On motion of Mr. Herrick, these appointments were confirmed.

#### CHAIRMANSHIP OF DEPARTMENT OF ECONOMICS

(4) Professor H. K. Allen, Chairman of the Department of Economics, has asked to be relieved of the duties of chairmanship effective September 1, 1957. To replace him, the Dean of the College of Commerce and Business Administration recommends the appointment of Professor John F. Bell as Chairman of the Department of Economics for two years beginning September 1, 1957, in addition to his position as Professor of Economics on indefinite tenure. The salary of this position will be determined later when the budget for 1957-58 is prepared and submitted to the Board for approval.

Before submitting this nomination, the Dean consulted the Executive Committee of the Department of Economics in accordance with the provision in the University of Illinois Statutes governing the appointment of a chairman of a department, and the recommendation is supported by the Vice-President and Provost and the Dean of the Graduate College.

I concur.

On motion of Mr. Swain, this appointment was approved.

#### HEADSHIP OF DEPARTMENT OF FINANCE

(5) The Dean of the College of Commerce and Business Administration recommends the appointment of Dr. Paul M. Van Arsdell, presently Professor of Economics and Associate Dean of the College of Commerce and Business Administration, as Professor of Finance on indefinite tenure and Head of the new Department of Finance beginning September 1, 1957. The salary of this position will be determined later when the budget for 1957-58 is prepared and submitted to the Board for approval. Professor Van Arsdell will give up the position of Associate Dean.

All members of the new Department of professorial rank have been consulted in accordance with the provision in the University of Illinois Statutes governing the appointment of a head of a department, and the recommendation is supported by the Vice-President and Provost and the Dean of the Graduate College.

I concur.

On motion of Mr. Johnston, this appointment was approved.

#### CHANGE IN STATUS OF ROBBEN W. FLEMING

(6) Professor Robben W. Fleming, who has been serving as Director of the Institute of Labor and Industrial Relations since September 1, 1952, and the Dean of the College of Law have jointly requested his transfer to the faculty of the College of Law as Professor of Law beginning September 1, 1957.

It is understood that Professor Fleming will continue as Director of the Institute of Labor and Industrial Relations during the academic year 1957-58, or until his successor as Director of the Institute is appointed in case such an appointment is made before June, 1958, and will teach part time in the College of Law during 1957-58. Thereafter he will become a full-time member of the Law faculty and an associate member of the faculty of the Institute of Labor and Industrial Relations. He will teach courses in the field of labor law, an area to be expanded in the College of Law curriculum.

I have approved this transfer and request confirmation of my action.

On motion of Mr. Nickell, the President's action was confirmed.

#### CANCELLATIONS OF SABBATICAL LEAVES OF ABSENCE

(7) The sabbatical leaves of absence granted the following members of the faculty have been cancelled, on their request and without prejudice.

GIULIO ASCOLI, Assistant Professor of Physics

DALLAS W. SMYTHE, Professor of Economics and Research Professor in the  
Institute of Communications Research

CLARENCE W. STONE, Professor of Library Science

Confirmation of this action is requested.

On motion of Mr. Hughes, this action was confirmed.

#### **RANK OF CLINICAL ASSOCIATE IN THE COLLEGE OF MEDICINE**

(8) The University Senate recommends the establishment of the rank "clinical associate" for certain appointments to the nonsalaried faculty of the College of Medicine. This involves an amendment of the revised University of Illinois Statutes, approved by the Board of Trustees January 16, 1957, to become effective September 1, 1957, in Section 35, paragraph (c), the revised paragraph to read (new language is in *italics*):

The following academic ranks are recognized: professor, associate professor, assistant professor, instructor or research associate, and assistant. *For the College of Medicine the rank of clinical associate is also recognized.* Appropriate academic rank, with the rights and privileges pertaining thereto, may be accorded members of the administrative staff.

I concur in this amendment.

On motion of Mrs. Watkins, this amendment was adopted.

#### **AMENDMENT OF UNIVERSITY STATUTES**

(9) The University Senate recommends that the revised University of Illinois Statutes, approved by the Board of Trustees on January 16, 1957, be amended by the addition to Division III, Subdivision C-1, a new Section 18-2:

##### **Professional Colleges at Urbana-Champaign**

Section 18-2. (a) The College of Veterinary Medicine of the Urbana-Champaign campus of the University is a professional college within the meaning of this Section.

(b) The supervision of student affairs of students enrolled in the College of Veterinary Medicine, excluding discipline, is the responsibility of the College of Veterinary Medicine. A Committee on Student Affairs shall be elected by the Faculty of the College.

