

MEETING OF THE BOARD OF TRUSTEES

—OF THE—

UNIVERSITY OF ILLINOIS

September 13, 1921

The quarterly meeting of the Board of Trustees of the University of Illinois was held at the University, in Urbana, on Tuesday, September 13, 1921. As there was no quorum, the meeting was adjourned to Wednesday, September 21, 1921, at 10 a. m., at the University, in Urbana.

ADJOURNED SESSION, SEPTEMBER 21, 1921

When the Board convened at the University at 10 a. m. on Wednesday, September 21, 1921, the following members were present: President Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble.

President Kinley and Vice-President Davenport were present; also, during part of the day, Professor J. M. White, Superintendent of Business Operations.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of August 1, 1921. On motion of Mr. Hoit, the minutes were approved as printed on pages 13 to 79 above.

MATTERS SUBMITTED BY PRESIDENT KINLEY

The Board considered the following reports and recommendations of the President of the University.

DEATH OF BULL

(1) Professor H. A. Ruehe reports through Dean Davenport, the death of our Holstein herd bull, Sir Bess Pietertje Piebe No. 204, 840. This bull was purchased about a year ago for \$5,000 and was insured for the purchase price, altho the insurance really does not cover the loss. The explanation of his death given by Professor Ruehe is that his foot became infected because of the lack of a proper pen.

Dean Davenport comments as follows:

"While we cannot say that we lost this bull because of improper housing, yet the fact is that if we had had the kind of dairy barn an institution like ours should have, this bull would not have had to stand in cinders in order to keep out of the mud. It is fortunate that we had him insured, though the \$5,000 does not begin to cover our loss."

This report was received for record.

GIFTS TO LIBRARY AND TO MUSEUM OF NATURAL HISTORY

(2) Under the authority granted by the Trustees I have accepted gifts including photographs, shells, corals, arrow heads, geological specimens, etc., from the collections of the late Judge Joseph O. Cunningham, a former member of the Board of Trustees, and Dr. Annetta Ayers Saunders of the class of 1884. All of these gifts were presented to the University by Mrs. Saunders, who is a niece of the late Judge Cunningham.

This report was received for record.

UNIVERSITY'S EXHIBIT AT THE CHICAGO EXPOSITION

(3) A statement from the Comptroller, showing the expenditures on account of the Pageant of Progress at Chicago. After giving credit for the sale of equipment left on hand, there is a net total cost of \$2,742.28. An appropriation of \$500 was made which has been applied against this expenditure; there remains approximately \$2,250 to be provided by additional appropriation.

I recommend that an appropriation of \$2,250 be made for this purpose from the Reserve and Contingent fund.

On motion of Mrs. Evans, this appropriation was made, by the following vote: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

ILLINI HALL AND CAFETERIA

(4) A statement concerning Illini Hall and Cafeteria, from the Comptroller, showing the income and expenditures for last year and the financial condition at June 30, 1921, which is the date of the termination of the lease. There is a total net deficit of \$9,110.03. As an offset to this, the University owns equipment in the cafeteria which cost \$10,416.15. As it has been decided to retain this equipment and lease it to the Illinois Union, it is necessary to appropriate from our reserve an amount sufficient to offset the net deficit.

I recommend an appropriation of \$9,110.03 from the Reserve and Contingent fund for this purpose.

On motion of Mr. Hoit, this appropriation was made. The vote was as follows: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

METHOD OF ACCREDITING SCHOOLS

(5) A report of progress on the report concerning the relationship between the University and the office of the State Superintendent of Public Instruction in the matter of accrediting schools. (See page 226, minutes of April 15, 1921).

This report was received for record.

REPRINTING UNIVERSITY STATUTES

(6) A recommendation that an appropriation of \$150 (or so much thereof as may be necessary) be made to reprint the University Statutes, incorporating, of course, actions of the Board down to date.

On motion of Mrs. Blake, this appropriation was made, by the following vote: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

REMOVAL OF HOUSES ON HARVEY STREET

(7) A recommendation that the Superintendent of Business Operations be authorized to sell for removal three houses on the University lots on Harvey Street, in Urbana, to make space for the storage of coal.

On motion of Dr. Noble this recommendation was approved.

THE CAHOKIA MOUNDS

(8) In East St. Louis are several mounds which authorities think are relics of pre-historic times, probably enclosing many articles which would throw light on the life of the Indian population of Illinois. The mounds are private property. The owners have given permission to Mr. Warren K. Moorehead of Andover, Massachusetts, a distinguished archaeologist, to open several of them in order to discover the general character of the relics they contain. It is the opinion of people in this part of the country with whom I have talked on the subject that the State of Illinois is entitled to the first opportunity to investigate these mounds and to secure their contents, or such part of them as may seem desirable, for its own State institutions. Dr. Moorehead assents to this view, altho he himself has raised some money to prosecute the search. I have consulted with Dr. Crook of the State Museum and with several of our own people on the matter, with the result that Dr. Moorehead agrees, if the University will assist in the exploration, to send all his discoveries to the State Museum at Springfield until his work is finished. He agrees that, after the relics are all in the State Museum, Dr. Crook, he, and I shall have a conference to assign to the State Museum and to the University Museum whatever we agree is their fair share of the relics and to assign to Dr. Moorehead such things as would make a small typical collection for his museum at Phillips Academy, Andover, Mass.

It seems to me that there is a public duty in exploring these mounds and in doing what we can to prevent the relics, if any, from going out of the State, excepting, of course, so far as there are duplicates not wanted in the State Museum or our own.

I therefore recommend that an appropriation of \$1500 (or so much thereof as may be necessary) be made as the University's share in carrying on this work, the money to come from the Reserve and Contingent fund.

On motion of Mr. Noble, this recommendation was approved. The appropriation was made by the following vote: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

ADVISORY COMMITTEES IN AGRICULTURE

- (9) A recommendation that the following advisory committees in Agronomy be appointed, as nominated by Professor Burlison and approved by Dean Davenport.

SOILS:

Mr. Ralph Allen, Delavan
 Mr. F. I. Mann, Gilman
 Mr. A. N. Abbott, Morrison
 Mr. G. F. Tullock, Rockford

FARM CROPS:

Mr. Harvey J. Sconce, Sidell
 Mr. Eugene Funk, Bloomington
 Mr. William Webb, Joliet
 Mr. Chas. Rowe, Jacksonville
 Mr. Harry Winter, Winona

These committees were appointed.

