### PUBLIC COMMENT

At 10:15 a.m., Mr. Edwards announced a public comment session and explained that the *Procedures Governing Appearances Before the Board of Trustees* allows for a maximum of six individuals to speak for five minutes each. He then invited Dr. Jay Gilliam to speak. Dr. Gilliam stated that he is a member of the Coalition of Concerned Professors at the University of Illinois Springfield, and he described the reasons for forming the coalition and the resulting vote of no confidence in the Springfield provost. He referred to issues with enrollment and said that understaffing in financial aid and admissions, in addition to an unfilled position in the role of transfer coordinator, has negatively impacted the university. Dr. Gilliam welcomed the new chancellor and said that new academic leadership is needed at the university.

Next, Mr. Edwards called on Dr. John Martin. Dr. Martin stated he is a member of the Coalition of Concerned Professors at the University of Illinois Springfield and said he has grave concerns regarding campus leadership. He said a significant majority of the faculty are being ignored and that three-quarters of the faculty participated in a vote of no confidence in the provost. Dr. Martin listed concerns and

Ms. Gregory advocated for help in properly funding and staffing the DSCC.

## AGENDA

Mr. Edwards announced that the agenda for this meeting would now be considered. All Board members recorded as present at the start of the meeting were in attendance. Mr. Edwards noted that the items were discussed extensively at meetings of the Board committees, which are open to the public. He noted that two items on the Board's agenda were not vetted by a Board committee and asked the Board to review them at this time. Mr. Edwards asked for discussion of item no. 1, "Resolution for Michael Amiridis."

Mr. Edwards remarked on Dr. Amiridis's exceptional leadership and said he provided a diverse and growing number of students with educational opportunities; supported faculty; and navigated the university through an unprecedented pandemic. He said Dr. Amiridis is leaving the university to become president of the University of South Carolina, and he referred to the roles in which he served there before coming to the University of Illinois Chicago. Mr. Edwards wished him well and thanked him for his service to the University.

President Killeen commented on Dr. Amiridis's contributions to the university, which he said is vibrant and growing. He said he will be missed and wished him well as he leaves for his new role as president.

Mr. Edwards then asked for discussion of item no. 2, "Resolution for Karen M. Whitney." He said that Dr. Whitney joined the University of Illinois Springfield as chancellor in June 2020, during the COVID-19 pandemic and was asked to ensure the safety of students, faculty, and staff. He referred to the university's "United in Safety" motto and Dr. Whitney's plans to realign and reorganize colleges and departments, provide excellence in education and research, work with the campus community and the Springfield community to eliminate racism and promote social justice, and enhance enrollment at UIS. He thanked her for her service to the University. President Killeen stated that Dr. Whitney is a strong, compassionate, and experienced leader, and he thanked her for two years of incredible leadership.

With no objections, Mr. Edwards indicated these items would go forward to the full Board for a vote. He explained that due to the virtual environment, a roll call vote is required for both the regular and roll call agenda, and that the Board would now vote

on both agendas simultaneously with a roll call vote. He said the secretary would read the titles of the items. Mr. Edwards noted that several Board members had previously discussed concerns with President Killeen and other staff members regarding these items, and he said that he would welcome further discussion at this time.

By consensus, the Board agreed that one vote would be taken and considered the vote on each agenda item no. A1 and through 28. The recommendations were individually discussed but acted upon at one time.

(The record of the Board action appears at the end of each item.)

On motion of Ms. Phalen, seconded by Mr. Estrada, these minutes were approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

#### Resolution for Michael Amiridis

(1) As you prepare to conclude your tenure as chancellor, the Board of Trustees wishes to honor you and express its deepest gratitude for your vision and leadership

which have so strongly enriched the University of Illinois Chicago (UIC) and the lives of its students, faculty, and staff.

From your first days at UIC in 2015 as chancellor and as vice president of the University of Illinois System, you have guided the university to new heights. UIC's reputation has grown both nationally and internationally, and it is now ranked among the top 30 most ethnically and economically diverse colleges in the country.

