

MEETING OF THE BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS

September 30, 1958

The September meeting of the Board of Trustees of the University of Illinois was held in the Peoria Country Club, Peoria, Illinois, on Tuesday, September 30, 1958, beginning at 2:00 p.m., central daylight saving time.

The following members of the Board were present: Mr. Cushman B. Bissell, Mr. Wirt Herrick, Mrs. Doris S. Holt, Mr. Earl M. Hughes, Mr. Wayne A. Johnston, Mr. Park Livingston, Mr. Vernon L. Nickell, Mr. Timothy W. Swain, Mrs. Frances B. Watkins, Mr. Kenney E. Williamson. Governor William G. Stratton was absent.

Also present were President David D. Henry, Vice-President and Provost Gordon N. Ray, Dr. H. E. Longenecker, Vice-President in charge of the Chicago Professional Colleges, Executive Dean C. C. Caveny of the Chicago Undergraduate Division, Mr. Ralph F. Lese-mann, Legal Counsel, Director C. S. Havens of the Physical Plant Department, Mr. C. E. Flynn, Director of Public Information; and the officers of the Board, Mr. H. O. Farber, Comptroller, and Mr. A. J. Janata, Secretary.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of the Board of Trustees on May 29, 1958, press proof copies of which have previously been sent to the Board.

On motion of Mr. Swain, these minutes were approved as printed on pages 1235 to 1272, inclusive.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board took up consideration of the following reports and recommendations from the President of the University.

AWARD OF CERTIFIED PUBLIC ACCOUNTANT CERTIFICATES

(1) The Committee on Accountancy recommends that the certificate of Certified Public Accountant be awarded, under Section 5 of the Accountancy Act of 1943, to the following candidates who have presented evidence that they are holders of valid and unrevoked Certified Public Accountant certificates obtained by passing a standard written examination in another state or territory of the United States and who qualify in all other respects under this provision of the law:

23. ROBERT C. WHITE, Map and Geography Librarian with rank of Assistant Professor, beginning September 1, 1958, at an annual salary of \$6,850 (BY).

On motion of Mr. Herrick, these appointments were confirmed.

APPOINTMENT TO THE BOARD OF DIRECTORS OF THE ATHLETIC ASSOCIATION

(3) The resignation of Professor Marcus M. Rhoades of the Department of Botany, who was appointed to the Board of Directors of the Athletic Association in March, 1958, leaves a vacancy in the faculty membership of that Board. To replace him, I nominate Professor Joseph A. Russell of the Department of Geography, this appointment to become effective immediately, to serve until the next annual meeting of the Board of Trustees in March, 1959.

On motion of Mr. Nickell, this appointment was approved.

SITE STUDIES FOR THE RELOCATION OF THE CHICAGO UNDERGRADUATE DIVISION

(4) The Real Estate Research Corporation of Chicago has been employed for site studies for the relocation of the Chicago Undergraduate Division and has been authorized to employ such engineers and planners as may be needed to expedite its studies.

It was contemplated that the report would be made on or before September 30, but it will not be possible to meet that schedule in view of the amount of work to be done on the various sites proposed and under consideration. Accordingly, the Real Estate Research Corporation, at their request, has been given an extension of time for the completion of this report.

On motion of Mr. Bissell, this extension of time was approved.

EDUCATIONAL GRANTS FUND

(5) The University has been receiving a number of unrestricted grants from business and industrial corporations. These are usually supplementary to grants for graduate fellowships, undergraduate scholarships, and for research. They are a recognition by the donors of the educational costs to the University in connection with fellowships and scholarships and service expense in the administration of research grants. In some cases these grants are in recognition by the officers of

a corporation that some of them have received their education at the University of Illinois.

I recommend that the Board authorize depositing all such income in a special trust fund designated as "Educational Grants Funds," and that the President of the University be authorized to make assignments from this source for nonrecurring educational purposes.

On motion of Mr. Hughes, this recommendation was approved, and authority was given as requested, by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

PURCHASE OF AIR RIGHTS AT UNIVERSITY OF ILLINOIS AIRPORT

(6) In accepting grants of funds from the Federal Civil Aeronautics Administration for the construction of the first unit of a terminal building and control tower at the University of Illinois Airport, the University agreed to try to acquire the property, or at least the air rights over the property, adjoining the north and south ends of the North-South Runway.

