- (2) the operation of any other revenue producing facilities for the account of which additional Bonds may hereafter be issued; and
- (3) student service charges;

and such revenues shall be deposited as collected in a general banking account of the University to the credit of a special fund which is hereby created and designated as the "Congress Circle Union Bond Fund" said account to be maintained in a bank which is a member of the Federal Deposit Insurance Corporation and the Board of Trustees covenants that all revenues, income, receipts, profits, rates, rents or charges derived from the operation of such facilities shall be so credited within three working days after receipt in the Congress Circle Union Bond Fund and shall be used as provided in Section 5.02 hereof.

SECTION 5.02. *Disposition of Congress Circle Union Bond Fund.* The funds in the Congress Circle Union Bond Fund shall be used in the manner and in the order hereinafter mentioned:

(a) Funds in the Congress Circle Union Bond Fund representing revenues derived from student service charges shall first be used for the purpose of making the next succeeding deposit in the Bond and Interest Sinking Fund Account required to be made pursuant to subsection (b) below. All funds representing revenues derived from sources other than student service charges together with student service charges, if any, remaining after making the deposit in the Bond and Interest Sinking Fund of all amounts required to meet the next succeeding deposit required to be made by subsection (b) below, shall first be used to pay all current operating expenses and thereafter for the purposes specified in subsections (b), (c) and (d) below.

(b) There is hereby created an account to be designated the Congress Circle Union Bond and Interest Sinking Fund Account (herein sometimes called the "Bond and Interest Sinking Fund Account"), which shall be main-

tained with the Continental Illinois National Bank and Trust Company of Chicago or its successor in the City of Chicago, Illinois, which bank is hereby designated as the depository for said account. The University shall deposit in said Bond and Interest Sinking Fund Account on or before March 1 and September 1 of each year a sum not less than one hundred thirty-five per cent (135%) of the interest becoming due on the next semiannual interest payment date plus sixty-seven and one-half per cent ($67\frac{1}{2}\%$) of the principal payments becoming due within the next succeeding twelve months to be paid from the Congress Circle Union Bond Fund, until such time as such funds and investments (valued at the lower of cost or market), and the income and profits realized from any investments thereof, after providing for the next interest payment due on all then outstanding Bonds and for the principal payments due at the next maturity date for each series of Bonds outstanding (except that provision need be made only for one-half of the principal payments due more than six months after such deposit date), have created a debt service reserve in an amount equal to two hundred per cent (200%) of the annual amount to become due in the succeeding fiscal year for the payment of principal of and interest on all Bonds then outstanding, and thereafter in a like manner such sums semiannually as may be necessary to meet the then current debt service requirement and to maintain the aforesaid debt service reserve. Said funds shall be held and used for the payment of principal, interest and premium, if any, on the Bonds. For the purpose of this paragraph interest and principal accruing prior to the estimated completion date of the Project and deposited into the Bond and Interest Sinking Fund Account out of the proceeds of the Bonds or from a Construction Fund Account shall not be deemed to be interest or principal to become due on the Bonds.

After setting aside funds for the payment of Bonds which have matured and for past due interest or interest coupons and for principal, accrued interest and premium, if any, on Bonds called for redemption but not paid, funds of the Bond and Interest Sinking Fund Account in excess of the principal and interest requirements for the next succeeding twelve (12) months may be invested by the depository from time to time by written order of the Comptroller in United States Government securities maturing not more than five (5) years from date of purchase. Funds held for interest and principal payments during the next succeeding twelve (12) months (excluding funds held for the payment of Bonds which have matured and for past due interest or interest coupons and for principal, accrued interest and premium, if any, on Bonds called for redemption but not paid) may be invested by the depository from time to time by written order of the Comptroller in United States Government securities maturing in such manner that at all times sufficient securities will mature not later than ten (10) days prior to each succeeding interest payment date to meet the interest and principal payments becoming due on each such date.

(c) After setting aside all funds at the time required for the purposes specified in paragraph (a) above and all funds required to meet the next succeeding minimum deposit required to be made by paragraph (b) above, into said Bond and Interest Sinking Fund Account, the University shall establish on its books a Repair and Replacement Reserve (which shall consist of two parts, an equipment reserve and a repairs reserve) to which there shall be credited on or before the close of each fiscal year commencing with the fiscal year beginning July 1, 1965, (1) the sum of \$30,000 or such portion thereof as is available for transfer annually for an equipment reserve until the funds and/or investments in the equipment reserve portion of the Account shall aggregate \$625,000 and thereafter such sums, but not more than \$30,000 annually, as may be required to restore and maintain the balance of \$625,000, and (2) the sum of \$60,000 or such portion thereof as is available for transfer annually for a repairs reserve. All moneys in the Repair and Replacement Reserve may be drawn on and used by the University for the purpose of paying the cost of unusual or extraordinary maintenance or repairs, renewals and replacements, and the renovating or replacement of furniture and equipment not paid as part of normal operating expenses. Funds standing to the credit of said Repair and Replacement Reserve may be invested by the Comptroller in United States Government

securities until such time as funds are needed. In the event that there is any deficiency in the funds required to be deposited semiannually into the Bond and Interest Sinking Fund Account or there is a deficiency in the debt service reserve, as provided in paragraph (b) above, sufficient funds shall be transferred from the Repair and Replacement Reserve and deposited in the Bond and Interest Sinking Fund Account to eliminate such deficiency.

(d) All funds remaining in said Congress Circle Union Bond Fund in any fiscal year after the full debt service reserve prescribed in subsection (b) of this Section has been provided for and after all provisions in subsections (a), (b) and (c) of this section have been met and all deficiencies have been made up, shall be deemed surplus moneys and shall be used for any of the following purposes: (1) for calling and redeeming the outstanding Bonds, which by their terms are redeemable prior to maturity; (2) for purchasing Bonds in the open market, with all unmatured interest coupons thereto attached at the lowest prices reasonably attainable, but not exceeding the amount at which such Bonds at the time are redeemable; (3) for investment by the Comptroller in United States Government securities until such time as funds are needed for other purposes; (4) for unusual or extraordinary repairs, replacements, or improvements to the facilities, for which no funds can be properly provided in subsection (a) above or which are in excess of the amount available therefor in the Repair and Replacement Reserve; and (5) for any lawful purpose as the Board of Trustees may direct.

SECTION 6.01. *Custody and Application of Bond Proceeds.* The proceeds from the sale of Bonds to be issued from time to time hereunder shall be applied only toward the cost of acquiring, constructing, equipping, enlarging, or improving facilities, all as hereinbefore provided. When received, the part of the purchase price of Bonds representing the interest accrued on Bonds to the date of payment of such purchase price, together with such portion of the proceeds of the Bonds as is determined by the Board of Trustees to be necessary to be so set apart representing interest and principal, if any, to become due on such Bonds prior to the time the facilities for the account of which such Bonds have been issued become revenue producing and funds become available therefrom, shall be deposited in the Bond and Interest Sinking Fund Account. The remaining part of such purchase price shall be retained by the University and accounted for as a separate fund or funds to be known as a "Construction Fund Account" and such monies shall be deposited in a bank or banks which are members of the Federal Deposit Insurance Corporation. The monies in each Construction Fund Account shall be applied only toward the cost of construction in the manner and subject to the terms provided in any contract or agreement between the Board of Trustees and any purchaser of Bonds or as may be provided by a resolution supplemental hereto and relating to each separate series of Bonds to be issued hereunder, but in such a manner as to assure completion of the project or improvement for the account of which such Bonds were issued free and clear of mechanic's liens and substantially in accordance with the plans and specifications therefore.

Interest accruing as a result of any such investments when received shall be credited to the Construction Fund Account.

SECTION 6.03. *Disposition of Surplus Funds.* After completion of each construction or improvement project, the Comptroller of the University shall execute a certificate to the effect that said project has been fully completed according to the plans and specifications and the same filed in the office of the Secretary of the Board of Trustees. Subject to the terms and provisions of any contract or agreement between the Board of Trustees and any original purchaser of Bonds and relating to any separate series of Bonds to be issued hereunder, if there be

funds remaining in a Construction Fund Account at the time of the filing of such certificate with the Secretary, said funds shall be withdrawn by the Comptroller and deposited in the Bond and Interest Sinking Fund Account. Any contract or agreement between the Board of Trustees and any original purchaser of Bonds may provide that any funds remaining in a Construction Fund Account established for the account of any series of Bonds being acquired by such purchaser be applied to the redemption of such Bonds or other Bonds then subject to redemption or to the purchase of Bonds on the open market.

Nothing contained in this Resolution shall be construed to prevent the University from using any portion of land included in a project site, other than the specific land on which the facilities are located, for any lawful purposes so long as the use and occupancy of the facilities are not impaired. Any project site, or portion thereof, used as a parking lot may be used for purposes other than parking so long as (1) an equal or greater number of parking spaces are constructed at another location on the Congress Circle Campus to replace those parking spaces which are eliminated for such reason and the revenues to be derived from the new spaces are pledged for the benefit of the Bondholders and held and applied as in Article Five provided or (2) the Net Income Available for Debt Service for each succeeding fiscal year thereafter (after giving effect to the elimination of such parking spaces and the substitution, if any, of other spaces) shall be equal to or greater than 1.35 times the amount to become due in each succeeding fiscal year for the payment of principal of and interest on the Bonds then outstanding hereunder.

Section 7.05. *Payment of Bondholders' Costs and Expenses.* That it will pay all and singular the costs, charges and expenses including reasonable attorney fees incurred or paid at any time by the holder of any of the Bonds because of the failure on the part of the University to perform, comply with and abide by each and every of the stipulations, agreements, conditions and covenants of the Bonds and this Resolution, or either of them.

Student service charges for the general use of the facilities will be assessed against and charged to each and every student enrolled for credit in the University of Illinois at Congress Circle as a condition precedent to enrollment, except that exemptions from the payment of the student service charges may be granted under policies established from time to time by the Board of Trustees for certain limited classes of students (such as scholarship students and graduate students holding staff appointments) if the University then has unallocated funds authorized by law to be retained in the Treasury of the University in an amount equal to all student service charges for which exemptions are then being granted and if the University shall forthwith deposit into the Congress Circle Union Bond fund an amount equal to the aggregate of all such exempted student service charges; provided, however, that no such deposit need be made by the University at any time when the only effect of such deposit would be to create surplus moneys in the Congress Circle Union Bond fund, under sub-section (d) of Section 5.02 of this Resolution.

SECTION 7.08. *Record Keeping.* That it will, so long as any of the Bonds issued hereunder remain outstanding and unpaid, keep proper and separate books of accounts and records in which full, true and correct entries will be made of all dealings and transactions relating to the properties, business and financial affairs of the University as related to the facilities and such records and books shall be open to inspection by the Bond holders and their agents or representatives.

There will also be included with each audit report a written opinion of the accountant that in making the examination necessary to said audit no knowledge of any default by the University in the fulfillment of any of the terms, covenants, provisions and conditions of this Resolution was obtained, or, if such accountant shall have obtained knowledge of such default a statement of the default or defaults thus discovered and the nature thereof.

SECTION 8.01. *Events of Default.* The University shall be in default herein if one or more of the following events (herein called "events of default") shall happen, to-wit:

(a) Failure to make due and punctual payment of the principal or of any redemption premium on any Bond when and as the same shall become due and payable;

(b) Failure to make due and punctual payment of any installment of interest on any Bond when and as such interest installment shall become due and payable, and such default shall have continued for a period of thirty (30) days;

(c) Failure to make due and punctual payment or satisfaction of any payment into the Bond and Interest Sinking Fund Account when and as such payments shall become due and payable as in this Resolution or any resolution supplemented hereto expressed and such default shall have continued for a period of one hundred eighty (180) days;

(d) If the University shall default in the observance of any other covenants, agreements or conditions on its part in this Resolution or any resolution supplemental hereto or in the Bonds contained, and such default shall have continued for a period of ninety (90) days after notice thereof given to the University by the holder of any Bond setting forth the nature of such default.

If an event of default shall happen and be continuing, then and in each and every such case the holders of not less than a majority in aggregate principal amount of the Bonds at the time outstanding shall be entitled, upon notice in writing to the University, to declare the principal of all of the Bonds then outstanding hereunder and the interest accrued thereon to be due and payable

immediately, and upon any such declaration the same shall become and shall be immediately due and payable, anything in this Resolution or in the Bonds contained to the contrary notwithstanding.

All of the revenues of the facilities including all sums in the Congress Circle Union Bond Fund upon the date of the happening of any event of default and all revenues of the facilities thereafter received by the University, shall be applied by the University in the order following upon presentation of the several Bonds and coupons, and the stamping thereon of the payment if only partially paid, or upon the surrender thereof if fully paid:

First, to the payment of the costs and expenses of the holders of the Bonds in declaring such event of default, including reasonable compensation to their agents, attorneys and counsel;

Second, in case the principal of the Bonds shall not have become due and shall not then be due and payable, to the payment of the interest in default in the order of the maturity of the installments of such interest, with interest on the overdue installments at the rate now or hereafter provided by law, such payments to be made ratably to the persons entitled thereto without preference or priority;

Third, in case the principal of the Bonds shall have become due and shall be then due and payable, to the payment of the whole amount then owing and unpaid upon the Bonds for principal and interest, with interest on the overdue principal at the rate or rates of interest specified in the Bonds and on installments of interest at the rate now or hereafter provided by law, and in case such moneys shall be insufficient to pay in full the whole amount so owing and unpaid upon the Bonds, then to the payment of such principal and interest without preference or priority of principal over interest, or of interest over principal, or of any installment of interest over any other installment of interest, ratably to the aggregate of such principal and interest.

SECTION 8.02. *Rights of Holders of Bonds Upon Default.* Subject to any contractual limitations binding upon the holders of any of the Bonds (including any other limitations herein upon the exercise of any remedy to holders holding a specific proportion or percentage of the Bonds), any holder of Bonds shall have the right, for the equal benefit and protection of all holders of Bonds similarly situated:

(a) By suit at law or proceedings in equity to compel observance by the University or by any of its officers, agents, and employees of any contract or covenant made by the University with the holders of bonds and coupons as provided in this Resolution, and to compel the University and any of its officers, agents and employees, to perform any duties required to be performed for the benefit of the holders of the Bonds or coupons as provided by this Resolution, and to enjoin the University and any of its officers, agents or employees from taking any action in conflict with any contract or covenant with the holders of the Bonds and coupons as provided by this Resolution;

(b) By action or suit in equity to require the University to account as if it were the trustee of an express trust; or

(c) By action or suit in equity to enjoin any acts or things which may be unlawful or in violation of the rights of the holders of Bonds.

No remedy conferred hereby upon any holder of Bonds is intended to be exclusive of any other remedy, but each such remedy is cumulative and in addition to every other remedy and may be exercised without exhausting and without regard to any other remedy conferred hereby. No waiver of any default or breach of duty or contract by the holder of any Bond shall extend to or shall affect any subsequent defaults or breach of duty or contract or shall impair any rights or remedies thereon. No delay or omission of the holder of any Bond to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver of any such default or acquiescence therein. Every substantive right and every remedy conferred upon the holders of Bonds may be enforced and exercised from time to time and as often as may be deemed expedient. In case any suit, action or proceeding to enforce any right or exercise any remedy shall be brought or taken and then discontinued or abandoned, or shall be determined adversely to the holders of

Bonds, then, and in every such case, the University and the holders of Bonds shall be restored to their former positions and rights and remedies as if no such suit, action or proceeding had been brought or taken.

ARTICLE NINE

MODIFICATION AND AMENDMENT OF THE RESOLUTION

SECTION 9.01. *Amendment by Consent of Bond Holders.* This Resolution and the rights and obligations of the University and of the holders of the Bonds and coupons may be modified or amended at any time by resolution supplemental hereto adopted by the Board of Trustees pursuant to the affirmative vote of the holders of sixty-six and two-thirds per cent ($66\frac{2}{3}\%$) in principal amount of all of the Bonds then outstanding at a meeting of Bond holders held in accordance with this Article, or with the written consent without a meeting, given as provided in Section 9.04, of the holders of sixty-six and two-thirds per cent ($66\frac{2}{3}\%$) in principal amount of all of the Bonds then outstanding; provided that no such modification or amendment shall (i) extend the maturity of or reduce the interest rate on, or otherwise alter or impair the obligation of the University to pay the principal or interest or redemption premiums at the time and place and at the rate and in the currency provided therein of any Bond without the express consent of the holder of such Bond, or (ii) permit the creation by the University of any mortgage or pledge or lien on the facilities, or upon any income therefrom or other funds pledged or held hereunder, except as permitted by this Resolution, other than the lien and pledge created by this Resolution, or (iii) permit the creation of a preference or priority of any Bond or Bonds over any other Bond or Bonds or coupon or coupons, or (iv) reduce the percentages of Bonds required for the affirmative vote or written consent to an amendment or modification, without the written consent of holders of all Bonds.

SECTION 9.02. *Bond Holders Meetings.* The University may at any time call a meeting of the holders of Bonds. Every such meeting shall be held at such place in the City of Chicago, State of Illinois, as may be specified in the notice calling such meeting. Written notice of such meeting, stating the place and time of the meeting and in general terms the business to be submitted, shall be given by the University by registered or certified mail, postage prepaid, not less than thirty (30) nor more than sixty (60) days before such meeting, to each registered owner of Bonds then outstanding, at his address, appearing upon the books of registration, and in the event there shall then be outstanding any coupon Bonds which shall not be registered as to principal such notice shall also be published by the University at least once a week for two (2) successive weeks in a daily newspaper published in the English language and having a general circulation in the City of Chicago, State of Illinois, and also by similar publication in a financial newspaper published in the Borough of Manhattan in the City and State of New York, the first publication to be not less than thirty (30) nor more than sixty (60) days prior to the meeting; provided, however, that in any case where publication shall be required as herein before set forth the mailing of such notice shall in no case be a condition precedent to the validity of any action taken at any such meeting.

SECTION 9.03. *Attendance in Person or by Proxy.* Attendance and voting of Bond holders at such meeting may be in person or by proxy. Owners of Registered Bonds may, by an instrument in writing under their hands, appoint any person as their proxy to vote at any meeting for them.

In order that holders of Bonds payable to bearer or their proxies may attend and vote without producing their Bonds, the University may make and from time to time vary such regulations as it shall think proper for the deposit of Bonds with, or exhibit of Bonds to, any banks or trust companies, wherever situated, and for the issue by them, to the persons depositing or exhibiting such Bonds, of certificates in form approved by the University which shall constitute proof of ownership entitling the holders thereof to be present and vote at any such meeting and to appoint proxies to represent them and vote for them at any such meeting in the same way as if the persons so present and voting, either personally or by proxy, were the actual bearers of the Bonds in respect of which such certificates shall have been issued, and any regulations so made shall be binding and effective. Copies of such regulations shall be kept on file in the

offices of the paying agent in Chicago, Illinois, and the Secretary of the University.

Any registered owner of Bonds or any holder of a certificate provided for in this Section 9.03 shall be entitled in person or by proxy to attend and vote at such meeting as holder of the Bonds registered or certified in his name, without producing such Bonds. All others seeking to attend or vote at such meeting in person or by proxy must produce the Bonds claimed to be owned or represented at such meeting, and all persons seeking to attend or vote at such meeting in person or by proxy shall, if required, produce such further proof of Bond ownership or personal identity as shall be satisfactory to the University. All proxies presented at any meeting shall be delivered to the inspectors of votes and filed with the University.

A copy of such resolution, together with a request of the University to Bond holders for their consent thereto, shall be mailed by the University to each registered owner of Bonds and notice of the adoption thereof shall be published in the manner provided in Section 9.02 for the mailing and publication referred to in that Section (but failure to mail copies of such resolution and request shall not affect the validity of the resolution when assented to as in this Section provided). Such resolution shall not be effective unless and until there shall have been filed with the University the written consents of the percentage of holders of outstanding Bonds specified in Section 9.01. Each such consent shall be effective only if accompanied by proof of ownership of the Bonds for which such consent is given, which proof shall be such as is permitted by Section 9.03. Any such consent shall be binding upon the holder of the Bonds giving such consent and on any subsequent holder of such Bonds (whether or not such subsequent holder has notice thereof).

SECTION 9.05. *Supplemental Resolutions or Amendments Without Consent of Bond Holders.* The Board of Trustees may from time to time and at any time, subject to the conditions and restrictions in this Resolution contained, but without requiring the consent of the holders of any of the Bonds, adopt a resolution or resolutions supplemental hereto, which shall thereafter form a part hereof for any one or more or all of the following purposes:

If the University shall so determine, new Bonds so modified as to conform to such action shall be prepared and delivered, and upon demand of the holder of any Bond then outstanding shall be exchanged at the office of the Comptroller of the University, without cost to any Bond holder, for Bonds then outstanding, upon surrender of such Bonds with all unmatured coupons, if any, appertaining thereto.

SECTION 9.07. *Exclusion of Bonds.* Bonds owned or held by or for the account of the University shall not be deemed outstanding for the purpose of any vote or consent or other action or any calculation of outstanding Bonds in this Article provided for, and shall not be entitled to vote or consent or take any other action in this Article provided for.

ARTICLE TEN

SECTION 10.02. *Successor Is Deemed Included in All References to Predecessor.* Whenever in this Resolution or any resolution supplemental hereto either the University or the paying agent is named or referred to, such reference shall be deemed to include the successors or assigns thereof, and all the covenants and agreements in this Resolution contained by or on behalf of the University shall bind and inure to the benefit of the respective successors and assigns thereof whether so expressed or not.

SECTION 10.03. *Discharge of Resolution.* If all of the outstanding Bonds shall have matured, or shall have been duly called for redemption and the redemption date thereof shall have arrived, and if the University shall have deposited with the depository in trust, funds pursuant to this Resolution sufficient to pay and available for the payment of all amounts due on all Bonds then outstanding, including all principal, interest and redemption premiums, if any, and provision shall also be made for paying all other sums payable hereunder by the University, then, notwithstanding that any Bonds or interest coupons shall not have been surrendered for payment, the pledge of the income provided for in this Resolution and all other obligations of the University under this Resolution shall cease and terminate except as hereinafter in the next succeeding paragraph provided.

Any such funds held by the depository which have not been disbursed in the payment of Bonds and interest as aforesaid during the period of ten (10) years after the deposit referred to in the foregoing paragraph, shall be repaid to the University by the paying agent on written request of the University together with the schedule of the Bonds not paid or redeemed and thereupon the holder of any of the Bonds or coupons entitled to receive such payments, shall thereafter look only to the University for the payment thereof; provided, however, that the depository before being required to make such repayment, shall at the expense of the University, effect publication once a week for two successive weeks in a daily newspaper published in the English language, and having a general circulation in the City of Chicago, State of Illinois, and also by a similar publication in the Borough of Manhattan in the City and State of New York, a notice to the effect that said moneys have not been so applied and that after a date named in said notice, any unclaimed balance of said moneys then remaining will be refunded to the University.

No Bond or appurtenant coupon shall, after maturity thereof either according to its terms or through call of such Bond for earlier redemption, be deemed to be outstanding provided that moneys in the requisite amount for the payment thereof shall have been deposited with the depository, as trust funds, and are available for payments of such Bond or coupon upon demand.

SECTION 10.04. *Execution of Documents by Bond Holders.* Any request, declaration or other instrument which this Resolution may require or permit to be signed and executed by Bond holders may be in one or more instruments of similar tenor, and shall be signed or executed by Bond holders in person or by their attorneys-in-fact appointed in writing.

Except as otherwise herein expressly provided, the fact and date of the execution by any Bond holder or his attorney-in-fact of such request, declaration or other instrument or writing appointing such attorney-in-fact may be proved by the certificate of any notary public or other officer authorized to take acknowledgements of deeds to be recorded in the State in which he purports to act, that the person signing such request, declaration or other instrument or writing acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer.

Except as otherwise herein expressly provided in this Resolution, the amount of Bonds transferable by delivery held by any person executing such request, declaration or other instrument or writing as a Bond holder, and the numbers thereof, and the date of his holding such Bonds, may be proved by a certificate, which need not be acknowledged or verified, satisfactory to the University, executed by a trust company, bank, investment banker, dealer, broker or other depository wherever situated, showing that at the date therein mentioned such person exhibited to or had on deposit with such depository the Bonds described in such certificate. Continued ownership after the date of deposit stated in such certificate may be proved by the presentation of such certificate if the certificate contains a statement by the depository that the Bonds therein referred to are in fact held on deposit by such depository and will not be surrendered without the surrender of the certificate to the depository. The University may nevertheless in its discretion require further or other proof in cases where it deems the same desirable. The ownership of registered Bonds and the amount, maturity, number and date of holding the same shall be proved by the registry books.

Any request, declaration or other instrument or writing of the owner of any Bond shall bind all future owners of such Bond in respect of anything done or suffered to be done by the University hereunder in good faith and in accordance therewith.

SECTION 10.05. *Waiver of Personal Liability.* No officer, agent or employee of the University shall be individually or personally liable for the payment of the principal or of interest on the Bonds; but nothing herein contained shall relieve any such officer, agent or employee from the performance of any official duty provided by law.

SECTION 10.06. *Official Publication.* Any publication to be made under the provisions of this Resolution in successive weeks may be made in each instance upon any business day of the week and need not be made on the same day of any succeeding week nor in the same newspaper for any or all of the successive publications, but may be made in different newspapers.

SECTION 10.07. *Partial Invalidity.* If any one or more of the covenants or agreements, or portions thereof, provided in this Resolution should be contrary to law, then such covenant or covenants, such agreement or agreements or such portions thereof, shall be null and void and shall be deemed separable from the remaining covenants and agreements or portions thereof and shall in no way affect the validity of this Resolution or of the Bonds.

SECTION 10.08. *Headings and Index.* Any headings preceding the texts of the several articles hereof and any table of contents appended to copies hereof shall be solely for convenience of reference and shall not constitute a part of this Resolution, nor shall they affect its meaning, construction or effect.

SECTION 10.09. *Covenants Not to Be Deemed Covenants of Any Present or Future Officer, Agent or Employee of University.* All covenants, stipulations, obligations and agreements of the University contained in this Resolution shall be deemed to be covenants, stipulations, obligations and agreements of the University to the full extent authorized by law and permitted by the Constitution of the State of Illinois, and no covenants, stipulations, obligations or agreements contained herein shall be deemed to be a covenant, stipulation, obligation or agreement of any present or future officer, agent or employee of the University in his individual capacity, and no officer executing the Bonds shall be liable personally on the Bonds or be subject to any personal liability or accountability by reason of the issue thereof. No officer, agent or employee of the University shall incur any personal liability in acting or proceeding or in not acting or not proceeding in good faith, reasonably and in accordance with the terms of this Resolution and applicable law.

SECTION 10.10. *Resolution Effective on Passage.* This Resolution shall become effective upon its passage.

WHEREAS, Section 7.07 of the Resolution of this Board of Trustees authorizing and providing for the issuance of \$10,800,000 Congress Circle Union Bonds, Series A and B of 1963, duly adopted June 19, 1963, provides that the Board of Trustees will adopt such rules and regulations and fix and maintain such student service charges (as defined in said Resolution) rates, rentals, fees, and charges for the use of the facilities referred to therein as will provide revenue sufficient to provide and maintain the Bond and Interest Sinking Fund Account and the required reserves therefor and to pay the reasonable cost of operating and maintaining facilities and to provide and maintain the Improvement and Replacement Reserve; and

WHEREAS, The Board of Trustees of the University of Illinois desires to comply with the above cited provisions and to adopt certain rules and to provide for certain charges applicable to the operation of the facilities;

RULE 1. The properties of the Congress Circle Union Building and parking facilities above referred to as the "facilities" shall be continuously operated at all times when the University is in session.

RULE 2. Subject to further action of The Board of Trustees the initial student service charge for the use of the Congress Circle Union Building shall be \$40 per regular school semester for students in Range I (carrying above 10 semester hours of work), \$25 per regular school semester for students in Range II (above five semester hours up to and including 10 hours), and \$10 per regular school semester for students in Range III (above 0 and up to and including five semester hours), and shall be assessed against and charged to each and every student enrolled for credit in the University of Illinois at Congress Circle as a condition precedent to enrollment, except to the extent exemptions may be granted upon the conditions contained in Section 7.07 of the Resolution authorizing the issuance of the Bonds. Said fee shall be effective with the fall semester of 1964 or at such earlier date as The Board of Trustees may determine.

RULE 3. Rentals, rates, fees, and charges for the use of the parking lots and the income-producing facilities within the Congress Circle Union Building shall be from time to time established and maintained in such amounts as will result in net income sufficient, together with the student service charges, to provide revenue sufficient to provide and maintain the Bond and Interest Sinking Fund Account and the required reserves therefor and to pay the reasonable cost of operating and maintaining facilities and to provide and maintain the Improvement and Replacement Reserve.

On motion of Mr. Johnston, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Page.

CONTRACTS FOR CONSTRUCTION OF THE CONGRESS CIRCLE CAMPUS UNION BUILDING

General (Division I) — Power Construction, Inc., Oak Park.....	\$5 624 322
Base bid	\$5 568 511
Additive alternate for assignment of other contracts..	55 811
Plumbing and Fire Protection (Division II) — M. J. Corboy Corporation, Chicago	394 217

It is also recommended that all contracts other than the general contract be assigned to the contractor for general work, making the total of his contract \$8,414,867; and it is further recommended that an agreement be entered into with Power Construction, Inc., Oak Park, for the assignment of these other contracts for \$55,811, which amount is included in the contract price, being the amount bid by that Company for service charge for supervision of other contracts assigned to the general contractor.

Funds will be available through the sale of revenue bonds, and in state capital appropriations to the University for 1961-63 from the Universities Building Fund which have been released.

Submitted herewith is a supporting report from the Physical Plant Department, including a summary of bids received, a copy of which is being filed with the Secretary of the Board.

I concur in these recommendations.

On motion of Mr. Swain, these contracts were awarded, as recommended, by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Page.

ADDITION TO CONTRACT FOR CONSTRUCTION OF ELECTRICAL ENGINEERING BUILDING ADDITION

(20) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$2,720.82 in the contract with Pathman Construction Co., Chicago, for construction of two rooms within the lecture room area of the Electrical Engineering Building Addition.

Funds are available in the construction budget.

I recommend that the Comptroller be authorized to execute this change order.

On motion of Mr. Johnston, this change in contract was authorized.

LEASES OF PROPERTY

(21) Because of constitutional limitations, all leases of property by the University of Illinois expire on June 30 of each biennium. I recommend that the Comptroller and Secretary be authorized to renew at the end of each biennium all leases when there is no change in rental or it does not exceed \$2,500 a year. If any increase in rental is proposed, and the total annual rental is more than \$2,500 a year, a recommendation will be submitted to the Board. All leases when renewed will be listed in the Comptroller's report of contracts to the Board.

I concur.

On motion of Mrs. Watkins, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Page.

LEASE WITH DEPARTMENT OF PUBLIC WORKS AND BUILDINGS OF THE STATE OF ILLINOIS AND THE CITY OF CHICAGO FOR A PORTION OF THE CONGRESS CIRCLE SITE

(22) The campus plan for the Congress Circle provides for closing of the existing Congress Parkway (a frontage road lying between Harrison Street and the Congress Expressway) from Morgan to Halsted Streets and the construction of a

Chicago Transit Authority Station on the Peoria Street Bridge which will be closed to vehicular traffic.

Negotiations with city of Chicago, state, and federal representatives have resulted in an agreement which will provide that the City will finance and construct the CTA Station, and the University will (1) take a lease of the Congress Parkway area as a part of the campus, (2) construct a ramp from the Peoria Street Bridge to the elevated walkway, and (3) remove the improvements on the right-of-way of the Congress Parkway and landscape and maintain the area during the period of the lease.

The proposed agreement is for the period expiring June 30, 1965, with an option to the University to renew the lease for consecutive two-year periods after expiration of the original term.

The Director of the Physical Plant and the Vice-President and Comptroller recommend approval of the agreement and lease, and that the Secretary of the Board and the Vice-President and Comptroller be authorized to execute the same upon terms and conditions, and in a form, approved by the Legal Counsel.

I concur.

On motion of Mr. Williamson, this lease was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Page.

APPLICATION TO FEDERAL COMMUNICATIONS COMMISSION FOR FM STATION IN CHICAGO

(23) The Director of Broadcasting has requested adoption of a resolution authorizing an application to the Federal Communications Commission for a new FM station in Chicago which will broadcast in the Chicago area Station WILL programs from the Medical Center Campus and later from Congress Circle. He has secured the approval of Northwestern University and Elmhurst College officials of changes in channel assignments for their stations which will be required for a frequency assignment to the new station.

The Executive Vice-President and Provost and I concur and recommend adoption of the required form of resolution, a copy of which is submitted herewith.

On motion of Mr. Swain, the following resolution was adopted.

Resolution

I, A. J. Janata, Secretary of The Board of Trustees of the University of Illinois, hereby certify that the following is a true and exact extract from the minutes of the meeting of The Board of Trustees of the said University held in Peoria, Illinois, on June 19, 1963:

"On motion made and duly seconded, and with a quorum of the Board present and duly authorized to act, it was unanimously voted by those present to approve the following resolution:

"We, a duly constituted quorum of The Board of Trustees of the University of Illinois, having legal authority to act, hereby authorize and direct the Secretary of the Board of Trustees, A. J. Janata, to execute any and all legal instruments necessary to the establishment, maintenance and operation of a proposed non-profit educational FM radio station at Chicago, Illinois, including, but not limited to any and all applications or other pleadings of any sort which are now or may hereafter be required in the prosecution of such application before the Federal Communications Commission, Washington, D.C., for the construction and/or operation of said station at Chicago, Illinois."

In witness whereof, I, a duly authorized official of The Board of Trustees of the University of Illinois, have caused the seal of the University of Illinois to be hereunto affixed. Given under my hand this day of, 1963, at Urbana, Illinois.

*Secretary of the Board of Trustees
University of Illinois*

USE OF UNIVERSITY FACILITIES BY THE TWIN CITY BIBLE CHURCH

(24) The Board of Trustees authorized the use of University space in Gregory Hall by the Twin City Bible Church of Urbana for a two-year period, 1961-63,

while a new church building is being constructed. The former property of this church on Springfield Avenue, Urbana, was purchased by the University for campus expansion and the building was razed. Church officials have requested continued use of University facilities until completion of the new building. The University is reimbursed for any expense involved and use of University rooms is so scheduled as not to conflict with University needs for the same.

I concur.

On motion of Mr. Johnston, this request was approved.

AUTOMOBILE PARKING REGULATIONS AND FACILITIES. URBANA-CHAMPAIGN

(25) On the basis of a report and recommendations of the Committee on Motor Vehicle Regulations and the Campus Planning Committee (University administrative-faculty committees), I recommend that the Board of Trustees approve in principle the plan presented below for a long-range parking program for the University of Illinois, and the specific recommendations set forth therein, effective September 1, 1963; and that the President of the University be authorized to amend it from time to time in the light of experience and upon appropriate recommendations. Such action would be consistent with the General Rules Concerning University Organization and Procedure which give the President authority to make traffic and parking regulations and such changes therein as conditions may warrant, and with the action of the Board in adopting the present parking regulations and program for the Urbana-Champaign campus in June, 1958.

Preface to Recommendations

On July 18, 1962, the Board authorized the employment of Harland Bartholomew and Associates, St. Louis, Missouri, for a study of the University's parking problem on the Urbana-Champaign campus. The Bartholomew report, entitled "Long-Range Parking Program for the University of Illinois," was made available for study by University administrative officers, faculty, and staff, in December, 1962. A representative of Harland Bartholomew and Associates presented the report at an open meeting of the faculty and staff on December 12, 1962, at which time many questions were discussed.

The Committee on Motor Vehicle Regulations and the Campus Planning Committee had been assigned the task of evaluating the report and making recommendations to the President of the University. These Committees solicited criticisms of the present regulations, adopted in June, 1958, and of the Bartholomew report, and suggestions for the development of an improved parking plan for the Urbana-Champaign campus. At the December meeting, the Committees announced that all communications, recommendations, and criticisms could be sent to the Committee Chairmen prior to January 15, 1963, and that all recommendations would be considered before a tentative recommendation would be made.

