

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

May 18, 1951

The May meeting of the Board of Trustees of the University of Illinois was held in the Faculty-Alumni Lounge of the Illini Union Building, Urbana, Illinois, on Friday, May 18, 1951, beginning at 8:00 p.m. (C.D.S.T.).

The following members were present: President Livingston, Mr. Fornof, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Megran, Mr. Nickell, Mrs. Watkins.

Also present were President George D. Stoddard, Provost C. R. Griffith, Dean E. R. Serles of the College of Pharmacy, representing Vice-President A. C. Ivy, Mr. J. F. Wright, Director of Public Information, Professor Edward W. Cleary, Chairman of the Committee to Submit Nominations for the Deanship of the College of Commerce and Business Administration and to Assist in Planning the Reorganization of the College, Deans Henning Larsen and Willard B. Spalding of the University Council Executive Committee, Mr. Lloyd Morey, Comptroller, Mr. C. W. Weldon, Treasurer, and Mr. A. J. Janata, Secretary of the Board.

MINUTES APPROVED

The Secretary presented the minutes of the meetings of March 12-13, 1951, press proof copies of which had been sent to all members of the Board in advance.

On motion of Mr. Nickell, the minutes were approved as printed on pages 599 to 647, inclusive.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board considered the following recommendations and reports presented by President Stoddard.

APPOINTMENTS TO THE 1951 SUMMER SESSION STAFF

(1) I submit the budget for the 1951 Summer Session. It provides for an eight weeks' session at Urbana-Champaign and at the Chicago Undergraduate Division, and for a small amount of instruction at the Chicago Professional Colleges.

Salaries of all members of the faculty who are recommended for appointments to the Summer Session staff are computed on the basis of two-ninths of the salary of the academic year for two months of summer service in accordance with the terms of employment of the academic staff authorized by the Board of Trustees.

The budget totals \$515,000 for Urbana-Champaign, including a reserve of approximately \$15,000 to be assigned by the Dean of the Summer Session in terms of enrollment demands, \$90,189 for the Chicago Undergraduate Division, and \$1,128 for the Chicago Professional Colleges.

I recommend that the appointments to the Summer Session staff and the allocation for unassigned salaries be approved as submitted and that the President of the University be authorized to make such changes and adjustments, including additional appointments and acceptance of resignations, as are necessary in accordance with the needs of the University.

On motion of Mr. Megran, these recommendations and appointments as listed below were approved by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Hickman, Mr. Stevenson.

Summary

Urbana-Champaign.....	\$515 000
Chicago Undergraduate Division.....	90 189
Chicago Professional Colleges.....	1 128
<i>Total, Summer Session.....</i>	<i>\$606 317</i>

APPOINTMENTS TO THE FACULTY

(2) The following new appointments to the faculty of the rank of Assistant Professor and above, and involving tenure, have been approved since the previous meeting of the Board of Trustees.

1. ROLAND J. ARTIGUES, Associate Professor, Division of Social Welfare Administration, beginning September 1, 1951, at an annual salary of \$6,000 (B).

2. CHARLES K. BRIGHTBILL, Professor of Physical Education, beginning September 1, 1951, at an annual salary of \$10,000 (A).

3. RUTH ISABEL COOPER, Assistant Professor, Department of Home Economics, beginning September 1, 1951, at an annual salary of \$4,500 (D).

4. GEORGE GEE JACKSON, Assistant Professor, Department of Preventive Medicine, College of Medicine, beginning July 1, 1951, at an annual salary of \$6,500 (DY).

5. RICHARD C. WILCOCK, Assistant Professor, Institute of Labor and Industrial Relations, beginning June 15, 1951, at an annual salary of \$4,900 (DY).

On motion of Mr. Herrick, these appointments were confirmed.

**APPOINTMENT OF DR. HARRY F. DOWLING AS PROFESSOR
AND HEAD OF THE DEPARTMENT OF MEDICINE**

(3) The Dean of the College of Medicine and the Vice-President in charge of the Chicago Professional Colleges recommend the appointment of Dr. Harry F. Dowling, now Professor and Head of the Department of Preventive Medicine, as Professor and Head of the Department of Medicine on indefinite tenure beginning September 1, 1951, at an annual salary of \$15,000 (AY), to succeed Dr. Robert W. Keeton who will retire from active service at the end of the current academic year. I concur.

On motion of Mr. Nickell, this appointment was approved as recommended.

**CANCELLATION OF LEAVE OF ABSENCE
GRANTED K. B. HENDERSON**

(4) On November 24, 1950, the Board of Trustees granted Associate Professor K. B. Henderson of the College of Education leave of absence for a period of two months during the current academic year and the loan of his services to the Department of State, the time to be arranged. Due to the Korean situation the State Department has been unable to use Professor Henderson's services as originally planned, and to clear the record I am requesting that the leave previously granted be cancelled.

¹ Overtime basis.

On motion of Mr. Megran, this leave was cancelled as recommended.

CHANGE IN WORK SCHEDULE OF AGRICULTURAL EMPLOYEES

(5) The Dean of the College of Agriculture and the Director of Nonacademic Personnel recommend a reduction in the present forty-four basic work week to a forty-hour work week, effective July 1, 1951, for the agricultural employees classified as Fieldman, Agricultural Gardener, Herdsman, Poultryman, Creameryman, Cold Storage Operator, and Farm Laborer.

There has been a disparity between the wages and working hours of agricultural employees and those doing other types of campus labor. The wages of agricultural employees have been adjusted, and the change in the work week will now bring their wages and working conditions in line with other laborers.

I recommend approval.

On motion of Mrs. Holt, this change was approved by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Hickman, Mr. Stevenson.

INCREASE IN ILLINI UNION BUILDING SERVICE CHARGE

(6) All students at Urbana-Champaign pay a service charge of \$5.00 per semester and \$2.50 per summer session for the use of the Illini Union Building. This charge was established by the Board of Trustees in 1940—as a fundamental requirement in financing of the Illini Union Building—to provide for the operation and maintenance of the nonrevenue producing areas of the building and for amortization of the loan which was secured to construct the building.

The service charge was based on an enrollment of 10,500 students during the two semesters of the regular academic year and an estimated annual operating expense of approximately \$125,000, excluding the revenue producing areas which pay all direct costs and their proportionate share of indirect costs. The building service charge was established more than ten years ago. Since then, expenses of operation, maintenance, and services have increased more than the increase in income provided by growth in enrollment.

The Director of the Building and the Committee on Fees and Scholarships recommend an increase in the Illini Union Building service charge to \$7.00 per semester and \$3.50 per summer session.

I concur.

On motion of Mr. Johnston, these service charge increases were approved.

RELEASE OF FUNDS FOR BUILDINGS AND OTHER CAPITAL IMPROVEMENTS

(7) The Governor has approved the following releases of funds from appropriations made to the University of Illinois for 1949-1951 for buildings and other capital improvements.

Release No. 65

"For Permanent Improvements at Urbana-Champaign—Construction of extensions to the Utility Distribution Systems".....\$ 27 350
This is a final release from an appropriation of \$375,000. The Governor has previously released (Releases Nos. 12, 37, 39, 41, 52, and 57) \$347,650 from this appropriation. The funds now released are for additional projects under the Utility Distribution Systems appropriation.

Release No. 66

"Contingencies to cover expenditures for purposes for which the amount appropriated in any item above enumerated is, or becomes insufficient" 20 000
This is a final release from an appropriation of \$250,000. The Governor has previously released (Releases Nos. 33, 55, 62, and 63) \$230,000 from this appropriation. The funds now released are to sup-

plement the appropriation for construction of extensions to the Utility Distribution Systems.

Releases Nos. 67, 68, and 69

"Contingencies to cover expenditures for purposes for which the amount appropriated in any item above enumerated is, or becomes insufficient".....	190 000
67. Construction of addition to present hospital.....	\$122 000
68. Land—acquisition of land for the extension of the campus	20 000
69. Equipment for buildings at Urbana-Champaign and Chicago	48 000

These are final releases from an appropriation of \$550,000 for contingencies.

I recommend that these funds be appropriated by the Board for the purposes indicated.

On motion of Mrs. Watkins, these funds were appropriated, as recommended, by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Hickman, Mr. Stevenson.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(8) The Committee on Nonrecurring Appropriations recommends assignments of funds as follows:

1. Research facilities in proposed sewage disposal plant at the University of Illinois Airport for the Department of Civil Engineering.....	\$5 825
2. Remodeling in Talbot Laboratory for the Department of Theoretical and Applied Mechanics.....	2 000
3. Installation of liquid nitrogen plant, additional funds.....	5 900
4. Improvements in Alumni Records.....	3 000
5. Calculating machines for the Department of Public Health, College of Medicine, this assignment to be made from the Chicago Professional Colleges' nonrecurring funds.....	3 750

I recommend that these appropriations be made from the General Reserve Fund, except as indicated in the last item.

On motion of Mr. Megran, these appropriations were made, as recommended, by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Hickman, Mr. Stevenson.

APPROPRIATION FROM AGRICULTURAL RECEIPTS

(9) On February 15, 1951, the Board of Trustees made an appropriation of \$50,000 to the College of Agriculture for remodeling and equipment, of which amount \$5,000 was allocated for the construction of a house for an employee at the Dixon Springs Experiment Station in southern Illinois.

The Chairman of the Dixon Springs Experiment Station, the Dean of the College of Agriculture, and the Comptroller recommend a supplementary appropriation of \$3,500 from excess receipts over estimated income of the Dixon Springs Experiment Station for this project, and a supplementary appropriation of \$4,000 for current operations.

I recommend an appropriation of \$7,500 from Unappropriated Agricultural Income of the Dixon Springs Experiment Station for these purposes.

On motion of Mrs. Holt, this appropriation was made, as recommended, by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Hickman, Mr. Stevenson.

APPROPRIATION FOR DEPARTMENT OF HORTICULTURE

(10) The Dean of the College of Agriculture and the Comptroller recommend that an appropriation of \$1,645 be made from accumulated receipts in the Department of Horticulture for remodeling in the Horticulture Field Laboratory.

These funds are available in surplus receipts of the Department.

I concur.

On motion of Mr. Grange, this appropriation was made, as recommended, by the following vote: Aye, Mr. Fornof, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Hickman, Mr. Stevenson.