LEAVE OF ABSENCE FOR PROFESSOR FANNIE M. BROOKS

- (10) A recommendation that leave of absence without salary for one year beginning September 1, 1921, be granted to Assistant Professor Fannie M. Brooks of the Department of Home Economics, to enable her to obtain additional hospital experience. Dean Davenport has approved Professor Brooks's request.

This recommendation was approved.

LOTS RENTED FROM CHAMPAIGN CHAMBER OF COMMERCE

- (11) The Comptroller reports that the Chamber of Commerce has spent the sum of \$19,254.99 on the lots rented under a contract with authority of the Board, dated October 1, 1919, and that the interest on the expenditures of the Chamber of Commerce, which interest is the amount of our rental, will be approximately \$1,175 for the year.

I therefore request that an appropriation of \$1,175 (or so much thereof as may be necessary) be made to cover the obligation of the University during the fiscal year 1921-22 on this account.

On motion of Mr. Hoit, this appropriation was made, by the following vote: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

EDUCATIONAL CONFERENCES AND COMMISSIONS

- (12) A request for authority to call, during the current year, sundry educational conferences, including general education, music, agriculture, dairy husbandry, etc., and to appoint certain commissions; with a recommendation that \$5,000 be appropriated from the Reserve and Contingent fund to defray the expense.

On motion of Mr. Noble, this authority was granted and the appropriation was made. The vote was as follows: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

CONTRACT WITH PUBLIC SCHOOL PUBLISHING CO.

- (13) On January 1, 1920, the University made an agreement with the Public School Publishing Company of Bloomington for the publication of a Journal of Educational Research for which the University undertook to furnish editorial management under certain conditions and on certain terms. (See Minutes, June 10, 1919, page 400). I now have a letter from Mr. George A. Brown, of the Public School Publishing Company, asking to be released from this agreement.

It seems to me that before the University complies with such a request, it is entitled to have a full statement from Mr. Brown of the reasons for making it, and a financial statement, showing that his claim of lack of financial success is supported by the record, and also that the causes of lack of financial success are traceable to the University or, at least, would be removed by the annulment of the agreement with the University. I therefore ask that the whole matter be left for the present with the President of the University.

On motion of Mr. Noble, this matter was referred to the President of the University.

REPORT OF PROGRESS ON PARR COKING PROCESS

(14) On October 7, 1920, the Board instructed the President of the Board and the President of the University to confer with a committee of three, to be selected by them, in order to get their opinion of the extent and character of the claims, or rights, if any exist, of the assigns of Mr. Hertz in the Parr Coking process. We desire to report that we have been at work on the matter, but have, thus far, not succeeded in accomplishing our purpose. We hope, however, to do so within the next month or six weeks, and will, of course, make a report at the earliest possible moment.

This report was received for record.

ADDITIONAL INSTRUCTION IN CHICAGO DEPARTMENTS

(15) A request for authority to assign \$2,000 from the Reserve and Contingent fund to the Chicago departments for additional instruction and expense in case it should be found necessary, the amounts to be distributed among the Colleges of Medicine and Dentistry and the School of Pharmacy according to their needs.

On motion of Mrs. Blake, this request was granted. The appropriation was made by the following vote: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

ADJUSTMENTS IN THE SALARY BUDGET

(16) A report that acting under authority granted on August 1, 1921, the President of the University had approved the following adjustments in the salary budget for the year beginning September 1, 1921:

D. K. Dodge, Professor of English.....	\$4,000
H. V. Canter, Professor of the Classics.....	3,250 ¹
A. H. Daniels, Dean of the Graduate School and Professor of Philosophy.....	5,500 ²

This report was received for record.

At this point, at 12 o'clock, a recess was taken.

AFTERNOON SESSION, SEPTEMBER 21, 1921

When the Board convened for the afternoon session on September 21, 1921, the same persons were present as during the morning session.

MATTERS PRESENTED BY PRESIDENT KINLEY

The Board continued its consideration of matters presented by the President of the University.

¹ Total salary, \$4150, receives \$900 as Assistant Dean.

² Entire salary transferred to the Graduate School.

ADDITION TO THE NATURAL HISTORY BUILDING

(17) Recommendations from the Supervising Architect concerning the addition to the Natural History Building.

September 21, 1921

President David Kinley, 355 Administration Building

DEAR PRESIDENT KINLEY:

I enclose a schedule of bids received on the addition to the Natural History building yesterday, and I recommend that the awards be based on the low bids in each case, reserving the option to accept any of the alternates in the heating bids. The low bids are as follows:

General Contract—L. B. King.....	\$76,000.00
Heating and Ventilating (Champaign Pl. & Heating Co.).....	6,826.00
Plumbing—Champaign Plumbing & Heating Co.....	1,429.00
Total.....	\$84,255.00

To complete the building, we must add the electric wiring, which I thought we could do to good advantage ourselves; the cost of the heat and power connections; the finished hardware; lighting fixtures; window shades; superintending expenses; fire protection; and probably a composition topping for the concrete floors.

We must also include steel herbarium cases for the entire botanical collection, and considerable laboratory furniture.

The proposed contracts do not include any changes in the present building, which cannot very well be made until after the departments move into the new building.

I expect we can have the new building done by June first, and that during the summer we can make the changes in the adjacent rooms of the present building.

I presume all of the above items will cost approximately \$40,000, and we should, in addition, provide some museum cases upon which I have no estimates.

I am not prepared as yet to make any recommendations as to how the balance of the appropriation can best be spent.

Yours very truly,

JAMES M. WHITE
Supervising Architect

On motion of Mr. Hoit, the contracts for the addition to the Natural History Building were awarded to the low bidders, as recommended, and the right was reserved to take any options named in the bids. The appropriation (\$84,255) was made by the following vote: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grgisby, Mr. Herbert, Mr. Small, Mr. Trimble.

HORTICULTURE LABORATORY

(18) Recommendations from the Supervising Architect that contracts for the Horticulture Laboratory be awarded to the low bidders as follows:

General Contract—English Bros.....	\$153,750
Subject to options reducing the total	
Plumbing—Johnson Bros.....	9,550
Wiring—Broderick Co.....	3,000
Heating—E. J. Claffey Co.....	13,290

Further recommendations that the bids on the refrigeration plant be rejected and that new bids be requested, and that the elevator contract be referred to the President of the Board with authority to contract for the best elevator for the purpose, at a cost of not more than \$4,500.