(c) Student discipline for students enrolled in the College of Veterinary Medicine shall be administered by the Committee on Discipline of the Urbana-Champaign Senate in accordance with the provisions of Section 6, paragraph (h). The Senate Committee on Student Discipline shall, after consulting the Dean of the College of Veterinary Medicine, appoint a subcommittee on discipline for the students enrolled in the College. The Senate Committee on Student Discipline shall hear and decide cases appealed to it from this subcommittee. The provisions of Section 6, paragraph (h), relating to the formulation of procedures and original and appellate jurisdiction of the Senate Committee, shall apply to disciplinary cases hereunder.

This amendment was proposed by the faculty of the College of Veterinary Medicine and recommended by a special committee appointed by the Vice-President and Provost to consider the change. It is consistent with a similar amendment approved by the Board of Trustees on March 12, 1957, with respect to administration of student discipline and student affairs in the College of Law.

I concur.

On motion of Mr. Herrick, this amendment was adopted.

#### **CHANGES IN ORGANIZATION OF SCHOOL OF PHYSICAL EDUCATION**

(10) The Director of the School of Physical Education recommends the following administrative changes in the organization of the School, effective September 1, 1957:

The name of the School shall be changed to College of Physical Education.

The chief executive officer shall be the Dean of the College.

There shall be established a new Department of Health and Safety Education. Instruction in this field is now being given jointly by the Department of Physical

Education for Men and the Department of Physical Education for Women. The program is administered and staffed by specialists and offers an undergraduate curriculum leading to the Bachelor of Science degree, graduate work leading to the Master of Science degree, and provides for teacher certification in the areas of health education and driver education.

There shall be established a new Department of Recreation. Instruction in this field is now being offered jointly by the Departments of Physical Education for Men and Physical Education for Women. The program is administered and staffed by specialists and offers a curriculum leading to the Bachelor of Science degree, and graduate work leading to the Master of Science degree.

The Vice-President and Provost concurs, and the University Senate has been informed of these proposals.

I recommend approval.

On motion of Mr. Nickell, these changes were approved.

#### **CHANGES IN ORGANIZATION OF SCHOOL OF JOURNALISM AND COMMUNICATIONS**

(11) The Director of the School of Journalism and Communications recommends the following administrative changes in the organization of the School, effective September 1, 1957:

The name of the School shall be changed to College of Journalism and Communications.

The chief executive officer shall be the Dean of the College.

The Institute of Communications Research, presently administered under the Graduate College, shall be transferred to the College of Journalism and Communications, with the Director of the Institute reporting to the Dean of the College.

The Office of Broadcasting shall become the Division of University Broadcasting. The instructional units of the College of Journalism and Communications shall be designated as Divisions, i.e., Division of Journalism, Division of Advertising, and Division of Radio and Television, and the administrative officer of each shall be designated as Head of the Division.

The Vice-President and Provost concurs, and the University Senate has been informed of these proposals.

I recommend approval.

On motion of Mr. Swain, these changes were approved.

#### **CHANGE IN REQUIREMENTS FOR MASTER'S DEGREE IN LIBRARY SCIENCE**

(12) The University Senate recommends that the requirements for the master's degree in Library Science be reduced from nine to eight units. This proposal was initiated by the faculty of the Library School and was approved by the Executive Faculty of the Graduate College.

The Director of the Library School presents the following reasons for this change: As the master's degree in the Library School is now organized, an undergraduate basic curriculum of twelve semester hours and nine units of graduate work are required. By starting in the summer session a student is expected to complete this program in a calendar year, but because of the five-unit schedule of graduate courses which falls in one semester, many students remain an additional summer to avoid overloading. Present heavy requirements are also out of line with other leading library schools.

I concur and recommend that this change become effective at the beginning of the academic year 1957-58.

On motion of Mr. Herrick, this recommendation was approved.

#### **CHANGE IN REQUIREMENTS FOR GRADUATION IN THE COLLEGE OF LAW**

(13) The University Senate recommends that effective September 1, 1958, the requirements for the degree of Bachelor of Laws (LL.B.) be changed by add-

ing the requirement of one course in legal theory or legal philosophy. The requirements would then read (the italics indicates the changes in the requirements):

All students who enroll in the College of Law as candidates for the degree of Bachelor of Laws (LL.B.) shall, as conditions to receiving that degree, have studied in residence for a minimum period equal to six semesters and shall have earned ninety semester hours of law credit with an average grade of at least C (3.0). During this period, as further conditions to receiving the degree, the candidates must have pursued the courses of the first year of the law curriculum and have *obtained credit* in one seminar course in advanced work *and in one course in legal theory or legal philosophy selected from a group of courses to be designated by the faculty of the College of Law.*

The College of Law faculty has selected the following courses, each to be offered for three hours of credit, as an indication of the type of courses involved: International Law, Comparative Law, Legal History, Jurisprudence, Law and Society. However, the faculty would prefer that this list of courses remain flexible, and not be stereotyped by formal action.

