ASSOCIATION OF GOVERNING BOARDS OF COLLEGES AND UNIVERSITIES

President Clement informed the Board that Mrs. Watkins, as a Regional Director of the Association of Governing Boards of Colleges and Universities, has been asked to attend a meeting of the Association at the University of Nevada in May of this year.

On motion of Mr. Swain, her participation in this meeting was authorized.

FUTURE BOARD MEETINGS

President Clement made the following announcements.

The May meeting will be held in Urbana as scheduled on Wednesday, May 20, 1964. The biennial meeting of the University of Illinois Citizens Committee will be held the following day and it is hoped that as many of the Trustees as can do so will stay over for that meeting. He suggested that the Board meeting be held on Wednesday evening, beginning at 8:00 o'clock, to shorten the time between the two meetings and unless there were objections, this schedule would be followed. There being no dissent, it was so ordered.

The June meeting is scheduled for Wednesday, June 17, 1964, and President Clement stated it will be held in Urbana, according to a schedule to be arranged by the President and the Secretary in consultation with the President of the University.

The Board then considered the date of the July meeting.

On motion of Mr. Pogue, the date of this meeting was changed from July 15, the third Wednesday, to Wednesday, July 22, to be held in Urbana.

MEETING OF THE BOARD OF HIGHER EDUCATION

President Clement also announced that the University will be host to the Illinois Board of Higher Education at its May meeting on May 4 and 5. The meeting will be held at the LaSalle Hotel. Plans for the meeting include a visit to the Congress Circle site.

RECESS AND EXECUTIVE SESSION

President Clement stated that an executive session has been requested and is being ordered for consideration of recommendations relating to land acquisitions and that this meeting was to be held after luncheon.

On motion of Mr. Williamson, the Board recessed.

REPORT OF COMMITTEE ON GENERAL POLICY

Supplementary Report on Amendments of Statutes, May 1, 1964

Mr. Jones, for the Committee on General Policy, presented the following report:

Revisions of Sections 6, 38, and 39 of the University Statutes Proposed by Senate Coordinating Council

On April 15, 1964, the Board of Trustees received and approved the Committee on General Policy's April 14, 1964, recommendations and summary report concerning revisions of Sections 6, 38, and 39 of the University of Illinois Statutes previously proposed by the University Senates and the Senate Coordinating Council. The April 14, 1964, Committee report recommended certain modifications of the statutory amendments forwarded by the Senates, and the Board's action of April 15 included the adoption of the following resolutions:

"Be It Resolved that the proposals for statutory revision as proposed by the Senate Coordinating Council and transmitted by the President on June 19, 1963, be tentatively approved, except as noted below, and

"Be It Further Resolved that the recommendations of the Committee on General Policy of the Board of Trustees of the University of Illinois in its April 14, 1964, report on 'Revision of Sections 6, 38, and 39 of the University Statutes Proposed by Senate Coordinating Council' be considered amendments to the University Statutes proposed by the Board of Trustees, and that the advice of the University Senates be sought thereon as provided in Section 65 of the University Statutes."

In line with the second of the above resolutions, arrangements are in process for transmittal of the amendments proposed by the Board of Trustees on April 15, 1964, to the University Senates for advice. Your Committee's April 14, 1964, report and recommendations, and the Appendix thereto outlining the development of the statutory revisions, will be included in the materials forwarded to the Senates, but that report was in summary form since there was not sufficient time between the April 14 meeting of the Committee with the President and Senate representatives and the April 15 meeting of the Board to prepare a more detailed statement. The Committee on General Policy believes that the further exposition in this supplementary report may be of assistance to the Senate members in developing advice to the Board of Trustees on the proposed amendments. There will be no opportunity for the Board of Trustees to consider or act upon this supplementary report prior to its next meeting on May 20, 1964, but it is being forwarded to the President at this time with the suggestion that it be included, as a Committee document only, in the materials transmitted to the Senates.

Those areas where the statutory amendments proposed by the Board of Trustees differ from those recommended by the Senate Coordinating Council are specifically noted in this supplementary report.

Procedural Aspects

The statutory revisions initiated by the Senates and tentatively approved by the Board of Trustees provide for the establishment of a general University committee at each campus (to be known as the "Faculty Advisory Committee"), nominated and elected by the academic staff. The stated functions of the Faculty Advisory Committee (Section 6)

"shall be to provide for the orderly voicing of suggestions for the good of the University, for affording added recourse for the consideration of grievances,

and for furnishing a channel for direct and concerted communication with administrative officers of the University, its colleges, schools, institutes, divisions, and other administrative units on matters of interest or concern to the academic staff or any member of it."

The fact that consultation with the Faculty Advisory Committee will be available both to members of the academic staff and to administrative officers is regarded as a significant clarification of the appropriate channels for such communication. Also, it is noted that the Senate's existing Committee on Academic Freedom will be renamed as a "Committee on Academic Freedom and Tenure."

In a dismissal situation, the President would be required to consult with the Faculty Advisory Committee of the appropriate campus before filing charges, but the determination of whether or not proceedings are to be instituted after such consultation is left with the President. If proceedings are instituted, charges are filed with the Senate, and the appointee is privileged to request a preliminary hearing on them before the Senate Committee on Academic Freedom and Tenure. This Senate Committee will receive evidence, hear arguments, and make findings, conclusions, and recommendations. Thereafter, the case may be closed, or the President may proceed to file the charges with the Board of Trustees.

The appointee may also request a hearing before the Board, at which a member of the Senate Committee on Academic Freedom and Tenure may be in attendance and is to be given an opportunity to make a statement. The record made at the previous hearing before the Senate Committee will be submitted to the Board, additional evidence may be taken and, under Section 38 (e) (7), "the Board will give due consideration to the findings, conclusions, and recommendations of the Committee on Academic Freedom and Tenure, and the remainder of the record before said Committee . . ." The modifications proposed by the Board of Trustees on April 15, 1964, included the addition of the italicized portion of the above phrase as a technical clarification of matters appropriately considered by the Board in a dismissal proceeding. The ultimate findings of fact and the final decision as to the appointee's dismissal or retention will be made by the Board, as is the case under the existing University Statutes. Public statements about a case under consideration are to be avoided so far as possible.

In designating the effective date of any dismissal or request for resignation, the Board is to give "due consideration to all relevant factors including, without limitation, the gravity of the appointee's conduct in question, the services to be rendered to the University by the appointee during any intervening period, and to the time reasonably required for the adjustment of the appointee's personal affairs." President Henry has stated to your Committee that he views time to adjust personal affairs as one of many factors to be considered in designating the effective date of a dismissal or requested resignation, and that the character of the appointee's conduct would also appear to be relevant to this point. The Legal Counsel has stated that under existing Illinois law state appropriations for personal services may not be used to pay salary unless services are, in fact, performed. Accordingly, the modifications in Section 38 (e) (7) proposed by the Board of Trustees at its April 15, 1964, meeting added the italicized portion of the above phrase as being a further definition of the factors to which the Board will give due consideration in designating the effective date of a dismissal or requested resignation.

In large measure, the Senate Coordinating Council's procedural suggestions tentatively approved by the Board of Trustees on April 15, 1964, follow existing administrative practice in dismissal cases, but considerably more detail is furnished than is found in the present University Statutes. The major procedural innovations which will now be formalized are (1) the necessity of the President's consultation with the Faculty Advisory Committee as a condition precedent to the filing of charges for dismissal, and (2) the establishment of detailed requirements of notice and procedures for the hearing before the Senate Committee on Academic Freedom and Tenure.

Consultation with the Faculty Advisory Committee will furnish an opportunity for the President to have direct communication with a formally designated faculty group before preferring charges, but he would not be prevented from also conferring with the appropriate college or department as he has done in the past.

All parties concerned would appear to be benefited by the new procedural details for the preliminary hearing before the Senate Committee on Academic Freedom and Tenure. That Committee has the opportunity to consider the ap-

pointee's answer to the charges, to receive evidence, and to hear arguments presented by each side. Under existing University Statutes, the appointee against whom charges are filed is already entitled to a hearing before this Senate Committee but the tentatively approved revisions will formalize the Committee procedures for such hearing. A new requirement is that the appointee must file an answer to the charges if he requests a hearing before the Committee.

It is noted that, by reason of the times specified for notices and hearings before the Senate Committee and the Board, a minimum of sixty-five days will elapse between the time the President files charges with the Senate and the commencement of the hearing before the Board of Trustees. This minimum contemplates consultation, hearing, consideration, and decision by the President and the Senate Committee on the first day at each stage of the proceedings. It is apparent that, in practice, such immediate disposition will not be possible, and that the interval between the filing of charges and the Board hearing will substantially exceed sixty-five days.

Substantive Matters

The amendments to the Statutes proposed by the Board of Trustees in its April 15, 1964, action contain some substantive changes in the revisions initiated in the Senates and received by the Board in June of 1963. The most significant of these are in the Board's proposed modifications in the Coordinating Council's Section 38 (d) definition of "due cause for dismissal" and the new Section 38 (e) (8) relating to suspensions. Additionally, the Board has proposed a substantial amendment to Section 39 (b) dealing with a faculty member's role as a citizen, which Section was not the subject of a recommendation by the Coordinating Council.

1. *Due Cause for Dismissal*

Existing Section 38 (d) reads as follows:

"(d) Cause for discharge shall consist of conduct seriously prejudicial to the University through deliberate infraction of law or commonly accepted standards of morality, neglect of duty, inefficiency or incompetency. The enumeration of causes for discharge shall not be deemed exclusive, and the Board of Trustees reserves the power to discharge for other causes, but it is to be distinctly understood that this power will be exercised only under exceptional circumstances and then only for conduct which is clearly prejudicial to the best interests of the University."

The Coordinating Council rewrote the definition of due cause for dismissal with considerable changes in language and emphasis. The amendments to Section 38 (d) proposed by the April 15, 1964, action of the Board of Trustees adopt the basic approach and concepts of the Council's version but would modify the Council's language slightly to read (the matter deleted from Council version shown within brackets with lines through the deletions, and matters added to Council version shown by italics):

"(d) Due cause for dismissal shall be deemed to exist only if [~~with all due regard for the freedoms and protections provided for in Section 39 of these Statutes,~~] a faculty member's conduct is found to demonstrate clearly and convincingly either that (1) he has been grossly neglectful of, or grossly inefficient in, the performance of his University duties, or that (2) he can [~~no longer~~] not be relied upon to perform his University duties and functions, or otherwise to conduct himself, in a manner consonant with professional standards of conduct, competence, and responsibility."