I. On motion of Mr. Hoit, the general contract was awarded to English Brothers, on their bid of \$159,850, subject to deductions for options on cork insulation and cement flooring.

II. On motion of Mr. Noble, the President of the Board and the architects were authorized to award the contract for the elevator, at a cost of not more than \$4,500.

III. On motion of Mrs. Blake, the plumbing contract was awarded to Johnson Brothers at \$9,550.

IV. On motion of Mr. Noble, the contract for electric wiring was awarded to the Broderick Company at \$3,000.

V. On motion of Mrs. Blake, the contract for heating was awarded to the E. J. Claffey Company at \$13,290.

VI. On motion of Mrs. Blake, all bids on the refrigeration apparatus were rejected and the architects were requested to restudy the matter and to ask for new bids.

Separate roll-calls were taken on items I to V inclusive, and the appropriations involved were made by the following vote in each case: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

AGRICULTURE BUILDING

(19) The following letters concerning the new agriculture buildings with a recommendation that the first unit of this building be erected as a class-room and office structure.

September 8, 1921

President David Kinley, University of Illinois

MY DEAR PRESIDENT KINLEY:

We have arrived at a period in university development at which it is easy, when determining a concrete question, to fix, without realizing it, a general policy that once entered upon will be almost, if not entirely, impossible of change. I refer to the character and location of the new Agricultural Building.

It would be easy, because very natural, to undertake to plan this building with sole reference to the specific needs of agriculture and locate it upon what might be considered its proper spot in a final development of the campus. There are, however, a number of serious objections to this procedure.

Design

First of all, it is impossible to tell what will be the ultimate needs of the great subject of agriculture. Twenty-one years ago we planned the present building, with two acres of floor space, when we registered but nineteen students in agriculture; and since that time we have added many and important lines, both of instruction and of research. It is fair to assume that development is not over and that all we can do now is to provide for present needs and for immediate future development, so far as it can be anticipated, all of which is argument, not for a peculiar design, but for one that shall fit as many uses as possible and lend itself to easy alteration in the interior. Certain needs, as for instance in dairy manufactures and in animal pathology, are exceedingly specific, and such units should be segregated from the general plan. The general plan, however, should be as adaptable as possible to general university uses, in its offices, classrooms, and laboratories. In brief, this building should be as near standard as possible.

Location

We have no more means of knowing what will be the future of the University as a whole fifty years hence than we have of the possible development of agriculture. Hence, anything like a permanent location for this interest is as impossible of determination now as would be its final design. At this point, however, arise the conditions that will determine general university policy, inadvertently perhaps, but none the less effectually; and this policy, as I see it, is the chief concern of the University now.

Unity with Difference

This University is unique among all the state universities, with the possible exception of Missouri, in the fact that all classes of students mingle together indiscriminately, as do the citizens of the state, differing only in those matters which concern the technique of their several professions.

That is to say, when they study Chemistry, or Botany, or English, or French, or History, or Economics, they study the same texts and reference books, attend the same lectures, hear the same discussions, and hammer out ideas together. The ultimate influence of this fact upon the professions and upon the citizenship of the state cannot be overestimated.

Again, with these close associations, many lines are established that cut squarely across all college and professional distinctions, such as athletics, fraternities, clubs, Y. M. C. A., and college politics, not to mention such semi-outside influences as the Wesley and Columbus Foundations.

Our student body is a unit and its spirit is a University spirit, emphasizing not the difference due to professions but the great things that Illini stand for; taking for granted that we shall make our living and serve society as individuals in a variety of ways.

Now the cleavage of any particular group of students will not only injure that group and subtract accordingly from its influence over the general mass, but it will by that much destroy this spirit of unity and the cosmopolitan character of our University life whereby, as matters are running now, a graduate counts his personal friends among all the professions of life, and men are, first of all, citizens.

If this spirit is to be preserved, and it is our chief asset as I see it, then no great break must occur in the physical plant in which these men and women live and do their work. Anything which sets off any group of students beyond easy walking distance from the general mass will by that much operate against the continuance of this spirit of unity, which is the very embodiment of the Illini spirit, as it should be of the state as a whole. By this I mean that as we expand, we should creep along in the direction of expansion but should not take any great leaps out into new territory and leave large gaps intervening. It may be argued that the present Agricultural Building was put "way out in a corn field," but it was in truth scarcely three times its length removed from the old main building, and it simply meant that we set our face to the south instead of to the north as before. It did not mean in any sense a physical separation.

I believe that ultimately an excellent site for the Agricultural Building would be on the hill south of the forestry, conditioned upon a general movement southward, but to go there now would mean a practical segregation of the agricultural students. The temptation, if not the necessity, would be to build up an agricultural community there and to establish classrooms and laboratories for the teaching of such general subjects as the languages and the sciences. In any event, that location for the principal work of the agricultural students would vastly curtail their elective privileges and cut down, if it did not mainly cut out, that intimate association in all matters of a general character which they now enjoy. I am constrained to believe that the damage would be mutual to the agricultural students and to all others.

If we are to remain a unit in spirit, then the problem of the University is to quarter its students, both for instruction and for living, within walking distances. This principle should certainly apply to all major interests. Anything like transportation of these students between classes is in my opinion out of the question. The cost would be prohibitive, and the physical problem of gathering up and redistributing

even ten thousand students between classes is an impossible one, except as their own feet solve the problem, which latter is also desirable from the standpoint of health and especially of good breathing.

This all means that our buildings, both for class work and for living, must not cover extensive areas of ground or we shall pay the penalty of cleavage due to mere size.

How Big Can the University of Illinois Be?

This question has caused an unnecessary amount of agitation. Attempts to limit the size by excluding freshmen and sophomores or by advancing standards of admission will not only fail but they will cut the bonds that bind us to our constituency and will limit not only the revenues but the usefulness of the University.

I do not see that we need concern ourselves about the problem of size except as to this matter of preserving our unity both in the faculty and in the student body, and as to adequate funds.