I concur.

On motion of Mr. Swain, this recommendation was approved.

#### CHANGES IN CURRICULUM IN CERAMIC ENGINEERING

(14) The University Senate recommends adoption of a revised curriculum in Ceramic Engineering which includes the following specific changes in graduation requirements:

In the second semester of the sophomore year:

Economics 108 (Elements of Economics) is a required course in place of the nontechnical elective.

In the first semester of the junior year:

Ceramic Engineering 205 (Ceramic Technology, three hours) and Ceramic Engineering 222 (Porcelain Enamels, three hours) are added to replace Ceramic Engineering 201 (Ceramic Technology, five hours).

Ceramic Engineering 205 is a reorganization of the material given in Ceramic Engineering 201 with the elimination of the laboratory work.

The total number of hours is increased from eighteen to nineteen with a corresponding reduction in the first semester of the senior year.

In the second semester of the junior year:

Ceramic Engineering 214 (Elementary Glass Technology) is a required course in place of the three hours of technical elective.

Ceramic Engineering 206 is essentially the same as the previous course Ceramic Engineering 202 (Ceramic Technology) with minor changes in the course content.

The required course Economics 108 is changed to the second semester of the sophomore year.

The course Ceramic Engineering 260 (Structural Engineering) is changed from the first semester of the senior year to the second semester of the junior year to obtain better balance in the over-all program.

In the first semester of the senior year:

A new course, Ceramic Engineering 209 (White Ware Bodies and Glazes, three hours), is required in place of Ceramic Engineering 211 (Ceramic Bodies and Glazes, five hours).

In place of the three hours made available by the transfer of Ceramic Engineering 260 to the junior year there are the three hours of nontechnical electives from the sophomore year.

Technical electives were increased from two to three hours this semester.

The total requirements are reduced from eighteen to seventeen hours in this semester.

There are no changes in the second semester of the senior year.

A copy of the complete outline of this revised curriculum is filed with the Secretary of the Board for record.

I concur.

On motion of Mr. Bissell, this recommendation was approved.

**USE OF WRIGHT FARMS BY AGRICULTURAL EXPERIMENT STATION**

(15) The Board of Trustees has authorized the transfer of eighty acres of Wright Farm No. 7 in DeKalb County, which is part of the Harry G. Wright and Harriette A. Wright Endowment, from operation as an income-producing farm to the Agricultural Experiment Station for use as the Northern Illinois Experiment Station Field, replacing land formerly leased and no longer available for this purpose. Residents of DeKalb County have contributed funds, totaling \$31,070, for improvements on this field, such as construction of buildings, fences, and for purchase of equipment.

It is the desire of the Agricultural Experiment Station staff that the entire one hundred sixty acres of this farm be eventually transferred from farm operations to experiment field operations as the needs of the Department of Agronomy require it. In 1952, twenty acres were so transferred, making one hundred acres now being used as an experiment field.

On recommendation of the Dean of the College of Agriculture and the Director of the Experiment Station and the Vice-President and Comptroller, I request confirmation of this transfer, and I further recommend that (a) the Board authorize the transfer of the remaining sixty acres of Wright Farm No. 7 at such times and in such parcels as the experimental program requires; (b) whenever the land is no longer needed as an experimental field it be transferred to farm operations for the benefit of the Endowment. The land involved is the north half of the southwest quarter of Section 23, Township 39 North, Range 3 East of the 3rd Principal Meridian in DeKalb County.

The use of this land as an experimental field is consistent with the late Senator Wright's bequest of his estate to the University that it be used "for the purpose of promoting agricultural education and for founding scholarships, but nevertheless the use made of the devise and bequest hereunder shall rest in the sole discretion and judgment of said Board of Trustees."

On motion of Mrs. Holt, these recommendations were approved.

**LEASE OF QUARTERS IN LA SALLE HOTEL FOR ILLINI CENTER**

(16) The Vice-President and Comptroller recommends renewal of the lease of the present quarters in the LaSalle Hotel for the Illini Center for a period of two years from July 1, 1957, at an annual rental of \$7,800, which is the present rate. There are approximately 2,900 square feet of space in this area, so that the rental is \$2.66 per square foot. The management of the Hotel has indicated willingness to continue the lease for an additional two years at this rental.

I concur.

On motion of Mr. Johnston, this recommendation was approved.

