buildings and Grounds (Report, 1912, pp. 419 and 581), the matter was left to this committee, with the suggestion from the chairman of the Executive Committee that the matter be taken up immediately and disposed of.

#### HENRY BIROTH.

(2) The following letter from Mr. W. B. Day, Acting Dean and Secretary of the School of Pharmacy:

CHICAGO, June 18, 1912.

*President Edmund J. James, University of Illinois, Urbana, Ill.*

DEAR MR. PRESIDENT: On May 29, 1912, there died in Baden Baden, Germany, a distinguished friend of the School of Pharmacy, Mr. Henry Biroth. Mr. Biroth was one of the pioneer druggists of Chicago. He came here from Germany when about eighteen years of age and was apprenticed to Dr. J. Mahla, one of the leading apothecaries and chemists of early Chicago. In 1861 Mr. Biroth enlisted in the Union Army. At the close of the war he returned to Chicago, and at the time of the fire was in business on the North Side. He lost everything in the fire, but afterward opened a drug store on Archer Avenue near Twenty-second Street, and then engaged in the manufacture of pharmaceutical products, especially pepsin. Mr. Biroth sold his drug store many years ago, but continued in the manufacture of pepsin until a few years ago, when after the death of his wife he retired from business and spent his remaining years in travel. A lover of art and literature, he traveled extensively in Europe, visiting art galleries, museums, libraries, and places of historic interest. It was during these travels that he was stricken with an illness which resulted fatally.

At the time of his death Mr. Biroth was Honorary President of the American Pharmaceutical Association. He was president of the Illinois Pharmaceutical Association in 1882-83, was twice president of the old Chicago College of Pharmacy, and was a charter member of the Chicago Veteran Druggists' Association, and its president in 1903. Memorial resolutions have been passed by the Illinois Pharmaceutical Association and the faculty of the School of Pharmacy, as well as by the Chicago Veteran Druggists' Association.

The School of Pharmacy was especially indebted to Mr. Biroth; for, beginning with 1885, he awarded each year a fine compound microscope to the senior student who was recommended by the faculty as having done the best work in materia medica and microscopy.

Mr. Biroth leaves but one child, Mrs. H. Massey, now residing in Blue Island, Ill. Mr. Biroth's funeral occurred Sunday, June 23, at Mt. Greenwood Cemetery. The services at the grave were conducted by the Chicago Veteran Druggists' Association. I represented the school and sent flowers for the Alumni Association.

While not an alumnus of the school, Mr. Biroth was always deeply interested in it. He was a member of the old college organization almost from its foundation. When the school was turned over to the University in 1896 and the Illinois Pharmaceutical Association recommended the appointment of the Advisory Board of Pharmacists, Mr. Biroth was one of those selected to serve on this first Advisory Board. The University conferred upon Mr. Biroth in 1897 the honorary degree of Master in Pharmacy.

I thought that you might be pleased to have these facts, and possibly to have memorial resolutions adopted by the Board of Trustees and a copy forwarded to Mrs. Massey.

Respectfully yours,

W. B. DAY, *Actuary.*

This communication was received for record, and the board unanimously passed the following resolution, directing that it be printed in the minutes, and that a copy thereof be sent to Mr. Biroth's surviving daughter, Mrs. Massey.

WHEREAS, Henry Biroth, who died on May 29, 1912, was for more than forty years eminent in the profession of pharmacy in this country, and was ever among the foremost in the long struggle for the raising of the standard of this profession; and

WHEREAS, He was for many years a faithful and helpful friend of the School of Pharmacy of the University of Illinois; therefore be it

Resolved, That the Board of Trustees of the University of Illinois desires thus publicly to express its appreciation of the distinguished services of Henry Biroth to his profession and to the School of Pharmacy, and its sympathy with his surviving daughter.

#### APPOINTMENT TO THE ADVISORY BOARD OF THE SCHOOL OF PHARMACY.

(3) A communication from Mr. W. B. Day, as secretary of the Illinois Pharmaceutical Association, stating that at the annual meeting of the association

held at Springfield, Ill., on June 11 and 12, 1912, the following persons were recommended to the Board of Trustees of the University of Illinois for the appointment of one on the Advisory Board of the School of Pharmacy, to succeed Mr. Walter H. Gale, of Chicago, whose term has expired:

A. G. C. Ackerman, Chicago (153).  
 B. S. Coobay, Chicago (149).  
 Joseph Hottinger, Chicago (147).  
 W. B. Duncan, Ottawa (146).  
 George W. Sohrbeck, Moline (124).