More than 150 letters and memoranda were received in response to the Committees' solicitation. Thereafter the Committees met weekly in full afternoon sessions for several weeks. The tentative proposal was mailed (Faculty Letter No. 52) on February 20 to all faculty and staff, and notice was given that a meeting would be held in the University Auditorium on February 28 to discuss the proposal and to answer questions. About fifty persons were present at that meeting, and a stenographic report was made of all questions and suggestions. The record of the meeting indicated there were two or three provisions which caused the greatest concern, so that opportunity was again given to present criticisms in writing. Very few responses were received.

On March 12, the Committees had a final meeting at which its report was adopted and subsequently submitted to the President of the University. It is the judgment of the Committee, with which I agree, that the program proposed will provide a basis for some progress toward a partial solution of a very difficult and complex problem. The Committee on Motor Vehicle Regulations will need to have under continuous review the regulations for use of the various areas. It may be necessary to increase fees and to make other changes in the program if it becomes desirable to accelerate the pace of construction of additional parking areas.

Recommendations

1. Parking lots and structures shall be constructed on land presently owned or to be acquired by the University.
(Explanatory note: The two Committees are in agreement that it would be desirable if the University could provide both the land and the construction necessary for an adequate parking program. Since this does not appear to be possible, land now owned or purchased for campus expansion should be utilized for parking until it must be used for building sites. This represents a continuation of the present policy.)
2. Each member of the faculty-staff desiring to use parking space on University lots, streets, or drives shall pay an annual registration fee of \$15.00. A faculty-staff member wishing to register a second car shall pay a fee of \$5.00 for that car. Cars in excess of two may be registered on the payment of the \$15.00 fee for each car. Anyone desiring to register a car for less than the full twelve months shall pay a registration fee of \$7.50 per semester, and/or \$3.75 for a Summer Session.
(Explanatory note: It is intended that the registration fee be voluntary but shall apply uniformly to all members of the faculty-staff who use University land for parking at any time during the year. The \$15.00 fee would cover the full twelve months. Staff on less than nine-month appointment would pay a \$7.50 semester fee, or \$3.75 for the Summer Session only. In addition to the right to park in unrestricted University spaces, the registration fee would entitle a faculty-staff member to a motor vehicle registration card which would entitle the member to ride free on the Illi-Bus anywhere along the Illi-Bus route.)
3. No motor vehicle shall be registered unless the certificate of title is in the name of an employee or the spouse of an employee of the University.
(Explanatory note: There was some feeling among the Committees that University registration should be restricted to motor vehicles owned by the University employee with specific exceptions being made only in exceptional cases. It was deemed that this policy would afford better control of University parking spaces to insure that their use would be restricted to faculty-staff. However, a majority felt that exceptional cases would be rare and that vehicles owner-registered in the name of an employee or spouse should be entitled to University registration.)
4. Any full time faculty-staff member may rent a parking space (on a first come-first served basis) for the hours of 6:00 a.m. to 6:00 p.m. Monday through Friday and 6:00 a.m. to 12:00 noon on Saturday for an annual rental fee of \$45.00 (in addition to the annual \$15.00 registration fee).
(Explanatory note: This rental would be on a voluntary basis and designed for the convenience of those who desire such a space and are willing to pay the additional fee. Such spaces would not be reserved during the evening hours (after 6:00 p.m.) and would be available after 6:00 p.m. to faculty-staff who have paid the University registration fee. No charge would be made to faculty-staff for parking in such spaces during the evening hours. It is anticipated on the basis of available spaces, that faculty-staff who return to their offices or laboratories to work after 6:00 p.m. will find a space in a University lot, or on a University street or drive, reasonably close to such offices or laboratories. Any faculty-staff member who, on the effective date of this program, is paying for a rental space will be assured that the space will continue to be assigned to him.)
5. Faculty-staff members and University departments having special need may rent a parking space by special permission of the Executive Vice-President and Provost on a twenty-four hour yearly basis for an annual rental fee of \$90.00 (in addition to the annual \$15.00 registration fee for individuals, or a total of \$105.00 per year for individuals and departments).
(Explanatory note: This provision is for those special cases in which the Provost determines that the interests of the University require that a special parking space be reserved on a twenty-four hour basis for an individual or department. A department would include such parking fee in its operating budget in the same manner that it provides for the other operating expenses of the motor vehicle.)

6. All parking spaces in service areas will be metered on a short-term basis restricted to faculty-staff and official visitors on University business. (Explanatory note: This provision is for rapid turnover use in scattered areas around the campus as is now provided on a no charge basis.)
7. All unrestricted parking spaces on University-owned streets and drives shall be metered, as the demand requires, on an 8:00 a.m. to 5:00 p.m. basis and that the use of such metered spaces be restricted to the use of faculty-staff and visitors on the basis of current motor vehicle parking regulations initially, and thereafter as the needs of the faculty-staff may require. (Explanatory note: Some portions of University streets and drives are restricted to traffic flow only and parking is not permitted. Parking, in accordance with published regulations, is permitted on other portions of streets and drives. In order to control parking use in areas of high demand and to encourage turnover rather than all-day use, it is proposed to meter such spaces on a five cents per hour, five-hour limit, for use between 8:00 a.m. and 5:00 p.m. As the campus expands and faculty-staff parking needs increase in certain areas, the regulations may be changed to restrict such spaces to the use of faculty-staff. Initially, however, it appears that current regulations are adequate in those areas of minimal faculty-staff demand. It is anticipated that the metering of spaces on University streets and drives will be gradual as the need appears.)
8. The present Illi-Bus routes shall be expanded and extended to provide transportation to all parts of the campus from parking lots. University motor vehicle registration identification cards furnished to faculty-staff will serve as a pass in lieu of a cash fare. (Explanatory note: As the campus expands and new classroom and laboratory buildings are constructed in the center of campus, it is anticipated that there will be increased need for intra-campus bus transportation for faculty-staff from parking lots which are not within convenient walking distance of offices, classrooms, and laboratories, and for cross-campus trips during the working day. An expansion and extension of Illi-Bus service for these needs seems mandatory. The registration fee for faculty-staff will permit this to be done on a realistic basis as the need requires.)
9. The University will acquire as rapidly as feasible the needed sites and construct a parking structure or structures adjacent to the center campus area. (Explanatory note: The need for additional parking spaces adjacent to the present center area of the campus is acute. If the other proposals are adopted it is anticipated that the income will permit an immediate start on providing additional spaces. While there are many practical and financial problems involved in acquiring an adequate site and constructing parking structures, if a reasonable amount of income for such construction is assured steps should be taken to provide such additional spaces.)
10. The University will assume all the costs of administering the parking program to the end that all funds which are paid in the form of registrations, rentals, or meter income will be available to finance the bonds required to build the structures recommended in paragraph 9, to prepare other land for parking use, and to maintain existing lots.
11. The policies adopted and the specific parking and traffic regulations incorporated by reference herein will be re-evaluated after not more than six months of the operation of the revised program and periodically thereafter, and changes recommended to make more effective use of the parking lots and streets.
12. The Committee on Motor Vehicle Regulations shall make recommendations for implementation of the foregoing program with respect to its administration.

The report of the Committees recognizes that its proposals may not be adequate to meet satisfactorily the present and future parking space needs on this campus; and also that individual opinions differ as to how such a complex and costly undertaking should be approached to serve the needs of all segments of the University community. Having considered carefully all present and foreseeable future aspects of the problem, it is believed that the proposals offer the most practical and least expensive approach to the problem at the present time.

It will be noted that the proposals do not deal with the question of student

cars on campus, which is considered to be a separate problem. Only an approximate 20 per cent of the students have registered motor vehicles on campus. The primary concern has been to provide adequate services for the total student body, including the 80 per cent who do not have motor vehicles on campus. As the essential needs of the faculty-staff are met for serving the total student body, we will turn to the subsidiary problem of providing parking facilities to the extent possible for the 20 per cent of the student body who have motor vehicles on campus.

Although the Committees believe that all the major policy decisions are included in its recommendations, they recognize that a number of administrative details remain to be determined before the program may be put into operation. Recommendations for the resolution of these questions may appropriately be made by the Committee on Motor Vehicle Regulations, as has been recommended, and the Campus Planning Committee will not be involved in their consideration.

On motion of Mr. Johnston, the foregoing recommendations were approved, and authority was given as requested.

AMENDMENTS OF UNIVERSITY OF ILLINOIS STATUTES

(26) The University Senates have proposed amendments of Sections 38, Tenure of Academic Staff, and 39, Academic Freedom, of the University of Illinois Statutes and, collaterally, of Section 6, University Senates, which would necessarily be affected by any changes made in Sections 38 and 39. The Urbana-Champaign Senate approved the proposed amendments on June 13, 1961; the Chicago Undergraduate Division Senate on December 5, 1961, approved but with some modifications the amendments proposed by the Urbana-Champaign Senate; and the Medical Center Senate on April 4, 1962, approved, with minor changes, the amendments as modified and approved by the Chicago Undergraduate Division Senate.

The University of Illinois Statutes provide:

Section 6 (k), in part, that "each Senate may propose amendments to these Statutes through the Senate Coordinating Council to the President and the Board of Trustees as provided in Section 65."

Section 65 provides, in part, that ". . . Any proposed amendment shall be referred to the Senate Coordinating Council for its consideration and for transmission to the other Senates for action. If the three Senates agree, the amendment shall be presented to the President for transmission to the Board of Trustees. *If the Senates do not concur in the proposed amendment, the Coordinating Council shall endeavor to promote agreement of the three Senates; where agreement is not effected, the Council shall transmit its recommendations to the President for submission to the Board of Trustees. Any Senate objecting to a proposed amendment may record its objections by forwarding them to the Board of Trustees, through the President. . . .*" (italics supplied)

Accordingly, and pursuant to the authority vested in it by Section 65, the Senate Coordinating Council endeavored to promote agreement of the three Senates on the proposed amendments which was not successful; and pursuant to the further authority vested in it by Section 65, the Senate Coordinating Council transmitted to the President of the University, for submission to the Board of Trustees, its recommendations for amendments to Sections 6, 38, and 39 of the University Statutes.

On April 2, 1963, I transmitted to all members of all three Senates the complete report of the Senate Coordinating Council presenting its recommendations for amendments to the Statutes, stating that to provide an opportunity for any of the Senates to register an objection to the recommendations (as provided for in Section 65, quoted above), I would defer presentation of the subject to the Board of Trustees until after the June meetings of the Senates. The Senates have offered no objections. On the contrary, the Urbana-Champaign Senate at a meeting on April 15, 1963, unanimously adopted a resolution:

" . . . that the Champaign-Urbana Senate approves and endorses the recommendation of the Senate Coordinating Council for revision of Sections 6, 38, and 39 of the University Statutes and urges their adoption by the Board of Trustees.

The Medical Center and Chicago Undergraduate Division Senates have offered no objections to the recommendations of the Senate Coordinating Council.

I now present the Senates' recommendations to the Board of Trustees for study. At a subsequent time, I shall submit my recommendations with regard to the proposals. For purposes of comparison they are submitted in parallel form showing the current statutory provisions and the recommendations for proposed amendments.

The President's report and the recommendations of the Senate Coordinating Council were received for record, and were referred to the Committee on General Policy for further consideration and advice to the Board.

RECOMMENDATIONS OF THE SENATE COORDINATING COUNCIL

Additions are indicated by italics.

Sec. 6. (1) Each Senate shall *establish rules of procedure in accordance with which it shall* elect annually by ballot from its membership a Committee on Committees. Upon nomination made by this Committee after consultation with the President, in the case of the Urbana-Champaign Senate, *or with the Vice-President in Charge, in the case of each Chicago campus Senate,* each Senate shall elect committees on educational policy, academic freedom *and tenure*, University calendar, the library, student discipline, student affairs, and such other standing committees as it may from time to time authorize. *The Committee on Academic Freedom and Tenure at each campus shall be elected by the respective Senate upon nomination made in the manner hereinbefore described in this paragraph and shall consist of at least five members of the faculty other than deans or directors, with no more than two members from any one college, school, institute, division, or other administrative unit.* The chairmen of the Senate committees on educational policy, academic freedom *and tenure*, library, and of such other committees as the three Senates may designate, shall be members of the corresponding committees of the other Senates.

** (m) The academic staff (i.e., those having the rank of instructor or higher rank) at each campus shall also elect a*

Faculty Advisory Committee of nine members of such academic staff, three of whom shall be elected each year for three-year terms. No more than two members, or in the case of the Medical Center no more than three, from any one college, school, institute, division, or other administrative unit of the University shall serve on the Committee at the same time. The Committee shall each year elect its own chairman at its first meeting held after the annual election of members. The Committee shall adopt its rules of procedure, copies whereof shall be sent to all members of the academic staff and to the President. The Committee shall make such annual reports to the President, the Senate, and the faculty as it deems appropriate.

The functions of the Committee shall be to provide for the orderly voicing of suggestions for the good of the University, for affording added recourse for the consideration of grievances, and for furnishing a channel for direct and concerted communication with administrative officers of the University, its colleges, schools, institutes, divisions, and other administrative units on matters of interest or concern to the academic staff or any member of it.

In performing its functions, the Committee upon the request of the President, or any member of the academic staff, or upon its own initiative, shall make such investigations and hold such consultations as it may deem to be in the best interest of the University. A member of the academic staff shall be entitled to a conference with the Committee or with any member of it on any matter properly within the purview of the Committee.

* While the faculty advisory committee is provided for here in Sec. 6 for convenience, it should be noted that it is not a Senate committee but a general University committee on each campus.

Those who at the date this section of the University Statutes becomes effective are already members of an established Faculty Advisory Committee shall be the first members of the Committee as established under this section of the University Statutes, with terms coterminous with those for which they were elected.

Sec. 38. (a) Unless otherwise provided in these Statutes (and in the absence of some special written agreement approved by the President of the University with the consent of the appointee) the tenure for the various members of the academic staff shall be as stated herein, except that first appointments or temporary appointments may be made for shorter periods.

(1) An appointment as professor or associate professor shall be for an indefinite term.

(2) An appointment as assistant professor, or to the administrative staff, shall be for a period not longer than two years from September 1 of the first year of the legislative biennium.

(3) Appointments to lower ranks shall be for not more than one year.

(b) The appointment of any person for a definite term does not carry any guarantee or implication that the Board of Trustees will renew the appointment at its termination, even though the appointee may have discharged his duties satisfactorily. Any appointment, if accepted, must be accepted with this stipulation.

(c) Tenure may be terminated by (1) honorable retirement; (2) acceptance of resignation; (3) *dismissal* for due cause.

(d) *Due cause for dismissal shall be deemed to exist only if, with all due regard for the freedoms and protections provided for in Sec. 39 of these Statutes, a faculty member's conduct*

inefficiency or incompetency. The enumeration of causes for discharge shall not be deemed exclusive, and the Board of Trustees reserves the power to discharge for other causes, but it is to be distinctly understood that this power will be exercised only under exceptional circumstances and then only for conduct which is clearly prejudicial to the best interests of the University.]

(e) [An appointee on definite tenure shall not be removed before the expiration of his term of service, nor shall an appointee on indefinite tenure be removed, without in either instance first having been presented with a written statement of the charges against him, which shall be sufficiently specific reasonably to inform him of their nature and to enable him to present his defense thereto. Charges shall be preferred by the President, or on his authority, and shall be filed with the Secretary of the Board of Trustees. A copy of the charges shall be transmitted to the appointee either personally or shall be mailed to the appointee at his last known post office address by registered mail within 15 days after they have been preferred. Within 15 days after such service of a copy of the charges, the appointee may file with the Secretary of the Board a written request for a hearing before the Board of Trustees. Notice of the time and place of the hearing, which shall be not less than 20 days after the date of the appointee's request, shall be served upon the appointee either personally or by registered mail. The date of the hearing shall be no less than 15 days from the date of the receipt of the notice of hearing by the appointee. The appointee shall have the right to appear at the hearing, with counsel, if he desires, to reply to the charges and to present evidence in his behalf. The Board shall not be bound by formal or technical rules of evidence in hearing and deciding the case. Prior to the preferment of charges, or while charges are pending, the appointee may be suspended by the President pending final decision of the Board upon the charges. In designating the effective date of dismissal or requested resignation, the Board shall give due consideration to the time reasonably required for the adjustment of the staff member's personal affairs.]

is found to demonstrate clearly and convincingly either that: (1) he has been grossly neglectful of, or grossly inefficient in, the performance of his University duties; or that: (2) he can no longer be relied upon to perform his University duties and functions in a manner consonant with professional standards of competence and responsibility.

(e) *Proceedings seeking the dismissal before the expiration of his term of appointment of an appointee to the academic staff who is on definite tenure or of an appointee to the academic staff who is on indefinite tenure shall comply with the procedures described in the following provisions of this section:*

(1) *Charges. When it shall appear to the President that cause for the dismissal of an appointee may exist, he shall consult with the Faculty Advisory Committee. The President, after such consultation, shall determine whether dismissal proceedings should be instituted. Charges looking to dismissal shall be preferred by statement in writing by the President or on his authority and shall be filed with the Clerk or Secretary of the Senate within thirty days after the consultation with the Faculty Advisory Committee. The statement shall be sufficiently specific reasonably to inform the appointee of the nature of the charges and enable him to present his defense to them.*

(2) *Service. The Clerk or Secretary of the Senate shall cause a copy of the statement of the charges and a copy of Sections 38 and 39 of the Statutes to be delivered to the appointee personally or mailed to him at his last known post office address by registered mail within five days after they have been filed with the Clerk or Secretary of the Senate.*

(3) *Request for Hearing. Within fifteen days after such service of a copy of the statement of charges, the appointee may file with the Clerk or Secretary of the Senate a request for a hearing before the Committee on Academic Freedom and Tenure of the appropriate campus; and within ten days after filing such request the appointee shall file with the Clerk or Secretary of the Senate a detailed written answer to the statement of grounds for dismissal. The Clerk or Secretary of the Senate shall promptly transmit the statement of charges, the*

answer thereto, and the request for a hearing to the chairman of the Committee on Academic Freedom and Tenure, and copies of the answer and request for a hearing to the President.

(4) *Notice of Hearing.* Notice of the time and place of the hearing before the Committee on Academic Freedom and Tenure, which hearing shall be not less than twenty days after the filing of the appointee's request, shall be delivered on the same date to the appointee and the President either personally or by registered mail. The date of the hearing shall be not less than fifteen days from the date of such delivery or of such mailing of the notice of hearing.

(5) *Hearing.* At the time and place fixed the Committee on Academic Freedom and Tenure shall hold a closed hearing on the charges. No member of that Committee shall sit in a case that involves a member of his department, school, institute, or division, whichever represents the smallest administrative unit. Three members of the Committee shall constitute a quorum for the conduct of the hearing, and the chairman of the Committee may appoint another member of the Committee to preside over the hearing. If vacancies occur, the Committee on Committees shall appoint as many members as are necessary to constitute a quorum. Except as hereinbefore or hereinafter provided the hearing shall be conducted according to such rules as the Committee may from time to time establish. The Committee shall not be bound by technical rules of evidence, but all findings, conclusions, and recommendations of the Committee shall be supported by, and be in accord with substantial evidence. The appointee shall be entitled to be present at all sessions of the Committee when evidence is being received and to have with him an adviser of his own choice who may act as counsel. Likewise the President or some person designated by him, together with counsel if the President desires counsel, shall be entitled to be present at all sessions of the Committee when evidence is being received. Each party shall have the right within reasonable limits to question witnesses and when all the evidence has been received to make an argument in support of its position, either in person or by counsel. A full stenographic transcript shall be made of the hearing unless both parties

agree to the making of a record in a briefer form.

(6) *Findings, Conclusions, and Recommendations.* Following the conclusion of the hearing the Committee shall promptly make its explicit findings of fact on each charge, its conclusions, and its recommendations. Reasonable opportunity shall be given to each party to file a written statement setting forth objections to these findings, conclusions, and recommendations and setting forth the grounds for such objections. A copy of one party's objections shall be given to the other party. The originals of the findings, conclusions, and recommendations, and of the hearing shall be forwarded to the President and copies shall be promptly transmitted to the appointee.

If ultimately the appointee requests a hearing before the Board of Trustees, the originals or copies of statement of charges filed by the President or on his authority with the Clerk or Secretary of the Senate, the request for a hearing, the answer to the statement of charges, the notice of the time and place of hearing, the transcript or briefer record of the hearing, any exhibits, received in evidence, the findings, conclusions, and recommendations of the Committee, and any objections to such findings, conclusions, and recommendations, shall constitute the record before the Committee on Academic Freedom and Tenure to be submitted to the Board. The record shall be available to the Board of Trustees, to counsel for the appointee, and to counsel for the University, but shall not be available to other persons prior to the hearing before the Board. If the Committee recommends that charges be dropped and the President concurs, the case shall be considered closed.

(7) *Hearing by Board of Trustees.* Within 30 days after transmittal of the findings, conclusions, and recommendations of the Committee on Academic Freedom and Tenure, or, if the appointee filed no request for a hearing before that Committee, within fifteen days after the expiration of the period specified in paragraph (3) for the filing of such a request, the President may cause the charges to be filed with the Secretary of the Board of Trustees along with the findings, conclusions, and recommendations, if any, of the Committee on Academic Freedom and Tenure and the record of the hearing before the Committee, if one

was held. Notice of such filing of charges shall be delivered to the appointee personally or shall be mailed to him by the Secretary of the Board of Trustees by registered mail within five days after such filing. Within ten days after such delivery or mailing of notice of the filing of the charges with the Secretary of the Board of Trustees, the appointee may file with the Secretary of the Board a written request for a hearing before the Board of Trustees. Notice of the time and place of the hearing, which hearing shall be not less than twenty days after the date of the filing of the appointee's request, shall be delivered to the appointee personally or mailed to him by registered mail. The date of the hearing shall be not less than fifteen days from the date of such delivery or mailing of the notice of hearing to the appointee. The appointee shall have the right to appear at the hearing, with counsel, if he desires, to reply to the charges and to present evidence in his behalf. Counsel for the University shall represent the University administration at the hearing and shall have the right to present evidence in support of the charges. The Board shall not be bound by technical rules of evidence in hearing and deciding the case. The Board will give due consideration to the findings, conclusions, and recommendations of the Committee on Academic Freedom and Tenure, and in all cases where a report was made by the Committee will invite a member of the Committee designated by its chairman to attend the hearing before the Board and afford him an opportunity to make a statement.

If the Board concludes that the appointee should be dismissed or asked to resign, in designating the effective date of dismissal or requested resignation, the Board will give due consideration to the time reasonably required for the adjustment of the appointee's personal affairs. If a hearing is requested before the Board of Trustees, the Committee on Academic Freedom and Tenure may make at its discretion an appropriate report to the Senate.

(8) *Suspension.* An appointee may be suspended only under exceptional circumstances and with pay subject to the following provisions: a) The President may suspend before the filing of any charges only after giving notice to the chairman or, in the absence of the chairman from the Uni-

versity, to some member of the Faculty Advisory Committee that he believes that cause for dismissal may exist; b) If the President suspends after so giving notice to the chairman or some member of the Faculty Advisory Committee, or during consultation with the Faculty Advisory Committee, such suspension shall terminate within twenty days after that Committee has made its recommendations to the President unless the President initiates dismissal proceedings by the filing of charges for dismissal within that twenty-day period; and, c) If the President initiates dismissal proceedings by filing charges for dismissal, he may suspend the appointee, or may extend a previous suspension of the appointee, until the termination of those proceedings, or until the effective date of dismissal if the proceedings result in dismissal.

(9) Publicity. So far as possible public statements about a case under consideration should be avoided until completion of the proceedings.

[(f) Any member of the faculty of the University, who claims that termination of his services would violate principles of academic freedom, shall have the right to a hearing before the Committee on Academic Freedom of the appropriate Senate prior to a hearing, if any, before the Board of Trustees. Such hearings shall be conducted in accordance with established rules of procedure. The Committee shall make findings of fact and recommendations to the President of the University. The several Committees may, from time to time, establish their own rules of procedure.]

ACADEMIC FREEDOM

Sec. 39 (a) It is the policy of the University to maintain and encourage full freedom, within the law, of inquiry, discourse, teaching, research, and publication and to protect any member of the academic staff against influences, from within or without the University, which would restrict him in the exercise of these freedoms in his area of scholarly interest. The right to the protection of the University shall not, however, include any right to the services of the University's Legal Counsel or his assistants in any governmental or judicial proceedings in which the academic freedom of the staff member may be in issue.

JULY AND AUGUST MEETINGS

The Board has previously considered changing the date of its regular July meeting, and President Clement inquired if the Trustees wish to take any action at this time. He also asked if the Board desires to hold a regular meeting in August.

On motion of Mr. Swain, the Board voted to change the date of its regular July meeting from Wednesday, July 17, to Tuesday, July 2, 1963, this meeting to be held in Chicago.

On motion of Mr. Johnston, the Board voted to change the date of its August meeting from Wednesday, August 21, to Thursday, August 1, 1963, to be held in Chicago, with the understanding that if the volume of business does not justify holding a meeting of the full Board, the President will order it cancelled and will call a meeting of the Executive Committee which the other Trustees will be invited to attend.

President Clement reminded the Board that its regular September meeting will be held on Wednesday, September 18, 1963, and that this meeting should be held in Urbana.

At its annual meeting on March 20, 1963, the Board of Trustees of the University of Illinois adopted a resolution authorizing its President

and Secretary to delegate the signing of their names to vouchers to be presented to the Auditor of Public Accounts and to warrants drawn on the Treasurer of the University under the conditions specified in the resolution. The Secretary requests that this resolution be amended to include authorization of Virginia J. Hendrix and Catherine C. Cacioppo to sign his name as Secretary of the Board of Trustees to vouchers against the Auditor of Public Accounts and to warrants on the University Treasurer, covering vouchers approved in accordance with regulations of the Board.

On motion of Mr. Swain, the resolution of March 20, 1963, was amended as requested.

**LETTER FROM THE PRESIDENT OF THE UNIVERSITY OF ILLINOIS
CHAPTER OF THE AMERICAN ASSOCIATION
OF UNIVERSITY PROFESSORS**

President Clement called attention to a letter dated June 13, 1963, received by all members of the Board of Trustees from the President of the University of Illinois Chapter of the American Association of University Professors concerning the action of censure taken at the annual meeting of the Association. The following is an extract of the paragraphs in the letter pertinent to this matter:

"Those of us from this campus who were delegates to the Annual Meeting of the A.A.U.P. in San Francisco and those of us who were recently elected officers of the Urbana Chapter are deeply concerned about the effects of the censure and earnestly hope that events during the coming months will warrant removal of the censure at the next Annual Meeting in St. Louis. We believe that the great majority of the faculty share these views.

"In behalf of my colleagues, let me express the hope that the President and the Board of Trustees will be able to achieve an accommodation and understanding with the national officials of the A.A.U.P. so that Committee 'A' on Academic Freedom and Tenure will recommend removal of censure at the next Annual Meeting.

"The Urbana Chapter of A.A.U.P. has had a cordial and constructive working relationship with the University Administration for some years. We hope and expect that this relationship will continue unimpaired.

"Yours sincerely,
RICHARD C. WILCOCK
President"

President Clement has replied to this letter on behalf of the Trustees, and a copy has been filed with the Secretary.

EXECUTIVE SESSION

President Clement announced that an executive session has been requested and was being ordered for consideration of reports and recommendations relating to patentable inventions and property acquisitions; and that this session would be held after luncheon recess.

On motion of Mrs. Watkins, the Board recessed.

During the recess, a number of prominent citizens of Peoria were guests of the Board at luncheon and were introduced.

When the Board reconvened in executive session, the same members of the Board and officers of the University were present as reported at the beginning of these minutes.

The Board took up consideration of the following items of business.

RECOMMENDATION OF THE UNIVERSITY PATENT COMMITTEE

(1) The University Patent Committee submits, with the concurrence of the Chairman of the University Research Board, the following recommendation relating to an invention by members of the staff.

Over the past five years, ten patentable inventions have been developed in the Antenna Laboratory of the Department of Electrical Engineering. The inventors are Robert L. Carrel, former Research Assistant and Research Associate in Electrical Engineering (1955-60); R. H. DuHamel, former Research Assistant in Electrical Engineering (1947-50, 1952-56); D. E. Isbell, former Antenna Technician in Electrical Engineering (1957-59); John D. Dyson, Associate Professor of Electrical Engineering; and Paul E. Mayes, Associate Professor of Electrical Engineering. The rights of the University in these inventions have been transferred to the University of Illinois Foundation. The Foundation has applied for and obtained patents on certain of the inventions and has negotiated with the JFD Electronics Corporation, Brooklyn, New York, for the marketing of an antenna, which to some degree is based upon or includes certain novel features stated in all the inventions involved. It appears that income on licenses will be received from the JFD Electronics Corporation.

Based on information from the Department of Electrical Engineering concerning the degree of contribution of the inventors to the final product, the Patent Committee recommends that:

All income received on these antenna patents be pooled; and patent and development expenses incurred by the Foundation, past and future, be reimbursed or paid from such pooled sum.

After allowing for all expenses, 20 per cent of the amount thus received be allocated for payment to the inventors and 80 per cent be retained by the University of Illinois Foundation for its chartered purposes.

For the present, the sum allocated to the inventors be distributed: Robert L. Carrel, one-ninth; R. H. DuHamel, one-ninth; John D. Dyson, two-ninths; D. E. Isbell, two-ninths; and Paul E. Mayes, three-ninths.

It should be recognized, when approving the distributions to the inventors, that in all likelihood there will be additional inventions in the future further contributing to the improvement of the antenna being developed and marketed and that, accordingly, changes in or additions to the percentage distribution to the inventors may be necessary.

The Patent Committee therefore recommends approval by the Board of

Trustees of the stated percentage of allocation between the inventors and the University of Illinois Foundation and the percentage distribution of the sum allocated to the inventors, with the right of future revision as may be required to maintain the equities of the inventors involved.

I concur in this recommendation.

On motion of Mr. Swain, this recommendation was approved.

PURCHASE OF PROPERTIES

(2) The Director of the Physical Plant and the Vice-President and Comptroller recommend purchase, at the prices indicated, of the following properties needed to complete acquisition of a site for a graduate students residence hall:

- | | |
|--|----------|
| 409 East Daniel Street, Champaign..... | \$38 000 |
| A three-story and basement frame rooming house on a lot 57 feet by 173.25 feet. The owner will give immediate possession to the land required for construction south of the existing improvement and will give possession of the remaining part not later than July 1, 1965. | |
| 402 East Chalmers Street, Champaign..... | 35 000 |
| A three-story and basement frame house on a corner lot 51.5 feet on Chalmers Street, by 116.24 feet. Possession will be delivered to the University no sooner than February 1, 1964, nor later than September 1, 1964, dependent on the scheduled start of construction of the residence hall. | |

Funds are available in the state capital appropriations to the University from the 1961-63 Bond Issue and have been released.

The prices are consistent with the recommendations for the acquisition of these properties which have previously been submitted to and concurred in by the Committee on Buildings and Grounds.

The Board of Trustees, on February 20, 1963, authorized condemnation proceedings for acquisition of the property at 402 East Chalmers Street, Champaign, because the asking price was in excess of University appraisals. Through subsequent negotiations, the price indicated has been agreed upon, and it is within the limit authorized by the Committee on Buildings and Grounds. This price also appears to be the lowest at which the property can be acquired without condemnation proceedings.

I recommend authorization of these purchases; and further recommend that the Board rescind its resolution of February 20, 1963, with respect to condemnation proceedings for acquisition of the property at 402 East Chalmers Street, Champaign.

On motion of Mr. Pogue, the purchases of these properties, at the prices recommended, were authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Page.

ACQUISITION OF PROPERTY AT 1304 WEST STOUGHTON STREET, URBANA, ILLINOIS

(3) University representatives have been negotiating for the purchase of the property at 1304 West Stoughton Street, Urbana, a lot 40 feet by 132 feet (5,280 square feet) with a two and one-half story and basement frame building now used for apartments and for student rooms. The land is needed as part of the site for College of Engineering buildings, and specifically for the new Civil Engineering Building.

The owners were advised that a recommendation would be made to the Board of Trustees for the purchase of the property at a price of \$23,140, based on University appraisals, but the offer is not acceptable and the asking price remains substantially in excess of the highest University appraisal.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize condemnation proceedings for the acquisition of the property.

Funds are available in the state capital appropriations to the University for 1961-63 from the Universities Building Fund and have been released.

I concur and recommend adoption of the following resolution:

**Resolution Authorizing Condemnation of Property
at 1304 West Stoughton Street, Urbana, Illinois**

Be It, and It Is Hereby Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois, a body corporate and politic and a public corporation of the State of Illinois, that the following-described real estate situated in the County of Champaign, in the State of Illinois, to-wit:

The East Twenty-two (22) Feet of Lot Nine (9) in Block Fifty-one (51) of the Seminary Addition to Urbana, and the West Eighteen (18) Feet of Lot Ten (10) in Block Fifty-one (51) in the Seminary Addition to Urbana, situated in the City of Urbana, in the County of Champaign, in the State of Illinois:

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, for expansion of the facilities of the College of Engineering, as a site for a Civil Engineering Building addition, and for related educational purposes conducted and to be conducted by said University of Illinois and for the further expansion of the educational facilities of said University of Illinois and to enable said University of Illinois to discharge its duty to the people of said State and for public use; that funds have been appropriated by the General Assembly of the State of Illinois for the purchase of said land for said educational purposes; that this Board of Trustees has negotiated with the owners of said land through their duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but that said owner has refused to sell and convey said land, or any portion thereof, to said The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems unreasonable and excessive and is, therefore, unwilling and has refused to pay; and

Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land cannot be agreed upon between this Board of Trustees and the owners of said property and they and it are unable to agree upon the purchase price to be paid to said owners for the sale and conveyance of said land by said owners thereof to said The Board of Trustees of the University of Illinois; and

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owners thereof for such land cannot be agreed upon between them and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the owners thereof and any and all other persons who may have any right, title or interest in and to said land determined in the manner provided by law for the exercise of said right and power of eminent domain; and

Be It, and It Is Hereby Further Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction and that the Legal Counsel of the University be, and he is hereby, authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name and on behalf of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel, appraisers, and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Pogue, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Johnston,

Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kerner, Mr. Page.

**ACQUISITION OF PROPERTY AT 1103 WEST SPRINGFIELD AVENUE,
URBANA, ILLINOIS**

(4) University representatives have been negotiating for the purchase of the property at 1103 West Springfield Avenue, Urbana, a lot 49.5 feet by 132 feet (6,534 square feet) with a two-story and basement stucco house used as a residence by the owner and student rooms. The land is needed as part of the site for construction of the next unit of the Coordinated Sciences Laboratory.

The owners were advised that a recommendation would be made to the Board of Trustees for the purchase of the property at a price of \$28,800, based on University appraisals, but the offer is not acceptable and the asking price remains substantially in excess of the highest University appraisal.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize condemnation proceedings for the acquisition of the property.

Funds are available in the state capital appropriations to the University for 1961-63 from the Universities Building Fund and have been released.

I concur and recommend adoption of the following resolution:

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owners thereof for such land cannot be agreed upon between them and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right

(5) University representatives have been negotiating for the purchase of the property at 1103½ West Springfield Avenue, Urbana, a lot 30 feet by 132 feet (3,960 square feet) improved with a two-story and basement frame dwelling. The land is needed as part of the site for construction of the next unit of the Coordinated Sciences Laboratory.

The owners were advised that a recommendation would be made to the Board of Trustees for the purchase of the property at a price of \$17,500, based on University appraisals, but the offer is not acceptable and the asking price remains substantially in excess of the highest University appraisal.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize condemnation proceedings for the acquisition of the property.

Funds are available in the state capital appropriations to the University for 1961-63 from the Universities Building Fund and have been released.