**CONTRACT WITH CONSULTING ENGINEERING SERVICE**

(17) The Director of the Physical Plant and the Vice-President and Comptroller recommend a contract with Consulting Engineering Service, Champaign, for engineering services on heating, ventilating, air conditioning, and electrical work for University improvement and maintenance jobs which, because of the small amount of work to be done, do not justify separate contracts for each. In the past this type of contract has been very useful to the Physical Plant Department to supplement the work of its engineers, and it is more economical than increasing the permanent staff.

The partners and most of the technical staff of the Consulting Engineering Service are graduates of the University, and the firm has indicated its interest in continuing doing University work on the following terms:

Services of principals in the firm to be paid for at the rate of \$6.50 per hour.

Services of other personnel to be paid at their regular hourly wage rates.

Services performed on overtime basis to be paid for at the regular hourly rates unless such overtime work is specifically requested by the University and the rates are agreed upon in advance.

Payments shall be on a monthly invoice basis; before any payment is made the University may audit or otherwise verify the invoice.

The fee for services on any specific project shall not exceed \$2,500.

The contract may be terminated by the University at any time on written notice.

The Committee on Buildings and Grounds has been consulted regarding this contract and is prepared to support the recommendation.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

#### **CONTRACT FOR LANDSCAPING OF RESIDENCE HALLS AND BAND BUILDING AREAS**

(18) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$15,348.50 to Irving L. Peterson, Landscape Architect, Champaign, for landscaping (including fine grading, lawn seeding, planting of trees and shrubs) the Men's Residence Halls Additions three and four, and the Band Building areas.

For payments on this contract, \$6,437.25 will be assigned from the proceeds of the issue of Dormitory Revenue Bonds of 1956 and \$8,911.25 from the state appropriation for the construction of the Band Building.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Swain, this contract was awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

#### **CONTRACT FOR PLASTERING AND ACOUSTICAL WORK**

(19) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract to Edmond T. Drewitch, Urbana, the lowest bidder, for maintenance, plastering, patching repairs, and acoustical installations, work to be done as needed, for the fiscal year beginning July 1, 1957, on the basis of the following terms: \$2.25 an hour for trucking of equipment and materials for actual time used solely for transportation, provided that not over 10 per cent of one job will be charged to trucking costs unless the total costs are \$25.00 or less, and contractor's fee of 19 per cent of all job costs.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Nickell, this contract was awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

#### **CONTRACTS FOR REMODELING IN DENTISTRY- MEDICINE-PHARMACY BUILDING**

(20) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of contracts to the Mutual Contracting Company, Chicago, the lowest bidder, for remodeling in the Dentistry-Medicine-Pharmacy Building as follows:

For alterations of quarters for the Department of Dental Histology.....\$35 274

The work will consist of remodeling rooms on the tenth floor of the second unit of the building and will include installation of new partitions to increase the number of rooms in the area, installation of new laboratory furniture and the necessary utility services, improvements in lighting, and general rehabilitation of the area.

For alterations of quarters of the Department of Biological Chemistry.... 10 256

The work will consist of remodeling rooms in the first unit of the building, including improvements in lighting, installation of new laboratory furniture and the necessary utility services, and general rehabilitation of the area.

Both projects are a part of the federal matching funds program for expansion of health research facilities. Funds are available in a federal grant (U.S. Public Health Service RC-88-College of Dentistry—Dental Research Laboratory) and in the Revenue Bonds of 1951—Construction Fund Account for the first project;

and in a federal grant (U.S. Public Health Service RC-90-Medicine — Biological Chemistry Remodeling) and in the state appropriation for 1955-57 "For rehabilitation and remodeling and minor additions to existing buildings at Urbana-Champaign and at the Chicago Professional Colleges" for the second.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

On motion of Mrs. Watkins, these contracts were awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

#### CONTRACT FOR INSTALLATION OF PNEUMATIC TUBE SYSTEM IN THE RESEARCH AND EDUCATIONAL HOSPITALS

(21) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$3,200 to the Lamson Corporation, Chicago, for installation of a pneumatic tube system in the Hospital Laboratories of the Research and Educational Hospitals.

The work will consist of installation of a tube station in the Hospital Laboratories and connection of this station to the central dispatching system of the medical records room. It is a part of the remodeling of the Hospital Laboratories now being done under the federal matching funds program for improvement and expansion of health research facilities.

Funds are available in a federal grant (U.S. Public Health Service RC-87-Remodeling Research and Educational Hospitals Laboratories) and in the state appropriation for 1955-57 "for rehabilitation and remodeling and minor additions to existing buildings at Urbana-Champaign and at the Chicago Professional Colleges."