As a result of the negotiations with owners of the property at the south end of the runway, Mr. Elmer Clifford Fisher has agreed to sell the rights over fifty-two acres of the property he owns for \$1,783.46, or approximately \$34.30 an acre. Mr. Walter C. Fisher, who owns approximately seven acres, has agreed to a price of \$245, approximately the same per-acre price.

Air rights in this recommendation means an agreement by the owner of the land that he will not permit any growth or construction in the area covered by the agreement which would obstruct the take-off or landing of aircraft at a predetermined glide angle of fifty to one or an elevation of one foot for each fifty feet of horizontal distance.

The air space in which the easement and right-of-way will be granted by Mr. Elmer Clifford Fisher is that which lies above the following heights:

Commencing at an elevation of 772.79 feet mean sea level along the north side of the following described parcels of land and increasing in elevation as an inclined plane at a ratio of 50:1—one foot of elevation for each fifty (50) feet of horizontal distance—to an elevation of 799.05 feet mean sea level along the south side of the following described parcels of land:

The South West Quarter (SW $\frac{1}{4}$) of the South East Quarter (SE $\frac{1}{4}$) of Section Ten (10), Township Eighteen North (T 18 N), Range Eight East (R 8 E) of the Third Principal Meridian (3rd P.M.) in the County of Champaign and State of Illinois; and

The West (W) Four Hundred Ten (410) feet of the South East Quarter (SE $\frac{1}{4}$) of the South East Quarter (SE $\frac{1}{4}$) of Section Ten (10), Township Eighteen North (T 18 N), Range Eight East (R 8 E) of the Third Principal Meridian (3rd P.M.) in the County of Champaign, and State of Illinois.

The south end of North-South Runway 36, University of Illinois Airport, is 749.05 feet mean sea level elevation, and therefore the aforesaid heights are 23.74 feet on the north side of the above described parcels of land to fifty (50) feet on the south side of the above described parcels of land higher than the south end of said runway.

The air space in which the easement and right-of-way will be granted by Mr. Walter C. Fisher and Maude G. Fisher, his wife, is that which lies above the following heights:

Commencing at an elevation of 749.05 feet mean sea level along the north side of the following described parcel of land and continuing at said elevation to a line two hundred (200) feet south of the south end of North-South Runway 36, University of Illinois Airport, and parallel to the north line of the following described parcel of land thence increasing in elevation as an inclined plane at a ratio of 50:1—one foot of elevation for each fifty (50) feet of horizontal distance—to an elevation of 772.79 feet mean sea level along the south side of the following described parcel of land:

The West Two Hundred Twenty (220) feet of the North East Quarter

(NE¼) of the South East Quarter (SE¼) of Section Ten (10), Township Eighteen North (T 18 N), Range Eight East (R 8 E) of the Third Principal Meridian (3rd P.M.), in the County of Champaign and State of Illinois.

The south end of North-South Runway 36, University of Illinois Airport, is 749.05 feet mean sea level elevation and, therefore, the aforesaid heights are 0 feet on the north side of the above described parcel of land to 23.74 feet on the south side of the above described parcel of land higher than the south end of said runway. The easement grant will contain a reservation by the grantor permitting him to continue raising normal farm crops and, in areas where the height limitations are less than ten (10) feet above the present surface of the ground, grantor reserves the right to erect structures up to, but not in excess of, five (5) feet in height.

The Director of the Institute of Aviation and the Vice-President and Comptroller recommend the payment of \$1,783.46 to Mr. Elmer Clifford Fisher for the rights over the property owned by him and the payment of \$245 to Mr. Walter C. Fisher for the rights over the property owned by him, and an assignment of \$2,029 from the General Reserve of the University for this purpose.

Negotiations are underway for the acquisition of the property, or the rights over the property, adjoining the north end of the North-South Runway.

I concur.

On motion of Mrs. Holt, this recommendation was approved, and the requested appropriation was made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

REMOVAL OF HOUSES AND CONSTRUCTION OF PARKING LOTS

(7) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of contracts as follows for the removal of sixteen houses recently acquired by the University for future expansion:

To D. Earl Barnes, Urbana, \$205 to be paid to the University for removal of the house at 1102 West Illinois Street, Urbana.

To A.B.C. Wrecking Company, Chicago, \$1,375.11 to be paid by the University for removal of houses at 1011 West Springfield Avenue, 1006 West Green Street, and 1108 West Illinois Street, Urbana.