Your leadership of and vision for the university have led to six straight years of record enrollment growth, increased support for new tenure-track faculty positions, record-breaking growth in sponsored research funding, and renewed facilities planning and expansion. All this was accomplished while navigating a time of unprecedented challenge for higher education.

The COVID-19 pandemic has presented challenges that no institution could fully foresee, but few will emerge from this global crisis in as good a condition as UIC, thanks to your leadership. Leading by example, you expertly oversaw the shift to more online educational delivery while managing the university in a virtual environment, ensured timely and accessible testing to maintain safe social and educational interactions, communicated effectively with the campus and the larger community, and helped sustain university morale with your positive-yet-forthright outlook.

Throughout the pandemic, you have made certain UIC is a leader in maintaining public health and the safety of the Chicago community. So far, 5,700 COVID-19 patients have been treated by our outstanding doctors, nurses, and other medical professionals at UI Health. UIC also hosted one of the first mass vaccination centers, vaccinating nearly 180,000 people. This, too, is a reflection of your skilled

navigation of the many challenges of the last two years. These challenges, however, never caused you to lose focus on student access and success at UIC.

As a first-generation student who came to the United States to further your own education, you have an intimate understanding of what is needed to advance UIC's mission of access. The university has seen its largest-ever enrollment growth during your tenure, reaching 34,200 students. These efforts included a \$5.3 million federal grant that affirmed UIC's designation as a Hispanic-Serving Institution (HSI) and supported UIC's efforts to increase the number of Latinx and low-income students earning STEM degrees.

To support this growth, you launched IGNITE: the Campaign for UIC, the most ambitious fundraising effort in the university's history. IGNITE exceeded its \$750 million goal more than five months ahead of schedule, raising almost \$774 million. Every gift to IGNITE directly supported UIC's long-standing mission to provide the broadest access to the highest levels of educational excellence.

The largest campaign gift, and the largest gift in UIC history, was the \$40 million contribution, which created the Student Success Fund to provide life-changing support for first-generation and low-income students attending UIC while also providing for timely degree-completion initiatives, living-learning communities, opportunities for internships, and assistance for students experiencing food insecurity. These efforts are clear indications of your dedication and commitment to not only current students and faculty but to the university's future.

Your commitment to the future of UIC is also reflected through the growth of new academic programs. This includes the addition of The John Marshall Law School to UIC, creating the first public law school in Chicago.

Your expert stewardship of institutional resources also supported the planning for and expansion of facilities that now total approximately \$500 million in completed or ongoing projects. They include the new Computer Design Research and Learning Center, which will support undergraduate growth in computer science; and a significant expansion to the UIC Innovation Center, which brings together students, faculty, and corporate partners to seek practical solutions to problems.

Thanks to your forward-focused leadership, the UIC Flames will also soon join the Missouri Valley Conference, the nation's second-oldest NCAA Division I conference and a leader in college athletics.

The university's relationship with and support of the Chicago community have continued to expand during your leadership of UIC. The growth and success of UI Health has led to a growing clinical enterprise and the needed expansion and modernization of our health-care infrastructure. UIC will soon open two new comprehensive lifestyle and wellness neighborhood centers in two of Chicago's most underserved communities, in Auburn-Gresham and North Lawndale. UI Health and Mile Square will provide needed primary care, dental care, and behavioral health services in both.

Your deep commitment to public health and wellbeing has made UI Health an exemplar not only in Chicago but also in Rockford, Peoria, and the Quad Cities, too.

At this time, the Board of Trustees, President Timothy L. Killeen, faculty members, students, and staff members extend to you our deepest gratitude for your dedicated service and offer warm wishes to you and your wife, Dr. Ero Aggelopoulou-

Amiridis, and to your family for your loyalty to the University of Illinois System. We deeply appreciate your dedicated service and inspired leadership at UIC.

The Board of Trustees directs that this resolution be incorporated in the minutes of today's meeting to become a part of the official public record and that a suitable copy be given to you as a permanent reminder of the esteem and affection in which you are held.

