MEETING OF THE BOARD OF TRUSTEES

OF THE

UNIVERSITY OF ILLINOIS

May 21-22, 1948

The May meeting of the Board of Trustees of the University of Illinois was held on Friday, May 21, and Saturday, May 22, 1948, at the Illini Union Building, in Urbana, according to the following schedule:

May 21, 8 p.m. — Executive session as in Committee of the Whole.

May 22, 9:30 a.m. — Open session.

When the Board convened, the following members were present: President Fornof, General Davis, Mrs. Holt, Mr. McKelvey, Mr. Nickell, Mr. Williamson. Mr. McLaughlin took his place with the Board during the evening.

President Stoddard was present; also Provost C. R. Griffith, Assistants to the President A. J. Janata and Wilbur Schramm, Secretary H. E. Cunningham, Comptroller Lloyd Morey, Legal Counsel W. E. Britton, and, during part of the evening, Mr. D. E. Dickason, Director of Nonacademic Personnel, Mr. C. S. Havens, Director of the Physical Plant Department, and Mr. E. L. Stouffer, Architect.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the agenda for the meeting and took action on the following matters presented by the President of the University.

PROPERTY PURCHASES

(1) Purchase of the following properties is recommended as a part of the special program of acquisition of resident properties for faculty housing authorized by the Board of Trustees:

1. 407 West Washington Street, Urbana - \$16,000. Edwin Park, owner. Lot size $60' \times 135'$. House—frame, 7 rooms (plus enclosed sleeping porch); living room, study, dining room, and kitchen on first floor; three bedrooms, sleeping porch, and bath on second floor. Hand-fired warm air furnace, gas water heater, two-car garage. The house was constructed 26 years ago, has been well maintained, and is in excellent condition.

Appraised at \$16,500; purchase price, \$16,000. Option, \$500. 2. 207 West Washington Street, Urbana — \$12,000. Robert D. Carmichael, owner. Lot size 60' x 135'. House — frame, 8 rooms; living room, dining room, kitchen, study, bedroom, and part bath on first floor; three bedrooms and bath on second floor. Hand fired warm air furnace, gas water heater, one-car garage.

Appraised at \$14,000; purchase price negotiated with owner, \$12,000. Option,

\$300. The house will require a thorough internal overhauling as well as some exterior repairs to bring it up to the standard of other houses of this type which are being acquired by the University for rental to the faculty. This was con-sidered in the negotiations with the owner and the price has been set to allow for the expenditure of up to \$3,000 for repairs. The appraisal of \$14,000 was on the house in its present condition.

I recommend that the Board of Trustees authorize the expenditure of \$15,000 for the acquisition and repair of this property.

3. 301 West Pennsylvania Avenue, Urbana — \$19,250. Robert Thompson, owner. Lot size 60' x 115'. House — frame, 7 rooms; living room, dining room, kitchen, and study on first floor; three bedrooms and bath on second floor. Oilfired warm air heater (new installation), autornatic gas water heater, water softener, new kitchen equipment, one-car garage. The house was purchased two years ago by present owner, who made extensive internal and external improve-ments, and it is in an excellent state of maintenance.

Appraised at \$18,500; purchase price, \$19,250. The owner has an appraisal of \$20,000; the University's appraisal is \$18,500. The owner agreed on a price half way between the two. Option, \$500.

4. 709 West Michigan Avenue, Urbana - \$22,500. Warren A. Ruth, owner. Lot size $100' \times 193'$; well landscaped. House — frame, shingle siding, 7 rooms; living room, dining room, kitchen, general room (which may be used as a study or library), master bedroom with complete bath on the first floor; two bedrooms and bath on the second floor; large storage space in attic which could be converted into another room. Large porch in front of house and a terrace in the rear. Stoker warm air heating recently overhauled. Automatic gas water heater. The house has been occupied by only one family, the present owner, who built it 34 years ago. It has been well maintained and is in good condition.

Original asking price, \$28,000; appraised at \$22,500; purchase price, \$22,500. Option, \$200. In negotiations with the owner it was agreed that the University would pay the 1948 real estate taxes payable in 1949. The 1947 taxes payable in 1948 amounted to \$268.15.

The University has secured from the Champaign County Real Estate Board an independent appraisal of each of these properties. Mr. Newton C. Farr of Farr and Company, Chicago, who has served as consultant to the University on real estate acquisitions, was also consulted. He has inspected the properties and

concurs in the prices recommended. The University has purchased options on these properties, as indicated in each case, to June 1, 1948.

As reported to the Board at a previous meeting, the Board of Directors of the Athletic Association has also decided to purchase a house for rental to a member of the Athletic Department staff. Authority is requested to transfer any one of the options on the houses now being recommended for purchase in the event the Athletic Association officials decide to purchase it.¹

On motion of Mr. Davis, these purchases were authorized as recommended, and the appropriation was made, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. McKelvey, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Mr. Livingston, Dr. Luken, Mr. McLaughlin, Dr. Meyer.

On motion of Mr. Davis, authority to transfer any one of these houses to the Athletic Association was given as recommended.

EMPLOYMENT OF FOREIGN STUDENTS

(2) On June 28, 1940 (Minutes, page 978), the Board of Trustees adopted a policy that no individual shall be appointed to the faculty or employed in any other capacity who is not a citizen of the United States unless he has declared his intention of becoming naturalized, except for temporary appointments of visiting professors and lecturers. The Board subsequently amended the policy to permit appointments of foreign students to scholarships and fellowships and also authorized, for the duration of World War II, the employment of students who are citizens of countries with which the United States was allied.

Various department heads consider the work of their departments handicapped by these restrictions on employment of foreign graduate students. In many cases it is not possible to secure the services of citizens of the United States for a particular job, especially on short notice as, for example, when the enrollment in certain courses increases beyond what had been anticipated and it is necessary to secure additional staff immediately. A competent foreign student may be as useful as a competent American student. At a time when departments face serious shortages in staffs they are handicapped in not having an opportunity to use an available supply of foreign graduate students. Furthermore, a competent foreign student may render valuable services by virtue of the fact that he is a foreigner.

The restrictions in regard to the employment of foreign graduate students have been responsible in some cases for the deflection to other universities of foreign graduate students whom the departments concerned would like to have held.

This matter has recently been studied by Dean Louis N. Ridenour of the Graduate College, Dean M. L. Enger of the College of Engineering, and Arthur Hamilton, Assistant Dean of Men for Foreign Students, who recommend that the existing policy be amended to provide that:

existing policy be amended to provide that: "Foreign students may be given part-time employment (subject to the regulations of the United States Immigration Service) when equally well-qualified American students are not available."

I concur in this recommendation except that I would amend it to read as follows:

"Foreign graduate students may be given part-time teaching and research appointments, or may be given other part-time University employment, subject to the regulations of the United States Immigration Service, when equally wellqualified American students are not available."

Mr. Williamson offered a motion that this recommendation, as amended, be approved. On vote, the motion did not receive a majority vote, and the chair declared that it was lost.

WAGES OF JANITORS

(3) A suggested basis of agreement between the University and Local No. 119, Building Service Employees Union International, for the establishment of the principles of paying prevailing rate for janitor service on the Urbana campus is presented.

President Stoddard and Mr. Dickason commented on this matter. After full discussion, on motion of Mr. Nickell, the statement was

1948]

approved as a basis of further negotiation, and the President was requested to send the statement to the Executive Committee for its consideration and action.

WAGES OF OPERATING ENGINEERS IN CHICAGO DIVISIONS Mr. Dickason commented on the status of negotiations with the operating engineers in the Chicago divisions.

Mr. McLaughlin took his place with the Board during the discussion of this matter.