To Ray Cook, Danville, \$320 to be paid by the University for removal of the house at 201 South Gregory Street, Urbana.

To Harold and Byron Carden, doing business as Carden Brothers, Paxton, \$2,950 to be paid by the University for removal of houses at 1011, 1013, 1101, and 1103 West Green Street, and 1006, 1010, 1104, and 1106 West Illinois Street, Urbana, and 507 East Chalmers Street, Champaign.

To Glen D. Archer, Allerton, \$1,350 to be paid by the University for removal of houses at 508 East John Street and 509 East Chalmers Street, Champaign.

All prices are based on sealed bids received on these removals, and the recommendations are based on the lowest cost (or highest payment in the one case) to the University.

The properties at 508 East John Street and 1011 West Springfield Avenue will be used as parking lots. The properties at 507 and 509 East Chalmers Street are on the site of the new Faculty Club, but will be used temporarily as parking lots. The other properties are sites for the construction of student residence halls, and their removal will be paid for from Housing Division funds.

A bid was also received for the removal of the house at 1008 West Green Street, Urbana. However, it will be to the University's best interests to retain this house for use of the contractor in the construction of the residence hall for graduate students and include its removal as part of the specifications for that project. Accordingly, it is recommended that this bid be rejected.

I concur and recommend an appropriation of \$14,000 from the General Reserve for the removal of houses and for the construction of parking lots on the vacated sites at 508, 610, and 614 East John Street, Champaign. The buildings on the last two sites are being removed under contracts previously authorized.

On motion of Mr. Williamson, these recommendations were approved, and the requested appropriation was made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

REAPPROPRIATION OF UNEXPENDED BALANCES

(8) The Vice-President and Comptroller recommends that the following balances and overdrafts in budget appropriations and balances in appropriations for special services and projects not completed on June 30, 1958, be reappropriated for the fiscal year beginning July 1, 1958, in accordance with usual policy.

I concur.

On motion of Mrs. Watkins, these reappropriations were approved by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

CONVEYANCE OF SPARTA SOIL EXPERIMENT FIELD

(9) On July 1, 1915, Thomas G. Dean and wife, of Sparta, Illinois, conveyed to the University a twenty-acre tract of land in Randolph County, Illinois, for the purposes of agricultural experimentation and demonstration. The deed, for which no consideration was paid by the University, specified that it was given with the agreement and understanding that if the University of Illinois discontinues using the land for said purposes for a period of more than two consecutive years the University shall, when requested, convey by proper deed to the Sparta Township High School, the east half of the described real estate, and convey by proper deed to the original purchasers of the sixty-four lots of the Thomas G. Dean Addition to the City of Sparta, Illinois, the west half of said tract.

The University has discontinued using this land for experimental purposes, and on May 29, 1958, the Board of Trustees authorized the execution of a quit claim deed conveying the east half of the tract to the County Board of School Trustees of Randolph County, Illinois, or their successors in office, for the use of Sparta Township High School District No. 111 of Randolph County. No request for authority to convey the west half of the tract was submitted to the Board of Trustees at that time because the language in the deed by which it was conveyed to the University raises difficult legal questions as to who is entitled to it. Some of the original purchasers of the lots referred to in the deed from the Deans are still living, a number are dead, and others have left Randolph County, and it

¹ Deduct, overdraft.

would be difficult to locate them. It would also be difficult and expensive to locate the heirs of the original purchasers who are now deceased, the heirs of the grantors, and others who may claim an interest in this land. After further study of the question of who is entitled to the west half of the tract under the provisions of the deed from the Deans, the Legal Counsel is inclined to the opinion that the agreement and understanding referred to in the deed is probably not legally enforceable and that the University can probably convey the west half to the High School District without incurring liability to anyone who might assert an interest in the land under the provisions of the 1915 deed. However, he also regards this conclusion sufficiently debatable so that he advises the University not to assume the risk of conveying the west half of the tract without first securing either a judicial determination of the question or some other protection against potential liability. As a result of negotiations with counsel for the Board of Education of the High School of the Sparta Township High School District No. 111, the latter has arranged to secure a title guaranty policy insuring, upon certain conditions, the title to the property if it is conveyed by the University to and for the use of the District. As further protection, the District will enter into an agreement with the University to indemnify and hold the University harmless against any liability to others which the University might incur through so conveying that property.

