MEETING OF THE BOARD OF TRUSTEES

OF THE

UNIVERSITY OF ILLINOIS

February 18, 1954

The February meeting of the Board of Trustees of the University of Illinois was held in the LaSalle Hotel, Chicago, Illinois, on Thursday, February 18, 1954, beginning at 10:00 a.m.

The following members were present: Mr. Wirt Herrick, Mr. Robert Z. Hickman, Mr. Wayne A. Johnston, Mr. Park Livingston, and Mrs. Frances B. Watkins. Mr. Cushman B. Bissell, Mr. Harold E. Grange, Mrs. Doris S. Holt, Mr. Herbert B. Megran, Mr. Vernon L. Nickell, and Governor William G. Stratton were absent.

Also present were President Lloyd Morey, Provost Henning Larsen, Mr. Ralph F. Lesemann, Legal Counsel, Mr. C. Lincoln Williston, Manager of Public Relations of the Chicago Professional Colleges; and the officers of the Board, Messrs. H. O. Farber, Acting Comptroller, C. W. Weldon, Treasurer, and A. J. Janata, Secretary.

Since a majority of all members constituting the Board was not present, the Board recessed.

MEETING OF THE EXECUTIVE COMMITTEE

On call of the Chairman and pursuant to written notice, a meeting of the Executive Committee of the Board of Trustees of the University of Illinois was held at the LaSalle Hotel, Chicago, Illinois, on Thursday, February 18, 1954, beginning at 10:30 a.m.

Mr. Park Livingston, Chairman, and Mrs. Frances B. Watkins were present: Mr. Herbert B. Megran was absent.

Also present were Messrs. Wirt Herrick, Robert Z. Hickman, and Wayne A. Johnston of the Board of Trustees, who participated in the discussions of the items of business considered by the Executive Committee, and the officers of the Board and of the University who were present when the Board convened.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY The Executive Committee considered the following reports and recommendations from the President of the University.

I concur.

On motion of Mrs. Watkins, these certificates were awarded.

APPOINTMENTS TO THE FACULTY

(2) The following new appointments to the faculty of the rank of Assistant Professor and above, and involving tenure, have been approved since the previous meeting of the Board of Trustees.

I. DONALD J. BRAY, Assistant Professor of Poultry Extension, in the Department of Animal Science, beginning February 1, 1954, at an annual salary of \$6,500 (BY).

1954

2. ROBERT W. DECKER, Assistant Professor of Geology, beginning February I, 1954, at an annual salary of \$5,000 (D). 3. ANNA T. HOWARD, Assistant Professor, School of Nursing, beginning February I, 1954, at an annual salary of \$5,000 (DY). 4. MARION DALE KINZIE, Medical Adviser and Assistant Professor of

Hygiene in the Health Services, beginning May 1, 1954, at an annual salary of \$8,000 (DY).

5. GUSTOF PETERSON, Assistant Professor of Agricultural Economics (C&S), beginning February 1, 1954, at an annual salary of \$5,800 (BY).

On motion of Mrs. Watkins, these appointments were confirmed.

APPOINTMENT OF PROFESSOR HERBERT E. CARTER AS PROFESSOR AND HEAD OF THE DEPARTMENT OF CHEMISTRY AND CHEMICAL ENGINEERING

(3) Professor Roger Adams, distinguished Head of the Department of Chemistry since 1926, has asked to be relieved of his administrative duties as Head of the Department at the end of the current academic year and to be con-tinued on the faculty as Research Professor.

I recommend that his request be granted.

The Executive Committee of the College of Liberal Arts and Sciences and a special search committee have recommended the appointment of Professor Herbert E. Carter, now Professor of Biochemistry, as Professor and Head of the Department of Chemistry and Chemical Engineering on indefinite tenure, beginning September 1, 1954, at a salary of \$14,000 an academic year. The recommendation has the support of the Provost, the Dean of the Graduate College, and the Dean-elect of the College of Liberal Arts and Sciences.

I concur.

On motion of Mrs. Watkins, this appointment was approved.

APPOINTMENT OF DR. REID T. MILNER AS PROFESSOR AND HEAD OF THE DEPARTMENT OF FOOD TECHNOLOGY

(4) The Dean of the College of Agriculture recommends the appointment of Dr. Reid T. Milner, now Director of the Northern Regional Research Laboratory at Peoria, Illinois, as Professor and Head of the Department of Food Technology on indefinite tenure, beginning April 19, 1954, at an annual salary of \$12,000 (AY). The recommendation is concurred in by other University officers concerned.

This appointment is to replace Dr. Louis B. Howard who is now Associate Director of the Agricultural Experiment Station and who has asked to be relieved of the headship of the Department of Food Technology.

I concur.

On motion of Mrs. Watkins, this appointment was approved.

GEORGE A. MILLER ENDOWMENT

(5) Now that the net assets of the George A. Miller Estate are in the possession of the University and the funds have been invested by it, I recommend that Professor Miller's bequest be officially designated "The George A. Miller Endowment.

A special faculty committee appointed for this purpose has been studying what use should be made of the income from this endowment. The committee has not completed its work but has agreed on one recommendation which I present to the Board with my approval:

There is hereby established a George A. Miller Visiting Professorship to be filled annually from any field in which advanced work is given at the University. The Department of Mathematics shall be given priority in the selection of the first candidate for this position. The salary of this professorship shall not be fixed but shall be determined by the qualifica-tions and professional standing of the candidate appointed. The first appointment shall be for the academic year 1954-1955.

It is unnecessary, and in my opinion inadvisable, to spell out the details of the position and how candidates shall be selected, as those are matters which

can be determined within the appropriate administrative echelons and no specific authority from the Board of Trustees is required. All appointments to this visiting professorship will be made in accordance with standard procedures and subject to the same approvals as all other appointments to major positions.

On motion of Mrs. Watkins, this recommendation was approved.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(6) The Committee on Nonrecurring Appropriations recommends assignments of funds as follows:

I. Department of Botany, purchase of steel storage cases.....\$ 2 850

- 2. Library, Chicago Undergraduate Division, for rebinding books and 2 000
- for acquisitions for use in graduate program in social work...... 3. Research and Educational Hospitals, installation of central television
- antenna system..... 4. Drug Plant Experiment Station, Chicago Professional Colleges, pur-5 000 chase of truck with hydraulic lift to replace present truck 3 500

Total......\$13 350

I recommend that these appropriations be made from the General Reserve Fund.

On motion of Mrs. Watkins, these appropriations were made by the following vote: Aye, Mr. Livingston, Mrs. Watkins: no, none; absent, Mr. Megran.

APPROPRIATION FOR BUILDING STUDIES

(7) The Building Program Committee needs an accurate inventory and func-tional analysis of the use of all space on the Urbana-Champaign Campus in studying requests for new buildings. Such data are also required in studies of any new construction for a permanent undergraduate division in Chicago as well as for major expansion at Urbana-Champaign to provide for increases in enrollment.

The technical and clerical staff to be employed in this work will need more adequate quarters and the Committee has asked that its staff be moved from present quarters at 1205 West California Avenue, Urbana, into one of the temporary buildings in the Parade Grounds housing area. This will also require employment of additional temporary staff and reactivation of one of the Parade Grounds units at an estimated cost of \$6,000.

Professional services on a per diem basis are required to translate estimates of floor areas into buildings, land areas, and finally into construction and site costs. An accurate estimate of the costs of such professional services is not feasible, but it appears that approximately \$7,000 will be required.

In addition, approximately \$2,000 is needed for staff services and miscellaneous expenses in calculating present capacity and requirements for anticipated expansion on the Urbana-Champaign campus. The Director of the Physical Plant, the Provost, and the Acting Comp-

troller recommend a nonrecurring appropriation of \$15,000 for these services and incidental expenses.

I concur.

On motion of Mrs. Watkins, this appropriation was made by the following vote: Aye, Mr. Livingston, Mrs. Watkins; no, none; absent, Mr. Megran.