We shall one day have to swarm, for there is a limit to the number of students that can be quartered—that is, housed and taught—within the limits of walking distances; but when we swarm, it should be by establishing a new university center two or three miles away perhaps, not by cleaving off a college or starting an institution in some other part of the state.

There can be administered from this central spot any number of subsidiary centers without adding perceptibly to the general administrative machinery, and certainly without any change of policy, either in general or in the teaching of any subject, provided only that the detached centers be virtually cross sections of the university as a whole and not simply separate interests. The latter would make us in time, not a university but an aggregation of colleges, each with an independent clientele.

If that time ever comes, the University of Illinois will have lost, as I see it, its present hold upon the people, its greatest opportunity for usefulness, and its high function of moulding the people of a great state into a fairly homogeneous mass with common understanding and common purposes, though with diverse occupations.

This may look like building a mountain out of a mole hill, but I think that all these things lie at the parting of the ways and it is none too soon to consider the influence of physical surroundings upon the future of the University and the citizens of the state.

Very truly yours,

E. DAVENPORT

September 19, 1921

President David Kinley, 355 Administration

DEAR PRESIDENT KINLEY:

In compliance with the instructions of the Board of Trustees (Page 23, Minutes of August 1, 1921), for certain recommendations about the proposed Agricultural Building, I submit for your consideration the following conclusions which I have formulated as the result of conferences with Dean Davenport and others in the Agricultural College:

The first question to consider is—How fast is the College of Agriculture to grow? This is a financial question and cannot be predicted by the college faculty. It cannot be answered from the academic standpoint because Animal Husbandry alone could make a plan which would, in five years' time, involve the use of all the land we own.

The College will grow as fast as money is available for its growth. If students come faster than we can build laboratories for them, we will curtail the experiment station work first, and then, if necessary, change the character of the instruction so there will be less laboratory work and more classroom work; and this latter change is probably an inevitable one because the resources of the University will not permit the continued expansion of laboratories in accordance with the wishes of our research men.

The second question is—Should we plan to house departments separately, or should work requiring similar building facilities be assembled under one roof.

Each department requires offices, classrooms, and general laboratories and, in addition, special laboratories such as the Field Laboratory and the green houses in Horticulture; the genetics and pathology laboratories in Animal Husbandry; the dairy manufacturing laboratory in Dairy Husbandry; glass houses and screened-in houses for Agronomy; gas engine and tractor laboratories for Farm Mechanics; and, in addition, the first four of these departments require housing for animals and men.

It is obvious, therefore, that no department can be housed in a single building, nor even in a closely related group, without taking some phase of the work away from its natural environment. To expand by departmental units would also mean the starting of a great many centers, all of which would remain unfinished for many years and soon after finishing, they would be outgrown. Last year we had five departments in the College, and this year we have six. Ten years from now we may have several more, either by addition or division, which would upset any preconceived arrangement on the departmental basis.

If we expand on the basis of type of building needed, we can provide uniform expansion for all departments and can keep a more compact, orderly, and economical development of our campus. The administrative advantages of this plan, from the College and University standpoint, as compared with a development by departments, must be obvious and I think decidedly overbalance the usual departmental preference for departmental centralization, especially as centralization is physically possible to only a limited extent.

A classroom and office building is pretty nearly the same for all departments of the University. A general laboratory building is also, with some modification of equipment, easily made available for a great variety of laboratory purposes. If we build these types of buildings in our main group between the Auditorium and the Stock Pavilion, they can be successively occupied by different departments as our expansion necessitates our flowing southward. This plan will enable us to maintain a proper balance between classroom, office, and laboratory areas as our educational policies change without having to remodel one type into the other, and all of the space will be available all of the time for general University use, which would not be so of the space which would necessarily be provided for expansion in each building in a number of scattered departmental centers.

The expansion of our heat and power distribution systems will be more certain to meet the needs of the future, and much more economical for each added unit if we adhere to a compact development for all buildings which are general in their character.

Our buildings should not be much larger than Lincoln Hall will be when completed. Structures of this size make a plan which is more flexible and more readily adapted to new requirements than would be the case with buildings of twice the size, and for the sake of the general campus appearance, we should finish our buildings as we go, if possible.

I think we can build with the present appropriation about one-half of the north building of an agricultural group, and I recommend a site on the west side of Mathews Avenue, south of the Agricultural plots, with the north side of the building approximately four hundred (400) feet north of the east and west axis through the parade ground. Because of being the closest one of the proposed group to the present campus center, and because we need the maximum space for the money, this building should be a classroom and office building.

The 1914 plan for the location of the group has been followed because—

- (a) There is no adequate site available farther south;
- (b) The administrative and operating problems would be increased unjustifiably by a more distant location;
- (c) The severing of close relations with other colleges would be a distinct loss from the academic viewpoint; and
- (d) Because, if we attempt now to settle the premanent location for the Agricultural College group, the future will demonstrate that we were short-sighted rather than far-sighted. We must progress by taking successive steps, and I feel that we are wasting time discussing permanent locations.

Yours very truly

JAMES M. WHITE
Supervising Architect

In general, I agree with the opinions expressed in the letters of Dean Davenport and Professor White. The most important thing is the integrity of our educational work. To locate the building too far away from other buildings which students must go to between class periods would impair that integrity. On the other hand, I am fully in sympathy with the proposal of the Campus Plan Commission to move southward. The solution of the problem of location must have both these factors in mind. The building should, therefore, be south of the present one but not so far south as to make its use inconvenient. The location indicated in Professor White's letter seems to me to meet the conditions.

As to the general character of the building, there are three possibilities. It may be planned to serve laboratory purposes, classroom and office purposes, or general administrative purposes for the College of Agriculture, including such things as reading rooms, assembly room, offices, and so forth.

My own judgment is that the University and the College of Agriculture will be best served in the immediate future by making this new building serve the second class of purposes; that is, it should be a class and office building.

It seems to me that in accordance with the provisions of the appropriation bill it should be the first unit of an agricultural group.

From these points of view my own recommendations on the matter would be that the building be located south of the plats just in the rear of the Observatory, that it be a class and office building, and that it be an independent unit, either complete or partly so.

On motion of Mr. Noble, action on this matter was deferred until the next meeting.

HORTICULTURE LABORATORY

(20) A further recommendation from Professor White that the sum of \$40,000 be appropriated toward the general work of grading, extension of water mains, electric wires, telephones, furniture, equipment, etc., for the Horticulture Laboratory, the work to be done under the direction of the Supervising Architect.