This communication was accompanied by the recommendation that Mr. A. G. C. Ackerman, of Chicago, who received the highest number of votes from the Illinois Pharmaceutical Association, be appointed a member of the Advisory Board of the School of Pharmacy to succeed Mr. Walter H. Gale, of Chicago, the appointment to date from July 1, 1912.

This recommendation was approved.

#### REGULATION IN REGARD TO REFUND OF FEES.

(4) A communication from Mr. C. M. McConn, Registrar, asking that the rule in regard to the refund of fees be made to read as follows:

"In case a student withdraws from a course or from college during the first ten days of instruction as scheduled, the total amount of his fees for the work dropped, except the matriculation fee, will be refunded. After ten days and before the middle of the semester, a rebate of one-half of the fees, except the matriculation fee, will be made. After the middle of the semester, no rebate will be made. In no case will any part of the matriculation fee be refunded."

It was voted to approve this request and to adopt the rule as printed above.

#### PAVING OF LINCOLN AVENUE.

(5) A communication from Professor J. M. White, Supervising Architect, with respect to the proposed paving of Lincoln Avenue (p. 585, Report, 1912), as follows:

I have conferred with Mayor Boggs about the paving of South Lincoln Avenue. It seems that the University paid five hundred dollars toward the present storm water drain, which now terminates on the west side of Lincoln Avenue where we can connect with it at any time. The sanitary sewer plan does not contemplate any line on that street, as it is the expectation to connect the houses on Lincoln Avenue eastward to Busey. If a sanitary sewer should be required on the street, it will go in the parking.

The additional storm water drains to be laid now will be cross lines, to carry the storm water from catch basins on the west side to a storm water sewer which will be run south on the east side of the street. This settles satisfactorily all questions of drainage.

The present Lincoln Avenue pavement is 28 feet wide, and I should prefer to see it continued that width for the part it is now proposed to pave. Twenty-six feet, however, is the standard width, and I recommend that the University sign the petition on that basis, but that we express our preference for a 28-foot pavement, providing the property owners will agree. Professor Talbot expresses a preference for the 28-foot pavement, while Professor Blair thinks the 26-foot would be adequate.

It was voted that the University shall sign the petition in question when the President of the University is satisfied that all questions of drainage have been properly provided for and that there is a substantial agreement as to the proper width of the street.

#### WIDENING AND PAVING OF ORCHARD LANE

(6) A communication from Professor J. M. White, Supervising Architect, with respect to the proposed widening and paving of Orchard Lane, stating that the property owners on Davidson Street are willing to agree to a 26-foot pavement, and adding, "I have attached to the petition the city engineer's estimate on the pavement, which is twenty-two thousand dollars (\$22,000) for a 26-foot width all the way from First Street to Wright Street. Our frontage is a little less than half of this distance, and the cost would therefore be a little less than one-fourth of the amount named. The necessary provision for drainage has been included, and I hope this petition may receive favorable consideration at the next meeting of the Board."

Attention was called to the fact that this matter had been referred to the Committee on Buildings and Grounds for consideration and report (Report, 1912, p. 590).

\* The figure in parenthesis following the name indicates the number of votes received by the candidates in the vote taken by the pharmacists of the State.

## LAND FOR EXPERIMENTAL FIELDS.

(7) A communication from Professor C. G. Hopkins, enclosing three deeds of land for experimental fields:

(a) A deed from Asa Hixley and wife, conveying to the University twenty-four acres in Edwards County, on the west end of the south half of the northeast quarter of section eighteen (18), township one (1) north, range eleven (11), east.

(b) A deed from Emma Sconce, Harvey J. Sconce, and Fannie F. Sconce, conveying to the University twenty acres in Vermilion County, which include a part of the east half of the southeast quarter of section twenty-two (22), township seventeen (17) north, range thirteen (13) west.

(c) A deed from Gertrude C. Nation, conveying to the trustees of the Enfield Experiment Station fund twenty acres of land in White County, situated on the east half of the northeast quarter of the southeast quarter of section nine (9), township five (5) south, range eight (8) east; accompanied by a deed from the trustees of the Enfield Experiment Station fund, conveying the said land to the University.