APPROPRIATION FOR URBANA-CHAMPAIGN SANITARY DISTRICT

(8) Since 1947 the University has by contract authorized by the Board of Trustees been paying the Urbana-Champaign Sanitary District the University's proportionate share of the cost of operating the local sewage disposal plant. This share is computed on the basis of water consumption and during the last few years has amounted to 18 to 20 per cent of the total annual cost. The University has also contributed its proportionate share of the cost of improvements in the plant.

The Sanitary District is proposing a plant improvement by the construction of a digester with certain other equipment, at an estimated total cost of between \$90,000 and \$100,000. The improvement is required to provide adequate sludge digestion facilities which will prevent further pollution of the Saline Ditch and reduce fly nuisance caused by improperly digested sludge.

The estimated completion time is October, 1954. The Director of the Physical Plant and the Acting Comptroller recommend a nonrecurring appropriation of \$18,000, or so much thereof as may be necessary, to pay the University's share of this improvement computed in accordance with the above formula.

I concur.

On motion of Mrs. Watkins, this appropriation was made by the following vote: Aye, Mr. Livingston, Mrs. Watkins; no, none; absent, Mr. Megran.

ACQUISITION OF WESLEY FOUNDATION PROPERTY

(9) Negotiations have been concluded with the Wesley Foundation at the University of Illinois for the acquisition of the property owned by it which the University desires to purchase in the block bounded by Green Street, Goodwin Avenue, Illinois Street, and Mathews Avenue in the city of Urbana, Illinois, and for the transfer to the Foundation of the University property in this area which the Foundation desires to acquire, in accordance with the terms and conditions recommended by the Committee on Buildings and Grounds and approved by the Board of Trustees. This is to report that this transaction has been consummated through the exchange of special warranty deeds and payment of the agreed price to the Foundation. The land thus acquired by the University is needed as the site for a life

The land thus acquired by the University is needed as the site for a life sciences building which has been a top priority project in its building program for several years. It will take some time to dispose of the buildings (some of them are being used by the University and the activities housed in them will have to be transferred elsewhere) on the site and clear the area for new construction. It is important to acquire the land well in advance of availability of funds for construction and thus avoid potential and costly delays later. There is one more parcel of property, privately owned, on Illinois Street which the University needs to acquire. Negotiations for its purchase are in progress.

of thirds to constitution and this word potential and to compose the potential the temporation of the property providely owned, on Illinois Street which the University needs to acquire. Negotiations for its purchase are in progress. The contracting parties have agreed upon, surveyed, and established a joint boundary line 75 feet south of and parallel to the east and west center line of the block. The Foundation has conveyed all of its property south of this line to the University and the latter has conveyed the land it owned north of this line to the Foundation. Since the University has acquired a much larger area of land than it conveyed, it has made a net payment of \$117,500 to the Foundation. One of the parcels of Foundation property purchased by the University is at the southwest corner of the block and is under lease until June 30, 1954, so that conveyance of this particular tract to the University is subject to the lease. The rent payable under the lease will be prorated between the University and the Foundation.

The Foundation has agreed to waive its claim for rent subsequent to the termination of a rent-free agreement, up to the date of sale, on property of the Foundation which the University has been occupying and using as a parking lot for use by its staff. This is the corner area at Illinois Street and Goodwin Avenue east of the University Club.

The University, the Foundation, and the Trinity Methodist Church have covenanted that none of them will erect or maintain any building or other structure within fifteen feet north and south of the joint boundary line so established. The University will remove by August 15, 1954, all buildings and material above normal ground level on the land it owned north of this line and, if requested by the Foundation, will erect a suitable temporary fence on the line to separate the properties.

to separate the properties. The joint boundary line was established by survey and monumented, the legal descriptions of the various tracts conveyed by the deeds were ascertained and agreed upon, the title of the Foundation to the land conveyed by it to the University and the title of that conveyed by the latter to the former, and the survey, deeds, and other legal documents used in connection with consummating this transaction were approved by the University's Legal Counsel, and by counsel for the Foundation, prior to the execution and exchange of the deeds and other legal documents and the payment of the money.

All of the actions related above having been taken pursuant to previous authorization by the Board of Trustees, this report was received for record.

LEASE OF PROPERTY AT 704 SOUTH SIXTH STREET

(10) Professor Julius N. Hook, Department of English, has recently been appointed Executive Secretary of the National Council of Teachers of English, an important professional organization of nearly 14,000 teachers. The Council wishes to move its headquarters to the University of Illinois Campus at Urbana-Champaign so that Professor Hook can serve it more effectively as Executive Secretary. He will devote two-thirds of his time to the work of the Council for the second semester of the current year and after September 1, 1954, will be on one-half time with the Council and one-half time in the Department of English with corresponding adjustments in his University salary. It will be of great value to the University in its relations with the high schools of Illinois as well as with other colleges and universities throughout the country to have the Council's headquarters on the campus, as it will be the center for directing the training of teachers of English on a national scale.

To provide adequate quarters for the Council's work, it is recommended that space be leased on the first floor of the property at 704 South Sixth Street, Champaign. No satisfactory space is now available in University-owned premises. The University is already leasing quarters in this building for the Institute of Labor and Industrial Relations. Mr. W. B. Hayes, owner, has offered to lease the required space at a rate of \$300 a month, the University to pay for all water, gas, electricity, janitor service, and a proportionate share of fuel costs (the heat to be furnished by the lessor). The University would assume responsibility for decoration, such remodeling as is necessary, and the return of the property to its original condition except for natural wear and tear, damage by fire, wind, or other inevitable causes, upon the termination of occupancy.

The Board recently approved an extension of a previous lease for the second floor of this property for the Institute of Labor and Industrial Relations to September 1, 1956, to be executed by the University of Illinois Foundation. The proposed lease for the first floor will be on the same plan.

The following basis for division of costs between the University and the National Council of Teachers of English is proposed: the Council and the University to share equally the remodeling costs estimated at approximately \$500; the Council to assume all costs of repairs and restoration; the Council to assume full cost and responsibility for cleaning and all utilities, including heat; the rental to be shared equally between the University and the Council.

The proposed rate is reasonable in comparison with existing rates for similar areas leased in this community.

The Provost, the Director of the Physical Plant, and the Acting Comptroller recommend an annual appropriation of 1,800 and that this area be included as a part of the lease to be executed between the Foundation and Mr. W. B. Hayes for the second floor of this building with the understanding that the University will enter into an agreement with the National Council of Teachers of English covering the above items.

I concur.

On motion of Mrs. Watkins, the Executive Committee voted to request the University of Illinois Foundation to include in the lease of space in the building at 704 South Sixth Street, Champaign, quarters for the National Council of Teachers of English, in accordance with the terms and under the conditions herein recommended, provided that the action of the Committee is concurred in by a majority of the Board of Trustees.

CONTRACT FOR SERVICES OF REALTORS IN SALE OF UNIVERSITY OWNED HOUSES

(11) Following World War II the University purchased a number of residence properties and constructed other houses for rental to new members of the faculty whose services were required to take care of a greatly increased enrollment. This program included the erection of seventy-one prefabricated permanent houses, the construction of six houses designed by the Small Homes Council as a research project, the purchase of fifteen residences in various areas of Urbana and Champaign outside the zone of future campus expansion, the construction of the Student and Staff Apartments on Green Street and Goodwin Avenue, and the construction of thirty houses at Florida Avenue and Race Street, Urbana, by the Small Homes Council as a research and demonstration project.

It has been the plan gradually to dispose of all of these properties with the exception of the Student and Staff Apartments, the Small Homes Council houses on Florida Avenue and Race Street, and the properties which the University has acquired primarily for future campus expansion. Out of the original number, forty-eight newly constructed houses and twelve purchased properties remain unsold.

The permanent residences, including all of the prefabricated houses, will be offered for sale over a period of years and usually on the expiration of a final lease of occupancy and when otherwise vacated. In general it is proposed to offer such properties for sale to the occupants on or before October I preceding the expiration of their leases. If by the following April I the tenant does not elect to purchase the property, it will be put on general sale on the expiration of the lease but may be withdrawn from the market if it is needed for assignment to a new staff member. Houses not sold by the end of the lease period may be assigned to staff members also.