On motion of Mrs. Blake, this appropriation was made, by the following vote: Aye, Mr. Abbott, Mrs. Blake, Mrs. Busey, Mrs. Evans, Mr. Hoit, Mr. Noble; no, none; absent, Mr. Blair, Mrs. Grigsby, Mr. Herbert, Mr. Small, Mr. Trimble.

REGISTRATION, SEPTEMBER 21, 1921

(21) A report from the Registrar that the total registration at the close of business on September 21, was 7578, which was 841 more than the number at the end of the third day last year, and more than at the end of four weeks last fall.

This report was received for record.

REGULAR MONTHLY MEETINGS

On motion of Mrs. Blake, it was voted to hold regular monthly meetings of the Board on the second Wednesday of each month except August and those months in which quarterly meetings are held according to the By-laws of the Board.

STADIUM SITE

The matter of the site for the Stadium was discussed, but no action was taken.

AUDITOR'S REPORT

The Secretary presented for record the following reports from Arthur Young and Company concerning the report of the Comptroller for the quarter ending June 30, 1921, and concerning the published annual report of the Comptroller for the year ending June 30, 1921.

September 16, 1921

Board of Trustees, University of Illinois, Urbana, Illinois

DEAR SIRS:

We have audited the Cash Receipts and Disbursements of the University of Illinois for the quarter ending June 30, 1921, thus completing the entire year of 1920-1921, and certify that the Receipts and Disbursements as embodied in the report of the Comptroller for that period are in accordance with the books, and, in our opinion, are correct.

Yours faithfully,
ARTHUR YOUNG & COMPANY

September 16, 1921

The Honorable William L. Abbott, President, Board of Trustees, University of Illinois

DEAR SIR:

We have audited the Cash Receipts and Disbursements of the University of Illinois for the year ending June 30, 1921, and certify that the Receipts and Disbursements for that period as embodied in the accounts of the Business office hereto attached, are in accordance with the books and are correct.

We have further examined the report of the Comptroller presented herewith and have compared it with the books, and in our opinion this report constitutes a correct statement of the affairs dealt with therein.

Yours faithfully,
ARTHUR YOUNG & COMPANY

APPOINTMENTS TO FILL VACANCIES

Abbitt, M. A., Student Assistant in Architecture, on one-half time, for ten months, beginning September 1, 1921, at a salary of fifty dollars (\$50) a month. (August 15, 1921)³

Agersborg, H. P.Kjerschow-, Assistant in Zoology, on one-half time, for ten months, beginning September 1, 1921, at a salary of sixty dollars (\$60) a month. (August 23, 1921)³

Allen, H. H., Instructor in Economics, for ten months, beginning September 1, 1921, at a salary of two hundred dollars (\$200) a month. (August 6, 1921)³

Altman, Beulah L., Assistant in Romance Languages, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 16, 1921)³

Ashton, Bessie L., Instructor in Geology, for ten months, beginning September 1, 1921, at a salary of two hundred ten dollars (\$210) a month. (August 26, 1921)³

Baker, J. B., Assistant in Animal Nutrition, in the Department of Animal Husbandry, in the Agricultural Experiment Station, for one year, beginning September 1, 1921, at a salary of one hundred ten dollars (\$110) a month. (August 8, 1921)³

Beatty, Elsie E., Instructor in University High School, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (August 10, 1921)³

Bell, T. M., Assistant in Electrical Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred sixty dollars (\$160) a month. (August 30, 1921)³

Berman, Edward, Instructor in Economics, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 10, 1921)³

³The date in parenthesis is the date on which the appointment was made by the President of the University.

⁴Appointment made by Vice President Davenport.

Blood, F. C., Assistant Professor of Business Organization and Operation, for one year, beginning September 1, 1921, at a salary of two hundred fifty dollars (\$250) a month.³ (August 10, 1921)¹

Bolan, Ann, Instructor in Roentgenology, in the College of Dentistry, for twelve months, beginning September 1, 1921, at a salary of twenty-four hundred dollars (\$2400). This appointment supersedes her previous appointment. (September 12, 1921)

Bowlus, Hazel W., Instructor in the University High School, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (September 12, 1921)³

Braucher, H. H., Instructor in the University High School, for ten months, beginning September 1, 1921, at a salary of two hundred dollars (\$200) a month. (September 15, 1921)³

Briggs, H. B., Assistant in Physics, for ten months, beginning September 1, 1921, at a salary of one hundred twenty dollars (\$120) a month. (August 29, 1921)³

Brown, P. H., Instructor in Economics, for ten months, beginning September 1, 1921, at a salary of two hundred twenty-five dollars (\$225) a month. (August 9, 1921)

Brown, R. L., Research Assistant in Theoretical and Applied Mechanics, in the Engineering Experiment Station, for twelve months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (August 25, 1921)³

Bullions, C. S., Instructor in Electrical Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 30, 1921)³

Campbell, Eva M., Instructor in English, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (September 12, 1921)

Campbell, Helen D., Assistant in English, for ten months, beginning September 1, 1921, at a salary of one hundred seventy dollars (\$170) a month. (August 24, 1921)³

Capron, Ruth B., Secretary to the Dean of the College of Liberal Arts and Sciences, from September 8, 1921, to September 1, 1922, at a salary of one hundred dollars (\$100) a month. (September 9, 1921)³

Card, L. E., Professor of Poultry Husbandry, in the Department of Animal Husbandry, in the College of Agriculture, for three years, beginning February 1, 1922, at a salary of three hundred dollars (\$300) a month. (August 18, 1921)³

Cass, Edna L., Instructor in Voice, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (September 8, 1921)³

Castle, R. L., Assistant Cashier in the Bursar's Office, at a salary of ninety dollars (\$90) a month, for one year beginning September 1, 1921, subject to the rules of the Civil Service Commission. (September 8, 1921)³

Cline, R. M., Assistant in Physical Education for Men, on one-half time, for ten months, beginning September 1, 1921, at a salary of seventy dollars (\$70) a month.³ (August 23, 1921)¹

Coe, E. S., Instructor in Therapeutics, in the College of Dentistry, for twelve months, beginning September 1, 1921, at a salary of eighty-three and one-third dollars (\$83.33) a month. (July 28, 1921)

Condit, Lenace O., Head Nurse in the University Hospital, for one year, beginning September 1, 1921, at a salary of one hundred twenty-five dollars (\$125) a month. (September 8, 1921)³

Copes, I. O., Jr., Assistant in Soil Survey Mapping, in the Department of Agronomy, in the Agricultural Experiment Station, for one year, beginning September 1, 1921, at a salary of one hundred ten dollars (\$110) a month. (September 7, 1921)³

Cover, Mildred M., Stenographer in the College of Liberal Arts and Sciences, at a salary of one hundred dollars (\$100) a month, for twelve months, beginning September 1, 1921, subject to the rules of the Civil Service Commission. (September 2, 1921)³

Cox, F. W., Jr., Assistant in Geology, on one-half time, for ten months, beginning September 1, 1921, at a salary of seventy dollars (\$70) a month. (September 17, 1921)³

¹Appointment declined.