I concur and recommend adoption of the following resolution:

CONTRACT WITH DEPARTMENT OF STATE. AGENCY FOR INTERNATIONAL DEVELOPMENT. FOR SERVICES TO SIERRA LEONE

(8) In the summer of 1962, a team from the government of Sierra Leone and the United States Agency for International Development Mission in that country visited the University of Illinois and conferred with University officials concerning the need for a land-grant type of institution in Sierra Leone. Subsequently, at the request of the AID, the University of Illinois sent a survey team¹ under the direction of Associate Dean Karl E. Gardner of the College of Agriculture to Sierra Leone to study the feasibility of a proposed union of two existing

¹ Karl E. Gardner, Associate Dean of College of Agriculture, and Professor of Nutrition, in the Department of Dairy Science, Chief of Party; Russell T. Odell, Professor of Soil Pedology in the Department of Agronomy; M. Ray Karnes, Professor of Education in the Bureau of Educational Research; James E. Crawford, Supervisor of Counseling and Operations in the Men's Residence Halls.

institutions, the Njala Training College for Teachers and the Njala Agricultural Experiment Station, as a nucleus for the new institution and to make recommendations.

The Sierra Leone Cabinet approved the report of this survey team and the University has now been asked to submit a proposal for a contract for educational services to that country in the building of the new institution somewhat along the lines of what the University has been doing in India.

The project is a long-term one and plans have been drawn in terms of a ten-year program. Submitted herewith is a memorandum prepared by the Director of International Programs which presents the program in greater detail. A copy of the memorandum is being filed with the Secretary of the Board for record. As indicated therein, it is anticipated that the University will be offered a contract in the near future and AID officials have asked that it be executed promptly.

I request authorization to execute this contract, subject to further action by the Board of Higher Education, since contract payments to the University in any one year may exceed \$250,000, the limit set by the Board of Higher Education for institutional commitments of this kind without reference to that Board.

On motion of Mr. Dilliard, authority was given as requested.

AMENDMENT OF GENERAL RULES CONCERNING UNIVERSITY ORGANIZATION AND PROCEDURE

(9) The Dean of the College of Physical Education has recommended authorization of a recreational program for faculty and staff of the University and their families, the program to be financed initially by a fee charged participants to pay the direct costs of the program. It involves the use of University facilities by faculty and staff families, and present regulations limit the use of recreational facilities to students and staff.

Accordingly, it is recommended that Section 21 of the "General Rules Concerning University Organization and Procedure" be amended by renumbering the present Section 21 (c) as Section 21 (d), and by adding the following as a new Section 21 (c):

"(c) Subject to the approval of the appropriate University authorities, University premises and facilities may be made available for use by members of the faculty and staff and their families provided such use does not interfere with the regular student educational programs of the University."

I concur.

On motion of Mrs. Watkins, this amendment was approved.

AMENDMENT OF RULES RELATING TO THE PAYMENT OF SALARIES

(10) The application of the ruling of the Attorney General relating to retroactive salary adjustments has been clarified. Originally, the University interpreted the ruling to mean that in most cases adjustments in salaries and wages could be effective only in the month in which they could be included on the usual payroll. Consequently, the Board adopted a rule that salary adjustments could be effective only in the month following the month in which notice of approval was received by the Business Office.

It has now been determined that such adjustments can be made effective upon the date when notice of change is received even though the adjustment is made in the subsequent payroll period.

Accordingly the Director of Nonacademic Personnel and the Vice-President and Comptroller recommend the Board approve the following rules relating to the effective date of salary changes:

NONACADEMIC

1. Effective Date of Prevailing Rate Changes

Wage rates accepted in accordance with University policy of paying prevailing rates, as set forth in Section III, paragraph 1, of the University Policy and Rules Relating to Compensation and Working Conditions of Nonacademic Employees, will become effective (1) on the date they are put into effect locally, or (2) on the first working day following the date appropriate University representatives receive (and verify), from one or more of the parties to

the agreement establishing a change in rates, official notice in writing that a specific rate is effective locally, whichever is later. (The section of the University Policy and Rules as noted above must be corrected.)

2. *Negotiated Agreements*

Wage rates established by negotiated agreements may become effective (1) on the first working day following the expiration of a collective agreement being renegotiated, provided the parties have reached agreement upon, and signed a new agreement prior thereto, or (2) on the first working day following the date on which all parties involved have indicated their willingness in writing to accept all conditions, including the rates or rate schedules, which become a part of the agreement, whichever is later, subject to approval of the Merit Board.

3. *Departmental Recommendations for Nonacademic Salary or Wage Amounts Determined by Other Than Prevailing Rate or Negotiated Group Agreements*

**AGREEMENTS WITH ILLINOIS BELL TELEPHONE COMPANY AND
NORTHERN ILLINOIS WATER CORPORATION FOR REROUTING
UTILITIES ON THE SITE OF THE PROPOSED CIVIL
ENGINEERING BUILDING**

(15) Construction of a new Civil Engineering Building will require the relocation of the Illinois Bell Telephone Company's main inter-city conduit, cables, and associated equipment located on the site of the building. In consideration of the proposed long-range development plans for the area north of Springfield Avenue, the Illinois Bell Telephone Company proposes to reroute its facilities completely out of the area to eliminate future interference with the long-range expansion. The University's share of the cost to reroute the Illinois Bell Telephone Company's conduit, cables, and equipment will be \$27,030.

Construction of the building will also require the relocation of the Northern Illinois Water Corporation's sixteen-inch main, which is the University's main source of water supply, from the east side of Romine Street to the west side of Romine Street. The main also reinforces the Company's system along Springfield Avenue, and should be relocated during the month of August when the University's demand for water is at a minimum. The estimated cost of relocation is \$7,623, but the University will be expected to pay the actual cost of the work.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize the Secretary of the Board and the Vice-President and Comptroller to execute the following, upon terms and conditions and in a form approved by the Legal Counsel:

An agreement with the Illinois Bell Telephone Company for the rerouting of conduit, cables, and directly associated equipment from the Civil Engineering Building site at a cost of \$27,030.

An agreement with the Northern Illinois Water Corporation for the relocation of its sixteen-inch main from the Civil Engineering Building site at the actual cost to the Corporation, estimated to be \$7,623.

Funds are available to finance the projects through the University Stores and Services Fund which will be reimbursed by the State Building Authority when bonds are sold.

I concur.

On motion of Mr. Swain, these agreements were authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; present but not voting, Mr. Hughes; absent, Mr. Kerner.

EASEMENT TO NORTHERN ILLINOIS WATER CORPORATION

(16) The Director of the Physical Plant and the Vice-President and Comptroller recommend that an easement be granted the Northern Illinois Water Corporation in order to relocate the Northern Illinois Water Corporation's sixteen-inch main, which is the University's main source of water supply, from the east side of Romine Street to the west side of Romine Street. It is necessary to relocate this water main to provide a site for the proposed Civil Engineering Building.

I concur and recommend adoption of the following resolution; and that the Comptroller and Secretary of the Board be authorized to execute the necessary documents subject to approval of the same by the Legal Counsel.

Resolution

Be It, and It Hereby Is Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the Comptroller and the Secretary of this Board of Trustees be, and they hereby are, authorized to execute, acknowledge, and deliver in the name and on behalf of this Corporation such instruments of conveyance, contract, or other document or documents as to them may seem necessary or desirable in order to grant to Northern Illinois Water Corporation, an Illinois corporation, hereinafter referred to as "Grantee," its successors and assigns, the right and easement to construct, reconstruct, operate, maintain, repair, alter, replace, move and remove a sixteen-inch (16") water line and other equipment appurtenant thereto, under, through and across the land hereinafter described and the right of ingress to and egress therefrom. Grantee shall agree to repair any damage to property of this Corporation by the construction, reconstruction, operation, maintenance, repairing, alteration, moving and removing of said water line which is caused by its negligence. The right-of-way easement shall remain in full force and effect from the date granted and for so long thereafter as said water transportation line is continued in service and has not been abandoned and discontinued. Upon termination of the easement Grantee shall peaceably surrender possession of said premises to this Corporation and full and complete title then shall remain in this Corporation free and clear of said easement. The right-of-way easement shall be over the following described property:

Situated in the State of Illinois, the County of Champaign, the City of Urbana in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 7 T19N R9E of the 3rd P.M. and being a strip of land 10.0 feet wide whose center line is described as follows:

Beginning at a point 108.0 feet west of the centerline of Romine Street and 19.1 feet north of the centerline of Main Street, both in the said City of Urbana, thence southerly along a line parallel to the centerline of said Romine Street, a distance of 402.6 feet to a corner, said corner being 39.0 feet distant south of the centerline of Stoughton Street in said City of Urbana; thence easterly along a line parallel to the centerline of said Stoughton Street, a distance of 75.0 feet to a point on the west property line of said Romine Street.

On motion of Mr. Hughes, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

EASEMENT FOR PIPELINE ON CARTER-PENNEL FARM

(17) The Dean of the College of Agriculture and the Vice-President and Comptroller recommend that an easement be granted on the Carter-Pennell Farm in Vermilion County to the Allied Gas Company in order to provide a pipeline to serve the Village of Rankin. The Company will pay \$2.00 a rod for the easement and \$2.00 a rod for crop damages, for a total of approximately \$960.00.

I concur and submit a formal resolution for adoption by the Board.

That part of the North half of the Northwest Quarter of Section 12, Township 23 North, Range 14 West of the Second Principal Meridian, lying between the center line of State Route No. 49 and a line drawn 50 feet East of and parallel with said highway center line, in Butler Township, Vermilion County, Illinois.

ALSO

That part of the North half of the Northwest Quarter of Section 12, Township 23 North, Range 14 West of the Second Principal Meridian, lying between the center line of an existing public highway (which extends East and West along the North line of said Section 12) and a line drawn 50 feet South of and parallel with said highway center line, in Butler Township, Vermilion County, Illinois;

to have and to hold in perpetuity or for so long as said Grant of Easement and Right of Way is used for said purposes, but said Grant to cease and determine and all rights granted thereunder to revert to said public corporation Grantor if Grantee or its successors or assigns should ever cease to use said rights for the purposes herein set forth; Grantee to place said gas main at an approximate depth of 30" below the surface of the grant, to repair or replace, in a workmanlike manner and at no expense to Grantor or any tenant of Grantor, all fences which may be damaged, all tile which may be cut, and any existing roadway crossings which may be interrupted by, the installation, maintenance, operation, replacement or removal of said gas main, to install suitable markers over the gas main at existing fence line crossings, and to pay reasonable compensation for all damages caused to crops and real and/or personal property upon the said premises by the installation, maintenance, operation, removal, replacement or removal of said gas main; in consideration of One Dollar and other good and valuable consideration to be paid to said public corporation prior to delivery of said Grant of Easement and Right of Way; and, on behalf of said public corporation, to make, execute, sign, acknowledge and deliver any and all other documents and papers which may be necessary to accomplish the purposes herein set forth.

On motion of Mr. Johnston, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

**LICENSE AGREEMENT WITH ILLINOIS CENTRAL
RAILROAD COMPANY**

(19) With construction of the Student Rehabilitation Center Building and relocation of the existing coal storage pile, the Illinois Central Railroad Company has requested permission to construct and use a driveway off Stadium Drive for access to the railroad right-of-way across University-owned land.

The Company plans to construct a twenty-foot wide concrete driveway and entrance and will regrade and replace the eight-foot sidewalk on each side of the proposed driveway. It will be available for use by the University for access to and egress from the Student Rehabilitation Center Building and other areas when construction is completed.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board authorize the Secretary of the Board and the Vice-President and Comptroller to execute a license agreement with the Illinois Central Railroad Company for the purpose indicated and in a form approved by the Legal Counsel.

I concur.

On motion of Mr. Pogue, execution of said license agreement was authorized; Mr. Johnston asked to be recorded as not voting.

PAPERBACK BOOKSTORE IN ILLINI UNION

(20) The availability of paperback books of quality, presenting a wide range of subjects, and the demand for them has increased to the point that an adequate stock of these books is now an essential part of the intellectual and cultural resources of a modern campus.

In November, 1962, a committee was appointed, with Robert B. Downs, Dean of Library Administration, Chairman, to determine whether student needs were being adequately serviced and to consider the establishment of a University-operated paperback bookstore or book center. The conclusions of the committee were as follows:

1. The University of Illinois is far behind other comparable universities in providing bookstore facilities for its students, faculty, and staff.
2. Although one of the local commercial bookstores in the University business district is expanding its operations to include a large stock of paperback books, and another store has a fair selection of paperbacks, neither the present nor the proposed commercial operations will be adequate to serve the University's needs.
3. In addition to the opportunity to purchase books, there should also be the opportunity for leisurely browsing and reading, and the selection of stock should include many titles which are not normally found in a commercial bookstore.
4. There is at present no satisfactory local outlet for University of Illinois Press books, and these should be stocked in a paperback bookstore.
5. There should be established in the Illini Union a book center limited to high-quality paperback editions of American and foreign works with an initial stock of 7,000 to 8,000 titles.

Following the report of the Committee, an analysis of the use of space in the Illini Union was made and it is concluded that the area now occupied by the Pine Lounge, the Browsing Room, and the Wedgwood Lounge in the west wing

of the first floor of the original building would be a suitable location for a paperback book center. It is believed that the area will lend itself to the establishment of an attractive integrated reading center in an educational and cultural atmosphere which can provide the required paperback facilities and concurrently provide a needed expansion of the Browsing Room. The center can be established with minimum alterations. The total capital cost including display equipment, furniture, and building alterations, is estimated at \$42,000.

It is therefore recommended that a paperback book center be established in the Illini Union, to be operated as a department of the Illini Union, with the University Library advising in the selection of appropriate book titles to be stocked and the capital cost to be financed through the Illini Union reserve funds.

On motion of Mr. Swain, this recommendation was approved.

HOSPITAL-MEDICAL-SURGICAL INSURANCE POLICIES FOR STUDENTS AND STAFF

(21) Bids have been received on the hospital-medical-surgical insurance programs for staff and students for the period beginning September 1, 1963, with the right reserved to renew such insurance annually thereafter upon mutual agreement between the insurance carrier and the University.

The Vice-President and Comptroller recommends award of a contract to the Federal Life Insurance Company, the lowest bidder, at the rates indicated below.

Staff Insurance

The premiums for participants in the staff programs will be the same for each campus:

	<i>Annual Premium to be Paid to Company</i>	<i>Annual Premium to be Paid by Insured</i>
Employee.....	\$ 42 12	\$ 44 00
Employee and Dependents.....	112 80	116 00

Student Insurance

The accidental death and dismemberment benefits under the current program are limited to required field trips off campus.

An option was included in the bid for providing this coverage to the students on a twenty-four-hour basis for the entire semester regardless of the student's activity for an additional premium of sixty cents per student per semester, or forty-five cents per quarter.

The current program now provides a hospital room and board allowance of \$14.00 per day at all hospitals, with the exception of McKinley Hospital, where the allowance is \$11.00 per day. The additional premium for increasing the daily benefit at McKinley Hospital to \$14.00 per day is thirty-seven cents per student per semester.

Alternate I in the bid provides a \$300.00 maximum Surgical Schedule in lieu of the current \$225.00 at Urbana, and a flat deductible of \$150.00 between the base plan benefits and the major medical benefit in lieu of a 50 per cent deductible with a maximum deductible of \$372.50.

Alternate II provided a \$200.00 deductible between the base plan and the major medical plan, and is less advantageous than Alternate I.

Fees to be paid by students at the three campuses are as follows:

	<i>Urbana Semester</i>	<i>Chicago Undergraduate Semester</i>	<i>Medical Center Quarter</i>
Student.....	\$10 00	\$ 9 00	\$6 00
Spouse.....	12 50	12 00	9 00
Child.....	9 00	8 00	6 00

The Vice-President and Comptroller recommends that the program for the Urbana students provide the benefits under Alternate I, including the \$14.00 per day hospital room and board allowance at McKinley Hospital, and that accidental death and dismemberment coverage on a twenty-four-hour basis be provided on all campuses. The Vice-Presidents for the Medical Center and the Chicago Undergraduate Division concur.

	<i>Premium Per Semester to be Paid to Company Chicago</i>		<i>Premium Per Quarter to be Paid to Company Medical Center</i>
	<i>Urbana</i>	<i>Undergraduate Division</i>	
Student.....	\$ 9 20	\$7 20	\$6 00
Spouse.....	12 10	9 75	9 00
Child.....	8 63	6 95	6 00

The excess over the cost of the coverage is to defray the administrative costs of the three programs and the cost of operating McKinley Hospital in excess of the amounts provided in the insurance policy. The additional cost of the twenty-four hour accidental death and dismemberment benefits at Urbana-Champaign and the Medical Center can be absorbed for the current biennium from balances accumulated in the administrative allowance with no change in the student fee. At the Chicago Undergraduate Division, it is necessary to increase the student fee from \$8.00 to \$9.00 a semester. The Vice-President and Comptroller and the Vice-President for the Chicago Undergraduate Division recommend that the service fee at that campus be reduced by \$1.00 for all students (from \$17.00 to \$16.00 for full-time students) so there will be no increase in total fees. The service fee will be distributed 32 per cent to Union Building operations and 68 per cent to Union Building replacement.

I concur in the above recommendations.

On motion of Mr. Swain, these recommendations were approved.

CONTRACT FOR MINOR BUILDING ALTERATIONS AND REPAIRS

(24) The Board of Trustees on June 19, 1963, authorized award of a cost-plus contract for minor building alterations, repairs, and construction work for the period July 1, 1963, through June 30, 1964, to Clarence H. Siems, Urbana, Illinois.

Mr. Siems has since stated that a serious illness in his family will prevent him from performing the work and has requested that he be permitted to withdraw his bid.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that Mr. Siems' request be granted, that the Board of Trustees rescind its action of June 19, 1963, authorizing execution of a contract with Clarence H. Siems, doing business as Clarence H. Siems Company, and recommend award of a cost-plus contract for minor building alterations, repairs, and construction work for the period July 1, 1963, through June 30, 1964, to the Dean Evans Company, Champaign, Illinois, the next lowest bidder.

I concur.

On motion of Mr. Johnston, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

**EQUIPMENT AND ACCESSORIES
FOR DIGITAL COMPUTER LABORATORY**

(25) The Director of Purchases, with the concurrence of the Vice-President and Comptroller, recommends authorization of a lease-purchase agreement with International Business Machines Corporation (through the Springfield, Illinois, office)

for equipment and accessories to up-date and expand the IBM 7090 computer system in the Digital Computer Laboratory which will include conversion of IBM 7090 to 7094 System, one IBM 1401 computer assembly, and accessories to provide additional input-output channel.

Agreement would provide for a monthly rental of \$11,024.00, option deposit of \$4,857.94, and a purchase price of \$492,419.00 if the University exercises the option to purchase, depending upon the availability of funds from a federal grant and from indirect costs received under government contracts. The prices are net free on board, delivered at Urbana after an educational discount of 60 per cent.

A supporting memorandum is submitted herewith, and a copy is being filed with the Secretary of the Board for record.

I recommend approval.

On motion of Mr. Swain, this purchase was authorized.

AMENDMENT OF HOUSING REVENUE BOND RESOLUTIONS

(26) The Housing Revenue Bond Resolution approved by the Board December 17, 1958, the First Supplemental Housing Revenue Bond Resolution approved June 23, 1959, and the Second Supplemental Housing Revenue Bond Resolution approved October 21, 1959, provide in the form of bonds that the bonds will be executed by the facsimile signature of the President and signed by the two members of the Board.

Subsequent to the adoption of these resolutions, the General Assembly passed the Uniform Facsimile Signature of Public Officials Act which provides that facsimile signatures can be used on any bond, so long as there is one manual signature. All the bonds are signed manually by the Secretary of the Board.

The Housing and Home Finance Agency has requested that coupon bonds be issued in exchange for fully registered bonds, and new bonds have to be printed. In order that the two members of the Board may have their facsimile signatures printed on the bonds in lieu of signing the bonds manually, the Vice-President and Comptroller recommends that the form of bonds of these three issues be amended to provide for their facsimile signatures.

I concur and recommend adoption of the following resolution:

Resolution

WHEREAS, The Board of Trustees of the University of Illinois has heretofore issued its Housing Revenue Bonds of 1958 Series A and B, its Housing Revenue Bonds of 1959 Series A, B, C, and D, under and pursuant to a Resolution (the "Resolution") duly adopted December 17, 1958, as supplemented by First and Second Supplemental Resolutions respectively, adopted June 23, 1959, and October 21, 1959; and

WHEREAS, said Resolution provides that Bonds issued thereunder shall be signed by the President and any two members of The Board of Trustees and shall have the seal of the University affixed thereto (or a facsimile seal or signatures as permitted by law); and

WHEREAS, it is now permitted by law that Bonds of this Board of Trustees be signed by the facsimile signatures of the President and two members of the Board but the forms of the Housing Revenue Bonds of 1958 and 1959 set forth in the Resolution and the said First and Second Supplemental Resolutions thereto recite that they have been executed by the facsimile signature of the President and signed by two of its members; and

WHEREAS, this Board of Trustees now desires to cause Bonds which are to be issued in exchange for outstanding Housing Revenue Bonds of 1958 and 1959 to be executed by the facsimile signatures of its President and two of its members.

Now, Therefore, Be It and It Is Hereby Resolved that all Bonds of The Board of Trustees of the University of Illinois issued or to be issued in exchange for outstanding Housing Revenue Bonds of 1958 Series A and B, and Housing Revenue Bonds of 1959 Series A, B, C, and D, may be executed by the facsimile signatures of the President and two members of the Board of Trustees and the officers of the Board of Trustees are hereby authorized and directed to make such changes in the final paragraph of the form of the Bond as shall be consistent with the manner in which it is executed and delivered.

Resolved Further that if the Bonds are executed by facsimile signatures of the President and two members of this Board of Trustees, the following language is hereby authorized and approved for the text of the final paragraph of each of the Bond forms:

"In Witness Whereof, The Board of Trustees of the University of Illinois has caused this bond to be executed by the facsimile signature of its President and two of its members, the corporate seal of the University of Illinois to be hereto affixed (or a facsimile thereof to be reproduced hereon), and attested by its Secretary, and this bond to be dated as of the day of, 19....."

On motion of Mr. Swain, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

FAIR EMPLOYMENT PRACTICES COMMISSION LEGISLATION

Mr. Dilliard moved that the Board of Trustees of the University of Illinois take approving notice of the passage by the Illinois Legislature of the new FEPC bill clarifying the relations between the Illinois FEPC and the state government of Illinois, and its subdivisions and other tax-supported units of government in Illinois, and that the Board of Trustees further pledge cooperation and support in fair employment practices, aims, and purposes in accordance with existing University policies.

This motion was adopted.

FUTURE BOARD MEETINGS

President Clement announced that the Board will hold its next meeting on August 1, 1963, in Chicago, Illinois, with the understanding that if the volume of business does not justify calling a meeting of the full Board, he will cancel the meeting and call a meeting of the Executive Committee.

The regular September Board meeting will be held on Wednesday, September 18, 1963, in Urbana.

The date of the regular October meeting would be Wednesday, October 16, 1963. The 1963 annual meeting of the Association of Governing Boards of State Universities and Allied Institutions which some of the Trustees may wish to attend will be held at Pennsylvania State University beginning October 16, and the Trustees may wish to consider changing the date of its October meeting.

The Secretary was instructed to poll the members of the Board regarding their choice of alternate dates and places for the meeting, with the understanding that the President may order a change in the date if it appears feasible.

EXECUTIVE SESSION

President Clement stated that an executive session was being requested for consideration of reports and recommendations relating to property acquisitions and appointments to the staff; and that no meetings of Board Committees have been scheduled.

On motion of Mrs. Watkins, the Board voted to go into executive session.

The Board considered the following reports and recommendations from the President of the University.

PURCHASE OF PROPERTY AT 1113 WEST ILLINOIS STREET, URBANA, ILLINOIS

(1) The Director of the Physical Plant and the Vice-President and Comptroller recommend the purchase of the property at 1113 West Illinois Street, Urbana, at a price of \$37,000, which is consistent with University appraisals.

The property is a lot 65 feet by 150 feet (9,750 square feet) and is improved with a two and one-half story and basement frame dwelling. The land is within the area needed as a site for the Center for Performing Arts.

The Committee on Buildings and Grounds has been consulted regarding this purchase, and recommends approval.

Funds are available in the state capital appropriations to the University and have been released.

I concur.

On motion of Mr. Hughes, the purchase of this property, at the price recommended, was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

PURCHASE OF PROPERTY AT 206 NORTH ROMINE STREET, URBANA, ILLINOIS

(2) The Board of Trustees on March 20, 1963, authorized condemnation proceedings for the acquisition of the property at 206 North Romine Street, Urbana.

Through subsequent negotiations, and prior to filing suit, a price of \$25,000 has been agreed upon for the purchase of this property, which is within the limit authorized by the Committee on Buildings and Grounds. It also appears to be the lowest price for which the property can be acquired without condemnation proceedings and incurring the resulting costs.

Funds are available in the state capital appropriations to the University from the Universities Building Fund and have been released.

I recommend authorization of this purchase, and further recommend that the Board rescind its action of March 20 with respect to condemnation proceedings.

On motion of Mr. Johnston, the Board rescinded its action of March 20 authorizing condemnation proceedings for the acquisition of this property, and authorized its purchase at a price of \$25,000; this action was taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

AIRPORT IMPROVEMENTS

(3) The Federal Aviation Agency has indicated its interest in proceeding with the installation of an Instrument Landing System (ILS) on the NW/SE runway at the University of Illinois-Willard Airport. This installation can be on land within Airport boundaries, or on land which the F.A.A. has under lease. The ILS installation will be at no cost to the University since it is a part of the improvements to the Interstate Airways System. The estimated investment of \$165,000 will improve the safety facilities of the Airport in bad weather.

The F.A.A. policy is to install Approach Lighting Systems (ALS) with an Instrument Landing System wherever practicable. The Agency requests, as a part of its proceeding with the ILS system, that the University formally express its intention of acquiring necessary property rights to permit the ALS installation eventually. The rights needed are approximately nineteen acres of fee title and avigation easements over approximately one hundred and fifteen acres, all land lying off the east and west ends of the NW/SE runway.

It is anticipated that the University will soon receive \$39,000 from the federal government for its share of the cost of property acquisition in extending the N/S runway. These funds should be adequate to provide for the additional property rights necessary for the ALS installation.

The Director of the Institute of Aviation recommends that the University: (a) request that the NW/SE runway be designated as the instrument runway and, (b) assure the Federal Aviation Agency that it is the intention of the University, subject to statutory and constitutional limitations binding upon it and to the availability of funds which may lawfully be used for such purpose, to proceed to acquire the necessary land and/or avigation rights on the NW/SE runway to meet the requirements for an instrument runway and provide facilities for an Approach Lighting System.

I concur.

On motion of Mr. Swain, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; present but not voting, Mr. Johnston; absent, Mr. Kerner.

At this point, on motion of Mr. Dilliard, the executive session was extended for consideration of personnel matters; and all University personnel, except members of the Board of Trustees, officers of the Board, the President, the Executive Vice-President and Provost, and the Legal Counsel of the University were excused from the meeting.

At the request of Mr. Pogue, the President and Executive Vice-President and Provost reviewed certain administrative decisions relating to the status of faculty and administrative personnel. Following this review and discussion, it was the consensus of the Board that no matter of Board policy was involved.

On motion of Mr. Williamson, the Board adjourned.

GRADUATE PROGRAM LEADING TO THE DEGREE OF DOCTOR OF PHILOSOPHY IN BIOLOGY

(6) On recommendation of the School of Life Sciences and with the concurrence of the Executive Committee of the Graduate College, the Urbana-Champaign Senate has recommended establishment of a graduate program leading to the degree of Doctor of Philosophy in Biology, for training graduate students in coordinated interdepartmental areas of biology.

Admission Requirements

A grade-point average of at least 3.75 for the last sixty hours of work.

Students entering the program must meet the admission requirements of the approved area of specialization and in addition have some general training in botany, microbiology, and zoology, with at least a year of college physics, chemistry through organic, and mathematics through analytic geometry.

Requirements for the Degree

College requirements: All students are required to fulfill the general requirements of the Graduate College, including residence, languages, preliminary and final examinations, and the thesis.

Individual programs: A student who elects to major in a particular area of biology and who satisfies the admission requirements in that area will pursue a program of graduate study planned in consultation with his major professor and subject to the approval of the area committee.

Administration of the Program

Major programs in specific areas must be approved by the Executive Committee of the School of Life Sciences, which consists of the Director and the heads or chairmen of the departments. No major program shall be approved until it has been discussed with the departments concerned in that particular area.

Responsibility for the supervision of programs in a major area will rest with an area committee. This committee will consist of an appropriate number of staff members appointed by the Director of the School.

Qualified students may elect as major adviser any staff member participating in the major curriculum. Doctoral committees are recommended by the chairman of an area committee and transmitted through the Director's Office to the Dean of the Graduate College.

¹George T. Frampton, Professor of Law, Chairman; Bernard J. Diggs, Professor of Philosophy; Max H. Fisch, Professor of Philosophy and Associate Member of the Center for Advanced Study; Norman Kretzmann, Assistant Professor of Philosophy; and Frederick L. Will, Professor and Chairman of the Department of Philosophy.

Catalog Entry

A student may receive a degree of Doctor of Philosophy in Biology with a major in one of the approved areas of specialization.

Applicants for admission must have a minimum grade-point average of 3.75 for their last sixty hours of work and must meet the admission requirements of the approved area of specialization; in addition, they should have some general training in botany, microbiology, and zoology, with at least a year of college physics, chemistry through organic, and mathematics through analytic geometry.

Individual programs are planned in consultation with the faculty adviser and are subject to approval by an area committee. Thesis research may be carried out with the direction of any of the participating staff members under the appropriate departmental research course listings. Students in the program are eligible for assistantships and fellowships in the appropriate department of their major adviser.

Inquiries concerning the program should be sent to the Director of the School of Life Sciences, 131 Burrill Hall.

The Board of Trustees has previously approved a recommendation from the Senate for a graduate program leading to the degree of Master of Science in the Biological Sciences.

Submitted herewith is a supporting statement concerning the proposal for the new degree, a copy of which is filed with the Secretary of the Board for record.

I concur in the recommendation of the Senate for the new program leading to the Doctor of Philosophy degree, subject to further action by the Board of Higher Education; and I further recommend that the title of the master's degree be changed to Master of Science in Biology to be consistent with the title of the Doctor of Philosophy degree.

On motion of Mr. Williamson, this recommendation was approved.

Representatives of the University

PROFESSOR VAN MILLER, College of Education

**RENEWAL OF LEASES AT NAVY PIER
FOR CHICAGO UNDERGRADUATE DIVISION**

(13) The University's leases with the city of Chicago for portions of Navy Pier and the adjacent Drill Hall and parking facilities for the University of Illinois Chicago Undergraduate Division expired June 30, 1963. As a result of negotiations with city officials it has been determined that the University may again renew the leases on the same terms on which the leases were renewed in 1960 and subsequently amended, except for the following changes which have been agreed to by the City:

- a. All provisions of the lease for the facilities used by the University on Navy Pier, excluding the provision for parking facilities in the vicinity of the Drill Hall, will be extended to January 1, 1965, with the University having the option to renew the lease on a month-to-month basis thereafter for a period of six months. The rental will be \$161,340 per year, a reduction of \$5,760 to cover the deletion of parking facilities to be transferred to the Drill Hall lease.
- b. All provisions of the lease for the Drill Hall will be extended to June 30, 1965, with the University having the option to extend this lease thereafter for three successive periods of one year each. Said lease will be amended to include the parking facilities in the vicinity of the Drill Hall being deleted from the Navy Pier lease. The rental will be \$31,000.08 per year, an increase of \$5,760 to cover the use of the parking facilities not previously a part of this lease.

The University's planning for the construction of the Congress Circle Campus anticipates beneficial occupancy by February 1, 1965, with completion in the spring.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize the Secretary of the Board and the Vice-President and Comptroller to execute renewals of the leases for the Navy Pier facilities on the terms set forth above.

I concur.

On motion of Mr. Swain, these leases were authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

**HOUSING AND HOME FINANCE AGENCY LOAN FOR CONSTRUCTION
OF SINGLE GRADUATE RESIDENCE HALL**

(14) The Vice-President and Comptroller and the Director of the Physical Plant recommend authorization of:

An application to the Housing and Home Finance Agency for a loan not to exceed \$2,500,000 for construction of a single graduate residence hall to be located at the northwest corner of Chalmers Street and Fifth Street, Champaign, with a capacity of approximately 465 students. The estimated cost is \$2,650,000;

A revenue bond issue of \$2,650,000, with at least \$150,000 to be sold publicly and the remainder (not more than \$2,500,000) to be sold to the Housing and Home Finance Agency. Interest and principal on the revenue bonds will be provided from rental income;

Employment of Chapman and Cutler, Chicago, as counsel for the bond issue; and Advertisements for bids on the construction of the residence hall and for the sale of the bonds at times deemed most appropriate by the Vice-President and Comptroller.

I concur.

On motion of Mr. Swain, these recommendations were approved, and authority was given as requested by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

**ADDITION TO CONTRACT FOR CONSTRUCTION
OF MEDICAL SCIENCES BUILDING**

(15) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$13,066.51 in the contract with Oman and Giden, Inc., Northfield, for the construction of the Medical Sciences Addition to install thirty-five cup sinks and associated piping and twelve utility service enclosures in the third floor laboratories.

These items were required and shown on the preliminary drawings but were unintentionally omitted in the preparation of the contract drawings. The architects state that the amount requested for the work involved is reasonable.

Funds for this work are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Pogue, this change in contract was authorized.

**ADDITION TO CONTRACT FOR CONSTRUCTION
OF ORCHARD DOWNS, FIRST ADDITION**

(16) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$13,460 in the contract with Shapland Construction Company, Champaign, Illinois, for additional paving for three bicycle storage areas and paving adjacent to the entrances at the fourteen buildings in the First Addition to Orchard Downs.

Funds are available in the construction budget.

I concur.

On motion of Mr. Johnston, this change in contract was authorized.

**CONTINUATION OF ATOMIC ENERGY COMMISSION CONTRACT
FOR RESEARCH IN ELEMENTARY PARTICLE PHYSICS**

(17) In June, 1962, the University entered into a contract with the Atomic Energy Commission to carry out research in elementary particle physics. Funds in the amount of \$871,000 have been provided to reimburse the University for all direct and indirect costs incurred during the period June 1, 1962, through September 30, 1963.

A proposal has been prepared requesting \$1,415,403 to support and expand this research project for a twelve-month period beginning October 1, 1963. Because of the substantial increase in the funds requested from the Atomic Energy Commission, the proposal must also be submitted to the Board of Higher Education for approval. The proposal has been approved by the Director of the Engineering Experiment Station, the Secretary of the University Research Board, and the Vice-President and Comptroller.

I recommend authorization of the application, subject to further action by the Board of Higher Education.

On motion of Mr. Swain, this recommendation was approved, and authority was given as requested.

**DEANSHIP OF COLLEGE OF ENGINEERING,
CHICAGO UNDERGRADUATE DIVISION**

(22) The Vice-President for the Chicago Undergraduate Division recommends the appointment of Dr. Robert B. Banks, presently Director of Research and Professor of Engineering at the Southeast Asia Treaty Organization Graduate School of Engineering, Bangkok, Thailand, as Professor of Fluid Mechanics on indefinite tenure and Dean of the College of Engineering for two years, beginning September 1, 1963, at an annual salary rate of \$21,000, on a twelve-month service basis.

This appointment is within the new organizational framework of the University of Illinois at Congress Circle authorized by the Board of Trustees on January 18 and February 15, 1961. Associate Professor Rupert M. Price of the Department of Physics has been serving as Acting Dean and will continue to serve until September 1.

This recommendation was submitted after consultation with the Academic Advisory Council at the Chicago Undergraduate Division, and with the Dean and several department heads of the College of Engineering at Urbana-Champaign. It is concurred in by the Executive Vice-President and Provost and the Dean of the Graduate College.

On behalf of the President of the University, I recommend approval.

On motion of Mrs. Watkins, this appointment was approved.