Action was deferred until the June meeting.

WOMEN'S RESIDENCE HALL GENERAL CONTRACT

(4) The general contract for the construction of the Residence Hall for Women was authorized by the Board of Trustees on December 28, 1946 (Minutes, page 194), and was awarded to the Warner Construction Company, Chicago, the lowest bidder, on two proposals:

No. 1. Excavating, foundation walls, and rearrange-

ment of utilities.....\$ 180 000

No. 2. Balance of general work to complete building... I 820 000

Both bids were on the basis of a cost plus fixed fee contract with a contractor's fee of 30,000 and a guaranteed limit of cost of 10,000 on No. 1, and a contractor's fee of 10,000 and a guaranteed limit of cost of 1,820,000 on No. 2. Under this contract, savings below the guaranteed maximum are to be divided 75 per cent to the University and 25 per cent to the contractor.

Completion date of construction required by proposal No. 1 was June 28, 1947; completion date of construction required by proposal No. 2 is 365 days "after the Contractor is authorized by the Owner to proceed and perform the work as described in Proposal No. 2." Notice by the University to the Contractor to proceed with No. 2 was given July 16, 1947, and the completion date therefore is July 16, 1948. This provision in the contract was necessary since at the time it was let the University did not have sufficient funds to complete the project.

An appropriation of \$1,500,000 was made for the biennium of 1945-1947 of which \$258,250 was expended during the biennium and the balance lapsed. An appropriation of \$2,000,000 was made for the biennium of 1947-1949 and became effective on the approval of the same by the Governor.

Construction work has not proceeded as rapidly as it should and default by the Contractor in the time of performance is virtually a certainty. Almost from the beginning of construction, controversies with the Contractor over performance have arisen and a large number remain unsettled. The Contractor admits probable default and, in the main, attributes the cause to his lack of freedom of operation under the present contract, particularly his ability to offer without limit such employment rates or other inducements as he may consider necessary to obtain sufficient tradesmen. The Contractor claims that he can not get a sufficient number of bricklayers, carpenters, and other tradesmen to enable him to accelerate construction and believes that he should be allowed by the University to pay premium rates to attract a sufficient number. The University, except for emergency purposes, can not approve the payment of such premium rates because (a) the University is committed by law and policy to the payment of prevailing rates, and (b) the granting of permission to the Contractor to pay rates above scale would deflect available labor from other construction work for the Univer-sity, i.e., from the Mechanical Engineering Building and the Electrical Engineering Building, to the prejudice of their completion in accordance with the terms of the contracts. The Contractor proposes that, as a solution of the problem, the present cost plus fixed fee with a guaranteed maximum cost contract be modified by the elimination of the "cost plus" feature and the substitution of a "lump sum" provision. The Contractor has made no statement as to whether he wants the proposed lump sum to be the present guaranteed maximum or a greater or lesser sum.

Numerous conferences have taken place between representatives of the Physical Plant Department, the University's Architects, and other University

1094

officers and the Contractor and his representatives with respect to various detailed matters of controversy such as the proper rentals for equipment, transfers of equipment from the Women's Residence Hall job to the tunnel job, time schedules, and other problems.

The Contractor now proposes:

I. That the present contract be changed from a cost plus guaranteed maximum basis to a fixed sum. The amount of the sum, however, was not discussed but, in view of statements by the Contractor "that there would not be a saving to the owner under the present contract," it is assumed that this amount would not be less than \$2,000,000.

2. That if the above change in the contract is approved, the Warner Construction Company will complete the project by September except for interior painting. Furthermore, a surety bond will be provided as a guarantee of completion if the proposal is acceptable.

3. That the company is unable to submit a progress schedule based on the present contract.

These proposals have been reviewed carefully by the Physical Plant Department, the Legal Counsel, and the Comptroller. Their conclusions are:

A. In our opinion, proposal (1) above if granted would represent a material change in the contract and we seriously question the right of the University to take such action.

B. The offer to complete the project by September I and to furnish a surety bond as a guarantee is no additional protection to the University over its present position. The present contract provides for completion by July 16, 1948, on which the Contractor has submitted a surety bond.

C. At this time, it is impossible to know definitely whether the University will either gain or lose by the acceptance of the offer. In view of the legal restrictions on the University in awarding and changing contracts together with the impossibility of determining whether the University will gain or lose by such a change, the proposals should not be accepted by the University.

This report is presented for consideration and action by the Board.

The President of the University stated that since the preparation of this report, a request has been forwarded through Mr. Livingston for a hearing before the Executive Committee for the discussion of this matter.

Professor Britton presented a memorandum in reply to the statement of the Warner Construction Company accompanying the letter of Mr. T. L. Warner to Mr. Livingston, dated May 12, 1948.

President Fornof stated that he had notified Mr. Warner that the Board would give him and his associates a hearing at noon on Saturday, May 22. (See page 1113).

Mr. C. S. Havens and Mr. E. L. Stouffer commented on this matter.

After full discussion, action on this matter was deferred until after the hearing. In this connection, Mr. Davis requested that the Secretary record him as voting against any change in the contract with the Warner Construction Company.

CONTRACT FOR CONSTRUCTION OF BETATRON AT THE CHICAGO PROFESSIONAL COLLEGES

(5) Bids have been received for construction work to house and service the new betatron which is being purchased for the Chicago Professional Colleges.

The Director of the Physical Plant Department and the Comptroller recommend the award of the following contracts to the lowest bidders:

Chicago..... 14 350 00

Funds are available in appropriations made by the Board of Trustees for this project.

I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute these contracts.

On motion of Mr. Williamson, these contracts were authorized as recommended.

SESSION OF MAY 22, 1948

When the Board convened in executive session at 9:30 a.m. on Saturday, May 22, 1948, the following members were present: President Fornof, General Davis, Mrs. Holt, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson. Mr. Livingston took his place with the Board during the forenoon.

President Stoddard was present; also Dr. A. C. Ivy, Vice-President in charge of the Chicago Professional Colleges, Mr. C. R. Griffith, Provost, Mr. A. J. Janata, Assistant to the President, Mr. H. E. Cunningham, Secretary, Mr. Lloyd Morey, Comptroller, and Mr. W. E. Britton, Legal Counsel; also, during the open session, Director J. F. Wright.

HOUSING AT MEDICAL CENTER

Dr. Ivy presented the following letter and discussed it.

May 10, 1948

To the Board of Trustees of the University of Illinois

Gentlemen:

With the permission of President Stoddard I should like to call a critical situation to the attention of the Board of Trustees.

When I came to the University of Illinois in September, 1946, I found the staff in urgent need of housing.

I took steps to remedy that situation and would have had it remedied if it had not been found that the FHA will not insure loans on housing in the Medical Center District. On several occasions I have tried to obtain an exception from the FHA and have failed. The FHA refuses to insure loans because of a "reverter clause" in the Medical Center Act. The details relative to this matter and my efforts over the last fifteen months to remedy the situation need not be mentioned, since they are irrelevant to the point I desire to make, namely, that no more time should be lost in providing staff housing as soon as it can be built. For this reason I am appealing through President Stoddard to the Board for

assistance.

I have observed that a private real estate concern is constructing an apartment building which provides priorities for renting the apartments to the staff members of the University of Chicago. The rentals will range from \$65 for tworoom dwellings to \$150 for five rooms. The building will contain 124 suites and will cost \$1,000,000. The building is covered with an FHA loan of \$749,000.

If such an arrangement can be negotiated by the University of Chicago, I see no reason why similar arrangements can not be negotiated by the University of Illinois. A similar building located just east or north of the Medical Center District (preferably east, since that is the first slum clearance project of the Chicago Housing Authority) would meet about half of our staff needs for housing as determined by a recent survey.