³Appointment made by Vice President Davenport.

Crane, E. J., Instructor in Mechanical Engineering, for ten months, beginning September 1, 1921, at a salary of two hundred twenty dollars (\$220) a month. (September, 10, 1921)^a

Crane, F. H., Assistant in Soil Fertility, in the Department of Agronomy, in the College of Agriculture and the Agricultural Experiment Station, for one year, beginning September 1, 1921, at a salary of fourteen hundred forty dollars (\$1440). (September 7, 1921)^a

Cromer, G. W., Assistant in Animal Nutrition, in the Department of Animal Husbandry, in the Agricultural Experiment Station, for one year, beginning September 1, 1921, at a salary of one hundred ten dollars (\$110) a month. (July 29, 1921)¹

Cross, Hardy, Professor of Structural Engineering, in the Department of Civil Engineering, for three years, beginning September 1, 1921, at a salary of three hundred thirty-three dollars (\$333.33) a month. (August 15, 1921)^a

Crosman, R. S., Instructor in General Engineering Drawing, for ten months, beginning September 1, 1921, at a salary of two hundred twenty dollars (\$220) a month (August 16, 1921)^a

Cutting, R. A., Associate in Physiology, in the College of Medicine, for one year, beginning September 1, 1921, at a salary of two hundred thirty-three and one-third dollars (\$233.33) a month. (August 31, 1921)^a

Diefendorf, Adelbert, Instructor in General Engineering Drawing, for ten months, beginning September 1, 1921, at a salary of one hundred seventy dollars (\$170) a month. (August 30, 1921)^a

Dowell, Ruth I., Assistant in Botany, for ten months, beginning September 1, 1921, at a salary of one hundred thirty dollars (\$130) a month. This appointment supersedes her previous appointment. (September 7, 1921)^a

Duell, P. V. W., Instructor in Architectural History, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 10, 1921)^a

Duncan, H. G., Instructor in Sociology, for ten months, beginning September 1, 1921, at a salary of two hundred dollars (\$200) a month. (September 9, 1921)^a

Dunn, A. I., Instructor in General Engineering Drawing, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (August 15, 1921)^a

Ernest, J. H., Laboratory Helper in Botany, at a salary of one hundred twelve and one-half dollars (\$112.50) a month, for twelve months, beginning September 1 1921, subject to the rules of the Civil Service Commission. (August 31, 1921)^a

Farrisee, W. J., Instructor in General Engineering Drawing, for ten months, beginning September 1, 1921, at a salary of one hundred forty dollars (\$140) a month. (September 2, 1921)^a

Fuhr, Clara, Assistant in Botany, on one-half time, for ten months, beginning September 1, 1921, at a salary of sixty dollars (\$60) a month. (August 6, 1921)^a

George, H. A., Laboratory Helper in Chemistry, at a salary of seventy-five dollars (\$75) a month, for twelve months, beginning September 1, 1921, subject to the rules of the Civil Service Commission. (August 9, 1921)^a

Gerig, O. B., Assistant in Economics, for ten months, beginning September 1, 1921, at a salary of one hundred forty dollars (\$140) a month. (August 6, 1921)^a

Gifford, C. R., Assistant Mechanician in the Mechanical Engineering Laboratory at a salary of one hundred dollars (\$100) a month, for twelve months, beginning September 1, 1921, subject to the rules of the Civil Service Commission. (August 3, 1921)

Gottschalk, L. R., Instructor in History, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 29, 1921)^a

Graham, Robert, Professor of Animal Pathology and Hygiene, in the Department of Animal Husbandry, in the College of Agriculture and the Agricultural Experiment Station, beginning September 1, 1921, at a salary of five thousand dollars (\$5000) a year. This appointment supersedes his previous appointment. (August 23, 1921)^a

¹Appointment declined.

^aAppointment made by Vice President Davenport.

Gray, G. W., Assistant in Public Speaking, in the Department of English, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (August 23, 1921)²

Guernsey, L. S., Assistant in Romance Languages, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (September 6, 1921)³

Hallauer, W. E., Junior Architectural Draftsman, in the Office of the Supervising Architect, at a salary of thirty dollars (\$30) a week, from September 19, 1921, to about February 1, 1922, subject to the rules of the Civil Service Commission. (September 8, 1921)³

Hamilton, Mrs. Alice V., Secretary to the Assistant Dean of the College of Agriculture, at a salary of seventeen hundred dollars (\$1700) for the year beginning September 1, 1921, subject to the rules of the Civil Service Commission. This appointment supersedes her previous appointment. (Not dated)³

Hand, L. C., Assistant in Chemistry, on one-fourth time, for ten months, beginning September 1, 1921, at a salary of thirty dollars (\$30) a month. (September 2, 1921)¹

Haugh, Margia B., Clothing Specialist in Home Economics Extension, in the College of Agriculture, for one year, beginning September 1, 1921, at a salary of one hundred eighty-three and one-third dollars (\$183.33) a month. (August 26, 1921)³

H'Doubler, F. T., Instructor in Pathology and Bacteriology, on one-half time, for eleven months, beginning October 1, 1921, at a salary of one hundred dollars (\$100) a month. (September 17, 1921)³

Henwood, P. E., Associate in Machine Design, in the Department of Mechanical Engineering, for twelve months, beginning September 1, 1921, at a salary of two hundred dollars (\$200) a month. (September 17, 1921)³