To carry out this program, the University needs the services of local realtors to assist in selling the properties. It is not feasible to list these properties for sale with all local realtors (there being approximately seventy of them), and it would not be fair to the lessees to give so many agents the right to show houses to prospective purchasers.

The Director of the Physical Plant and the Acting Comptroller recommend that the real estate firms of Chumbley, Turner, and Younger, Champaign; Sidney B. Trelease, in the University business district; and Boggs and Cogdall, Urbana, be commissioned to represent the University for the sale of all properties included in this program under the following conditions:

- a. The standard real estate fees will be paid. In the past a 5 per cent fee has been charged on the first \$10,000 of the sale price and 2½ per cent on the amount above \$10,000. A recent action of the Champaign-Urbana Real Estate Board fixed these rates on properties listed prior to January 15, 1954, and continuing on such properties until March I, 1954, after which the standard fee will be 5 per cent of the total sale price.
- b. The realtors will submit as part of their service appraisals on properties to be sold and the University will then establish the sale price. (The standard fee will cover all services on each transaction and there will be no extra charge for the appraisal.)
- c. A standard contract form will be used but will be subject to approval by the University in advance.
- d. The realtors will make public announcement that the properties are on the market and that they will cooperate with all local brokers in the sales of such properties. If another realtor participates, the commission will be shared.

All sales negotiated under this plan will be submitted to the Board of Trustees for approval in advance.

I concur in these recommendations.

On motion of Mrs. Watkins, these recommendations were approved and authority was given as requested.

CONTRACT FOR CONSTRUCTION OF WOMEN'S ATHLETIC FIELD

(12) It is necessary to lay out a new women's athletic field to replace the present one on which the new Home Economics Building will be constructed. Bids have been taken for the construction of a new field, immediately west of the Forestry (Illini Grove), on all phases of the work except fine grading, planting, and development of lawn surface. This will be done by the University later.

The Director of the Physical Plant and the Acting Comptroller recommend award of a contract for \$17,293.65 to Cross Construction, Inc., Urbana, the lowest bidder. Funds are available in the state appropriation for the construction of the new Home Economics Building and have been released by the Governor.

I concur and recommend that the Acting Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was awarded and the Acting Comptroller and the Secretary of the Board were authorized to execute the same.

CONTRACT FOR INSTALLATIONS IN MEDICAL CENTER STEAM COMPANY PLANT

(13) The Director of the Physical Plant and the Acting Comptroller recommend the award of a contract for \$5,408 to the Weishaupt Iron and Wire Works, Chicago, the lowest bidder, for installation of structural steel, stairways, walks, railings, and gratings in the Medical Center Steam Company plant to improve access to equipment located above the firing floor so that servicing can be more efficient and at less cost.

Funds are available in the Steam Plant revolving account and, upon completion of the installations, the Medical Center Steam Company will credit the University for the cost. Supervision of the work by the University is more practicable, as well as less expensive, than if the contract were awarded by the Medical Center Steam Company, which has no engineering or supervisory staff for such work.

I concur and recommend that the Acting Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was awarded and the Acting Comptroller and the Secretary of the Board were authorized to execute the same.

CONTRACT FOR POWER PLANT ADDITION

(14) The Director of the Physical Plant and the Acting Comptroller recommend award of a contract for \$72,720 to M. J. Holleran, Inc., Chicago, the lowest bidder, for substructure work and piping for the new cooling tower at the Abbott Power Plant. Award of the contract for the purchase of the cooling tower was approved by the Board on November 20, 1953.

by the Board on November 20, 1953. The contract will be subject to release of funds by the Governor from the state appropriation for an addition to the power plant.

I concur and recommend that the Acting Comptroller and the Secretary of the Board be authorized to execute this contract when funds are released.

On motion of Mrs. Watkins, this contract was awarded and the Acting Comptroller and the Secretary of the Board were authorized to execute the same.

SALE OF TEMPORARY HOUSING UNITS

(15) At its meeting on January 19, 1954, the Board of Trustees authorized the sale and removal of up to forty-six of the temporary housing units in the area to be cleared for the construction of the new Veterinary Clinic Building. Thirty-one of these units were sold to the seven highest bidders at prices ranging from \$50 for a one-bedroom unit to \$126.50 for a two-bedroom unit. The Board also authorized the sale of the remaining fifteen units at a price of \$50 each to buyers willing to meet the conditions of sale. So much public interest developed in the sale of the remaining units (one hundred people asked for information so that they could submit proposals) that bids were invited and forty-four firm proposals with bid deposits were received.

The Director of the Physical Plant and the Acting Comptroller recommend the sale of these fifteen units to the following highest bidders: BOARD OF TRUSTEES

[February 18

son, Wis.

I concur.

On motion of Mrs. Watkins, the sale of these buildings was authorized as recommended, this being consistent with the previous authorization of the Board of Trustees to dispose of the temporary buildings to the highest bidders.

SETTLEMENT OF CLAIM AGAINST ARMY NUTRITION LABORATORY UNDER CONTRACT NO. W-49-007-MD-388

(16) On February 23, 1953, the Board of Trustees was informed that the University had instituted a suit in the United States Court of Claims for the balance it claimed was due it under a contract entered into in 1947 with the Office of the Surgeon General of the United States for research work in the Research and Educational Hospitals. The contract included provision for the exclusive use by the Army Nutrition Laboratory of four beds in the Hospitals at a specified daily rate. The University's claim was for \$6,868.40. The Comptroller General of the United States approved payment of only \$361.90 on the ground that the beds assigned to the Army Nutrition Laboratory were not always occupied, notwith-standing that they were reserved for its exclusive use. The Board of Trustees approved the institution of these legal proceedings, including the complexity of the legal proceedings.

The Board of Trustees approved the institution of these legal proceedings, including the employment of the law firm of Fisher, Wayland, Duvall, and Southmayd of Washington, D.C., as special counsel for the University. On November 20, 1953, the Board authorized the Comptroller and the Legal

On November 20, 1953, the Board authorized the Comptroller and the Legal Counsel to make a compromise settlement of the claim contemplating the award of judgment for the University in the sum of \$5,000 thereon since it appeared that such a compromise was feasible and that protracted litigation would be costly.

The University's attorneys have reported to the Legal Counsel that on January 5, 1954, judgment was entered in favor of the University in the agreed sum of \$5,000 by the United States Court of Claims. It will, however, be some time before the University receives payment since an appropriation by Congress will be necessary. When payment is made to the University, I recommend that the Acting Comptroller be authorized to accept same and to pay the legal fees and other expenses in accordance with the terms agreed to by the University.

On motion of Mrs. Watkins, this report was received for record and authority was given the Acting Comptroller as recommended.

PURCHASES

(17) The Director of Purchases has proposed and the Acting Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid.

QUARTERLY REPORT OF THE COMPTROLLER

(19) The Acting Comptroller presents his quarterly report to the Board of Trustees as of December 31, 1953.

This report was received for record and a copy has been filed with the Secretary of the Board.

REPORT OF GIFTS AND GRANTS RECEIVED BY THE UNIVERSITY

(20) The following gifts and grants of funds received by the University have been accepted by the President and are now being reported for official record. The previous report of such gifts was made to the Board on February 23, 1953.

Colleges and Schools at Urbana-Champaign

A. Undergraduate Scholarships, Prizes, and Other Financial Aids

Mr. Robert Allerton, Hawaii, \$800 to continue the Robert Allerton Traveling Scholarships in architecture for 1953.
 Alpha Alpha Chapter of Alpha Phi Omega, national service fraternity, \$250 for scholarships for the academic year 1953-1954.
 Alpha Xi Chapter of Phi Mu Alpha-Sinfonia, professional music hon-

orary fraternity, \$50 to be added to the William G. Hill Memorial Scholarship in music.

4. American Air Filter Foundation, Inc., Herman Nelson Division, Moline, \$1,000 for three scholarships in the College of Engineering (\$400 for a senior, \$300 for a junior, and \$300 for a sophomore).