With the influence that the Board of Trustees of the University of Illinois may exert on private capital and builders of the Chicago area, and in view of the desirability of investing near the Medical Center, I believe the construction of an apartment building on the border of the Medical Center, with arrangements similar to those obtained by the University of Chicago, could be started before September 1st.

Yours sincerely,

A. C. Ivy, Vice-President

1096

On motion of Dr. Meyer, the Committee on Chicago Departments was authorized to call on Mr. Newton C. Farr as consultant and the Executive Committee was authorized to arrange for such assistance to Mr. Farr as he may request.

SITE FOR NEW Y.M.C.A. BUILDING IN CHICAGO

On motion of Dr. Meyer, the Secretary was instructed to record the fact that the Board looks with favor on the location at Damen and Polk Streets, Chicago, for a proposed new Y.M.C.A. building in the Medical Center District.

OPINION ON TAXATION

Mr. Britton reported on the status of various attempts to tax property owned by the University.

On motion of Dr. Meyer, the Executive Committee was authorized to release the opinion of Chapman and Cutler when received.

OPEN SESSION

The Board convened in open session at 10 a.m.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of April 10, 1948. On motion of Mr. Nickell, the minutes were approved as printed on pages 1055 to 1090 above.

MATTERS PRESENTED BY PRESIDENT STODDARD

The Board considered the following matters presented by the President of the University.

DISSOLUTION OF AGREEMENT ENTERED INTO MARCH 26, 1923, BETWEEN THE UNIVERSITY OF ILLINOIS AND THE OFFICE OF THE SUPERINTENDENT OF PUBLIC INSTRUCTION CONCERNING THE HIGH SCHOOL VISITOR'S OFFICE

(1) This agreement provides for a sharing, by the two offices, of the authoritative inspection of public four-year high schools. In effect, the University of Illinois has maintained this office for accreditation purposes as an agency of the Superintendent of Public Instruction. In downstate areas the division has been geographical, the University and the Office of Public Instruction alternating; in Chicago the inspection has been carried on jointly. A final provision of the agreement states that it "may be dissolved without prejudice at any time upon the request of either of the agreeing parties."

While the agreement was made in 1923 between President David Kinley and Dr. F. G. Blair, Superintendent of Public Instruction, with subsequent confirmation by the Board of Trustees of the University, I feel that a matter of policy is involved and I am, therefore, bringing it to the attention of the Board for action. Following the agreement referred to above, the Board authorized the appointment of a Senate committee to implement it. Changes will be indicated in the functions of this committee, and, of course, staff adjustments will need to be made. The actual machinery of inspection and accreditation as carried on by the University follows the action of the Board of Trustees dated May 10, 1935: "There shall be a *Committee on Admissions from Secondary Schools* which shall be a committee of the University Senate and which shall be accounted and the second second second and the second second

"There shall be a Committee on Admissions from Secondary Schools which shall be a committee of the University Senate and which shall consist of not fewer than five nor more than seven members. No two members shall be from the same department and not more than two members shall be from any one college of the University. The High School Visitor and the Registrar shall be members of this committee. The High School Visitor shall be, *ex officio*, its secretary.

"The Committee on Admissions from Secondary Schools shall supervise the accrediting of high schools by the University of Illinois for admission to the University of Illinois. It shall be the duty of this committee to determine, with the approval of the University Senate, the conditions for the accrediting of high schools, to specify the criteria by which they shall be evaluated, to give advice and guidance to the secondary schools, and to encourage and promote the development of sound educational policies pertaining to secondary education in the State of Illinois. The High School Visitor, with the approval of the Committee on Admissions from Secondary Schools, shall publish information pertaining to the accrediting of high schools and such other material as may appear necessary to fulfill the functions of the Committee."

This matter of accreditation by University of Illinois staff members has been explored in the past few years, the studies having been carried on by the Senate Committee on Educational Policy, the office of the Provost, the College of Edu-cation, and the High School Visitor's Office. They indicate that the University of Illinois should discontinue formal inspections, devoting the talent and funds available to research and to field services and conferences. Along with other educational institutions in the State we are already engaged in an elaborate study of the secondary school curriculum and in programs of research and advice concerning the reorganization of the schools of Illinois. We plan to maintain such functions at a high professional level. We feel that it is valuable to all concerned to keep the high schools in close contact with the work and resources of the University. We do not feel, however, that accreditation is a necessary condi-

tion of such helpfulness; it may, in fact, operate to reduce effectiveness. As far back as 1944, the Chairman of the Senate Committee on Admissions from Secondary Schools pointed out certain weaknesses in the present arrangement:

A. Related functions are scattered and uncoordinated. B. The University controls unduly the high-school education of pupils who will not attend the University.

C. Inspection of high schools by the University does not necessarily lead to

better high schools and may lead to poorer ones. D. Inspection by the University overemphasizes secondary education and underemphasizes elementary and adult education.

E. The present system does not send to the University the kind of students who most need a University education.

F. The requirements of the University regarding the pattern of high-school subjects can not be defended.

G. School inspection and service to the schools (i.e., by the University of Illinois) can not be successfully combined. H. Service to the schools should be a function of the College of Education

and the University Extension Service, not of the High School Visitor's Office.

I. No other state university follows a plan similar to ours in dealing with the secondary schools.

J. Even if the present system were continued, the rules and controls governing the secondary schools should be simplified and made more relevant to the educational process.

Of course, these weaknesses are relative and they are balanced to some degree by special activities in the High School Visitor's Office. I should say that increasingly the Office has emphasized its responsibility in discussion and demonstration; it has set up some very effective conferences in various areas. Its chief value now is not in inspectional enterprises but in terms of professional leadership. In recommending a reversion of the full responsibility for inspection to the State Department of Public Instruction, we contemplate the retention and expansion of these professional services in the College of Education.

The University, of course, retains full control over its requirements for the admission of students.

I should point out that some of our educational friends are fearful that the withdrawal of the University from these inspection, policing, and accrediting services will have unhappy effects. However, joint conferences held recently be-tween the officers of the Illinois Secondary School Principals' Association and the officers of the University did not yield any explicit argument against the proposed transfer, but only the general feeling that in some fashion the work would

be affected by "politics." All concerned have expressed confidence in the present Superintendent of Public Instruction, but they may not feel that his office can continue to be as objective and fair-minded as the visitors going out from the University. However, we have no evidence of differences in the approach of the professional workers as between Springfield and Urbana; visitors from either office sometimes temper their recommendations, not with politics, but with expediency. It is evident that the original agreement called for a meeting of minds between the two groups with respect to methods of inspection, standards, reports, and decisions.

On May 1st the history of this enterprise and the arguments for and against the present plan were reviewed in my office. Following this meeting Mr. Vernon L. Nickell, Superintendent of Public Instruction, concurred in the proposal to dissolve the agreement, returning the High School Visitor's Office entirely to the Office of the Superintendent of Public Instruction. With respect to the staff members involved who have academic tenure, we shall make arrangements to continue their services in the University, unless they are offered positions on the staff of the Superintendent of Public Instruction and desire to transfer. Appropriate changes can be made now in the internal budget of the University while a permanent adjustment can be made in the budget of the new biennium. Accordingly, I recommend that the High School Visitor's Office in the University be abolished as of September I, 1948, and that the agreement of March 64 1002 he discribed

March 26, 1923, be dissolved.

President Stoddard and Mr. Nickell commented on this matter.

On motion of Mr. Williamson, these recommendations were adopted. Mr. Nickell asked to be recorded as "present and not voting."