Higginson, G. D., Assistant in Education, on one-half time, for ten months, beginning September 1, 1921, at a salary of seventy dollars (\$70) a month. (August 2, 1921)

Hildreth, Gertrude H., Assistant in Education, on part-time, for ten months, beginning September 1, 1921, at a salary of seventy dollars (\$70) a month. August 10, 1921)^{1 3}

Hite, H. H., Assistant in Accountancy, for ten months, beginning September 1, 1921, at a salary of one hundred twenty dollars (\$120) a month. (August 6, 1921)³

Hobart, F. B., Research Assistant in Chemical Engineering, in the Engineering Experiment Station, for twelve months, beginning September 1, 1921, at a salary of one hundred twenty-five dollars (\$125) a month. (August 6, 1921)³

Holmes, Mildred, Student Assistant in Physical Education for Women, for ten months, beginning September 1, 1921, at a salary of thirty dollars (\$30) a month. (September 13, 1921)³

Hope, E. W., Law Librarian, for one year, beginning September 1, 1921, and Professor of Law, on indefinite tenure, at a salary of four thousand dollars (\$4000) a year. (August 4, 1921)

Hoskin, A. J., Research Assistant Professor of Mining Engineering, in the Engineering Experiment Station, for twelve months, beginning September 1, 1921, at a salary of two hundred fifty dollars (\$250) a month. (August 6, 1921)³

Hubbard, Mary, Cataloger in the Library, at a salary of one hundred thirty-three and one-third dollars (\$133.33) a month, from September 12, 1921, to September 1, 1922, subject to the rules of the Civil Service Commission. (September 9, 1921)³

Huelsén, W. A., Associate in Olericulture, in the Department of Horticulture, in the Agricultural Experiment Station, for one year, beginning September 1, 1921, at a salary of two hundred fifty dollars (\$250) a month. (July 28, 1921)

Humrichouser, Carol, Instructor in Physical Education for Women, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (September 13, 1921)

Hurd, M. M., Assistant in Economics, for ten months, beginning September 1, 1921, at a salary of one hundred twenty dollars (\$120) a month. (August 6, 1921)³

¹Appointment declined.

²Appointment made by Vice President Davenport.

Hyler, F. W., Student Stenographer in the Department of Agricultural Education, on one-half time, for ten months, beginning September 1, 1921, at a salary of forty-five dollars (\$45) a month. (August 13, 1921)

Jasper, T. M., Special Research Assistant Professor of Engineering Materials, in the Engineering Experiment Station, for twelve months, beginning September 15, 1921, at a salary of two hundred sixty-six and two-thirds dollars (\$266.66) a month. (August 25, 1921)³

Johnson, H. U., Assistant in Accountancy, for ten months, beginning September 1, 1921, at a salary of one hundred twenty dollars (\$120) a month. (September 13, 1921)³

Keener, C. A., Instructor in Electrical Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 29, 1921)³

Kellogg, J. S., Assistant Professor of Prosthetic Dentistry, for twelve months, beginning September 1, 1921, at a salary of two hundred ninety-one and two-thirds dollars (\$291.66) a month. (August 10, 1921)³

Kendall, F. E., Assistant in Animal Nutrition, in the Department of Animal Husbandry, in the Agricultural Experiment Station, for one year, beginning September 1, 1921, at a salary of one hundred ten dollars (\$110) a month. (July 29, 1921)

Kennedy, Mrs. Nellie R. R., Cataloger in the Library, at a salary of one hundred fifty dollars (\$150) a month, for twelve months, beginning September 1, 1921, subject to the rules of the Civil Service Commission. (August 18, 1921)³

Knox, G. M., Instructor in the University High School, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (September 15, 1921)³

Knox, J. H., Assistant in Animal Husbandry, in the College of Agriculture, for ten months, beginning September 1, 1921, at a salary of one hundred ten dollars (\$110) a month. (August 6, 1921)³

Koch, Edna E., Stenographer in the Department of Agronomy, in the College of Agriculture, at a salary of eighty dollars (\$80) a month, for one year, beginning September 1, 1921, subject to the rules of the Civil Service Commission. This appointment supersedes her previous appointment. (September 13, 1921)³

Koupal, Helen, Student Clerk in the Periodicals and Mailing Department of the Library, on one-half time, for one year, beginning September 1, 1921, at a salary of thirty-two and one-half dollars (\$32.50) a month. (August 20, 1921)³

Leide, Manoah, Instructor in violin, for ten months, beginning September 1, 1921, at a salary of two hundred twenty-five dollars (\$225) a month. (September 9, 1921)³

Lerche, T. I., Instructor in Oral Surgery, in the College of Dentistry, for twelve months, beginning September 1, 1921, without salary. (August 11, 1921)³

Linn, F. C., Assistant in Mechanical Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (September 9, 1921)³

Lively, C. E., Instructor in Sociology, for ten months, beginning September 1, 1921, at a salary of two hundred dollars (\$200) a month.³ (August 6, 1921)¹

Long, Madeline S., Assistant in English, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. ³(August 20, 1921)¹

Loughlin, Rosemary, Specialist in Child Feeding and Home Economics Extension in the College of Agriculture, for two years, beginning September 1, 1921, at a salary of one hundred eighty-three and one-third dollars (\$183.33) a month. (August 11, 1921)³

McKeon, Ellen, Stenographer in the Librarian's Office, at a salary of seventy dollars (\$70) a month, for one year, beginning September 15, 1921, subject to the rules of the Civil Service Commission. (September 15, 1921)³

¹Appointment declined.

³Appointment made by Vice President Davenport.