The phrase "with all due regard for the freedoms and protections provided in Section 39 of these Statutes" has been eliminated to avoid possible confusion in interpretation between Section 38 (d), in which the causes for dismissal are defined, and Section 39, in which is stated the University's policy to encourage, promote, and maintain academic freedom within the limits therein set forth. A reference to "freedoms and protections provided for in Section 39" would necessitate a similar reference to the "responsibilities" required by that Section. It is clear that certain responsibilities set forth in Section 39 are of a nature that violation of them will result in dismissal. For example, Section 39 (c), in which no change has been recommended, must be interpreted as meaning that to advocate the overthrow of our constitutional form of government by force or violence is unprofessional conduct, per se, and that one indulging in such advocacy will be dismissed.

On the other hand, other parts of Section 39, particularly Section 39 (b) dealing with the role of a faculty member as a citizen, invite debate as to whether they are admonitory in nature or postulate standards for dismissal for cause. Since the new Section 38 (d) orients due cause for dismissal to the question of the faculty member's professional competence or responsibility, it is felt that a specific cross-reference in it to Section 39 might tend to confuse, rather than to clarify, and that clarification should occur as an amendment to Section 39 (b) as discussed below. Accordingly, the Committee on General Policy's recommendation to delete the phrase in question was prompted by its conviction that freedoms, protections, responsibilities, and obligations delineated in Section 39 will always be given "due regard" when the conduct of a faculty member is in question, and that a reference to them in Section 38 (d) would serve no constructive purpose.

The language added to the Council's version of Section 38 (d) by the Board of Trustees' action on April 15, 1964, was designed to clarify that conduct clearly demonstrating professional incompetence or irresponsibility may constitute cause for dismissal, whether it occurs in the classroom, laboratory, or elsewhere. It was felt that without the addition of the words "or otherwise to conduct himself" and "conduct," as proposed by the Board's April 15, 1964, action, the paragraph might be interpreted to mean that dismissal proceedings could be initiated only for classroom or laboratory deficiencies that directly relate to the individual's ability to perform within the classroom or research context. As modified, there should be no uncertainty that, consistent with previous statements by the Board of Trustees, extramural activities of a teacher may be of such a nature and of such seriousness as to demonstrate his professional unfitness.

Your Committee views Section 38 (d) as recommended by the Board to be an affirmation of the fact that one who is professionally competent and responsible can rely on security of employment at the University of Illinois, and that the central issue in any dismissal proceeding will remain such professional competency and responsibility, rather than the effect of particular conduct upon the public image of the University.

2. Amendments to Section 39 (b)

As noted above, the action of the Board of Trustees on April 15, 1964, proposed a modification of Section 39 (b), with respect to which no recommendation had been made by the Senate or the Senate Coordinating Council.

Section 39 (b) in the existing Statutes reads:

"(b) In his role as citizen, the faculty member has the same freedoms as other citizens, without institutional censorship or discipline, although he should be mindful that accuracy, forthrightness, and dignity befit his association with the University and his position as a man of learning."

Extended discussions have occurred regarding the nature of the matters a faculty member is to be "mindful" of under existing Section 39 (b). By some they are regarded as ideals of scholarly conduct and expression which 39 (b) admonish a faculty member to strive to achieve. By others they are viewed as standards of professional conduct and expression which the faculty member must observe under pain of University discipline. Contributing to the uncertainty is the fact that, while the old section 39 (b) refers to "institutional censorship or discipline," the University Statutes do not provide for any censorship or discipline other than dismissal for cause.

It was the view of your Committee, confirmed by the Board's action on April 15, 1964, that clarification of Section 39 (b) was in the best interest of the University and its faculty. Accordingly, the following is the text of Section 39 (b) now being transmitted to the Senates for advice:

"(b) In his role as a citizen, the faculty member at the University has the same freedoms as other citizens, but his special position as a member of a learned profession associated with an educational institution carries with it a special obligation to recognize that the public may judge his profession and the University by his conduct or his utterances. When he speaks or writes, a faculty member should be mindful of the admonitions that accuracy, forthrightness, and dignity befit his association with the University and his position as a man of learning. If a faculty member fails to heed these admonitions on an occasion when he is exercising his freedom of speech as a citizen, such failure shall not, of itself, constitute due cause for dismissal but, after consultation with the

Faculty Advisory Committee, the President may take official cognizance of such failure."

It will be observed that the Section has been recast to note the faculty member's institutional identification in the eyes of the public, and to clarify that, when a faculty member is exercising his freedom of speech as a citizen, the provisions relating accuracy, forthrightness, and dignity are admonitory.

As rewritten, Section 39 (b) is believed to provide further definition and assurances of the freedoms enjoyed by a faculty member in his role as a citizen, but it also authorizes the President to take "official cognizance" of such exercises of these freedoms as markedly fail to meet acceptable standards of accuracy, forthrightness, and dignity. For example, the President—after consultation with the Faculty Advisory Committee—might publicly deplore inaccurate, intemperate, undignified, or irresponsible utterances of a faculty member, and emphasize that such views were not to be attributed to the University of Illinois.

The reference to freedom from "institutional censorship or discipline" has been eliminated and has been replaced by an assurance that failure to heed the stated admonitions will not, of itself, constitute due cause for dismissal—the only discipline defined in the remainder of the Statutes. It would be the interpretation of your Committee, however, that persistent and willful failures to observe these admonitions might become a pattern of conduct deemed to violate professional standards to an extent that would indicate the initiation of proceedings for dismissal for due cause under the new Section 38 (d).

3. *Suspension Pending Dismissal*

The new Section 38 (e) (8) in the proposals received from the Senate Coordinating Council sets forth conditions for the suspension of an appointee in connection with contemplated or actual filing of charges for dismissal. The Council version included a statement that an appointee might be suspended "only . . . with pay." President Henry has supported this provision before your Committee, urging strongly that a faculty member's salary be continued until the Board's final disposition of a dismissal proceeding, if possible, even if suspension during the intervening period is considered necessary and justified because of special circumstances. He has stated that, in his judgment, the amount of dollars paid during any suspension period would be relatively insignificant when weighed against the undesirability of requiring a faculty member to prepare his defense against unresolved charges during a time in which he is not receiving his salary. President Henry has further cautioned that, when a suspension without pay is involved, the basic issue of professional responsibility tends to become confused with the lesser issue of compensation.

The Legal Counsel advises, however, that the Illinois constitutional prohibitions against payment of extra compensation and gifts of public funds, the statutory limitations on appropriations for personal services, and the various enactments concerning the suspension of other state employees (either as a disciplinary measure or while dismissal proceedings are pending), all demonstrate the public policy and law of this state to be that suspensions of state employees should be without pay, and that state appropriations for personal services may not be expended as salaries to individuals, including faculty members, who do not have employment status or who do not perform services. In expressing his opinion that, in the absence of permissive legislation, suspensions of state employees with pay would probably not be upheld by the Illinois courts, the Legal Counsel has stated there appear to be no reported Illinois cases squarely deciding the point.

President Henry has suggested that, under these circumstances, it may be advisable for the University Statutes to deal with the subject of suspensions pending dismissal without specifying whether such suspensions are to be with or without pay, thereby providing flexibility of application if future court decisions or legislation provide clarification of the legal question. The Board's April 15, 1964, action, therefore, deletes the words "with pay" from the Council's version of Section 38 (e) (8).

Also, under the Coordinating Council's version of Section 38 (e) (8), suspension was authorized "only under exceptional circumstances." Any instance in which a suspension is being considered can be said to be an "exceptional circumstance" and, since a subjective judgment by the President would be involved in any event, the Board of Trustees' amendments proposed at the April 15, 1964,

meeting substitute, for the "exceptional circumstances" phrase, a provision which would permit suspension "by the President only when he considers such suspension clearly necessary and justified."

It is observed that suspension will not be automatically applied when dismissal charges are being considered or filed and that, in an appropriate case, the President might reassign a faculty member's duties rather than invoke a suspension, on the same theory that permits the Board to take into account the nature of an appointee's intervening services in determining the effective date of a dismissal.

In your Committee's conferences with members of the administrative staff and Senate representatives, there occurred discussions concerning the position of a faculty member who might be suspended without pay and thereafter be exonerated at the hearing on his dismissal charges. The Legal Counsel has pointed out that in those cases where the courts have determined that a suspension has been improperly invoked, it has been held that the suspended employee may recover his unpaid salary for the period he was improperly suspended. Accordingly, the Board has added a new subparagraph (4) to the Council's version of Section 38 (e) (8) under which provision is made for the restoration of salary to a faculty member who might be prevented from performing his duties by reason of a suspension which does not result in a dismissal. Your Committee is not aware of any instance in the history of the University wherein a faculty employee has been deprived of his compensation during a period while dismissal charges against him were unresolved but, even if this should occur in a future case, the amendment to Section 38 (e) proposed by the Board of Trustees would permit the appointee to recover any suspended salary if there is a subsequent determination that due cause for his dismissal did not exist.

In the Coordinating Council's version of Section 38 (e) (8) there was also a technical inconsistency between the time that the President must file charges under Section 38 (e) (1) after consultation with the Faculty Advisory Committee (thirty days) and the time that his suspension order will terminate after consultation with that Committee unless charges are filed (twenty days). To eliminate this inconsistency, and upon the Legal Counsel's advice as to the legality of suspensions with pay pending hearing or discharge, the action of the Board of Trustees on April 15, 1964, proposed that Section 38 (e) (8) of the Coordinating Council's version be altered to read as follows (the matter deleted from Council version shown within brackets with lines through the deletions, and matters added to Council version shown by italics):

"(8) Suspension. An appointee may be suspended ~~[only under exceptional circumstances and with pay]~~ by the President only when he considers such suspension clearly necessary and justified, subject to the following provisions: a) the President may suspend before the filing of any charges only after giving notice to the chairman or, in the absence of the chairman from the University, to some member of the Faculty Advisory Committee that he believes that cause for dismissal may exist; b) if the President suspends after so giving notice to the chairman or some member of the Faculty Advisory Committee, or during consultation with the Faculty Advisory Committee, such suspension shall terminate within ~~[twenty]~~ thirty days after that Committee has made its recommendations to the President unless the President initiates dismissal proceedings by the filing of charges for dismissal within that ~~[twenty]~~ thirty-day period; ~~[and]~~ c) if the President initiates dismissal proceedings by filing charges for dismissal, he may suspend the appointee, or may extend a previous suspension of the appointee, until the termination of those proceedings, or until the effective date of dismissal if the proceedings result in dismissal; and d) if dismissal proceedings are not filed against a faculty member who has been suspended or, if filed, do not result in a dismissal, the faculty member shall be entitled to receive the full amount of his agreed compensation as though no suspension had occurred."