5. The Chicago Chapter of the American Foundrymen's Society, \$5,000 to establish an endowment fund to be known as the Robert E. Kennedy Scholar-ship in the College of Engineering, Chicago Undergraduate Division, for students in the foundry field.

 6. American Legion Auxiliary, Department of Illinois, Chicago, \$800 to continue a scholarship for one year of study in a Latin-American university. 7. American Society for Metals Foundation for Education and Research, Massachusetts Institute of Technology, Cambridge, Massachusetts, \$400 for a scholarship in metallymetal scripter for the order in the scripter for the scripter of the scholarship in scholarship in metallurgy or metallurgical engineering, for the academic year 1953-1954.

8. Lou Boudreau Trust Fund (a trust set up in the National Bank of Harvey, Illinois, by citizens of that community), \$438 for the Lou Boudreau Scholarship awarded to three male graduates of Thornton Township High School attending the University of Illinois.
9. Campus Chest, University of Illinois undergraduate fund-raising organi-

zation, \$1,400 for scholarships

10. Carbide and Carbon Chemicals Company, Texas City, Texas, \$1,000 for a scholarship in chemistry for the academic years 1952-1953 and 1953-1954.

¹ Deduct.

11. Ceco Steel Products Corporation, Chicago, \$2,000 for scholarships in engineering, for the academic year 1955-1956. 12. Chicago Farmers, Chicago, \$500 for a scholarship for a senior student

in agriculture.

13. Dads' Association, University of Illinois, \$200 to establish two scholarships, one to be awarded to a first-year woman student and one to a first-year man student, beginning with the academic year 1953-1954. 14. Douglas Aircraft Company, Inc., Santa Monica, California, \$600 for a

scholarship in the College of Engineering for the academic year 1953-1954. 15. Forney Foundation, Fort Collins, Colorado, \$500 for two scholarships,

one in agriculture and one in agricultural engineering, for the academic year 1953-1954.

16. Mr. and Mrs. Forrest L. Forsythe, Chicago, \$300 to establish the Robert Wade Forsythe Memorial Scholarship in architecture as a memorial to their son who died in Korea.

101. Westinghouse Educational Foundation, Pittsburgh, Pennsylvania, \$2,000 for the renewal of a fellowship in engineering for the academic year 1953-1954.

102. Abbott Laboratories of Chicago, \$500 to the Department of Animal Science for a study of arsanilic acid in swine rations.

103. African Violet Society of America, Inc., Canandaigua, New York, \$1,750 to the Department of Horticulture for research on African violets.

104. American Cancer Society, New York, New York: a. \$20,000 to the Department of Bacteriology for studies on virus growth and structure and on host-virus specificity, under the direction of Professor S. E. Luria, for one year beginning July 1, 1953. b. \$2,000 to the Department of Food Technology for a study of the influences

of carcinogenic agents on fat metabolism, under the direction of Dr. Fred A. Kummerow, for one year beginning July 1, 1952. c. \$3,832 to the Department of Botany for a study of the effect of indole-3-

acetic acid and other plant growth substances on the assimilation of pyruvate by wheat roots, under the direction of Dr. James F. Nance, for one year beginning

July 1, 1952. d. \$14,186.88 to the Department of Botany for a study on plant tumors produced by virus, under the direction of Professor L. M. Black, for one year beginning July 1, 1953.

105. American Dairy Association, Chicago, \$5,000 to the Department of Food Technology for a study to determine the nutritive value of heated butterfat compared to heated substitute fats.

106. American Dehydrators Association, \$1,500 to the Department of Animal Science for a study of the possibility of toxicity of antioxidants used in rations for calves and swine.

107. Armour and Company, Chicago:

a. \$3,000 to the Department of Animal Science to continue grant-in-aid.

b. \$3,000 to the Department of Food Technology for a study of the mechanism of unsaturated fatty acids and the nature of the products formed.

108. Borden Company, New York, New York, \$1,000 to the Department of Food Technology for research on fats, oils, and emulsifiers.

109. The Carle Foundation, Urbana, \$2,500 to the Department of Physiology for radiation studies.

110. Carnegie Corporation, New York, New York, \$8,500 for a pilot study of therapeutic counseling.

111. Columbia-Southern Chemical Corporation, Pittsburgh, Pennsylvania, \$5,000 to the Department of Agronomy for continuation of weed control investigations.

112. Dow Chemical Company, Midland, Michigan, \$1,800 to the Department of Agronomy to continue research on herbicides.

113. E. I. du Pont de Nemours and Company, Wilmington, Delaware:

a. \$30,000 to the Department of Chemistry and Chemical Engineering for fundamental research for the academic years 1953-1954 and 1954-1955.

b. \$500 to the Department of Agronomy for research on weed control.

114. Food Machinery and Chemical Corporation, Niagara Chemical Division Middleport, New York:

a. \$1,200 to the Department of Horticulture for research on chemical thinning of fruit trees.

b. \$500 to the Department of Agronomy for research on chemical control of weeds.

115. General Aniline and Film Corporation, General Aniline Works, New York, New York, \$1,800 to the Department of Chemistry and Chemical Engineering for the renewal of a research assistantship for the academic year 1953-1954.

116. Illinois Farm Supply Company, \$2,000 to supplement research programs in the Departments of Animal Science and Dairy Science.

117. Illinois Seed Producers Association, Inc., \$6,183.21 to the Department of Agronomy for corn research.

118. Illinois State Chamber of Commerce, \$3,000 to the Bureau of Educational Research for a public school finance study in the state of Illinois. 119. Inter-University Labor Education Committee (funds supplied by the Ford

Foundation), \$17,500 for participation of the Institute of Labor and Industrial Relations with other universities in labor education programs. (A continuation of previous grants.)

120. Eli Lilly and Company, Indianapolis, Indiana, \$1,500 to the Department of Chemistry and Chemical Engineering for research on triterpene and steroids for one year beginning January I, 1954.

121. Midwest Barley Improvement Association, Milwaukee, Wisconsin, \$200 to

the Department of Agronomy for barley variety fertilizer tests. 122. Mrs. C. Phillip Miller, Chicago, \$2,296 to be added to the Sinnissippi Forest Trust Fund in support of forestry research.

123. Monsanto Chemical Company, Dayton, Ohio, \$1,000 to the Department of Animal Science for a study of cattle feed supplements. 124. National Livestock and Meat Board, \$2,600 to the Department of

Physiology for a study of the effects of a sustained diet of meat for one year on nitrogen, calcium, phosphorus, sodium, and potassium metabolism.

125. National Science Foundation, Washington, D.C., in support of the following research:

a. \$5,000 for research on metal complexes in resolution of optically active organic substances, under the direction of Professor John C. Bailar, Jr., Department of Chemistry and Chemical Engineering (G280)

b. \$11,800 for research on properties of glacial till, under the direction of Professor George W. White, Department of Geology (G443).

c. \$5,300 for research on transference numbers of salts in non-aqueous solvents, under the direction of Dr. B. Roger Ray, Department of Chemistry and Chemical Engineering (G484).

126. National Vitamin Foundation, Inc., New York, New York, \$4,950 to the Department of Animal Science for studies of the mechanism of vitamin B12 activity.

127. Northern Illinois Breeding Association and the Southern Illinois Breeding Association, \$10,000 to the Department of Dairy Science for research in artificial insemination.

128. Pennsylvania Salt Manufacturing Company, \$500 to the Department of Agronomy for weed studies.

129. Pure Milk Association, \$1,000 to the Department of Food Technology for a study to develop new types of dairy spreads. 130. Riverdale Chemical Company, Harvey:

a. \$500 to the Natural History Survey for entomological research. b. \$1,000 to the Department of Agronomy for research on weed control. 131. The Rockefeller Foundation, New York, New York: a. \$25,000 to the Department of Entomology for research under the direction of Professor G. S. Fraenkel, for three years beginning July 1, 1953.

b. \$27,000 to the Department of Bacteriology for the research and training

program of Professor H. O. Halvorson, for three years beginning July 1, 1953. c. \$18,200 for American Studies in Kyoto, Japan, under the sponsorship of Kyoto University, Doshisha University, and the University of Illinois. 132. Rural Electrification Council and the Illinois Agricultural Association,

\$5,000 to assist in financing farm safety programs. 133. Schlitz Brewing Company, Milwaukee, Wisconsin, \$2,500 to the Depart-

ment of Food Technology for research investigations on the use of ruby glass as a container material for such products as milk, fats, and other materials subject to deterioration from exposure to light.