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Holt, this contract was awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

#### CONTRACTS FOR COAL PURCHASES FOR ABBOTT POWER PLANT

(22) The Director of Purchases, the Vice-President and Comptroller, and the Director of the Physical Plant recommend award of the following contracts for 130,000 tons of coal screenings to be delivered to the Abbott Power Plant during the period July 1, 1957, through June 30, 1959:

	<i>F.O.B. Mine</i>	<i>Freight</i>	<i>Total Cost</i>
United Electric Coal Company, Chicago			
30,000 tons @ \$4.50.....	\$135 000	\$38 400	\$173 400
Bell and Zoller Coal Company, Terre Haute, Indiana			
22,000 tons @ \$4.85.....	106 700	28 160	134 860
Republic Coal and Coke Company, Peoria			
78,000 tons @ \$4.75.....	370 500	99 840	470 340

Sealed bids on uniform specifications were opened on May 24, 1957. Invitations were sent to twenty-four producers and sales agencies and advertisements were published in three daily papers.

The bids are evaluated in the terms of the number of British Thermal Units purchased for one cent based on guaranteed analysis. A continuous check is maintained to insure compliance with specifications. The United Electric Coal Company, Bell and Zoller Coal Company, and Republic Coal and Coke Company are the lowest bidders. It is advantageous to have contracts with three sources of supply to be assured of delivery of coal at all times.

A two-year contract is being recommended to enable the mines better to plan future operations, development, and expansion, and to assure the University of a continued reliable source of supply.

The prices quoted are based on present wage scales and are subject to increase or decrease in event that wage contracts now in effect are changed. Any such change will affect the price to the extent that production costs are increased or

decreased by the new contracts. The University may cancel the balance of the purchase contract if it believes that any price adjustment is not justified.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute contracts as recommended, subject to the approval by the Governor as required by the state constitution.

On motion of Mr. Johnston, these contracts were awarded, as recommended, and the Comptroller and the Secretary of the Board were authorized to execute the same.

#### **CONTRACTS FOR COAL AND FUEL OIL FOR MEDICAL CENTER STEAM PLANT**

(23) The Director of the Physical Plant, the Business Manager of the Chicago Colleges, and the Vice-President and Comptroller recommend award of a contract to the Crerar Clinch Coal Company, 3552 West Division Street, Chicago, the lowest bidder, for 18,000 tons of screenings coal to be delivered to the Medical Center Steam Company Plant, operated by the University, as required during the period August 1, 1957, to June 30, 1958, at a per ton cost of \$4.65, plus transportation of \$1.36, plus \$1.28 for handling, storage, and delivery, or a total estimated cost of \$131,220.00. This price is based on the present wage scale and is subject to increase or decrease in the event that wage contracts now in effect are changed, and any such change affects the price to the extent that production costs are increased or decreased by new freight rates or wage contracts. The University has the right of approval of any such increase in price.

The lowest bid is determined by the number of British Thermal Units per one cent of cost based on guaranteed analysis. A continuous check is provided at the Steam Plant to insure compliance with the specifications.

The above named officers also recommend the purchase of a minimum of 8,000 gallons of No. 6 fuel oil with the option of purchasing as much more as may be required for emergency use, but not to exceed 450,000 gallons, from the Jewett and Sowers Oil Company, 2480 South Archer Avenue, Chicago, the lowest bidder, at a price not to exceed \$0.0973 per gallon subject to adjustment in accordance with the posted price variations published in the Wall Street Journal. On the basis of the maximum price quoted, the total cost of 8,000 gallons would be \$778.40, and of 450,000 gallons, \$43,785.

The Medical Center Steam Company Plant is equipped to burn either coal, gas, or oil. Winter operation has been with coal, and summer operation has been with gas. The purchase of fuel oil is recommended for stand-by service. If used for emergency operation instead of gas or coal, there will be a corresponding reduction in expenditures for these two fuels.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the contracts for these purchases, subject to approval by the Governor as required by the state constitution.

On motion of Mr. Bissell, these contracts were awarded, as recommended, and the Comptroller and the Secretary of the Board were authorized to execute the same.

#### **PURCHASE OF QUONSET BUILDING FOR INSTITUTE OF AVIATION**

(24) The Institute of Aviation is in need of additional facilities to house its instructional program in aircraft maintenance. From a small group of eight students in the first class of this two-year terminal program in 1948, the enrollment grew to ninety-three last year, and it is estimated that there will be one hundred and twenty students in September, 1957. As the program has developed, the curriculum has shared space facilities of the main aircraft maintenance shop at the Airport. This is no longer feasible because of the increased size of the student body and shop needs for additional space.

A Quonset building, similar to the buildings currently used at the Airport, will fulfill the requirements. The total cost of the building is \$11,408.72; an additional \$7,000 is necessary for foundation, floor, and electrical installations. The Institute of Aviation can provide \$8,408.72 so that an appropriation of \$10,000 from general University funds is needed.