Summary

The Committee on General Policy wishes to express its appreciation for the considerable effort and conscientious attention directed to the proposed revisions of Sections 6, 38, and 39 of the University Statutes by each of the Senates, their respective Committees on Academic Freedom, the Senate Coordinating Council, and the President and other members of the administrative staff. All have con-

tributed materially to the development of what your Committee views as a major improvement in the formal expression of standards and procedures in the fortunately rare situation where there may appear to be due cause for dismissal of a faculty member, or where a faculty member may have so far departed from the canons of accuracy, forthrightness, and dignity as to justify the taking of official cognizance thereof by the President.

The Trustees are acutely aware of their position of public trust and their obligation to discharge faithfully their duty to maintain the University's position of leadership in the field of higher education. They have in the past and will continue in the future to support responsible exercise of academic freedom by the faculty, and duly recognize its importance as a factor in achieving and maintaining the status the University now enjoys. It does the public no service if responsible thought and inquiry are stultified or suppressed at a university by a possibility that expressions of an unpopular position may result in an arbitrary or capricious dismissal, and the proposed Statutes are further guarantees that such will not occur at the University of Illinois. At the same time, in the view of your Committee the Statutes as proposed will also afford the University adequate protection against unprofessional conduct.

During your Committee's deliberations there were discussions of the fact that the University Statutes do not refer to any form of "institutional discipline" in relation to the academic staff other than dismissal for due cause as defined in Section 38 (d) [the official cognizance authorized in proposed Section 39 (b) is not considered to be a form of discipline]. It was observed that the omission of reference to lesser degrees of discipline might be misinterpreted as meaning that the Trustees were not concerned about negligence, inefficiency, or irresponsibility in lesser degrees than those deemed to be due cause for dismissal under Section 38 (d). Such is not the case, but since these matters were not dealt with in the Coordinating Council's proposals, and since complete involvement of the Senates in discussions on these points would be essential, your Committee concluded that any attempt to develop formal provisions concerning lesser offenses and sanctions short of dismissal would unduly delay final action on the statutory revisions already considered by the Senates. It is suggested, however, that at an appropriate time the Board or the Senates might well consider whether or not these matters should become the subject of further statutory revisions.

On motion of Mrs. Watkins, this report was adopted, without dissent.

CENTER FOR ASIAN STUDIES

(14) The Dean and the faculty of the College of Liberal Arts and Sciences and the Executive Committee of the Division of Social Sciences recommend that there be established in the College a Center for Asian Studies to implement a program previously established for which funds have been provided in state appropriations for the current biennium (1963-65) and for further support of which the University has received a grant from the Ford Foundation covering a period of five years.

A supporting, definitive statement about the organization and functions of this Center is submitted herewith and a copy is being filed with the Secretary of the Board for record.

ADMISSION REQUIREMENTS IN ART

(15) The Urbana-Champaign Senate has recommended the following proposal from the College of Fine and Applied Arts for a change in the requirements for admission to the curriculum in art: All students entering the University after June 1, 1965, to proceed at the junior level in any art curriculum (registered at junior level art courses) must have earned a cumulative average of at least 3.25 for all university work, based on the grading system of the University of Illinois.

This change is necessary to control enrollments in the curriculum in the Department of Art and the proposed change is directed primarily to transfer students. A program of limitations of the number of freshmen admissions is already in effect and has, in general, proved satisfactory.

The proposal was previously concurred in by the All-University Committee on Admissions and has also been approved by the Chicago Undergraduate Division Senate.

I recommend approval.

On motion of Mr. Swain, this recommendation was approved.

CURRICULUM IN MILITARY SCIENCE

(16) The Urbana-Champaign Senate recommends approval of a military science curriculum which has been set up to meet the requirements of a voluntary

Reserve Officers' Training Corps program, eliminating branch material subjects and substituting a general military science program. This revised curriculum is necessary if the voluntary program is to succeed, because, in order to interest the students, it must provide realism, challenge (both intellectually and physically), and incentive. It is important the maximum credit be offered towards satisfying the requirements for a baccalaureate degree by substitution of non-military University courses for military courses.

A complete statement of the United States Army military science curriculum and the courses to be included has been filed with the Secretary of the Board for record.

This proposal is submitted with the concurrence of the Department of the Army, an *ad hoc* Committee on Implementation of Voluntary Reserve Officers' Training Corps and Coordination of Related Actions, and of the Committee on Military Affairs.

I recommend approval.

On motion of Mr. Hughes, this revised curriculum was authorized.

CURRICULUM IN ORTHOPAEDIC SURGERY

(17) The Medical Center Senate recommends authorization of a curriculum in orthopaedics leading to the degree of Master of Science. This program will provide advanced training in scientific investigation and teaching for students preparing for careers in teaching and research and will provide the degree candidate with opportunities beyond those available to residents in training for specialties. The degree requirements are:

Prerequisites will include the degree of Doctor of Medicine and at least one year of internship.

The candidate must also meet the general requirements for admission to the Graduate College.

Nine units of graduate work, including a minimum of one unit in a graduate course in a related basic science discipline.

Attendance at one seminar per quarter for three quarters in one of the basic sciences, including anatomy, biological chemistry, microbiology, pathology, physiology, public health, biometrics and statistics, and pharmacology.

Attendance at Department of Orthopaedic Surgery seminar during the entire period of graduate study.

A thesis conforming to Graduate College requirements.

A supporting document from the Medical Center Senate descriptive of the program and giving the details of the courses included is being filed with the Secretary of the Board for record.

The Acting Dean of the Graduate College and the Executive Vice-President and Provost concur.

The Senate Coordinating Council has indicated that no other Senate jurisdiction is involved.

I recommend approval, subject to further action by the Board of Higher Education.

On motion of Mrs. Watkins, this recommendation was approved.

CHICAGO UNDERGRADUATE DIVISION HEALTH SERVICE COURSES AND STAFF

(18) The Director of the Health Service at the Chicago Undergraduate Division has recommended that the names of the courses offered by the medical staff of the Health Service there and the professorial titles of the staff be changed from "Hygiene" to "Health Science."

With the concurrence of the Director of the Health Services and other administrative officers concerned, this change has been approved for all campuses and is reported for record.

This report was received for record.

SUMMER SPEECH CLINICS

(19) The Director of the Division of Services for Crippled Children and the Vice-President for the Medical Center recommend that the Division be author-

	<i>Estimated Cost</i>

Funds are available in the budget of the Division of Services for Crippled Children.

I concur.

On motion of Mr. Swain, this recommendation was approved.

In view of this official change in name of the intersection of the three expressways, I recommend the Board of Trustees change the name of the new campus for the University of Illinois now under construction at Congress Circle to the "University of Illinois at Chicago Circle."

On motion of Mr. Dilliard, this change in name was approved.

CONTRACT FOR ELECTRICAL SERVICE TO CENTRAL NATIONAL BANK BUILDING AT CHICAGO CIRCLE

(30) The University is purchasing the Central National Bank at 728 West Roosevelt Road, on or about July 1, 1964. This building will require separate electrical service from the Commonwealth Edison Company, since it is not economical to run service from the heating plant. Commonwealth Edison will supply electricity at the bank building at 2.16KV transformed to 120/240 volts and 2.74KV transformed to 240 volts, at a monthly facilities rental service charge of \$71.00 plus excess metering charges for a combined billing at a monthly rental of \$46.20. The nonrecurring cost for excess facilities to supply electricity at a second point is \$4,274. It is estimated that the savings effected by combined billing will amortize the excess facilities cost of \$4,274 in one year's time.

The Director of the Physical Plant and the Vice-President and Comptroller therefore recommend authorization of an agreement with Commonwealth Edison Company, Chicago, for the electrical service at the new Chicago Campus, and that the University pay Commonwealth Edison Company the standard excess facility charges of \$4,274.

Funds are available in the state capital appropriations to the University for 1963-65 from the Universities Building Fund and have been released.

I concur.

On motion of Mrs. Watkins, this agreement was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Johnston, Mr. Kerner, Mr. Page, Mr. Williamson.

MAJOR STREET AND HIGHWAY PLAN FOR THE CHAMPAIGN-URBANA AREA

(31) The Board of Trustees has approved in principle a Major Street and Highway Plan for the Champaign-Urbana area and authorized the University's participation in the planning organization required by the Federal Aid Highway Act of 1962.

The Illinois Division of Highways has now requested each agency involved

in this improvement program to adopt a formal resolution authorizing participation therein.

A resolution prepared by the Division is submitted herewith. I recommend that: the Board adopt the said resolution, and that the Secretary of the Board be authorized to issue certified copies of said resolution to such public agencies and other parties as may require the same, and to file a certified copy with his record of the minutes of today's meeting.

On motion of Mr. Pogue, this recommendation was approved, and the resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Johnston, Mr. Kerner, Mr. Page, Mr. Williamson.

The Committee on Buildings and Grounds also recommends approval.

I concur.

On motion of Mr. Pogue, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Johnston, Mr. Kerner, Mr. Page, Mr. Williamson.

ADDITION TO CONTRACT FOR CONSTRUCTION OF EAST CHEMISTRY, FIRST ADDITION

(33) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$5,191.79 in the contract with Kuhne-Simmons Company, Inc., Champaign, for construction of the East Chemistry Building Addition to provide for the elimination of inverted syphons in the storm drainage system and provision of a gravity flow system.

Funds are available in the construction budget.

I concur.

On motion of Mr. Hughes, this change in contract was authorized.

ADDITION TO CONTRACT FOR CONSTRUCTION OF THE CHICAGO CIRCLE CAMPUS

(34) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$13,236.01 in the contract with Gust K. Newburg Construction Company, Chicago, for modifications of the closed circuit television and communications systems at Chicago Circle.