McMinn, N. L., Assistant in English, on two-thirds time, for ten months, beginning September 1, 1921, at a salary of one hundred dollars (\$100) a month. (September 17, 1921)³

Massey, L. C., Bookkeeper, in the Bursar's Office, at a salary of eighty dollars (\$80) a month, for one year, beginning September 1, 1921, subject to the rules of the Civil Service Commission. (September 8, 1921)³

Mathews, C. K., Instructor in Surveying, in the Department of Civil Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 6, 1921)³

May, O. E., Student Assistant in General Engineering Drawing, on part time, for ten months, beginning September 1, 1921, at a salary of forty dollars (\$40) a month. (August 3, 1921)

Melvin, Miriam V., Assistant in Romance Languages, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (August 20, 1921)³

Meriwether, Shannon, Student Assistant in Architecture, on one-half time, for ten months, beginning September 1, 1921, at a salary of fifty dollars (\$50) a month. (August 15, 1921)³

Miles, Margaret L., Assistant in Romance Languages, for ten months, beginning September 1, 1921, at a salary of one hundred thirty dollars (\$130) a month. (August 16, 1921)³

Mills, Mrs. Helen Thompson, Assistant in Romance Languages, for ten months, beginning September 1, 1921, at a salary of one hundred forty dollars (\$140) a month. (August 11, 1921)³

Morrow, W. T., Instructor in Structural Engineering, in the Department of Civil Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (September 10, 1921)³

Mowery, W. B., Assistant in English, on two-thirds time, for ten months, beginning September 1, 1921, at a salary of one hundred dollars (\$100) a month. (July 30, 1921)

Mullen, J. P., Research Assistant in Refrigeration, in the Engineering Experiment Station, beginning when he reports for duty, and continuing until August 31, 1922, at a salary of one hundred fifty dollars (\$150) a month. (September 17, 1921)³

Mullen, Mary E., Instructor in Home Economics, in the College of Agriculture, for ten months, beginning September 1, 1921, at a salary of one hundred sixty dollars (\$160) a month. (August 11, 1921)³

Munro, E. F., Instructor in Operative Dentistry, on one-half time, for twelve months, beginning September 1, 1921, at a salary of eighty-three and one-third dollars (\$83.33) a month. (August 3, 1921)

Nelson, N. E., Assistant in English, on two thirds time, for ten months, beginning September 1, 1921, at a salary of one hundred dollars (\$100) a month. (August 20, 1921)³

Nevins, W. B., Assistant Professor of Dairy Nutrition and Chief in Dairy Nutrition, in the College of Agriculture and the Agricultural Experiment Station, for three years, beginning September 1, 1921, at a salary of two hundred fifty dollars (\$250) a month. This appointment supersedes his previous appointment. (August 23, 1921)³

Packard, Bessie, Secretary in the Department of Home Economics, at a salary of one hundred fifty dollars (\$150) a month, for one year, beginning September 1, 1921, subject to the rules of the Civil Service Commission. This appointment supersedes her previous appointment. (September 3, 1921)³

Parks, E. E., Assistant in Chemistry, on one-half time, for ten months, beginning September 21, 1921, at a salary of sixty dollars (\$60) a month. (August 23, 1921)³

Perkins, E. E. Jr., Assistant in Electrical Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred fifty dollars (\$150) a month. (August 25, 1921)³

³Appointment made by Vice President Davenport.

Perkins, W. J., Assistant in Architecture, for ten months, beginning September 1, 1921, at a salary of one hundred forty dollars (\$140) a month. (August 25, 1921)³

Peterson, Irving, Associate in Landscape Gardening, in the College of Agriculture, on part time, for one year, beginning September 1, 1921, at a salary of one hundred twenty-five dollars (\$125) a month. (August 30, 1921)⁴

Pickof, Frederick, Instructor in Pathology and Bacteriology, on one-half time for twelve months, beginning September 1, 1921, at a salary of one hundred dollars (\$100) a month. (September 17, 1921)³

Pierce, J. S., Assistant in Chemistry, on one-fourth time, for ten months, beginning September 1, 1921, at a salary of thirty-five dollars (\$35) a month. This appointment supersedes his previous appointment. (August 23, 1921)³

Pratt, C. H., Assistant Purchasing Agent, in the Business Office, at a salary of one hundred fifty dollars (\$150) a month, for one year, beginning September 1, 1921, subject to the rules of the Civil Service Commission. (August 18, 1921)³

Pressyl, Theresa, Assistant in Physical Education for Women, on part time, for ten months, beginning September 1, 1921, at a salary of sixty dollars (\$60) a month. (September 6, 1921)³

Price, E. P., Assistant in Electrical Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred forty dollars (\$140) a month. (August 16, 1921)³

Priest, H. M., Instructor in Structural Engineering, in the Department of Civil Engineering, for ten months, beginning September 1, 1921, at a salary of one hundred eighty dollars (\$180) a month. (August 15, 1921)^{1 3}

Propst, D. W., Assistant in Medicine, from September 9, 1921, to September 1, 1922, without salary. (September 17, 1921)³

Prout, Emma R., Graduate Assistant in Zoology, on one-fourth time, for ten months, beginning September 1, 1921, at a salary of thirty-five dollars (\$35) a month. (August 23, 1921)³

Pyle, C. B., Assistant Professor of Structural Engineering in the Department of Civil Engineering, for three years, beginning September 1, 1921, at a salary of two hundred fifty dollars (\$250) a month. (August 15, 1921)³

Rankin, F. H., Assistant Dean of the College of Agriculture for one year, beginning September 1, 1921, and Superintendent of Agricultural College Extension, on indefinite tenure, at a salary of forty-five hundred dollars (\$4500) a year. This appointment supersedes his previous appointment. (September 13, 1921)

Rash, Berenice, Mailing Clerk and Stenographer in the Engineering Experiment Station, at a salary of sixty dollars (\$60) a month, from September 5, 1921, to August 31, 1922, subject to the rules of the Civil Service Commission. (September 6, 1921)³

Rasmussen, H. E., Assistant in Economics, for ten months, beginning September 1, 1921, at a salary of one hundred forty dollars (\$140) a month. (August 13, 1921)³

Reeves, F. W., Assistant in the Bureau of Educational Research, for twelve months, beginning September 1, 1921, at a salary of fourteen hundred dollars (\$1400). (August 13, 1921)¹

Ryan, E. J., Instructor in Operative Dentistry, for twelve months, beginning September 1, 1921, at a salary of one hundred sixty-six and two-thirds dollars (\$166.66) a month. (July 28, 1921)

Sankee, Ruth E., High School Librarian, in the College of Education, and Instructor in Library Economy, in the Library School, for twelve months, beginning September 1, 1921, at a salary of eighteen hundred dollars (\$1800). (August 13, 1921)³

Sayre, C. B., Assistant Professor of Olericulture and Assistant Chief in Olericulture, in the Department of Horticulture, in the College of Agriculture and the Agricultural Experiment Station, for two years, beginning September 1, 1921, at a salary of two hundred fifty dollars (\$250) a month.