On motion of Ms. Phalen, seconded by Mr. Estrada, this resolution was adopted by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

#### Resolution for Karen M. Whitney

(2) As you prepare to complete your appointment as interim chancellor, University of Illinois Springfield, and vice president, University of Illinois System, the Board of Trustees wishes to honor you and express its deepest gratitude for applying your unique talents and leadership to navigating such a pivotal time in the history of the university.

You came to UIS on an interim basis, a position typically meant to maintain the status quo. The pandemic, however, required that you and the university adapt in so many ways, making so much of what would be usual, unusual.

The circumstances demanded that we all find new ways to support our students, faculty, and staff, taking care of their collective wellbeing. The times also

required an unusual and urgent degree of communication and the adaptation to a new world of Zoom meetings, mask-wearing, and social distancing. You adeptly rose to the call.

Your time at UIS has also included a crucial restructuring and reorganization that was based on the goals of the Strategic Compass. Your motivation and drive kept the units that make up UIS inspired as they formulated more specific plans that support the university's mission, vision, values, and goals.

Through these two years of constant change and challenges, you have remained laser-focused on your clearly articulated Top 10 priorities. Through them, UIS has continued to move forward in key areas, including enrollment, anti-racism and social justice, labor relations, fiscal management, community outreach, fundraising, and an ambitious innovation agenda.

At this time, the Board of Trustees, President Timothy L. Killeen, faculty members, students, and staff extend our deepest gratitude for your dedicated service and warm wishes to you and your family.

The Board of Trustees directs that this resolution be incorporated in the minutes of today's meeting to become a part of the official public record and that a suitable copy be given to you as a permanent reminder of the esteem and affection in which you are held.

On motion of Ms. Phalen, seconded by Mr. Estrada, this resolution was adopted by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

#### Amend Multiyear Contract with Head Varsity Coach, Men's Basketball, Urbana

(4) On May 11, 2017, the Board of Trustees approved the appointment of Bradley Underwood as head varsity coach, men's basketball, Division of Intercollegiate Athletics, Urbana-Champaign. The initial appointment was for a six-year term, beginning on March 18, 2017, and ending on April 30, 2023. The Board also approved Mr. Underwood's anticipated compensation for each year of the term, including a description of Mr. Underwood's base salary and an annual increment for television, radio, public relations, and promotional activities. The Board also approved the ability for Mr. Underwood to earn additional performance incentive compensation for achieving specific academic and athletic performance goals as determined in advance by the director of athletics. Full standard benefits on the same terms as provided by the University to all professional employees, with contributions and benefit amount based

upon the base salary where relevant, were provided to Mr. Underwood. In March 2020 and September 2021, respectively, the Board of Trustees approved amendments to Mr. Underwood's employment contract, providing increases to his base compensation and also extending the term, ultimately through April 30, 2027.

The chancellor, University of Illinois Urbana-Champaign, and vice president, University of Illinois System, now recommends an amendment to Mr. Underwood's employment contract, to extend the term by one additional year, through April 30, 2028. Mr. Underwood's compensation schedule through such term is outlined below:

<b>Year</b>	<b>Base Salary</b>	<b>Additional Compensation</b>	<b>Total Compensation</b>
5/20/2022--4/30/2023	\$862,500	\$3,237,500	\$4,100,000
5/01/2023--4/30/2024	\$887,500	\$3,312,500	\$4,200,000
5/01/2024--4/30/2025	\$912,500	\$3,387,500	\$4,300,000
5/01/2025--4/30/2026	\$937,500	\$3,462,500	\$4,400,000
5/01/2026--4/30/2027	\$962,500	\$3,537,500	\$4,500,000
5/01/2027--4/30/2028	\$987,500	\$3,612,500	\$4,600,000

In addition to the "base" term extension contemplated above, Mr. Underwood will have the opportunity for additional one-year contract extensions, contingent on the men's basketball team qualifying for the National Collegiate Athletic Association (NCAA) Men's Basketball Tournament, with the term not extending beyond April 30, 2032. In any contingent contract extension years, Mr. Underwood's total compensation shall increase by \$100,000.