**CONTRACT FOR RESURFACING PARKING LOT AT POLK STREET
AND HERMITAGE AVENUE, CHICAGO**

(11) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$1,903.20 to Blacktop Roads Company, Chicago, the lowest bidder, for resurfacing with asphalt the parking lot at Polk Street and Hermitage Avenue to provide a permanent parking lot for the faculty at the Chicago Professional Colleges. This type of surfacing is more permanent than cinders or crushed rock, eliminates dust, and costs less than a concrete pavement.

Funds are available in the Physical Plant Department budget for this work.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Johnston, this contract was awarded as recommended.

**CONTRACT FOR TUCK POINTING OF APARTMENT BUILDING
AT 829-833 SOUTH MARSHFIELD AVENUE, CHICAGO**

(12) The Director of the Physical Plant and the Comptroller recommend award of a contract for \$1,740 to the Lew Worthem Building Maintenance Company, Chicago, for tuck pointing the apartment building at 829-833 South Marshfield Avenue, Chicago, to prevent further deterioration of exterior walls and to correct moisture conditions inside of the walls. The property is being conveyed to the University by the Medical Center Commission. The building is to be remodeled and used for housing.

Funds will be available and have been budgeted for this remodeling in the construction account to be set up from the proceeds of sale of revenue bonds to finance the Chicago housing projects.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was awarded as recommended.

**ADDITION TO CONTRACT FOR KITCHEN EQUIPMENT FOR ADDITION
TO RESEARCH AND EDUCATIONAL HOSPITALS**

(13) The Director of the Physical Plant and the Comptroller recommend an addition of \$2,023.80 to the contract with the Stearnes Company for kitchen equipment for the addition to the Research and Educational Hospitals for improvement of operation and maintenance of departmental areas, changes necessary in certain areas to correct oversights in original planning, better supervision of employees, and compliance with Board of Health regulations.

This has been approved by the Vice-President in charge of the Chicago Professional Colleges. Funds are available in the state appropriation for the construction of this building.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mrs. Holt, authority was given as recommended.

**ADDITION TO CONTRACT FOR EXTENSION OF UTILITIES
DISTRIBUTION SYSTEM AT THE CHICAGO
PROFESSIONAL COLLEGES**

(14) The Board of Trustees has authorized Stone and Webster Engineering Corporation, builder of the Medical Center Steam Company steam plant, to construct tunnels and extensions of steam lines from the plant to existing buildings, including the necessary connections and changes within buildings, at an estimated cost of \$73,808, to be paid for from funds available in a state appropriation for utilities extensions and remodeling at the Chicago Professional Colleges.

Stone and Webster have encountered unforeseen difficulties on University property in the relocation of certain sewers and other utilities. The original estimate of the cost of the work was based on drawings turned over to the University by the Department of Public Welfare which were the only drawings in existence showing locations of sewers and utility lines. In proceeding with the work, Stone and Webster found that the sewers and utilities were not located as shown in the drawings.

The Director of the Physical Plant and the Comptroller recommend that an additional payment of \$13,000 to Stone and Webster Engineering Corporation be authorized for the extra work required. The contract with this corporation is not for a fixed price but is on a cost plus fee basis, the same as the contract for the construction of the steam plant and is subject to the same accounting principles.

Funds are available in the state appropriation for "Construction of Utility Distribution System and remodeling of existing buildings."

I concur and recommend that the Comptroller be authorized to execute the necessary change order.

On motion of Mr. Johnston, authority was given as recommended.

ADDITION TO CONTRACT FOR EXTENSION OF GOODWIN AVENUE

(15) The University has a contract with the General Paving Company for the construction of an extension of Goodwin Avenue from Gregory Drive south to Pennsylvania Avenue. Storm drainage conditions at the intersection of Goodwin and Pennsylvania Avenues are unsatisfactory because of a heavily overloaded sewer extending east along Pennsylvania Avenue. It is desirable to divert drainage from this area to a new sewer on Peabody Drive about three hundred feet north.

The Director of the Physical Plant and the Comptroller recommend an increase of \$3,900 in the contract with the General Paving Company for the construction of a twelve-inch sewer from the intersection of Goodwin Avenue and Pennsylvania Avenue along the west side of Goodwin Avenue to the new sewer. The work can be economically done by the General Paving Company since it is now constructing sewers and pavements in that area. The Company's estimate has been checked by the Physical Plant Department and it is considered satisfactory.

Funds are available in the state appropriation for "Construction of extensions to the Utility Distribution Systems."

I recommend that the Comptroller be authorized to execute this addition to the contract.

On motion of Mrs. Watkins, authority was given as recommended.

AGREEMENT WITH TEXAS OIL COMPANY

(16) The University of Illinois has title to land deeded to it in Saline County, described as the "South fifteen (15) acres of the Northeast quarter of the Northwest quarter (NE $\frac{1}{4}$ of NW $\frac{1}{4}$) of Section twenty-two (22), Township eight (8) South, Range six (6) East, Saline County, Illinois," for use as an experimental field. In case the University ceases to use this property for experimental purposes the title reverts to the school district in that area.

The Texas Oil Company which has oil and gas leases on all surrounding lands has requested the University to execute a nondevelopment agreement for their mutual protection. The Company proposes to pay the University \$250 plus an annual rental of \$15 on condition that the University will not execute any oil or gas leases on the experimental field and will not allow any drilling for oil or gas. The Company further agrees to include in the agreement a clause which will

protect the University's experimental work from oil developments on all areas surrounding the field.

The agreement will be in effect for two years and as long thereafter as oil or gas or either is produced by the Texas Oil Company on any part of the surrounding property.

The Director of the Agricultural Experiment Station and the Comptroller recommend execution of this agreement.

I concur.

On motion of Mr. Megran, this agreement was authorized.

ESTATE OF ALICE V. B. CLARK

(17) On January 13, 1949, a report was made to the Board of Trustees of certain provisions of the will of Mrs. Alice V. B. Clark, widow of the late Dean Thomas Arkle Clark. The Comptroller reports there has now been received the final report of the executor of her estate, and the payment of \$41,387.90 as the first and final distribution. This will be carried in two funds:

Alice V. B. Clark Endowment. The interest on this fund of \$5,000 is to be applied toward the maintenance of the equipment and the library of the Thomas Arkle Clark Recreation Room of the McKinley Hospital.

Alice V. B. Clark Loan Fund. The principal of this fund of \$36,387.90 is to be loaned to undergraduate students, and the interest accruing on such loans is to be used for the equipment and maintenance of the McKinley Hospital.

Since there is at present no demand for loan funds under the terms specified in the will, such funds will be invested in United States Government Bonds, and the interest will be used as stipulated in the will.

The University has agreed to assume and pay from the above funds, any additional income taxes, inheritance taxes, estate taxes, or personal property taxes which may be assessed against the estate. Such payments, if necessary, will be charged against the principal of the loan fund.

There was also received from the executor an instrument transferring to the University all rights to have and receive all refunds on account of income tax, or other taxes heretofore paid and which are refundable to the estate of Alice V. B. Clark, deceased, and all right, title, and interest in and to a certain royalty agreement between Thomas Arkle Clark, deceased, and the George Banta Publishing Company, which was an asset of the estate.

This report was received for record.

BEQUEST OF BENJAMIN F. HUNTER

(18) It is necessary that the University enter its formal appearance in the Boone County, Indiana, Circuit Court with respect to the estate of Benjamin F. Hunter. As previously reported to the Board, the law firms of Monroe and McGaughey, Decatur, and Parr, Parr, and Parr, Lebanon, Indiana, have been retained to represent the Illinois and the Indiana executors of the Hunter estate.

I recommend that these attorneys, along with Mr. Ralph F. Lesemann, Legal Counsel-elect, be authorized to enter a special appearance of the Board of Trustees of the University of Illinois in this matter.

On motion of Mr. Herrick, authority was given as recommended.

RELEASE OF INVENTION OF COMPUTER DEVICE

(19) Dr. G. H. Fett, Professor of Electrical Engineering, and Mr. George Chafaris, a graduate student in the Department of Electrical Engineering, report the invention of an electronic device which may have some utility in connection with automatic control systems and in certain types of computers. In the judgment of the University Research Board the invention is so specialized and so unlikely to become an article of mass production that the University would not be justified in expending money on securing a patent and on development work. Accordingly, the Research Board recommends that the invention be released to the discoverers.

I concur.

On motion of Mr. Johnston, this patent was released as recommended.

PATENT FOR IMPROVEMENT IN INDUCTION ACCELERATORS

(20) The Secretary has received United States Letters Patent No. 2,545,958 for a new and useful improvement in "Induction Accelerators," issued by the Commissioner of Patents to the Board of Trustees of the University of Illinois. The patent has been granted on application of Professor Donald W. Kerst, the inventor, who assigned it to the University.

The invention relates to an induction accelerator, and more particularly to an improved arrangement for causing the accelerated charged particles, as electrons, to be ejected from the induction accelerator in a usable beam.

The title of the patent, "Induction Accelerators," is broad terminology as the specific patent granted has to do with a device known as a "peeler" which is used in the Betatron for removal of free electron beams. It has been used experimentally in nuclear physics and can also be used in medical therapy.

This report was received for record.

PURCHASES

(21) The Director of Purchases has proposed and the Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid.

I concur.

<i>Item</i>	<i>Department</i>	<i>Vendor</i>	<i>Cost</i>
25,000 copies Illinois Farm Record Book, Part I, to be printed and bound	Agricultural Economics	Howard Printing Co., Peoria	\$2 985 00 f.o.b. Urbana
One car (approximately 20 tons) newsprint paper for the Alumni News	Alumni Association	Daley Papers, Chicago	4 000 00 (approximate)
One Hereford (polled) bull "AR Choice Domino 7th 5638271"	Dixon Springs Experiment Station	Illinois Polled Hereford Association, LaHarpe	1 075 00

This report was received for record.

¹ Deduct.

QUARTERLY REPORT OF THE COMPTROLLER

(23) The Comptroller presents his quarterly report to the Board as of March 31, 1951.

This report was received for record.