It was voted that this communication should be referred to the Committee on Agriculture for consideration and report.

## THE BUDGET FOR 1913-1915: BUILDINGS.

(8) A statement from the president of the University in regard to the needs of the institution in the matter of new buildings, for consideration in connection with the plans for the next biennial budget.

This communication was received for record.

Following the presentation at the last meeting of the board concerning the imperative need of an adequate library at the University, I desire to call attention here to some further subjects which must be considered carefully by the board in making up their next biennial budget.

Our present Chemical Laboratory is crowded practically to the limit, and it will be necessary, if the University is to meet the conditions at all, to make a large addition to the present building. The members of the staff in the Chemical Department have been working for some two years on the elaboration of a satisfactory addition to be built on the east of the present building. This addition will cost, with its equipment, \$375,000. With this sum a fireproof building, corresponding in general style and appearance to the present, though not containing so many cubic feet of space, can be built east of the present building, leaving a court in the center partially occupied by the present lecture-room.

The number of students taking chemistry at the University of Illinois has increased very largely within the past few years. This has come about for several reasons. First of all, it is owing to the rapid increase in general attendance at the University; the demand for chemistry is of course a steadily increasing one, keeping at least equal pace with the growth in the number of students. But the demand for chemical instruction has outrun the increase in the number of students. The Engineering College at one time did not require chemistry from all the students in that college. It has now practically made this subject a required one, and, consequently, every additional engineering student means an additional student of chemistry. It means that more laboratory space must be provided, more equipment, and more instruction.

In the same way the Agricultural College has practically made chemistry a required study, and by removing it from the upper years to the lower has increased very much the number of students in chemistry, owing to the fact that the lower classes are uniformly so much larger than the upper classes. Every additional agricultural student means practically an additional student in chemistry.

Again, the establishment of the Department of Ceramics, in the curriculum of which chemistry plays a fundamental part, has made largely increased demands upon the Department of Chemistry for additional laboratory space, additional equipment, and additional instruction.

I do not know that any department furnishes a better illustration of the unsatisfactory basis on which our present budget is made out. We have gone to the Legislature for large special appropriations for the Agricultural College. We have gone to the Legislature for large additional appropriations for the Engineering College. We have gone to the Legislature for an appropriation to establish and support the School of Ceramics, etc. Each one of these departments in its growth makes, as has been seen, heavy demands upon the Department of Chemistry. But we have not succeeded in obtaining corresponding appropriations for the Department of Chemistry. In fact the special appropriation of ten thousand dollars per annum is ridiculously inadequate to meet the expense of a department which has more than 1,200 students enrolled.

I think there is no doubt that one of the buildings which the University ought to ask from the next Legislature—and ought to put if not first in the list, at least so high up in the list as surely to secure the necessary grant—is the addition to the Chemical Laboratory, with the equipment and furnishings which must necessarily go with it. Four hundred thousand dollars would be, in my opinion, a reasonable sum to ask for this purpose. The University of Minnesota has just accepted plans for a Chemical Laboratory, which will cost when completed more than \$600,000.

What I have said of the Department of Chemistry is equally true of two other important departments, though the pressure has not shown itself in such a decided way, namely zoology and botany. These are fundamental subjects in the College

of Agriculture, though they are not fundamentally of such importance in the College of Engineering. They must provide a large part of the scientific instruction upon the basis of which a curriculum of a scientific agricultural college should be established.

Neither of these departments is adequately housed, adequately equipped, or adequately manned. The Department of Botany, including in an administrative way the Department of Bacteriology, is especially crowded for space, especially in need of adequate equipment and adequate instructional force. In order to provide for the necessary additional space for these two departments, the present Natural History Building should be completed by adding the omitted section at the central portion of the east side of the building, at a cost probably of between seventy-five and one hundred thousand dollars. Provision should be made elsewhere for the administrative offices, which are now upon the second floor of the new portion of the building, and provision should be made for the removal of the Geological Survey and perhaps of the Natural History Survey from this building and the housing of them in new quarters.

If the Commerce Building could be completed, at least on the south and western sides, space might be found for the administrative offices for a few years to come, and this would perhaps be the best practical solution. This would leave a large space which, with the addition to the building and the additional space obtained by the removal of the Geological Survey quarters, would give to botany and zoölogy adequate space, particularly if physiology could be provided for elsewhere.