**UNIT VENTILATORS FOR CLASSROOM COMPLEX BUILDING
AT CONGRESS CIRCLE**

Mr. Pogue, for the Committee on Buildings and Grounds, presented the following report:

At the meeting of the Board of Trustees on May 15, 1963, when contracts for construction of Congress Circle were being awarded, a representative of a manufacturer of unit ventilators inquired why an alternate bid on the heating, piping, refrigeration, and automatic temperature control installations in the construction of the Classroom Complex Building at Congress Circle was not accepted since the alternate provided for a reduction in price. It is a standard practice to include alternates in bid documents as a safeguard in case base bids are in excess of engineering estimates of cost of the preferred type of equipment and construction, and the University reserves the right to accept or reject the alternates. Since bids on construction of Congress Circle in all cases were well within estimates, it was not necessary to select alternates on the basis of cost savings alone.

Officials of the company whose representative had raised the question requested a hearing. The Committee on Buildings and Grounds held a hearing on July 1, 1963, attended by representatives of the manufacturers concerned and Skidmore, Owings, and Merrill, Architects and Engineers, all of whom addressed the meeting. Examples of the unit ventilators were available for inspection.

After giving due consideration to the presentations made at this hearing, the Committee concluded that, due to the special conditions and requirements of the Classroom Complex Building, no changes should be made in the contract with respect to unit ventilators as awarded by the Board of Trustees on May 15, 1963.

On motion of Mr. Johnston, this report was accepted by the Board, without dissent.

LETTER FROM THE PRESIDENT OF THE UNITED STATES

President Clement presented a letter he received from President John F. Kennedy concerning the civil rights problem faced by this Nation —

and with special reference to equal educational opportunities and equal opportunities for employment—with the request that the letter be discussed with Mr. Clement's colleagues on the Board. Copies of President Kennedy's letter and of Mr. Clement's reply had been sent to all Trustees in advance of today's meeting, and copies have been filed with the Secretary of the Board.

The subject of the letter was discussed and University policies relating thereto were discussed.

HULL HOUSE RESTORATION

President Clement announced that Major Lenox R. Lohr, President of the Museum of Science and Industry and Chairman of the University of Illinois Citizens Committee, has accepted the post of General Chairman of the Jane Addams Memorial Fund of the University of Illinois campaign for the restoration of Hull House. Mr. C. E. Flynn reported informally on the status of the fund-raising campaign.

MEDICAL CENTER UNION

Dr. Joseph S. Begando made an informal report on the status of the campaign for funds for the Medical Center Union Building. He announced that Mr. Donald R. Grimes of the Class of 1928, and President of the Independent Grocers Alliance, has accepted the post of Chairman of the Committee to raise funds for this building.

FUTURE BOARD MEETINGS

President Clement announced that the next regular meeting will be held on Wednesday, September 18, 1963, in Urbana, at a place and according to a schedule to be arranged by him and the Secretary of the Board.

On motion of Mr. Williamson, the Board voted to change the date of the regular October meeting from the third Wednesday to Saturday, October 26, 1963, to be held in Urbana.

Consideration was also given to changing the date of the regular November meeting from the third Wednesday. It was the consensus of the Trustees that Tuesday, November 26, 1963, be tentatively reserved for that meeting, subject to a final decision later.

SECRETARY'S REPORTS

The Secretary presented for record the following lists: appointments to the faculty made by the President; appointments of fellows; resignations, cancellations, declinations, and termination; leaves of absence; changes in sabbatical leaves of absence; cancellation of sabbatical leaves of absence.

RECESS AND EXECUTIVE SESSION

President Clement announced that an executive session has been requested for consideration of reports and recommendations relating to property acquisitions.

On motion of Mrs. Watkins, an executive session was ordered, following a brief recess.

When the Board reconvened in executive session, the same members, officers of the Board, and officers of the University were present as recorded at the beginning of these minutes.

The Board considered the following matters of business.

PURCHASE OF PROPERTY AT 1206 WEST OREGON STREET, URBANA, ILLINOIS

(1) The Board of Trustees on June 19, 1963, authorized condemnation proceedings for the acquisition of property at 1206 West Oregon Street, Urbana, Illinois. Through subsequent negotiations, and prior to filing suit, a price of \$38,000

has been agreed upon for the purchase of this property, which is within the limit authorized by the Committee on Buildings and Grounds. It also appears to be the lowest price for which the property can be acquired without condemnation proceedings and incurring the resulting costs.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I recommend authorization of this purchase, and further recommend that the Board rescind its action of June 19 with respect to condemnation proceedings.

On motion of Mr. Pogue, the purchase of this property at the price recommended was authorized, and the resolution adopted by the Board on June 19, 1963, was rescinded; these actions were taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

FUNDS FOR THE PURCHASE OF MOVABLE EQUIPMENT

(2) As reported previously to the Board of Trustees, the Universities Building Fund (proceeds from funds secured from the sale of the State Bond Issue) may not be used to purchase movable equipment. The Board authorized a request to the Seventy-third General Assembly in the amount of \$4,779,500 for movable equipment for buildings financed by the State Bond Issue. The buildings include the following:

Urbana-Champaign

Addition to the Physics Building
Addition to the Library
Physical Plant Service Building
Addition to the Electrical Engineering Building
Turner Hall (Plant Sciences Building)
Addition to the Armory

Chicago Medical Center

Addition to the Medical Sciences Building

The General Assembly did not appropriate such funds to the University from the General Revenue of the state, but rather declared the movable equipment "to be in the public interest," which authorizes the Illinois State Building Authority to borrow funds to purchase the equipment and to lease it to the University.

Some of the above listed buildings can be occupied in the fall of 1963 if movable equipment is available but purchase orders must be placed promptly to insure such availability. The Illinois Building Authority has not yet developed its procedures to a point which will enable it to borrow funds in time to permit the fall occupancy of these buildings.

In consultation with the Illinois Building Authority, a procedure has been developed wherein the University of Illinois Foundation can secure short-term financing from the First National Bank of Chicago to buy approximately \$900,000 of the equipment needed for the buildings that will be ready for use this year. The Foundation would buy the equipment, lease it to the University of Illinois for a rental adequate to pay the Foundation's fiscal expenses, and, when the Building Authority is in a position to borrow money for movable equipment, it could then purchase the equipment from the Foundation and lease it to the University.

The First National Bank of Chicago has agreed to loan the Foundation up to \$900,000, the estimated cost of the equipment required, at an interest rate of 2½ per cent per annum.

The Vice-President and Comptroller recommends approval of this arrangement and requests authorization to execute a lease with the University of Illinois Foundation for movable equipment, the annual rental to be an amount equal to 2½ per cent per annum of the cost of the equipment and the term of which lease

would not extend beyond June 30, 1965. Funds for the payment of such rental are available in the General Reserve of the University.

On motion of Mr. Williamson, this recommendation was approved, and authority was given as requested by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

On motion of Mr. Johnston, the Board adjourned.

COOPERATIVE EXTENSION SERVICE IN AGRICULTURE AND HOME ECONOMICS

(7) The Seventy-third General Assembly of Illinois enacted a bill, approved by the Governor on August 5, 1963, for "An Act relating to the establishment of County Agricultural and Home Economics Extension Councils and County Extension Boards to cooperate with the University of Illinois College of Agriculture Cooperative Extension Service and the United States Department of Agriculture in conducting educational programs in agriculture, home economics, and subjects relating thereto in the several counties, and authorizing the levy of an annual tax therefore."

This law authorizes counties to raise funds for support of these programs by taxation if approved by referendum, or to assign funds for the purpose from general revenues of the county and to pay such funds to the University of Illinois. The law also gives the Board of Trustees of the University additional authority in carrying out the programs of cooperative extension.

Distinctive features of this law are: (1) recognition by the Legislature of the County Extension Councils; (2) establishment of Extension Boards to serve as liaison groups between the County Councils and County Boards of Supervisors (or Commissioners); (3) specific delegation of the University of Illinois as an agency eligible to receive county funds in the support of Cooperative Extension programs in the counties; and (4) removal of the limitation of \$5,000 on funds which County Boards of Supervisors or Commissioners may allocate from county tax funds in support of the Cooperative Extension programs in counties where the population exceeds certain numbers.

In the past, the Board of Trustees has delegated administration of the activities of the Cooperative Extension Service through the President to the Director of the Cooperative Extension Service and, although there are no major policy or operational changes involved in the implementation of this new county extension law, it is deemed advisable for the Board to reaffirm its previous delegation of responsibility. The Dean of the College of Agriculture and Director of the Cooperative Extension Service requests approval by the Board of Trustees of the following:

Delegation of Authority to the Director of Cooperative Extension to Carry Out the Provisions of the County Cooperative Extension Law

The recently enacted County Cooperative Extension Law authorizes the Board of Trustees to provide for the creation of county extension councils and boards. Heretofore the University has administratively created and supervised similar councils. The Dean of the College of Agriculture and Director of the Cooperative Extension Service recommends that pursuant to the County Cooperative Extension Law, the Director of the University of Illinois Cooperative Extension Service, under the President of the University, be directed and authorized to establish county extension councils and multi-county councils, to establish procedures for their operation substantially as provided in the Extension Council Guide, a copy of which has been approved by the President and is filed with the Secretary of the Board, to create county extension boards, and to carry out the other provisions of said Act on behalf of the Board of Trustees of the University of Illinois.

A copy of the Extension Council Guide is submitted herewith.

I concur.

The Secretary reported that since some preliminary steps to initiate the implementation of this program needed to be taken prior to September 1, 1963, the Executive Committee of the Board was consulted and gave interim authorization, subject to further action by the Board of Trustees.

On motion of Mr. Swain, the Board delegated authority to the Di-

rector of Cooperative Extension to carry out the provisions of the County Cooperative Extension Law.

The Service Classification recommended for the purchase of gas is No. V-3. This recommendation has been reviewed and concurred in by Sargent and Lundy, Consulting Engineers for the Heating Plant.

I concur.

On motion of Mr. Swain, this contract was authorized by the following vote: Aye, Mr. Clement, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; not voting, Mr. Johnston; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

**CONTRACT FOR ELECTRICAL SERVICE FOR HEATING PLANT
AT CONGRESS CIRCLE**

(9) The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of an agreement with Commonwealth Edison Company, Chicago, for the electrical service at the Congress Circle Campus, and that the University pay Commonwealth Edison Company the standard excess facility charges of \$12,920.

The planning for Congress Circle Campus construction requires installation of electrical service from Commonwealth Edison Company at the Heating Plant, 1100 South Morgan Street, Chicago.

Commonwealth Edison will supply electricity at 69 KV transformed to supply the University at 12 KV and 4 KV. The provision for 4 KV service (for the operation of large motors in the Heating Plant) is basically the reason for the excess facility charges of \$12,920. Sargent and Lundy, Consulting Engineers for the Heating Plant, estimated that the cost for supplying separate transformers to provide 4 KV service would be approximately \$40,000. By the acceptance of the excess facility charges, the University will save approximately \$27,000.

The demand and energy charges are the same as presently experienced at the undergraduate campus at Navy Pier, on a twenty-four month demand basis.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Swain, this contract was authorized by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

**CONTRACT FOR CONSTRUCTION AT

(10) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$29,826 to Robert Gordon, Inc., Chicago, the lowest bidder, for miscellaneous piping and equipment at the Power Plant Addition — Boiler No. 7.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

A supporting statement, including a schedule of all bids received, is submitted herewith, and a copy is being filed with the Secretary of the Board for record.

I concur.

On motion of Mr. Johnston, this contract was awarded by the fol-

lowing vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

**CONTRACT FOR AIR CONDITIONING ELECTRICAL
ENGINEERING BUILDING**

(11) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$73,941 to Reliable Plumbing and Heating Company, Champaign, the lowest bidder, this being the amount of the base bid plus alternates, for air conditioning the Electrical Engineering Building.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

A schedule of bids received is submitted herewith, and a copy is being filed with the Secretary of the Board for record.

I concur.

On motion of Mr. Swain, this contract was awarded by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

An agreement with the Northern Illinois Water Corporation for the extension of water service from the Water Corporation's 8-inch main in the right-of-way of Route 45 at the intersection of the A T & T Road and Route 45 east to the South First Street Road and north approximately 600 feet, on a cost basis but not to exceed \$11,760, for the main extension. In addition the University will pay on a cost basis for easements, meter vault, meter and service connection, and fire hydrants, or a total estimated cost of \$15,433.

A grant of right-of-way easement over the south 600 feet of the west 33 feet of the southwest quarter of section 30 township 19 north, range 9 east of the third principal meridian.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur and recommend adoption of the following resolution:

On motion of Mr. Johnston, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

**RENEWAL OF LEASE FOR SPACE AT 606½ EAST GREEN STREET,
CHAMPAIGN, ILLINOIS**

(13) The University of Illinois Foundation on July 9, 1958, entered into an agreement with Bailey and Himes, Inc., Champaign, for the rental of 2,400 square feet of space on the second floor at 606½ East Green Street, Champaign, Illinois, for a five-year period commencing September 1, 1958. The space is used by the College of Journalism and Communications for part of its Television-Motion Pictures operations.

The Foundation has subleased the space to the Board of Trustees of the University of Illinois for biennial periods on the same terms and conditions as outlined in the lease between the Foundation and Bailey and Himes, Inc.

In negotiations for renewal of the lease for an additional five-year period, the owner has stated that due to increased costs, a rental rate increase of \$192 per year would be necessary.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the University of Illinois Foundation be requested to renew the lease at the increased rental rate and that the Secretary of the Board and the Comptroller be authorized to execute a sublease agreement with the University of Illinois Foundation at the increased rental rate.

I concur.

On motion of Mrs. Watkins, this recommendation was approved, and authority was given as requested.

LEASES OF PROPERTIES FOR WOMEN'S HOUSING

The Executive Committee presented the following report:

All space in University residence halls for undergraduate women was assigned prior to August 1, and there were no vacancies in approved private housing facili-

ties for women. As a result, no additional permits to enter could be issued to undergraduate women unless additional housing facilities were found.

The Director of Housing, the Director of the Physical Plant, and the Vice-President and Comptroller recommend authorization of the leasing of the following properties on the terms and for the periods indicated for use as housing for undergraduate women students:

- 1007 South Fifth Street, Champaign, first semester of 1963-64, at a rental of \$2,475, with option to renew for the second semester at the same rate. This property will provide rooms and cooking privileges for twenty undergraduate women plus a house director.
- 1112 West California, Urbana, first semester of 1963-64, at a rental of \$2,485, to accommodate thirty-four undergraduate women plus a house director.
- 107 West California, Urbana, for one year from September 1, at a rental of \$18,000. This property is a new apartment building containing twelve two-bedroom apartments which will provide housing for forty-four undergraduate women plus a house director.

The rentals charged the occupants of these properties will be sufficient to cover the rental plus the operating costs.

A majority of the Board members authorized in writing the Executive Committee to approve these leases, and the Executive Committee authorized the Comptroller and Secretary of the Board to execute the leases.

This report is submitted for record.

**CONGRESS CIRCLE CAMPUS LAND TRANSFERS TO AND FROM
COMMONWEALTH EDISON COMPANY**

(24) At its April 17, 1963, meeting, the Board of Trustees authorized an arrangement with Commonwealth Edison Company whereby that company will contribute to the cost of certain work to be done by the University in erecting a screening wall around Commonwealth Edison's Vernon Park Substation in the area of the Congress Circle Campus and in refacing parts of the southerly portion of the substation building. At that time it was recognized that transfers of land between the University and Commonwealth Edison might be required to accomplish the work.

It has now been determined that the proper placement of the University's screening wall requires the acquisition by the University of approximately 106 square feet of land from the Commonwealth Edison Company at the northeast corner of its Vernon Park Substation which that Company is willing to sell to the University. It has also been determined that the refacing of the southerly portion of the substation wall will cause the same to encroach upon the University's property by approximately 106 square feet and Commonwealth Edison Company has requested that this area be sold to them. The Department of Urban Renewal of the city of Chicago has approved the sale of this land to Commonwealth Edison, as required by the University's contract with the City. A sales price of \$1.008 per square foot (the price at which the University acquired its property from the City) has been negotiated for each of the proposed transfers.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the foregoing purchase and sale transactions with Commonwealth Edison Company be authorized. Funds for the purchase are available in the State capital appropriations to the University from the Universities Building Fund.

I concur and recommend the adoption of the following resolution:

Resolution

Be It, and It Hereby Is Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the Comptroller and Secretary of this Corporation are authorized and directed to execute, acknowledge, and deliver, in the name and on behalf of this Corporation, a quitclaim deed and such other instruments of conveyance, contract, or other documents, and to provide such evidence of insurance of title, as to them may seem necessary or desirable in order to convey and quitclaim to Commonwealth Edison Company, an Illinois corporation, its successors and assigns, this Corporation's interest in and to the following described property, consisting of approximately 106 square feet located in the City of Chicago, County of Cook, and State of Illinois, upon payment by said Commonwealth Edison Company to this Corporation of the sum of \$106.85 as the consideration therefor:

Containing 106 Square Feet, more or less.

On motion of Mr. Johnston, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dillard, Mr. Hughes, Mr. Kerner.

EASEMENTS AND LICENSES RELATING TO CONGRESS CIRCLE CAMPUS

(25) The University's contract with the city of Chicago for the acquisition of the Congress Circle Campus site provides that certain public streets through and adjoining the campus will remain open and contemplates that the University will receive easements across some of these streets for pedestrian bridges and underpasses and for University utility lines. The city of Chicago has passed appropriate ordinances authorizing the grant of these easements to the University. Receipt of the formal easement documents is expected in the near future.

The acquisition contract also provides for the closing of other public streets and alleys, but permits the City to convey title to the University subject to necessary easements for underground utilities. Many of the existing city and public utility lines to remain on the site are situated in areas that were public streets and alleys which were vacated by ordinances of the city immediately prior to the conveyances to the University. These vacation ordinances reserve easements to the City and to utility companies to enable them to operate, maintain, replace, and renew existing service facilities at their present locations in the vacated streets and alleys, such easements to terminate upon the abandonment or release of the facilities or upon their relocation outside the vacated street or alley. In addition, the vacation ordinances for the streets and alley surrounding the Commonwealth Edison Company's Vernon Park Substation reserve to that company the right of access to the substation. The easements reserved in the vacation ordinances are in favor of the city of Chicago for its water, sewer, and fire alarm system lines; the Peoples Gas, Light, and Coke Company for its gas lines; the Commonwealth Edison Company for its electric lines (and access to its substation as noted above); and the Illinois Bell Telephone Company for its telephone lines. Descriptions of the specific locations of the utility lines in the vacated streets and alleys are being developed, and when these are available it is contemplated that the City and the various utilities will relinquish their rights in the portions of the vacated streets and alleys not required for the maintenance of the existing lines to remain in place.

In addition to the above easements reserved in the vacation ordinances, the City and the various utility companies will require new easements from the University so that certain utility lines can be relocated or routed over the site to accommodate the University's construction. For that portion of its fire alarm system that will be located in the University's utility tunnel, the City will require a license from the University. The locations of these new easements and licenses have been developed by the University's architects and engineers in cooperation with the City and each of the utilities involved. Also it may become desirable to grant new easements at the time the City and public utilities relinquish some of the areas covered by the vacation ordinances.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that, with respect to the portion of the Congress Circle Campus site now owned by the University, easements or licenses be granted to the city of Chicago for its water, sewer, and fire alarm lines, to Commonwealth Edison Company for its electric lines and access to its Vernon Park Substation, to Peoples Gas, Light, and Coke Company for its gas lines, and to Illinois Bell Telephone Company for its telephone lines.

I concur and recommend adoption of the following resolution:

Resolution

Be It, and It Hereby Is Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the Comptroller and Secretary of this Corporation are authorized and directed to execute, acknowledge, and deliver in the name and on behalf of this Corporation such instruments of grant, conveyance, contract, or other documents as to them may seem necessary or desirable in order to grant to the grantees and for the purposes hereinafter designated, easements or licenses under, through, and across those parcels of real estate, located in the City of Chicago, County of Cook, and State of Illinois, conveyed to this Corporation by City of Chicago, a municipal corporation of the State of Illinois, (a) by a certain deed dated April 19, 1963, recorded May 3, 1963, with the Recorder of Deeds of Cook County, Illinois, as Document 18786647 and filed in the office of the Registrar of Titles, Cook County, as Document LR 2089129, and (b) by a certain deed dated July 18, 1963, recorded August 1, 1963, with the Recorder of Deeds of Cook County, Illinois, as Document 18871166. Said grantees and purposes are as follows:

(1) City of Chicago, a municipal corporation of the State of Illinois for the purpose of accommodating its underground water, sewer and fire alarm system lines and facilities, together with appropriate access thereto;

(2) Peoples Gas Light and Coke Company, an Illinois corporation, for the purpose of accommodating its underground gas lines and facilities, together with appropriate access thereto;

(3) Commonwealth Edison Company, an Illinois corporation, for the purpose of accommodating its underground electric lines and facilities, together with appropriate access thereto, and for the purpose of providing said grantee suitable ingress and egress to said grantee's property adjoining or within said parcels of real estate; and

(4) Illinois Bell Telephone Company, an Illinois corporation, for the purpose of accommodating its underground telephone lines and facilities, together with appropriate access thereto.

On motion of Mr. Pogue, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner.

FUTURE BOARD MEETINGS

The Board has previously voted to change the date of the regular October meeting from the third Wednesday to Saturday, October 26, to be held in Urbana, according to a schedule to be arranged by the President and the Secretary.

On motion of Mr. Johnston, the Board voted to change the date of the November meeting from the third Wednesday to Saturday, November 23, according to a schedule to be arranged by the President and the Secretary.

At this point, Mr. Williamson asked to be excused from the meeting.

ASSOCIATION OF GOVERNING BOARDS

Mrs. Watkins reminded the Trustees that the annual meeting of the Association of Governing Boards of State Universities and Allied Institutions will be held at Pennsylvania State University, October 14 to 18, 1963. She stated that she is planning to attend and asked that other Trustees plan to do so.

RECESS AND EXECUTIVE SESSION

President Clement announced that an executive session had been requested, and was being ordered, for consideration of recommendations relating to property acquisitions and patentable inventions; and that this session would be held after a luncheon recess.

On motion of Mr. Swain, the Board recessed.

When the Board reconvened in executive session, the same members, officers of the Board, and officers of the University were present as recorded at the beginning of these minutes with the exception of Mr. Williamson, who joined the meeting later.

The Board proceeded to consider the following additional reports and recommendations from the President of the University.

PURCHASE OF PROPERTY AT 208 NORTH ROMINE STREET URBANA, ILLINOIS

(1) The Board of Trustees on April 17, 1963, authorized condemnation proceedings for acquisition of the property at 208 North Romine Street, Urbana, Illinois, required as part of the site for construction of the new Civil Engineering Building.

A price of \$29,000 has been agreed upon for the purchase of this property, which is \$250 above the amount authorized by the Committee on Buildings and Grounds but appears to be the lowest price for which the property can be acquired without condemnation proceedings and the resulting cost thereof.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of this purchase, and that the Board rescind its action of April 17, 1963, with respect to condemnation proceedings.

I concur.

On motion of Mr. Johnston, these recommendations were approved, viz: the purchase of this property, at the price indicated, was authorized; and the Board rescinded its resolution of April 17, 1963, authorizing the acquisition of the property through condemnation proceedings. These actions were taken by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner, Mr. Williamson.

ACQUISITION OF PROPERTY AT 1105 WEST SPRINGFIELD AVENUE. URBANA

(2) University representatives have been negotiating for the purchase of the property at 1105 West Springfield Avenue, Urbana, a lot 69 feet by 132 feet (9,108 square feet) with a two-story and basement frame house. The land is needed as part of the site for construction of the next unit of the Coordinated Science Laboratory.

The owners were advised that a recommendation would be made to the Board of Trustees for the purchase of the property at a price of \$20,000, based on University appraisals, but the offer is not acceptable, and the asking price remains substantially in excess of the highest University appraisal.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize condemnation proceedings for the acquisition of the property.

Funds are available in the state capital appropriations to the University for 1963-65 from the Universities Building Fund and have been released.

I concur and recommend adoption of the following resolution:

**Resolution Authorizing Condemnation of
Property at 1105 West Springfield Avenue, Urbana**

Be It, and It Is Hereby Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois, a body corporate and politic and a public corporation of the State of Illinois, that the following described real estate situated in the County of Champaign, in the State of Illinois, to-wit:

Lot Four (4) in Block Five (5) and the West three (3) feet of Lot Five (5) in Block Five (5) of the Urbana Railroad Company Addition to the City of Urbana also called Urbana Railroad Addition to the Town now City of Urbana and all of the West One-half (W ½) except the East Thirty (30) feet thereof of Lot Five (5) in Block Five (5) of the Urbana Railroad Company Addition to the City of Urbana, situated in the City of Urbana, in the County of Champaign, and State of Illinois.

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, for use as part of the site for construction of the next unit of the Coordinated Science Laboratory, and for related educational purposes conducted and to be conducted by said University of Illinois and for the further expansion of the educational facilities of said University of Illinois and to enable said University of Illinois to discharge its duty to the people of said State and for public use, that funds have been appropriated by the General Assembly of the State of Illinois for the purchase of said land for said educational purposes; that this Board of Trustees has negotiated with the owners of said land through their duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but that said owner has refused to sell and convey said land, or any portion thereof, to said The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems unreasonable and excessive and is, therefore, unwilling and has refused to pay; and

Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land cannot be agreed upon between this Board of Trustees and the owners of said property and they and it are unable to agree upon the purchase price to be paid to said owners for the sale and conveyance of said land by said owners thereof to said The Board of Trustees of the University of Illinois; and

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owners thereof for such land cannot be agreed upon between them and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the owners thereof and any and all other persons who may have any right, title or interest in and to said land determined in the manner provided by law for the exercise of said right and power of eminent domain; and

Be It, and It Is Hereby Further Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefore determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction and that the Legal Counsel of the University be, and he is hereby, authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name and on behalf

of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefore, and to employ such special legal counsel, appraisers, and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Swain, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Dilliard, Mr. Hughes, Mr. Kerner, Mr. Williamson.

On motion of Mrs. Watkins, the Board adjourned.

MEETING OF THE EXECUTIVE COMMITTEE

Following adjournment of the Board, on call of the Chairman, the Executive Committee of the Board of Trustees of the University of Illinois met at the request of the President of the University to consider a special item of business which had been submitted to him too late for presentation to the full Board. The following, constituting all members of the Executive Committee, were present: Mr. Howard W. Clement, Chairman, Mr. Wayne A. Johnston, and Mrs. Frances B. Watkins. President David D. Henry and the other officers of the University were present, including, for the business of this meeting, Dean William L. Everitt of the College of Engineering, and Mr. John J. Desmond, Assistant Director of the Engineering Experiment Station.

THE MIDWEST ELECTRONICS RESEARCH CENTER

At the request of President Henry, Mr. Costello, Legal Counsel, presented the following report and recommendation:

On April 17, 1963, the Board of Trustees approved, in principle, the establishment of the Midwest Electronics Research Center and granted authority to negotiate contracts for the Visiting Industrial Associates Program under the Midwest Electronics Research Center. This action was subject to the approval of the State of Illinois Board of Higher Education which was subsequently granted on July 2, 1963.

Article 6 of an "Agreement for a Resident Program of Visiting Associates from Industry" contained the following language:

"All inventions, discoveries, and developments resulting from the work of the research program in which the Visiting Industrial Associate is participating, whether or not patentable, shall be and become the property of University; provided, however, that in the event the Visiting Industrial Associate is the inventor or co-inventor of such invention or inventions, Company shall be granted appropriate preferential treatment to be determined by University after taking into consideration the extent of the contribution of the Visiting Industrial Associate and to the extent permitted by contractual commitments by University to sponsors of the on-going research."

In negotiations with industry, it has been determined that this language is generally unacceptable and that a predetermination of "preferential treatment" is required as a part of the contract.

It has been determined that the following language would be more acceptable to industry; therefore, the Dean of the College of Engineering recommends that approval be given to this revision in the contract.

"All inventions, discoveries, and developments resulting from the work of the research program in which the Visiting Industrial Associate is participating,

whether or not patentable, shall be and become the property of University; provided, however, that in the event a Visiting Industrial Associate is the inventor or co-inventor of such invention or inventions, title shall vest in University and to the extent permitted by contractual commitments by University to sponsors of the on-going research, Company may retain a royalty free, non-exclusive license with the additional right to sub-license to a supplier or other company where the purpose of said sub-license is for the manufacturing or developing of products for the sole use of the Company. The right to sub-license for purposes other than the sole use of the Company requires advance request by Company and approval by University in writing."

All University officers concerned have been consulted and have approved, with Legal Counsel reserving the right to draft the precise language to be used.

President Henry stated that he concurs.

On motion of Mr. Johnston, this recommendation was approved.

The Executive Committee adjourned.

**CONTRACTS FOR CONSTRUCTION OF MATERIALS
RESEARCH LABORATORY, PHASE II**

(11) Submitted herewith is a report from the Physical Plant Department on the construction of the Materials Research Laboratory, Phase II, including a schedule of the bids received, a copy of which is filed with the Secretary of the Board for record.

The First National Bank of Chicago has agreed to loan the University of Illinois Foundation \$4,500,000 at 2½ per cent interest over a twelve-year period to finance that portion of the total cost which will be repaid by the Atomic Energy Commission and Advanced Research Projects Agency. The total cost of the building, including architectural costs and Phase I of the construction previously approved by the Board, is estimated at \$4,750,000. The Vice-President and Comptroller and the Executive Vice-President and Provost recommend that \$250,000 of the costs for Phase I and architectural services, temporarily financed from indirect costs, be provided from funds which are available in state capital appropriations.

The Vice-President and Comptroller also recommends that the construction bids be assigned to the University of Illinois Foundation, that the site be leased to the Foundation for a period of thirty years, that the Foundation be requested to borrow funds for construction from the First National Bank of Chicago, and lease the property back to the University for biennial periods at rental sufficient to cover interest, principal, and other costs to the Foundation.

I concur and recommend adoption of the following resolution:

WATER RESOURCES CENTER

(14) The Acting Dean of the Graduate College recommends that a Water Resources Center be established at the University of Illinois and that it be administered by the Graduate College. The Executive Vice-President and Provost concurs in this recommendation.

The Center will encourage and coordinate university-wide planning and implementation of interdisciplinary programs for research and graduate education in water resources. The interests of the Center will encompass current and future programs of water resources within the various academic departments of the University and cooperating agencies, including the State Water Survey and the other state surveys. The administration of water resources programs will continue to be the responsibility of the academic departments and cooperating agencies.

The Center will administer funds assigned or granted to it. It will review proposals and allocate such funds to the cooperating departments and agencies for the development of programs on water resources. As a unit of the Graduate College, the Center will review grant proposals made to outside agencies or to University sources for the support of water resources programs and will recommend appropriate action on such proposals. Finally, for purposes of information, coordination, and referral, the Center will maintain a current file of all water resources programs of the University and the cooperating agencies.

The Center will be administered by an Executive Committee through a Director. The Dean of the Graduate College will appoint the members of the Executive Committee, which consists of the Directors of the Agricultural and the Engineering Experiment Stations, a representative of the College of Liberal Arts and Sciences, and two members representing other participating units and agencies. The Dean of the Graduate College, with the advice of the Executive Committee, will appoint a Director of the Center who will then become a member of the Executive Committee and serve as its secretary. The Executive Committee will give policy and broad program direction to the work of the Center and will establish a standing technical advisory committee and other groups as needed to consider specific problems or activities related to water resources programs.

I concur.

On motion of Mr. Swain, this recommendation was approved.

SUPPLEMENTAL ANNUITIES FOR RETIRED UNIVERSITY PERSONNEL

(15) The University Retirement System of Illinois was created by an Act of the General Assembly of Illinois approved June 21, 1941, and began operating on September 1, 1941. Since then, it has provided the retirement, disability, death, and survivor benefits for all members of the faculty and other employees of the six state-supported institutions of higher education, the state scientific surveys, and certain auxiliary state agencies such as the System itself. All benefits accruing to the personnel covered by the System are defined by state law; and any changes in benefits are pursuant to legislative action.

Prior to the establishment of the University Retirement System, the Board of Trustees of the University of Illinois established a program and policies, which became operative September 1, 1925, providing for payment of retirement and death benefits from University funds. All personnel who retired prior to September 1, 1941, have received their benefits from this University of Illinois System, and those still living continue to receive their retirement benefits from University funds.

Retirement benefits, then as now, were based upon salaries paid during the last several years of active service and the period of such service. It is apparent that the retirement annuities determined by salaries which were being paid in 1941 are wholly inadequate when measured by present costs of living. The same is true, although perhaps in most cases to a somewhat lesser extent, of annuities being paid to those who retired after September 1, 1941, under the University Retirement System of Illinois prior to the increases in benefits established by the amendments to the Act made by the General Assembly in 1959. While the University may supplement the annuities of those who retired under the University of Illinois System established in 1925, and which is under the sole jurisdiction of the Board of Trustees of the University of Illinois, action to improve the benefits of those who retired under the University Retirement System of Illinois requires specific authorization of the General Assembly.

The Seventy-second General Assembly of Illinois established a precedent for supplemental annuities of employees after retirement by an Act providing for additional annuities for teachers in the State Teachers and the Chicago Teachers Retirement Systems, the constitutionality of which law has been upheld by the Supreme Court of Illinois. Under that law, retired teachers are permitted to purchase additional annuities to bring their total retirement benefits to a maximum of \$50 a year for each year of service but in no event in excess of \$2,250 per year. For such supplemental benefits the individual is required to make a payment of \$5 for each year of credited service at the time of retirement into a separate fund to which fund the state also contributes. The supplemental benefits are payable only out of that fund.

Since University of Illinois personnel who retired prior to September 1, 1941, are under a retirement system which was established and has been operated solely by the University, the Board of Trustees may act to supplement the benefits of such retired personnel without state legislation; and the precedent cited above justifies such action as a matter of policy. Seven members of the University faculty and other employees who retired prior to September 1, 1941, and who are still living, are eligible to purchase supplemental annuities if the formula used for those who retired under the State and Chicago Teachers Systems is applied. The totals of the annuities of these seven retired staff members would thus be supplemented by \$4,510 per year. Initial payments required of them would total \$1,021.26, resulting in a net cost of \$3,488.74 during the first year. Based on the life expectancy of these individuals, the total program would cost approximately \$17,116 to be paid over a period of years.

The Vice-President and Comptroller recommends that the Board approve the establishment of such a program of supplementary retirement benefits on a basis comparable to that provided by the Seventy-second General Assembly for retired personnel under the State Teachers and the Chicago Teachers Retirement Systems, and authorize the payment into such separate fund such amounts as may be necessary to pay the net cost of said supplemental annuities from funds received for reimbursement for the indirect costs of operation of research and service contracts. This proposal has been considered by the Committee on General Policy which recommends approval.

I concur.

On motion of Mr. Johnston, this recommendation was approved, and the assignment of funds required for supplemental annuities was authorized; this action was taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

UNITED STUDENT AID FUNDS, INCORPORATED

(16) The Board has authorized a contract with the United Student Aid Funds, Incorporated, whereby deposits made with that agency by the University guarantee loans obtained by its students from banks in their home areas.

Of the \$5,000 authorized, \$2,000 was advanced in May, 1963, by the University of Illinois Foundation to the University, which was then deposited with USA Funds and, when matched by an equivalent amount by the USA Funds, made possible loans aggregating \$50,000. This amount was completely loaned within a few weeks.

Authorization is requested to accept an additional \$10,000 from the Foundation for this purpose and to deposit it with the USA Funds as required, which will result in a total authorization of \$15,000. While USA Funds can give no assurance at present as to what amount, if any, can be assigned by it to match the University contribution, each dollar of the deposit, consisting of the University advance and USA Funds matching funds, is used by USA Funds to guarantee \$12.50 in loans obtained by students from their local banks.

On motion of Mrs. Watkins, authority was given as requested.

REPORT ON "A MAJOR STREET AND HIGHWAY PLAN FOR THE CHAMPAIGN-URBANA AREA"

(21) In March, 1961, "A Major Street and Highway Plan for the Champaign-Urbana Urban Area" was presented to local government and University officials and other interested parties of the community. This report had been prepared for the Illinois Division of Highways by the firm of Harland Bartholomew and Associates, St. Louis, Missouri.