The Director of the Institute of Aviation and the Vice-President and Com-

troller recommend the purchase of a building from Harshbarger Building and Supply Company, Urbana, at a price of \$11,408.72.

I concur and recommend that an appropriation of \$10,000 be made from the General Reserve Fund for this purpose.

On motion of Mr. Swain, this purchase was authorized, as recommended, and an appropriation of \$10,000 was made from the General Reserve Fund for this purpose. This action was taken by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Stratton, Mr. Williamson.

#### HOSPITAL-MEDICAL-SURGICAL INSURANCE FOR STUDENTS AND STAFF

(25) Bids have been received for the student and staff hospital and medical insurance programs for 1957-58 with the right reserved by the University to renew such insurance annually thereafter upon mutual agreement between the University and the insurance company.

The student program at the Urbana Campus provides essentially the same benefits as have been provided for the past two years with three minor changes as follows:

1. One day coverage extended to seven days for emergency outpatient treatment.
2. Hospital residence is waived for surgical benefits to apply.
3. Thirty-day waiting period eliminated for coverage of newly born children.

In addition to the changes above, the student program at the Undergraduate Division at Navy Pier has improved benefits to meet its unique problems as follows:

1. The \$225.00 surgical schedule is increased to \$300.00.
2. The per diem room and board allowance is increased from \$11.00 to \$15.00.
3. Physician's visits for home confinements are revised, to be effective with the first rather than third visit; and the first \$20.00 of drugs and medicines are covered, rather than having the first \$5.00 paid by the insured.

The staff benefits are expanded in the following areas:

1. The \$150.00 surgical schedule is increased to \$225.00 and the hospital residence requirement is waived.
2. Hospital charges for dental treatment or dental surgery are covered.
3. Thirty-day waiting period eliminated for coverage of newly born children.

Bids were also received as an alternative on the present benefits under both plans, but they are not recommended for consideration because increased benefits outlined above can be obtained at a lower premium cost.

It is recommended that a contract for both the student and staff coverage be awarded to Bankers Life and Casualty Company, represented by O. J. Wheeler, Chicago, lowest bidder for both programs at \$461,610, as per Board Policy C, 3 on insurance, and that charges to students and staff for this insurance be the following premiums, which are identical to those charges currently in effect.

<i>Students</i>	<i>Per Semester</i>		<i>Per Year</i>	
Student only.....	\$ 7	00	\$21	00
Student and family.....	\$19	00	\$57	00
<i>Faculty-Staff</i>	<i>Monthly</i>	<i>Quarterly</i>	<i>Semi-Annual</i>	<i>Annual</i>
Employee only.....	\$ 2	75	\$15	25
Employee and one dependent.....	5	00	28	75
Employee and two or more dependents..	5	75	33	25
		16	75	66
			25	25

On the basis of these rates, the plans will operate on a self-sustaining basis. The excess over the cost of the coverage would be used by the University to defray the administrative costs of the two programs.

I concur in the recommendation for the award of this contract.

On motion of Mr. Swain, this matter was referred to the Executive Committee with power to act.

**CONVEYANCE OF LAND TO THE MORTON ARBORETUM**

(28) A toll road between Chicago and Aurora will cross a University-owned road which now provides access from Ogden Avenue (U.S. Route 34) to the University's Drug and Horticultural Experiment Station adjoining the Morton Arboretum in Du Page County. This roadway, including the Experiment Station property, was purchased by the University from the Morton Arboretum. The new toll road will not provide the access from Ogden Avenue, as presently used by the University, unless an overpass or an underpass is constructed. Public access to the east end of the Morton Arboretum is also necessary to take care of the increasing automobile traffic. To resolve this problem and give the University and the Arboretum access to their properties, the Illinois State Toll Highway Commission plans to relocate the Lacey Road, which now runs north and south about one-half mile east of the University property, to parallel the toll road. The relocated Lacey Road would then run southwest, and after intersecting the present University road would turn south over the toll road to the Warrenville Road intersection with Ogden Avenue thus providing access from the south and from the north.

The deed of University land from the Trustees of the Morton Arboretum includes a reverter clause providing that whenever the property is no longer to be used for educational purposes it will revert to the Morton Arboretum. The Illinois State Toll Highway Commission is planning to acquire a part of the Morton Arboretum property immediately west of the present University access road. It is therefore recommended that the Board of Trustees of the University authorize the execution of a quitclaim deed to the Morton Arboretum for that part of the present University access road which will no longer be required by the University. The Trustees of the Morton Arboretum will then be able to convey the necessary rights-of-way for the new toll road and the relocation of the Lacey Road. The quitclaim deed will not be delivered until there is adequate legal assurance that the Lacey Road will be relocated and that the University access to its Drug and Horticultural Experiment Station during the period of construction of the toll road will be protected. The area of the roadway to be conveyed to the Morton Arboretum is 1.098 acres, and the Arboretum will pay the University \$274.50 (\$250.00 an acre) for this property.