We have at the University a number of departments which are in essence rather administrative departments of the State Government than scientific departments of the University. Thus the Geological Survey, while made by law a bureau of the University, is under the control of a board consisting of the Governor of the State, the President of the State University, and one other person appointed by the Governor. The State Entomologist's Office is distinctly an administrative department of the State Government. The State Entomologist is appointed by the Governor, and while the funds for this department pass through the hands of the Trustees of the University of Illinois, the trustees have practically no control over their disposition.

The State Laboratory of Natural History, although an integral part of the University and subject to the control of the trustees as absolutely as any other department, is also, owing to the history of the survey and its connection with the present director, the distinguished zoölogist, Professor S. A. Forbes, and the added fact that it has a special appropriation from the State Government, to some extent an independent department.

I should like to raise the question whether it would not be a wise thing to ask the next Legislature for money to erect a State Laboratory Building in which should be housed those departments of public administration such as I have mentioned, with any others which the State may see fit to impose upon the University, and adding those departments of instruction which for one reason or another may be best associated with these departments. It might, for example, be well to put the Department of Zoölogy in such a State Laboratory Building, along with the State Geological Survey, and other similar adjustments might be made. If this could be done, we should have in the present Natural History Building adequate space for the Departments of Zoölogy and Botany for years to come, especially if, as suggested above, physiology could be taken care of in a special laboratory building for the medical sciences.

The attention of the members of the board is respectfully called to these possibilities, and they are requested to give consideration to these matters against the time when the decision must be made.

#### BUILDINGS AND GROUNDS UNDER DIRECTION OF SUPERVISING ARCHITECT.

(9) A recommendation that, pending the further action of the board upon the reorganization of the business departments of the University, the Department of Buildings, now under the charge of Mr. Joseph A. Morrow, as superintendent of buildings, and the Department of Grounds, now under the charge of Mr. Evelyn Atkinson, as superintendent of grounds, be placed under the direction of the supervising architect, and that the superintendents of buildings and grounds be made directly responsible to the supervising architect in the administration of their respective departments; and, further, that in all matters concerning the planting or removal of trees and shrubs the approval of Professor J. C. Blair, head of the Department of Horticulture, shall be obtained.

This recommendation was approved.

#### CLEAN TOWEL SYSTEM IN MEN'S GYMNASIUM.

(10) A request from Mr. George Huff, Director of Physical Training for Men, approved by the Council of Administration, that he be authorized to increase the locker fee in the Men's Gymnasium from 50 cents to \$1 a semester, in order to provide funds for the support of a clean towel system, the plan of which will be as follows: A deposit of 25 cents will be required for each student for his first towel; every time thereafter that he returns a soiled towel to the attendant, he will be given a clean one. Director Huff thinks this plan would undoubtedly tend to a more cleanly condition in the department and lessen the probability of the spread of contagious disease. The additional sum received would just about pay for the actual cost of laundry and depreciation.

It was voted to approve this plan; to authorize the increase of the locker fee in the Men's Gymnasium from 50 cents to \$1 a semester, and the charging of a deposit of 25 cents for the first towel issued to each student; and to appropriate the proceeds of this fee and deposit to the Department of Physical Training for Men for the support of the proposed clean towel system.

#### COST OF LAND BETWEEN GOODWIN AND MATHEWS AVENUES.

(11) A report from Dr. W. F. M. Goss, Dean of the College of Engineering, concerning the cost of the land between Goodwin and Mathews avenues in Urbana purchased during the past year for the College of Engineering.

This report was received to be printed in the minutes.

URBANA, ILL., July 2, 1912.

*Dr. Edmund J. James, President of the University of Illinois.*

DEAR SIR: Supplementing my report upon this subject submitted under date of October 31, 1911, I transmit herewith a statement of the cost of all land purchased by the University between Goodwin and Mathews avenues and between the "Bone-yard" and the railway track as a site for the new engineering buildings.

The greater part of the land in question faces improved streets. It was occupied by six houses, five of which have been sold and removed. To determine what part of the price paid could be regarded as necessary to cover the improvements upon the several pieces of land, a committee of local experts was organized to view the property and to report to me their findings. Those who served upon this committee were Mr. S. K. Hughes, real estate agent, Champaign, Mr. George W. Harwood, President of the Champaign Building and Loan Association, Champaign, and Mr. D. Osborn, a leading building contractor of the city of Urbana. These gentlemen inspected the property in company and severally agreed to the values reported. A copy of their report is hereunto attached as Exhibit A. The original is held in my office for permanent record.