Mr. Underwood's amended employment agreement will also provide for additional retention incentive compensation payments of \$500,000 in each contract year, based on continuous employment by the University through the end of each contract year.

Similarly, Mr. Underwood will pay to the University liquidated damages in the event he resigns his employment prior to the conclusion of his term.

Other significant terms and conditions of Mr. Underwood's original employment agreement will remain in effect or will be appropriately amended to reflect the extension of the term. These include setting forth instances in which he may be terminated for cause, including, but not limited to, failure to perform his responsibilities; conduct that brings the University into disrepute; or violations of laws, policies, or governing rules. The amended employment agreement will also continue to provide for the payment of liquidated damages throughout the term of employment in the event Mr. Underwood is terminated without cause, subject to mitigation if he obtains other employment following termination.

Funding is provided from non-appropriated institutional funds in the Division of Intercollegiate Athletics operating budget.

#### Appoint Member to the Board of Managers of Illinois Ventures, LLC

(7) At its meeting on April 13, 2000, the Board of Trustees of the University of Illinois ("Board of Trustees") authorized the formation of Illinois Ventures, LLC ("Ventures" or "Company") as a University-Related Organization to promote the development of new companies commercializing technologies developed at the

University and to assist companies in obtaining seed and venture capital funding, recruiting management talent, developing business plans, and acquiring other business services as needed. Ventures is a limited liability company governed by an Amended and Restated Operating Agreement, revised April 10, 2018 (“Operating Agreement”). The Ventures board of managers is responsible for the management and control of the business, affairs, and properties of the Company. Under the terms of the Operating Agreement, the board of managers shall consist of such number of individuals and with such qualifications, and may include voting and non-voting managers, as may be determined from time-to-time by resolution adopted by the Board of Trustees as the “sole member” of Ventures. A majority of the voting managers shall be business and industry leaders, and said leaders shall not include any employee of (or person financially dependent upon) the University of Illinois, the State of Illinois, or any agency thereof, or any member of the immediate family of such person. The Operating Agreement does not require the Board of Trustees to designate a trustee to serve as a member of the board of managers, but the Board of Trustees has traditionally appointed a trustee to serve as a manager. Various University of Illinois System employees serve as *ex officio* non-voting members of the board of managers. Subject to these conditions, the managers shall be appointed, and may be removed at any time, by resolution adopted by the Board of Trustees.

The vice president for economic development and innovation, who is responsible for coordination and oversight of interactions between the University of Illinois System and Ventures, recommends that the Board of Trustees confirm the following changes to the board of managers:

Approve Jeffrey Brown, dean of the Gies College of Business, as a voting member of the board of managers. Dr. Brown's appointment adds an additional member to the board of managers. This appointment is not intended to create a recurring, *ex officio* appointment related to the dean of the Gies College of Business, but rather recognizes Dr. Brown's unique and recognized expertise.

Based on these recommendations from the vice president for economic development and innovation and following consultation with the Office of University Counsel, the president now recommends that 12 managers of the Company be confirmed as voting members of the board of managers: one Board of Trustees representative (Sarah C. Phalen); six business and industry leaders (Edward L. McMillan, Deborah Paul, Guy Padbury, Dennis Hesch, Michael Tokarz, and Todd W. Lillibridge); the vice chancellor for research at the University of Illinois Chicago (Joanna Groden) (*ex officio*) and the vice chancellor for research and innovation at the University of Illinois Urbana-Champaign (Susan Martinis) (*ex officio*); the director of the Office of Technology Management at the University of Illinois Urbana-Champaign (Nathan Hoffmann) (*ex officio*); the director of the Office of Technology Management at the University of Illinois Chicago (Suseelan Pookote) (*ex officio*); and the dean of the Gies College of Business (Jeffrey Brown). In addition, it is recommended that four managers of the Company be confirmed as non-voting *ex officio* members: the vice president for economic development and innovation (Jay Walsh); the interim vice president/chief financial officer and comptroller (Paul N. Ellinger); the University counsel (Thomas R. Bearrows); and the Ventures CEO/managing director (Nancy A. Sullivan).