REGULATIONS GOVERNING PLYM FELLOWSHIP IN ARCHITECTURE AND ARCHITECTURAL ENGINEERING

(24) The University has an endowment of fellowships in architecture and architectural engineering established many years ago by the late Francis J. Plym of the Class of 1897. They are awarded to graduates of the University's Department of Architecture in the curricula in architecture and architectural engineering for study in Europe.

The plan formerly provided for one fellowship, with a stipend of \$1,200, in architecture and one scholarship, with a stipend of \$700, in architectural engineering, each awarded annually on the basis of a design competition. The fellowship is for a year's study and the scholarship was for six months' study in Europe. Several years after the endowment was established, Mr. Plym added to it to increase the scholarship in architectural engineering to the status of a fellowship, with a stipend of \$1,200, for a year's study in Europe.

The Department of Architecture recommends the following changes in the conditions of these awards:

(a) Increase of the stipend of each of the two annual awards from \$1,200 to approximately \$1,700; it may be less in some years, depending upon the rate of income of the endowment.

(b) Reduction in the required duration of study in Europe from one year to six months.

(c) Elimination of the design competition method of selection of fellows and its replacement with a plan of selection based upon academic records of candidates and evaluation of their professional development and promise of future competence as evidenced by exhibits of specific work done. The evaluation would be made by the Committee of the Department which now administers the awards.

I concur in these recommendations.

On motion of Mr. Fornof, these recommendations were approved.

CONTRACT FOR WATER SOFTENER INSTALLATIONS

(25) The Director of the Physical Plant and the Comptroller recommend the award of a contract for \$4,947 to the Reliable Plumbing and Heating Company, Champaign, the lowest bidder, for replacing the water softener installation at the President's House with the equipment now installed in the McKinley Hospital and replacing softener equipment in the Hospital with a new installation. The equipment at the President's House needs to be replaced and these changes will improve the water softening facilities in both locations.

Funds are available in the Physical Plant Department budget.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Megran, this contract was awarded as recommended.

ADDITION TO CONTRACT FOR INSTALLATION OF LABORATORY EQUIPMENT IN EAST CHEMISTRY BUILDING

(26) The Director of the Physical Plant and the Comptroller recommend an increase of \$3,253.41 in the contract with the Carson-Payson Company, Danville, for the construction and installation of laboratory equipment in the East Chemistry Building. This is to provide additional cold diffusers of larger capacity and is to install a new compressor with the necessary controls because the refrigeration equipment in two of the cold rooms does not maintain the desired constant temperature.

Funds are available in the state appropriation for "Acquisition and installation of Chemistry Building equipment."

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mrs. Watkins, authority was given as recommended.

**ADDITION TO CONTRACT FOR VENTILATION AND
AIR CONDITIONING IN THE ANIMAL
SCIENCES LABORATORY**

(27) The Director of the Physical Plant and the Comptroller recommend an increase of \$3,107 in the contract with the Bloomer Heating and Ventilation Company, Chicago, for ventilation and air-conditioning installations in the construction of the Animal Sciences Laboratory. The plans for the arrangement of the cooling tower and two evaporative condensers in the penthouse provide for a space inclosed by partitions isolating it from the rest of the penthouse. Louvers in the exterior wall provide for air supply but direct connections from the equipment to the louvers is not provided. This arrangement would expose the entire room to cold air in the winter time and in extremely cold weather water lines and equipment would be in danger. This change in the contract will provide for direct connections between equipment and louvers and will prevent cold air from entering the room.

Funds are available in the state appropriation for "Construction of Animal Sciences Laboratory."

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mr. Herrick, authority was given as recommended.

**ADDITION TO GENERAL CONTRACT FOR
VETERINARY MEDICINE BUILDING**

(28) The Director of the Physical Plant and the Comptroller recommend an increase of \$1,840 in the contract with the John Felmley Company, Bloomington, for the general work in the construction of the Veterinary Medicine Building to provide for observation windows in the large autopsy room in the Annex so that visitors may observe autopsy work from the corridors around the room. This change is requested by the Dean of the College of Veterinary Medicine.

Funds are available in the state appropriation for "Construction of Veterinary Science unit."

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mr. Grange, authority was given as recommended.

INCOME FROM FEES FOR CIVIL ENGINEERING SUMMER CAMP

(29) The University has a summer camp (Camp Rabideau in northern Minnesota) for surveying instruction for students in civil engineering. Students pay a fee of \$20 if residents of Illinois, or \$40 if nonresidents of Illinois, as a part of the cost of operating this camp. A revolving fund was established for operating expenses, other than salaries, to which \$10 of the student fee has been credited each year.

This amount is inadequate and additional appropriations have been made to the Department of Civil Engineering for operating expenditures. The revolving account involves extra bookkeeping and has proved of no particular advantage. The Head of the Department of Civil Engineering, the Dean of the College of Engineering, and the Comptroller recommend that the revolving fund be discontinued effective with the 1951 camp session and that present fees collected go into general University income. Provision for the operating expenses of the camp has already been made in the summer session budget.

The food service will continue to be operated on a self-supporting basis.

I concur in this recommendation.

On motion of Mr. Johnston, this recommendation was approved.

**EXTENSION OF CONTRACT FOR HOSPITAL-MEDICAL-SURGICAL
INSURANCE**

Mr. Fornof, for the Finance Committee, presented the following:

The University has a contract with the Continental Casualty Company, Chicago, for hospital-medical-surgical insurance for students and staff for the period 1949-1951. This insurance covers all students at Urbana-Champaign and at the

Chicago Undergraduate Division, and they pay a fee of \$5.00 per semester for such protection. It is optional for members of the staff. The present contract will expire in September, 1951.

The benefits paid by this Company under the student program during 1949-1950 were 88 per cent of the premiums collected. The benefits paid under the staff program equalled the premiums collected in 1949-1950, and for the first six months of 1950-1951 were 98 per cent of the premiums collected.

In view of these high loss ratios, it is unlikely that any lower premium rates will be secured by advertising at this time for new bids; on the contrary, if bids are invited the recent loss experience may result in higher rates.

The service given by Continental Casualty Company has been very good and it is willing to continue writing this insurance for an additional two-year period under the present contract.

The Finance Committee of the Board of Trustees recommends continuance of the contract with the Continental Casualty Company for the biennium of 1951-1953.

On motion of Mr. Fornof, the renewal of this contract was authorized.

CONTRACTS FOR FIRE AND EXTENDED COVERAGE INSURANCE ON CONTENTS OF THE ILLINI UNION BOOKSTORE, CHAMPAIGN

Mr. Fornof, for the Finance Committee, also presented the following:

The University has contracts with the Glens Falls Fire Insurance Company, J. W. Montgomery, Urbana, representative, and the Liberty Mutual Insurance Company, Oren Lane, Peoria, representative, covering the contents of the Illini Union Bookstore. The insurance is in the provisional amount of \$200,000 subject to monthly reporting of inventory values. The contracts were based on bids received and awarded to lowest bidders for one year, the University reserving the right to renew with the same companies for an additional year. In accordance with the policy of the Board of dividing insurance between stock and mutual companies, 75 per cent of the coverage is provided by the Glens Falls Fire Insurance Company and 25 per cent by the Liberty Mutual Insurance Company.

There has been no revision in insurance rates during the past year applicable to this risk, and it is unlikely that competitive bids taken at this time would result in any lower premium for the coming year which will be \$2,001. The Finance Committee of the Board, therefore, recommends that this insurance be renewed with the present companies for an additional year.

On motion of Mr. Fornof, the renewal of this insurance, as recommended, was authorized.

STATE BOARD OF HIGHER EDUCATION

At this point, Mr. Herrick asked that consideration be given by the Board to Senate Bill 620 introduced in the Sixty-seventh General Assembly of Illinois on May 17, 1951, which would create a State Board of Higher Education, a board of nine members to be appointed by the Governor, to succeed to all of the rights, powers, and duties now vested by law in the Board of Trustees of the University of Illinois, in the Teachers' College Board, and in the Board of Trustees of the Southern Illinois University.

Statements were made by Messrs. Herrick, Nickell, Fornof, Megran, and Livingston expressing opposition to such legislation on the grounds that it is contrary to the best interests of the state and of the University.

Mr. Nickell stated that in his observation appointed boards of education at all levels lack the independence necessary to discharging their responsibilities effectively and in the best interests of the public, whereas elected boards have better records of service in such respects. Other Trustees spoke along the same lines.

Mr. Livingston called attention to the record of the Board of Trustees of the University of Illinois which has been an elected board of state officials since 1889 and whose history in those sixty-two years shows freedom from domination by the executive branch of state government.

Mr. Megran stated that the objections to Senate Bill 620 which are being voiced at this meeting are based solely on considerations of public policy, and he expressed the hope that there would be no misinterpretation by the public that the Trustees were moved by the effect such legislation would have on their offices.

On President Livingston's request, President Stoddard commented on Senate Bill 620 as a professional worker in the field of higher education. He read excerpts from Part Two of his "Second Memorandum on the Russell Report," submitted to the Board of Trustees on March 13, 1951,¹ in which he discussed four proposals for reorganizing the administration of public higher education in Illinois. He expressed the opinion that while the plan proposed in Senate Bill 620 is preferable to Alternative IV of the Russell Report,² it is less desirable for the University of Illinois than either Proposal II or Proposal IV in his Memorandum.

Comptroller Morey stated that in his observation, based upon thirty-five years of experience as Comptroller of the University and of the Board of Trustees, the record of this Board in being directly responsible to the people and the General Assembly is one of distinguished public service with complete freedom from any external domination and that it is conspicuously impressive in this respect as compared with the records of appointed administrative boards in various areas of the country.

LEGISLATION ENLARGING POWERS OF STATE AUDITOR OF PUBLIC ACCOUNTS

President Livingston brought up for discussion House Bill 467 now before the Sixty-seventh General Assembly of Illinois which would give the State Auditor of Public Accounts very broad powers over all state agencies and elected state officials, including the Board of Trustees of the University of Illinois, with respect to expenditures of state appropriations made to such agencies and officers. The Board of Trustees had previously received a memorandum prepared by Comptroller Lloyd Morey explaining the bill and discussing the potential effects of such legislation.