Since the University has abandoned all use of the entire tract, it should not continue to hold title indefinitely, and the land should not remain unoccupied and without care. If the west half of the tract is conveyed to the High School District, the property will be used for public and educational purposes. The importance and value of judicial determination of the question of ownership would not justify the expense of such a legal proceeding; the title guaranty policy along with the agreement between the District and the University should give reasonable protection.

The Dean of the College of Agriculture, the Legal Counsel, and the Vice-President and Comptroller recommend, and I concur, that the west half of the tract be conveyed as specified in the following resolution upon the conditions set forth therein, and that the Comptroller and the Secretary of the Board be authorized to execute and deliver a quit claim deed to convey the property upon these conditions.

Resolution

WHEREAS, by deed bearing date of July 1, 1915, one Thomas G. Dean and Mary Dean, his wife, of Randolph County, Illinois, conveyed to the Board of Trustees of the University of Illinois and their successors in office a tract of land, situated in said county, containing twenty acres more or less and described as follows:

Beginning at a stone at the northwest corner of the S. E. Quarter of the S. E. Quarter of Section 36, T 4 S, R 6 W, Randolph County, Illinois, thence running east along the north line of said S. E. Quarter of the S. E. Quarter of said Section 36 for a distance of 1,177.5 feet, thence running south parallel to and 147.5 feet west of the east line of said Section 36 for a distance of 727.5 feet, thence running west parallel to and 592.5 feet north of the south line of said Section 36 for a distance of 1,181 feet to the west line of said S. E. Quarter of the S. E. Quarter of said Section 36, thence running north along said west line of the S. E. Quarter of the S. E. Quarter of said Section 36 for a distance of 727.5 feet more or less to the point of beginning;

which deed is recorded in Book 78 at page 63 of the records of the Recorder's Office of Randolph County, Illinois; and

WHEREAS, said deed provided that the grantee therein was to use the tract conveyed to it thereby for the purpose of agricultural experimentation and demonstration and further provided that if the grantee should discontinue using said land for said purposes for a period of more than two consecutive years it shall, when requested, convey by proper deed the west half of said above described tract of land to the original purchasers of the sixty-four lots of the Thomas G. Dean Addition to the City of Sparta, Illinois, and

WHEREAS, the grantee in said deed has now discontinued the use by it of said land for said purposes for a period of more than two consecutive years, has

heretofore conveyed, by quit claim deed, and at the request of the Board of Education of Sparta Township High School District No. 111, Randolph County, Illinois, the east half of said hereinabove described tract of land to the County Board of School Trustees of Randolph County, Illinois, for the use of said High School District, and said Board of Education of said District has now requested that the west half of said tract of land be also so conveyed and has offered and agreed that, in consideration for the west half of said tract being so conveyed, it will secure a title guaranty policy from the Chicago Title and Trust Company insuring the title thus conveyed for the use of said District and will also fully and forever indemnify and hold the Board of Trustees of the University of Illinois, its officers, agents, and employees harmless from any and all claims asserted to said portion of said hereinabove described tract by any and all other persons under the provisions of said above mentioned deed conveying the same to this public corporation; and

WHEREAS, this public corporation has no further use for any portion of said hereinabove described tract of land and the conveyance by it of the west half of the same as requested by the Board of Education of said High School District will enable the same to be devoted to public and educational uses and will benefit the citizens and residents of said High School District including the original purchasers of and the present owners of the lots in said Addition:

Therefore, It Is Hereby Resolved by this Board of Trustees of the Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that, upon the Board of Education of Sparta Township High School District No. 111 securing a title guaranty policy, approved by the University Legal Counsel, insuring the title to the west half of said land and the execution and delivery to the University of an agreement, approved by the University Legal Counsel, upon the part of Sparta Township High School District No. 111, Randolph County, Illinois, through its proper authorities to fully and forever indemnify and hold this public corporation, its officers, agents, and employees harmless from any and all claims of others asserting an interest in said land, the Comptroller and Secretary of this public corporation be, and they are hereby authorized and directed to sign, execute, acknowledge, and deliver upon behalf of this public corporation a quit claim deed conveying the west half of said hereinabove described tract of land from this public corporation to the County Board of School Trustees of Randolph County, Illinois, and to their successors in office, for the use of the Sparta Township High School District No. 111, Randolph County, Illinois.