The Plan has been studied extensively by various units concerned in the University and a report of University reactions has subsequently been made to both the cities of Champaign and Urbana. A copy is being filed with the Secretary of the Board.

The city of Champaign has officially approved and adopted the report for future planning. The city of Urbana is in the process of doing so.

It is now recommended that the Board of Trustees approve in principle "A Major Street and Highway Plan for the Champaign-Urbana Area" for planning purposes, and the University's participation in the planning organization to be established for this area, which organization is required by the Federal-Aid Highway Act of 1962.

At the request of President Henry, the foregoing recommendation was presented by Director C. S. Havens of the Physical Plant Department, and Dr. John E. Baerwald, Director of Highway Traffic Safety Center and Professor of Traffic Engineering. Professor Baerwald discussed the plan in detail, illustrating his presentation with slides.

On motion of Mr. Johnston, the recommendations were approved.

FUTURE BOARD MEETINGS

President Clement reminded the Trustees of their previous action changing the date of the regular November meeting from the third Wednesday to Saturday, November 23, 1963, to be held in Urbana, and inquired if the Board desires to consider any other date. Following discussion, it was the consensus of the Trustees that the meeting should be held on November 23 as now scheduled.

The regular December meeting of the Board is scheduled for Wednesday, December 18, and President Clement announced that the Trustees have the annual invitation from the officers of the First National Bank of Chicago to hold the meeting at the Bank.

MEETING OF ASSOCIATION OF GOVERNING BOARDS

Mrs. Watkins reported informally and briefly on the 1963 annual meeting of the Association of Governing Boards of State Universities and Allied Institutions at which she, Mr. Dilliard, and the Secretary, Mr. Janata, represented the Board of Trustees of the University. Mr. Dilliard also commented on this meeting.

Mrs. Watkins stated that she would send a formal, written report to all the Trustees later and a copy would be filed with the Secretary.

RECESS AND EXECUTIVE SESSION

President Clement announced that an executive session has been requested and would be ordered for consideration of reports and recommendations relating to property acquisitions; and that this session will be held immediately after luncheon recess.

At 11:15 a.m., on motion of Mr. Swain, the Board recessed.

INSPECTION OF PHYSICS BUILDING

During the recess, the Trustees and officers of the University visited the new Physics Building for an inspection. Professor G. M. Almy, Associate Head of the Department of Physics, Professor Robert J. Maurer and Associate Professor George A. Russell, of the Department, conducted the inspection tour.

GUESTS OF HONOR AT LUNCHEON

Following inspection of the Physics Building, the Trustees returned to the Illini Union for luncheon. State Senator Everett R. Peters, and State Representatives Charles W. Clabaugh, Edwin E. Dale, and Leo Pfeffer were guests of honor of the Board at luncheon. Presidents Clement and Henry expressed on behalf of the Trustees and other officers of the University appreciation of the services of the Senator and Representatives to the University during the session of the Seventy-third General Assembly of Illinois. The guests of honor responded briefly.

SITE FOR UNDERGRADUATE LIBRARY

Mr. Ambrose Richardson, Consulting Architect, presented sketches of a preliminary study of a new undergraduate library building at Urbana-Champaign showing how such a building could be constructed below grade in the quadrangle between the Auditorium and the Stock Pavilion and connected with the University Library. He illustrated his presentation with slides.

On recommendation of President Henry and on motion of Mr. Swain, this proposal was referred to the Committee on Buildings and Grounds for consideration and report.

DESIGN OF CHILDREN'S RESEARCH CENTER

Mr. Richardson presented the proposed design for the Children's Research Center to be constructed in the area which has been set aside for the Mental Health Building.

On motion of Mr. Johnston, this design was approved.

EXECUTIVE SESSION

The Board reconvened in executive session at 1:30 p.m. and the same Trustees and officers of the University were present as recorded at the

beginning of these minutes with the exception of Mr. Ray Page who asked to be excused and Mr. John A. Baerwald and Mr. Ambrose Richardson, whose services were not required.

The Board proceeded to consider the following reports and recommendations submitted by and on behalf of the President of the University.

VACATION OF STREETS AND ALLEYS BY THE CITY OF URBANA

(1) The Committee on Buildings and Grounds of the Board of Trustees has recommended payment to the city of Urbana of \$147,345 for the vacation of Romine Street between Springfield Avenue and Main Street; Stoughton Street between Romine Street and Mathews Avenue; and the alleys in the two blocks bounded by Springfield Avenue, Mathews Avenue, Main Street, and Romine Street. Such vacations by the City would have the effect of vesting in the University title to the areas vacated.

The areas will be vacated in two parts, namely Romine Street and the west part of the alley in the block bounded by Stoughton, Romine, Main, and Mathews, conditioned upon the payment of \$92,895.00; and Stoughton Street and the alley in the block bounded by Stoughton, Romine, Springfield, and Mathews, conditioned upon a payment of \$54,450. The latter vacation will take place after the University's completion of acquisition of contiguous land.

The city of Urbana has since requested that prior to enactment of the city ordinances that would vacate the streets and alleys subject to payments being made, the Board of Trustees take action to authorize such payments.

It is recommended that the Board of Trustees approve the proposal to the City for vacation of the areas and authorize payments of the amounts required by the City when the ordinances are passed.

Funds are available from the state capital appropriations to the University for the 1963-65 biennium.

I concur.

On motion of Mr. Swain, this recommendation was approved, and authority was given as requested by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

PURCHASE OF FARMLAND SOUTH OF BONDVILLE

(2) In 1957, lease arrangements were completed for the use of a forty-one-acre tract, four miles south of Bondville, Illinois, as a site for a radio direction-finding facility for the Department of Electrical Engineering. This land was purchased by a private company and leased to the University with the lease cost paid from a research contract with the United States Navy. The University has the option to buy the site at any time before the expiration of the lease in 1972 at a cost not to exceed \$18,245.

Two tracts totaling 210 acres are now required for immediate expansion of the research facility and additional land will be required in the future to control construction of fences, metal buildings, and possibly high-growing crops, all of which interfere with the research program. The total land required, including the forty-one acres now leased to the University, is approximately 480 acres.

Negotiations have been under way for acquisition of the two tracts of land required for immediate expansion:

Tract A — Approximately 130 acres north of the original forty-one acres described as:

The North Half of the Northeast Quarter of Section Two, except a strip one rod wide off the full south end thereof, containing 88.78 acres more or less, and the North Half of the East Half of the Northwest quarter of said Section Two, except one square rod in the Southeast corner thereof, containing 41.48 acres more or less, all in Section Two Township 18 North, Range 7 East, of the Third Principal Meridian, in Champaign County, Illinois.

The owner will sell for \$90,000 but retaining for three crop years the right of occupancy of not less than eighty acres of land.

Tract B—Approximately eighty acres east of the original forty-one acres described as:

The South Half (S½) of the Northeast Quarter (NE¼) of Section 2, Township 18 North, Range 7 East of the Third Principal Meridian.

The owner will sell for \$64,000 and give immediate possession to the University.

The prices are the lowest prices for which the properties can be acquired without condemnation proceedings and the resulting costs thereof.

Funds are available from undistributed indirect costs received under Navy contracts.

The Vice-President and Comptroller recommend that the Board authorize the purchase of the above two properties at the prices and terms outlined above.

I concur.

On motion of Mr. Swain, these purchases were authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

ACQUISITION OF PROPERTY AT 603 EAST DANIEL STREET, CHAMPAIGN, ILLINOIS

(3) The Board has authorized and the University is in the process of acquiring by condemnation the property at 605 East Daniel Street, Champaign (commonly referred to as the Cosmopolitan Club). The adjoining property at 603 East Daniel Street, Champaign (commonly referred to as the Thunderbird Restaurant property) is also required for the University's campus expansion and is under common ownership with the Cosmopolitan Club.

Officials of the University have carefully reviewed the various alternatives available to the University with regard to the acquisition of the Thunderbird property and have concluded that: (1) funds are now available which can be budgeted for this purpose; (2) if it is necessary to institute condemnation proceedings on this property, it would be desirable to consolidate such proceedings with the pending Cosmopolitan Club condemnation; and (3) the acquisition of the property at this time would be in the best interests of the University.

The Thunderbird property consists of a lot 43.68 feet frontage on Daniel Street by 73 feet deep, and is improved with a restaurant occupying most of the land area. The original building was a three-story and basement frame rooming house to which has been added a frame dining room two stories high, a one-story masonry side entrance, and a second-story addition at the rear of the property used as a dining room. The basement has been remodeled into a "rathskeller."

The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize the acquisition of this property by negotiation at a price not to exceed \$100,000. They further recommend that if the University is unable to acquire the property by negotiation, the Board authorize the Executive Committee to adopt a resolution for institution of condemnation proceedings for the acquisition of this property. This resolution was distributed to the members of the Board of Trustees, and a copy was filed with the Secretary of the Board for record.

Funds are available in the state capital appropriations to the University for 1963-65 from the Universities Building Fund.

I concur.

On motion of Mr. Johnston, the foregoing recommendations were approved and authority was given as requested; this action was taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

ACQUISITION OF FARMLAND IN LA SALLE COUNTY

(4) In 1955, Miss Laura Weber gave to the University 640 acres of farmland in La Salle County. Included in the gift is a 160-acre farm in Waltham Township, north of Utica. On November 21, a 160-acre farm which adjoins this farm will be sold at public auction by the administrator of an estate. It is desirable for the

University to acquire this farm, or at least eighty acres of it, in order to implement the functions being performed on the Weber property.

The Dean of the College of Agriculture and the Vice-President and Comptroller recommend that the Comptroller or an agent selected by him be authorized to submit not exceeding \$700 an acre for the west eighty acres (which are immediately south of the University property) and not to exceed \$650 an acre for the east eighty acres and not to exceed \$675 an acre for the entire farm.

Approximately \$50,000 is available in the fellowship account established from the income of the Weber farms. This income is unrestricted except that it must be used for the benefit of the College of Agriculture. The Dean of the College recommends that this sum be transferred to endowment funds if the property is acquired. The remainder of the purchase price can be financed from working capital funds of the Weber farms and Wright farms.

The Chairman of the Committee on Agriculture has been consulted and approves the recommendation.

I concur.

On motion of Mr. Johnston, this purchase was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner, Mr. Page.

DEPARTMENT OF LINGUISTICS

(3) On recommendation of the Executive Committee of the College of Liberal Arts and Sciences, the Urbana-Champaign Senate has recommended establishment of a Department of Linguistics to provide a much-needed focus for the various aspects of linguistic study now conducted at the Urbana-Champaign

campus. At present a graduate program is offered in linguistics leading to the degree of Master of Arts and Doctor of Philosophy. This program is administered by an interdepartmental committee whose chairman serves as the program director.

The Department will offer two main curricula with certain possible additions: (a) graduate programs in descriptive linguistics and historical linguistics, and graduate interdisciplinary programs in psycholinguistics, ethno linguistics, and experimental phonetics; and (b) instruction in non-Western languages to be instituted later, eventually providing at least two years of elementary Chinese, Japanese, Hindi, Arabic, and selected southeast Asian languages such as Burmese or Indonesian. The Department will also offer graduate programs of instruction and research leading to degrees of Master of Arts and Doctor of Philosophy in Linguistics, with the possible addition of a one-year certificate for foreign teachers of English who can afford only one year of graduate training in this country.

The College of Liberal Arts and Sciences and the new Department would recognize the prior claim of the existing language departments to continue to offer courses of a linguistic nature which draw their material from the languages they teach and which are a part of the training at all levels of teachers of such languages.

Submitted herewith is a supporting statement concerning the proposal for the new Department, a copy of which is being filed with the Secretary of the Board for record.

The University received funds in its 1963-65 legislative appropriation for the establishment of a Department of Linguistics and for the kind of expansion of the program outlined above.

I recommend approval, subject to further action by the Board of Higher Education.

On motion of Mr. Johnston, this recommendation was approved.

DOCTOR OF PHILOSOPHY IN AGRICULTURAL ENGINEERING

(4) On recommendation of the Executive Committee of the Graduate College, the Urbana-Champaign Senate has recommended establishment of a graduate program leading to the degree of Doctor of Philosophy in Agricultural Engineering to meet the great demand for agricultural engineers with the Doctor of Philosophy degree from colleges and universities, state and federal government agencies, industries which serve agriculture, and many of the food industries.

The program will fulfill all the standard requirements of the Graduate College for the degree of Doctor of Philosophy. It provides for a major in agricultural engineering with a minor or minors in other graduate departments of engineering, mathematics, physics, including soil physics, or other disciplines in the physical sciences. The program, including the specific courses, is submitted herewith, and a copy is being filed with the Secretary of the Board for record.

The Board of Trustees in 1948 approved a recommendation from the Senates for a graduate program leading to the degree of Master of Science in Agricultural Engineering.

The Senate Coordinating Council has indicated that no other Senate jurisdiction is involved.

I recommend approval, subject to further action by the Board of Higher Education.

On motion of Mr. Hughes, this recommendation was approved.

DEPARTMENT OF URBAN PLANNING AND LANDSCAPE ARCHITECTURE AND REVISION OF CURRICULUM IN CITY PLANNING

(5) The Urbana-Champaign Senate has approved recommendations from the College of Fine and Applied Arts that: (1) the name of the Department of City Planning and Landscape Architecture be changed to Department of Urban Planning and Landscape Architecture, (2) the title of the curriculum in city planning be changed to curriculum in urban planning, (3) the curriculum be revised to increase the total number of semester hours required for graduation from 122 to 132, exclusive of the general University requirements in military

training and physical education, and (4) the name of the degree be changed from Bachelor of Science in City Planning to Bachelor of Urban Planning. The master's degree will be changed to Master of Urban Planning.

Submitted herewith is a supporting memorandum giving the details of the proposed revision of the city planning curriculum, and a copy is being filed with the Secretary of the Board.

The present city planning curriculum was established in 1953 and was revised in 1957. The proposed changes provide a more flexible program, full compliance with the general education requirements approved by the Senates and the Board of Trustees, and will also provide improved professional and supporting course work. Professional courses will be concentrated in the junior and senior years since many of the students enrolled in this curriculum are transfers from other curricula. The proposed degree of Bachelor of Urban Planning is recognized by the American Institute of Planners as evidence of a professional education and qualifies the graduate for membership in professional organizations.

The proposed program will add three new courses not now offered and will drop one course and part of another.

The Senate Coordinating Council has indicated that no other Senate jurisdiction is involved.

All these changes are to become effective September 1, 1964.

I recommend approval.

On motion of Mr. Williamson, these recommendations were approved.

REVISIONS IN THE CURRICULUM PREPARATORY TO THE TEACHING OF RUSSIAN

(6) The Urbana-Champaign Senate has approved a recommendation from the College of Liberal Arts and Sciences and the Council on Teacher Education for certain revisions in the curriculum preparatory to the teaching of Russian leading to the degree of Bachelor of Arts in the Teaching of Russian, to become effective immediately.

Submitted herewith is an extract from the report of the Committee on Courses and Curricula of the College of Liberal Arts and Sciences giving the details of these revisions, including the specific requirements in education courses, teachers' major and minor in Russian, approved sequences in other courses, and recommended electives, a copy of which is filed with the Secretary of the Board.

The Senate Coordinating Council has indicated that no other Senate jurisdiction is involved.

I concur.

On motion of Mr. Swain, this recommendation was approved.

EMPLOYMENT OF ARCHITECT FOR THE DIGITAL COMPUTER LABORATORY SECOND ADDITION

(7) The Director of the Physical Plant and the Vice-President and Comptroller recommend the employment of A. Epstein and Sons Inc., Chicago, for architectural services for the second addition to the Digital Computer Laboratory, at a fee of 5¼ per cent of the total construction cost, with the understanding that supervisory services will be limited to office supervision, checking of drawings, approval of materials, and periodic visits to the project.

Funds are available from United States government contracts.

I concur.

On motion of Mrs. Watkins, this recommendation was approved.

When studies, now under way, of a more comprehensive campus transportation program are more advanced, bids will be taken and a further report will be made to the Board. In the meantime, it is desired to continue providing bus transportation for students and staff as approved by the Executive Committee of the Board when the present contract was authorized.

Submitted, herewith, is a copy of the recommendation for the campus bus service now in operation as approved on August 1, 1963, and a copy is being filed with the Secretary of the Board as a part of this record.

On motion of Mr. Swain, extension of this contract was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes,

AMENDMENTS OF THE UNIVERSITY OF ILLINOIS STATUTES

Mr. Johnston, for the Committee on General Policy, offered the following resolution and moved its adoption:

On June 19, 1963, the President of the University transmitted to the Board of Trustees the actions of the Senates, with reference to proposed changes in the Statutes of the University which deal with academic freedom and tenure.

By action of the Board, the recommendations were referred to the General Policy Committee for study and report.

The General Policy Committee has reviewed the proposals and discussed them with the President and the Legal Counsel.

The Committee finds itself in agreement with some of the proposals, but has modifications to suggest in others.

It appears to the Committee that communication with the Senates might be expedited through informal conference with their representatives.

Accordingly, it is recommended that the President of the University be requested to arrange a meeting on this subject, as soon as practicable, to be attended by the General Policy Committee and the President of the Board, the Chairman and one other member of each Senate Committee on Academic Freedom (to be designated by the Chairman or the Committee), the Chairman and Secretary of the Senate Coordinating Council (or their alternates), and the President of the University and such consultants as he may designate.

This resolution was adopted.

Wall, who has resigned the deanship, will be submitted to the Board of Trustees at its December meeting. I shall also recommend that the Board establish a new position of "Vice-President for Research" and that Dr. Seitz be appointed to that office.

In the meantime, I request approval of this recommendation so that I may submit a formal offer to Professor Seitz; I also request authorization to announce that his appointment will be recommended to the Board if acceptance is assured. The Board took up consideration of the following reports and recommendations from the President of the University.

PRESIDENT'S REPORT

President Henry presented a report on selected topics of current interest, copies of which were distributed at the meeting, and a copy was filed with the Secretary of the Board.

AWARD OF CERTIFIED PUBLIC ACCOUNTANT CERTIFICATES

(1) The Committee on Accountancy recommends that the certificate of Certified Public Accountant be awarded, under Section 5 of the Accountancy Act of 1943, as amended, to the following candidates who have presented evidence that they are holders of valid and unrevoked Certified Public Accountant certificates obtained by passing a standard written examination in another state or territory of the United States and who qualify in all other respects under this provision of the law:

<i>Name</i>	<i>Address</i>	<i>State from Which They Obtained Certificates</i>
BILLY KENNETH CHEEK	Springfield, Illinois	Texas
LAURENCE FIRMAN HASKETT	Indianapolis, Indiana	Indiana
WAYNE ALFRED KAUTH	Chicago, Illinois	Wisconsin
PAUL LAWRENCE MACK	Warson Woods, Missouri	Missouri
ROBERT BRUCE PICKENS	Naperville, Illinois	Pennsylvania

I concur.

On motion of Mr. Johnston, these certificates were awarded.

DEANSHIP OF THE GRADUATE COLLEGE AND VICE-PRESIDENT FOR RESEARCH

(2) On the unanimous recommendation of a committee appointed to make nominations for the position of Dean of the Graduate College, and after consultation with the Executive Committee of the College, I recommend the appointment of Dr. Frederick Seitz, Professor and Head of the Department of Physics, as Dean of the Graduate College.

I recommend further—after consultation with the Academic Advisory Council and the Executive Committee of the Graduate College—that the Board establish a new position with the title "Vice-President for Research," and that Dr. Seitz also be appointed to that office. The great expansion in the University's research activities in recent years—especially through support provided by outside agencies—has created a growing need for greater administrative attention to the problems related to the coordination of these activities with other University functions. In his role as Vice-President for Research, Dr. Seitz would: (a) study the needs of the University for the support of research in all areas; (b) assist faculty members and departments in securing the resources needed for their research; (c) conduct a continuing appraisal of the impact of outside support of research upon graduate study and upon the remainder of the University's research program; (d) make policy recommendations to the President concerning the quality, balance, and long-range directions of the University's overall research program.

It seems highly desirable to associate these important tasks closely with those presently assigned to the Dean of the Graduate College. Under the University's *Statutes*, the Dean of the Graduate College now has important responsibilities for research administration, primarily in relation to the functions of the University Research Board and certain special research units located in the Graduate College. Furthermore, most of the research programs conducted in other colleges and divisions are closely related to the education of graduate students, and are most fruitful when associated with graduate study. In order to assure that close coordination and mutual reinforcement be maintained among these research and educational activities, it seems best to create the kind of dual position proposed for Dr. Seitz.

The total salary for the combined positions will be \$29,600 for the calendar year (eleven months of service and a month of vacation with pay).

Dr. Seitz is now on leave from the University to serve as President of the National Academy of Sciences, and this position requires that he be in Washington much of the time. Because of his commitments to the Academy, it is unlikely that he will be available for full-time service at the University before 1965—although it is definite that during the academic year 1964-65 he would be able to devote at least half of his time to the position of Dean and Vice-President. It is therefore recommended that the President of the University be authorized to determine the effective date and other terms of the appointment, in consultation with Dr. Seitz and other University officers concerned, and to make interim provisions for the administration of the Graduate College—these actions to be reported to the Board.

Submitted herewith is the copy of Faculty Letter No. 62, July 16, 1963, issued by the Office of the President, listing the personnel of the Nominating Committee for the Deanship of the Graduate College and giving the full text of the letter of instructions to that Committee.

In its report nominating Professor Seitz, the Committee has stated:

"Although several highly qualified candidates might be identified, the response of the faculty and the general feeling of the members of the Committee indicate that the most outstanding person in the country is Dr. Frederick Seitz, now on leave of absence as Head of our Department of Physics, and currently President of the National Academy of Sciences.

"Many suggestions came from the staff indicating that Dr. Seitz was most highly regarded. The Committee reached the unanimous decision that he would be our first recommendation to you, and that we would seek no additional candidates until a decision had been reached as to Dr. Seitz's willingness to accept the position, and his acceptability to the administration and to the Executive Committee of the Graduate College. We therefore recommend him for your consideration.

"It is unnecessary to describe Dr. Seitz's qualities and achievements. They are so universally recognized that we feel that everyone is well acquainted with them. He has had administrative experience both in the Department of Physics and in his position as President of the National Academy. We feel that Dr. Seitz will add to the prestige of the University and the Graduate College, and we have found no one who did not indicate a willingness to work with him and to support him in every way."

On motion of Mr. Swain, these recommendations were approved.

CHAIRMANSHIP OF THE DEPARTMENT OF GERMANIC LANGUAGES AND LITERATURES

(3) Professor Frank Banta, who has been serving as Chairman of the Department of Germanic Languages and Literatures for several years, has asked to be relieved of this administrative responsibility so that he can devote full time to teaching and research, and I recommend that his request be granted.

The Dean of the College of Liberal Arts and Sciences recommends the appointment of Associate Professor Harry G. Haile as Chairman of the Department effective at the beginning of the second semester of 1963-64 and continuing until August 31, 1965, and that he be given additional salary at the rate of \$1,000 per year for this administrative responsibility. The recommendation is made after consultation with the Executive Committee of the Department and is concurred in by the Executive Vice-President and Provost and the Dean of the Graduate College.

I recommend approval.

On motion of Mrs. Watkins, this appointment was approved.

HEADSHIP OF THE DEPARTMENT OF SOCIOLOGY

(4) Professor Louis Schneider, who has been serving as Head of the Department of Sociology for several years, has asked to be relieved of this administrative responsibility so that he can devote full time to teaching and research, and I recommend that his request be granted.

The Dean of the College of Liberal Arts and Sciences recommends the appointment of Professor Daniel Glaser as Head of the Department beginning September 1, 1964, the salary to be determined later when the budget for 1964-65 is submitted to the Board for approval. The recommendation is made after consultation with the Executive Committee of the Department and is concurred in

by the Executive Vice-President and Provost and the Dean of the Graduate College.

I recommend approval.

On motion of Mr. Page, this appointment was approved.

CONVEYANCE OF LAND TO DEPARTMENT OF MENTAL HEALTH

(9) The Director of the Physical Plant and the Vice-President and Comptroller recommend conveyance of title to the state of Illinois to the property needed as a site for a Department of Mental Health Clinic to be constructed on University land adjacent to the Children's Research Center which will be constructed by the University in the area south of the Agricultural Experiment Station farmlands and adjoining First Street extended.

The Department of Mental Health is constructing laboratories and clinics throughout the state. Urbana-Champaign was selected as a site in this area for one of these clinics in order to coordinate its services with research and training facilities at the University of Illinois. The clinic to be constructed by the Department of Mental Health will qualify toward matching funds for a federal health research facilities grant for the Children's Research Center.

An Act of the General Assembly of Illinois authorized the transfer of a site for a Mental Health Clinic to the state of Illinois. The Legal Counsel has prepared the following resolution to accomplish this transfer and I recommend its adoption.

Resolution

Whereas by an act of the Seventy-third General Assembly of the State of Illinois entitled, "An Act to authorize the conveyance of certain real property located in Champaign County, Illinois, by The Board of Trustees of the University of Illinois to the State of Illinois" (SB 1044, approved August 13, 1963), The Board of Trustees of the University of Illinois is authorized to convey and quit claim all right, title, and interest in and to the real property hereinafter described and located in Champaign County, Illinois, to the State of Illinois, and which real property consisting of two parcels hereinafter described shall upon such transfer be under the jurisdiction of the Department of Mental Health and shall be used as a site for a Mental Health Clinic:

Now, Therefore, Be It, and It Hereby Is, Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the Comptroller and Secretary of this public corporation be, and they hereby are, authorized and directed to execute, acknowledge, and deliver, in the name and in behalf of, this public corporation, and under its corporate seal, a Quit Claim Deed and such other documents in connection therewith as said Comptroller and Secretary may deem necessary or desirable in order to convey to the State of Illinois title to the real property consisting of two parcels and described as follows, viz:

ADDITION TO CONTRACT FOR CONSTRUCTION OF ASSEMBLY HALL

(10) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$7,211.16 in the contract with Felmley-Dickerson Company for construction of the Assembly Hall to modify the tile drainage system under the playing floor, the north and south circular walls, and the filter beds under the lower tiers of seats at the east and west sides of the arena.

Funds are available in the construction budget.

I concur.

On motion of Mrs. Watkins, this change in contract was authorized.

ADDITION TO CONTRACT FOR CONSTRUCTION OF THE CONGRESS CIRCLE CAMPUS

(11) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$22,481.99 in the contract with Gust K. Newberg Construction Company, Chicago, for construction of buildings at Congress Circle to provide for changes in the communications system and additional conduit in classrooms and offices.

BEQUEST OF FRED H. BURT TO COLLEGE OF VETERINARY MEDICINE

(12) The will of the late Dr. Fred H. Burt of Chenoa, for many years a practicing veterinarian, provides a bequest: "The sum of Five Thousand Dollars (\$5,000.00) to the University of Illinois, Champaign, Illinois, to be used in the veterinary department in memory of Fred H. Burt."

Dean C. A. Brandy and the Executive Committee and other staff of the College of Veterinary Medicine have advised that the bequest be used to establish a loan fund. While the bequest by itself would have limited long-range value in helping students, this fund deposited with United Student Aid Funds, Incorporated, would establish a reserve that would allow loans aggregating at least \$75,000 to students in the College of Veterinary Medicine from their local banks. If all loans are repaid, the original sum would eventually be returned to the University.

Such use of the bequest is approved by the Legal Counsel and the United Student Aid Fund, Incorporated, has agreed to accept the fund, to match at least the first \$1,000, to set it up as a reserve separate from the other general U.S.A. Fund established by the University of Illinois, and to administer it exclusively for students in the College of Veterinary Medicine.

Accordingly, authorization is requested to deposit the \$5,000 received under the bequest with the United Student Aid Funds, Incorporated, to establish a loan reserve under the conditions described.

On motion of Mr. Hughes, this recommendation was approved.

RESERVE OFFICERS' TRAINING CORPS PROGRAM

(13) The Urbana-Champaign Senate recommends that effective September 1, 1964, the University of Illinois substitute for the requirement of compulsory military training for male freshmen and sophomores, voluntary basic programs in Air Force and Army R.O.T.C.

No other Senate jurisdiction is involved.

I concur.

On motion of Mr. Pogue, this recommendation was approved.

REPORT OF GIFTS AND FUNDS RECEIVED FROM OUTSIDE SOURCES

(17) Following is a report of gifts, grants, and contract funds received by the University during the fiscal year July 1, 1962, through June 30, 1963. This report includes funds from private donors and funds received from governmental agencies and covers all payments received during the fiscal year. A period of several months may elapse between the time an offer is received and accepted and final payment is made, which will account for the listing here of some gifts of funds, such as for scholarships and fellowships, for the academic year 1962-63 and others for 1963-64.

A number of these grants and gifts were previously reported to the Board when the offers were received, and likewise the Comptroller's monthly reports have included numerous research contracts for which funds had not been received at the time of reporting. These funds are being included here in order to present a complete report of all funds received from outside sources during the fiscal period 1962-63.

The contracts have all been properly executed by the Secretary and the Comptroller of the Board. All gifts and grants reported have been accepted and duly acknowledged by the President or other appropriate University officer with an expression of appreciation on behalf of the University and the Board of Trustees.

CHANGE IN NAME OF ASSEMBLY HALL

President Clement read the following letter received by members of the Board of Trustees from the Governor of Illinois:

OFFICE OF THE GOVERNOR
SPRINGFIELD

OTTO KERNER
Governor

November 30, 1963

Honorable Howard W. Clement
University of Illinois Board of
Trustees
355 Stratford Road
Des Plaines, Illinois

DEAR MR. CLEMENT:

As a tribute to the late President Kennedy, I request that, at the next meeting of the Board of Trustees of the University of Illinois, you consider naming the new assembly hall on the Champaign campus in his honor.

It is fitting and proper that this unique and magnificent structure bear the name of John F. Kennedy, because he brought to the Presidency a love of athletics and the arts—two vital facets of our life for which the assembly hall was erected.

Sincerely,

OTTO KERNER

Governor

On motion of Mr. Swain, this request was referred to the Committee on Buildings and Grounds for consideration and advice to the Board.

Mr. Dilliard suggested that the Committee secure student opinion on the proposal.

LETTER FROM SECRETARY OF THE STATE UNIVERSITIES RETIREMENT SYSTEM

President Clement read a letter from the Secretary of the State Universities Retirement System expressing appreciation of the new office quarters provided for it by the University.

APPOINTMENT TO THE MERIT BOARD OF THE UNIVERSITY CIVIL SERVICE SYSTEM OF ILLINOIS

President Clement called attention to the vacancy in the representation of the Board of Trustees of the University of Illinois on the Merit Board of the University Civil Service System of Illinois, due to the resignation of Judge A. Harewood as a Trustee, and asked if the Board wished to take any action.

Mrs. Watkins nominated Mr. Earl M. Hughes.

Mr. Johnston moved that the nominations be closed, and this motion was adopted.

On motion of Mrs. Watkins, Mr. Hughes was elected to serve with Mr. Timothy W. Swain and Mr. Harold Pogue on the Merit Board of the University Civil Service System of Illinois as representatives of the Board of Trustees of the University of Illinois.

JANUARY, FEBRUARY, AND MARCH MEETINGS

President Clement announced that the next three meetings of the Board are scheduled for January 15, February 19, and March 10, 1964.

The Board has previously voted to hold the January meeting in Chicago.

It was the consensus of the Board that the February meeting should be held as scheduled on February 19, and in Urbana.

On motion of Mr. Johnston, the Board voted to change the date of the annual meeting from the second Tuesday, March 10, to the third Wednesday, March 18, 1964, to be held in Urbana.

RECESS AND EXECUTIVE SESSION

President Clement announced that an executive session has been requested and was being ordered for consideration of patentable inventions and property acquisitions.

On motion of Mr. Swain, the Board recessed.

When the Board reconvened in executive session, the same members and officers of the Board and of the University were present as recorded at the beginning of these minutes.

The Board considered the following reports and recommendations from the President of the University.

RECOMMENDATIONS OF THE UNIVERSITY PATENT COMMITTEE

(1) The University Patent Committee submits, with the concurrence of the University Research Board, the following reports and recommendations relating to patentable inventions by members of the staff.

1. Liquid helium cooled tilting stage for an electron microscope—J. A. Venables, Research Assistant Professor of Physics, inventor. The invention is a very low temperature stage for an electron microscope provided by the use of nitrogen as a cooler so that specimen contamination is not a problem.

It was developed under an Atomic Energy Commission contract. Federal law provides that in such an event, the Commission has the sole discretion as to the disposition of the invention. The Commission has advised the University that it does not wish to apply for a patent. It is the opinion of Professor G. M. Almy of the Department of Physics and the Atomic Energy Commission that this invention has limited possibilities for commercial value and the Patent Committee concurs with this opinion. The inventor has requested that the invention be released to him. Accordingly, the Patent Committee recommends the release of the rights of the University in the invention to the inventor subject to any contractual obligations that the University may have to the United States government.

2. Production and application of acoustic waves resulting from pulsed RF discharges in gases—Ladislav Goldstein, Professor of Electrical Engineering, M. R. Roux, former Research Assistant in the Gaseous Electronics Laboratory, and J. A. Dayton, Jr., Research Assistant in Electrical Engineering, inventors. This discovery consists of the production of ordinary sound waves and pseudo-sound waves in low-pressure gasses by the breakdown of such gasses by high powered pulsed micro wave signals.

The Head of the Department of Electrical Engineering is of the opinion that this invention has little likelihood of commercial value. The Patent Committee concurs in this opinion and recommends that the rights of the University be leased to the inventors subject to any contractual obligations that the University may have to the United States government and with the further stipulation that if the inventors do not exercise their rights to file for a patent within a reasonable period that all rights of the University be transferred to the government.

3. Two-slit optical interferometer—J. B. Gerardo, Graduate Assistant in the Gaseous Electronics Laboratory, inventor. This device provides a means of shifting the phase of the light impinging in one of the slits thereby shifting the fringe pattern.

The Head of the Electrical Engineering Department is of the opinion that this invention will prove to have little commercial value. The Patent Committee concurs in this opinion and recommends that the rights of the University be released to the inventor subject to any contractual obligations that the University may have to the United States government and with the further stipulation that

if the inventor does not exercise his rights to file for a patent within a reasonable period that all rights of the University be transferred to the government.

I concur in these recommendations.

On motion of Mr. Swain, these recommendations were approved.

PURCHASE OF PROPERTY AT 205 SOUTH GOODWIN AVENUE, URBANA

(2) The Director of the Physical Plant and the Vice-President and Comptroller recommend purchase of the property at 205 South Goodwin Avenue, Urbana, Illinois, at a price of \$30,500 which is within the appraisals received.

The property consists of a lot 46 feet by 60 feet (2,760 square feet) and is improved with a two-story and basement brick veneer residence. This lot is the last remaining parcel not owned by the University in the area bounded by Green Street, Goodwin Avenue, Mathews Avenue, and Western Avenue.

The Committee on Buildings and Grounds has been consulted and supports the recommendation.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Pogue, the purchase of this property, at the price indicated, was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

ACQUISITION OF PROPERTY AT 603 EAST DANIEL STREET, CHAMPAIGN

(3) On October 26, 1963, the Board of Trustees authorized the purchase of the property at 603 East Daniel Street, Champaign, commonly referred to as the Thunderbird Restaurant property, by negotiation at a price not to exceed \$100,000. The Board also authorized the Executive Committee to adopt a resolution for institution of condemnation proceedings for the acquisition of the property if negotiations for the purchase were not successful.¹

The Director of the Physical Plant and the Vice-President and Comptroller report that they have not succeeded in negotiating purchase of the property at a price they can recommend. Accordingly, they request authorization of condemnation proceedings for acquisition of this property along with the adjoining property at 605 East Daniel Street, Champaign, commonly referred to as the Cosmopolitan Club, which the University is also seeking to acquire through condemnation.

Funds are available in the state capital appropriations to the University for 1963-65 from the Universities Building Fund.