President Livingston reported that on May 16, 1951, he and Comptroller Morey conferred personally with State Auditor Benjamin O. Cooper. Mr. Cooper explained the purposes of the bill from the point of view of the problems of his office. He stated that he has no intention of changing the methods of his office in dealing with the University of Illinois. The possible implications of the bill and the way in which it might be interpreted by future state auditors were pointed out to him, and he admitted that such possibilities exist.

¹ See pages 634-638, proceedings of the Board of Trustees, March 13, 1951.

² "Report of the Study of the Structure of the State Tax-Supported System of Higher Education in Illinois," made for the Governor of Illinois by a staff under the direction of the Division of Higher Education, Office of Education, Federal Security Agency.

He agreed to accept amendments which would make the bill acceptable to University officials.

Comptroller Morey stated that he is drafting such amendments. Mr. Fornof requested that copies of them be sent to the members of the Board of Trustees.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board resumed consideration of recommendations and reports presented by the President of the University.

RECOMMENDATIONS TO THE BOARD OF TRUSTEES ON THE BASIS OF A FIRST REPORT OF THE CLEARY COMMITTEE IN REGARD TO THE COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION

(30) President Stoddard presented and discussed the following recommendations: On December 28th, 1950, the Board of Trustees approved the recommendations in my "Second Report to the Board of Trustees on Conditions in the College of Commerce and Business Administration."

The first implementation called for the appointment of a special committee of five to

"1. Submit to me nominations for the deanship of the College. I shall also have the advice of the Executive Committee of the College.

"2. Assist in planning the reorganization of the College, including a possible transfer of the Department of Economics to the College of Liberal Arts and Sciences, and to prepare a report for consideration of the Senate."

The following members of the faculty agreed to serve on this Committee:

EDWARD W. CLEARY, Chairman, Professor of Law

ROYDEN DANGERFIELD, Professor of Political Science and Director of the Institute of Government and Public Affairs

CHARLES J. GAA, Professor of Accountancy

D. PHILIP LOCKLIN, McKinley Professor of the Economics of Public Utilities

GORDON RAY, Professor of English and Head of the Department

The effect of this action was to remove the issues from the ordinary channels within the College and to do so for a good reason: the College was unable to get its house in order and was, in fact, embroiling the University and the State.

A short time ago the Committee indicated that it would like to submit its report in two parts starting with the second section (on the reorganization of the College). The Committee felt that it could not move forward in regard to the selection of a dean until it was able to indicate to prospective candidates the nature of the administrative assignment.

Accordingly, we have before us the unanimous Report of the Cleary Committee on the Organization of the College of Commerce and Business Administration. (A second report on the deanship is to come later.)

I am impressed with the careful and objective way in which Professor Cleary's committee has carried on its work. The task was arduous, calling for many conferences. More than forty persons have appeared directly before the Committee and it sat with other groups. The Committee has attempted to reach its conclusions not through a simple show of hands but through a clarification of the issues involved. This is brought out in the first two parts of the report.

The third part of the report, beginning on page 724, consists of recommendations. It is to these that I call the attention of the Board.

I concur in the conclusion of the Cleary Committee that it is not enough to let matters ride without change. We have had a quiet period—a moratorium—in part because of the feeling that some reorganization would be accomplished as a means of carrying out the purposes of the College. The course of the controversy indicates that the troubles are not to be resolved by a single change already made in administrative personnel.

The Cleary Committee holds that the transfer of Economics to Liberal Arts and Sciences "is not an adequate solution." I should say, rather, that it is not a

necessary solution if we can find some less radical measures with a promise of success. Departments of economics located in colleges of liberal arts and sciences—a common situation in universities over the United States—have generally avoided the feuds that have arisen here.

I do not expect any plan of reorganization to be endorsed in its entirety by the committees and factions on the ground. It is to be remembered that, in past years, *no plan* of reorganization has been ratified or promulgated by the College. Furthermore, the question of the departmentalization of Business Organization and Operation, while mentioned occasionally, was not, to my knowledge, made the subject of an explicit recommendation by any committee, faculty, or dean. Had this single proposal of departmentalization in Business Organization and Operation been regarded as sufficient to prevent strife in the College, it should have been tried long ago. Taken by itself, I do not regard it as adequate, but it should be helpful.

To turn to the recommendations of the Committee (page 724):

1. *Name of the College.* Following the Committee, I recommend that the name of the College be changed to the College of Economics and Business Administration.

2. *Organization of the College.* I recommend the organization of the College into four constituent parts: a School of Business Administration, a School of Economics, a Bureau of Economic and Business Research, and a Business Management Service, each unit to be administered by a director. The Dean of the College should not also be a director.

As a major modification of the Committee's recommendations, I recommend that the executive committee of the College consist of nine members, including the four directors *ex officio*, four members to be elected by the faculty of the College, and the Dean as chairman *ex officio*; that the executive committee, except the Dean, should advise the President on the selection and reappointment of the Dean and should advise the Dean in the administration of the College. The executive committee should transact such business as may be delegated to it by the faculty. The Dean should prepare the budget of the College, as a whole, in consultation with the Executive Committee.

3. *Organization of the Schools.* I recommend that the administration of each school should be under a director appointed biennially by the Board of Trustees upon the recommendation of the President of the University. In the selection and reappointment of a director, the President should have the advice of the executive committee of the school concerned (with the exception of its director) and of the Dean.

The executive committee of each school should consist of members elected by the faculty of the school, in the manner prescribed by the faculty, with the director as chairman *ex officio*. The executive committee should advise the director with respect to appointments, promotions and budgets, and should transact such other business as may be assigned to it by the faculty of the school.

I recommend that the School of Business Administration be departmentalized, possibly along the following lines: Accounting and Business Law, Marketing, Management, Secretarial Training. The director of a school should not serve as head or chairman of a department if more than one department is established.

I recommend further that the School of Economics be departmentalized in the future if it should become apparent to the faculty of the School that two or more departments are identifiable as academic and professional units, with a corresponding clustering in curricular offerings.

4. *Protection of Minority Groups.* I accept this paragraph as a general statement of desirable conditions in any college. I would emphasize not only that the dean and directors should merit the confidence of their respective faculties but also that faculty members, in turn, should earnestly endeavor to work as a team.

5. *Participation by the School of Economics in the College of Liberal Arts and Sciences.* I recommend that the faculties of the School of Economics and of the College of Liberal Arts and Sciences consider the desirability of a dual status for the faculty of the School of Economics *provided that matters relating to budget, appointments and promotions remain within the School of Economics.*

6. *Revision of Statutes.* I recommend that there be brought before the Senate the following proposal for revision in the *Statutes* as they affect the status of a school within a college:

"In colleges organized through schools and other similar units headed by a director, the executive committee shall consist of the directors of such administrative units, together with an equal number of members elected annually by the faculty from among the professors and associate professors in the College, with the Dean of the College as Chairman, *ex officio*."

There may be other points in my recommendations that will call for Senate approval although I do not believe they are basic.

7. *Advisory Committee for the College of Commerce and Business Administration.* In a collateral letter, signed by all members of the Cleary Committee, attention is given to a further matter, as follows:

"For some years the College had a group of area advisory committees. These committees were probably designed primarily to maintain liaison between staff members and men actively engaged in the particular field in business. This arrangement has prevailed in Agriculture for some time with considerable success. In Commerce, however, the area committees became largely inactive.

"Under Dean Bowen, the decision was made to reconstitute the area committees into a single advisory committee for the entire College. In our opinion this was a mistake. Removal of the small, specialized areas of contact eliminated as a committee function the link between theory and practice, and placed the new committee in a position where it touched the College only on the level of administrative and policy matters. The situation thus produced is anomalous.

"In the Board of Trustees and the administrative officers designated by them, the University has a complete and integrated organization for the formulation and execution of policies. The Trustees are elected by and responsible to the public. The inclusion of other policy-making bodies in this arrangement must inevitably result in confusion and in embarrassment to all concerned."

The action creating the over-all Advisory Committee for the College of Commerce and Business Administration was taken on July 25, 1950, on the recommendation of Dean Bowen and the President of the University. Fully cognizant of the distinguished personnel of this Committee and of its spirit of helpfulness on all occasions, I concur, nevertheless, in the statement of the Cleary Committee that its formation was a mistake.

I recommend, therefore, that on the expiration of the term of the present members, June 30, 1951, the Advisory Committee be dissolved and that the schools indicated above, and departments as they may be formed, consider the desirability of advisory committees within their respective areas.

I request that the Board authorize the President of the University to carry out the recommendations as indicated above, as of September 1, 1951, with the understanding that such matters as fall within the jurisdiction of the University Senate will be referred to it for action.

REPORT ON THE ORGANIZATION OF THE COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION

On December 29, 1950, President Stoddard asked the undersigned members of the Senate to serve as a special committee to advise him concerning the College of Commerce and Business Administration. His charge to the committee was as follows:

"1. To submit to me nominations for the deanship of the College. I shall have also the advice of the Executive Committee of the College.

"2. To assist in planning the reorganization of the College, including a possible transfer of the Department of Economics to the College of Liberal Arts and Sciences, and to prepare a report for the consideration of the Senate."

Any doubt that the committee may have had regarding the propriety of scrutiny by a university committee of the internal affairs of a college was quickly dissipated. The committee found that the situation in the College of Commerce and Business Administration demanded impartial outside examination for two reasons: (1) There is no present prospect of a meeting of minds within the College. Conflict has solidified around two opposing groups, each of which is sincerely convinced of the essential rightness of its point of view. Tangible evidence of this division is afforded by the tactics of caucusing and block voting employed alike in the election of the Executive Committee of the College of Commerce on January 19, 1951, and in the election of the Executive Committee of the Department of Economics on February 15, 1951. No solution safeguarding minority rights seems likely to emerge unassisted from an atmosphere so unreceptive to compromise. (2) The interests of the University are affected, because the welfare of a component part affects the welfare of the whole. Furthermore, economics is an area of knowledge which extends far beyond the bounds of the College of Commerce.

As a first step in executing President Stoddard's charge, the committee submits its report concerning the organization of the College of Commerce. It was the opinion of the committee that consideration of the organizational question should precede nominations for the deanship.