On motion of Mr. Hughes, the foregoing resolution was adopted by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

ADDITION TO CONTRACT FOR ABBOTT POWER PLANT ADDITION

(10) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$2,985 in the contract with the R. V. Monahan Construction Company for the substructure and miscellaneous work for the construction of the cooling tower (Division "7G") for the addition to the Abbott Power Plant.

The increase is to compensate the contractor for added costs due to delay in the delivery of pipe furnished by the piping contractor, a delay occasioned by the University's changing the schedule. This occurred when bids taken on September 5, 1957, on the construction of the cooling tower under one contract, including substructure, electrical work, and piping, were found excessive, were rejected, and separate bids were subsequently taken on the three phases of the project. This resulted in a saving of \$60,020, and contracts on the three phases of the work were awarded to the three on October 10, 1957.

Sargent and Lundy, Consulting Engineers for the project, and the Physical Plant staff have checked the cost sheets submitted by R. V. Monahan Company and find the cost attributable to the delay to be \$2,985.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mr. Swain, this recommendation was approved.

ADDITION TO CONTRACT FOR REMODELING OF STOCK PAVILION

(11) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase, not to exceed \$27,000, in the contract with English Brothers Company, Champaign, for exterior reconstruction and interior remodeling of the Stock Pavilion, and for the replacement of roof rafters and sheathing as found necessary.

Replacements of roof rafters and sheathing were anticipated when bids were taken, but the extent of the additional work could not be determined until the roof was actually removed, permitting examination of the condition of the sheathing and supporting rafters. Accordingly, contractors were instructed to include in their bids unit prices for such replacements as were found necessary. English Brothers Company submitted a quotation of \$1.50 per lineal foot for replacement of rafters and \$0.50 per square foot for replacement of sheathing. In view of the amount of the additional work which may have to be done, they reduced their quotations to \$1.20 and \$0.32 respectively. Complete replacement of the sheathing and rafters would cost approximately \$27,000; replacement of all of the sheathing and 50 per cent of the rafters would cost approximately \$20,000. Authorization has been requested to proceed with the replacement of the sheathing and rafters as found necessary by actual inspection as the roof is removed, at unit prices of \$1.20 per lineal foot for rafters and \$0.32 per square foot for sheathing.

Funds are available in the state capital appropriations to the University for 1957-59.

To take advantage of favorable weather conditions, it was necessary to proceed immediately with the work. Hence, the recommendation was submitted to the Executive Committee of the Board which has authorized the Comptroller to execute this increase in the contract. Confirmation of the Committee's action is requested.

On motion of Mr. Johnston, the action of the Executive Committee was confirmed.

ADDITION TO CONTRACT FOR LANDSCAPING OF MEN'S RESIDENCE HALLS AREA

(12) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$3,988.53 in the contract with the Twin City Nursery and Landscape Service, Urbana, for landscaping of the areas of the three new units of the Men's Residence Halls and for construction of asphalt paved areas and racks for parking bicycles. Funds are available in the allocation for landscape work in the Men's Residence Halls construction account.

I concur and recommend that the Comptroller be authorized to execute this change in the contract.

On motion of Mrs. Holt, this recommendation was approved.

REPORT ON LAND ACQUISITIONS

(14) Since July 1, 1957, the Board of Trustees has authorized purchases of a number of properties in Urbana and Champaign needed as sites for future University buildings and for expansion of the campus. These purchases are related to the University's building program, and an appropriation was made by the Seventieth General Assembly for the biennium of 1957-59 for land acquisitions. Actions of the Board of Trustees authorizing purchase of specific properties were taken at various meetings during the past year in executive session with the understanding that a complete report would be made public when the land acquisitions program was completed. Now that it has been substantially completed, there is submitted herewith, as a public report, the following list of land acquisitions authorized during this period.

QUARTERLY REPORT OF THE COMPTROLLER

(16) The Comptroller presents his quarterly report to the Board as of June 30, 1958.

This report was received for record and a copy has been filed with the Secretary of the Board.

REGULATIONS GOVERNING ASSESSMENT OF RESIDENT AND NONRESIDENT FEES

(17) The regulations governing assessment of resident and nonresident fees, adopted by the Board of Trustees on December 17, 1957, as amended June 19, 1958, provide that staff members and the spouses and children of staff members of the University on full-time appointment at the University shall be permitted to attend the University upon paying the same tuition and other fees as assessed against students who are residents of Illinois during the period the staff member holds such appointment and is performing the duties of the University position to which he has been appointed.