The location and size of the several lots are set forth by the accompanying blue-print. The tabulated statement which follows shows in the fifth column the gross sum paid for each lot with its improvements. The sixth column shows the value of improvements as fixed by the expert committee, and the seventh column the net cost of the land. The eighth and ninth columns show respectively the cost per front foot and the cost per square foot after deducting the cost of improvements.

The total amount paid by the University for the whole area which it has secured is \$37,700. You will recall that before entering upon this purchase I estimated our possible expense as \$40,000.

Against the total expenditure there has been a credit arising from the sale of the houses, which credit, after deducting therefrom all incidental costs of advertising, back taxes, expert advice, commissions, etc., amounts to \$1,432. The net expenditure is, therefore as follows:

Total sum paid by the University.....	\$37,700 00
Credit from sales.....	1,432 00
Net total cost .....	\$36,268 00

The area of the land purchased amounts to 114,120 square feet. The University has paid for this land, with its improvements, \$36,268, or 32 cents per square foot. If the estimated value of the improvements is deducted from the purchase price, the cost per square foot for the land is reduced to 18 cents.

In order to ascertain the average cost per front foot, it will be necessary to take out a piece 8 rods wide and 18 rods long containing 39,204 square feet, which has no frontage. This includes the Ferguson property (Lot 5) and the back half of the Conkle property. Assuming that this ground having no frontage is worth 8 cents per square foot, its value would, in round numbers, be \$3,200. The cost for the land having frontage would then stand as follows:

Total amount paid .....	\$37,700 00
Credits:	
Estimated value of buildings .....	\$14,900 00
Estimated value of portions having no frontage....	3,200 00
	18,100 00

Amount paid for property fronting on improved streets..... \$19,600 00  
The total frontage on both Goodwin and Mathews avenues amounts to 571

feet, making the average cost per front foot  $\frac{\$19,600\ 00}{571} = \$34.00.$

Respectfully submitted,  
W. F. M. Goss.

[EXHIBIT A.]

*Dean W. F. M. Goss, Urbana, Ill.*

DEAR SIR: This is to certify that we, the undersigned, on July 21, 1911, went to the property known as lots one (1) and two (2) in Wm. M. Goodwin's Second Addition to Urbana, Champaign County, State of Illinois, and there examined the properties listed below and estimated the present values of the buildings thereon,

**RESIGNATION OF ASSOCIATE PROFESSOR RICKARDS.**

(12) The resignation of Mr. Burt R. Rickards, Associate Professor of Municipal and Sanitary Dairying in the College of Agriculture and Assistant Chief in Municipal and Sanitary Dairying in the Agricultural Experiment Station, to become effective August 1, 1912.

It was voted to accept the resignation of Professor Rickards.

**NEW PROFESSORSHIPS IN THE COLLEGE OF AGRICULTURE.**

(13) A recommendation from Dr. Eugene Davenport, Dean of the College of Agriculture, that the following new professorships be created in the College of Agriculture: (1) A professorship in landscape gardening or landscape art; (2) A professorship in animal pathology; (3) A professorship in dairy husbandry; also an associateship and an instructorship in the Department of Landscape Art.

This recommendation was approved.

**SETTLEMENT WITH COLLEGE OF PHYSICIANS AND SURGEONS.**

(14) A recommendation that the Finance Committee be authorized to settle up the outstanding accounts between the University of Illinois and the College of Physicians and Surgeons of Chicago, and turn over to the College any balance which may be due under the contract between the University and the College of Physicians and Surgeons upon the certificate of the University Counsel and the Comptroller that all accounts are in order and that adequate bonds have been given to protect the University against any possible claims growing out of its relations with the College of Physicians and Surgeons.

This recommendation was approved.

**REAPPROPRIATION OF BALANCES.**

(15) A recommendation that the balances to the credit of the different departments of the University on June 30, 1912, be reapportioned for the academic year 1912-13 to the purposes of the respective departments, subject to the approval of the President of the University.

This recommendation was approved.