ACADEMIC CALENDAR, 1948-1949

(2) At the meeting of the Board of Trustees on January 8, 1948 (Minutes, pages 966-68), I presented the University's calendar for the departments at Urbana-Champaign, Chicago Undergraduate Division, and the Galesburg Undergraduate Division for the academic year 1948-1949.

The University Senate has approved the following changes to provide more time between the first and second semesters, this being applicable only to the departments at Urbana-Champaign:

Present Date	Proposed Date	Item
Feb. 1, Tues.	Feb. 6, Sun.	Baccalaureate and Commencement Exercises.
Feb. 2, Wed Feb. 5, Sat. Feb. 7, Mon. May 25, Wed June 3, Fri.	Feb. 4, Fri.— Feb. 8, Tues. Feb. 9, Wed. May 26, Thurs.— June 4, Sat.	Registration of graduates and under- graduates. Instruction begins. Semester examinations.

On motion of Mr. Davis, these changes were approved.

SERVICES OF PROFESSOR H. C. M. CASE TO UNITED STATES SENATE

(3) As a matter of official record, I wish to report that Professor H. C. M. Case, Head of the Department of Agricultural Economics, has been given leave of absence without pay from April 16, 1948, and continuing until further notice, so that he may serve as consultant to the United States Senate Subcommittee on Agricultural Head States Senate Subcommittee on Appropriations for Agriculture. He was given a leave of absence without pay for similar service from May 12 to July 12, 1947.

Professor L. J. Norton has been designated as Acting Head of the Department to serve during Professor Case's absence.

On motion of Mr. McLaughlin, this report was received for record.

SERVICES OF DEAN JOHN B. YOUMANS TO THE DEPARTMENT OF THE ARMY

(4) The Department of the Army is sending a mission of experts to Europe to make a nutritional survey of the people in the Bizonal Areas and has requested the services of Dean John B. Youmans on this mission. This will require his absence from the University for a period of two to three weeks from about the tenth of May.

I have authorized a leave of absence with pay for Dean Youmans so that he may render this service to the United States Army.

On motion of Mr. Nickell, this report was received for record.

APPOINTMENT OF JOSEPH GERMANO TO ADVISORY COMMITTEE OF INSTITUTE OF LABOR AND INDUSTRIAL RELATIONS

(5) I recommend the appointment of Mr. Joseph Germano, East Chicago, Indiana, President of the Illinois State Industrial Union Council and Director of District 31 of the United Steelworkers of America, CIO, as a member of the advisory committee of the Institute of Labor and Industrial Relations. Mr. Germano will replace Mr. James Matson who has resigned.

On motion of Mr. McLaughlin, this appointment was made as recommended.

CHANGE IN STATUS OF DIRECTOR OF NURSES IN THE RESEARCH AND EDUCATIONAL HOSPITALS

(6) The Vice-President in charge of the Chicago Professional Colleges recommends that the position of Director of Nursing Service in the Research and Educational Hospitals, which is now a civil service classification, be removed from civil service and be designated as an academic-administrative position.

I concur.

Dr. Ivy commented on this matter.

On motion of Mr. Williamson, these recommendations were approved.

APPOINTMENTS TO THE 1948 SUMMER SESSION

(7) The Dean of the Summer Session has submitted a budget for the 1948 Summer Session (see Appendix, page 1124). The budget provides for an eight-week session at Urbana-Champaign,¹ at the Chicago and Galesburg Undergraduate Divisions, and at the College of Pharmacy. Salaries of present members of the faculty who are being recommended for appointments to the Summer Session staff are computed on the basis of two-ninths of the salary of the academic year for two months of summer service. This is in accordance with the terms of employment of the academic, administrative, research, and extension staffs authorized by the Board of Trustees on January 8, 1948 (Minutes, page 952). The budget proposed totals \$617,861 for Urbana-Champaign, \$92,039 for the Chicago Undergraduate Division, \$17,503 for the Galesburg Undergraduate Division, and \$2,139 for the College of Pharmacy.

I recommend that:

1. The appointments to the Summer Session staff be approved as submitted.

2. All appointments or contracts for service during the Summer Session include a provision permitting reduction in time and salary or cancellation of the contract in the event that enrollment in certain courses or sections thereof does not warrant continuation of the appointment on the basis originally recommended.

3. The President of the University be authorized to make such changes and adjustments, including additional appointments and acceptance of resignations, as are necessary in accordance with the needs of the University.

On motion of Mr. Nickell, these recommendations were approved, and authority was given as requested.

HARRY G. AND HARRIETTE A. WRIGHT SCHOLARSHIPS

(8) Under the will of the late Senator Harry G. Wright of De Kalb, and pursuant to an agreement entered into by the Board of Trustees on October 29, 1943, with the executor of Mrs. Harriette A. Wright's estate for settlement of litiga-

tion and a division of the properties involved, the University of Illinois has acquired four farms, totaling 952 acres, in De Kalb County. Senator Wright's will includes the following provision relating to his bequest:

will includes the following provision relating to his bequest: "Fourth: Subject to the foregoing I give, devise and bequeath all the rest, residue and remainder of my estate, of whatsoever kind or character, and where-soever situated, to the Board of Trustees of the University of Illinois at Urbana, Illinois, the same to become the absolute property of said University of Illinois, to be known as the Harry G. Wright and Harriette A. Wright Endowment, to be administered by the College of Agriculture of said University in so far as practicable in the judgment of the Board of Trustees of the University of Illinois. "It is my desire that the devise and bequest to the Board of Trustees of the University of Illinois.

University of Illinois herein made shall be administered and used for the purpose of promoting agricultural education and for founding scholarships, but neverthe-less the use made of the devise and bequest hereunder shall rest in the sole discretion and judgment of said Board of Trustees."

When Senator Wright conferred with University officials about his proposed bequest, he presented certain suggestions made by him and Mrs. Wright for using the income. While the University is the absolute owner of the farms without restriction, there is at least a moral obligation to consider the wishes and

A special committee consisting of Mr. G. P. Tuttle, Director of Admissions and Records, Associate Dean R. R. Hudelson of the College of Agriculture, and Associate Dean H. M. Gray of the Graduate College was appointed to set up a plan including the policy, priorities, and conditions governing the scholarships under this endowment. The Committee has submitted its report. The following regulations to govern awards of scholarships under the Harry G. Wright and Harriette A. Wright Endowment are based largely on this report:

I. These scholarships shall be available to both graduate and undergraduate students.

2. In cases of students making their original applications for these scholarships, other qualifications being equal, preference shall be given to those expressing a desire and an intention to prepare for work in agriculture or in fields closely related thereto.

3. Graduate scholarships shall be assigned by the Graduate College. Undergraduate scholarships shall be assigned by the Committee on Awards of Undergraduate Scholarships.

4. The funds available each year will be allocated to graduate and under-graduate scholarships by consultation and agreement between the Graduate Col-lege and the Committee on Awards of Undergraduate Scholarships.

5. Qualifications of applicants for graduate scholarships being equal, preference will be given to residents of Illinois. The value of graduate scholarships will be at the prevailing rate for Graduate College scholarships and fellowships, plus an amount sufficient to cover University fees.

6. Undergraduate scholarships shall be awarded only to residents of Illinois. Qualifications of candidates being equal, preference will be given to residents of De Kalb, Randolph, Lee, and Whiteside counties. The value of undergraduate scholarships shall be \$400 a year, plus an amount sufficient to cover University fees. I recommend approval of these regulations.

On motion of Mr. McLaughlin, these regulations were adopted as recommended.