The Board action recommended in this item complies in all materials respects with applicable State and federal laws, University of Illinois *Statutes*, *The*

*General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The president of the University of Illinois System concurs.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

Establish the Bachelor of Science in Environmental Engineering,  
The Grainger College of Engineering, Urbana

(14) The chancellor, University of Illinois Urbana-Champaign, and vice president, University of Illinois, with the advice of the Urbana-Champaign Senate, recommends approval of a proposal from The Grainger College of Engineering to establish the Bachelor of Science in Environmental Engineering.

Environmental engineering is a profession that aims to achieve healthy, prosperous, and equitable communities while simultaneously maintaining the ecosystems that support them. The proposed Bachelor of Science in Environmental Engineering (BS in EnvE) seeks to provide rigorous, focused training at the intersection of the natural sciences and engineering fundamentals. The proposed program is expected to attract a wide range of students who may have otherwise applied to environmental engineering bachelor's programs at other institutions. The BS in EnvE's unique attributes include the integration of atmospheric sciences with infrastructure planning and design, the development of computational skills including mathematical techniques to work with environmental and temporal datasets, the incorporation of engineering design experience distributed across the curriculum, and the provision of concentration areas and coursework in emerging areas of critical importance in the 21<sup>st</sup> century.

Environmental engineering has a distinct body of knowledge, and related professions have grown rapidly in recent decades. Increasingly dynamic interactions between nature and society necessitate that environmental engineers receive targeted training in climate projections and climate change mitigation and adaptation. These professions are associated with two of the three engineering occupations with the largest projected percentage employment increases through 2029. Environmental engineering is the only engineering discipline for which 50 percent or greater of awarded BS degrees in the United States are awarded to women, and this field has been demonstrated to be of greater interest than civil engineering among middle and high school students identifying as African American, Native American, Latino/a, Southeast Asian, and Caucasian.

Students in the proposed program will be uniquely trained in environmental engineering and the natural sciences. They will be skilled in computational tools, climate adaptation and mitigation, and the design and advancement of environmental infrastructure and technologies. They will also be competent in analytical and computational approaches necessary for the analysis, planning, and design of environmental infrastructure and technologies. Graduates will thus be well-positioned to pursue professional degree programs in engineering as well as diverse programs related to environmental policy, public health, and the natural sciences. Graduates will be equally prepared to enter the industry as environmental or water resource engineers.

Impact of the proposed program on funding, instructional resources, and student-to-faculty ratios is anticipated to be manageable with current resources or can be covered with tuition revenue in the event additional teaching assistants are needed to staff course sections. The BS in Environmental Engineering's major coursework draws upon existing courses currently offered and taught by existing faculty. No new courses are needed, and existing courses have capacity to enroll the additional enrollment the department expects to happen with the new major, or additional discussion sections can be added if needed with teaching assistants funded by tuition revenue. No new or additional facilities, significant improvements to existing facilities, or additional resources from the University Library are needed.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The interim executive vice president and vice president for academic affairs concurs with this recommendation. The University Senates Conference has indicated that no further senate jurisdiction is involved.

The president of the University of Illinois System recommends approval. This action is subject to further review by the Illinois Board of Higher Education.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

Rename and Revise the Bachelor of Science in  
Strategic Business Development and Entrepreneurship, Gies College of Business, Urbana

(15) The chancellor, University of Illinois Urbana-Champaign, and vice president, University of Illinois System, with the advice of the Urbana-Champaign Senate, recommends approval of a proposal from the Gies College of Business to rename and revise the Bachelor of Science in Strategic Business Development and Entrepreneurship.