Each year some members of the faculties of state-supported institutions of higher education in Illinois and teachers in the elementary and secondary schools enroll for part-time programs of study at the University. As a matter of public service, these members of the teaching profession should be given the same status with respect to assessment of fees as staff members of the University. Accordingly, I recommend that the Dean of Admissions and Records be authorized to assess fees against such students on the same basis as fees are assessed residents of Illinois during the period these staff members hold appointments at their respective institutions. Most of these individuals are already legal residents of Illinois so that this authorization would be applicable in only a few cases.

On motion of Mrs. Watkins, this recommendation was approved.

COMMITTEE REPORTS

The Board considered the following reports and recommendations from its committees.

THE STATE BOND ISSUE REFERENDUM

Mr. Williamson, for the Committee on Buildings and Grounds, presented the following resolution, and moved its adoption:

Resolution

The Board of Trustees of the University of Illinois endorses the proposed bond issue authorized by the General Assembly of Illinois for referendum at the general election on November 4, 1958.

Approval of the bond issue will enable the state of Illinois to provide funds in the immediate future for the construction of critically needed buildings at the state universities and the state hospitals. The total amount involved is \$248,000,000 of which \$167,000,000 would be for the universities and \$81,000,000 for the hospitals, subject to allocation by the General Assembly of Illinois.

Demands upon our state educational institutions to enhance ongoing programs and services and to prepare for prospective increased enrollments together with the requirements of the state hospitals make the needs of these institutions far in excess of the amounts proposed in this bond issue.

The Board of Trustees of the University of Illinois records its approval of the bond issue as a practical means to help the state make a substantial reduction in accumulated building needs and to prepare for essential services in the future.

This resolution was adopted by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

USE OF UNIVERSITY AUTOMOBILES ASSIGNED TO CHICAGO COLLEGES

Mr. Swain, for the Finance Committee, reported that the Committee has approved the following statement of policy relating to use of automobiles assigned to the Chicago Professional Colleges and the Chicago Undergraduate Division for official University business:

The Vice-President in charge of the Chicago Professional Colleges and the Executive Dean of the Chicago Undergraduate Division shall have use of automobiles for the convenience of the University. Cars will be available to them for use on University business and for transportation to and from their homes as such business may require. These cars shall also be available to other staff members for transportation on University business, subject to approval of such use by the Vice-President in charge of the Chicago Professional Colleges or the Executive Dean of the Chicago Undergraduate Division.

On motion of Mr. Swain, the action of the Finance Committee was confirmed.

SALE OF SECURITIES

The First National Bank of Chicago has reviewed the securities held in the various funds for the Board of Trustees of the University of Illinois and rec-

¹ \$2,000 U. S. Savings "G" bonds sold to Restricted Group Account from Student Loan Account at redemption value.

ommends that the following stocks be sold and the proceeds of the sale be reinvested in other securities: 210 shares of Industrial Rayon, 300 shares of International Harvester, 90 shares of Montgomery Ward, and 5 shares of Standard Oil of New Jersey. These securities are held as the investment securities of the Endowment Fund.

The Finance Committee concurs in the recommendations of the First National Bank and recommends the adoption of the following resolution by the Board of Trustees authorizing the sale of stock:

Resolution

WHEREAS, the Board of Trustees of the University of Illinois is the owner of the following stocks:

210 shares Industrial Rayon
300 shares International Harvester
90 shares Montgomery Ward
5 shares Standard Oil of New Jersey, and

WHEREAS, the Finance Committee of said Board has determined that it is advantageous to sell the above listed securities,

Now, Therefore, Be It Resolved by the Board of Trustees of the University of Illinois that these securities be sold and that H. O. Farber, Comptroller, and A. J. Janata, Secretary, be authorized to execute all documents necessary to complete such sale.

On motion of Mr. Swain, the foregoing resolution was adopted.

WAGE RATES OF LABORATORY MECHANICS

Mr. Swain, for the Committee on Nonacademic Personnel, presented the following report and proposal from the President of the University, the Vice-President and Comptroller, and the Director of Nonacademic Personnel. This report and proposal were considered by the Committee on Nonacademic Personnel, in consultation with the other members of the Board of Trustees and University officials, including the Legal Counsel, at a meeting held earlier in the day.