134. Smith-Douglass Company, Inc., Streator, \$7,500 to the Department of Agronomy for soil research. 135. Swift and Company, Chicago:

a. \$8,000 to the Department of Animal Science for research on nutritional requirements of pregnant and lactating swine.

b. \$6,000 to the Department of Bacteriology for a study of bacterial spores.

136. Tennessee Corporation Research Laboratories, College Park, Georgia, \$400 to the Department of Horticulture for investigations of fungicides for the

control of diseases of fruits, vegetables, and ornamental plants. 137. Union Stock Yard and Transit Company, Chicago, \$5,200 to the Depart-ment of Agricultural Economics for a study of livestock marketing. 138. United States Rubber Company, Naugatuck Chemical Division, \$500 to

the Department of Horticulture for a study of usefulness of fungicidal mixtures in spraying Illinois fruit (apple and peach) trees.

139. \$13,925 from the following donors for College of Agriculture research and education programs in farm electrification: Association of Illinois Electric Cooperatives, \$7,000; Central Illinois Electric and Gas Company, \$425; Central

Cooperatives, \$7,000; Central Illinois Electric and Gas Company, \$425; Central Illinois Light Company of Peoria, \$550; Illinois Power Company of Decatur, \$2,450; Public Service Company of Northern Illinois, \$3,500. 140. \$3,234.56 from the following donors to the Department of Mechanical Engineering for an exhibit "Thermal Response to Entering and Leaving Hot Environments" in the Scientific Exhibit of the American Medical Association, Grand Central Palace, New York, June, 1953: American Society of Heating and Ventilating Engineers, \$2,134.56; Carrier Corporation, \$500; Eureka Williams Corporation, \$500; Trane Company, \$100; Viking Air Conditioning Corporation, \$500; \$150; Worthington Corporation, \$300.

141. Velsicol Corporation, Chicago, \$2,500 to the Department of Zoology for an investigation of the toxicity of chlorinated hydrocarbons, for one year beginning July 1, 1953. 142. Western Cartridge Company, a division of Olin Industries, East Alton,

\$2,600 to the Natural History Survey for research on migratory waterfowl.

143. The Aluminum Company of America, New Kensington, Pennsylvania, to the Department of Mining and Metallurgical Engineering, a 10-inch by 291/2-inch finishing foil mill.

144. Bay State Abrasive Products Company, Westboro, Massachusetts, to the Department of Mechanical Engineering, a display board of abrasive products (estimated value, \$1,000).

145. Mr. Charles M. Cadwell, Cadwell, Illinois, to the College of Fine and Applied Arts, two paintings by the distinguished American painter, Ralph A. Blakelock.

146. Chrysler Corporation, Detroit, Michigan, to the Department of Mechanical Engineering, a new Dodge Red Ram V-8 engine (estimated value, \$650).

147. Commonwealth Edison Company, to the Department of Mechanical Engineering, equipment to be used in the heat pump research program (estimated value, \$900).

148. Ford Motor Company, Ford Division, Melrose Park, to the Department of Mechanical Engineering, two new Ford truck engines (estimated value, \$1,000).

149. Harnischfeger Corporation, Crystal Lake, Illinois, to the Department of Mechanical Engineering, a Harnischfeger P and H four-cylinder Diesel engine (estimated value, \$1,000).

150. Illinois Power Company, air-conditioning equipment for the network analyzer room in the Electrical Engineering Building.

151. Japanese University Accreditation Association, Tokyo, Japan, reproductions of murals from the Horyuji Temple.

152. Estate of Maude S. Lundgren, a Japanese sword and an oil painting of her husband, the late Carl Lundgren, University baseball coach.

153. Professor *Emeritus* William Spence Robertson of the Department of History, his personal library.

154. Mr. and Mrs. Merle J. Trees of Chicago, \$1,000 to be added to the income account of the "Emily Nichols Trees (Class of 1905) and Merle Jay Trees (Class of 1907) Collection Endowment Fund" for the maintenance of the Trees collection of paintings.

155. University Club of Chicago, to the Department of Architecture and Art, Chicago Undergraduate Division, twenty framed engravings.

156. Miss Nellie Walker, Colorado Springs, Colorado, to the College of Fine and Applied Arts, a 28-inch bronze figure of Lorado Taft.

b. \$1,000 to the Department of Physiology for a study of the effect of a new type of renal extract in experimental hypertensions, under the direction of Dr. G. E. Wakerlin, for one year beginning August 1, 1953.

c. \$500 to the Department of Medicine for a study of B12 absorption using radioactive cobalt, under the direction of Dr. Robert M. Kark, for one year.

d. \$1,600 to the Department of Medicine for research on connective tissue in allergy, under the direction of Dr. Max Samter.

e. \$2,000 to the Department of Medicine for a study of the effects of diet concentrated nutrients and drugs in preventing or curing D. F. P. demyelinization in rats and its relationship to multiple sclerosis, under the direction of Dr. Robert M. Kark.

158. American Felsol Company, \$5,000 to the Department of Medicine for a study of the effect of antipyrine and related drugs on bronchial asthma, under the direction of Dr. Max Samter.

159. Armour Laboratories, Chicago, \$3,600 to the Department of Medicine for the Armour Hematology Fund, for research by Dr. Harry F. Dowling.

160. Bauer and Black, \$1,000 to the Department of Dermatology for continuation of a study of the action and utility of phenoxyethanoic acid, under the supervision of Dr. Adolph Rostenberg.

161. Ciba Pharmaceutical Products, Inc., Summit, New Jersey, \$4,284 to the Department of Medicine for experimental and clinical studies in hypertensive disease, under the direction of Doctors Ford K. Hick and R. L. Grissom, for one year beginning March 1, 1953. 162. Cook-Waite Laboratories, Inc., New York, New York, \$500 to the

162. Cook-Waite Laboratories, Inc., New York, New York, \$500 to the Department of Surgery for a study of use of local anesthetics in dentistry, under the direction of Dr. Max Sadove.

163. Davis and Geck, Inc., Brooklyn, New York, \$500 to the Department of Surgery to be added to the visual education grant for studies under the supervision of Doctors Warren H. Cole and H. P. Jenkins.

164. Gillette Safety Razor Company, Boston, Massachusetts, \$19,500 to the Department of Biochemistry for a study of the role of the sulfhydryl group in cellular metabolism, under the direction of Dr. L. L. Gershbein.

165. Griffith Laboratories, \$325 to the Department of Pharmacology, to be added to the Anonymous Renal Research Fund, for research under the supervision of Dr. C. C. Pfeiffer.

166. Hoffman-La Roche, Inc., Nutley, New Jersey, \$1,500 to the Department of Surgery for research on arfonad, under the direction of Dr. Max S. Sadove. 167. Eli Lilly Company, Indianapolis, Indiana:

a. \$1,671 to the Department of Physiology for a study of synovial membrane permeability, under the direction of Dr. C. I. Reed.

b. \$2,000 to the Department of Physiology for a study of behavior of plasma proteins in the kidney, under the direction of Dr. A. A. Schiller.

c. \$5,400 to the Department of Medicine for a study of the effect of drugs and hormones on the production of anti-erythrocytic auto-antibodies and on the degree

of resultant hemolysis, under the direction of Dr. William R. Best. 168. Mallinckrodt Chemical Works, St. Louis, Missouri, \$10,000 for the renewal of a fellowship in the Department of Pharmacology for one year begin-ning January I, 1953, and an addition to the Mallinckrodt Anticonvulsant Fund, both grants being for studies under the supervision of Dr. C. C. Pfeiffer,

169. Miles Laboratories, Chicago, \$650 to the Department of Clinical Science

for research on pancreatitis, under the direction of Dr. A. C. Ivy. 170. Ohio Chemical and Surgical Equipment Company, Madison, Wisconsin, \$700 to the Department of Surgery for a study of isopropyl vinyl ether, under the

direction of Dr. Max S. Sadove. 171. Parke, Davis and Company, Detroit, Michigan, \$3,600 to the Department of Biological Chemistry for a study on blood dysorasias, under the direction of Dr. S. B. Binkley.