DELEGATION OF SIGNATURES AT THE GALESBURG UNDERGRADUATE DIVISION

(9) During the first two years of operations at the Galesburg Undergraduate Division, it was advisable that the vouchers to be presented to the State Auditor of Public Accounts for payments of funds be routed through the Urbana Business Office. Now that the Galesburg office has been satisfactorily organized and adequate procedures installed to insure the handling of routine business according to University business practices, it is desirable that this procedure be changed to permit the Galesburg Business Office to certify vouchers directly to the State Auditor. To effect this change, the Comptroller requests adoption of the following resolution as an addendum to the resolution for the delegation of signatures approved by the Board on March 9, 1948 (Minutes, page 1042):

"Resolved that the President and Secretary of the Board of Trustees of the University of Illinois are authorized to delegate the signing of their names as President and Secretary respectively to vouchers to be presented to the State Auditor under the following conditions: "The President of the Board of Trustees is authorized to delegate to W. J.

"The President of the Board of Trustees is authorized to delegate to W. J. English and to B. W. Benedict in the Galesburg Division authority to sign his name as President of the Board of Trustees to vouchers against the State Auditor. The Secretary of the Board of Trustees is authorized to delegate to L. O. Kerwood and to Lois S. Herron in the Galesburg Division authority to sign his name as Secretary of the Board of Trustees to vouchers against the State Auditor.

"And, be it further resolved that the Auditor of Public Accounts is hereby authorized and directed to honor vouchers having facsimile signatures of the President and Secretary of the Board of Trustees of the University of Illinois if such facsimile signatures resemble the facsimile specimens duly certified to or filed with the Auditor of Public Accounts."

On motion of Mr. Williamson, this resolution was adopted as recommended.

APPROVAL OF ACTIONS OF THE BOARD OF DIRECTORS OF THE ATHLETIC ASSOCIATION

(10) The Board of Directors of the Athletic Association requests approval of the following actions:

1. An appropriation of \$9,000 for digging a well at the new golf course on the Kimmel Farm. The estimated distribution of this appropriation is as follows:

Test holes\$ 600
Pump
Drilling of well
Drilling of well
\$9 000

2. The award of a contract for the drilling of the well to Hayes-Sims, Champaign, at a cost of \$20 a foot. This company has drilled most of the University wells and those for the City of Champaign, is in a position to proceed immediately with the work, and can obtain the necessary strainers and casings.

immediately with the work, and can obtain the necessary strainers and casings. 3. The award of a contract to John D. Bolton Company, Evanston, for repairing the concrete treads in Memorial Stadium, an area of 15,000 square feet. The quoted price from this firm is one dollar and five cents a square foot on the lower deck and one dollar and twenty-five cents a square foot on the upper deck. Most of the work to be done is in the upper deck. The total estimated cost is \$18,500. This company has been recommended because its services are immediately available; similar work done by it in the past has withstood freezing and thawing; the company is recommended by Holabird and Root, architects for the Stadium; and because of the lack of other bids for this work. This firm is one of the few able to use the Gunnite process which is the only effective method of repair. Funds are available for this contract in the accumulated reserve for plant maintenance.

Early approving action on these matters was requested because the contractors have full programs of work and any delay in the award of the contracts might postpone the work for several months. In the case of the Stadium repairs, it was desirable to have at least a part of this work done before the Interscholastic Track and Field Meet on May 15-16. After consultation with the President of the Board of Trustees, I approved assignments of funds and authorized the award of the contracts. Confirmation of this is requested.

The Athletic Association has secured the following bids for the installation of three-inch cast iron pipe (previously purchased by the Association) as a part of an irrigation system for the practice gridiron east of Memorial Stadium:

Fabert Construction Co., Urbana	
W. L. Hall, Atwood	
G. L. Tarlton Contracting Co., St. Louis	5 740

and recommends the award of the contract to W. L. Hall, the lowest bidder. I concur in this recommendation.

On motion of Mr. Davis, these actions of the Athletic Association were approved and confirmed as recommended.

AUTHORITY TO DEMOLISH AND REMOVE BUILDINGS ON THE KIMMEL FARM

(11) On January 8, 1948 (Minutes, page 954), the Board of Trustees authorized the use of the Kimmel Farm for the construction of a golf course by the Athletic Association. As a part of this project, the Athletic Association requests authority to demolish or remove all existing buildings and fences on the Kimmel Farm and the authority to use all or any part for construction of new buildings on the proposed golf course. In the event all of the lumber so obtained is not needed, authority is requested to trade any of the unused portion for equipment to be used in the operation of the golf course.

The Comptroller has reviewed this proposal and recommends that the authority requested be granted.

I concur.

On motion of Mr. Nickell, this authority was granted as recommended.

DEMOLITION OF OLD BUILDINGS AT THE CHICAGO PROFESSIONAL CAMPUS

(12) The Board was advised on October 30, 1947 (Minutes, page 882), of the need for demolition of old buildings on property acquired by the University for expansion of the Chicago Professional Colleges. The Board authorized the employment of special counsel to aid in actions necessary.

Bids have been secured for wrecking buildings on the following properties: Group 1. Buildings at 825, 827, 829, 831, 837, 839, 907, 917-919 South Wood Street. All of these properties are ready for demolition. Group 2. Buildings at 913 and 815 South Wood Street; 1923 and 1743 West Polk Street. These properties will become available for demolition in the near

future.

The schedule of bids is as follows:

	Harvey Wrecking Company, Chicago	Loeb Wrecking Company, Chicago	Speedway Wrecking Company, Chicago	Star Wrecking Company, Chicago
Group I buildings	\$1 550	\$1 685	\$2 870	\$2 990
Group 2 buildings	1 900	3 450	<u>1 880</u>	2 790
Total	\$3 450	\$5 135	\$4 750	\$5 780

The Director of the Physical Plant Department and the Comptroller recommend acceptance of the bid of the Harvey Wrecking Company, the lowest bidder for the entire job, work in group two to proceed as the properties become available.

I concur in these recommendations and recommend a special appropriation of \$3,450 from the General Reserve Fund for this work.

On motion of Dr. Meyer, this contract was awarded and the appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson: no, none; absent, Mr. Green, Mr. Livingston, Dr. Luken.

AWARD OF CONTRACT FOR EMERGENCY LIGHTING SYSTEMS

(13) Bids were received for the installation of emergency lighting systems in the auditorium areas of the George Huff Gymnasium, the Auditorium, Lincoln Hall, and Smith Memorial Hall, in accordance with plans and specifications prepared by Graham, Anderson, Probst, and White, Architects, Chicago.

The Director of the Physical Plant Department and the Comptroller recommend the award of a contract to the Fedco Electric Contractors, Inc., of Danville, Illinois, the lowest bidder, on the basis of the lump sum bid of \$14,529.63. Funds are available.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute a contract with the Fedco Electric Contractors, Inc.

On motion of Mrs. Holt, this contract was awarded as recommended.

IMPROVEMENT OF PARKING AREA AT CORNER OF TAYLOR AND WOLCOTT STREETS, CHICAGO

(14) The northeast corner of Taylor and Wolcott Streets, Chicago, which is University property, is used as a parking lot. It has a cinder surface and, therefore, during the summer and spring the dust from this area is a nuisance to occupants in adjacent buildings. The Director of the Physical Plant Department recommends the resurfacing of this area with crushed stone and an asphalt topping which will eliminate the dust and also provide a better parking area for the use of University staff members. The following bids have been received on this resurfacing:

> Robert Anderson and Company, Chicago......\$9 275 Black Top Roads Company, Chicago...... 7 950

The Director of the Physical Plant Department and the Comptroller recom-mend the award of the contract to the Black Top Roads Company, the lower bidder for this work. Funds for this are available in the budget.