Under this proposal, the name of this major would change to Strategy, Innovation, and Entrepreneurship. The revised name is proposed based on student feedback, as the current part of the major name, Business Development, was confusing and many students envision a career path that begins with strategy and innovation management roles in established organizations and transitions flexibility between those

roles and startup entrepreneurship. The proposal also revises the curriculum to better serve these identified student needs, providing a wider selection of innovative courses for students to learn critical skills, with no change to the total hours required for the degree.

Little to no impact is expected in terms of funding, instructional resources, or student-to-faculty ratios. The revised Bachelor of Science in Strategy, Innovation, and Entrepreneurship will draw upon the existing courses offered by the college. No new courses are needed, and existing courses have capacity to enroll the anticipated uptick in enrollment. No new or additional facilities, significant improvements to existing facilities, or additional resources from the University Library are needed.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The interim executive vice president and vice president for academic affairs concurs with this recommendation. The University Senates Conference has indicated that no further senate jurisdiction is involved.

The president of the University of Illinois System recommends approval. This action is subject to further review by the Illinois Board of Higher Education.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

Rename and Revise the Master of Science in Technical Systems Management,  
College of Agricultural, Consumer and Environmental Sciences  
and the Graduate College, Urbana

(16) The chancellor, University of Illinois Urbana-Champaign, and vice president, University of Illinois System, with the advice of the Urbana-Champaign Senate, recommends approval of a proposal from the College of Agricultural, Consumer and Environmental Sciences and the Graduate College to rename and revise the Master of Science in Technical Systems Management.

Under this proposal, the program's name would be revised to the Master of Science in Engineering Technology and Management for Agricultural Systems (MS in ETMAS). The Board of Trustees approved a parallel revision at the undergraduate level, changing the name of the Bachelor of Science in Technical Systems Management to the Bachelor of Science in Engineering Technology and Management for Agricultural Systems at the May 20, 2021, meeting. Feedback from faculty, staff, students, and alumni indicated the Technical Systems Management program was in need of revision. In 2019, the Department of Agricultural and Biological Engineering formed a task force to propose necessary changes to the program. The task force collected feedback from current faculty and staff along with surveys of current students and alumni who graduated between 1980 and 2019. Proposed changes intend to increase the appeal of the program to a wider audience, making it more accessible to students with aligned interests. Feedback strongly suggested the name Technical Systems Management was confusing and difficult to explain to prospective students, employers, and a general audience.

Based on this feedback, a new, more descriptive name of Engineering Technology and Management for Agricultural Systems was proposed.

The program revisions are to update the rubrics of courses from TSM to ETMAS. The proposal does not necessitate hiring of additional instructors or faculty. All required courses have capacity to accommodate any additional students that may result from the proposed change. No new or additional facilities, significant improvements to existing facilities, or additional resources from the University Library are needed.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The interim executive vice president and vice president for academic affairs concurs with this recommendation. The University Senates Conference has indicated that no further senate jurisdiction is involved.

The president of the University of Illinois System recommends approval. This action is subject to further review by the Illinois Board of Higher Education.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

Rename and Revise the Master of Science in Technical Systems Management,  
Professional Science Master's Concentration, College of Agricultural, Consumer and  
Environmental Sciences and the Graduate College, Urbana

(17) The chancellor, University of Illinois Urbana-Champaign, and vice president, University of Illinois System, with the advice of the Urbana-Champaign Senate, recommends approval of a proposal from the College of Agricultural, Consumer and Environmental Sciences and the Graduate College to rename and revise the Master of Science in Technical Systems Management, Professional Science Master's Concentration.

Under this proposal, the program's name would be revised to the Master of Science in Engineering Technology and Management for Agricultural Systems, Professional Science Master's Concentration (MS in ETMAS – PSM Concentration). The Board of Trustees approved a parallel revision at the undergraduate level, changing the name of the Bachelor of Science in Technical Systems Management to the Bachelor of Science in Engineering Technology and Management for Agricultural Systems at the May 20, 2021, meeting. Feedback from faculty, staff, students, and alumni indicated the Technical Systems Management program was in need of revision. In 2019, the Department of Agricultural and Biological Engineering formed a task force to propose necessary changes to the program. The task force collected feedback from current faculty and staff along with surveys of current students and alumni who graduated between 1980 and 2019. Proposed changes intend to increase the appeal of the program to a wider audience, making it more accessible to students with aligned interests. Feedback strongly suggested the name Technical Systems Management was confusing and difficult to

explain to prospective students, employers, and a general audience. Based on this feedback, a new, more descriptive name of Engineering Technology and Management for Agricultural Systems was proposed.