172. Charles Pfizer and Company, Inc., Brooklyn, New York:

a. \$12,000 to the Department of Medicine for continuation of investigations of infectious diseases, preventive medicine, and related fields, under the direction of Dr. Harry F. Dowling, for two years beginning September 1, 1952.

b. \$1,000 for the renewal of scholarships in the College of Medicine.

173. Riker Laboratories, \$500 to the Department of Dermatology for a study of the use of silver asboloxane as a fungicidal agent, under the direction of Dr. F. E. Senear.

174. Smith, Kline, and French Laboratories, Philadelphia, Pennsylvania:

a. \$5,000 for a fellowship under the direction of Dr. C. C. Pfeiffer, Department of Pharmacology, for one year beginning January 1, 1953.

b. \$1,000 for lectures on neurophysiology, under the direction of Dr. R. W. Gerard.

175. R. J. Strasenburgh Company, Rochester, New York, \$5,500 to the Department of Clinical Science for a study of the effects of inositol hexanitrate in patients with hypertension, under the direction of Dr. A. C. Ivy, for one year beginning May 1, 1952. 176. Travenol Laboratories, Inc., Morton Grove, \$2,500 to the Department of

Pharmacology for a study of the analgesic and convulsant effect of pyrogens, under the direction of Dr. C. C. Pfeiffer, for one year beginning January 1, 1952.

177. Winthrop-Stearns, Inc., New York, New York, \$500 to the Department of Surgery for investigation of ravocaine with inositol, under the direction of Dr. Max S. Sadove.

178. Mr. Victor S. Yarros, \$300 to be added to the Rachelle S. Yarros Scholarship Fund.

179. Louis Bothman Fellowship Memorial Fund, Inc., \$1,264.86 for the Louis Bothman fellowship in ocular pathology, under the supervision of Dr. William F.

Hughes, Jr. 180. Chandler Research Fund, \$16 to the Department of Orthopaedic Surgery for research under the direction of Dr. F. A. Chandler.

181. W. K. Kellogg Foundation, \$20,000 to the College of Dentistry for the development of extension postgraduate teaching program.

182. Lakeland Foundation, Chicago:

a. \$12,429 to the Department of Clinical Science for continuation of a study to attempt to isolate the growth stimulating and inhibiting agents from the liver

or intestinal mucosa, under the direction of Dr. A. C. Ivy. b. \$1,778 to the Department of Clinical Science for continuation of the cancer diagnostic test, under the direction of Dr. A. C. Ivy. 183. Leukemia Research Foundation, Inc., Chicago, \$5,648 to the Department

of Anatomy for a study on the influence of the age of the mother on the incidence of spontaneous leukemia in inbred mice, under the direction of Dr. Arthur Kirschbaum, for the period April 1, 1953, through September 30, 1954.

184. John and Mary R. Markle Foundation, New York, New York, \$12,000 for scholarships in the medical sciences.

185. National Foundation for Medical Education, Inc., \$30,142.50 for the educational programs of the College of Medicine. (\$1,882.50 of this amount has been contributed by individual physicians.)

186. National Foundation for Prevention of Blindness, \$4,000 to the Department of Ophthalmology to study the rate of secretion of aqueous in man, under the direction of Dr. P. C. Kronfeld.

187. Ortho Research Foundation, Raritan, New Jersey, \$1,500 to the Department of Obstetrics and Gynecology for research on a comparison of calcium ferrous citrate mol-iron and ferrous sulfate in the treatment of secondary anemias of pregnancy, under the direction of Dr. F. H. Falls. 188. The Teagle Foundation, Inc., \$16,000 to the Department of Psychiatry

for continuation of research in paralysis agitans, under the direction of Dr. Ralph Gerard.

189. American Cancer Society, Inc., New York, New York:

a. \$6,000 to the Department of Pathology for continuation of a study of changes in the connective tissue stroma of the cyclic organs of reproduction as influenced by hormones — integration of parenchymatous and stromal changes, under the direction of Dr. H. R. Catchpole. b. \$4,412.42 to the Department of Biological Chemistry for research on the

turnover of plasma mucoprotein studies with isotopically labeled amino acids, under the direction of Dr. R. J. Winzler, for the period September 1, 1952, to June 30, 1953.

c. \$4,725 to the Department of Anatomy for continuation of research on chemotherapy of mouse leukemia, under the direction of Dr. Arthur Kirschbaum, for one year beginning July 1, 1952.

190. American Heart Association, New York, New York, \$5,250 to the Department of Physiology for research on pathogenesis and treatment of experi-mental renal hypertension, neurogenic hypertension, and experimental malignant hypertension, under the direction of Dr. George E. Wakerlin, for one year beginning July 1, 1952.

191. American Society of Heating and Ventilating Engineers, New York, New York, \$6,500 to the Department of Medicine for research under the direction of Dr. Ford Hick, for one year beginning July 1, 1952.

192. Asthmatic Children's Aid, Chicago: a. \$250 to the Departments of Dermatology and Medicine for services of a consulting psychologist for the Allergy Clinic, under the direction of Doctors Ben Z. Rappaport and Max Samter.

b. \$5,000 to the Department of Medicine (Allergy Unit) for studies in immunology and histochemistry under the direction of Doctors Ben Z. Rappaport and Max Samter.

193. Beverly Hills Junior Women's Club, \$50 to the Orthopaedic Gift Fund.

194. Chicago Heart Association, \$10,500 to the Department of Physiology to continue research on pathogenesis and treatment of experimental renal hypertension in dogs and monkeys, under the direction of Dr. G. E. Wakerlin, for one year beginning July 1, 1953.

195. CIO Local 1220, \$20 for patient entertainment.
196. Drama Club of Evanston, \$500 to the Department of Orthopaedic Surgery.
197. Illinois Veterinary Practitioners Association, \$25 to the Chicago Professional Colleges Library.

198. Women's Auxiliary of the College of Medicine, \$6 to the Department of Orthopaedic Surgery for the Orthopaedic Gift Fund for Children.

199. Kappa Alpha Theta Sorority, \$219.62 to the Department of Orthopaedic Surgery for the Orthopaedic Gift Fund.

200. Muscular Dystrophy Association, New York, New York, \$5,000 to the Department of Medicine for a study of carnitine metabolism in muscular dystrophy, under the direction of Dr. Robert M. Kark, for one year beginning January 28, 1953.

201. National Tuberculosis Association, \$3,351.66 to the Department of B10logical Chemistry for a study of mucoproteins of human plasma, under the direc-tion of Dr. R. J. Winzler, for the period November 1, 1952, through March 31, 1953. 202. Phi Mu Sorority \$13.26 to the Occupational Therapy Gift Fund.

203. United Cerebral Palsy Association:

a. \$10,000 to the Department of Pharmacology for a study of neuropharmacology aspects of cerebral palsy, under the direction of Dr. Klaus R. Unna, for one year beginning May 1, 1953.

b. \$22,313 to the Department of Physical Medicine for a program of research, education, and service to the sick in the interests of cerebral palsied patients, under the supervision of Dr. Frances A. Hellebrandt.

c. \$3,600 to the Department of Occupational Therapy for a special study of the treatment of cerebral palsy to provide basic instruction in clinical administration of the cerebral palsy cases, under the direction of Miss Beatrice D. Wade.

204. Women's Auxiliary of the College of Medicine, \$110 to the Occupational Therapy Gift Fund.

205. Women's Council for Blood Research, Inc., \$1,000 to the Department of Medicine for a study on serologic aspects of hematology, under the direction of Dr. Mark H. Lepper.