I concur.

On motion of Dr. Meyer, this contract was awarded as recommended.

SANITARY SEWER SERVICE FOR TEMPORARY HOUSING AREA

(15) Since early spring the sanitary sewer on First Street, Champaign, serving the temporary housing area, has been overloaded to the extent that it is backing

up in the temporary housing area, has been overloaded to the extent that it is backing up in the temporary housing units and in private property along First Street. It is the opinion of all concerned (including the City Engineer of Cham-paign, the City Commissioner, and the Urbana-Champaign Sanitary District Engineer) that the only practical solution is the construction of a relieving sewer from Gregory Drive and First Street to Third and Healey Streets, where a junction can be made with an existing 24-inch interceptor sewer of the Urbana-Champaign Sanitary District.

To expedite this needed improvement the University should construct the sewer, financing the entire cost, but with the approval of the City of Champaign and of the Urbana-Champaign Sanitary District.

The Physical Plant Department recommends that Wilson and Anderson, Champaign, engineers on the interceptor sewers for the Sanitary District (the University paid part of the cost of this improvement), be engaged to make a study of the project. Authority is requested to employ them at a cost of $7\frac{1}{2}$ per cent on all work up to \$50,000 and 7 per cent above that amount. A preliminary estimate of the total cost is \$60,000. Four per cent of this fee will cover the design stage up to taking bids.

If, after receiving bids, it is concluded that the University should carry out this project, further consideration will be given to the relationship between the University and the Sanitary District. Funds are available for the entire cost of this project, if undertaken, from

the State capital appropriation for temporary student housing facilities. The Legal Counsel believes that the University has a legal basis for such an expenditure, and particularly in view of the emergency aspects of the problem.

The Comptroller concurs in this recommendation.

I recommend (a) approval of the program in principle, subject to further consideration when engineers' estimates and bids are received, and necessary agreements with the Sanitary District are reached; and (b) authority to employ Wilson and Anderson as consulting engineers.

On motion of Mrs. Holt, this program was approved and authority granted under the conditions recommended.

AWARD OF CONTRACT FOR ENGINEERING SERVICES FOR ADDITIONS TO THE POWER PLANT AND THE UTILITIES DISTRIBUTION SYSTEM

(16) In cost studies of the 1949-1951 building program it is necessary to have estimates of the costs of additions to the Abbott Power Plant and the utilities distribution system.

The Director of the Physical Plant Department and the Comptroller recommend, and the Chairman of the Building Program Committee concurs, that Sargent and Lundy, Engineers, Chicago, be employed to make these estimates.

It is proposed to pay for the actual costs of such estimates plus 100 per cent of the salaries of engineers and draftsmen for indirect costs. In the event that this firm is employed to do the engineering work on the additions to the power plant and utilities distribution system, the University will receive a credit to reduce the indirect cost charge to 50 per cent. The estimated cost of this preliminary contract is \$250 for the power plant and \$1,250 for the distribution system. Funds are available.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute such a contract with Sargent and Lundy.

On motion of Mr. Davis, the execution of this contract was authorized as recommended.

AWARD OF CONTRACT FOR INSTALLATION OF AUTOMATIC FIRE ALARM SYSTEM IN ADMINISTRATION BUILDING

(17) Bids were taken on April 30 for the installation of an automatic fire alarm system in the Administration Building, a necessary protection for important records. Six firms were invited to bid but only the Gamewell Company, Newton Upper Falls, Massachusetts, did so, submitting a base bid of \$5,398.23. The Director of the Physical Plant Department and the Comptroller recom-

The Director of the Physical Plant Department and the Comptroller recommend that a contract be made with the Gamewell Company in accordance with the base bid plus \$50 for extension of the system into three vaults and one storage room. Funds are available.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. McKelvey, the execution of this contract was authorized as recommended.

CONTRACT FOR MOVING AND OVERHAULING AND INSTALLATION OF ADDITIONAL EQUIPMENT IN COLLEGE OF DENTISTRY LABORATORIES

(18) The following bids have been received for moving and overhauling three dental laboratories and the installation of eighteen additional dental units in the Dentistry, Medicine, and Pharmacy Building:

The Director of the Physical Plant Department and the Comptroller recommend award of the contract to the lower bidder, Fettes-Love and Sieben, Inc., in the amount of \$9,200. Funds are available.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the contract accordingly.

On motion of Mr. McLaughlin, the execution of this contract was authorized as recommended.

1948]

CONTRACT FOR AND INSTALLATION OF NEW FIRE ALARM SYSTEM-CHICAGO

(19) Bids were received in November, 1947, on the installation of a new fire alarm system in the Chicago Professional Colleges. The E. P. Allison Company of Chicago was the lowest bidder on two counts - a firm bid of \$32,108 and a proposal for a cost plus fixed fee form of contract with a fixed fee of \$5,028 and a guaranteed maximum of \$33,713. It was necessary to clear up a number of details so that the recommendation for the award of a contract could not be presented to the Board of Trustees until March 9, 1948 (Minutes, page 1046). The Board ap-proved the award of a contract to the E. P. Allison Company on the basis of the firm bid of \$32,108.

In the meantime, the E. P. Allison Company had informed the University that a new wage scale and increases in costs of materials which went into effect before the contract was awarded would affect their bid, increasing it by \$676.86. This was not reported by the Physical Plant Department at the time the recom-mendation for the award of the contract was presented on the theory that the increase could be accomplished through a change order. The E. P. Allison Company has stated that it will not accept the contract without an additional allowance of \$676.86 for increased costs, but will accept a contract on the basis of its alternate proposal, namely, a cost plus fixed fee form of contract with a guaranteed maximum of \$33,713.

The Legal Counsel has advised that the University can not revise the original award without rejecting all bids and taking new ones. He further advises that the alternate proposal for a cost plus fixed fee contract can be accepted because at the time of the original bidding it was also lower than any other bid received. Under this proposal 75 per cent of any saving below the guaranteed maximum cost would be retained by the University.

Because of the time required in securing new bids and the probability that they would be higher than the previous bids received, due to increase in labor and materials costs, the Physical Plant Department and the Comptroller recommend that the alternate bid of the E. P. Allison Company, Chicago, be accepted and a cost plus fixed fee contract under the terms specified be authorized.

On motion of Dr. Meyer, the execution of this contract was authorized as recommended.

ADDITIONS TO GENERAL CONTRACT FOR ELECTRICAL ENGINEERING BUILDING

(20) The Department of Electrical Engineering has requested the following additions to the contract with the John Felmley Company for general work on the Electrical Engineering Building: 1. To provide for additional installations of chalkboards, \$8,418.72. a. The enrollment in the department will exceed the capacity of the new building to provide adequately for instruction. The resulting overcrowding in the

classrooms will require chalkboard space wherever it can be made available. Many small spaces will have chalkboards where not originally planned.

b. Chalkboards were originally omitted in the four laboratory conference rooms, due to a misunderstanding by the architects.

c. It is desirable to add chalkboard space to one research room so that it can be used as a classroom, at least until the peak enrollment has been passed.

d. To make the two lecture-demonstration rooms more flexible, as much chalkboard space as possible has been added.

e. Chalkboard space in the student shop is also being added along one wall to improve the value of the shop.

2. Installation of wood block flooring in the machine and wood shops, \$2,033.48. The preliminary planning of the building included wood block flooring in the shops but it was not included in the final specifications. This type of flooring is desirable for the welfare of workmen who must stand all day and also as

The Director of the Physical Plant Department and the Comptroller recom-mend these additions. Funds are available in the State appropriation for the "Construction of a new Electrical Engineering Building."