Funds are available in the construction budget.

I concur.

On motion of Mr. Swain, this change in contract was authorized.

ADDITIONS TO CONTRACTS FOR CONSTRUCTION OF CHICAGO CIRCLE UNION BUILDING

(35) The Director of the Physical Plant and the Vice-President and Comptroller recommend increases in contracts for the construction of a Student Union Building at Chicago Circle to provide for extensions of utilities services to the two adjacent Hull House Buildings:

Power Construction, Inc., Oak Park.....	\$	793 04
Frank S. Bellis, Berwyn.....	15	460 94
Hoffman Electric Company, Chicago.....		399 95
<i>Total</i>		\$16 653 93

The architects for the restoration of Hull House investigated ways and means of providing the necessary services and found that the most economical would be from the Student Union, the closest source to the campus system.

The architects for the Union Building and for Hull House state that the contractors' proposed charges for the work involved are reasonable.
I concur.

On motion of Mrs. Watkins, these contract changes were authorized.

INCREASED INTERCITY TELEPHONE FACILITIES

(36) The University now has eight WATS (Wide Area Telephone Service) lines at Urbana and two WATS lines at Chicago serving both the Navy Pier and the Medical Center. These lines permit a call to be made to any point in the state without incurring a toll charge. Each day an average of over 800 calls from Urbana and 200 calls from Chicago are made over these ten WATS lines. However, only 25 per cent of all attempts to secure a line succeed on the first try, indicating that the number of lines are not adequate to handle the traffic demand. As a result, toll calls are being made around the WATS lines resulting in monthly toll charges of \$1,400 in Urbana and \$450 in Chicago.

The Telephone Company has recently made available a new service — TELPAK — which, in brief, is a sharing of channels of communication by public agencies. The state of Illinois is a heavy user of TELPAK and has unused channels which are available to the University. As a result, it is possible to install tie lines between certain points at a cost much lower than under any previous rate schedule.

The Telephone Company has analyzed the calls made over the WATS lines with particular attention to their point of termination, and it is the opinion of its staff that the University's intercity communication service would be greatly improved by eliminating three of the eight WATS lines at Urbana and installing seven tie lines between Urbana and Chicago and three tie lines between Urbana and Springfield. (While the number of calls to Springfield is not proportionately large enough to warrant three lines, the duration of these calls is three to four times that of calls to other points.)

The Telephone Company's proposal would result in the University having seventeen intercity communication paths available at one time as compared with ten at the present time. The proposal also provides for an additional tie line between Navy Pier and the Medical Center. In terms of fixed rental charges, the proposed service would not cost as much as the present WATS lines. However, calls to Chicago over the tie lines result in message unit charges of $4\frac{3}{4}$ cents per call. On the basis of the present number of calls to Chicago, the total cost of the proposed service would be the same, or slightly lower, than the present ten WATS lines. However, there would be a one-time installation charge of \$300.

The proposal has been discussed with representatives of all campuses who recommend that the Illinois Bell Telephone Company be authorized to eliminate three of the present eight WATS lines at Urbana; and to install seven tie lines between Urbana and Chicago, three tie lines between Urbana and Springfield, and one additional tie line between Navy Pier and the Medical Center.

This proposal was submitted by the Vice-President and Comptroller.

On motion of Mrs. Watkins, this recommendation was approved.
Mr. Hughes asked to be recorded as not voting.

CITATION FOR LENOX R. LOHR

(37) I recommend the conferring of a Trustees Citation on Major Lenox R. Lohr, President of the Museum of Science and Industry of Chicago, in recognition of his many public services, and particularly his services to the University of Illinois as Chairman for many years of the Citizens Committee, and more recently as Chairman of the Committee on the Jane Addams Memorial Fund campaign. An appropriate occasion for the conferring of the Citation would be the biennial meeting of the Citizens Committee to be held at Urbana on May 21.

On motion of Mr. Swain, this recommendation was approved. The Citation which was presented to Major Lohr on the following day is as follows:

THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ILLINOIS

To LENOX R. LOHR

In Recognition of Distinguished Public Service

The City of Chicago, the State of Illinois, and the Nation are the beneficiaries of his talents for the popular communication of knowledge, of his intense devotion to civic improvement, and of his capacity for leadership in achieving the tasks undertaken.

Highlights of his career include distinguished service as an Army Officer in World War I and in the Corps of Engineers for several years thereafter; skillful organization and expert management of "A Century of Progress International Exposition," the Chicago World's Fair of 1933-1934; President of the National Broadcasting Company from 1935 to 1940; Director of the Illinois Civil Defense Agency, 1950 to 1953; President of the Chicago Railroad Fair, a masterly pageant of the development of our country's transportation system, 1948-1949; President of the Centennial of Engineering, 1952; Chairman of the Illinois Commission of Higher Education from 1954 to 1959, which was the precursor of current developments in planning for higher education in this State; Chairman of the Metropolitan Fair and Exposition Authority from 1955 to 1957; and a quarter of a century of concentration of talent and work in developing his central interest—The Museum of Science and Industry, a great and unique educational institution in its own right.

The Board of Trustees of the University of Illinois would add this citation to his many other honors, and would have him accept with it a grateful expression of appreciation of his special services to the University—as a member of its Citizens Committee since it was created in 1942 and as Chairman of the Committee for the past twenty years; and, more recently, as Chairman of the Jane Addams Memorial Fund campaign for the restoration and preservation of Hull House.

Given at the University of Illinois May 21, 1964.

**RECOGNITION OF SERVICES OF DR. ALONZO G. GRACE,
DR. JACK W. PELTASON, AND DR. FREDERICK T. WALL**

(38) Three members of the faculty who have served as deans of colleges will leave the University this year. Because of their key roles in the formulation of recommendations for the Board of Trustees, it is appropriate that the record of the Board contain an expression of appreciation for effective, faithful, and important service and of good wishes for their future endeavors.

The appreciation and good wishes of the colleagues of these gentlemen go with them in their new activities and relationships, with the hope, also, that their friendship ties to the University of Illinois will remain firm.

On motion of Mr. Pogue, the following statements were adopted, to be included in the record of today's meeting; and the Secretary was authorized to prepare appropriate copies to be sent to the three members of the faculty.

DR. ALONZO G. GRACE

Professor of Education and Dean of the College of Education

Dr. Alonzo G. Grace, Dean of the College of Education since 1960, will retire September 1, 1964.

Dean Grace was Associate Dean of Education at New York University from 1952-60. He was Chairman of the Department of Education and Professor of Administration at the University of Chicago for a year before going to New York University in 1951 as Professor of Education. From 1938-48 he was Commissioner of Education and Secretary of the Board, Connecticut State Board of Education, and lecturer in the Yale University Graduate Department of Education. In 1948-50 he was in Berlin, Germany, as Director of Education and Cultural Relations, Office of Military Government, later the Office of the High Commissioner, American Zone of Occupation, and later the Republic of Western Germany.

The four years during which Dr. Grace has been Dean of the College of Education have been marked by many important changes within the College. A new building has been planned and built, departmental and committee reorganiza-

tion has been effected, curriculum revisions in a number of areas have been completed and others have been initiated, a new program of alumni relationships has been started, research activity has been greatly enlarged, and new faculty members for vacancies and new positions have been successfully recruited. Relationships with the school systems of the state, with agencies of state and national government and neighboring institutions in teaching education are cordial and professionally productive. A number of programs have come into national and international recognition.

Dr. Grace has carried out his duties as Dean faithfully, planfully, and with imagination. The work of the College and the University has been greatly enhanced and strengthened through his contributions and his general leadership. The stature of the College and its faculty, the scope of its service and the importance of that service to the state and the nation are at a new high level. This distinction belongs to many people, but the calm, sound, and experienced leadership of Dean Grace has been a central influence in the remarkable record of these four years.

DR. JACK WALTER PELTASON

Professor of Political Science and Dean of the College of Liberal Arts and Sciences

Dean Jack W. Peltason came to the University of Illinois as Assistant Professor of Political Science September 1, 1951. His previous teaching experience was at the University of Missouri, Princeton University, and Smith College.

By virtue of his scholarly work, his reputation for effective teaching and the wide regard of his colleagues for his capacity for academic leadership, Dr. Peltason was a natural choice for the Deanship when a vacancy occurred in September, 1960. Dean Peltason will leave the University this summer to become Dean of the College of Arts, Letters, and Sciences of the Irvine Campus of the University of California.

In presiding over the largest college of the University, Dr. Peltason has established new relationships with the other colleges and the other campuses of the University while working in many ways to improve and develop the academic achievement of his own unit. His interest in undergraduates is reflected in new arrangements for counseling, for communication with students, and for supervising and improving teaching in the introductory courses. He has encouraged academic excellence at every point and brought strong support to the graduate work of the departments. He has worked to build new programs, particularly in non-Western studies, and assisted in finding new resources for them. In University-wide matters, Dr. Peltason has been a thoughtful and wise adviser, with a broad view of the welfare of the institution as a whole and a deep conviction as to the central social importance of higher education.

Dr. Peltason has played an important role in advancing interinstitutional cooperation by joining with his fellow deans in developing new cooperative programs under the auspices of the Committee on Institutional Cooperation. Within the state, he served with distinction as a member of the "Master-Plan" Committee on Collegiate Programs of the Illinois Board of Higher Education.

The work of the College is broader, stronger, and more effectively organized because of Dean Peltason's administration and the University as a whole has profited greatly from his imaginative leadership.

DR. FREDERICK THEODORE WALL

Professor of Physical Chemistry

Dr. Frederick T. Wall was appointed Dean of the Graduate College on August 1, 1955, and served until September 1, 1963, when he returned to full-time teaching and research in physical chemistry. On September 1, 1964, he will become Professor of Chemistry, University of California Santa Barbara Campus, after twenty-seven years at the University of Illinois. Dr. Wall's earlier academic experience was at the University of Minnesota, where he also earned his baccalaureate and doctor's degrees, and at the California Institute of Technology.

Dr. Wall's prominence as a scientist was established before he undertook the Deanship of the College, and his continuing achievements in his field led to his election to the National Academy of Sciences in 1961. He received the Ameri-

can Chemical Society Award in Pure Chemistry in 1945 and the University of Minnesota Outstanding Achievement Award in 1959.