206. United States Public Health Service, for support of the following research and educational programs:

a. \$4,725 for study of dialyzability of substances involved in syndromes of hepatic coma, postoperative hepatorenal syndrome, eclampsia and other intoxi-cations by modified Kolff techniques, and biological and chemical characterization of dialysate, under the direction of Dr. S. H. Armstrong, Department of Medicine, for one year beginning December 1, 1951 (A-93-C).

b. \$6,340 for biochemical studies on gulose, idose, and talose, under the direction of Dr. Paul Kohn, Department of Biological Chemistry, for one year beginning September 1, 1953 (A-425).

c. \$35,008 for studies on metabolism, morphology, and electrical properties of the nervous system in relation to each other and to normal and disturbed function-ing, under the direction of Dr. R. W. Gerard, Department of Psychiatry, for one year beginning September 1, 1953 (B-413).

d. \$11,502 for research on relations between nuclear and cytoplasmic nucleoproteins in developing and mature nerve cells, under the direction of Doctors Arthur and Faith La Velle, Department of Anatomy, for one year beginning September 1, 1953 (B-415).

e. \$9,828 for the study of odontome formation in a known strain of rats, under the supervision of Dr. Isaac Schour, Department of Histology, for one year beginning October 1, 1952 (C-464-C4).

f. \$4,908 for the study of the chemical and mechanical factors which may alter the normal growth pattern of gastric mucosa, under the direction of Dr. A. C. Ivy, Department of Clinical Science, from November 1, 1952, through February 28, 1954 (C-1110-C3).

g. \$9,936 for the study of the role of adrenal cortical secretion in the genesis and growth of mouse mammary cancer, under the direction of Dr. Arthur Kirschbaum, Department of Anatomy, for one year beginning September 1, 1953 (C-1969),

h. \$4,551.57 for the study of desensitization in the eozematously sensitized animal, under the direction of Dr. Adolph Rostenberg, Department of Dermatology,

for one year beginning April I, 1953 (C-3424-C). i. \$24,401.42 to the Tumor Clinic for cancer training grant, under the direc-tion of Dr. Danely P. Slaughter, for one year from April I, 1952 (CT-630-C4). j. \$5,000 to promote a teaching cancer program, under the supervision of Dr. Isaac Schour, Department of Histology, for one year from April I, 1953 (CT-663-C5).

k. \$1,609 for research on facial growth, under the supervision of Dr. Bernard G. Sarnat, Department of Oral and Maxillofacial Surgery, for one year beginning November 1, 1952 (D-26-C3).

1. \$5,123.49 for an electronmicroscopic study of the glomerulus, especially its basement membrane in normal and nephritic mice, under the direction of Doctors Parke H. Simer and Arthur Kirschbaum, Department of Anatomy, for one year beginning April 1, 1953 (G-3423-C).

m. \$10,735.18 for an investigation of heat regulation of the aged and infirm, under the direction of Dr. Ford K. Hick, Department of Medicine, for one year from July 1, 1953 (G-3415-C).

n. \$500 for the study of dental caries, under the direction of Doctors Milan V. Novak and Jack Zwemer, Department of Bacteriology (GR6D 3484f-C).

o. \$8,164.69 for a study of adaptations of human cardiovascular mechanisms to stress, to physiologic anoxia, to alterations in serum osmotic pressure; an approach to definition of circulatory failure in terms of ability to adapt to stress, under the direction of Doctors S. H. Armstrong, Jr. and R. L. Grissom, Department of Medicine, for one year beginning November 1, 1952 (H-404-C3).

p. \$5,967 for research on quantitative estimation of vascular permeability with emphasis on alterations due to changes in blood PO₂ and P^{eo}₃, under the direction of Dr. A. A. Schiller, Department of Physiology, for one year beginning September 16, 1952 (H-425-C3).

q. \$20,000 for the renewal of a grant on the pathogenesis and treatment of experimental renal hypertension, neurogenic hypertension, and experimental malignant hypertension, under the direction of Dr. George E. Wakerlin, Department of Physiology, for one year beginning September 16, 1952 (H-428-C3).

r. \$6,913.36 for research on the isolation and characterization of cardiac myofibrils, under the direction of Dr. G. M. Hass, Department of Pathology, for one year beginning September 16, 1953 (H-429-C3).

s. \$4,915.73 for the study of experimental arteriosclerosis and atherosclerosis in young and old rabbits, under the direction of Dr. G. M. Hass, Department of Pathology, for one year beginning September 16, 1952 (H-452-C3).

t. \$15,619 for research on endothelial permeability in ascites and edema as modified by therapy, under the direction of Dr. R. M. Kark, Department of Medicine, for one year beginning September 16, 1952 (H-1029-C).

u. \$4,999.75 for the study of glomerulonephritis in inbred mice, under the direction of Dr. Arthur Kirschbaum, Department of Anatomy, for one year beginning November 1, 1952 (H-1062-C).

v. \$6,200 for the study of endocrine effects on the metabolism and function of the myocardium, under the direction of Dr. W. V. Whitehorn, Department of Physiology, for one year beginning January 1, 1953 (H-1353).

w. \$3,053 for the study of the effects of long-term therapy with hexamethonium and hydrazinophthalazime on renal hemodynamics and electrolytes, under the direction of Dr. James A. Schoenberger, Department of Medicine, for one year beginning December 1, 1952 (H-1354).

x. \$12,322 for the study of renal hemodynamics as influenced by drugs, under the direction of Dr. T. R. Sherrod, Department of Pharmacology, for one year from July I, 1953 (H-1665-C).

y. \$14,000 for the cardiovascular teaching program, Department of Medical Administration, for one year beginning September 1, 1952 (HT-300-C3).

z. \$20,145 for the study of the analysis of the factors involved in the psychoanalytic therapy process, under the direction of Dr. David Shakow, Department of Psychiatry, for one year beginning June 1, 1953 (M-637).

ADDITION TO CONTRACT FOR CONSTRUCTION OF MEN'S RESIDENCE HALLS

(21) The Director of the Physical Plant and the Acting Comptroller recommend an increase of \$2,950 in the contract with the Felmley-Dickerson Company for the construction of the Men's Residence Halls, approved by the Board November 23, 1951, for the construction of a ramp at the west end of the Flagg House unit for the use of paraplegic students living in the Parade Grounds Units, so that they may have better access to the food service facilities which have been enlarged as a part of the residence halls expansion program. The estimate of cost has been checked by the Physical Plant Department and found to be a reasonable charge.

Funds are available in the proceeds of the Residence Hall bond issue of 1951.

 \hat{I} concur and recommend that the Acting Comptroller be authorized to execute this addition to the contract.

On motion of Mrs. Watkins, this increase was approved and the Acting Comptroller was authorized to execute the change in the contract.

APPLICATION OF ILLINOIS POWER COMPANY FOR RATE INCREASES (22) The President of the University reported on a conference he has had with officials of the Illinois Power Company relating to the University's position on the Company's rate hearings before the Illinois Commerce Commission. The Company has requested authority to increase rates charged for electric power, gas, and steam. The University is cooperating with the municipal officials of Urbana and Champaign in preparing data and assembling other information pertinent to the proposed rate increases to be used at the hearings. If, after the University's investigation has been completed, it concludes that the proposed rate increases are not objectionable, it will withdraw from the hearings and state its position to the Commission.

This report was received for record.

EXECUTIVE SESSION

At this point, an Executive Session having been requested, it was so ordered for consideration of the following recommendations from the President of the University.

EQUIPMENT ACQUISITION FOR CONTROL SYSTEMS LABORATORY

(23) The Department of the Navy has requested the University to acquire a special purchase computer for use in certain of the classified programs being carried on for the government by the Control Systems Laboratory. It is proposed that this be accomplished by a contract with the Office of Naval Research which will reimburse the University for all costs of such acquisition, including an allowance for indirect costs.