I concur and request that the Comptroller and the Secretary of the Board be authorized to execute these changes.

On motion of Mr. Davis, these additions to contract were authorized as recommended.

ADDITION TO THE ELECTRICAL CONTRACT FOR THE UTILITIES DISTRIBUTION SYSTEM

(21) The Director of the Physical Plant Department and the Comptroller recommend an addition of \$1,500 to the contract with the A. S. Schulman Electric Company, Chicago, for the electrical work in the construction of the utilities distribution system. The original contract was approved by the Board of Trustees on January 25, 1947 (Minutes, page 228).

When plans and specifications were prepared for this work, it was the opinion of Sargent and Lundy, Engineers, Chicago, that the number and location of cable racks in existing manholes should be determined by inspection of the manholes and mutual agreement between representatives of the Physical Plant Department and the contractor awarded the work for installing new electrical cables. Hence, unit prices were requested in the original proposal for cable racks and supports to be installed in existing manholes. The addition to the contract now recommended is based on the unit price included in the original plan.

I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute this contract change.

On motion of Mr. McKelvey, the execution of this contract change was authorized as recommended.

ADDITION TO THE CONTRACT FOR DRILL FIELD SIDEWALKS

(22) On November 29, 1947 (Minutes, page 938), the Board of Trustees awarded a contract for sidewalks along the north, south, and west sides of the drill field to the Wascher Concrete and Insulation Company. It was not considered necessary to complete a sidewalk along the east side of the field. Experience has shown that such a walk, which will complete the square and will be an extension of the present concrete walk on the west side of Fourth Street from the Men's Residence Halls to Peabody Drive, is desirable. This walk will be of immediate service to occupants of the temporary housing in Stadium Terrace and will also serve other students going to and from recreation areas in the vicinity of the Stadium. A permanent improvement, the walk will also serve future dormitories west of Fourth Street.

The Director of the Physical Plant Department and the Comptroller recommend an addition of \$2,500 to the contract with the Wascher Concrete and Insulation Company to complete this walk.

I concur and request that the Comptroller and the Secretary of the Board be authorized to execute the amendment of the contract.

The cost may be charged to the State appropriation for the "Construction of temporary student housing, including all necessary costs and charges incident to the completion thereof."

On motion of Mr. Davis, the execution of this amendment to contract was authorized as recommended.

ADDITION TO THE CONTRACT WITH J. L. SIMMONS COMPANY, INC., FOR PARKING AREA CURBS AT TEMPORARY CAFETERIA BUILDING (23) The Director of the Physical Plant Department and the Comptroller recommend an increase of \$1,518.30 in the contract with J. L. Simmons Company, Inc., to provide all material, labor, and equipment necessary to install concrete curbs for parking areas around the Temporary Cafeteria on the south campus.

When this building was completed last fall it was not feasible to finish construction of the delivery and parking areas around it due to the season and weather conditions. To confine and control truck and passenger car movements within these areas it is necessary to enclose them with concrete curbing. I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute this amendment. Funds are available. 1108

On motion of Mrs. Holt, the execution of this amendment to contract was authorized as recommended.

At this point, Mr. Livingston took his place with the Board.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES (24) The Committee on Special Appropriations and Nonrecurring Expenditures recommends assignments from the General Reserve Fund for the following purposes:

I concur and recommend that these appropriations be made available until June 30, 1949.

On motion of Dr. Meyer, these appropriations were made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken.

PURCHASE OF WATER TREATMENT EQUIPMENT

(25) To provide additional water treatment equipment needed in the Abbott Power Plant, the Director of the Physical Plant Department and the Comptroller recommend the purchase of another Zeo-Karb unit from the Permutit Company, Chicago, at a price of \$19,573.

The purchase of this equipment is recommended by Professor Frederick G. Straub of the Department of Chemistry and by Sargent and Lundy, Engineers, Chicago.

The Permutit Company is the only manufacturer of this type of equipment. It is possible to use a hot process softener for silica removal and demineralization, but this would take too much room in the plant. The equipment on which the Permutit Company has quoted is compact and is largely for use in power plants. Tests have shown this equipment removes more silica than any other developed to date. The Permutit Company supplied the present units at the Abbott Power Plant and it is desirable that the additions be of the same type. Funds are available.

I concur and recommend that the Comptroller be authorized to purchase this equipment.

On motion of Mr. McLaughlin, this purchase was authorized as recommended.

INSURANCE ON GOVERNMENT PROPERTY AT GALESBURG UNDERGRADUATE DIVISION

(26) The lease with the United States War Assets Administration covering the Mayo General Hospital, used by the University for the Galesburg Undergraduate Division, requires fire, extended coverage (broad form), sprinkler leakage, vandalism, and malicious mischief insurance in amounts and values the Administration has prescribed. From the appraisal made by the Administration, the total insurable value of the realty and personalty, is set at \$4,054,387. By special stipulation of its Regional Director, the Administration interposes no objection to go per cent coinsurance, provided the amount of coverage be no less than \$3,650,000, plus added coverage for sprinkler leakage at 10 per cent coinsurance of \$221,680.

The Business Office has secured proposals from all companies suggested by the W.A.A., and from other companies acceptable to it and locally represented. These proposals have been submitted to the Finance Committee. The general policy of the Board of Trustees with regard to such insurance

on University property is that not more than 25 per cent of any risk may be placed with mutual companies in non-assessable policies, and the remainder with stock companies, all having satisfactory financial ratings.

The Finance Committee recommends that insurance be purchased as follows: twenty-five per cent from the Northwestern Mutual Fire Insurance Company of Seattle, Washington, through the Leland Smith Agency, and the remainder equally from eleven other agencies, including the General Insurance Company, through the Huff Insurance Agency, a mutual company with dividend estimated

through the rule function and a point of the rule of t

extent of \$7,000 in the current year's operating budget. To meet the total outlay required for the proposed insurance program will require an additional special appropriation of \$27,251.69.

On motion of Mr. Williamson, this insurance was awarded and the appropriation was made as recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. McLaughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson: no, none; absent, Mr. Green, Dr. Luken.

PURCHASES

(27) The University of Illinois Statutes provide that purchases shall be made on the basis of competitive prices wherever practicable, quality, suitability, and service considered. Purchases amounting to \$1,000 or more made from general funds or unitemized appropriations shall be submitted to the Board of Trustees or to the Executive Committee, unless, in the opinion of the President of the University, urgent necessity exists that requires immediate action, in which case the President shall act and report promptly to the Board.

On motion of Mr. Nickell, purchases were authorized as recommended (see Appendix, page 1119), and the action of the President of the University in authorizing emergency purchases was approved and confirmed.

THE COMPTROLLER'S REPORT OF CONTRACTS EXECUTED (28) The Comptroller's report of contracts executed, March 11 to April 30, 1948 (see Appendix, page 1123).

This report was received for record.

QUARTERLY REPORT OF THE COMPTROLLER

(29) The Comptroller presents his quarterly report to the Board as of March 31, 1948. Copies of this report have been sent to all members of the Board in advance of this meeting.

This report was received for record.

APPOINTMENT OF DR. BRYAN L. WADE AS PROFESSOR AND HEAD OF THE DEPARTMENT OF HORTICULTURE

(30) The Dean of the College of Agriculture recommends the appointment of Dr. Bryan L. Wade, now Director of the United States Regional Vegetable Breeding Laboratory, Charleston, South Carolina, as Professor and Head of the Department of Horticulture on indefinite tenure beginning September 1, 1948, at an annual salary of \$9,500. I recommend approval of this appointment.

On motion of Dr. Meyer, this appointment was made as recommended.