I concur, and the following resolution is offered:

Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that the Compensation to be paid by it for said land can not be agreed upon between this Board of Trustees and the owners of said land and they and it are unable to agree upon the purchase price to be paid to said owners for the sale and conveyance of said land by said owners thereof to said The Board of Trustees of the University of Illinois; and

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owners thereof for such land cannot be agreed upon between them and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the owners thereof and any and all other persons who may have any right, title or interest in and to said land determined in the manner provided by law for the exercise of said right and power of eminent domain; and

On motion of Mr. Swain the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

ACQUISITION OF PROPERTY AT 1306 WEST SPRINGFIELD AVENUE, URBANA

(4) University representatives have been negotiating for the purchase of the property at 1306 West Springfield Avenue, Urbana. The property is a lot 66 feet by 100 feet (6,600 square feet) with a two and one-half story and basement frame building now used for apartments and student rooms. The land is needed as part of the site for the Digital Computer Laboratory Building Second Addition.

On the basis of University appraisals, the owner has been advised that a recommendation would be made to the Board of Trustees for the purchase of the property at a price of \$39,500. This offer is not acceptable, and the asking price remains substantially in excess of the highest University appraisal. Accordingly, the Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees authorize condemnation proceedings for the acquisition of the property.

The Committee on Buildings and Grounds has been consulted and supports the recommendation.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur and recommend adoption of the following resolution.

Resolution

Be It, and It Is Hereby Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois, a body corporate and politic and a public corporation of the State of Illinois, that the following-described real estate situated in the County of Champaign, in the State of Illinois, to-wit:

Lot Eight (8) in Block Fifty-four (54) of the Seminary Addition to Urbana, situated in the City of Urbana, in the County of Champaign, and State of Illinois:

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, for a site for an addition to the Digital Computer Laboratory and for related educational purposes conducted and to be conducted by said University of Illinois and for the further expansion of the educational facilities of said University of Illinois and to enable said University of Illinois to discharge its duty to the people of said State and for public use; that funds have been appropriated by the General Assembly of the State of Illinois for the purchase of said land for said educational purposes; that this Board of Trustees has negotiated with the owner of said land for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but that said owner has refused to sell and convey said land, or any portion thereof, to said The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems unreasonable and excessive and is, therefore, unwilling and has refused to pay; and

Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land cannot be agreed upon between this Board of Trustees and the owner of said property and he and it are unable to agree upon the purchase price to be paid to said owner for the sale and conveyance of said land by said owner thereof to said The Board of Trustees of the University of Illinois; and

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owner thereof for such land cannot be agreed upon between him and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the owner thereof and any and all other persons who may have any right, title or interest in and to said land determined in the manner provided by law for the exercise of said right and power of eminent domain; and

Be It, and It Is Hereby Further Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction and that the Legal Counsel of the University be, and he is hereby, authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name and on behalf of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel, appraisers, and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceedings.

On motion of Mr. Williamson, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Kerner.

ACQUISITION OF FARMLAND IN LA SALLE COUNTY

(5) The Board of Trustees on October 26, 1963, authorized the purchase of one hundred and sixty acres of farmland in La Salle County adjoining a farm of the same size which is part of the farmlands given to the University by Miss Laura Weber.

The land was sold at public auction by the administrator of the estate. The University was represented at the sale by Mr. R. B. Taylor of Newark, whose services were secured by the Department of Agricultural Economics. The Vice-President and Comptroller reports that the University was the successful bidder at a price of \$560 an acre, or \$89,600, and that the land has been purchased.

On motion of Mr. Johnston, this report was received for record.

On motion of Mr. Williamson, the Board adjourned.

Following adjournment, members of the Board and officers of the Board, officers of the University, and representative delegations of the staff at the Medical Center and at the Chicago Undergraduate Division were guests of officers of the First National Bank of Chicago at luncheon.

Following the luncheon, the Committees on General Policy and Buildings and Grounds held work sessions.

On motion of Mr. Williamson, these appointments and the summer session budget for 1964 were approved, and authority was given as requested; this action was taken by the following vote: Aye, Mr. Clement, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Kerner.

At this point, Mr. Page asked to be excused from the meeting to go to another meeting in which he was also officially involved.

DEPOSIT REQUIREMENT FOR STUDENTS

(4) The Board of Trustees has approved a Progressive Admissions Program for undergraduate students, which became effective in September, 1961. Such a plan was necessary because available facilities and staff were inadequate to meet increases in enrollment in all undergraduate programs.

To administer the plan effectively, the Board also approved a requirement of a non-refundable deposit of \$30 on tuition and fees from new undergraduate domestic students, to be made before a permit to enter is issued, as a means of obtaining a serious commitment from students that they intend to enroll. Approximately 91 per cent of those who have made this deposit during the past three years have registered. Prior to the inauguration of the deposit plan approximately 68 per cent of those who received permits registered.

It is now obvious that available facilities and staff will be inadequate to meet anticipated increases in enrollment in all undergraduate and graduate programs. Therefore, to insure the maximum use of facilities by the University, and to insure continuing students of appropriate class schedules, the Committee on Fees presents the following recommendations:

1. The requirement of a non-refundable deposit of \$30 on tuition and fees of all students who are registered during a given semester and who wish to register for the following semester except those who have received or who have been assured of exemption from tuition and fees as a result of an undergraduate scholarship or a graduate award of a fellowship, assistantship, or tuition and fee waiver. Doctoral candidates who have passed the preliminary examination are also exempt from the payment of this deposit. The procedure to be followed, using the first semester of a given year as an example, will be:

- a. Students who are registered during the second semester and who wish to register for the first semester of the next year will confer during the second semester with an adviser and request tentative class assignments.
 - b. Class assignments will be finalized by the Office of Admissions and Records and class schedules will be mailed to students during the summer. At that time the student will be asked to make the deposit on tuition and fees.
 - c. Upon receipt of the deposit the student will be notified that the University assures him of the schedule mailed to him and will definitely hold a place for him.
2. The requirement of a non-refundable deposit of \$30 on tuition and fees of all students who are registered at the Chicago Undergraduate Division during a given semester and who wish to register on the Urbana campus for the following semester. The same procedures would apply as indicated under 1 above.
 3. The requirement of a non-refundable deposit of \$30 on tuition and fees of all new College of Law students.
 4. The requirement of a non-refundable deposit of \$30 on tuition and fees of all readmitted students.
 5. The requirement of a non-refundable deposit of \$30 on tuition and fees of all new domestic graduate students. Graduate students assured of the award of a fellowship, assistantship, or tuition and fee waiver will be permitted to confirm their intention to enroll without payment of the advance deposit.

It is further recommended that the Office of Admissions and Records be authorized, in cooperation with the Business Office, to establish for each campus the semesters or sessions for which the deposit on tuition and fees is required beginning with the first semester of 1964-65; to establish the dates for deadlines on the acceptance of the deposit on tuition and fees; and to implement all other aspects of this deposit plan.

I concur.

On motion of Mr. Hughes, these recommendations were approved.

APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(5) The Executive Vice-President and Provost and the Vice-President and Comptroller recommend the following appropriations from the University General Reserve:

Urbana-Champaign

1. College of Fine and Applied Arts—School of Music, replacement of pianos\$24 300
2. College of Physical Education, replacement of netting in the Armory for the protection of persons during golf and baseball practice..... 4 500

Total.....\$28 800

I concur.

On motion of Mr. Swain, these appropriations were made by the following vote: Aye, Mr. Clement, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Kerner, Mr. Page.

PROCUREMENT OF COMPUTER SYSTEM FOR COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION

(6) The Dean of the College of Commerce and Business Administration, the Executive Vice-President and Provost, and the Vice-President and Comptroller recommend the acquisition of a computing system for the College.

The College has had a very small installation of punch card data processing equipment for several years. However, in order to have appropriate equipment for both teaching and research purposes, especially at the graduate level, it is necessary to update this equipment and provide a computer system which will be a representative and adequate facility on which instructional, research data processing, and simulation procedures can be performed.

In the study of equipment to be used, full cognizance has been given to the basic need, educational goals to be obtained, existing equipment on the Urbana

campus which could be used for the proposed work, and the relative costs involved.

The IBM 1620 system has been selected because of its capacity to satisfy the basic computer needs of the College and it is completely compatible with existing electronic data processing equipment in the Statistical Service Unit and the high speed-large capacity IBM 7094-1401 computer system in the Digital Computer Laboratory.

It is recommended that an IBM model 1620 computer system with ancillary equipment be acquired from the IBM Corporation as follows: purchase of Model 1620 Computer System complete with one central processing unit, one card read punch, one core storage unit, one tape control unit, and three magnetic tape drive units, at a price of \$104,638; contract for maintenance service costs for the computer at \$4,032 a year; and rental of ancillary equipment including one each accounting machine, card sorter, verifier, and calculating punch, and three key punch units at a cost of \$3,986.40 a year.

The prices quoted by the International Business Machines Corporation include a 60 per cent educational discount.

I concur and recommend an appropriation of \$104,638 from the University General Reserve for the purchase of the equipment. The annual rental and maintenance costs will be provided for in the College budgets for 1964-65 and subsequent years.

On motion of Mrs. Watkins, the purchase of this equipment was authorized, and the requested assignment of funds was made by the following vote: Aye, Mr. Clement, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Kerner, Mr. Page.

CONTRACT FOR INSTALLATION OF SPRINKLER SYSTEMS IN SEVEN BUILDINGS

(7) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$147,789 to Roy R. Anderson, William R. Chance, and Orville R. Zobrist, a partnership doing business as Ace Sprinkler Company, East Peoria, the lowest bidder, for installation of sprinkler systems in seven buildings: Davenport Hall, west unit, exclusive of southwest wing; Civil Engineering Hall; Mumford Hall, basement; Lincoln Hall, basement and stage; English Building, east unit; Law Building, part of basement; and Natural History Building, north unit.

Funds are available in the 1963-65 state capital appropriations to the University for Protection of Life and Property and in the Universities Building Fund, and have been released.

I concur.

On motion of Mrs. Watkins, this contract was awarded by the following vote: Aye, Mr. Clement, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Kerner, Mr. Page.

CONTRACT FOR STEAM SERVICE TO DEPARTMENT OF CHILDREN AND FAMILY SERVICES IN THE MEDICAL CENTER DISTRICT

(8) The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of a contract with the Department of Children and Family Services for steam service from the Medical Center Steam Company plant to a small office building which is being constructed in the Medical Center District west of Damen Avenue between Taylor and Grenshaw Streets, said contract to be on the same basis as University contracts with other consumers of steam in the Medical Center District supplied by the Company.

The requirements for this building will not exceed 2,500 pounds per hour maximum demand, which is within the capacity of the present plant and distribution system.

I concur.

On motion of Mr. Pogue, this contract was authorized by the fol-

lowing vote: Aye, Mr. Clement, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Dilliard, Mr. Kerner, Mr. Page.

**CONTRACT FOR STEAM SERVICE TO DEPARTMENT
OF MENTAL HEALTH CHILD DEVELOPMENT BUILDING**

(9) The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of a contract with the Department of Mental Health for steam service from the Medical Center Steam Company plant to a Child Development Building which is being constructed in the Medical Center District south of Taylor Street between Damen and Hoyne Avenues, said contract to be on the same basis as University contracts with other consumers of steam supplied by the Company.

The requirements of this Child Development Building will not exceed 10,000 pounds per hour maximum demand, which is within the capacity of the present plant and distribution system.

I concur.

On motion of Mrs. Watkins, this contract was authorized by the following vote: Aye, Mr. Clement, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent Mr. Dilliard, Mr. Kerner, Mr. Page.

**EMPLOYMENT OF ARCHITECTS FOR THE FLORIDA AVENUE
RESIDENCE HALL**

(10) The Director of the Physical Plant and the Vice-President and Comptroller recommend the employment of Richardson, Severns, Scheeler, and Associates, Champaign, and Fugard, Burt, Wilkinson, and Orth, Chicago, for architectural services for the proposed Florida Avenue Residence Hall at a fee of 5¾ per cent of the construction contracts; and if there is a duplication of buildings, a fee of 4 per cent for the first building to be duplicated and a lower, negotiated fee if any other buildings are duplicated.

Costs will be paid from the proceeds of a revenue bond issue when the bonds are sold and will be financed temporarily from the Stores and Services Trust Account.

I concur.

On motion of Mr. Swain, this recommendation was approved.

**EMPLOYMENT OF COST CONSULTANTS
ON CONGRESS CIRCLE LECTURE CENTER**

(11) The Director of the Physical Plant and the Vice-President and Comptroller recommend the employment of McKee-Berger, Mansueto, Inc., 300 West Washington, Chicago, for development of an estimate of the cost of the general work on the construction of the Lecture Center at Congress Circle, at a rate of \$12 per hour, with a maximum cost of \$4,500.

Funds are available in the construction budget for Congress Circle.

I concur.

On motion of Mr. Swain, this recommendation was approved.

PUBLICITY SERVICES FOR THE ASSEMBLY HALL

(12) The Director of Auxiliary Services and the Vice-President and Comptroller recommend authorization of a contract for the services of Mr. Herbert J. Dotten, Park Forest, Illinois, for preparation of promotional material, and for professional counsel, with respect to promotional media for programs in the Assembly Hall from January 1 to April 30, 1964, and from September 1, 1964, to May 30, 1965, at a rate of \$1,250 per month.

Mr. Dotten handles publicity and promotion for several state fairs throughout the midwest, which requires his time from May to September. Consequently, he is not interested in continuous work for the University, but the contract period indicated coincides with the schedule of public events in the Assembly Hall.

The cost of these services will be charged to the operating budget of the Assembly Hall.

I concur.

On motion of Mr. Williamson, this recommendation was approved.

ADDITION TO CONTRACT FOR CONSTRUCTION OF ASSEMBLY HALL

(13) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$4,291.16 in the contract with Felmley-Dickerson Company, Urbana, for construction of the Assembly Hall. The additional cost is for extended operation of well points during excavation of earth in the center portion of the Assembly Hall.

Funds are available in the project budget.

I concur.

On motion of Mr. Hughes, this change in contract was authorized.

MIDWEST UNIVERSITIES CONSORTIUM INCORPORATED

(14) The Ford Foundation has made a grant of \$3,500,000 to Indiana University, Michigan State University, the University of Illinois, and the University of Wisconsin for the organization and operation of a "Midwest Universities Consortium for International Activities, Incorporated." The four universities will organize and incorporate the new Consortium to receive and administer the Ford Foundation grant.

The Consortium will enable the four universities to enter as a group into contracts for overseas operations, thus increasing the abilities of the university members to render more effective educational and technical services abroad; to augment the supply of personnel for international services for overseas work and utilize their knowledge and experience for campus teaching and research programs, thus increasing knowledge about significant problems in less developed areas; to offer an internship program for graduate students to assist in the work of the universities' overseas projects; to provide research grants for faculty and graduate students at overseas project sites; and to enrich regular campus teaching and research programs through seminars and printed materials based on the knowledge accumulated in the projects abroad.

The four universities will be represented on a Council of Institutional Members which will elect a Board of Directors, which, in turn, will elect an Executive Director. The Executive Director will be charged with the administration of the affairs of the Consortium and will be responsible to the Board of Directors.

Under the Consortium, each university will conduct its own international activities, but each will be assisted by the Consortium. The Ford Foundation grant will make possible programs which heretofore it has not been possible for the universities to carry on because of insufficiency of funds. The creation of the Consortium will enable the four universities to undertake tasks beyond the resources of any one of them. Improvement in overseas operations will result from the pooling of manpower resources, and from the full exchange of information by the four universities. The member universities will underwrite the office expenses of the Consortium, including salaries of the Executive Director and his staff, by paying an annual membership fee of \$20,000.

I recommend that the Board of Trustees formally approve participation of the University of Illinois in this program, and that officers of the University be authorized to take such steps as may be necessary to provide for its representation in the Consortium and for its incorporation.

On motion of Mr. Swain, this recommendation was approved, and authority was given as recommended.

GRANT FOR EXPANSION OF NON-WESTERN PROGRAMS

(15) The Ford Foundation has made a grant of \$800,000 for a period of five years to the University of Illinois for expansion of its non-Western programs. The grant will help the University establish an International Comparative Studies Center and assist in the development of an Asian Study Center and in strengthening the Latin-American Studies Center. The fund will also help in the recruitment of additional faculty members and will provide travel expenses for overseas research.

Details of administrative organization and of curricula or of programs developed under the grant will be subject to the standard approvals as required. I recommend acceptance of this grant.

On motion of Mr. Johnston, this grant was accepted.

BEQUEST OF JAMES M. LOVELLETTE

(16) The University has received a bequest of \$5,000 from the estate of the late James M. Lovellette of Chicago. I recommend that this bequest be accepted and that it be used for the benefit of students at the Medical Center.

The First National Bank of Chicago, executor of the estate, has requested that the following resolution be adopted:

Resolution

WHEREAS, James M. Lovellette, a resident of Chicago, Illinois, departed this life on November 20, 1962, leaving a last will and testament which has been duly admitted to probate in Cook County, Illinois, and which contains provisions for a bequest as follows, said bequest having been confirmed in a Circuit Court decree entered 12/16/63 in the Circuit Court of Cook County, Illinois;

Article Sixth (28)

Now, Therefore, be it, and it is hereby, resolved by this Board of Trustees of the Board of Trustees of the University of Illinois that the said bequest be and the same is hereby accepted by the said public corporation for the uses and purposes therein set forth and

Be it further resolved that C. C. DeLong as Bursar of said public corporation be and he is hereby authorized to accept payment on behalf of said public corporation of said bequest, and to execute and deliver to the First National Bank of Chicago as Executor of the last will and testament of the said James M. Lovellette, deceased, the receipt of the said public corporation in satisfaction thereof.

On motion of Mrs. Watkins, the foregoing resolution was adopted.

(6) The Dean of the College of Engineering recommends the appointment of Dr. Gerald M. The salary of this position will be determined when the budget for 1964-65 is recommended to the Board of Trustees for approval.

The nomination for this appointment was unanimously recommended by a special search committee¹ and is concurred in by the Acting Provost and the Dean of the Graduate College. All members of the Department of Physics of professorial rank were also consulted both by the search committee and by the Dean prior to the initiation of the recommendation.

I recommend approval.

HEADSHIP OF THE DEPARTMENT OF MARKETING

(7) A search committee² appointed in September, 1963, to recommend a Head of the Department of Marketing in the College of Commerce and Business Administration (Urbana) to fill the vacancy created by the resignation of the former Head, Professor H. W. Huegy, who asked to be relieved of his administrative duties³ to devote full time to teaching and research, has assembled information about possible candidates.

After the Committee had been at work for some time and had brought prospective candidates to the University for interviews, members of the Department requested a meeting to consider changing the administrative organization from a headship to a chairmanship. In accordance with University statutory provisions, the Dean called a meeting of the members of the Department of professorial rank and they voted seven to four in favor of the chairmanship organization.

The Dean of the College of Commerce and Business Administration has transmitted the results of this vote to the President of the University with his recommendation: that no change be made and that the Department continue to be organized with a Head. CURRICULUM IN ARCHITECTURE AT CHICAGO UNDERGRADUATE DIVISION

(9) The Chicago Undergraduate Division Senate has approved a recommendation from the College of Architecture and Art for a curriculum in architecture leading to the degree of Bachelor of Architecture, to be implemented at the beginning of the academic year 1964-65.

Submitted herewith is a supporting statement describing the new curriculum, a copy of which is being filed with the Secretary of the Board for record.

Establishment of this new curriculum is in accordance with the educational policies and plans for the organization of educational programs involved in the expansion of the Chicago Undergraduate Division into a degree-granting branch of the University, consistent with prior legislative authorization of the same, as approved by the Board of Trustees in January and February, 1961.

The Senate Coordinating Council has indicated that this curriculum is ready for approval by the Board of Trustees.

I recommend approval.

On motion of Mrs. Watkins, this recommendation was approved.

CONTRACT FOR CAMPUS TREE-PLANTING PHASE 4

(10) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$22,578.94 to Twin City Landscape Service, Inc., the lowest bidder, for the fourth phase of the campus tree-planting program at Urbana-Champaign.

This contract is for planting trees on the west side of Mathews Avenue from Springfield Avenue to Nevada Street; on the east side of Mathews Avenue adjacent to the Mechanical Engineering Building; on both sides of Sixth Street from Armory Avenue to Pennsylvania Avenue; on the south side of Gregory Drive from Oak Street to First Street; on the west side of Oak Street from Stadium Drive to Florida Avenue; on both sides of St. Mary's Road from the west University property line to Fourth Street; and adjacent to the Illinois Central Railroad right-of-way from Stadium Drive south to the existing planting at the Physical Plant Service Building.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Swain, this contract was awarded by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

CONTRACTS FOR LANDSCAPING OF SITES AT THREE NEW BUILDINGS IN URBANA-CHAMPAIGN

(11) The Director of the Physical Plant and the Vice-President and Comptroller

recommend awards of contracts to Twin City Landscape Service, Inc., Urbana, for landscaping of the areas of three new buildings recently constructed or now being completed at Urbana-Champaign, the award in each case being to the lowest bidder:

College of Commerce and Business Administration West.....	\$12 120 28
College of Education Building.....	7 626 49
Orchard Downs, First Addition.....	15 236 71

Funds are available in the construction budgets of the three buildings.

I concur.

On motion of Mr. Swain, these contracts were awarded by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no none; absent, Mr. Jones, Mr. Kerner.

CONTRACT FOR ELECTRICAL SERVICES FOR TELEVISION STUDIOS

(12) The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of an agreement with the Illinois Power Company for electrical services to the Television Studios at 1114 West Main Street, Urbana, at the standard Utilities Service Classification Rate No. 21, including Rider A.

Service was originally initiated under a rate for which no formal contract was necessary. It has since been determined that the demand for electricity is such that a savings of approximately \$100 per year can be effected by entering into the proposed contract.

Funds for the annual estimated cost of \$7,000 are available in the Physical Plant operating budget.

I concur.

On motion of Mr. Johnston, this contract was awarded by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

CLOSED CIRCUIT TELEVISION FACILITIES FOR CHILDREN'S RESEARCH CENTER

(13) It is anticipated that closed circuit television facilities between the Herman M. Adler Clinic to be constructed by the State Department of Mental Health and the Children's Research Center to be constructed by the University will be desirable for research through the observation of activities in various buildings of the Clinic.

The Illinois Bell Telephone Company will install television conduit and cable between the buildings at no cost to the University if the University issues a letter stating that it intends to lease the transmission facilities at the prevailing rates authorized by the Interstate Commerce Commission if and when closed circuit television equipment is installed. The Company will also install telephone cable at the same time without additional charge; however, if only telephone cable is installed, it must be done at University expense, so that the letter referred to will save the University an estimated \$9,000 in the cost of the telephone cable. Installation of underground television cable by the University would cost an estimated \$17,000 at this time; the cost would be higher after the buildings, landscaping, walks, and drives have been completed.

The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of any necessary agreements at the appropriate time with the Illinois Bell Telephone Company for closed circuit television facilities.

On motion of Mr. Williamson, authority was given as requested; Mr. Hughes asked to be recorded as not voting.

CONTRACT FOR INCINERATOR IN DENTISTRY-MEDICINE-PHARMACY BUILDING

(14) The Director of the Physical Plant and the Vice-President and Comptroller recommend a contract for \$14,474 to the C. O. Henriksen Company, Chicago, the

lowest bidder, for construction and installation of an incinerator in the Dentistry-Medicine-Pharmacy Building.

This improvement is a part of the 1963-65 building program and funds are available in the state capital appropriations for the same.

I concur.

On motion of Mrs. Watkins, this contract was awarded by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**AGREEMENT WITH FEDERAL AVIATION AGENCY AND GRANT
FOR AIRPORT IMPROVEMENTS AND ACQUISITION OF LAND**

(15) In 1961 the University purchased air rights at the south end of the north-south runway and land-in-fee on the north end of the north-south runway at the University of Illinois-Willard Airport in accordance with an agreement with the Federal Aviation Agency to provide clear zones on the north-south runway for a prospective instrument runway. The Federal Aviation Agency subsequently decided to put the installation on the northwest-southeast runway and is now making an instrument landing system installation on that runway.

The Federal Aviation Agency has offered the University a grant of \$92,443 to: (1) reimburse the University for costs of acquiring the land and air rights on the north-south runway; (2) install high intensity lights; (3) purchase the necessary air rights and land on the northwest-southeast runway; (4) install marking on instrument runway; (5) install perimeter fencing on the approach lighting system site; and (6) remove obstructions.

In order to accept this grant, the University must agree to acquire approximately twenty acres of land in fee simple and air rights over approximately one hundred and ten acres at the ends of the northwest-southeast runway. The land will be used for the future installation of an approach lighting system and clearance zones, which adds to the utility and safety of the airport operations and is usually installed as an integral part of the instrument landing system.

The State Department of Aeronautics has agreed to pay the matching costs of these improvements, to the extent of \$44,000, from state appropriations released for improvements at the University of Illinois-Willard Airport. The entire cost of the land to be acquired is reimbursable from the federal grant and the appropriation to the State Department of Aeronautics.

The Director of the Institute of Aviation and the Vice-President and Comptroller recommend acceptance of the grant and authorization of the Director of the Institute of Aviation to negotiate for the acquisition of the land, recommendations for the purchase of which will be submitted to the Board.

I concur and recommend adoption of the following resolution:

Therefore, it is understood and agreed that Paragraphs 2(b), 3, and 4 of this Grant Offer are hereby deleted and the following Paragraphs 2(b), 3, and 4 are substituted in their place and stead:
"2(b) carry out and complete the Project without undue delay and in accordance with the terms hereof, the Federal Airport Act, as amended, and Sections 151.45, 151.47, 151.49, 151.51, 151.53, and 151.55, of the Federal Aviation Regulations (27 FR 12348) in effect as of the date of acceptance of this Offer; which Regulations are hereafter referred to as the 'Regulations';"

 9. It is understood and agreed that each contract awarded for construction work under this project is subject to the provisions of the Work Hours Act of 1962, Public Law 87-581. It is further understood and agreed that each such contract will contain stipulations requiring the contractor or subcontractor to pay wages to all laborers and mechanics employed on the work in conformance with the provisions of the Act and that the Sponsor may withhold or cause to be withheld from the contractor or subcontractor so much of the accrued payments as may be considered necessary to pay laborers and mechanics employed by any such contractor or subcontractor on the work the full amount of wages required by the contract and such sums as may administratively be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for liquidated damages as provided by the Act. It is also understood and agreed that, in the event of failure of any contractor or subcontractor to pay any laborer or mechanic employed or working on the site of the work all or part of the wages required by the contract, the FAA may, after written notice to the Sponsor, withhold from the Sponsor so much of the accrued payments or advances representing unpaid wages and liquidated damages.

I now submit the report from the Urbana-Champaign Senate Committee on Academic Freedom and Tenure, unanimously adopted by that group, as follows:

March 6, 1964

President David D. Henry
355 Administration (W)

DEAR PRESIDENT HENRY:

In your letter of February 21 addressed to the Chairman of our Committee you asked the Committee to review the "expressions on public affairs" contained in your statement to the Board of Trustees and to give you our advice "—as to whether University action of any kind concerning them or toward Professor Oliver because of them is indicated."

We commend you for asking the faculty, as represented by this Committee, to give you its counsel, but your request poses a difficult question for the Committee. On the one hand we wish to be helpful to you and to support the policy that administrative officers of the University consult with the faculty before making decisions on issues of concern to the academic community; but on the other hand we are confronted with the fact that our current University statutes do not appear to give our Committee, or any other faculty body, the authority to consult with the President in situations of this kind. Furthermore the Committee on academic freedom must by provisions in our University statutes afford a hearing to any staff member who feels that his academic freedom is being jeopardized; and also conduct a hearing and make recommendations when asked by a staff member against whom charges have been filed by the President, when such charges relate to the academic freedom of the staff member. It can be argued therefore that any judgment made by this Committee in response to your request would impair the ability of the Committee to act impartially when and if asked by the staff member to conduct a hearing on his behalf.

Despite these considerations the Committee has decided that it should respond to your request. To do otherwise would create the impression that the academic community at the University of Illinois is not concerned and that though the President wished to have the counsel of the faculty he could not get it. We know the academic community at the University of Illinois is concerned, and we refuse to accede to the unhappy and anomalous conclusion that the President has no right to confer with a responsible faculty committee about problems of great concern to the University and on which he must make decisions. We wish there were clear channels for such consultation and we would note in passing that when the proposed statutory revisions become effective such channels will exist.

The exercise of academic freedom rights and privileges by a faculty is not without its price to a university, but the benefits greatly outweigh the costs. The public frequently does not realize why academic freedom is such a cherished value, and is so zealously guarded, by the academic community of scholars. In the furtherance of a university's educational objectives of exploring new fields, developing and transmitting new ideas, pushing forward the frontiers of knowledge, in short, in the search for the eternal verities, *administrative* restraint on the scholar searching for these truths must be avoided. If, in the exercise of this protected freedom of research and expression, and despite the statutory admonition that a professor is expected to observe professional standards of "accuracy, forthrightness, and dignity befitting his association with the university and his position as a man of learning," abuses of this privilege occur, restraints on such abuses must normally be provided by the adverse judgment of the individual's *professional* colleagues. He must withstand the full glare of critical *professional* judgment and condemnation for unprofessional, undignified, unsupported, or offensive utterances. He must have the right to be as ungloriously wrong, and suffer the *professional* consequences thereof, as to be gloriously right and receive the acclaim of his *professional colleagues* therefore. Thus when abuses occur, and the *public* image of a great university is somewhat tarnished as a result thereof, it must be recognized that the larger gain is in the brighter image of the university presented to the scholarly world of an institution dedicated to the advancement of knowledge and learning, and one willing to pay the price for strict adherence to this ideal.

revision date of "10-31-63" attached to and incorporated in the aforesaid Project Application dated September 27, 1963 shall be an official Exhibit "A" Property Map for purposes of this project, and that, accordingly, the Exhibit "A" Property Map bearing latest revision date of "1/18/61" shall be considered to be of historical-record significance only and to be superseded by the said "10-31-63" revision.

14. It is understood and agreed by and between the parties hereto that the United States shall not make, nor shall it be obligated to make, final grant payment hereunder or any payment representing the United States' share of the respective costs of acquiring Areas R, S, and T, as the same are delineated on the aforesaid Exhibit "A", until the Sponsor shall have submitted evidence satisfactory to the FAA of fee simple title satisfactory to the FAA in and to the said Areas R, S, and T, or of the respective costs of acquiring Tracts 1, 2, 3, and 4, as the same are delineated on the aforesaid Exhibit "A", until the Sponsor shall have submitted evidence satisfactory to the FAA of easement interests satisfactory to the FAA in and over each of said Tracts 1, 2, 3, and 4.
15. It is understood and agreed by and between the parties hereto that, insofar as the above-described construction work is concerned, this Grant Offer is issued on the basis of preliminary plans; the Sponsor hereby covenants and agrees that on or before April 15, 1964, it will submit final plans and specifications therefor. It is understood and agreed by and between the parties hereto that the project construction work shall not be advertised or commenced until such final plans and specifications have been so submitted and have been approved by the FAA. It is further understood and agreed by and between the parties hereto that any reference herein or in the aforesaid Project Application dated September 27, 1963, to plans and specifications shall mean such final plans and specifications as shall have been so submitted and approved.
16. It is hereby understood and agreed by and between the parties hereto that the United States shall not make, nor shall it be obligated to make any payment representing the United States' share of the costs of accomplishing the project obstruction-removal work until the Sponsor has submitted evidence satisfactory to the FAA that such work has been completed and that the Sponsor held a property interest or other right permitting it to go on the land concerned and perform such work.
17. The Sponsor hereby covenants and agrees that the installation of perimeter fencing around the ALS site shall not be commenced until the Sponsor has submitted evidence satisfactory to the FAA of fee simple title satisfactory to the FAA in and to Areas R, S, and T, as the same are delineated on the aforesaid Exhibit "A".
18. The Board of Trustees of the University of Illinois and the State of Illinois Department of Aeronautics hereby covenant and agree that they will use their good offices to obtain at as early a time as feasibly may be, the Amendment of the Airport Approach and Zoning Plans and corresponding regulations of the County of Champaign, Illinois dated November 16, 1944, to conform with the approach plans, areas and profiles as shall be applicable upon the completion of this project.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Federal Airport Act, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer and shall remain in full force and effect throughout the useful life of the facilities developed under the Project but in any event not to exceed twenty years from the date of said acceptance.

3. That the Project Application, dated September 27, 1963, executed and submitted to the Federal Aviation Agency by The Board of Trustees of the University of Illinois, relating to FAA Project No. 9-11-026-C404, including all the statements, representations, warranties, covenants, and agreements, contained therein, be and the same is hereby ratified and adopted.
4. That the Agency and Participation Agreement, attached thereto and by reference made a part thereof, entered into on the 27th day of September, 1963, by The Board of Trustees of the University of Illinois and by the State of Illinois, Department of Aeronautics, be and the same is hereby confirmed and ratified.

On motion of Mr. Swain, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner; not voting, Mr. Johnston.

ESTATE OF ANNA M. GULICK, DECEASED

(16) On June 4, 1963, the Probate Court of McLean County, Illinois, entered an order admitting to probate a will dated September 17, 1954, and a codicil thereto dated December 1, 1960, as the Last Will and Testament of Anna M. Gulick, deceased. The University is not a beneficiary under these instruments. The June 4, 1963, order also denied probate to a document dated September 2, 1960, purporting to be Mrs. Gulick's last will and testament, under which certain property is disposed of to individuals and the residuary estate is placed in trust with the income to be divided equally among the University of Illinois, Northwestern University, and Illinois Wesleyan University. The latter institution is a beneficiary under both instruments but would take a greater share under the documents admitted to probate by the June 4, 1963, action of the Probate Court.

The Legal Counsel states that preliminary investigation indicates that the September 2, 1960, instrument favoring the University may, in fact, be the last will of the decedent. He states further that, because of limitations on the extent of evidence admissible in the probate court, the validity of the documents admitted to probate should be determined in a separate proceeding filed in the Circuit Court of McLean County, Illinois. He recommends that the University join with Northwestern University in instituting a suit to contest the documents admitted as Mrs. Gulick's will, and requests authority to employ such special legal counsel as he may deem necessary or appropriate to assist in the prosecution of the same.

I concur.

On motion of Mr. Johnston, this recommendation was approved.

QUARTERLY REPORT OF THE COMPTROLLER

(18) The Comptroller presented his quarterly report to the Board as of December 31, 1963.

AGREEMENTS WITH ILLINOIS BUILDING AUTHORITY

(21) The Illinois Building Authority, created by the General Assembly in 1961, is a separate public corporation empowered to construct such buildings and facilities as the General Assembly shall declare to be in the public interest. The Authority is to finance such construction by the issuance and sale of bonds, serviced and retired from revenues solely derived from the lease of such facilities to state agencies and institutions, including the University. The Illinois Building Authority Act provides that rentals under such leases are to be paid solely from appropriations for that purpose by the General Assembly and from any revenues derived from the operation of the leased premises.

In 1963 the General Assembly declared the following University of Illinois buildings and projects to be in the public interest, thereby indicating that the funding of these projects was to be by the Illinois Building Authority.

1. Construction of Civil Engineering Building, Urbana-Champaign...	\$ 4 216 000
2. Acquisition of land for building sites, Urbana-Champaign.....	1 000 200
3. Plans and planning to complete architectural studies, Congress Circle, Chicago	900 000
4. Equipment for University of Illinois buildings constructed from Universities Building Fund.....	4 799 500
5. Construction of Veterinary Medicine Clinic and Hospital, Urbana-Champaign	4 000 000
<i>Total</i>	<u>\$14 915 700</u>

The General Assembly also appropriated to the University of Illinois \$1,790,000 for the payment of rentals on the leases for these buildings and projects to be executed by the University with the Illinois Building Authority for the 1963-65 biennium.

Under the Act the University will transfer jurisdiction and title to land it now owns and on which the Civil Engineering Building and the Veterinary Medicine Hospital and Clinic Buildings will be located to the Illinois Building Authority.

