

ADJOURNED SESSION, JUNE 22, 1938

An adjourned session of the June meeting of the Board of Trustees of the University of Illinois was held at the Blackstone Hotel, in Chicago, at 12:30 p.m. (Chicago Daylight Saving Time) on Wednesday, June 22, 1938.

The following members were present: President Mayer, Mr. Adams, Mr. Cleary, Dr. Meyer, Mr. Moschel, Mrs. Plumb, Mr. Pogue.

President Willard was present; also Mr. A. J. Janata, Assistant to the President, Professor Lloyd Morey, Comptroller, Judge Sveinbjorn Johnson, Counsel, and Director C. S. Havens of the Physical Plant Department.

CONFERENCE WITH GOVERNOR HORNER

President Mayer read a letter and presented a report on a conference he had held with Governor Horner on June 14, concerning the appropriation for a building to replace University Hall, the proposed legislation to enable the University to finance the Student Center and Dormitory projects, and the proposal to secure federal grants for the construction of the additions to the Library and the McKinley Hospital.

President Mayer stated that the Governor had agreed to a plan whereby, on the basis of the appropriation of \$700,000 for the building to replace University Hall, federal grants might be secured to provide for the construction of the additions to the Library and the Hospital. President Mayer reported further that Governor Horner had indicated that he would consent to the introduction of the enabling act to provide for the Student Center and Dormitory projects, on the following conditions:

1. Bonds shall not be an obligation of the State and the bill shall so specify.
2. No debt incurred for the construction of these buildings may be paid from the University Income and Revolving Fund; nor shall the Board ask for direct appropriations for this purpose.
3. The act shall include a provision that the payment of principal and interest on the bonds shall be limited to the income received from the buildings provided in this act, or gifts for that purpose.
4. The maximum allowable interest rate in the bill should be lower than the six per cent specified in the draft submitted to the Governor.
5. The University shall send a fair questionnaire to the members of the Student Senate, asking their opinion as to whether they, as representatives of the student body, are in favor of a compulsory increase in student fees for a Student Union Building, not to exceed \$10.00 per year.
6. The Board shall endeavor to obtain a federal grant to add to the \$700,000 appropriation for the construction of a building to replace old University Hall.
7. The Board shall agree that in the preparation of the biennial budget for 1939-1941 it will confer with the Governor and will not introduce any capital items not previously approved by the Governor.

Mr. Adams reported that he was of the opinion (based on a conversation with the Governor later than that of President Mayer), that unless the Board would agree to all the conditions he had set forth for the Student Center and Dormitory projects, the Governor would not support the use of the appropriation to replace University Hall as a basis for federal grants for the additions to the Library and the Hospital, and that there was doubt in his mind as to the fate of the appropriation to replace University Hall unless the Board agreed to the conditions stated above.

This matter was discussed for some time. Action was deferred until later in the day.

Mr. Cleary withdrew, stating that he would return to the meeting later.

GOVERNOR REQUESTED TO VETO APPROPRIATION BILL

On motion of Mr. Adams, the Governor was requested, in view of the lack of a two-thirds majority in the Senate and the resulting doubt as to its validity, to veto Senate Bill 10, the first bill to appropriate \$700,000 for a building to replace University Hall. In taking this action, the Board renewed its request to the Governor to support and to approve the second bill (Senate Bill 57) for the same purpose and the same amount.

MATTERS PRESENTED BY PRESIDENT WILLARD

The Board considered the following matters presented by the President of the University.

STUDENT CENTER BUILDING FEE

(1) At a meeting of the University of Illinois Student Senate, the undergraduate governing body, held on June 12, 1938, the following resolution was passed:

Resolved, that the Student Senate hereby declares itself in favor of a student fee of up to \$5.00 per semester with the understanding that such fee shall be kept as low as possible to provide a Student Center for the University of Illinois student body. The Senate takes this stand because it feels that the savings which the student body will receive from low cost eating and dancing facilities as well as from used book exchange facilities, if such ever becomes necessary, will more than offset the fee which the student will be required to pay.

The facilities for these important services to the student body are, as the Senate has expressed itself many times before, woefully inadequate at present and the Senate welcomes the opportunity to throw its support behind the Student Center which will solve these difficult problems.

Very sincerely,

EDGAR BARTON

President of the Senate

PHIL SIMON

Acting Secretary

The Board of Trustees has already indicated its approval of a service charge against all students in the Urbana departments to produce sufficient income to operate and maintain the Student Center Building when completed and to provide for the amortization of the bonds issued to finance its construction.

This report was received for record.

ARCHITECTURAL SERVICES AND SITE FOR STUDENT CENTER BUILDING

(2) At its meeting on November 21, 1936 (Minutes, page 120), the Board placed the supervision of the architectural work on the Student Center Building in the hands of the Physical Plant Department for the preparation of plans and superintendency of construction.

The Director of the Physical Plant Department recommends that, in view of the demands on his organization for architectural work on other University

buildings, and in view of the fact that part of the funds for the construction of the Student Center Building would come from alumni, an outside architect be employed as consulting architect on this building and that he be an alumnus of the University. He further recommends that the following committee be appointed immediately to select such a consultant for recommendation to the Board: Mr. Charles Wham, President of the Alumni Association; Mr. Ralph Chapman, President of the University Foundation; Mr. Carl Stephens, Director of Alumni Relations; Dean Rexford Newcomb, Dean of the College of Fine and Applied Arts; and Mr. E. L. Stouffer, Assistant Supervising Architect in the Physical Plant Department.

It is also necessary that a site for this building be selected immediately so that the plans and working drawings may be started as soon as possible. If funds for this building become available through a grant and loan from the Federal Government it is important that the University be in a position to proceed with the construction with the least possible delay.

On motion of Dr. Meyer, this recommendation was adopted.

NEW APPOINTMENT OF PROFESSORIAL RANK