**COMMISSIONS ON JEWISH-AMERICAN AND GERMAN-AMERICAN HISTORY AND CULTURE.**

(16) A recommendation that the President of the University be authorized to appoint a commission upon Jewish-American History and Culture; the object of this commission, which may consist of people not otherwise connected with the University as well as members of the staff of the University, to be to devise ways and means of increasing the collections of the University bearing upon the subject of Jewish-American History and Culture, and to promote in general the University and public interest in this subject.

(17) A recommendation that the President of the University be authorized to appoint a commission upon German-American History and Culture; the character and purpose of this commission to be similar to that of the commission on Jewish-American History and Culture.

The foregoing recommendations were approved.

### CONSOLIDATION OF THE COLLEGES OF LITERATURE AND ARTS AND SCIENCE.

(18) A recommendation from the University Senate, under date of June 8, 1912, that the College of Literature and Arts and the College of Science be consolidated into one college of liberal arts and sciences; accompanied by the following historical statement:

The present organization of the College of Literature and Arts and Science in the University of Illinois is unusual. There are some advantages in the present form of organization. There are also some distinct disadvantages. The most serious disadvantages perhaps are those affecting the welfare of students. The two colleges have gradually expanded by increasing their so-called privileges of election, the College of Literature and Arts in the direction of science, and the College of Science in the direction of literature and arts, until they duplicate to a considerable extent each other's fields, without really giving the flexibility in the choice of subjects which would be the result of the union of the two colleges.

The College of Literature and Arts voted unanimously some years ago for such a consolidation. At that time the College of Science was evenly divided in its opinion. The question has come up again and again, now from the student side, now from the side of departmental efficiency, and during the last year, after a full discussion extending over several months, from before Christmas until near commencement, the various academic bodies took action as follows: The Council of Administration, on April 2, 1912, recommended the consolidation of the two faculties by a unanimous vote, except that one member requested permission not to vote; the College of Literature and Arts voted unanimously in favor of the union; the College of Science was again almost evenly divided in its opinion, sixteen votes being cast for and seventeen against the project; the Senate voted unanimously for the union.

It was voted to approve this recommendation of the Senate, and to authorize the President of the University to effect a consolidation of the Colleges of Literature and Arts and Science as soon as may be practicable.

### APPROPRIATION FOR ILLINOIS STUDENTS' HANDBOOK.

(19) A request from Mr. W. A. McKnight, General Secretary of the Young Men's Christian Association of the University of Illinois, for an appropriation of two hundred fifty dollars toward the publication of the Illinois Students' Handbook; this book is prepared and mailed each year to the prospective students, and is sent out, for the most part during the month of August, to persons who have applied for registration blanks; the book contains information concerning the University and student life of great value to new students; thirty-five hundred books will be distributed this year at a cost of approximately five hundred dollars.

It was voted to grant this request, and to make the appropriation of two hundred fifty dollars (\$250) involved.

### POST-DOCTORATE FELLOWSHIP FOR STUDY ABROAD.

(20) A recommendation from Dr. David Kinley, Dean of the Graduate School, that Miss Margaret L. Bailey be awarded a post-doctorate fellowship for the purpose of study abroad during the coming academic year; the stipendium to be six hundred dollars (\$600); two hundred dollars (\$200) additional, or so much thereof as may be necessary, to be allowed for expenses; these amounts to be charged to the Graduate School fund.

This recommendation was approved.

### ALUMNI RECORD.

(21) A recommendation that an appropriation of five thousand dollars (\$5,000) be made to cover the expense of printing and publishing the new edition of the Alumni Record, authorized by the Board of Trustees on July 8, 1911 (Report, 1912, p. 436), and that the purchasing agent be authorized to make a contract for the said printing and publishing.

The work of preparing this volume has been done under the direction of Mr. J. H. Kelley, Executive Clerk in the President's Office, with the aid of the staff of that office, and the copy will now shortly be ready to transmit to the printer. The volume will be sold to the alumni and others at the price of one dollar and a half. More than fifteen hundred subscriptions at this price have already been received. The volume will run to one thousand pages more or less.

It was voted to approve this recommendation and to make the appropriation of five thousand dollars (\$5,000) requested.

### REAPPOINTMENT OF DEAN FAWCETT.

(22) A recommendation that Mrs. Mary Fawcett be elected Acting Dean of Women for a period of one year from July 1, 1912, at a salary of two thousand dollars for the year.