During Dr. Wall's administration of the Graduate College, the University's reputation for the quality and scope of its research grew nationally and internationally. His election in 1961 to the Presidency of the Association of Graduate Schools of the Association of American Universities was a recognition both of his leadership and the increased eminence of the University's graduate and research program.

The example of Dr. Wall's own scholarly work and his recognized insight into the merit of the work of others inspired confidence in his judgment in the decisions he was called upon to make as Chairman of the Research Board and in the appointments and awards for which he was primarily responsible. Hence, in executing his responsibilities, he encouraged the creative work of the faculty and enhanced their scholarly productivity. The University-wide fellowship competition and the program of faculty summer fellowships, now adopted and admitted by other universities, were instituted under Dean Wall's planning and administration.

The Center for Advanced Study was initiated under his guidance and he brought strong support to making the Digital Computer Laboratory a world-renowned center.

In all ways, Dean Wall has stood for and encouraged high standards and academic excellence through his achievements and service and he has won the admiration and respect of his colleagues both at the University of Illinois and throughout the country.

QUARTERLY REPORT OF THE COMPTROLLER

(41) The Comptroller presented his quarterly report to the Board as of March 31, 1964.

This report was received for record, and a copy has been filed with the Secretary of the Board.

EMPLOYMENT OF AUDITORS

Mr. Swain, for the Finance Committee, presented the following:

For many years, the University has been employing certified public accounting firms for annual audits of the University of Illinois for five-year assignments. The five-year cycle worked out well. Beginning with the audit for the fiscal year ended June 30, 1958, the Board of Trustees authorized the employment of Ernst and Ernst for a three-year period. It was felt that the shorter cycle would enable broader participation of public accounting firms interested in the assignment and, without experience with such a cycle, there was no reason to believe it might not be effective. At the conclusion of the contract with Ernst and Ernst, representatives of that firm reported their experience indicated that a longer period was desirable. The size and complexity of the University records are such that the auditing firm spent excessive amounts of time in the early years of its assignment in becoming familiar with the records and their relationships.

In order to secure more experience with the three-year cycle, Lybrand, Ross Bros., and Montgomery was employed for a three-year period beginning with the audit of the year ended June 30, 1961. Its three-year assignment was completed with the audit of the year ended June 30, 1963. This firm also reported its experience indicates that the three-year cycle is too short to realize the most effective utilization of the auditing firm's services. Staff members of the Business Office also report that the three-year cycle requires excessive staff time in assisting the auditors.

The Finance Committee therefore authorized the Comptroller to determine the interest of Lybrand, Ross Bros., and Montgomery in continuing the audit for

an additional two-year period. The firm has submitted a proposal for the audit of the University and its allied organizations as follows:

		<i>(Preceding Year's Fees)</i>
The University of Illinois, including all revenue bond funds.....	\$24 300	\$22 300
State Universities Retirement System.....	2 300	2 000
The University of Illinois Alumni Association.....	650	600
The University of Illinois Athletic Association, including the Retirement System.....	1 100	1 000
The University of Illinois Foundation.....	1 800	1 500

The Comptroller believes the fees are reasonable in view of the increased volume of financial activities, not only in regular operations but also on construction, and the increased cost of auditing services that has occurred over the last three years.

In accordance with the usual practice, the auditing firm will submit its reports jointly to the Board of Trustees and to the office of the Auditor General. The proposal has the approval of the office of the Auditor General, in accordance with customary procedures.

The Finance Committee recommends the employment of Lybrand, Ross Bros., and Montgomery for the audit of University accounts for the fiscal year ending June 30, 1964.

On motion of Mr. Swain, this recommendation was approved.

SALARY OR ANNUITY PROGRAM

Mr. Swain, for the Finance Committee, presented the following:

For many years the Internal Revenue Code offered employees of certain organizations an income tax benefit if a part of their compensation was in the form of a non-forfeitable annuity contract paid for by the employer. Increased attention was paid to this provision when its implications were clarified by the enactment of the Technical Amendments Act of 1958 which modified the Internal Revenue Code.

Under the Internal Revenue Code, the amount paid by the employer for such an annuity is not considered to be taxable income to the employee in the year in which the employer makes such payment. It will represent taxable income to the employee when he receives payments from the annuity, which normally will be after retirement and at a time when his total income is smaller, resulting in a lower tax bracket.

In 1963, the General Assembly amended the Illinois statutes relating to state employees to permit an adjustment in an employee's earnings and the application of the amount of the adjustment to the purchase of an annuity contract for the employee.

Section 166(c), Chapter 127, of the Illinois Revised Statutes, as so amended, reads:

"Each employer as defined in Section 15-106 of the 'Illinois Pension Code,' approved March 18, 1963, as amended, pertaining to the State Universities Retirement System, may permit any employee covered by that System to accept a reduction in earnings or forego an increase in earnings in consideration for which the employer shall pay the amount of the adjustment in earnings to an insurance company or companies selected by the employer to be applied as a premium on an annuity contract under which the employee's rights are non-forfeitable except for failure to pay future premiums. The selection of the insurance company or companies and the purchase of the annuity contracts shall not be subject to 'An Act in relation to state purchasing and contracts,' approved July 11, 1957, as amended.

"Each employer may adopt rules to implement this Act including, but not by way of limitation, (a) the method of filing an election to accept an adjustment in earnings and revocation of the election, (b) the effective date of an election, (c) changes in the amount of the adjustment in earnings, and (d) selection of the insurance company or companies from which the annuity contracts are to be purchased."

Dr. Robert I. Mehr, Professor of Finance and a member of the Urbana-

Champaign Senate Committee on Retirement, Hospitalization, and Insurance, at the request of the University administration, studied the problem of establishing criteria for the selection and approval of insurance companies which the Board of Trustees could consider in offering to acquire annuities for staff members, and has recommended the following set of standards (a copy of his report has previously been submitted to the Finance Committee):

1. The company must have had at least \$750 million of life insurance in force in Illinois as of December 31, 1962.
2. The company must have collected at least \$20 million of premium in Illinois during 1962.
3. The company must have a net yield on investment in excess of the average for the industry in each of the years 1960 through 1962.
4. The company must be willing to work closely with the University in product design.

Four companies meet these standards. Prudential Insurance Company of America and Continental Assurance Company offer group contracts. The Northwestern Mutual Life Insurance Company and the Massachusetts Mutual Life Insurance Company offer individual contracts in addition to these four. Dr. Mehr recommends that the Teachers' Insurance Annuity Association also be approved for individual contracts serviced by mail. This company was organized by the Carnegie Foundation for the Advancement of Teaching, but is now a separate entity and is now self-sustaining. It operates a companion, but separate, corporation, the College Retirement Equities Fund. Eligibility for insurance and annuities in the Association is limited to employees of colleges, universities, independent schools, and other non-profit, tax-exempt educational and scientific organizations that meet the TIAA requirements. Currently, over 1,200 organizations are cooperating with TIAA, of which approximately one-half are colleges and universities. Because of its efficient operations, and designation as an insurance carrier for college faculty members, a number of University of Illinois faculty presently own TIAA contracts purchased for them by other institutions. It would be to their advantage, in some cases, to continue this relationship, rather than to start a new contract with a new company. Accordingly, Dr. Mehr recommends approval of TIAA-CREF as the fifth company authorized to do business under this arrangement.

Obviously, the University can not do business with all insurance companies. Some restriction is necessary. The smaller the number of insurance companies involved, the more effective can be the liaison between the University, the insurance company, and the staff member. Application of the standards recommended results in only five companies being approved, but it is believed that within these five companies, sufficient variation of programs is available to serve the needs of the faculty.

The Salary or Annuity program has been presented to and discussed with the Senate Committee on Retirement, Hospitalization, and Insurance on each campus and the Employees Advisory Committee to the Board of Trustees of the State Universities Retirement System.

The Finance Committee recommends the adoption of the following rules by the Board of Trustees as contemplated by the Illinois statute, and further recommends that the appropriate University officials be authorized to publicize and implement the same.

**Rules Adopted by the Board of Trustees of the University of Illinois
to Implement Provisions of Illinois Revised Statutes,
Chapter 127, Section 166(c)**

1. Any employee of the University who is a participant in the State Universities Retirement System and who desires to make an election to accept an adjustment in earnings pursuant to Section 166(c) of Chapter 127 of the Illinois Revised Statutes shall do so by executing and filing with the University a document in a form approved by the Vice-President and Comptroller and by the Legal Counsel. In the event that more than one such election is filed by an employee, the election bearing the latest date shall be deemed to supersede all previous elections, but no employee may file more than one election in any calendar year. Any such election

so filed may be revoked at any time by the employee upon filing a written revocation with the University.

2. The initial effective date for any employee's adjustment in earnings hereunder shall be July 1, 1964.

3. The following insurance companies are selected as those from which the University may purchase the annuity contracts referred to in said Section 166(c) of Chapter 127 of the Illinois Revised Statutes, and the amount of the adjustment in each employee's earnings shall be paid to one or more of said companies to be applied as a premium on an annuity contract or contracts under which such employee's rights are non-forfeitable except for failure to pay future premiums:

The Continental Assurance Company
 The Massachusetts Mutual Life Insurance Company
 The Northwestern Mutual Life Insurance Company
 Prudential Insurance Company of America
 Teachers' Insurance Annuity Association

4. These rules may be amended or supplemented by the Board of Trustees from time to time.

On motion of Mr. Swain, these recommendations were approved, and the proposed rules were adopted.

**ADDITION TO CONTRACT FOR CONSTRUCTION OF THE
ADMINISTRATION BUILDING**

(43) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$3,154.13 in the contract with Kuhne-Simmons Company, Inc., Urbana, for construction of the south addition to the Administration Building to provide for modifications in the electrical work and an increased number of lighting fixtures on the third floor, west end, of the new unit.

Funds are available in the project budget.

I concur.

On motion of Mr. Pogue, this change in contract was authorized.