If the Board approves this transaction, the following resolution should be adopted.

**Resolution**

*Be it, and it is hereby, resolved* by the Board of Trustees of the University of Illinois, a public corporation of the state of Illinois, that its Comptroller and Secretary be, and they are hereby, in consideration of the payment to said public corporation of two hundred seventy-four and 50/100 dollars, authorized to make, execute, and deliver a quitclaim deed conveying to the Trustees of the Morton Arboretum, a foundation created and defined by Deed in Trust dated December 14, 1922, and recorded in the Recorder's Office of Du Page County, Illinois, on December 19, 1922, as Document No. 161512, in Book 142 of Deeds, at Page 485, the following described property:

That part of Lot 2 of Assessment Plat Number 3, lands belonging to the Trustees under the Will of Joy Morton, Deceased, according to the plat thereof recorded March 30, 1935, in Book 20 of Plats on page 91 as Document

357009 in the Recorder's Office of Du Page County, Illinois, described by commencing at the Northeast corner of Section 1, Township 38 North, Range 10 East of the Third Principal Meridian and running thence South  $0^{\circ} 12'$  East along the East line of Section 1 1270.05 feet to a corner of said Lot 2; thence South  $84^{\circ} 13'$  West along a South line of said Lot 346.5 feet; thence South  $6^{\circ} 10'$  East along an Easterly line of said Lot 2 335.64 feet to a point for a place of beginning; thence Southwesterly along the arc of a curve to the left whose radius is 1091.74 feet and whose tangent to the last described point forms an angle of  $77^{\circ} 56' 32''$  in the Southwest quadrant with the preceding line extended, for a distance of 35.90 feet to a point; thence South  $6^{\circ} 10'$  East parallel with an Easterly line of said Lot 2 and with a prolongation thereof 1370.04 feet more or less to a point in the center line of Ogden Avenue; thence North  $77^{\circ} 40'$  East along said center line 35.20 feet to the Southeast corner of said Lot 2; thence North  $6^{\circ} 10'$  West 1373.26 feet more or less along an Easterly line of said Lot 2 to the place of beginning, all in the County of Du Page and State of Illinois; together with all and singular the hereditaments and appurtenances thereunto belonging or in anywise appertaining.

Provided, however, that such deed shall not be executed nor delivered unless and until said officers and the Legal Counsel of this public corporation have received positive assurances satisfactory to them that an alternate right and way of ingress to and egress from the remaining portion of this public corporation's property in that area will be provided.

On motion of Mr. Johnston, the foregoing resolution was adopted; provided, however, that the execution and delivery of the quitclaim deed is subject to the approval of the Executive Committee of the Board when the Committee is satisfied that the price to be received by the University for the land to be conveyed is a fair valuation, and that adequate provisions have been made for both a permanent roadway and temporary access during the period of construction of the highway to the Drug and Horticultural Experiment Field. This action was taken by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Stratton, Mr. Williamson.

#### **PURCHASE OF BUS FOR PHYSICALLY HANDICAPPED STUDENTS**

(29) The Director of Purchases and the Vice-President and Comptroller recommend the purchase of one General Motors Corporation TGH 3102 bus equipped for transportation of physically handicapped students for the Student Rehabilitation Center from the General Motors Corporation Coach Sales Department, Pontiac, Michigan, at a cost of \$9,579.83, f.o.b., Pontiac, Michigan.

It is also recommended that this authorization be extended to include the purchase of a second bus under the same terms if funds become available.

The General Motors Corporation bus is almost alone in this field, the only competition being manufacturers who only occasionally construct busses of this type and who do not maintain a readily available supply of replacement parts. Furthermore, investigation has revealed that no bus now on the market can equal the General Motors Corporation TGH 3102.

The University of Illinois Foundation has received a gift from the Lynde Bradley Foundation specifically for the purchase of a new bus specially equipped for transportation of physically handicapped students.

I concur.

On motion of Mrs. Watkins, this purchase was authorized, and authority was granted to purchase a second bus under the same terms when funds are available.

#### **AUTHORIZATION OF CHANGES IN CONTRACTS FOR CONSTRUCTION OF BUILDINGS**

(30) State appropriations are available until the expiration of the first fiscal quarter after the adjournment of the General Assembly held next after that at

which the appropriations were made. Appropriations to the University for the current biennium, 1955-57, will be available until September 30, 1957, but only for the payment of obligations for which commitments are made prior to July 1, 1957.