During the spring of 1957, University representatives negotiated with representatives of Local 698, State, County, and Municipal Employees, AFL-CIO, with reference to pay scales for the biennial period of 1957-59. Agreements were reached by October, 1957, with the exceptions of the Laborer Electricians and the Laboratory Mechanics groups. The question with reference to Laborer Electricians was finally resolved by arbitration in April, 1958, authorized by the Board on January 16, 1958.

In October, 1957, negotiations with the Laboratory Mechanics reached an impasse, with the Union threatening a strike to enforce its demands. The University's position was that rates for this group should properly be compared: (a) with those paid for similar services at other universities which have comparable research and laboratory programs and which use comparable classes of employees, and (b) with rates paid for comparable type skills in the machinist area since the basic skill of most laboratory mechanics is in this area, and that furthermore, any increases for this group should be approximately the same percentage-wise as those available to other groups whether or not represented by a union. The Union's position was that these men are highly skilled and that the University should pay rates comparable to those paid for other skills in the community such as those in the construction trades, printing crafts, and the like, and that exceptional treatment was justified because of the long delay in properly recognizing these skills.

In a final effort to reach a satisfactory conclusion, the University appealed to Mr. Arnold Zander, International President of the State, County, and Municipal Employees Union. In accepting the request of the University, Mr. Zander asked that he be joined in a mediation attempt by Mr. Robben W. Fleming, Professor of Law and former Director of the Institute of Labor and Industrial Relations. Agreement was reached in this negotiation as to adjustments for the first year of the biennium and certain further adjustments for those below the range mid-points in 1958. With reference to general increases for the second year, however,

it was impossible to reach an agreement satisfactory to both parties. A proposal was finally made jointly by Mr. Fleming and Mr. Zander, to which both parties agreed, as the basis of temporary settlement. This proposal was: "The parties will confer for the purpose of establishing a fact-finding procedure which will be used as a basis for deciding what across-the-board adjustments, if any, are to be made as of July 1, 1958."

However, when attempts were made to implement this agreement, it became evident that the understandings of the University and of the Union were quite different. That of the Union, supported by Mr. Zander, was that this agreement provided for open end arbitration on wages. The University's position was that while it would attempt to make applicable in pay adjustments the results of any fact-finding procedure, its ability to do so with reference to available funds and the effect on other employee groups would have to be considered, and that it must therefore reserve the right of final decision as to wages after hearing from the fact-finder.

A number of meetings were held to resolve this difference. The proposal which follows has been agreed to by the Union and has certain advantages. This matter needs to be settled without delay, and the proposal as made will accomplish that result. It meets one University objection in that it provides a limit within which a total finding can be made. The University has funds presently reserved for increases which will be sufficient to meet even the maximum findings possible within the proposal, without involving any overdraft on a cash basis at the end of this year.

The differences between the parties have been honest ones, both as to the original question as to the basis of establishing rates and as to the understanding of the fact-finding formula. The proposal provides a method for settling the issues.

The Proposal

1. The across-the-board adjustment shall fall between \$0.00 and \$50.00 per month.
2. Adjustments shall be retroactive to July 1, 1958.
3. Adjustments shall apply uniformly, regardless of the position of an employee in his wage range.
4. The Submission shall read: "What across-the-board adjustment, falling between \$0.00 and \$50.00 per month, effective July 1, 1958, shall accrue to employees in the Laboratory Mechanics group?"
5. This memorandum shall be submitted to the Board of Trustees at its meeting on September 30 and, if approved, the Submission shall be executed not later than October 1.

On motion of Mr. Swain, the foregoing proposal was approved.

Addition to Contract for Engineering Services

The University has a standing contract with Brown, Manthei, Davis, and Mullins, Champaign, formerly Consulting Engineering Services, for engineering services on various buildings and utilities extension projects. The Director of the Physical Plant and the Vice-President and Comptroller recommend an addition to this contract to cover engineering services in the preparation of drawings and specifications for plumbing, heating, ventilating, air conditioning, and wiring required in the remodeling of the Electrical Engineering Annex for use by the Bioacoustics Laboratory, at an estimated cost, including fees, of \$6,500. Funds are available in the appropriation made for the construction of the Bioacoustics Laboratory from the General Reserve.

Contract for Refrigeration System in Ice Rink

The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$51,250 to R. H. Bishop Company, Champaign, the lowest bidder, for replacement of the present ammonia-operated compressor system and auxiliary equipment in the Ice Rink with a new Freon refrigeration system.