EMPLOYMENT OF SPECIAL COUNSEL

(44) A suit has been filed in the Circuit Court of Cook County (63 C 18217) by the Harwald Company, Inc., a manufacturer and distributor of film inspection equipment. The Company was barred from bidding on University business for one year by action of the Board of Trustees on March 20, 1963. The complaint seeks damages for injuries to the plaintiff's reputation and business alleged to have been caused, in part, by reason of the March 20, 1963, Board action, an alleged failure by some of the defendants to exercise due diligence in the pursuit of their various functions at the University, and by actions of some defendants in connection with an opinion given to the University by an engineering firm as to the quality and utility of certain film inspection machines. The named defendants include, among others, the University and three of its employees. Each of the employees has stated that he was performing his University duties on all occasions referred to in the complaint and has requested the University to provide counsel to defend his legal rights in the matter. The Legal Counsel recommends that he be authorized to take such steps as are necessary or appropriate, including the employment of special legal counsel, to defend the University and its employees in the proceedings.

I concur.

On motion of Mr. Swain, this recommendation was approved, and authority was given as requested.

FUTURE BOARD MEETINGS

President Clement announced that the next two meetings will be held in Urbana, Illinois, on June 17 and July 22, 1964. He asked if the Board desired to consider the question of a meeting in August.

It was the consensus of the Board that this decision should be deferred until a later meeting.

ASSOCIATION OF GOVERNING BOARDS

Mrs. Watkins presented a report on the meeting of the Association of Governing Boards of Universities and Colleges held at the University of Nevada on May 14 and 15, which she attended as a representative

of the Board of Trustees and as a member of the Association's Executive Committee.

**REPORT ON ADMISSIONS TO THE UNIVERSITY OF ILLINOIS
AT URBANA FOR SEPTEMBER, 1964**

President Henry and Executive Vice-President and Provost Lanier reported on the enrollment demand at Urbana, and Vice-President Parker on the enrollment demand at the Chicago Undergraduate Division.

Because of the lack of housing accommodations, faculty, and academic space, coupled with an unprecedented number of applications for admission, many qualified applicants will be denied admission to the University of Illinois at Urbana next September.

Present indications are that the Chicago Undergraduate Division can accommodate only two-thirds of the qualified applications for admission in September, 1964.

A summary of the President's report was issued as a public announcement and a copy is filed with the Secretary of the Board for record.

The Secretary presented for record the following lists: appointments to the faculty made by the President; appointments of fellows made by the President; appointments of fellows made by the Dean of the Graduate College; declinations, resignations, and terminations; leaves of absence; sabbatical leaves of absence; retirements.

RECESS AND EXECUTIVE SESSION

President Clement announced that an executive session has been requested and was being ordered for consideration of property acquisitions.

On motion of Mr. Hughes, the Board recessed.

When the Board reconvened in executive session, the same members, officers of the Board, and officers of the University were present as listed at the beginning of these minutes.

The Board considered the following items of business.

PURCHASE OF PROPERTY AT 507 EAST JOHN STREET, CHAMPAIGN

(1) The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees request the Illinois Building Authority to purchase for the University the property at 507 East John Street, Champaign, at a price of \$65,000—in accordance with the Illinois Building Authority Act.

The property consists of a lot approximately 66 feet wide by 168.75 feet deep (11,138 square feet) and is improved with a two and one-half story and basement frame rooming house. The land area will be used for parking. Possession will be delivered not later than July 1, 1964.

The price is within appraisals. The Committee on Buildings and Grounds has also recommended the purchase.

I concur.

On motion of Mrs. Watkins, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Johnston, Mr. Kerner, Mr. Page, Mr. Williamson.

ACQUISITION OF 1306 WEST SPRINGFIELD AVENUE, URBANA

(2) The Board of Trustees has authorized the acquisition of the property at 1306 West Springfield Avenue, Urbana, which is needed for expansion of the Digital Computer Laboratory. The owner refused to sell at a price within the limits of University appraisals and the Board subsequently authorized condemnation proceedings. Suit was filed in the Circuit Court of Champaign County (Case No. 64-L-30).

The owner has now agreed to sell for an award of \$39,809.27 for the property with the understanding that possession will be delivered to the University on or before June 10, 1964. The settlement price is \$309.27 above the amount previously approved by the Committee on Buildings and Grounds of the Board as a purchase price.

The Director of the Physical Plant, the Vice-President and Comptroller, and the Legal Counsel recommend acceptance of this settlement proposal.

Funds are available in the state capital appropriations to the University for 1963-65 from the Universities Building Fund.

I concur.

On motion of Mr. Swain, this settlement proposal was accepted, and purchase of the property was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Johnston, Mr. Kerner, Mr. Page, Mr. Williamson.

**ACQUISITION OF PROPERTIES AT 605 AND 603
EAST DANIEL STREET, CHAMPAIGN**

(3) The Board of Trustees has authorized condemnation proceedings for the acquisition of the properties at 605 and 603 East Daniel Street, Champaign, both

owned by the same party. The jury trial for the condemnation of the property at 605 East Daniel Street (Case No. 61-L-175) was set for May 11, 1964; the trial for the acquisition at 603 East Daniel Street (Case No. 63-L-429) had been tentatively scheduled for the week of May 18, 1964.

Immediately prior to selection of the jury for the trial on the 605 East Daniel Street property, the owner indicated willingness to settle both cases for a total award of \$193,000, for the two properties on the following basis:

For the property at 605 East Daniel Street, formerly the Cosmopolitan Club property:

1. The value will be fixed at \$60,000, payable on possession, which will be delivered to the University on or before July 10, 1964.
2. The owner will remove all improvements prior to the specified possession date.
3. The University will afford access for the owner's vehicles over this lot to the rear of the adjoining property at 603 East Daniel Street until the specified possession date of said adjoining property.
4. The University will reserve three parking spaces on this lot to accommodate the vehicles of the owner used in his business until the specified possession date of the adjoining property, but the University will not be responsible for enforcing observance of the reservation of these spaces.

For the property at 603 East Daniel Street, known as "The Thunderbird":

1. The value will be fixed at \$133,000, payable on possession, which will be delivered to the University on or before June 30, 1965.
2. The owner will remove all improvements prior to the specified possession date.

Funds are available in state capital appropriations to the University for 1963-65 from the Universities Building Fund.

The Director of the Physical Plant, the Vice-President and Comptroller, and the Legal Counsel recommend approval of the proposed settlement and I concur.

On motion of Mr. Pogue, the settlement proposed was accepted, and the purchase of the two properties, at the prices indicated, was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Johnston, Mr. Kerner, Mr. Page, Mr. Williamson.

PURCHASE OF PROPERTY AT 509 EAST JOHN STREET, CHAMPAIGN

(4) The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees request the Illinois Building Authority to purchase for the University the property at 509 East John Street, Champaign, at a price of \$53,500—in accordance with the provisions of the Illinois Building Authority Act.

The property consists of a lot approximately 58 feet wide by 168.75 feet deep (9,788 square feet) and is improved with a two and one-half story and basement frame rooming house. The land area will be used for parking. Possession will be delivered not later than August 10, 1964.

The price is within appraisals. The Committee on Buildings and Grounds has been consulted and also recommends the purchase.

I concur.

On motion of Mr. Swain, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Johnston, Mr. Kerner, Mr. Page, Mr. Williamson.

On motion of Mrs. Watkins, the Board adjourned.

ADMISSION REQUIREMENTS IN THE COLLEGE OF LAW

(13) The Urbana-Champaign Senate recommends several changes in requirements for admission to the College of Law, effective June 1, 1965. The major change is for a minimum admission requirement of a bachelor's degree from an approved undergraduate college.

The changes recommended have flexibility to facilitate the change-over to the new admission requirement and to deal with exceptional cases. The revisions will bring the College of Law in line with the requirements of other major law schools in this country.

Submitted herewith is a complete statement of all changes proposed, including the present and the new requirements, and a copy is being filed with the Secretary of the Board for record.

The Senate Coordinating Council has indicated that no other Senate jurisdiction is involved.

I recommend approval.

Dean Russell N. Sullivan of the College of Law was present at the meeting and discussed in some detail the reasons for the proposed change.

On motion of Mr. Swain, this recommendation was approved.

AMENDMENTS OF UNIVERSITY STATUTES

(14) At its April 15, 1964, meeting the Board of Trustees stated its tentative approval of revisions in Sections 6, 38, and 39 of the University Statutes originated by the Senates, with the exception of certain modifications thereof proposed by the Board, and directed that the advice of the University Senates be sought on the modifications.

On May 19, 1964, the Chicago Undergraduate Division Senate expressed its approval of the modifications proposed by the Board.

On May 25, 1964, the Urbana-Champaign Senate defeated a motion to adopt the Board's modifications and passed motions which (a) requested an opportunity for further consultation with the Board of Trustees (or a committee thereof) for the purpose of arriving at a consensus which would reflect the principles of the amendments adopted by the three Senates; (b) designated a Committee of the Senate for such purpose; and (c) suggested that the Board invite the corresponding Committees on Academic Freedom from the other Senates to join in such consultations.

On June 3, 1964, the Medical Center Senate also defeated a motion to approve the Board's proposed modifications and passed motions requesting further consultations in essentially the manner suggested by the previous action of the Urbana-Champaign Senate.

In accordance with the request of the Urbana-Champaign and the Medical Center Senates, I recommend that (1) further consultation be arranged with the designated committees, including the Committee on Academic Freedom of the Chicago Undergraduate Division; (2) the liaison committee of the Senate Coordinating Council also be requested to participate in the consultation as provided for in Section 7(d) of the University Statutes;¹ and that (3) the matter be referred to the Committee on General Policy for further action.

On motion of Mrs. Watkins, the President's recommendations were approved.

CONSOLIDATION OF OFFICE OF INSTRUCTIONAL RESEARCH AND OFFICE OF INSTRUCTIONAL TELEVISION INTO AN OFFICE OF INSTRUCTIONAL RESOURCES AT URBANA-CHAMPAIGN

(15) The Executive Vice-President and Provost recommends that an Office of Instructional Resources be established to replace the Office of Instructional Research and the Office of Instructional Television at the Urbana-Champaign campus. The new Office will assume the responsibilities presently assigned to its two predecessors and will in addition provide a wider range of instructional services to faculty members, departments, and colleges.

The Office of Instructional Resources will be broadly concerned with the improvement of the instructional program—especially at the undergraduate level—through assisting the faculty in the increased use of newer techniques and media and through studies of the influence upon academic achievement of other factors in the University environment within and outside the classroom.