The leases will provide that rental is payable only out of appropriations made for such purposes by the General Assembly or from revenues derived from the operation of the facilities. Each lease will contain biennial renewal clauses to coincide with the anticipated continuing appropriations by the General Assembly. When the rental payments under the lease total the amounts indicated for each project, plus administrative, legal, interest, and debt retirement costs of the Authority, title to the properties will be conveyed to the University.

The Vice-President and Comptroller, the Director of the Physical Plant, and the Legal Counsel recommend that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents for these purposes, and that the following resolution be adopted.

I concur.

Resolution

WHEREAS the Illinois Building Authority, a body corporate and politic of the State of Illinois created by the General Assembly of the State of Illinois, is empowered to acquire by purchase or otherwise, construct, complete, remodel, maintain, and equip any and all buildings and other facilities as the General Assembly by law declares to be in the public interest; and

WHEREAS in accordance with the Illinois Building Authority Act the Seventy-third General Assembly of the State of Illinois has declared the following University of Illinois projects to be in the public interest:

Construction of Civil Engineering Building, Urbana-Champaign,
Acquisition of land for building sites, Urbana-Champaign,
Plans and planning to complete architectural studies, Congress Circle, Chicago,
Equipment for University of Illinois buildings constructed from Universities Building Fund,
Construction of Veterinary Medicine Clinic and Hospital Building, Urbana-Champaign,

and

WHEREAS The Board of Trustees of the University of Illinois, a body corporate and politic of the State of Illinois, will be requested by the Illinois Building Authority to enter into leases, transfer jurisdiction of real estate, and take other actions to carry out and complete the above projects in accordance with the Illinois Building Authority Act;

Now, Therefore, be it and it is hereby resolved by The Board of Trustees of the University of Illinois as follows:

Section 1. That the Illinois Building Authority be and it hereby is requested to provide the foregoing projects and facilities for and on behalf of the University of Illinois.

Section 2. That the Comptroller and Secretary of this Board of Trustees be, and they hereby are, authorized to execute, acknowledge, and deliver in the name and on behalf of this corporation such instruments of conveyance, lease, contract, or other document or documents as are necessary or appropriate in order to provide for the carrying out of the foregoing projects and facilities by the Illinois Building Authority.

Section 3. That during any period in which this Board of Trustees is not in session, its Executive Committee be empowered to act for the entire Board and on its behalf involving any action between this Board and the Illinois Building Authority concerning real estate related to the foregoing projects and facilities.

On motion of Mr. Swain, authority was given as recommended, and the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

TRANSFER OF PROPERTY FOR ADDITION TO WATER RESOURCES BUILDING

(22) Section 62 of Chapter 127 of the Illinois Revised Statutes provides that the functions and duties formerly exercised by the State Water Survey are vested in the Department of Registration and Education and shall continue to be exercised at the University of Illinois in buildings provided by the Trustees.

In 1963 the General Assembly declared it to be in the public interest that the Illinois Building Authority construct an Addition to the Water Survey Building in Champaign on behalf of the Department of Registration and Education. Section 4 of the Illinois Building Authority Act, as amended, provides:

"Any department, board, commission, agency, or other officer of this State or the Board of Trustees of the University of Illinois, the Board of Trustees

of Southern Illinois University or the Teachers College Board may transfer jurisdiction of or title to any property under its or his control to the Authority when such transfer is approved, in writing, by the Governor as being advantageous to the State."

The Department of Registration and Education has requested the Board of Trustees of the University of Illinois to transfer to the Illinois Building Authority jurisdiction and title to property now owned by the University and on which the Addition to the Water Survey Building is to be constructed.

The Vice-President and Comptroller and the Director of the Physical Plant recommend that such request be complied with on condition that title to the property revert to the University of Illinois when the Department of Registration and Education has completed the rental payments required by its lease with the Illinois Building Authority.

I concur and recommend the adoption of the following resolution.¹

On motion of Mr. Johnston, this recommendation was approved and the resolution submitted was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**STATEMENT BY MR. HOWARD W. CLEMENT,
PRESIDENT OF THE BOARD**

Publication of an article by a University Professor of the Classics on the subject of the federal government has resulted in nationwide publicity and public reaction which have been major concerns of every member of the Board of Trustees.

In view of this widespread public reaction and because of many inquiries by citizens to individual Board members, the matter, although not on the agenda or officially before this Board at this time, must receive attention.

We have expressed our concerns to the President and he advises me that he has prepared a statement on the matter for presentation at this time.

**STATEMENT BY DR. DAVID D. HENRY,
PRESIDENT OF THE UNIVERSITY**

During the past week, a member of the faculty in Classics at the University of Illinois has been involved in nationwide publicity concerning an article on the federal government which he published.

Mr. Revilo Oliver, in this article, wrote on a subject beyond his University responsibilities, as a private citizen, for a non-university journal. Ordinarily, the University takes no notice of a professor's comment or conduct as a citizen. His right to dissent, to express unorthodox views, and to criticize is not only recognized, it is protected by the tradition of academic freedom at the University of Illinois, in the academic world, and by the Statutes governing the University.

That Mr. Oliver's views are not shared by this academic community is certain. I believe my colleagues agree, as I said earlier, that his unsupported accusations, and his unreasoned and vitriolic attack on the character and patriotism of President Kennedy are beyond the bounds of good taste in public comment and the normal proprieties of public

debate. Mr. Oliver's expression raises questions as to whether he has complied with the expectations for professional responsibility.

Some, outside the University community, do not understand that academic freedom and its corollary, academic responsibility, have evolved for the protection of both the student and the teacher, and are essential to the search for truth.

When, as in the case of Mr. Oliver's article, massive public reaction occurs there is a tendency for those not familiar with the concepts of academic freedom, and the reasons for its existence, to formulate judgments based on issues and standards which do not apply in the academic environment.

I would make clear, however, that observance of professional standards is expected, but by custom this is a matter for professionals to consider.

Earlier I indicated that there was nothing concerning Mr. Oliver's statement before me as President. Under the procedures of the University, there is still nothing before me. However, I plan to ask the Urbana Senate Committee on Academic Freedom and Tenure to review the situation and give me their advice.

MOTION OF MRS. FRANCES B. WATKINS, MEMBER OF THE BOARD

I move that the Board endorse the President's statement. It makes three points clear:

1. Mr. Oliver did not speak for the University, its faculty, the administration, or this Board;
2. The University strongly supports the principles of academic freedom and established procedures which require that no action be taken without an opportunity for prior faculty consultation;
3. That the administration and the Board are now seeking faculty advice.

This motion was unanimously adopted.

MINUTES APPROVED

The Secretary presented the minutes of the meeting of the Board of Trustees on June 19, 1963, press proof copies of which have previously been sent to the Trustees.

On motion of Mr. Johnston, these minutes were approved as printed on pages 531 to 676, inclusive.

APRIL BOARD MEETING

On motion of Mr. Swain, the Board voted to hold the April meeting at the Chicago Undergraduate Division at Navy Pier on Wednesday, April 15, 1964.

RECESS

On motion of Mr. Pogue, the Board recessed to await a report from Chicago on the bids on the Housing Revenue Bonds to finance construction of the Graduate Residence Halls.

When the Board reconvened, the same members of the Board, officers of the University, and officers of the Board were present as recorded in the beginning of these minutes.

HOUSING REVENUE BONDS OF 1964, SERIES A AND B

(23) Bids were received at 11:00 a.m., February 19, 1964, for the sale of \$1,440,000 Housing Revenue Bonds of 1964, Series A, and \$2,660,000 Housing Revenue Bonds of 1964, Series B, to finance construction of the Graduate Residence Halls Unit 3.

The Vice-President and Comptroller recommends that the Series A Bonds be sold to F. S. Smithers and Company, New York, and Associates at a price of \$1,437,681.60 plus accrued interest and at an effective interest rate of 3.6564 per cent, which represents the lowest interest cost to the University, and that \$1,480,000 of Series B bonds maturing in 1966 through 1993 be sold to F. S. Smithers and Company and Associates at par plus accrued interest and at an effective interest rate of 3.564 per cent. The Series B Bonds are awarded on the basis of the lowest interest cost to the University for the largest number of bonds bid upon. A tabulation of the bids received is presented and a copy has been filed with the Secretary of the Board for record.

The Vice-President and Comptroller presents a Loan Agreement (Contract No. H(402)-1795) with the Federal Housing and Home Finance Agency and recommends that he be authorized to execute it. In accordance with the provisions of the Loan Agreement, he recommends that \$1,180,000 Series B Bonds maturing in 1994 through 2003 be sold to the Housing and Home Finance Agency at par and accrued interest and at an interest rate of 3½ per cent.

The Vice-President and Comptroller also presents the Seventh Supplemental Housing Bond Resolution supplementing the Resolution approved December 17, 1958, and creating \$1,440,000 Housing Revenue Bonds of 1964, Series A, and \$2,660,000 Housing Revenue Bonds of 1964, Series B, and recommends its adoption.

He further recommends that the Board: (1) authorize the execution of the bonds by A. J. Janata, Secretary of the Board, by facsimile signatures of the President of the Board, and by the facsimile signatures of Frances B. Watkins and Timothy W. Swain, members of the Board; and (2) ratify and confirm all actions taken or to be taken by the officers and members of the Board in connection with the sale and delivery of the bonds to the purchasers indicated above.

I concur.

On motion of Mr. Johnston, these recommendations were approved and the Seventh Supplementary Housing Bond Resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

ILLINOIS HOUSING REVENUE BOND OF 1964
(Series)

Number \$5,000

THE BOARD OF TRUSTEES OF THE UNIVERSITY OF ILLINOIS, a body corporate, created and existing under the laws of the State of Illinois, for value received promises to pay to bearer, but only out of the Housing Revenue Bond Fund, as hereinafter provided for, and not otherwise, the principal sum of FIVE THOUSAND DOLLARS (\$5,000), on October 1, 19....., and to pay interest on said sum from the date hereof until paid at the rate of per cent (.....%) per annum, payable October 1, 1964, and semiannually thereafter on the first days of April and October in each year until the principal amount hereof has been fully paid. Interest accruing on this bond on and prior to the maturity date hereof shall be payable on presentation and surrender of the interest coupons hereto attached as they subsequently become due, but no interest shall accrue on this bond after the maturity hereof unless this bond shall be presented for payment and be not then paid.

Both principal hereof and interest hereon are hereby made payable in any coin or currency which, on the respective dates of payment of such principal and interest, is legal tender for the payment of debts due the United States of America, at The First National Bank of Chicago (hereinafter called "Trustee"), or its successor in trust under the Resolution hereinafter referred to, in the City of Chicago, Illinois, or at the option of the holder, at The Chase Manhattan Bank, in the Borough of Manhattan and City and State of New York.

This bond is one of an authorized series of Dollars (\$.....) principal amount of Housing Revenue Bonds of 1964, Series, which together with the 1964 Series Bonds constitute an issue of Four Million One Hundred Thousand Dollars (\$4,100,000), issued or to be issued pursuant to a Bond Resolution of The Board of Trustees of the University of Illinois duly adopted December 17, 1958, as supplemented by First through Seventh Supplemental Resolutions thereto duly adopted June 23, 1959, October 21, 1959, June 14, 1960, May 17, 1961, May 24, 1962, October 17, 1962, and February 19, 1964, respectively (said Bond Resolution as so supplemented being herein referred to as the "Resolution"), for the purpose of providing funds for paying the cost of construction and equipping student and staff housing and related facilities. Said Resolution, among other things, provides for the issuance of additional bonds pursuant thereto in the manner and upon the terms and conditions more fully set forth therein.

The bonds of this Series are redeemable prior to maturity as a whole or in part on April 1, 1974, or on any interest payment date thereafter in the inverse order in which they mature at the option of The Board of Trustees of the University of Illinois at par and accrued interest to the date of redemption and a premium as follows: Four per cent (4%) of the principal amount thereof if redeemed April 1, 1974 through October 1, 1978; three per cent (3%) of the principal amount thereof if redeemed April 1, 1979 through October 1, 1983; two per cent (2%) of the principal amount thereof if redeemed April 1, 1984 through October 1, 1988; one and one-half per cent (1½%) of the principal

amount thereof if redeemed April 1, 1989 through October 1, 1993; one per cent (1%) of the principal amount thereof if redeemed April 1, 1994 through October 1, 1998; and without premium if redeemed April 1, 1999 or thereafter.

Notice of redemption of any or all of said bonds shall be published once a week for two successive calendar weeks, the first such publication to be not less than thirty days prior to the date of redemption, such publication to be made in one daily newspaper printed in the English language and published and of general circulation in the City of Chicago, Illinois, and also in a financial newspaper printed in the English language and published and of general circulation in the Borough of Manhattan, City and State of New York, and when this bond or any of the bonds of such authorized issue shall have been duly called for redemption, interest thereon shall cease from and after the specified redemption date if redemption monies are available for the payment of all bonds called for redemption.

This bond and the series of which it forms a part is issued under the authority of The Board of Trustees of the University of Illinois to issue and sell revenue bonds under the provisions of paragraphs 48.1 through 48.7 of Chapter 144 of the Illinois Revised Statutes, 1963, and all laws amendatory thereof and supplemental thereto and the Resolution above referred to.

This bond is payable, both as to principal and interest, only from the revenues required to be credited to the Housing Revenue Bond Fund as provided in the Resolution, which revenues are to be derived from (1) the operation of the revenue producing facilities constructed, completed, and equipped with the proceeds of this bond issue, bonds heretofore issued pursuant to the Resolution and additional bonds which may hereafter be issued pursuant to the Resolution, (2) student tuitions authorized by law to be retained in the University treasury, but not in excess of \$1,220,000 annually plus such additional sums as may be specified in any supplemental resolution creating or authorizing additional bonds to be issued pursuant to the Resolution as so supplemented, and (3) certain existing revenue producing buildings of the University after the prior payment of other indebtedness to the extent set forth in the Resolution. This bond and the series of which it forms a part do not constitute an indebtedness of said University of Illinois, The Board of Trustees of the University of Illinois, or the State of Illinois within any constitutional or statutory limitation, and neither the taxing power nor the general credit of said University, of said Board of Trustees or of the State of Illinois is pledged to the payment of this bond or the interest thereon.

This bond shall pass by delivery unless it is registered as to principal in the name of the holder on the books of registration of said University kept at the office of the Trustees in Chicago, Illinois, such registration to be noted on the back hereof. After such registration no transfer hereof shall be valid unless made on such books by the registered holder in person or by attorney duly authorized in writing and similarly noted hereon, but this bond may be transferred in like manner to bearer, and thereupon transferability by delivery shall be restored and it may again from time to time be registered or transferred to bearer as before. Such registration, however, shall not restrict the negotiability of the coupons hereto appertaining, but such coupons shall be transferable by delivery merely and payable to the bearer hereof.

Subject to the provisions for registration and transfer, this bond and all other bonds of this issue shall have all of the qualities of negotiable instruments, and during such time as this bond is payable to bearer, the same and each of the coupons hereto appertaining may be negotiated by delivery by any person having possession thereof, and any holder who shall have taken this bond while so payable to bearer or any of said coupons from any person for value and without notice shall thereby acquire absolute title to this bond or to such coupons, as the case may be, free of any defenses enforceable against any prior holder and free from all equities and claims of ownership of any such prior holder, and The Board of Trustees of the University of Illinois, the Trustee, and any paying agent may deem and treat the bearer of this bond, or, if registered, the person in whose name it is registered, and the bearer of any interest coupons appertaining hereto as the absolute owner hereof for all purposes and shall not be affected by any notice to the contrary whether this bond or any coupon appertaining thereto be overdue or not.

The bonds of this series are issuable as coupon bonds registrable as to

principal only in the denomination of \$5,000 and as registered bonds without coupons in the denomination of \$5,000 or a multiple thereof. Each fully registered bond without coupons shall be of a single maturity. The coupon bonds and the registered bonds without coupons are interchangeable for bonds of the same interest rate and maturity upon presentation thereof for such purpose by the holder or registered owner at the principal office of the Trustee in the City of Chicago, Illinois, and upon payment of charges and otherwise as provided in the Resolution.

The rights and obligations of the University and of the holders of the bonds may be modified or amended at any time with the consent of The Board of Trustees of the University of Illinois and of the holders of sixty-six and two-thirds per cent (66 $\frac{2}{3}$ %) in principal amount of outstanding bonds in the manner, to the extent, and upon the terms and conditions provided in the Resolution; provided that no such modification or amendment shall (i) extend the maturity of or reduce the interest rate on or otherwise alter or impair the obligation of the University to pay the principal, interest or redemption premiums, if any, at the time and place and at the rate and in the currency provided therein of any bond without the express consent of the holder, or (ii) permit the creation of any mortgage or pledge or lien on the facilities, or upon any income therefrom or other funds pledged or held under the Resolution, except as permitted by the Resolution, other than the lien and pledge created thereunder, or (iii) permit the creation by The Board of Trustees of the University of Illinois of any preference or priority of any bond or bonds over any other bond or bonds or coupon or coupons over any other coupon or coupons, or (iv) reduce the percentage in principal amount of bonds required for the affirmative vote or written consent to an amendment or modification without the consent of the holder of this bond; all as more fully set forth in the Resolution.

The Board of Trustees of the University of Illinois hereby covenants with the holder of this bond that it will keep and perform all the covenants and agreements in the Resolution adopted by it, authorizing the issuance of this bond and the series of which it forms a part, and hereby irrevocably obligates itself to administer the said income and revenue derived from the operation of said facilities, as provided for in and by said Resolution, and to establish from time to time parietal rules, rents, and charges for the use of said facilities and to maintain and collect rents and charges and to withhold student tuitions, sufficient to pay the reasonable cost of operating and maintaining said facilities, and pay the principal of and interest upon all revenue bonds which by their terms are payable from such revenues, until all of such bonds have been paid in full, both as to principal and interest.

It is hereby certified and recited and declared that all acts, conditions, and things required to exist, to happen, and to be performed, precedent to and in the issuance of this bond, have existed, have happened, and have been performed in due form, time, and manner, as required by law and the applicable resolutions of The Board of Trustees of the University of Illinois, and that provision has been made for setting aside the income and revenue to be derived from the operation of said facilities to be applied in the manner hereinabove set forth.

IN WITNESS WHEREOF, The Board of Trustees of the University of Illinois has caused this bond to be executed by the facsimile signatures of its President and two of its members, the corporate seal of the University of Illinois to be hereto affixed (or a facsimile thereof to be reproduced hereon), and attested by its Secretary, and has caused the interest coupons hereto attached to be executed by the facsimile signatures of said President and Secretary, and this bond to be dated as of the 1st day of April, 1964.

EXECUTIVE SESSION

On motion of Mr. Williamson, an executive session was ordered for consideration of the following items of business.

PURCHASE OF PROPERTY AT 1210 WEST CALIFORNIA AVENUE. URBANA

(1) The Director of the Physical Plant and the Vice-President and Comptroller recommend that the Board of Trustees request the Illinois Building Authority to purchase for the University the property at 1210 West California Avenue, Urbana, at a price not to exceed \$100,000, in accordance with the Illinois Building Authority Act.

The property consists of a lot approximately 78.5 feet wide by 184 feet (14,522 square feet) deep and is improved with a three-story and basement brick apartment building with ten apartment units. The land area is adjacent to the new Morrill Hall and will ultimately be used for expansion of the biological sciences complex. Until the land is needed for building construction, the property can be used for temporary offices plus parking.

The price is within appraisals and has been reviewed with and approved by the Committee on Buildings and Grounds.

Possession will be delivered not later than September 1, 1964.

I concur.

On motion of Mr. Pogue, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**PURCHASE OF PROPERTY AT 1105 WEST SPRINGFIELD AVENUE,
URBANA**

(2) The Director of the Physical Plant and the Vice-President and Comptroller recommend the purchase of the property at 1105 West Springfield Avenue, Urbana, needed for the next unit of the Coordinated Science Laboratory, at a price of \$23,000, and the assignment of \$23,000 from funds received as reimbursement for indirect costs on Coordinated Science Laboratory contracts (Indirect Costs General).

The Board of Trustees on September 18, 1963, authorized condemnation proceedings for acquisition of the property. However, through subsequent negotiations, the owner has agreed to accept \$23,000 which is within the limit previously approved by the Committee on Buildings and Grounds, with the understanding that the owner will give possession of the land required for construction on or before April 1, 1964, and will give possession of the house and garage on or before September 1, 1964.

I recommend authorization of this purchase and assignment of funds, and further recommend that the Board rescind its resolution of September 18, 1963, with respect to condemnation proceedings for acquisition of the property.

I concur.

On motion of Mr. Pogue, the purchase of this property on the terms indicated and the requested assignment of funds were authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**SETTLEMENT OF CONDEMNATION SUIT FOR PROPERTY
AT 1103 WEST SPRINGFIELD AVENUE, URBANA**

(3) On June 19, 1963, the Board of Trustees authorized condemnation proceedings for the acquisition of the property at 1103 West Springfield Avenue, Urbana, and a condemnation suit was subsequently filed in the Circuit Court of Champaign County (Case No. 63-L-319).

Immediately prior to the selection of the jury, the owners indicated a willingness to accept \$29,500 for the property, which is \$700 above the price previously approved by the Committee on Buildings and Grounds for acquisition by negotiation, and to deliver possession to the University on or before April 1, 1964, subject to the right to remove the conversion unit in the furnace, kitchen cabinets, and bathroom fixtures prior to that date.

The Director of the Physical Plant, the Vice-President and Comptroller, and the Legal Counsel recommend acceptance of the settlement offer and the assignment of \$29,500 from funds received as reimbursement for indirect costs on Coordinated Science Laboratory contracts (Indirect Costs General).

I concur.

On motion of Mr. Pogue, this recommendation and the assignment of funds were approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**SETTLEMENT OF CONDEMNATION SUIT FOR PROPERTY
AT 1103½ WEST SPRINGFIELD AVENUE, URBANA**

(4) On June 19, 1963, the Board of Trustees authorized condemnation proceedings for the acquisition of the property at 1103½ West Springfield Avenue, Urbana, and a condemnation suit was subsequently filed in the Circuit Court of Champaign County (Case No. 63-L-324).

Immediately prior to the selection of the jury, the owners indicated a willingness to accept \$17,500 for the property, the price previously approved by the Committee on Buildings and Grounds for acquisition by negotiation, and to deliver possession to the University on or before April 1, 1964, subject to the right to remove the house prior to that date. Since the house will have to be removed prior to construction, this provision in the purchase contract will be to the University's advantage.

The Director of the Physical Plant, the Vice-President and Comptroller, and the Legal Counsel recommend acceptance of the settlement offer and the assignment of \$17,500 from funds received as reimbursement for indirect costs on Coordinated Science Laboratory contracts (Indirect Costs General).

I concur.

On motion of Mr. Johnston, this recommendation and the assignment of funds were approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**SETTLEMENT OF CONDEMNATION SUIT FOR PROPERTY
AT 1303 WEST STOUGHTON STREET, URBANA**

(5) On June 19, 1963, the Board of Trustees authorized condemnation proceedings for the acquisition of the property at 1303 West Stoughton Street, Urbana, and a condemnation suit was subsequently filed in the Circuit Court of Champaign County (Case No. 63-L-325). Immediately prior to the selection of the jury, the owners indicated a willingness to accept \$17,300 for the property, which is \$50 above the price previously approved by the Committee on Buildings and Grounds for acquisition by negotiation, and to deliver possession to the University on or before March 15, 1964.

The Director of the Physical Plant, the Vice-President and Comptroller, and the Legal Counsel recommend acceptance of the settlement offer.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Swain, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**SETTLEMENT OF CONDEMNATION SUIT FOR PROPERTY
AT 1304 WEST STOUGHTON STREET, URBANA**

(6) On June 19, 1963, the Board of Trustees authorized condemnation proceedings for the acquisition of the property at 1304 West Stoughton Street, Urbana, and a condemnation suit was subsequently filed in the Circuit Court of Champaign County (Case No. 63-L-320). Immediately prior to the selection of the jury, the owners indicated a willingness to accept \$24,700 for the property, the same price previously approved by the Committee on Buildings and Grounds for acquisition by negotiation, and to deliver possession to the University on or before March 15, 1964, subject to the right to remove the furnace, storm windows and plumbing fixtures prior to that date.

The Director of the Physical Plant, the Vice-President and Comptroller, and the Legal Counsel recommend acceptance of the settlement offer.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Johnston, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**SETTLEMENT OF CONDEMNATION SUIT FOR PROPERTY
AT 1306 WEST STOUGHTON STREET, URBANA**

(7) On May 15, 1963, the Board of Trustees authorized condemnation proceedings for the acquisition of the property at 1306 West Stoughton Street, Urbana, and a condemnation suit was subsequently filed in the Circuit Court of Champaign County (Case No. 63-L-323). Immediately prior to the selection of the jury, the owners indicated a willingness to accept \$25,300 for the property, the same price previously approved by the Committee on Buildings and Grounds for acquisition by negotiation, and to deliver possession to the University on or before March 15, 1964.

The Director of the Physical Plant, the Vice-President and Comptroller, and the Legal Counsel recommend acceptance of the settlement offer.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Swain, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

**ACQUISITION OF THE PROPERTY AT 1306 WEST SPRINGFIELD
AVENUE, URBANA**

(8) The Board of Trustees has authorized condemnation proceedings for acquisition of the property at 1306 West Springfield Avenue, Urbana.

The Legal Counsel on January 15, 1964, reported to the Committee on Buildings and Grounds the willingness of the trustee-owner to recommend to the beneficiaries of the trust that \$42,500 be accepted for the property if this price were offered by the University. The Committee voted to reject the proposal and the owner was so advised.

Condemnation proceedings were filed in the Circuit Court of Champaign County (Case No. 64-L-30). The trustee-owner now has formally submitted the same proposal as a compromise offer to settle the case without the necessity of completing the condemnation proceedings at a price of \$42,500 subject to entering into a contract on or about the first of March, 1964, and the right to retain position through June 30, 1964.

This price is in excess of the amount previously approved by the Committee on Buildings and Grounds for acquisition by negotiation and is approximately \$9,000 above the median appraisal received.

The Director of the Physical Plant and the Vice-President and Comptroller recommend that this settlement offer be rejected and that acquisition by condemnation be completed.

I concur.

On motion of Mr. Williamson, the Board voted to reject the settlement offer.

ADDITIONAL LAND FOR CONGRESS CIRCLE

(9) The University's present contract with the city of Chicago, Department of Urban Renewal, for acquisition of land for the Congress Circle Campus does not include the block bounded by the Dan Ryan Expressway, Roosevelt Road, Halsted and Grenshaw Streets, although the City has included that area in its redevelopment plan. There are eleven parcels of property in this block, including the Central National Bank and the Twelfth Street Department Store. The entire block is available for acquisition and it is desirable that the University purchase the additional land now.

As a result of negotiations with the Department of Urban Renewal, the City has agreed to sell to the University the entire block for \$700,000 and to raze all

buildings with the exception of the Central National Bank Building which is relatively new and modern.

Funds are available in the state capital appropriations to the University for the Universities Building Fund for this purchase.

If this additional land is acquired, it is proposed that the Central National Bank Building be retained and remodeled to provide temporary student union facilities — such as lounge areas, food service, and bookstore — pending completion of a new student union, and subsequently for general storage and temporary staff office facilities for a period not to exceed ten years.

The Director of the Physical Plant and the Vice-President and Comptroller recommend authorization of an amendment of the University's contract with the city of Chicago for the acquisition of land for the Congress Circle Campus to provide for the purchase of the additional block indicated at a price of \$700,000. The Committee on Buildings and Grounds has previously been consulted and supports this recommendation. The sale price has been approved by the Federal Urban Renewal Administration.

I concur.

On motion of Mr. Swain, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

PURCHASE OF PROPERTY AT 1109 WEST SPRINGFIELD AVENUE, URBANA

(10) The Director of the Physical Plant and the Vice-President and Comptroller recommend purchase of the property at 1109 West Springfield Avenue, Urbana, at a price of \$29,210, the owner to retain possession to July 1, 1964, and to have the right to remove the furnace on or before delivery of title to the University.

The property is a lot 56½ feet by 132 feet and is improved with a two-story frame dwelling. The land area is needed as part of the site for the expansion of the Coordinated Science Laboratory.

The price is within the range of appraisals previously approved by the Committee on Buildings and Grounds for a negotiated purchase.

Funds are available from indirect costs received as reimbursement on Coordinated Science Laboratory contracts and from general indirect costs reimbursements. An assignment of funds from these sources is also recommended.

I concur in these recommendations.

On motion of Mr. Hughes, these recommendations were approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Jones, Mr. Kerner.

TERMINATION OF EMPLOYMENT OF RESIDENT AT RESEARCH AND EDUCATIONAL HOSPITALS

(11) On December 27, 1963, the Medical Director of the Research and Educational Hospitals terminated the employment of Dr. Arthur I. Broder as a full-time resident at the Research and Educational Hospitals on the basis of his admitted violation of regulations prohibiting private practice and his subsequent falsification to the head of his department concerning his participation therein. The Medical Director's action was taken after notice and hearing given to the individual, who thereafter delivered written notification to the Vice-President for the Medical Center that an appeal was desired and requested a hearing before the Board of Trustees. The individual has been advised that his request would be treated as a petition addressed to the discretion of the Board to grant a review of his case and I now present the same for that purpose.

The Medical Director's action in terminating the employment was taken upon the recommendation of each of the Head of the Department of Otolaryngology (to which the resident had been assigned), the Administrative Council of that Department, the Hospital Council, and the Executive Committee of the Research and Educational Hospitals. The Vice-President for the Medical Center has reviewed the matter and does not recommend modification of the action taken by the Medical Director.

The employment of residents at the Research and Educational Hospitals is considered to be an administrative function delegated to the Medical Director. In the case before you there is no dispute regarding the facts, the individual having admitted the charges of participating in an operation at a private hospital and subsequently falsely denying to the Head of the Department of Otolaryngology that he had done so. His principal contention has been throughout that the sanction imposed in terminating his employment in the last year of his residency is unnecessarily severe. The action taken by the Medical Director followed the recommendation not only of the department directly involved but also of the entire administrative organization of the Research and Educational Hospitals. The Vice-President in charge of the Medical Center campus has supported the termination.

Mindful of the appraisals and recommendations noted above, and mindful that even should one dissent from the decision of the Department Head and the Director of the Hospitals, these officers could not properly, under present rules, be directed to take a course of action against their professional judgment.

I recommend that the Board decline to exercise its discretion to review this case.

On motion of Mrs. Watkins, the Board voted to decline to exercise its discretion to review this case.

On motion of Mr. Williamson, the Board adjourned.

Following adjournment, Professors E. C. Jordan, Head of the Department of Electrical Engineering, Wendell E. Miller, Associate Head, George E. Anner, Willis L. Emery, and Director Ross J. Martin of the Engineering Experiment Station, were guests of the Board at luncheon. Professor Jordan and Director Martin addressed the Board, discussing the growth of the Department of Electrical Engineering since World War II and some of the research programs now under way. Following the luncheon, the Trustees visited the Electrical Engineering Building Addition and the Gaseous Electronics Laboratory.

MASTER PLAN FOR HIGHER EDUCATION IN ILLINOIS

Mr. Johnston offered the following resolution and moved its adoption:

The action of the Board of Higher Education on March 3, 1964, in approving a provisional Master Plan for Higher Education in Illinois is hereby endorsed by the Board of Trustees of the University of Illinois. This Board and the officers of the University have long urged that comprehensive planning for higher education in Illinois be undertaken on a professional basis.

The provisional plan is undergoing revision, at the direction of the Board of Higher Education, and the Trustees do not have the precise language of the revised plan and its official interpretation before them. However, it is the view of the Board of Trustees that the basic recommendations are consistent with the history of higher education in this state and with the main lines of professional opinion on the problems of higher education.

The main items of the provisional plan take into account the existing strengths of the institutions and provide flexible machinery for growth with effective planning and coordination. Moreover, the premises and guidelines are sound and the definition of the tasks incisive and accurate.

The construction inventory—including scope, costs, and priorities—requires further analysis; it appears to be inadequate for the tasks outlined. The estimates on operating costs are conservative. These reservations on the adequacy of the proposed financing, however, do not modify the essence of the plan and the

Board of Trustees commends the provisional recommendations to the attention of the people of the state.

This resolution was unanimously adopted.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board took up consideration of the following reports and recommendations from the President of the University.

PRESIDENT'S REPORT

President Henry presented a report on selected topics of current interest, copies of which were distributed at the meeting, and a copy was filed with the Secretary of the Board.

(13) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$38,753 to the Reliable Plumbing and Heating Company, Champaign, the lowest bidder, for completion of air conditioning installations in the Institute of Labor and Industrial Relations Building, subject to an appropriation of funds for this work.

The Committee on Nonrecurring Appropriations has approved in principle funds for the project. The Physical Plant Department has estimated that \$41,700 will be needed for the contract now being recommended plus other costs.

I recommend award of this contract and assignment of \$41,700 from the General Reserve.

On motion of Mr. Swain, this contract was awarded, and the requested assignment of funds was approved, by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

(14) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$3,335 to the Metalab Equipment Company, Chicago, Illinois, the lowest bidder, for furnishing and setting in place laboratory equipment in the Research and Educational Hospitals.

This work is being done to complete remodeling for teaching and patient care in the Department of Pediatrics in the addition to the Hospitals.

Funds are available in state capital appropriations to the University.

I concur.

On motion of Mrs. Watkins, this contract was awarded by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

Funds are available in the state capital appropriations to the University for 1963-65 from the Universities Building Fund and have been released.

I concur.

On motion of Mr. Johnston, this contract was awarded by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

CLAIM FOR ADDITIONAL COMPENSATION

(16) In 1961 a contract was awarded to F. R. Inskip, doing business as F. R. Inskip and Company, for air-conditioning installations in the construction of the Physics Building and the work is now completed. The contractor has asserted

that he is entitled to additional compensation under the contract on the ground that actions taken by the University required him to do work that was different from or not specified in the contract documents, and thereafter he filed suit in the Circuit Court of Champaign County claiming damages in the amount of \$31,443.93. Negotiations have proceeded with respect to the work in question, and the contractor has now agreed to accept the sum of \$5,950 in full payment and satisfaction of all of his claims against the University under the contract.

The Vice-President and Comptroller, the Director of the Physical Plant, and the Legal Counsel are of the opinion that said amount is reasonable in view of the work performed and recommend that a final settlement between the University and the contractor be approved and authorized on the basis stated.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur.

On motion of Mr. Page, this settlement was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

CONTRACT FOR CIVIL ENGINEERING BUILDING STORM SEWER DIVERSION

(17) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of a contract for \$16,459.25 to Clancy Construction Company, Urbana, the lowest bidder, for construction of a storm sewer diversion around the Civil Engineering Building site, a necessary improvement incidental to construction of the new building.

Funds are available in the state capital appropriations to the University for 1963-65 and have been released.

I concur.

On motion of Mr. Swain, this contract was authorized by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

ADDITION TO CONTRACT FOR CONSTRUCTION OF ADMINISTRATION BUILDING ADDITION

(18) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of \$15,412.50 in the contract with Kuhne-Simmons Company, Inc., for construction of the Administration Building Addition to include installation of condensate piping between the mechanical equipment room in the east basement of the addition and the proposed location of the cooling towers on the roof of the Administration Building West.

Funds are available in the construction budget for this project.

I concur.

On motion of Mr. Johnston, this change in contract was authorized.

ESTATE OF ANNA M. GULICK, DECEASED

(19) On February 19, 1964, the Board approved joining with Northwestern University in instituting a suit to contest the documents admitted to probate as the Last Will and Testament of Anna M. Gulick. Subsequent negotiations involving the University, Northwestern University, the decedent's heirs, the executor of the estate appointed by the Probate Court, and legatees and beneficiaries under the various documents have resulted in a proposal that the University accept \$8,750 in full settlement of all rights it may have in the estate.