This recommendation was approved.

**AUTHORITY FOR REAPPOINTMENTS AND THE FILLING OF VACANCIES.**

(23) The following recommendations with reference to the budget for 1912-13:

(a) That the budget of the year 1911-12 be adopted as the basis of the budget for the fiscal year beginning July 1, 1912, subject to the approval of the President of the University.

(b) That the President of the University be authorized to reappoint for the year 1912-13, at the same salaries, persons in the employ of the University whose terms have expired.

(c) That the President of the University be authorized to accept at his discretion such resignations in the instructional, scientific, and administrative staff as may be presented during the vacation, and that he be authorized to fill such vacancies in the staff of the University, within the budget allowances, as may occur during the vacation because of resignation or declination.

The foregoing recommendations were approved.

**THE BUDGET FOR 1912-1913.**

(24) The budget for 1912-13, including the following recommendations:

**MR. HATCH ELECTED PRESIDENT PRO TEM.**

The following resolution was adopted:

WHEREAS, W. L. Abbott, President of the Board of Trustees, has signified his intention to be absent from his office and the State for the period of six weeks immediately following the 16th day of July, 1912, and

WHEREAS, He is, as such official, required almost daily to sign warrants for properly audited accounts against the University, and to discharge other duties relating to the business of the University; therefore be it

*Resolved*, That Fred L. Hatch, a duly elected and qualified member of this Board of Trustees, be, and he is hereby, appointed to act as president of this board from July 16, 1912, to August 31, 1912, and during the absence of the said W. L. Abbott from the State, with full power to sign warrants, and do all other things pertaining to the business of the University which the said W. L. Abbott, as president of the board, may now lawfully do.

**BUILDING PLANS: ARMORY, LOCOMOTIVE LABORATORY, STOCK JUDGING PAVILION, AND GREENHOUSES.**

President James presented the following letter from Mr. W. Carbys Zimmerman, State Architect, with respect to the plans and contracts for the Armory, the Locomotive Laboratory, the Stock Judging Pavilion, and the Horticultural Greenhouses:

1101 STEINWAY HALL, CHICAGO, July 3, 1912.

*Dr. Edmund J. James, University of Illinois, Urbana, Ill.*

DEAR SIR: In reply to yours of July 1, I beg to say that on studying the matter more fully it seemed to me that the best solution of the problem would be to devise some scheme by which all of the trusses could be erected, so that the expensive tools necessary for this purpose would not again have to be brought to the site.

I took the matter up with the lowest bidder, the Morava Construction Company, and this company finally agreed to furnish and erect all steel work excepting the ends for the sum of \$59,500. This proposal was submitted to and tentatively approved by Mr. Abbott, and the Morava Construction Company were told that if the enclosure cost of the building would not exceed the balance of the funds available, the work would be awarded to them.

The contractors' bids for this enclosure work were received and opened today, and it appears that the bid of N. H. Shields, of Danville, of \$35,417 is the lowest. Mr. Shields further agreed to allow \$800 for a change in the method of holding certain roof beams, \$450 to give the woodwork one coat of oil instead of two coats of paint, and \$300 allowance on general principles, he finding at the last moment that he can get the lumber at a lower cost than originally estimated on by him. I am satisfied that these allowances are fair and reasonable.

Morava Construction Company's option on the steel expires on the 15th, and I recommended that a contract be entered into with the Morava Construction Company and N. H. Shields, on contracts of \$59,500 and \$33,867, or a total of \$93,367.

The balance of \$6,633 is an insufficient amount to arrange for a heating system in the building, but should make it possible to install temporary lighting.

Referring again to your letter, I will say that the Locomotive Laboratory plans are well underway and will be ready for specification in a short time.

The sketch plans for the Stock Judging Pavilion have been submitted to the department, and, as I understand it, are approved in a general way. As you know the appropriation for this building is insufficient to carry out the schemes proposed, and it will be necessary to decide what portion of the building is to be erected at this time. I would recommend that an attempt be made to finish the central portion, viz, the large arena, as completely as this can be done, but shall be pleased to follow whatever you may direct me to do.

My understanding was and is that the plans for the greenhouses would be submitted by greenhouse builders, with their bids, and I, therefore, have not worked on them.