The need to improve the quality of collegiate instruction in the face of mounting enrollment, and probably without commensurate increases in faculty and funds, makes it imperative to use as fully and as effectively as possible the

¹ Section 7(d) of the University Statutes provides that: "The Council shall appoint not more than three of its members to act as a liaison committee advisory to the Board of Trustees (through the President), the President, and the respective Senates, in matters of special and extraordinary concern to the University. The special function of this committee shall be to aid in maintaining harmonious relations among such officers and units of the University. The Committee shall act only upon the express request of the Board of Trustees, the President, any one of the three Senates, or the Senate Coordinating Council."

newer instructional resources such as television, programmed instruction, films, graphic presentation, and other audio-visual techniques. The Office of Instructional Resources will assist faculty members in the use of these media and in evaluating their effectiveness.

In addition to studies of instructional methods and course content, the new Office will sponsor research on the relationship of academic achievement and choice of vocation to the characteristics of students (geographic, educational, psychological, and socio-economic), to characteristics of instructors, and to characteristics of the extracurricular environment.

The Director of the Office of Instructional Resources at Urbana-Champaign will administer that Office under the general supervision of the Executive Vice-President and Provost. He will also have University-wide staff responsibility for coordinating such functions on all campuses of the University, and for advising the Executive Vice-President and Provost concerning policies and plans in this area.

It is recommended also that Professor Charles J. McIntyre, at present Director of the Office of Instructional Television, be named Director of the Office of Instructional Resources at Urbana-Champaign, with the additional responsibilities just described.

I concur.

On motion of Mr. Johnston, these recommendations were approved.

CENTER FOR INTERNATIONAL COMPARATIVE STUDIES

(16) In consultation with the departments concerned, the Acting Dean and the Executive Committee of the Graduate College recommend that there be established in the Graduate College a Center for International Comparative Studies. The Center will supplement programs previously established and for which funds have been provided in state appropriations for the current biennium (1963-64). The earlier programs and the new Center will also be supported over a period of five years by a grant received from the Ford Foundation.

The purpose of the proposed Center will be to provide a framework within the University for stimulating and supporting comparative research of a functional and problem-oriented nature along cross-cultural, cross-national, and cross-regional lines. Its central function will be to develop means of encouraging such research and criteria for supporting it, including appropriate arrangements for released time for faculty research and for financing overseas travel for research scholars. Preference for support will be given to research programs that involve the training of graduate students.

A detailed description of the functions of the Center is submitted herewith and a copy is being filed with the Secretary of the Board for record.

The officers on the three campuses concerned have been consulted. The Director of International Programs and the Executive Vice-President and Provost concur in the recommendation.

I recommend approval.

On motion of Mrs. Watkins, this recommendation was approved.

CENTER FOR INSTRUCTIONAL RESEARCH AND CURRICULUM EVALUATION

(17) The College of Education recommends that the name of its present Office of Educational Testing be changed to "Center for Instructional Research and Curriculum Evaluation," effective September 1, 1964.

The new name would denote more accurately the interests and activities of the staff members of the Office of Educational Testing. Its functions have always been broader in scope than educational testing per se, and the proposed designation would emphasize the major purposes for which educational and psychological tests are used in educational research.

The proposed Center for Instructional Research and Curriculum Evaluation would have a relatively small permanent staff—as the Office of Educational Testing now has—but it would have the cooperation of many faculty members in departments throughout the College of Education, and in other colleges, who are interested in curricular innovation or in the improvement of teaching. The Center would provide the technical assistance needed for testing the effectiveness

of curriculum changes in various school or college subjects, and for determining the teaching methods best suited to the presentation of such materials to students.

The Acting Dean of the Graduate College and the Executive Vice-President and Provost recommend approval of the change in name and expansion in program of the Office of Educational Testing.

I concur.

On motion of Mr. Williamson, this recommendation was approved.

ESTABLISHMENT OF A SURVEY RESEARCH LABORATORY

(18) The Acting Dean of the Graduate College recommends that a Survey Research Laboratory be established by the University of Illinois as a separate unit of the Graduate College. The functions of the Survey Research Laboratory will be to: (1) plan, conduct, and process survey operations for University research projects; and, to carry out this function, to create an operating survey organization with facilities for maintaining and interviewing probability samples of the population of the state of Illinois; (2) conduct and promote research in survey methods; (3) provide a means for training undergraduate and graduate students in survey methods; and (4) act as a data repository for survey and other data on the state of Illinois.

Such a laboratory will serve to coordinate and facilitate the large number of University projects which currently use survey methods and will promote research on questions which can only be answered through the use of surveys. Its need stems from the growing use of the survey method as a tool of investigation employed in many different areas of the University. Knowledge of the use of this tool and of the associated facilities has become essential if undergraduate and graduate students in most of the social sciences and related applied fields are to receive a well-rounded education.

Until now, the University has possessed no central laboratory for maintaining survey operations, for collecting survey data, or for storing research data in a form readily available to faculty members and students. This type of laboratory exists at the Universities of Michigan and Wisconsin, but there is none at present in the state of Illinois.

The operations of the Survey Research Laboratory will be conducted by faculty members who hold departmental appointments. Primary administrative responsibility will rest with a Director and an Executive Committee. The Executive Committee will consist of those faculty members directly responsible for the major sections of the Laboratory (sampling, field operations, coding, and data storage), together with additional appointees from the faculties of the various departments of the University of Illinois most dependent upon the facilities of the Laboratory for their research activities. These additional faculty appointees will be named by the Dean of the Graduate College on recommendation of their department heads. The Director will be appointed biennially by the Board of Trustees on recommendation of the President, after nomination by the Dean of the Graduate College with the concurrence of the Executive Committee of the Laboratory. The Director of the Laboratory will serve as a member of the Executive Committee.

It is intended that the groundwork of the Laboratory will be laid during the forthcoming summer and academic year. During this period, a so-called master sample of the population of Illinois will be developed and field force of interviewers will be established and trained in all areas encompassed by the master sample. During this same period, plans would be completed for a perpetual data repository. Such repository would seek to develop an inventory of data needed in studies carried out by University faculty, and would maintain data relating to the business conditions and welfare of the State of Illinois.

A major function of the Laboratory will be to educate graduate and undergraduate students in survey techniques. Students will be given an opportunity to work under general faculty supervision and will be involved closely with the operational phases of a survey project. In addition, graduate students will be able to carry out dissertation projects using the resources of the Survey Research Laboratory. Faculty members will offer departmental courses drawing upon the resources of the Laboratory.

It is anticipated that the Survey Research Laboratory will be ready for regular operations by September, 1965.

This proposal has been approved by the Executive Committee of the Graduate College, the University Research Board, and the Executive Vice-President and Provost.

I concur.

On motion of Mr. Jones, this recommendation was approved.

HOSPITAL-MEDICAL-SURGICAL INSURANCE POLICIES FOR STUDENTS AND STAFF

(19) Bids have been received on the hospital-medical-surgical insurance programs for staff and students for one year from September 1, 1964, with the right reserved to renew such insurance annually thereafter upon mutual agreement between the Carrier and the University. A schedule of the bids is submitted herewith and a copy is being filed with the Secretary.

The Vice-President and Comptroller recommends award of a contract for the same benefits as the current program to the Continental Assurance Company, 310 South Michigan Avenue, Chicago, the lowest bidder, at the following rates:

Staff Insurance

	Monthly Premium to be Paid to Company	Present Contract
Employee.....	\$3 64	(\$3 51)

Student Insurance

	Premium Per Semester to be Paid to Company	Premium Per Quarter to be Paid to Company

The excess over the cost of the coverage will be adequate to defray the administrative expenses of the programs. Since the bids are only slightly more than under the present contract, no increase in the fees charged to students and staff is necessary.

On motion of Mr. Johnston, this contract was authorized.

CONTRACTS FOR MINOR BUILDING ALTERATIONS AND REPAIRS

(24) The Director of the Physical Plant and the Vice-President and the Comptroller recommend authorization of cost-plus contracts with the following contractors for minor building alterations, repairs, and construction work for the period July 1, 1964, through June 30, 1965.

General — Dean Evans Company, Champaign

Electrical — William H. Brunkow, an individual doing business as Brunkow Electric Company, Champaign

Plumbing — Willis H. and W. C. Thomas, a partnership doing business as Thomas Plumbing and Heating Company, Urbana

Heating, Piping, Refrigeration, and Automatic Temperature Control Systems — Reliable Plumbing and Heating Company, Champaign

Ventilation and Distribution Systems for Conditioned Air — Reliable Plumbing and Heating Company, Champaign

It is also recommended that a combined contract be awarded to Reliable Plumbing and Heating Company, Champaign, for heating, piping, refrigeration, and automatic temperature controls and for ventilation and distribution systems for conditioned air, since this Company submitted identical bids for each category of work.

These contracts are for work which does not justify the cost of preparing separate drawings and specifications and of separate bidding procedures on each project. The several contractors bid on percentages to be added to actual material, labor, and subcontract costs, depending in many cases on the size of the particular division of work with specified limits of four ranges.

Work will be done as ordered by the Physical Plant Department and will be paid for on the basis of the actual cost of each job plus contractors' fees. A schedule of bids taken showing the percentages to be added for work to be executed under these cost-plus contracts is submitted herewith, and a copy is being filed with the Secretary of the Board for record as the basis for the contract awards recommended. No assignment of funds is requested and each job will be covered by a contract change order charged against funds allocated for the project.

It is further recommended that the Vice-President and Comptroller be authorized to approve orders under these contracts up to \$25,000 on each project provided that any orders exceeding this amount shall be submitted to the Board

of Trustees for approval in advance, in accordance with previous practice and authorization.

I concur.

On motion of Mr. Williamson, these contracts were awarded, and authority was given as requested, by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

CONTRACT FOR PLASTERING, PLASTER PATCHING AND REPAIRS, AND ACOUSTICAL WORK

(25) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a cost-plus contract to George S. Grimmett, doing business as George S. Grimmett and Company, Springfield, the lowest bidder, for plastering, plaster patching and repairs, and acoustical work during the fiscal year ending June 30, 1965, on the basis of a contractor's fee of 13.9 per cent of all actual job costs as determined by itemized billing.

I concur.

On motion of Mr. Johnston, this contract was authorized by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

General—Heller Construction Company, Inc., Chicago.....	\$25 252
Base bid	\$23 459
Additive alternate for service charge for supervision of other contracts assigned to this contractor.....	1 793

<i>Total</i>	<u>\$97 682</u>

This work will include rehabilitating the west half of a student laboratory (Biochemistry Room 304) by installation of new partitions, laboratory furniture, improvement of the lighting level and mechanical ventilation, installation of resilient flooring, and painting. The remodeling is a continuation of remodeling in this area which was completed during the 1961-63 biennium.