I

PROCEDURES FOLLOWED BY THE COMMITTEE

At the outset the members of the committee were agreed that the views of all persons interested in or affected by the organization of the College should be solicited, both for the information of the committee and as a matter of fair procedure. This approach resulted in the receipt of many written communications and in numerous personal appearances before the committee. The facts and opinions thus made available have been of great assistance to the committee.

The committee also had the benefit of a survey made jointly with the Executive Committee of the College in which a questionnaire was circulated to the deans, heads of accounting departments, and heads of economics departments of the leading schools of the country. This survey disclosed a variety of organizational patterns. In general, each respondent indicated satisfaction with his own present form of organization. The result, in the opinion of the committee, is inconclusive insofar as concerns a solution of the local problem. The committee also perused such published material as is available, and found that it too was inconclusive.

II

ESTIMATE OF THE SITUATION

Although the views communicated to the committee have been directed mainly to the question of whether or not the Department of Economics or some part thereof should be transferred to the College of Liberal Arts and Sciences, they have nevertheless afforded considerable insight into conditions within the College. While precise evaluation of this testimony is manifestly impossible, it is nevertheless evident that substantial grounds for dissatisfaction exist. In some instances these grounds may be more apparent than real, but the fact remains that they are very real in the minds of the individuals concerned. The sincerity of purpose of everyone who appeared before or wrote to the committee was unquestionable.

a. *A substantial group within the Department of Economics maintains that the College is preoccupied with training for business careers and therefore is not in sympathy with the broader social point of view that characterizes economics as a discipline. The same group holds that for this reason the College does not provide an environment favorable to the existence of economics as a social science and at times shows hostility to it.*

No considerable amount of factual evidence was available to the committee on this point. This may have been due to the intangible character of the issue. However, the committee has encountered within the College some lack of appreciation of the fact that the Department of Economics has any substantial function other than to supply instruction essential to education for business. In fairness, it should also be observed that a group in the Department of Economics tends to disparage

training for business and to underestimate the responsibility of economics in that process. Although the groups holding these extreme views are small, the fact that the views are held at all is significant.

The committee encountered no substantial body of evidence indicating improper past interference with course offerings, projected research, salary increases or promotions in the Department of Economics. It did encounter substantial feeling that the climate is such that future interferences will result. Although the fears expressed are prospective, they are genuine and should be allayed, in order to promote the future growth and development of the Department.

The recent controversy within the College encouraged attacks upon the views entertained, or supposed to be entertained, on controversial issues of the day by members of the Department of Economics. These attacks came largely from outside the University, but to some extent from within the College itself. It is inevitable that in any large department of economics there will be diverse points of view on controversial issues of an economic nature. Such diversity is wholesome. No organizational structure can protect the economist completely from attacks of this nature. The faculty of a University, however, should recognize the right of all of its members to hold divergent views and should defend this right. It is only by encouraging freedom of inquiry and expression that progress in the development of the science and in its application to the actual world can be advanced.

b. The number of majors in economics is disproportionately small.

Despite the fact that a major in economics may be taken by students enrolled either in the College of Commerce or in the College of Liberal Arts, the total number of such majors is very small in comparison with the enrollment in either college or in the University. This situation is in marked contrast to the importance of economics in present-day society. Moreover, a sound program of graduate instruction and of research is encouraged by a broad foundation of undergraduate instruction.

It is argued that the scarcity of economics majors among students registered in the College of Commerce is due to registration advice given by members of the Department of Business Organization and Operation. The committee doubts this contention and holds, rather, that the difficulty arises from the fact that the College has attracted relatively few students whose primary interest was other than that of obtaining an education for business. Certainly the committee finds no fault with the existing policy of educating students along professional lines for careers in business. This is a very legitimate educational objective and the College has achieved outstanding success in connection with it. However, the impression apparently has been prevalent in the minds of students that the College offers no other type of education. This erroneous impression probably derives basically from the very name of the College. The full name of the College is "College of Commerce and Business Administration." Students seemingly have tended to regard "Commerce," which possesses both a broad and a restricted meaning, as narrowly synonymous with "Business Administration." Consequently, students whose interests lie in the direction of the social sciences, rather than in the direction of a professional education for business, have registered elsewhere in the University, presumably in the College of Liberal Arts and Sciences. The dual character of the College of Commerce has not been made sufficiently apparent.

At the same time, the Department of Economics has not been overly assiduous in cultivating majors in the College of Liberal Arts and Sciences; it has not participated to any substantial extent in the construction of curricula or in the advising of students in that College. While it is argued vigorously, and the committee agrees, that economics is a social science, the requirement of eight hours of social science in the general curriculum of the College of Liberal Arts and Sciences cannot presently be satisfied by courses in economics. Greater participation by the members of the economics staff in the affairs of the College of Liberal Arts and Sciences is needed.

c. The location of economics in the College of Commerce results, it is claimed, in its undue isolation from the other social sciences.

Earlier in this report the committee has stated briefly its belief that economics is properly classified as one of the social sciences. It clearly has many points of

contact with other disciplines. For a summary of trends in the field of Economics, reference is made to the Report of the Study of The Ford Foundation On Policy and Program (1949):

"Several trends in economic thinking suggest hope for a greater future contribution to economic well-being. Of first importance is the expression of willingness by leading economists to reinvestigate basic theories, to subject these theories to the acid test of verification, and, where evidence is lacking, to get it at original sources.

"A further sign of progress in economic thought is found in the growing recognition that man's economic behavior is only a part of his total behavior, and that it cannot be abstracted and studied in isolation. Increasing attention is being directed to economic choices—decisions to buy, to work, to invest—as simply one part of the entire range of human conduct. Certain fields, such as psychology and sociology, and the new methods and approaches utilized in them, are now seen to apply to the conduct of economic research.

"Another trend in the field of economics which appears fruitful is the recent growth of a practice of economics. Economists are now heavily relied upon by business, labor, and various branches of government and are represented at high policy levels by such bodies as the Council of Economic Advisers to the President. The increasing use of economists in practice should help bring together the development of theory and the solution of specific problems.

"Still another hope for progress lies in the development of techniques, such as sampling, which make possible additional testing of economic theories. Unlike the natural sciences, theories in economics cannot usually be validated by observation of limited and isolated data. On the contrary, data in great volume or from wide areas are frequently necessary. Practically no data were collected in the days of the early economic theories, and, in fact, only in recent decades have more comprehensive data become available concerning such basic matters as the volume and kinds of production, employment, and income.

"The conjoining of theory and practice is also served by the studies and activities of voluntary groups and committees which have recently been organized in increasingly effective forms. The real potential of such groups has hardly been tapped." (p. 72)

The status of economics as a social science would indicate that its proper location is with the other social sciences in the College of Liberal Arts and Sciences. Certainly contacts between the social sciences are mutually advantageous. On the other hand, economics is the social science peculiarly and intimately related to business. Business practice derives important benefits from close association with economic theory, and economics as a developing science needs close association and familiarity with business practices and business phenomena. Thus no compelling logic dictates any particular location for the study of economics.

In the present case, the committee believes that the solution lies in the maintenance of existing ties and in the formation of new ones. The important position traditionally given to economics in the College's program of professional training for business has afforded a breadth and strength not always found in such programs. Closer association between economics and the other social sciences is not inconsistent with maintenance of its present relation to the business training curriculum.

d. *Professional circles must be reassured that the University intends to maintain a strong Department of Economics.*

The recent controversy in the College has inevitably resulted in some prejudice to the standing and reputation of the University among professional economists. Whether rightly or wrongly, the events of the last year have been construed as reflecting a situation unfavorable to the free and objective pursuit of economic study. Unless doubts as to the University's desire to maintain a strong department of economics are laid at rest, the University seems destined to be at a disadvantage in attracting and retaining suitable staff members. Moreover, if these doubts remain, graduates in economics from the University seem likely to encounter serious handicaps in seeking employment elsewhere, whether in business, government, or educational institutions.

e. Factionalism and personal frictions have accentuated the problems of the College.

The differences which exist within the College do not fall strictly along departmental or ideological lines. The committee has not found the Department of Business Organization and Operation on one side of the questions which have been raised and the Department of Economics on the other. The division runs squarely through the Department of Economics itself, between those who advocated and those who opposed the retention of Dean Bowen, with the Business Organization and Operation staff largely supporting the latter group.

Since the issues at stake involve the welfare of the University as a whole, the committee is strongly of the opinion that no sound solution can be reached merely on the basis of counting the numbers of those who adhere to some particular view in the Department of Economics or in the College of Commerce. Moreover, the committee would fail to deal with the realities of the situation if it refused to recognize that some group within the Department of Economics, under any solution, will be in the position of a minority. The College is in effect passing from a time of civil war to a time of reconstruction. "A just and lasting peace" is no doubt to be achieved through the creation of an atmosphere in which there are "malice towards none" and "charity for all." This atmosphere does not now exist. It is very evident that a real fear of punitive measures exists on both sides, a fear that cannot be set at rest by verbal assurances. Hence, organizational changes designed to secure the rights of minorities are required.

f. The Department of Business Organization and Operation has outgrown its present organization.

At present the Department of Business Organization and Operation constitutes a single monolithic department which extends into all fields of professional training for business, with informal divisional organization as to various areas. In the past this structure has not prevented excellent results. However, the increase in the variety of the Department's activities and the promotion of future growth and development suggest the advisability of regularizing these informal divisions as departments. In the view of the committee, this change would consolidate gains already made and encourage progress and initiative in each of the fields now included within the one department.

III

RECOMMENDATIONS

In the main only two solutions were proposed by those who appeared before the committee or presented their written views: (1) the continuation of the present situation and (2) the transfer of all or some part of the Department of Economics to the College of Liberal Arts and Sciences. This response was natural in view of the circumstances under which the opinions were solicited.

For reasons already indicated, plus the difficulty of making the division of the department which would be necessary and the likelihood of duplication of instruction, the committee believes that the proposal to transfer all or some part of the Department of Economics to Liberal Arts and Sciences is not an adequate solution. Also, for reasons already indicated, the committee believes that the existing situation should not continue without modification. It is within the framework of modification of the existing situation that the committee believes the solution is to be found. The committee therefore submits the following recommendations:

1. *Name of the College.* In order to clarify the functions of the College, the committee recommends that the name of the College be changed to include "Economics" and suggests the title "College of Economics and Business Administration."