It will then be necessary for the University to subcontract with a vendor approved by the government and the University. Because of the problems involved resulting from classified research and the unique nature of the equipment to be acquired, it is very probable that a vendor will have to be chosen primarily upon basis of ability to deliver and with only informal competitive proposals. It is anticipated that the cost of the equipment will not exceed \$320,000.

The acquisition of this equipment by the Control Systems Laboratory will commit the University to the continuation, for several years, of certain of the government-sponsored programs of the Control Systems Laboratory._____

The Director of the Laboratory and the Dean of the College of Engineering recommend the negotiation of these proposed contracts as described above and the acceptance of the commitment to continue at least certain programs of the Control Systems Laboratory for several years beyond the expiration of the present general contract November 30, 1954. I concur in this recommendation and request that the Acting Comptroller

I concur in this recommendation and request that the Acting Comptroller and the Secretary of the Board be authorized to execute the necessary documents.

On motion of Mrs. Watkins, this recommendation was approved and authority was given as requested.

PATENTABLE DISCOVERY

(24) The University Patent Committee reports that Robert C. Hansen, Research Associate in Electrical Engineering, and Edward C. Jordan, Professor of Electrical Engineering, have developed a new method of radio direction finding which eliminates or substantially reduces the error known as polarization error or night-effect error. This method, and systems resulting therefrom, have chief application in aircraft radio direction finding, but they may also be used in shipboard and ground-based direction finders. This invention was the result of research under an Air Force contract and will be of primary importance to the Armed Services. The University Patent Committee concurs in the recommendation of the Department of Electrical Engineering that the invention be released to the Air Force.

I concur and request approval.

On motion of Mrs. Watkins, this recommendation was approved.

DELETION OF WORK REMAINING TO BE DONE BY PATRICK WARREN CONSTRUCTION COMPANY UPON RESEARCH AND EDUCATIONAL HOSPITALS ADDITION AND ASSIGNMENT OF ITS SUBCONTRACTS TO UNIVERSITY

(25) The present status of various phases of the contract between the Patrick Warren Construction Company (hereinafter termed "Warren") and the University for the general construction work upon the Research and Educational Hospitals Addition and of the work to be done thereunder, and of certain claims asserted by Warren and others against the University in connection with this project, is outlined in a memorandum which has been filed with the Secretary of the Board and copies of which have been presented to the members of the Board of Trustees today. For the reasons stated therein, it appears desirable that action be taken to secure the completion of work remaining to be done by Warren's subcontractors upon the Hospital Addition and effect and secure reasonably prompt payment, if possible, to Warren's subcontractors who have done work upon and/or furnished materials to this building of the balances due them therefor under their contracts with Warren, and to enable the University to take over and complete the work remaining to be done by Warren under its contract with the University as soon as possible. A proposal designed to accomplish these ends has been submitted to Warren, subject to this Board's approval, and Warren has notified the University, in writing, that it is acceptable to it.

The proposal contemplates:

- I. The assignment by Warren to the University of the contracts between Warren and all of the latter's subcontractors who have not been paid in full what is due them under those contracts, and the acceptance by the University of the assignments thereof, upon the following terms and conditions, viz.:
 - a. That each of said subcontractors will agree to accept payment direct from the University of the amount which that subcontractor and Warren agree is due the former for its work (when completed, in the case of those subcontractors who have not fully completed their work to date) in full payment of everything due said subcontractor from Warren and/or the University for all materials furnished and/or work done by the subcontractor for or upon the building, and will also, upon payment of said sum by the University to it, waive all other claims and all liens which the subcontractor may have or assert against Warren and/or the University in connection with this project and furnish Warren and the University with a full and complete release of all claims and a waiver of all liens.

- b. That each subcontractor who has not completed its work will agree to promptly resume it, and to complete it by April 16, 1954, for the payment of said sum by the University to it upon completion of its work.
- c. That Warren will agree to the payment by the University of said sums directly from the University to said subcontractors and will allow the University full credit therefor upon Warren's contract with the University.
- d. That an agreement be reached between Warren and each of its said subcontractors as to the amounts to be paid to the latter by the University, and for which Warren will allow the University such credit, in accordance with the foregoing.
- 2. That all work remaining to be done by Warren (i.e., that not covered by Warren's contracts with its subcontractors) under its said contract with the University be deleted, and Warren be relieved of all further obligation to complete that work, in return for a credit in the sum of \$6,000 to be allowed the University by Warren under the contract between them for the deletion of that work.

For the reasons stated in the above-mentioned memorandum, the Director of the Physical Plant, the Acting Comptroller, and the Legal Counsel recommend that said proposal be approved, that the assignment of said subcontracts by Warren to the University and the deletion of Warren's remaining work in return for said credit, upon the foregoing terms and conditions, be authorized, and that the Director of the Physical Plant, the Acting Comptroller, and the Secretary of the Board be authorized to execute and deliver all agreements, change orders, and other documents and make all payments, when approved by the Legal Counsel, necessary or appropriate to effect and carry out the same.

Accomplishing and carrying out the foregoing proposals will not dispose of the entire controversy between Warren and the University or those between the University and some of its other prime contractors upon this building. Warren asserts substantial claims against the University not included within the unpaid balance of the price specified in the contract between them. With a few possible minor exceptions, the University denies any liability to Warren on account of those claims and the University asserts claims against Warren, in excess of \$100,000, upon which Warren denies liability to the University. Negotiations and discussions are now in progress between Warren and the University relative to a tentative proposal made Warren, subject to approval of the Board of Trustees if accepted by Warren, to pay Warren the balance of the amount specified in the contract between Warren and the University remaining unpaid after the University has received credit for the amounts it will pay directly to Warren's subcontractors and the above-mentioned \$6,000 credit (if the above proposal is approved by the Board and proves acceptable to the subcontractors) and the full release of all of the latter's possible claims against the University, but, since that proposal is still the subject of negotiation and discussion, it is not being presented to this Board for action thereon at this time.

I concur in these recommendations.

On motion of Mrs. Watkins, the proposal recommended was approved and authority was given as requested.

KREBIOZEN INVESTIGATING COMMISSION

The Legal Counsel reported the contents of a notice received by him from the Krebiozen Investigating Commission and consulted with the Trustees present with respect to the actions to be taken by him on behalf of the University in connection with the matters specified in the notice.

SECRETARY'S REPORTS

The Secretary presented for record the following lists: (1) appointments made by the President; (2) fellows; (3) resignations, cancellations, and declinations; (4) leaves of absence.

APPOINTMENTS MADE BY THE PRESIDENT

(The date in parentheses is the date on which the appointment was made by the President of the University. C = College; S = Station; E = Extension.)

- ALBIN, ETHEL, Clinical Assistant in the School of Nursing, seven months beginning February 1, 1954, \$3360 a year (1-27-54).
- ALLEN, CHARLES M., Professor of Education in the Kyoto American Studies Center, Kyoto, Japan, February 1-August 31, 1954, \$825 a month, supersedes (1-12-54)
- ARMSTRONG, S. HOWARD, Professor of Medicine, on indefinite tenure beginning September 1, 1953, without salary, supersedes (1-22-54).
- BALAGOT, REUBEN C., Assistant Professor of Anesthesiology, in the College of Medicine, on 85/100 time, seven months beginning February 1, 1954, \$7250 a year, supersedes (1-27-54).
- BALES, MRS. RETTA E., Assistant Director of Clinics, in the Research and Educational Hospitals, one year beginning September I, 1953, \$5400, supersedes
- (2-4-54). BANNISTER, TURPIN C., Professor of Architecture, on indefinite tenure, to render for the month of February and at the rate of \$10,500 a year beginning March 1, 1954, supersedes (1-15-54).
- BECK, PAUL M., Assistant in Ophthalmology, in the College of Medicine, six months beginning January 1, 1954, without salary (1-14-54).
- BECKER, MILTON J., Research Assistant in Public Health, in the College of Medicine, seven months beginning February 1, 1954, \$4560 a year, supersedes (2-4-54). BENSON, JOHN S., Clinical Assistant in Medicine, in the College of Medicine, nine
- months beginning December 1, 1953, without salary (1-9-54).