AWARD OF CERTIFICATES OF CERTIFIED PUBLIC ACCOUNTANT

(31) The Committee on Accountancy recommends that the certificate of Certified Public Accountant be awarded the following who have made applications therefor under Section 5 of the Accountancy Act of 1943 and who have submitted evidence that they are holders of valid and unrevoked certificates of certified public accountants obtained in other states by passing the regular written examinations. They have also met the other requirements specified in Section 5 of the Act.

On motion of Mr. Williamson, these certificates were awarded as recommended.

SUPPLEMENTARY FEDERAL FUNDS FOR AGRICULTURAL EXPERIMENT STATION

(32) Additional Federal funds have been allocated to the Agricultural Experiment Station for research to be carried on in cooperation with other agricultural experiment stations in this region. This is a continuation of the program of re-search in marketing, which was approved by the Board on November 29, 1947 (Minutes, page 931). The allocation to the University of Illinois for the fiscal year ending June 30, 1948, is \$22,400, and the following budget is submitted:

Salaries (appointments to be approved by the President)\$ 9 30	ю
Wages 4 00	ю
Expense and equipment	ю

The foregoing budget has been prepared by Dean and Director H. P. Rusk and has been reviewed by the Comptroller.

I recommend its approval subject to adjustment within the total.

On motion of Mr. Davis, these funds were accepted and allocated for the purposes recommended, by the following vote: Aye, Mr. Davis, Mr. Fornof, Mrs. Holt, Mr. Livingston, Mr. McKelvey, Mr. Mc-Laughlin, Dr. Meyer, Mr. Nickell, Mr. Williamson; no, none; absent, Mr. Green, Dr. Luken.

DECORATING SPRINGFIELD OFFICES OF DIVISION OF SERVICES FOR CRIPPLED CHILDREN

(33) The house in Springfield used as office quarters by the Division of Services for Crippled Children needs painting and redecorating.

The owner agrees to do extensive remodeling and also to redecorate areas of the property, but additional redecoration is needed in other areas.

The following bids on work to be done at University expense have been secured:

G. H. Schanbacher and Son, Springfield\$1	535	00
Howard Fryhoff, Springfield I	860	17
George J. Cappellin, Springfield I	795	00
C. E. Senger, Springfield 2	000	00

The Director of the Division and the Comptroller recommend award of a contract to the lowest bidder, G. H. Schanbacher and Son, at \$1,535. Funds are available.

I concur and recommend that the Comptroller and Secretary of the Board be authorized to execute the contract.

On motion of Mr. Nickell, this award was made and authority was given as recommended.

CONTRACT FOR EMERGENCY AND EXIT LIGHTING SYSTEMS IN CHICAGO PROFESSIONAL COLLEGES

(34) Bids have been secured on the installation of new emergency and exit lighting systems in the Research and Educational Hospitals, including the dining room and kitchen unit, orthopedic unit, and in the Institute for Juvenile Research. This is one of the improvements recommended by Holabird and Root in their survey of mechanical facilities in the Chicago Professional Colleges. It is required to comply with the Chicago Fire Department's recommendation.

The Director of the Physical Plant Department and the Comptroller recombidder, on the basis of their proposal for the various parts of the complete in-stallation, in the amount of \$21,055. Funds are available. I concur and recommend that the Comptroller and Secretary of the Board

be authorized to execute the contract.

On motion of Mr. McKelvey, this award was made and authority was granted as recommended.

APPLICATION OF CITY ORDINANCES TO THE UNIVERSITY OF ILLINOIS

(35) As reported to the Board on February 21, 1948 (Minutes, page 976), the City of Chicago instituted court proceedings against the University of Illinois to enforce the collection of a license fee for the maintenance of a fuel oil storage tank on the Navy Pier under an ordinance providing for licensing of fuel oil storage tanks.

The Legal Counsel reports that on May 7, 1948, he filed a motion to dismiss the action, setting up the various reasons why the ordinance should not be applicable to the University. On May 11 the Corporation Counsel of Chicago moved to dismiss the complaint against the University.

This ends the case without prejudice to the right of the city to institute another suit if its officials see fit to do so.

This report was received for record.

APPOINTMENT OF ACTING DIRECTOR OF UNIVERSITY BANDS

(36) Professor A. A. Harding will retire as Director of the Military Bands on September 1, 1948, after forty-three years of distinguished service. Several months ago a special committee was appointed by the President of the University to study the qualifications of potential candidates for the directorship of the University Bands and to submit recommendations. The committee was also directed to study the administrative relationship of the University Bands to other University agencies and to consider whether the Bands should be continued in an independent administrative status or should be placed under the administration

of the School of Music or the College of Fine and Applied Arts. The committee recommends that Mark H. Hindsley, Associate Professor of Music and Assistant Director of the Military Bands, be appointed Acting Di-rector for a period of two years from September I, 1948. The committee has expressed judgment that it is not necessary to make major

changes in the organization of the Bands but suggests that the title "Military Bands" be discontinued and that the Bands be called "The University of Illinois Bands." The Professor of Military Science and Tactics concurs in this change in title.

I recommend that:

I. Mr. Mark H. Hindsley be appointed Acting Director of the University of Illinois Bands and Associate Professor of Music for two years beginning Sep-2. The title of the Bands be changed to "The University of Illinois Bands"

and that the Bands continue to be organized as a separate administrative unit.

On motion of Mr. Livingston, this appointment was made and the title of the Bands was changed as recommended.

APPRECIATION OF DIRECTOR HARDING

On motion of Mr. Livingston, the Secretary was instructed to prepare an expression of the Board's appreciation of Director Harding's services, for presentation to Director Harding.

The Secretary of the Board prepared the following tribute which was presented to Director Harding on June 6.

The Board of Trustees of the University of Illinois, to Albert Austin Harding, Director of the University Bands and Professor of Music, Greetings: The Board of Trustees has observed with appreciation your eminent career

over forty-three years as leader of the bands, which has won for you distinction at home and abroad. We are mindful of your contributions to the education of thousands of students who have played in the bands, many of whom have gone on to successful careers as leaders and all of whom have profited by your influence. There is not room here to recite your many accomplishments, not the least of which is the pleasure of great audiences in the performance of the Illinois bands.

As you retire, we know it will not be into inactivity, and we wish you all health, success, and happiness in your work and in your life.

In witness whereof we have inscribed our names hereto and have caused our Secretary to affix his name and the Seal of the University, this sixth day of June, in the year of our Lord the nineteen hundred and forty-eighth, and of the University of Illinois the eighty-first.

DAIRY CATTLE BARNS

At this point, Dr. Meyer called attention to the fact that the Dairy Cattle Barns, on which construction was begun in 1924, were still incomplete, and that the work of the department, and its relations with the public, were thereby hindered.

On motion of Mr. Nickell, this matter was referred to the President of the University for consideration and recommendation.

EXECUTIVE SESSION

At this point, the Board went into executive session.

WOMEN'S RESIDENCE HALLS

Mr. T. L. Warner, Mr. Albert, and Mr. L. A. Lawson, Attorney, representing the Warner Construction Company, were introduced. On request of Mr. Warner, Mr. Lawson made a statement concerning the contract for the Women's Residence Halls, and the progress of construction.

On motion of Dr. Meyer, this matter was referred to the Committee on Buildings and Grounds, to prepare, with the Legal Counsel, a stipulation of facts and to report to the Board.

SECRETARY'S REPORTS

The Secretary presented the following lists for record, as printed in the Appendix.

Appointments made by the President of the University (page 1114).
 Graduate Fellows (page 1117).
 Allerton Scholarships (page 1118).
 Resignations, declinations, and cancellations (page 1118).

The Board adjourned.