2. *Organization of the College.* The committee recommends the reorganization of the College into four constituent parts: a School of Business Administration, a School of Economics, the Bureau of Economic and Business Research, and the Business Management Service.

The executive committee of the College should consist of seven members, including six members elected by the faculty of the College, and the dean as

chairman *ex officio*. The elected members of the College executive committee should advise the President in the selection and re-appointment of a dean and should advise the dean in the administration of the College. The committee should transact such business as may be delegated to it by the faculty, except as regards budget, appointment, and promotion. Faculty participation in these matters is provided for under point three below. The present powers of the faculty of the College as a whole relative to courses, curricula, and the granting of degrees should remain unchanged. The dean should prepare the budget of the College as a whole in consultation with the four directors. The dean should not also be a director.

3. *Organization of the Schools*. The administration of each school should be under a director, appointed biennially by the Board of Trustees upon the recommendation of the President. In the selection and re-appointment of a director, the President should have the advice of the elected members of the executive committee of the school concerned and of the dean.

The executive committee of each school should consist of members elected by the faculty of the school, in the manner prescribed by the faculty, with the director as chairman *ex officio*. The executive committee should advise the director with respect to appointments, promotions, and budgets, and should transact such other business as may be assigned to it by the faculty of the school.

The School of Business Administration should be departmentalized. The committee feels that study by the faculty of the School would evolve a satisfactory departmental breakdown. The committee makes no recommendation as to departmentalization of the School of Economics. The director of a school should not serve as head or chairman of a department, if more than one department is established in the school.

4. *Protection of Minority Groups*. The committee is of the opinion that unusually careful administrative consideration of salaries and promotions may be required in order to assure fair treatment of the minority groups which seem likely to exist for some time to come under any form of organization. It is, therefore, of the utmost importance that the persons named as dean of the College and as directors of the schools enjoy the fullest measure of confidence of their respective faculties.

5. *Participation by the School of Economics in the College of Liberal Arts and Sciences*. The committee recommends that the members of the faculty of the School of Economics, while retaining their status as members of the faculty of the College of Commerce (i.e., "Economics and Business Administration"), should participate in the affairs of the College of Liberal Arts and Sciences as members of its faculty. Matters relating to budget, appointments, and promotions in the School of Economics would not be shifted to the College of Liberal Arts and Sciences.

6. *Revision of Statutes*. Under the present *University of Illinois Statutes* the status of a school which is included within a college is treated very vaguely. In the event of the approval of these recommendations by the appropriate authorities, the provisions for organizational changes outlined herein should lead to corresponding revisions in the existing *Statutes*. Cognizance should be taken of these changes in the form of a comprehensive redefinition of the status of a school within a college when the *Statutes* undergo their next general revision.

ROYDEN DANGERFIELD

CHARLES J. GAA

D. PHILIP LOCKLIN

GORDON N. RAY

EDWARD W. CLEARY, *Chairman*

April 26, 1951

Mr. Nickell moved that no formal action be taken by the Board of Trustees until the next meeting of the Board.

This motion was adopted.

At the request of President Stoddard, Professor Cleary discussed the report of his Committee and answered questions asked by members of the Board.

Following a general discussion of the President's recommendations and the Committee's report:

Mr. Johnston suggested that the Advisory Committee of the College of Commerce and Business Administration be consulted regarding the proposed reorganization of the College.

Mr. Megran suggested that the reactions of members of the Faculty of the College be secured following a meeting at which the President's recommendations and the report of the Cleary Committee would be discussed and questions answered. Mr. Megran also suggested that the Trustees be notified of the time and place of the meeting so that any who wish to do so may attend as individuals to hear the discussion.

President Stoddard stated that his recommendations and the Cleary Committee's report will be submitted to all members of the College Faculty and to the Advisory Committee, that meetings of these groups will be held with the Cleary Committee participating to discuss its report and to answer questions, and that, as requested by the President of the Board, members of both groups will be asked to submit their opinions in writing to the President of the University.

JUNE MEETING

It was agreed that the next meeting of the Board of Trustees will be held in Chicago on Wednesday, June 13, 1951, the hour and place to be determined by the President and Secretary of the Board.

FESTIVAL OF CONTEMPORARY ARTS

On motion of Mrs. Watkins, the Secretary was instructed to send a letter to Dean Rexford Newcomb of the College of Fine and Applied Arts conveying to the Faculty of the College the felicitations of the Board on the 1951 Contemporary Arts Festival and appreciation of the work done to make it such a great success.

APPRECIATION TO MR. WAYNE A. JOHNSTON

On motion of Mr. Fornof, the Board expressed its appreciation to Mr. Wayne A. Johnston for his gracious hospitality as dinner host to the trustees and other University officials preceding tonight's meeting.

APPRECIATION TO PROFESSOR EDWARD W. CLEARY

On motion of Mr. Nickell, seconded by Mrs. Watkins, the Board expressed its appreciation to Professor Edward W. Cleary for his informative and very helpful discussion of his Committee's Report on the Organization of the College of Commerce and Business Administration.

At this point, Mr. Fornof withdrew from the meeting.

EXECUTIVE SESSION

On request of President Livingston, the Board went into Executive Session to consider a special order of business.

PROCEEDINGS IN THE CASE OF PATRICK J. MAY

At a regular meeting of the Board of Trustees of the University of Illinois held in Chicago, Illinois, on March 13, 1951, the Board received

a report from the President of the University that, under Civil Service law and rules, written charges as grounds for discharge had been filed by the Director of Nonacademic Personnel against Patrick J. May, Plant Operating Engineer in the Physical Plant Department of the Chicago Undergraduate Division at Navy Pier, and that Mr. May was served with notice of the same on February 23, 1951. He had requested a hearing, and pursuant to due authorization by the Board, the President of the Board appointed the following committee to hear the charges and make a recommendation to the Board:

ROBERT P. HACKETT, Associate Dean of Commerce and Business Administration and Professor of Accountancy, Chicago Undergraduate Division, Chairman
HAROLD W. BAILEY, Associate Dean of Liberal Arts and Sciences and Professor of Mathematics, Chicago Undergraduate Division
WARREN O. BROWN, Dean of Men and Counselor in the Division of Special Services for War Veterans, Chicago Undergraduate Division
CHARLES H. BOWMAN, Assistant Professor of Law, Urbana
J. FRED KNIGHT, Purchasing Agent, Chicago Colleges

The committee's report and its recommendation are submitted herewith.

REPORT OF THE HEARING COMMITTEE IN THE PROCEEDINGS FOR THE DISCHARGE OF
PATRICK J. MAY FROM THE UNIVERSITY OF ILLINOIS CIVIL SERVICE

In this proceeding, the exhibits for the complainant, and the record, show

1. That formal charges were filed against Patrick J. May, an employee of the University of Illinois, classified as a Plant Operating Engineer under the University Civil Service, to discharge Patrick J. May from his position. These charges were filed in accordance with the statute on February 23, 1951.
2. That in accordance with Chapter 24½, Section 38b, Illinois Revised Statutes, 1949, and with the University of Illinois Board of Trustees' Rules for the Classified Civil Service of the University of Illinois, Patrick J. May requested a hearing on such charges.
3. That Robert P. Hackett, Chairman, Harold W. Bailey, Warren O. Brown, J. Fred Knight, and Charles H. Bowman were duly appointed by Park Livingston, President of the Board of Trustees of the University of Illinois and acting under the authority of such Board, as a Committee to hold a hearing on such charges in accordance with the provisions of the statute.
4. That a hearing before such Committee was held on the charges filed against Patrick J. May, on April 9, 1951, in the administrative offices of the University of Illinois, Navy Pier, Chicago, Illinois.

After hearing and weighing the evidence introduced at the hearing, the Hearing Committee makes the following findings of facts:

1. That Patrick J. May, hereinafter referred to as May, is and has been since January, 1947, an employee of the University of Illinois in the civil service classification of fireman and then as a plant operating engineer.
2. That while so employed by the University of Illinois and while on, in, and about the premises of the University at Navy Pier, Chicago, Illinois, May did, at various times beginning shortly after his employment in January, 1947, and continuing until February 23, 1951, receive from other persons on, in, or about such premises, sums of money varying in amount from ten cents to two dollars each, which May undertook to place by telephone with book-makers in the city of Chicago as bets on race horses running at various tracks in the country.
3. That on February 7, 1951, May accepted from one Barry two dollars as a bet on Sunshine Rose to place in the seventh race at Hialeah Park; that on February 23, 1951, May accepted from Barry two dollars as a bet on Old Bess in the second race at Hialeah Park.

4. That bets were received and phoned to bookmakers at various times during May's working hours, but that the time consumed by such activities was only a few minutes in each instance.
5. That in making application for employment with the University of Illinois on January 6, 1947, in answer to the question "Have you ever been arrested, indicted, or convicted for any violation of law other than a minor violation?", May replied "No," whereas he had in fact been arrested in the city of Chicago, by the Chicago police, on a charge of gambling, on May 25, 1931, and again in the city of Chicago, by the Chicago police, on a charge of bookmaking, on February 8, 1933. That in each case of arrest, May was discharged without indictment or conviction.

From the above findings of fact, the Committee makes the following conclusions:

1. That Patrick J. May on various occasions while in the employ of the University of Illinois did receive and accept bets from persons on the premises of the University of Illinois.
2. That May accepted bets and phoned them to bookmakers during scheduled working hours, which constituted the taking care of outside interests during scheduled working hours. The Committee further concludes, however, that the time consumed in such activities was not so great as to seriously affect adversely the quality of May's work in the performance of his regular duties.
3. That the wording of the question relative to previous arrests, put to May at the time of his application for employment, was open to interpretation by the applicant as to what constituted "minor offenses," and that May's reply to such question did not constitute a falsification of employment record under the circumstances of his case.

From the above conclusions, the Committee makes the following ultimate conclusions:

1. That the receiving and acceptance of bets by May from persons on the premises of the University of Illinois is just cause for discharge from the civil service of the University of Illinois.
2. That the taking care of outside interests during scheduled working hours by May did not so seriously affect adversely the performance of his regular duties as to constitute just cause for discharge.
3. That the answer given by May to the specific question asked relative to his employment application is not just cause for discharge.
4. That the fourth charge of "Conduct prejudicial to the interests of the University" states a conclusion which depends for its validity upon specific acts set forth in the first three charges, or upon other acts not specified in the charges, and in view of the findings of fact and conclusions based on the first three charges individually, the Committee deems it unnecessary to make any finding of fact or conclusion in relation to the fourth charge.