It is further recommended that all contracts other than the contract for general work be assigned to the contractor for that work, making the total of his contract price \$97,682; and that an agreement be entered into with Heller Construction Company, Inc., for the assignment of these other contracts for \$1,793 which amount is included in the contract price, being the amount bid by that Company for service charge for supervision of other contracts assigned to the general contractor.

Funds for this work are available in the state capital appropriations to the University for 1963-65.

Submitted herewith is a schedule of all bids received and a copy is being filed with the Secretary of the Board for record.

I concur.

On motion of Mrs. Watkins, these contracts were awarded, as recommended, by the following vote: Aye, Mr. Clement, Mr. Johnston,

Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

Illinois Street Residence Halls, Women's Building—Ruth A. Wardall Hall. Ruth A. Wardall, 1877-1936; Professor and Head of the Department of Home Economics, 1921-36.

Ruth A. Wardall was born July 28, 1877, at Tolono, Illinois. She was an Alumna of the University of Illinois, receiving the degrees of Bachelor of Arts in 1903 and Master of Arts (in Home Economics) in 1907. She served as Professor and Head of the Department of Home Economics at the University of Illinois from September, 1921, until April, 1936, when she resigned because of ill health. She died in July, 1936.

Prior to coming to Illinois, Miss Wardall had served as Head of the Departments of Home Economics at South Dakota State College, Ohio State University, and at the State University of Iowa. She achieved national recognition in her work as a teacher of home economics and as an administrator. She is especially remembered for her high ideals, her fine professional and personal character, and her loyalty to the University.

Illinois Street Residence Halls, Men's Building—Edgar Jerome Townsend Hall. Edgar Jerome Townsend, 1865-1955; Professor and Head of the Department of Mathematics, 1905-29; Dean of the former College of Science, 1905-13.

Edgar J. Townsend was born February 2, 1865, in Litchfield, Michigan. He graduated from Albion College with the degree of Bachelor of Philosophy in 1890 and received the degree of Master of Philosophy from the University of Michigan in 1891. Nine years later he received the degree of Doctor of Philosophy from the University of Göttingen.

Dr. Townsend joined the faculty of the University of Illinois as Assistant Professor of Mathematics in 1893. In 1895 he became an Associate Professor and Professor in 1905. He served as Head of the Department of Mathematics from 1905 until he retired in 1929. During the period 1905-13 he was also Dean of the former College of Science and at various times served for short periods as Acting President of the University during absences of President Edmund J. James.

His life at Illinois started during the period when John Milton Gregory, the retired first Regent of the University, was still living and ended shortly before the present President of the University began his administration. Professor Townsend died July 8, 1955.

Graduate Student Residence Halls—Arthur Hill Daniels Hall. Arthur Hill Daniels, 1865-1940; Professor of Philosophy, 1899-1934; Dean of the Graduate School, 1919-33; Acting President, 1933-34.

Arthur H. Daniels was born in East Medway (now Millis), Massachusetts, October 19, 1865. He graduated from Olivet College, Michigan in 1887 with the degree of Bachelor of Arts and received the degrees of Bachelor of Divinity from Yale University in 1890 and of Doctor of Philosophy from Clark University in 1893.

He came to the University of Illinois in 1893 as an Instructor in Philosophy, became an Assistant Professor in 1895 and Professor in 1899. He was Head of the Department of Philosophy for many years. His other administrative duties included those of Acting Dean of the College of Liberal Arts and Sciences for four different periods; Assistant Dean and Acting Dean of the Graduate School; and from 1921-1933, Dean of the Graduate School. He served as Acting President of the University for one year from July, 1933 and retired in 1934. He died in April, 1940, leaving a record of distinguished and dedicated service to the University of Illinois.

The recommendations of the Housing Division are supported by the departments concerned, viz., Home Economics, Mathematics, and the Graduate College. As is customary, the Executive Committee of the University Council has also been consulted, and concurs.

I recommend approval.

Mr. Pogue reported that the Committee on Buildings and Grounds had reviewed these recommendations and supports them.

On motion of Mr. Pogue, the recommendations were approved.

NAMES OF BUILDINGS AT CHICAGO CIRCLE

demic Advisory Committee recommend that buildings under construction at Chicago Circle be named as follows:

Functional names are not feasible since these buildings all serve the same purpose. The names have been selected from a long list of statesmen and contributors to the arts and to social progress identified with the history of Illinois and of Chicago.

FUTURE BOARD MEETINGS

President Clement reminded the Trustees that the next meeting of the Board will be held in Urbana on July 22, 1964, according to a schedule to be determined by the President and Secretary of the Board.

Consideration was also given to a meeting in August. No action was taken but it was the consensus that August 19, the regular date, be tentatively considered for a meeting of the Board or of its Executive Committee if the amount and nature of the business requiring Board action at that time justifies a meeting.

Mr. Williamson suggested that consideration be given to holding another meeting in the near future in the Dixon Springs area.

RECESS AND EXECUTIVE SESSION

President Clement announced that an executive session was being

ordered for consideration of property acquisitions and that this session would be held after luncheon recess and would be followed by meetings of Board Committees.

On motion of Mr. Swain, the Board recessed.

During the luncheon recess, Mr. Douglas R. Mills, Director of Intercollegiate Athletics, reported informally on the new golf course, made possible by a gift of land from the late Mr. Hartwell C. Howard of Champaign to the Athletic Association of the University of Illinois, which is now under construction adjoining the present University of Illinois Golf Course at Savoy, Illinois. Mr. Charles D. Wagstaff, landscape architect and designer of both courses, was present and was introduced. Director Mills distributed a memorandum of his presentation and a copy was filed with the Secretary.

When the Board reconvened in executive session, the same members, officers of the Board, and University officers were present as recorded at the beginning of these minutes, except Mr. Ray Page who asked to be excused.

The Board considered the following matters of business presented by the President of the University and by the Director of the Physical Plant.

**PURCHASE OF PROPERTY AT 509 EAST DANIEL STREET,
CHAMPAIGN**

(1) The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Illinois Building Authority be requested to purchase for the University the property at 509 East Daniel Street, Champaign, at a price of \$47,500 pursuant to the Illinois Building Authority Act.

The property is a lot approximately 50 feet by 175.25 feet (8,683 square feet), improved with a two and one-half story and basement frame rooming house. The land area will be used for parking. Possession will be delivered not later than August 10, 1964, on all but the east 10 feet of the south 57 feet; and the latter area will be delivered on or before August 10, 1969.

The price is within University appraisals. The Committee on Buildings and Grounds has also recommended the purchase.

I concur.

On motion of Mr. Swain, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner, Mr. Page.

**PURCHASE OF PROPERTY AT 912 SOUTH FIFTH STREET,
CHAMPAIGN**

(2) The University has an opportunity to purchase the property at 912 South Fifth Street, Champaign.

The property is a corner lot 59.24 feet on Fifth Street by 66.3 feet on Chalmers Street (3,928 square feet) and is improved with a two and one-half story and basement frame dwelling. The land area is not now required for campus expansion but is a strategic corner location where the University will later need to provide parking for single graduate students. In the meantime, the house can be used either as a staff housing unit or for temporary offices.

The owner is willing to sell at a price of \$28,500, the appraised value.

It is recommended that the University request the University of Illinois Foundation to purchase the property and lease it back to the University at a rate to be determined.

I concur.

On motion of Mr. Williamson, this recommendation was approved

by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner, Mr. Page.

ACQUISITION OF PROPERTY AT 1107 WEST SPRINGFIELD AVENUE, URBANA

(3) University representatives have been negotiating for the purchase of the property at 1107 West Springfield Avenue, Urbana, a lot 42.5 feet by 132 feet (5,610 square feet) with a two-story and basement stucco house used as a residence by the owner and for student rooms. The land is needed as part of the site for construction of the next unit of the Coordinated Science Laboratory.

The owners were advised that a recommendation would be made to the Board of Trustees for the purchase of the property at a price of \$23,000, based on University appraisals, but the offer is not acceptable and the asking price remains substantially in excess of the highest University appraisal. The Director of the Physical Plant and the Vice-President and Comptroller therefore recommend that the Board of Trustees authorize the institution of condemnation proceedings for acquisition of the property.

Funds are available in the state capital appropriations to the University for 1963-65 from the Universities Building Fund and have been released.

I concur and recommend adoption of the following resolution:

**Resolution Authorizing Condemnation of Property at
1107 West Springfield Avenue, Urbana**

Be It, and It Is Hereby Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois, a body corporate and politic and a public corporation of the State of Illinois, that the following described real estate situated in the County of Champaign, in the State of Illinois, to-wit:

Lot three (3) except the West Twenty-three Feet (23') thereof in Block Five (5) in the Urbana Railroad Company's Addition to the City of Urbana, situated in the City of Urbana, in the County of Champaign, and State of Illinois is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, for use as part of the site for construction of the next unit of the Coordinated Science Laboratory, and for related educational purposes conducted and to be conducted by said University of Illinois and for the further expansion of the educational facilities of said University of Illinois and to enable said University of Illinois to discharge its duty to the people of said State and for public use; that funds have been appropriated by the General Assembly of the State of Illinois for the purchase of said land for said educational purposes; that this Board of Trustees has negotiated with the owners of said land through their duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but that said owner has refused to sell and convey said land, or any portion thereof, to said The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems unreasonable and excessive and is, therefore, unwilling and has refused to pay; and

Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land cannot be agreed upon between this Board of Trustees and the owners of said property and they and it are unable to agree upon the purchase price to be paid to said owners for the sale and conveyance of said land by said owners thereof to said The Board of Trustees of the University of Illinois; and

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owners thereof for such land cannot be agreed upon between them and this Board of

Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the owners thereof and any and all other persons who may have any right, title or interest in and to said land determined in the manner provided by law for the exercise of said right and power of eminent domain; and

Be It, and It Is Hereby Further Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction and that the Legal Counsel of the University be, and he is hereby, authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name and on behalf of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefore, and to employ such special legal counsel, appraisers, and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Swain the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner, Mr. Page.

On motion of Mrs. Watkins the Board adjourned.