There will be some changes recommended in the contracts for the construction of the Band Building and the Home Economics Building which, however, could not be formulated for presentation to the Board of Trustees at today's meeting. It is therefore recommended that the Board of Trustees authorize the President of the University and the Vice-President and Comptroller to approve such changes in contracts for the construction of these two buildings which may be recommended by the Physical Plant Department, with the understanding that a report of any such changes authorized will be made to the Board at its next meeting.

On motion of Mrs. Holt, authority was given as requested.

**TRIBUTE TO ALBERT JAMES HARNO**

At this point, Mr. Swain offered the following resolution and moved its adoption:

On September 1, 1957, Albert James Harno will bring to a close a period of service to the University of Illinois of thirty-six years as Professor of Law and thirty-five years as Dean of the College of Law, a service remarkable not only for its length but for its accomplishments. Under his stewardship the College of Law has grown into one of pre-eminence in the field of legal education. In this process he has himself become a national figure as a scholar, teacher, and law-school administrator. To his colleagues on the faculty of the College he has been the inspiration, through example, of the university teacher who, while being ever vigilant to keep a close contact with the non-university world, yet is able to see the problems of that world with the long-range vision and objectivity of the scholar, and is devoted to the task of imparting that vision to his students. To thousands of law-school alumni throughout the nation, he is already a living legend. To all of his colleagues in the University, his name is synonymous with tolerance, judiciousness, and fair dealing.

Dean Harno's service to the University has not been limited to the College of Law. He was Chairman of the committee, appointed by President Chase in 1930, to study all aspects of the University administration and procedure, and bring recommendations for changes in the administrative structure, including a definitive statement of the statutes of the University. He served as Provost of the University from 1931 to 1944, under two presidents and one acting president, and many of the present functions of that office were outlined during his term. He has been, at one time or another, a member of or chairman of almost every University committee. His interests have been as broad as the University itself, and he has brought to his many assignments the qualities of unswerving honesty, good judgment, loyalty, and warm sympathy which have won him the respect and confidence of all friends of the University.

In this period he has also become a leader of the legal profession, at both state and national levels. He has, for example, been President of the Illinois State Bar Association, of the American Judicature Society, of the National Conference of Commissioners on Uniform State Laws, and of the Association of American Law Schools. He has been a member of the Board of Governors of the Illinois State Bar Association, the American Bar Association, and the Council of the American Law Institute. He is a Fellow of the American Academy of Arts and Sciences and a Fellow of the American Bar Foundation. He has been a member of the House of Delegates of the American Bar Association and a member of the Hoover Commission Task Force. He is a member of Phi Beta Kappa and Past National President of Order of the Coif. He is the author of: *The Supreme Court in Felony cases* (Illinois Crime Survey), *Cases on Criminal Law and Procedures*, fourth edition 1957; *Legal Education in the United States*; and co-author of: *Parole and the Indeterminate Sentence*; and a contributor to many legal periodicals.

He has been widely and favorably known in the profession, and has done much to bridge the gap between the practicing profession and its academic branch.

The Board of Trustees of the University of Illinois takes cognizance of the approaching date on which Albert James Harno will retire from active service on the faculty of the University, and

It therefore resolves, that the Board record in its minutes its expression of appreciation for his services, its gratitude that he has given so long and so generously of his talents to the University and to the State, and its best wishes for his health and happiness for many years to come.

This resolution was unanimously adopted.

**MEETING OF COMMITTEE ON GENERAL POLICY**

At this point, the Board recessed for a meeting of the Committee on General Policy to consider a report from the President of the University on personnel matters related to the budget for 1957-58.

The following members of the Committee were present: Mr. Wayne A. Johnston, Chairman, Mr. Cushman B. Bissell, Mrs. Frances B. Watkins. Also present were Mr. Wirt Herrick, Mrs. Doris S. Holt, Mr. Earl M. Hughes, Mr. Park Livingston, Mr. Vernon L. Nickell, and Mr. Timothy W. Swain of the Board of Trustees; President David D. Henry, Vice-President and Provost Henning Larsen, Dr. H. E. Longenecker, Vice-President in charge of the Chicago Professional Colleges, Mr. C. S. Havens, Director of the Physical Plant Department, Mr. Ralph F. Lesemann, Legal Counsel; and the officers of the Board, Mr. H. O. Farber, Comptroller, Mr. C. W. Weldon, Treasurer, and Mr. A. J. Janata, Secretary.

President Henry reported on administrative changes under consideration in the organization of the Health Services.

Following discussion of this report, the Committee recommended to the President that there be included in the budget for 1957-58 a provision for a new position of administrator of the Health Services, apart from the medical directorship, the title and salary of the new position to be recommended by the President when he submits the budget.

The Committee rose, and the Board reconvened.