Conclusion of law:

The Committee concludes that the receiving and acceptance of bets by Patrick J. May from persons on the premises of the University of Illinois constitutes just cause for discharge from the classified civil service of the State in relation to the University of Illinois.

Recommendation:

The Committee therefore recommends that the employee, Patrick J. May, be discharged, and that this decision of the Board be certified to the appointing officer and be enforced by him.

ROBERT P. HACKETT
HAROLD W. BAILEY
WARREN O. BROWN
J. FRED KNIGHT
CHARLES H. BOWMAN

On motion of Mr. Johnston, the recommendation of the Committee was approved, and Patrick J. May was discharged from the classified civil service of the state in relation to the University of Illinois, by the

following vote: Aye, Mr. Grange, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Megran, Mr. Nickell, Mrs. Watkins; no, none; absent, Mr. Forno, Mr. Hickman, Mr. Stevenson.

SECRETARY'S REPORTS

The Secretary presented for record the following lists: (1) appointments made by the President; (2) graduate fellows; (3) resignations and declinations; (4) retirements; (5) leaves of absence.

APPOINTMENTS MADE BY THE PRESIDENT

(The date in parenthesis is the date on which the appointment was made by the President of the University. C = College; S = Station; E = Extension.)

- APELL, ALICE J., Acting Assistant Acquisition Librarian, with the rank of Instructor, four months beginning May 1, 1951, \$360 a month, supersedes (5-2-51).
- APPLETON, JOSEPH H., Research Associate in Civil Engineering, in the Engineering Experiment Station, one year beginning July 1, 1951, \$4800 (4-19-51).
- ARTHUR, ALICE E., Medical Illustrator in the Division of Services for Crippled Children, on one-half time, five months beginning April 1, 1951, \$150 a month (4-19-51).
- BARRON, SAMUEL H., JR., Clinical Instructor in Pediatrics, in the College of Medicine, on nine-tenths time, five months beginning April 1, 1951, \$3500 a year, supersedes (5-7-51).
- BOSZORMENYI-NAGY, IVAN, Research Assistant in Psychiatry, in the College of Medicine, five months beginning April 1, 1951, \$250 a month (4-21-51).
- BOWERS, WENDELL, Instructor in Agricultural Engineering, in the Extension Service in Agriculture and Home Economics, three months beginning June 1, 1951, \$333.33 a month (5-10-51).
- BUTCHER, WALTER W., Instructor in Physical Sciences, in the Undergraduate Division in Chicago, on one-half time, beginning April 1, 1951, and continuing through June 15, 1951, \$170 a month (4-20-51).
- BYERS, FRANKLIN H., Research Assistant in the Bureau of Institutional Research, three months beginning June 1, 1951, \$250 a month (4-25-51).
- CARTON, ROBERT W., Clinical Assistant in Medicine (Rush), in the College of Medicine, beginning July 1, 1951, and continuing through August 31, 1952, without salary (4-26-51).
- CAUDLE, RODNEY D., Research Assistant in Mining Engineering, in the Department of Mining and Metallurgical Engineering, in the Engineering Experiment Station, one year beginning September 1, 1951, \$3000 (4-19-51).
- CHEN, KUO-TSAI, Research Associate in Mathematics, in the Graduate College, one year beginning September 1, 1951, to render service during the academic year, \$3000 (for the convenience of the University he will also be furnished with suitable living quarters) (4-21-51).
- DAMRIN, DORA E., Research Associate in the Bureau of Research and Service, two months beginning July 1, 1951, \$350 a month (5-10-51).
- DUNN, FLOYD, Research Assistant in Electrical Engineering, in the Engineering Experiment Station, beginning May 1, 1951, and continuing through August 31, 1952, \$4400 a year, supersedes (5-7-51).
- FULLER, JOHN B., Instructor in Pathology, in the College of Medicine, on one-tenth time, \$408 a year, and in studies under a United States Public Health Service grant, on nine-tenths time, \$4800 a year, two months beginning July 1, 1951, supersedes (4-24-51).
- HIRSCH, MARVIN M., Research Assistant in Preventive Medicine, in the College of Medicine, two months beginning July 1, 1951, \$250 a month (4-19-51).
- HOCH, RITA ANN, Registered Pharmacist in Hospital Pharmacy, in the College of Pharmacy, four months beginning May 1, 1951, \$300 a month (5-3-51).
- LAUGHNAN, JOHN R., Assistant Professor of Botany, in the College of Liberal Arts and Sciences, and Assistant Professor of Plant Genetics, in the Department of Agronomy, in the College of Agriculture, four months beginning May 1, 1951, \$466.67 a month, supersedes (4-23-51).

- LIPTON, EARLE L., Clinical Assistant in Pediatrics, in the College of Medicine, eight months beginning January 1, 1951, without salary (4-19-51).
- MANFREDI, HAROLD, Research Assistant in Psychiatry (assigned to Loyola University), in the College of Medicine, five months beginning April 1, 1951, \$244.17 a month (5-2-51).
- MARTIN, ALICE M., Acting Education, Philosophy, and Psychology Librarian, with the rank of Instructor, four months beginning May 1, 1951, \$325 a month, supersedes (5-3-51).
- MCMILLAN, FRED W., Assistant in Forest Research, in the Department of Forestry, in the Agricultural Experiment Station, beginning July 1, 1951, and continuing through August 31, 1952, \$3200 a year (4-28-51).
- MCMILLION, MARY CATHERINE, Research Assistant in the Bureau of Economic and Business Research, four months beginning May 1, 1951, \$250 a month (5-10-51).
- MILLER, JAMES G., Clinical Assistant in Psychiatry, in the College of Medicine, four months beginning May 1, 1951, without salary (4-19-51).
- PACKARD, DOUGLAS K., Clinical Assistant in Surgery, in the College of Medicine, four months beginning March 1, 1951, without salary (4-19-51).
- PARSONS, MALCOLM B., Assistant Professor of Labor and Industrial Relations, one year beginning September 1, 1951, \$4900 (4-28-51).
- RHOADES, MARCUS M., Professor of Botany, in the College of Liberal Arts and Sciences, and Professor of Cytogenetics, in the Department of Agronomy, in the College of Agriculture, on indefinite tenure beginning May 1, 1951, to render service during each academic year, \$10,500 a year, supersedes (4-23-51).
- SIESS, CHESTER P., Research Associate Professor of Civil Engineering, in the College of Engineering, on one-third time, and in the Engineering Experiment Station, on two-thirds time, on indefinite tenure beginning March 1, 1951, \$7000 a year, supersedes (4-21-51).
- SILBERGELD, SAM, Assistant Professor of Physical Sciences, in the Undergraduate Division in Chicago, five months beginning April 1, 1951, \$368 a month, supersedes (4-20-51).
- SONNENSCHNEIN, RALPH, Research Associate in Psychiatry, in the College of Medicine, beginning April 15, 1951, and continuing through August 31, 1951, \$458.33 a month, supersedes (5-2-51).
- TAYLOR, SAMUEL G., III, Clinical Associate Professor of Medicine, in the College of Medicine, on 45/100 time, one year beginning April 1, 1951, \$3000, supersedes (5-8-51).
- WELCH, HELEN M., Acting Acquisition Librarian, with the rank of Assistant Professor, four months beginning May 1, 1951, \$450 a month, supersedes (5-8-51).
- WELKOWITZ, WALTER, Research Assistant in Electrical Engineering, in the Engineering Experiment Station, beginning May 1, 1951, and continuing through August 31, 1952, \$4400 a year, supersedes (5-7-51).
- WHEELER, DAVID J., Visiting Assistant Professor of Mathematics, Electronic Digital Computer, in the Graduate College, nine months beginning September 16, 1951, \$500 a month (4-23-51).
- WOODMAN, EVERETT M., Assistant Professor of Education, two years beginning September 1, 1951, to render service during each academic year, \$4700 a year (4-23-51).
- WOZGIN, JULIA E., Clinical Assistant in Nursing, in the School of Nursing, five months beginning April 1, 1951, \$200 a month (for her convenience she will also be furnished with room and board valued at \$40 a month) (5-7-51).

GRADUATE FELLOWS

(The following appointments were made by the Dean of the Graduate College on the dates indicated in parenthesis.)

- BROWN, JOHN W., Bristol Laboratories Fellow in Biological Chemistry (Medicine), April 1-September 15, 1951, \$1100 (4-19-51).
- BYRNE, PATRICK J. S., National Lead Company Fellow in Geology, nine months beginning September 16, 1951, \$1500 (4-17-51).
- CHAKRAVORTI, AMAL K., Postdoctoral Fellow in Botany, nine months beginning September 16, 1951, \$2400 (4-24-51).

- CHENG, KUANG LU, Postdoctoral Fellow in Agronomy, nine months beginning September 16, 1951, \$2000 (4-24-51).
- COHRS, JOYCE S., Fellow in Psychology, September 16, 1951-January 31, 1952, \$350 (4-17-51).
- GASH, VIRGIL W., Fellow in Chemistry, July 1-September 15, 1951, \$300 (5-4-51).
- KIRTS, ARTHUR L., Henry Strong Fellow in Civil Engineering, nine months beginning September 16, 1951, \$700 (5-7-51).
- LI, YIN-YUAN, Postdoctoral Fellow in Physics, nine months beginning September 16, 1951, \$3000 (5-4-51).
- McKEAND, IRVIN J., Titanium Alloy Fellow in Ceramic Engineering, ten months beginning September 1, 1951, \$1800 (5-4-51).
- MEYER, ROBERT P., Fellow in Surgery, five months beginning April 1, 1951, \$1800 (5-2-51).
- RYDER, BERNARD L., Fellow in Chemistry, July 1-September 15, 1951, \$300 (5-4-51).
- SALZMAN, NORMAN P., Abbott Fellow in Chemistry, one year beginning September 1, 1951, \$1500 (4-17-51).
- SEGALL, BENJAMIN, Postdoctoral Fellow in Physics, nine months beginning September 16, 1951, \$2000 (4-24-51).
- SKOM, JOSEPH H., Public Health Service Fellow in Physiology (Medicine), nine months beginning September 16, 1951, \$2000 (4-19-51).
- SWAN, JOHN B., Postdoctoral Fellow in Physics, nine months beginning September 16, 1951, \$2000 (4-24-51).
- VAN DUUREN, BENJAMIN L., Postdoctoral in Chemistry, nine months beginning September 16, 1951, \$2000 (4-24-51).