Respectfully yours,

W. CARBYS ZIMMERMAN.

P. S.—I am sending a copy of this letter to Mr. Abbott, and enclose a copy of bids received on the enclosure.

## [SCHEDULE OF BIDS.]

## ARCHITECTURAL WORK—ARMORY BUILDING—UNIVERSITY OF ILLINOIS.

Contractors.	"A" Complete building as per plans and speci- fications in 6 months' time.	"B" Complete building in 6 months, except grading and sewers.	"C" Price per cubic feet concrete.	"D" Price per cubic yard of exca- vation.
English Bros.....	\$38,500 00	\$37,100 00	.25	\$0 75
J. F. Schmitt Bros. Company.....	42,448 00	41,998 00	.25	40
N. H. Shilds.....	36,939 00	35,417 00	.17½	40

It was voted that the proposition of the Morava Construction Company, which was submitted to and tentatively approved by the president of the board, be approved, and that the officers of the board be authorized to sign a contract with the Morava Construction Company to furnish and erect all the steel work for the Armory, excepting the ends, for the sum of fifty-nine thousand five hundred dollars (\$59,500); also, that they be authorized to sign a contract with N. H. Shields, of Danville, for the enclosure of the building according to the bids submitted, including the complete architectural work on the building except sewers and grading, to be completed in six months, for the sum of thirty-three thousand eight hundred sixty-seven dollars (\$33,867).

## PLANS FOR STOCK JUDGING PAVILION AND HORTICULTURAL GREENHOUSES.

President James submitted plans for the Stock Judging Pavilion and for the Horticultural Greenhouses.

Both these sets of plans referred to the Committee on Agriculture for consideration and report.

### LEGAL PROCEEDINGS WITH REFERENCE TO THE CONKLE PROPERTY.

President James presented also the following report from Dean O. A. Harker, legal counsel, with respect to the proceedings connected with the acquisition of the Conkle property, which was received to be printed in the minutes.

UNIVERSITY OF ILLINOIS, July 3, 1912.

*To the President and the Board of Trustees of the University of Illinois:*

As legal counsel for the University, I beg leave to submit the following:

#### REPORT CONCERNING THE PURCHASE OF THE CONKLE PROPERTY.

The property consists of the north 8 rods of the west 8 rods of lot 1, and the north 8 rods of lot 2, W. N. Goodwin's addition to Urbana, being bounded on the north by the Illinois Traction right-of-way and on the west by Mathews Avenue.

Before the matter was reported to me an agreement had been entered into between the owners of the property and Mr. S. K. Hughes, acting for the University, whereby it was agreed that the University should pay to the owner the sum of \$10,550 after the completion of condemnation proceedings. It was agreed that the property should be condemned, and that in the event of the jury fixing the value at more than the sum agreed upon there should be a remittitur entered which would serve to fix the value of \$10,550, and that if it should be below that sum it should be raised an amount sufficient to reach that sum. I ascertained that one of the interested parties is confined in an insane asylum in Kansas, and for that reason the agreement, at least so far as he was concerned, was not legal.

After conferring with the attorney for the owners of the property, it was agreed that a bill for partition should be filed, and that the regular proceedings required by statute for the ascertainment of the interest of the parties should be pursued. The partition suit was commenced immediately and resulted in a decree declaring the interests of the parties. Commissioners were appointed to make a partition. The commissioners reported that the premises were not susceptible of partition and fixed the value at \$12,000.

After the coming in of the report the court decreed a sale, which was advertised accordingly by master in chancery. I appeared upon the day of sale and bid on the property until I reached \$11,001. The parties complainant bid \$11,500, and it was knocked off at that price. The parties were unable to comply with the requirements of the sale, and it was readvertised for sale for the 25th of June. Under instruction from the president of your board, I bid on the property, and the same was struck off to the board for \$10,800.

I ascertained on the morning of the sale that an attachment writ had been levied upon the interest of William Conkle on a debt against him. I also ascertained that the sheriff of the county had in his possession two executions from Cook County aggregating \$422. Before making the bid, I informed the attorney for the property owners that the two executions must be satisfied and the attachment released. That was done.

On the 29th of this month the master's sale was confirmed by the court, and a deed was executed to the Board of Trustees for the property, and the deed is now of record. The Board of Trustees have right of immediate possession.

Respectfully submitted,

O. A. HARKER, *Legal Counsel.*

The Executive Committee adjourned.