They also recommend the employment of the firm of Brown, Manthei, Davis, and Mullins, Champaign, for the engineering services required in connection with this new installation, at an estimated cost, including professional fees, of \$4,300. The University now has a standing contract with this firm for engineering services on various buildings and utilities extension projects, and it is recommended that the employment of this firm on the Ice Rink installation be by an addendum to the existing contract.

The Director of Athletics and the Business Manager of the Athletic Association join in these recommendations.

Funds will be advanced by the Athletic Association for all this work. The program was approved by the Board of Trustees on July 29, 1958.

OCTOBER, NOVEMBER, AND DECEMBER MEETINGS

On motion of Mr. Johnston, the Board voted to hold its October meeting in Chicago, Illinois, on Thursday, October 23, 1958, at an hour and place to be determined by the President and Secretary of the Board.

On motion of Mr. Bissell, the Board voted to hold its November meeting in Chicago, Illinois, on Wednesday, November 19, 1958, at an hour and place to be determined by the President and Secretary of the Board.

On motion of Mr. Bissell, the Board voted to hold its December meeting in Chicago, Illinois, on Wednesday, December 17, 1958, at an hour and place to be determined by the President and Secretary of the Board.

EXECUTIVE SESSION

At this point, on motion of Mr. Williamson, an executive session was ordered for consideration of the following items of business.

PURCHASE OF PROPERTY AT 502 EAST JOHN STREET, CHAMPAIGN

(18) The Director of the Physical Plant and the Vice-President and Comptroller recommend the purchase of the property at 502 East John Street at a price of \$25,000.

The property, located at the northeast corner of John and Fifth Streets, consists of a lot 66 feet wide and 130 feet deep with a three-story frame house which has been used as a student rooming house, and is in an area which the University will ultimately need to acquire for expansion of the campus. In the meantime, there is a great need for additional parking facilities in this area. The Board of Trustees has recently approved the purchase of the property at 508 East John Street, Champaign, in the same block.

The property at 502 East John Street was offered to the University for \$30,000 but the offer was rejected and the price was reduced to \$25,000 which represents a cost of \$2.91 per square foot and is within appraisals obtained by the University.

Funds are available in the state capital appropriations to the University for 1957-59. The balance remaining in the item for land has been scheduled for acquisition of other properties, but these acquisitions can be deferred.

Mr. Williamson stated that this recommendation, with the President of the University concurring therein, was previously considered by the Committee on Buildings and Grounds and that the Committee supports it.

On motion of Mr. Williamson, the purchase of this property, as recommended, was authorized by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

RECOMMENDATIONS OF THE UNIVERSITY PATENT COMMITTEE

(19) The University Patent Committee submits, with the concurrence of the Chairman of the University Research Board, the following recommendations relating to inventions by members of the staff.

1. Method for destroying hardwood tree stumps—C. S. Walters, Professor of Forestry, and K. R. Peterson, Research Associate in Forestry, inventors. At its meeting on April 18, 1958, the Board of Trustees approved the transfer of this invention to the University of Illinois Foundation with authority to file a patent application if it appeared desirable. The Foundation has now requested the Patent Committee to make a recommendation as to the distribution of any net income that may be received from licenses or royalties on this invention.

The Patent Committee recommends that 15 per cent of the income received by the Foundation from licenses or royalties on this invention remaining after the payment of all expenses incurred in connection with such invention be paid to the inventors.

2. Electrolytic saw—Marvin Metzger, Associate Professor of Physical Metallurgy, inventor. This invention is a device for cutting electrically conducting materials without strain by passing a direct current from the specimen to a wire cathode held in close proximity to it through a suitable electrolyte. The novel feature of the present device is that it uses a cathode in close proximity to the specimen, and this can produce localized cutting action even when the electrolyte is applied over a large area of the specimen.

The Head of the Department of Mining and Metallurgical Engineering is of the opinion that this development will be of use only in the laboratory and has little or no commercial application; he does not recommend that funds be expended in attempting to secure a patent. The Patent Committee concurs in this opinion and recommends that it be released to the United States Navy, the sponsoring agency under which it was developed.

I concur in these recommendations.

On motion of Mr. Bissell, these recommendations were approved.

On motion of Mr. Bissell, the Board adjourned.