RESIGNATIONS AND DECLINATIONS

- ANDERLIK, MRS. BARBARA C., Research Assistant in Chemistry, in the Graduate College—resignation effective 5-1-51.
- ANDERSON, ROBERT P., Fellow in Chemistry—declination effective 9-16-51.
- BECKER, WILLIAM K., Research Assistant in Civil Engineering, in the Engineering Experiment Station—resignation effective 4-18-51.
- BOUSFIELD, JOHN R., Fellow in Geography—declination effective 9-16-51.
- BRIGHT, D. BRUCE, Minnesota Mining and Manufacturing Company Fellow in Chemistry—declination effective 9-16-51.
- BROWN, ROLLIN L., Fellow in Physics—declination effective 9-16-51.
- CARLSON, EARLAND, Fellow in History—declination effective 9-16-51.
- CHASE, DAVID M., Fellow in Physics—declination effective 9-16-51.
- CLARK, WILLIAM C., Research Assistant in Physiology, in the Graduate College—resignation effective 4-1-51.
- DEAL, MRS. ALICE L. BOYD, Cataloger, with the rank of Instructor, in the Library—resignation effective 5-21-51.
- DEAL, NEWTON H., Circulation Assistant in the Library—resignation effective 5-14-51.
- DOREMUS, ROBERT H., Fellow in Chemistry—declination effective 9-16-51.
- DREYFUS, HUBERT L., Fellow in Philosophy—declination effective 9-16-51.
- FINDLAY, JAMES E., Instructor in General Engineering Drawing, in the Undergraduate Division in Chicago—resignation effective 6-12-51.
- GARDNER, WILLIAM L., Research Assistant in Radiology, in the College of Medicine—resignation effective 4-30-51.
- GOODWIN, CRAIG, Instructor in Psychiatry, and Physicist, in the Department of Psychiatry, in the College of Medicine—resignation effective 5-15-51.
- GRIMLEY, ROBERT T., Fellow in Chemistry—declination effective 9-16-51.
- HISCOCK, ELVA A., Instructor in Nutrition, in the Department of Medicine, in the College of Medicine—resignation effective 7-31-51.
- HULL, MRS. MARY E., Research Associate in the College of Education—resignation effective 6-1-51.
- JAMES, HERBERT L., Fellow in Speech—declination effective 9-16-51.
- JONES, DAVID L., Fellow in English—declination effective 9-16-51.
- LINZER, EDWARD, Assistant Professor of Social Welfare Administration—resignation effective 8-31-51.
- LIPPS, CHRISTINE, Fellow in Psychology—declination effective 9-16-51.
- MALECKI, GEORGE J., Fellow in Food Technology—declination effective 9-16-51.

- MARKSBERRY, MARY LEE, Research Assistant in the Provost's Office—resignation effective 5-1-51.
- MCKEOWN, MRS. MARIE PETTIBONE, Medical Artist in the Cleft Palate Training Program and Center, in the Division of Services for Crippled Children—resignation effective 3-31-51.
- McKINSEY, JAMES W., Fellow in Agricultural Economics—declination effective 9-16-51.
- MCLELLAN, JOHN M., Fellow in Mathematics—declination effective 9-16-51.
- MICHELS, CHARLES J., Instructor in Theoretical and Applied Mechanics—resignation effective 5-8-51.
- NICKLAS, DOUGLASS R., Research Associate in Psychology, in the Graduate College—resignation effective 3-10-51.
- PERLMAN, MRS. BERNICE T., Assistant Professor of Social Welfare Administration—resignation effective 8-31-51.
- PERLMAN, MARTIN M., Fellow in Physics—declination effective 9-16-51.
- PIIP, ANTS-TONIS, Fellow in Electrical Engineering—declination effective 9-16-51.
- RAFNER, ROBERT S., John A. Fairlie Fellow in Political Science—declination effective 9-16-51.
- SPIEWAK, MILDRED, Fellow in Physics—declination effective 9-16-51.
- STANTON, GEORGE T., Research Assistant in Psychiatry (assigned to Loyola University), in the College of Medicine—resignation effective 4-1-51.
- STAUGAS, LEONARD W., Research Assistant in Labor and Industrial Relations—resignation effective 5-21-51.
- TALLENT, M. H., Abbott Fellow in Chemistry—declination effective 9-16-51.
- TAYLOR, CLIFFORD E., Instructor and First Assistant in Vegetable Crops (Horticulture), in the Agricultural Experiment Station and in the Extension Service in Agriculture and Home Economics—resignation effective 7-1-51.
- WHORTON, GLADYS P., Assistant Professor of Education—resignation effective 5-31-51.

RETIREMENTS

- CASBERG, CARL H., Professor of Mechanical Engineering—retirement effective 9-1-51.
- ROBINSON, FLORENCE B., Professor of Landscape Architecture—retirement effective 9-1-51.

LEAVES OF ABSENCE

- AYERS, ARTHUR R., Instructor in Agricultural Engineering, in the Extension Service in Agriculture and Home Economics—leave of absence, without salary, May 14, 1951, until the end of the academic year, for military service.
- BEAM, GEORGE R., Director of Statistical Service Unit, in the Provost's Office—leave of absence, without salary, May 16-August 31, 1951, for military service.
- BRADY, DOROTHY S., Professor of Economics, in the Department of Economics—leave of absence, without salary, March 1-August 31, 1951, and Research Professor of Economics, in the Bureau of Economic and Business Research—leave of absence, without salary, April 10-August 31, 1951.
- BRISCOE, JOHN W., Instructor in Civil Engineering, in the College of Engineering—leave of absence, without salary, March 28, 1951, until the end of the academic year, for military service.
- BRUNNER, MATTHEW J., Assistant Professor of Dermatology, in the College of Medicine—leave of absence, with salary, three months beginning April 1, 1951, on account of illness.
- BYERS, WALTER H., Assistant Professor of Electrical Engineering, in the College of Engineering—leave of absence, without salary, one year beginning September 1, 1951, for work in connection with the defense effort.
- EALLES, EDWARD P., Assistant Professor of Aeronautical Engineering, in the College of Engineering—leave of absence, without salary, for the academic year, 1951-1952.
- HANCOCK, ROBERT S., Instructor in Marketing, in the Department of Business Organization and Operation—leave of absence, without salary, May 24-August 31, 1951, for military service.
- HOROWITZ, MORRIS A., Research Assistant Professor of Labor and Industrial Relations—leave of absence, without salary, May 22-August 31, 1951.

- KUBLY, HERBERT O., Associate Professor of Speech—leave of absence, without salary, six months beginning September 1, 1951.
- MASSLER, MAURY, Professor of Graduate Pedodontia, and Lecturer in Postgraduate Studies, in the College of Dentistry—leave of absence, with salary, one month beginning July 1, 1951.
- STUBBLEFIELD, FRANK M., Assistant Professor of Physical Sciences, in the Undergraduate Division in Chicago—leave of absence, without salary, May 18-August 31, 1951, for military service.
- UNDERWOOD, ROBERT B., Instructor in Postgraduate Studies and in Full and Removable Partial Dentures, in the College of Dentistry—leave of absence, without salary, four months beginning May 1, 1951, for military service.
- ZIMMERMAN, WILLIAM F., Research Assistant in Ceramic Engineering, in the Engineering Experiment Station—leave of absence, with part salary, March 26-April 4, 1951, for military service.
- ZIROLI, NICOLA V., Assistant Professor of Art—leave of absence, with full salary, March 28-May 19, 1951, on account of illness.

On motion of Mr. Grange, the Board adjourned.

A. J. JANATA
Secretary

PARK LIVINGSTON
President

MEETING OF THE EXECUTIVE COMMITTEE

MAY 18, 1951

The Executive Committee of the Board of Trustees of the University of Illinois met in the Faculty-Alumni Lounge of the Illini Union Building, Urbana, Illinois, on Friday evening, May 18, 1951, immediately following the adjournment of the Board meeting. The following, constituting all members of the Executive Committee, were present: Mr. Park Livingston, Chairman, Mr. Herbert B. Megran, and Mrs. Frances B. Watkins. Mr. A. J. Janata, Secretary of the Board, was also present.

The Committee considered the following item of business presented by the Secretary:

APPROPRIATION FOR BOARD OF TRUSTEES

The appropriations made for the Board of Trustees' Office in recent years have not been adequate to meet its needs.

The items of expense include: (a) printing of the Board minutes and publication of the Transactions of the Board of Trustees or biennial report; (b) annual audits of University accounts by outside certified public accountants employed by the Board; (c) expenses of holding Board of Trustees meetings; (d) travel expense of trustees; (e) fees paid investment counsel and for servicing University securities representing investments of trust funds; (f) fidelity insurance premiums; and (g) the business operations of the Secretary's office.

There have been substantial increases in some of these costs. For example, the cost of outside audits of accounts is now \$3,000 more than it was three years ago, due to the increase in volume of work. Printing costs are up and the increase in the amount of business transacted by the Board requires inclusion of more material in the printed record. This year there was a premium payment of \$1,525 for fidelity insurance for a three-year period, covering all areas of the University.

The Secretary requests an addition of \$8,500 to the budget for the current fiscal year ending June 30, 1951, to be allocated: \$600 for wages of temporary nonacademic personnel, and \$7,900 for other expenses.

On motion of Mrs. Watkins, an additional appropriation of \$8,500 was made from the General Reserve Fund to the Board of Trustees' Office, as requested, by the following vote: Aye, Mr. Livingston, Mr. Megran, Mrs. Watkins; no, none.

The Executive Committee adjourned.

A. J. JANATA
Clerk

PARK LIVINGSTON
Chairman