The Legal Counsel states that in his opinion the settlement proposal is reasonable in view of the nature of the legal questions involved, the size of the estate, and the expenses that would necessarily be incurred if the University proceeded with the litigation. He recommends that acceptance of the settlement proposal be authorized.

I concur.

On motion of Mr. Hughes, this recommendation was approved.

**EMPLOYMENT OF ARCHITECTS AND ENGINEERS
AT URBANA-CHAMPAIGN**

(20) The Director of the Physical Plant and the Vice-President and Comptroller recommend the employment of the following firms for the services and at the fees indicated:

Delbert R. Smith, Scott L. Seaton, and Milan A. Olach, a partnership doing business as Smith, Seaton, and Associates, Urbana, for miscellaneous architectural services on remodeling or other project work which does not justify separate architectural contracts. The contract will terminate June 30, 1965. The fee for services on any specific project shall not exceed \$5,000 without prior approval of the board. The firm will be paid the time card costs of professional employees plus 100 per cent for overhead and commission.

Payments will be from funds budgeted for the construction of remodeling projects assigned to the architect.

Carroll-Henneman and Associates, Urbana, for engineering services for modernization of electrical supply and distribution systems in Noyes Laboratory, Davenport Hall, and the Natural History Building. The fee will be in accordance with Schedule "A" of mechanical and electrical fees of the Illinois Society of Professional Engineers. The work will include field investigations, cost estimates, plans and specifications, and general supervision of construction.

The Vice-President and Comptroller recommends an assignment of \$10,000 from the General Reserve for the cost of these services. An appropriation for the actual remodeling work will be requested after bids have been taken.

I concur.

On motion of Mr. Johnston, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

**EMPLOYMENT OF ARCHITECTS AND ENGINEERS FOR PLANNING
AT CONGRESS CIRCLE, CHICAGO**

(21) The Director of the Physical Plant and the Vice-President and Comptroller recommend the employment of the following architectural and engineering firms for the projects and at the fees indicated:

Site Development and Coordinating Services for Phase II of Congress Circle—Skidmore, Owings, and Merrill, Chicago, at actual cost of services of technical personnel employed, plus 150 per cent of such costs for overhead and commission. Technical personnel will include partners and all others assigned to the project exclusive of general office employees. The University will reimburse the firm for other expenses incurred at actual costs, including travel, subsistence, and fees of special consultants when authorized. These terms are the same as those in the contract for site development and coordinating services for Phase I.

Heating Plant Addition—Sargent and Lundy, Consulting Engineers, Chicago.

This fee will be on the same basis and terms as the standard charges for previous work.

Funds for these services estimated to cost approximately \$390,000 are available from the state capital appropriations to the University from the Universities Building Fund.

The Committee on Buildings and Grounds has been consulted and supports these recommendations.

I concur.

On motion of Mr. Pogue, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

I concur.

On motion of Mr. Pogue, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Page, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Williamson.

(24) The Board of Trustees on February 19, 1964, authorized the Comptroller and Secretary of the Board of Trustees of the University of Illinois to transfer to the Illinois Building Authority certain property for an addition to the Water Resources Building.

The Illinois Building Authority has since requested that the Board of Trustees and the Department of Registration and Education jointly transfer said real estate and jurisdiction thereof to the Illinois Building Authority pursuant to the Illinois Building Authority Act so that the addition to the Water Resources Building can be constructed thereon.

The Seventy-third General Assembly has declared the construction of such addition for and on behalf of the Department of Registration and Education to be in the public interest.

The Department of Registration and Education has agreed that said real

estate and jurisdiction thereof is to be returned to the University when the terms of the Department's lease with the Illinois Building Authority have been complied with.

The Vice-President and Comptroller and the Director of the Physical Plant recommend that the resolution adopted on February 19, 1964, regarding this transaction be rescinded and that the following resolution be adopted.

I concur.

Resolution

WHEREAS the Seventy-third General Assembly of the State of Illinois has declared it to be in the public interest that the Illinois Building Authority construct an Addition to the Water Survey Building in Champaign, Illinois, for and on behalf of the Department of Registration and Education of the State of Illinois; and

WHEREAS for that purpose it will be necessary for the Illinois Building Authority to acquire the real estate and jurisdiction thereof upon which said Addition to the present Water Survey Building will be located; and

WHEREAS The Board of Trustees of the University of Illinois, a public corporation of the State of Illinois with its principal office in Urbana, Illinois, has been requested by the Director of the Department of Registration and Education to join with that Department in transferring to the Illinois Building Authority jurisdiction of the real estate for the construction of the Addition to the Water Survey Building.

Now, therefore, be it and it is hereby resolved by The Board of Trustees of the University of Illinois as follows:

That the Comptroller and Secretary of The Board of Trustees of the University of Illinois be and they are authorized to execute, acknowledge, and deliver in the name and on behalf of this corporation an instrument of transfer of jurisdiction of the following described property to the Illinois Building Authority, to wit:

OF CIVIL ENGINEERING BUILDING**

(25) The Illinois Building Authority has requested the Board of Trustees of the University of Illinois to transfer the real estate and jurisdiction thereof which constitutes the site of the Civil Engineering Building to be constructed by the Authority for the University under a lease agreement heretofore authorized by the Board.

At the October 26, 1963, meeting, the Board authorized the acquisition of a portion of the site from the city of Urbana with appropriated funds. The Vice-President and Comptroller and the Director of the Physical Plant request authorization to complete such acquisition from general contract reserves instead of appropriated funds.

The Vice-President and Comptroller, the Director of the Physical Plant, and the Legal Counsel also recommend the adoption of the following resolution to authorize the transfer requested by the Illinois Building Authority.

CONTRACTS FOR CONSTRUCTION OF THE CIVIL ENGINEERING BUILDING, PHASE 1

(26) Submitted herewith is a report from the Physical Plant Department of the bids received on February 21 and February 28, 1964, for construction of the Civil Engineering Building, Phase 1, a copy of which is being filed with the Secretary of the Board for record.

In accordance with the Illinois Building Authority Act, the Seventy-third General Assembly of the state of Illinois declared the expenditure of \$4,216,000 for the construction of a Civil Engineering Building at Champaign-Urbana which will be financed by the Illinois Building Authority to be in the public interest. The funds for construction will be provided by the issuance and sale of bonds by the Illinois Building Authority, which bonds will be serviced and retired from revenues from the lease of the facility to the University, and for which lease rental payments the University has received an appropriation. Additional funds are available from a grant from the National Institutes of Health.

The Board has heretofore authorized the transfer of jurisdiction of the building site to the Illinois Building Authority and the execution of a lease of the property back to the University. The lease provides that the Illinois Building Authority will construct the building and the construction bids received should now be assigned to the Authority and recommendations made as to the awards. Accordingly, the Vice-President and Comptroller, the Director of the Physical Plant Department, and the Legal Counsel recommend the adoption of the following resolution.

I concur.

PUBLISHED STATEMENTS OF PROFESSOR REVILO P. OLIVER

President Henry presented the following communications which were previously sent to the members of the Board of Trustees.

TO THE MEMBERS OF THE BOARD OF TRUSTEES:

On February 19 I reported to you that Mr. Revilo Oliver's widely publicized comments on President John F. Kennedy and the Federal Government had stimulated a massive public reaction which, in my view, required official notice.

You will recall that I stated that ordinarily the University takes no notice of a professor's comment or conduct as a citizen. His right to dissent, to express unorthodox views, and to criticize is protected by the tradition of academic freedom at the University of Illinois, in the academic world, and by the Statutes governing the University.

I also indicated, however, that observance of professional standards is expected, even within the protection of academic freedom, and that, in my view, Mr. Oliver's expressions on public affairs raised questions as to whether he has complied with these expectations. I indicated further that since, by custom, the consideration of such questions is a matter for professionals, I would ask the Urbana-Champaign Senate Committee on Academic Freedom and Tenure to review the situation and give me their advice.

The Board of Trustees, by formal action, endorsed my statement as making the following points:

- "1. Mr. Oliver did not speak for the University, its faculty, the administration, or this Board;
2. The University strongly supports the principles of academic freedom and established procedures which require that no action be taken without an opportunity for prior faculty consultation;
3. That the administration and the Board are now seeking faculty advice."

I now submit the report from the Urbana-Champaign Senate Committee on Academic Freedom and Tenure, unanimously adopted by that group, as follows:

March 6, 1964

President David D. Henry
355 Administration (W)

DEAR PRESIDENT HENRY:

In your letter of February 21 addressed to the Chairman of our Committee you asked the Committee to review the "expressions on public affairs" contained in your statement to the Board of Trustees and to give you our advice "—as to whether University action of any kind concerning them or toward Professor Oliver because of them is indicated."

We commend you for asking the faculty, as represented by this Committee, to give you its counsel, but your request poses a difficult question for the Committee. On the one hand we wish to be helpful to you and to support the policy that administrative officers of the University consult with the faculty before making decisions on issues of concern to the academic community; but on the other hand we are confronted with the fact that our current University statutes do not appear to give our Committee, or any other faculty body, the authority to consult with the President in situations of this kind. Furthermore the Committee on academic freedom must by provisions in our University statutes afford a hearing to any staff member who feels that his academic freedom is being jeopardized; and also conduct a hearing and make recommendations when asked by a staff member against whom charges have been filed by the President, when such charges relate to the academic freedom of the staff member. It can be argued therefore that any judgment made by this Committee in response to your request would impair the ability of the Committee to act impartially when and if asked by the staff member to conduct a hearing on his behalf.

Despite these considerations the Committee has decided that it should respond to your request. To do otherwise would create the impression that the academic community at the University of Illinois is not concerned and that though the President wished to have the counsel of the faculty he could not get it. We know the academic community at the University of Illinois is concerned, and we refuse to accede to the unhappy and anomalous conclusion that the President has no right to confer with a responsible faculty committee about problems of great concern to the University and on which he must make decisions. We wish there were clear channels for such consultation and we would note in passing that when the proposed statutory revisions become effective such channels will exist.

The exercise of academic freedom rights and privileges by a faculty is not without its price to a university, but the benefits greatly outweigh the costs. The public frequently does not realize why academic freedom is such a cherished value, and is so zealously guarded, by the academic community of scholars. In the furtherance of a university's educational objectives of exploring new fields, developing and transmitting new ideas, pushing forward the frontiers of knowledge, in short, in the search for the eternal verities, *administrative* restraint on the scholar searching for these truths must be avoided. If, in the exercise of this protected freedom of research and expression, and despite the statutory admonition that a professor is expected to observe professional standards of "accuracy, forthrightness, and dignity befitting his association with the university and his position as a man of learning," abuses of this privilege occur, restraints on such abuses must normally be provided by the adverse judgment of the individual's *professional* colleagues. He must withstand the full glare of critical *professional* judgment and condemnation for unprofessional, undignified, unsupported, or offensive utterances. He must have the right to be as ungloriously wrong, and suffer the *professional* consequences thereof, as to be gloriously right and receive the acclaim of his *professional colleagues* therefore. Thus when abuses occur, and the *public* image of a great university is somewhat tarnished as a result thereof, it must be recognized that the larger gain is in the brighter image of the university presented to the scholarly world of an institution dedicated to the advancement of knowledge and learning, and one willing to pay the price for strict adherence to this ideal.

In view of these considerations, therefore, our Committee advises you:

1. That it approves your statement to the Board of Trustees on February 19, 1964.
2. That action of any kind concerning these expressions or toward Professor Oliver because of them is not indicated.

CHARLES H. BOWMAN
ELWOOD F. REBER
HAROLD W. HANNAH
E. B. McNATT, *Chairman*
Urbana-Champaign Senate Committee
on Academic Freedom and Tenure

It should be noted that my February 19, 1964, statement to the Board of Trustees, which the Committee has approved, contains the following paragraph:

"That Mr. Oliver's views are not shared by this academic community is certain. I believe my colleagues agree, as I said earlier, that his unsupported accusations, and his unreasoned and vitriolic attack on the character and patriotism of President Kennedy are beyond the bounds of good taste in public comment and the normal proprieties of public debate."

I concur in the advice of the Committee.

I would add that I deplore the nature and manner of Mr. Oliver's comments which to so many appear to violate the canon that a faculty member in exercising his freedom of speech as a citizen should be mindful "that accuracy, forthrightness, and dignity befit his association with the University and his position as a man of learning." This appraisal is widely shared but I do not believe that it is adequate grounds for my filing disciplinary charges against Mr. Oliver.

DAVID D. HENRY
President

On motion of Mr. Johnston, the President's report was approved by the Board.

Mr. Dilliard voted "No" and asked that the following explanation of his vote be included in the record:

March 18, 1964

MR. PRESIDENT: The Board of Trustees of the University of Illinois has before it at this time the most difficult, complex, distasteful, and embarrassing problem that has confronted the Board in the nearly four years since I was elected a Trustee. From coast to coast the good name of the University of Illinois has been associated inevitably with an outrageous attack on the loyalty of an assassinated President who, as it happens, almost lost his life in the heroic service of our country in World War II. After the first attack and since we took action concerning it at our February 19 meeting, the same member of the University's faculty has leveled a similar assault on the integrity of the Chief Justice of the United States. In each case the publication appeared in a magazine connected with the John Birch Society.

As a citizen of Illinois, as well as a member of this Board, I support fully the fundamental principle of academic freedom, founded on the historic American guarantee of freedom of mind and speech, with the widest possible latitude for every University of Illinois scholar to inquire and expound, in the light of his intelligence and of his learning, and according to his conscience. I also recognize, and, in so far as it may be my official duty to do so, I encourage the separate role of the university scholar as a participating citizen in a society of many differing attitudes and opinions. At the same time, I regard the academic man's search for truth, with its scrupulous documentation of supporting evidence as the indispensable hallmark of accurate and trustworthy research by the university teacher and scholar. Freedom of inquiry is both cherished and right and unshirkable responsibility. Nowhere is this more true than on a university faculty dedicated to the education of citizens and the advancement of knowledge.

I appreciate, in the statement before us the careful thought and earnest deliberation on the part of the President of the University and of its Committee on Academic Freedom and Tenure. However, the statement does not go far enough for me in three major respects:

First, it does not declare with sufficient fervor for me the devotion of the University of Illinois to free inquiry and expression.

Second, it does not sufficiently for me disavow and disassociate the University of Illinois from the disgraceful reflections against the martyred President and the sitting Chief Justice of the United States who is now conducting an investigation of that still shocking tragedy.

Third, it does not assert with sufficient force for me that a University of Illinois scholar, be his field Greek and Latin or current history and contemporary political science, has an obligation to back up his conclusions with weighed and tested facts. If there is proof let it be forthcoming in the spirit and method of true academic inquiry and scholarship. If proof is not forthcoming let that be established for all to see.

I know of no way to vote for the resolution before us and at the same time express what are to me these most important considerations which I have just enumerated.

The vote I will cast is not in any way a criticism of the quality or sincerity of the statement before us. I admire both the quality and the sincerity. Neither will my vote constitute in any way an opinion in advance on any proceeding that may or may not arise later. And so with reluctance and for the reasons stated I will vote no. I request that this account of my position be a part of the record of the vote I cast in order that there be no misunderstanding.

IRVING DILLIARD

RECESS AND EXECUTIVE SESSION

President Clement announced that an executive session has been requested and was ordered for consideration of recommendations relating to property acquisitions and to patentable inventions, this session to be held after luncheon.

He also announced that the Honorable Robert C. Weaver, Administrator of the Housing and Home Finance Agency, Dean Allen S. Weller of the College of Fine and Applied Arts, and Professor Louis B. Wetmore, Head of the Department of City Planning and Landscape Architecture, would be guests of the Board at luncheon, and that Dr. Weaver would address the Board briefly.

On motion of Timothy W. Swain, the Board recessed.

When the Board reconvened in executive session, the same members

of the Board, officers of the Board, and officers of the University as recorded at the beginning of these minutes were present, except for Mr. Page, who asked to be excused.

The Board considered the following items of business.

PURCHASE OF LAND FOR RADIO DIRECTION-FINDING FACILITY

(1) Since April, 1957, the University has been leasing a forty-one acre tract of land four miles south of Bondville, Illinois, as a site for a radio direction-finding facility used by the Department of Electrical Engineering for research under a contract with the United States Navy. The lease provides for payments of annual rentals and liquidated damages, such payments being made from contract funds. The lease also includes an option to purchase the land at a price not to exceed \$18,245.

On October 26, 1963, the Board authorized purchase of 210 acres adjacent to the original forty-one acre tract for immediate expansion of the radio direction-finding facility which land has now been acquired. The United States government has provided all the necessary funds for operation, equipment, rental payments, and liquidated damages. The United States Navy has now requested the University to purchase the forty-one acre tract as a contribution to the research program. The legal description of this tract is:

The South half (S $\frac{1}{2}$) of the East half (E $\frac{1}{2}$) of the Northwest quarter (NW $\frac{1}{4}$) of Section two (2), and a strip of land sixteen and one-half (16 $\frac{1}{2}$) feet wide providing access to the aforementioned forty (40)-acre tract from the paved road along the East side of said Section two (2), and said access strip to be located along the South edge of the North half (N $\frac{1}{2}$) of the Northeast quarter (NE $\frac{1}{4}$) of Section two (2), and the East sixteen and one-half (16 $\frac{1}{2}$) feet of the South sixteen and one-half (16 $\frac{1}{2}$) feet of the Northeast quarter (NE $\frac{1}{4}$) of the Northwest quarter (NW $\frac{1}{4}$) of Section two (2), all in Township eighteen (18) North, Range seven (7) East of the Third Principal Meridian, and containing forty-one (41) acres more or less in the county of Champaign, and State of Illinois.

The Head of the Department of Electrical Engineering, the Chairman of the Research Board, and the Vice-President and Comptroller recommend the purchase of this tract from funds in the Contract Research Reserve.

I concur and request that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents to complete this acquisition.

On motion of Mr. Swain, the purchase of this land, as recommended, was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Page, Mr. Williamson.

CONDEMNATION PROCEEDINGS FOR ACQUISITION OF PROPERTY AT 1301 WEST STOUGHTON STREET, URBANA, ILLINOIS

(2) University representatives have been negotiating for the purchase of the property at 1301 West Stoughton Street, Urbana, Illinois, a corner lot 66 feet by 100 feet, with a two and one-half story and basement frame house. The land area is needed as part of the site for expansion of the Digital Computer Laboratory.

The owner's representative was informed that a recommendation would be made to the Board for the purchase of the property at a price of \$28,500, based on University appraisals, but the offer is not acceptable and the asking price remains substantially in excess of the highest University appraisal.

The Director of the Physical Plant and the Vice-President and Comptroller therefore recommend that condemnation proceedings for the acquisition of the property be authorized. The Committee on Buildings and Grounds has been consulted and supports this recommendation.

Funds are available in the state capital appropriations to the University from the Universities Building Fund.

I concur and recommend adoption of the following resolution:

**Resolution Authorizing Condemnation of Property
at 1301 West Stoughton Street, Urbana, Illinois**

Be It, and It Is Hereby Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois, a body corporate and politic and a public corporation of the State of Illinois, that the following-described real estate situated in the County of Champaign, in the State of Illinois, to-wit:

Lot One (1) in Block Fifty-four (54) of the Seminary Addition to the City of Urbana, situated in the City of Urbana, in the County of Champaign, and State of Illinois

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, for use as part of the site for expansion of the Digital Computer Laboratory, and for related educational purposes conducted and to be conducted by said University of Illinois and for the further expansion of the educational facilities of said University of Illinois and to enable said University of Illinois to discharge its duty to the people of said State and for public use; that funds have been appropriated by the General Assembly of the State of Illinois for the purchase of said land for said educational purposes; that this Board of Trustees has negotiated with the owners of said land through their duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but that said owner has refused to sell and convey said land, or any portion thereof, to said The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems unreasonable and excessive and is, therefore, unwilling and has refused to pay; and

Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land can not be agreed upon between this Board of Trustees and the owners of said property and they and it are unable to agree upon the purchase price to be paid to said owners for the sale and conveyance of said land by said owners thereof to said The Board of Trustees of the University of Illinois; and

Therefore, Be It, and It Is Hereby Further Resolved, Found, and Declared by this Board of Trustees of The Board of Trustees of the University of Illinois that because of said need of the University of Illinois for said land for the purposes hereinabove set forth and because the compensation to be paid to the owners thereof for such land can not be agreed upon between them and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the owners thereof and any and all other persons who may have any right, title or interest in and to said land determined in the manner provided by law for the exercise of said right and power of eminent domain; and

Be It, and It Is Hereby Further Resolved by this Board of Trustees of The Board of Trustees of the University of Illinois that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction and that the Legal Counsel of the University be, and he is hereby, authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name and on behalf of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel, appraisers, and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Johnston, the foregoing resolution was adopted by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Page, Mr. Williamson.

**PURCHASE OF PROPERTY AT 1301 WEST STOUGHTON STREET,
URBANA, ILLINOIS**

(3) Director Havens reported that University representatives contemplate further negotiations for the acquisition of this property through purchase, rather than through condemnation proceedings as authorized by the Board, and requested instructions.

On motion of Mr. Johnston, the purchase of this property, at a price not to exceed \$32,500, was authorized with the understanding that if the negotiations are successful and the property is purchased for this price, the condemnation proceedings will not be instituted. This action was taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Hughes, Mr. Johnston, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins; no, none; absent, Mr. Kerner, Mr. Page, Mr. Williamson.

RECOMMENDATIONS OF THE UNIVERSITY PATENT COMMITTEE

(4) The University Patent Committee submits, with the concurrence of the Chairman of the University Research Board, a series of recommendations relating to inventions.

That the rights of the University in the following inventions be released to the University of Illinois Foundation for further study, development, and possible patent application, subject to any rights that the United States government may have in each particular case:

1. Series-fed logarithmically-periodic folded dipole antenna — Keith G. Balmain, Research Assistant in Electrical Engineering, inventor; developed without the use of government funds. This is an antenna capable of covering a very wide range of frequencies with uniform characteristics. The novel feature of the invention is the use of folded dipole antenna elements connected in series with the wire (or wires) of a feeder.
2. Transit automatic fare system — Michael Blurton, Research Assistant in the Bureau of Economic and Business Research, inventor; developed without the use of government funds. This is a system of automatic passenger-operated fare collection and statistical data recording for bus transit, rail transit, or commuter railroad use.
3. Electrostatic impact probe for measurement of the mass flow of solid particles in a gas-solid suspension — Robert C. Dimick, Research Assistant in Mechanical and Industrial Engineering, inventor; developed with the use of funds from a subcontract with the Project SQUID, Prime Contract No. Nonr-3623 (S-6) with the United States Navy. This invention consists of a probe for measuring the mass flow of solid particles suspended and transported by gas flow in a pipe or duct. Other uses for this probe would be to monitor the mass flow in the pneumatic transport of powdered coal or powdered materials used in manufacturing processes and to determine how well antistatic protection measures were working in the transport of explosive air-powdered grain mixtures in flour and feed mills.
4. Log-periodic cavity-slot antenna — Paul E. Mayes, Associate Professor of Electrical Engineering, and V. A. Mikenas, Research Assistant in Electrical Engineering, inventors; developed with the use of funds from the United States Air Force, Contract No. AF 33(657)-10474. This invention was designed to meet the need for broadband antennas which do not protrude above a large conducting surface, for use in high-speed aircraft and missiles and for some applications on the earth's surface.
5. Reduced-length dipole and monopole antennas and antenna arrays — Paul E. Mayes, Associate Professor of Electrical Engineering, and David T. Stephenson, Research Assistant in Electrical Engineering, inventors; developed with the use of funds from the United States Navy, Contract No. N123(953)30508A. This invention relates to a method of reducing the length of dipole and monopole antennas and, thereby, also reducing the size of certain antenna arrays which use dipole or monopole elements.

6. Log-periodic series-type folded dipole array—Raj Mittra, Associate Professor of Electrical Engineering, and Marvin L. Wahl, Research Assistant in Electrical Engineering, inventors; developed with the use of funds from the United Air Force, Contract No. AF 33(657)-10474. It has been considered desirable to design a free-space model of a wideband antenna which has an impedance in the neighborhood of 300 ohms, such that it could be matched directly to a standard 300 ohm' line. A possible solution to this problem is the series loading of elements on the transmission line which, in effect, raises the input impedance of the antenna to a value larger than the characteristic impedance of the feed line itself.
7. Letter rack antenna—Raj Mittra, Associate Professor of Electrical Engineering, and Marvin L. Wahl, Research Assistant in Electrical Engineering, inventors; developed with the use of funds from the United States Air Force, Contract No. AF 33(657)-10474. The antenna is a composite system consisting of a trough structure, which is coupled to another system made up of a series of loops, series loading an unbalanced transmission level. The heart of the present design is the coupling of the two systems, and the resulting antenna is considered to be a new device. Its important features are (a) flush mounting in aircraft bodies or flush with the ground, and (b) very broadband design (log-periodic).

That the rights of the University in the following inventions be released to the sponsoring agencies, since the possibility of commercial value is remote:

8. Automatic area compensator of constant stress cycling—C. E. Feltner, Research Associate in Theoretical and Applied Mechanics, and J. A. Jackobs, Engineering Assistant in Theoretical and Applied Mechanics, inventors; developed under research sponsored by the United States Air Force, Contract No. AF 33(657)-8177. This invention is highly specialized and will probably be rarely used except in situations such as were encountered in carrying out the contract research.
9. Electro-optical modulation of radiation pattern, photo-electric devices, and electro-optical method of light modulation—Gabor K. Ujhelyi, Research Assistant in the Digital Computer Laboratory, and Sergio T. Ribeiro, Research Associate in the Digital Computer Laboratory, inventors; developed under research sponsored by the United States Navy, Contract No. Nonr-1834(15). These inventions are in the area of lasers, in which the Government is very interested at the present time. The Navy is eager that applications be filed for patents; however, it is the opinion of the Director of the research and of the Committee that neither the University nor the Foundation should undertake the development of these devices at this time.

That the rights of the University in the following inventions be released to the inventor or inventors, since the possibility of commercial value is remote and since the United States government is not involved:

10. Short method for blood glucose determination—Clarence A. Johnson, Sophie J. Presley, Jerome T. Paul, and Eugene J. Ranke, all from the Departments of Medicine and Biological Chemistry of the University at the Medical Center, inventors. The purpose of this study is to present a rapid, simple, and reliable colorimetric method for the determination of blood glucose, that may be used with or without the spectrophotometer; it represents a modification of the fluoran reaction.
11. Improved magnesium aluminate refractory compositions—Tracy A. Willmore, Research Associate Professor of Ceramic Engineering, and Alfred W. Allen, Professor of Ceramic Engineering, inventors; developed under research supported by the Amsted Research Laboratory. This invention relates to the improvement of the high temperature properties (transverse strength, in particular) of refractory materials fabricated from magnesium aluminate. The Head of the Department of Ceramic Engineering states that it appears that only the sponsor could receive the principal commercial benefits, if any arise.

I concur.

On motion of Mr. Swain, these recommendations were approved.

On motion of Mr. Swain, the Board adjourned.

A. J. JANATA
Secretary

HOWARD W. CLEMENT
President

Following adjournment of the Board, the Committee on General Policy and Committee on Buildings and Grounds met for work sessions.

THE HEALTH PROFESSIONS EDUCATIONAL ASSISTANCE ACT OF 1963-PUBLIC LAW 88-129

(11) Public Law 88-129, the Health Professions Educational Assistance Act of 1963, authorizes a program of financial aid to students in medicine and dentistry.

A participating institution is required to provide one-ninth of the federal contribution to the loan fund. A student may be loaned up to \$2,000 in one academic year (September to June) or \$2,666 for any year enrolled in excess of the normal academic year consisting of approximately nine months. Persons who enter as first-year students after June 30, 1963, are to be given preference. Loans are to be made only to a student in need of the amount to pursue a full-time course of study. Loans are to be repaid in equal or graduated periodic installments over the ten-year period which begins three years after the student ceases to pursue a full-time course of study. Additional repayment time is available for active duty performed as a member of a uniformed service or for service as a volunteer under the Peace Corps Act. The maximum deferment for these reasons is six years; the maximum for each is three years. The liability to repay the unpaid balance will be cancelled upon the death of the borrower, or if he becomes permanently or totally disabled.

Loans bear interest, on the unpaid balance, computed only for periods during which the loan is repayable, at the rate of 3 per centum per annum or the going federal rate at the time the loan is made, whichever is greater. Loans are to be made without security or endorsement, except in the case of minors.

The Department of Health, Education, and Welfare has now requested institutions wishing to participate to file applications for funds to be used the last quarter in 1963-64 and the 1964-65 year not later than March 31, 1964.

It is estimated that \$55,000 could be utilized during the last quarter in 1963-64 and that \$372,500 will be required during 1964-65. Estimates of need were prepared by the Deans of the College of Medicine and Dentistry and the Dean of Student Affairs in accordance with guidelines supplied by the Department of Health, Education, and Welfare.

Since the amount finally available to the University for use during the periods indicated is uncertain, it is requested that the Comptroller be authorized to execute the necessary documents to secure a grant not to exceed \$427,500; and that an appropriation be made to provide an amount equal to one-ninth of that received from the federal government, but not exceeding \$6,111 for the 1963-64 year and \$41,388.88 for the 1964-65 period. Funds to be made available to the University from the National Defense Education Act will be reduced next year as medical and dental students will no longer qualify for loans from this source. The reduction in the University matching fund requirement for the N.D.E.A. program will be applied to the Health Professions Educational Assistance Act, thereby reducing the requirement for additional funds by approximately \$18,000.

I concur.

On motion of Mrs. Watkins, authority was given as requested, this action being taken by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Johnston, Mr. Kerner, Mr. Page.

ANNUAL REPORT OF THE TREASURER

(16) In accordance with the By-Laws of the Board of Trustees, the Treasurer of the University has submitted a report of receipts and disbursements of University funds in his custody for the period March 1, 1963, to February 29, 1964, certified by the Comptroller. A copy of this report was sent to each member of the Board of Trustees prior to today's meeting, and a copy is filed with the Secretary of the Board.

This report was received for record.

SALE OF MOVABLE EQUIPMENT TO ILLINOIS BUILDING AUTHORITY

(17) The Board of Trustees of the University of Illinois on March 18, 1964, authorized the execution of a lease with the Illinois Building Authority for movable equipment to be financed by the Authority. Agreements have been reached with the Authority as to procedures for purchasing, handling, and identifying this equipment.

The Illinois Building Authority has requested the University of Illinois to purchase, identify, and place into the proper buildings movable equipment covered by the above-mentioned lease. At the end of each month, the Illinois Building Authority will reimburse the University of Illinois for expenditures incurred that month.

The Vice-President and Comptroller recommends that the Board of Trustees of the University of Illinois authorize the sale of equipment to the Illinois Building Authority under such a procedure.

I concur.

On motion of Mrs. Watkins, this recommendation was approved by the following vote: Aye, Mr. Clement, Mr. Dilliard, Mr. Jones, Mr. Pogue, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Johnston, Mr. Kerner, Mr. Page.

SALE OF PROPERTY TO THE ILLINOIS BUILDING AUTHORITY

(18) Pursuant to the authorization of the Board at its March 18, 1964, meeting, and with the approval of the Illinois Building Authority, the University of Illinois has acquired from the city of Urbana land required as part of the site of the new Civil Engineering Building, said land being Romine Street between Main Street and Springfield Avenue and part of the alley between Main and Stoughton Streets. By reason of vacation of this street and alley by the City and payment by the University for the same, title to the vacated areas is vested in the University.

This property is part of that scheduled for acquisition by the Illinois Building Authority under its land acquisition lease to the University, and it is now necessary for the Board of Trustees to authorize the sale of this property to the Illinois Building Authority.

The Vice-President and Comptroller and the Director of the Physical Plant recommend authorization of the sale of this land to the Illinois Building Authority at its acquisition cost and the adoption of the following resolution.

I concur.

REPORT OF COMMITTEE ON GENERAL POLICY ON REVISIONS OF UNIVERSITY OF ILLINOIS STATUTES

Mr. Williamson, for the Committee on General Policy, presented the following report and recommendations for revisions of Sections 6, 38, and 39 of the University of Illinois Statutes dealing with tenure of academic staff and academic freedom which have been proposed by the University Senates and the Senate Coordinating Council.

This report was adopted by the Committee at a meeting held on April 14, 1964. Mr. Williamson served as temporary Chairman of the Committee in the absence of Mr. Johnston.

At its June 19, 1963, meeting the Board of Trustees received and referred to your Committee on General Policy for consideration and study the recommendations of the Senates and the Senate Coordinating Council for amendments in Sections 6, 38, and 39 of the existing University of Illinois Statutes. After reviewing the same with the President, the Committee found itself in substantial agreement with the Coordinating Council's proposals, but concluded that further discussion of certain portions was indicated. Thereafter, on the recommendation of your Committee, in November of 1963 the Board approved a procedure whereby the President was requested to arrange conferences between the Committee on General Policy, the President of the Board, the Chairman and one other member of each Senate Committee on Academic Freedom, the Chairman and Secretary of the Senate Coordinating Council, the President of the University and such staff consultants as he might designate.

Two such conferences were held, one on January 29, 1964, and the other on April 13, 1964, the date of this Report. The expressions were of material assistance to your Committee in formulating the recommendations contained in the Report which recommendations your Committee believes represent the consensus of the Conferees.

Under Section 65 of the University Statutes, the modifications in the original proposals would be treated as statutory amendments proposed by the Board which require the advice of the Senates. Under these circumstances, and to provide maximum time for consideration by Senate members prior to their next meetings, your Committee is at this time filing this Report in summary form, together with its recommendations. It is anticipated that a detailed supplementary Report will be presented in due course.

Your Committee strongly endorses and recommends the adoption of the statutory amendments as proposed by the Senate Coordinating Council, except for four paragraphs [Sections 38 (d), 38 (e) (7), 38 (e) (8), and 39 (b)] in which certain additions or deletions are being recommended in this Report.

Section 38 (d) of the Council's revision defines due cause for dismissal and the modifications recommended by your Committee are intended to clarify that conduct clearly demonstrating professional incompetence or irresponsibility may constitute cause for dismissal, whether it occurs in the classroom laboratory, or elsewhere. Your Committee's proposals with respect to Section 38 (e) (7) are deemed to be a logical extension of matters in the record which the Board may consider in dismissal proceedings, and a further definition of the relevant factors to which the Board will give due consideration in designating the effective date of a dismissal. The modifications recommended by your Committee in Section 38 (e) (8) are based primarily on the advice from the Legal Counsel that state appropriations may not be expended as salaries to individuals who do not have an employment status and who do not perform personal services for the University.

Substantial changes in Section 39 (b) are proposed by your Committee to create a more precise understanding that, when he speaks or writes, a faculty member should be mindful of the admonitions for accuracy, forthrightness, and dignity, but "if he fails to heed these admonitions on an occasion when he is exercising his freedom of speech as a citizen, such failure shall not, of itself constitute due cause for dismissal but, after consultation with the Faculty Advisory Committee, the President may take official cognizance of such failure."

Accompanying this Report is an Appendix in which there is presented, in columnar form, the existing University Statutes, the revisions proposed therein by the Senate Coordinating Council, and (under the heading "Modification of Senates' Version Being Considered by Board Committee") the modifications in the four paragraphs of the Council's revision recommended by your Committee and summarized above.

Accordingly, in line with the comments and recommendations in this Report, it is moved that the following resolution be adopted by the Board of Trustees of the University of Illinois:

"Be It Resolved that the proposals for statutory revision as proposed by the Senate Coordinating Council and transmitted by the President on June 19, 1963, be tentatively approved, except as noted below, and

"Be It Further Resolved that the recommendations of the Committee on General Policy of the Board of Trustees of the University of Illinois in its

April 14, 1964, report on 'Revision of Sections 6, 38, and 39 of the University Statutes Proposed by Senate Coordinating Council' be considered amendments to the University Statutes proposed by the Board of Trustees, and that the advice of the University Senates be sought thereon as provided in Section 65 of the University Statutes."

COMMITTEE ON GENERAL POLICY

On motion of Mr. Williamson, this report was adopted and the recommendations of the Committee were approved without dissent. The Appendix showing the changes approved was filed with the Secretary of the Board for record.