The program revisions are to update the rubrics of courses from TSM to ETMAS. The proposal does not necessitate hiring of additional instructors or faculty. All required courses have capacity to accommodate any additional students that may result from the proposed change. No new or additional facilities, significant improvements to existing facilities, or additional resources from the University Library are needed.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The interim executive vice president and vice president for academic affairs concurs with this recommendation. The University Senates Conference has indicated that no further senate jurisdiction is involved.

The president of the University of Illinois System recommends approval. This action is subject to further review by the Illinois Board of Higher Education.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

Eliminate the Master of Science in Agricultural Production,  
Professional Science Master's Concentration, College of Agricultural, Consumer and  
Environmental Sciences and the Graduate College, Urbana

(18) The chancellor, University of Illinois Urbana-Champaign, and vice president, University of Illinois System, with the advice of the Urbana-Champaign Senate, recommends approval of a proposal from the College of Agricultural, Consumer and Environmental Sciences and the Graduate College to eliminate the Master of Science in Agricultural Production, Professional Science Master's Concentration (MS in Ag Production PSM).

Enrollments in the MS in Ag Production PSM have been extremely low; specifically, zero students in 2021, one student in 2020 and in 2019, and zero students in 2018, 2017, and 2016. There are currently no students enrolled. In contrast, enrollments in the Department of Crop Sciences's online Master of Science program have increased in recent years. Therefore, the department will be shifting the administrative resources being used for the MS in Ag Production PSM toward the online MS.

There is no impact on funding, facilities, libraries, or technology. Staff working with this program also work with the online MS, and they will be able to shift their energy toward it with the elimination of the MS in Ag Production PSM. Similarly, faculty teaching in the program also teach in other programs in the Department of Crop Sciences and in the School of Integrative Biology. These faculty will be able to put their energy toward these other programs, and there will not be an impact on class sizes or offerings because the courses which comprise the program are parts of other programs.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The interim executive vice president and vice president for academic affairs concurs with this recommendation. The University Senates Conference has indicated that no further senate jurisdiction is involved.

The president of the University of Illinois System recommends approval. This action is subject to further review by the Illinois Board of Higher Education.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

Eliminate the Doctor of Philosophy in Chemical Physics,  
College of Liberal Arts and Sciences and the Graduate College, Urbana

(19) The chancellor, University of Illinois Urbana-Champaign, and vice president, University of Illinois System, with the advice of the Urbana-Champaign Senate, recommends approval of a proposal from the College of Liberal Arts and Sciences and the Graduate College to eliminate the Doctor of Philosophy in Chemical Physics.

The PhD in Chemical Physics, administered jointly by the Department of Chemistry and the Department of Physics, has always had low enrollments, and PhD students are served equally well or better by either the regular Chemistry PhD program or the Physics PhD program. There is currently no enrollment, and formal elimination is sought at this time.

As there has been historically low enrollment and no enrollment in recent years, there is no impact on funding, facilities, libraries, or technology.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The interim executive vice president and vice president for academic affairs concurs with this recommendation. The University Senates Conference has indicated that no further senate jurisdiction is involved.

The president of the University of Illinois System recommends approval. This action is subject to further review by the Illinois Board of Higher Education.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

Relocate the School of Education,  
College of Public Affairs and Administration, Springfield

(20) The interim chancellor, University of Illinois Springfield, and vice president, University of Illinois System, with the advice of the Springfield Senate, recommends approval of a proposal from the College of Public Affairs and Administration to relocate the School of Education.

The School of Education, which consists of undergraduate programs in Teacher Education and graduate programs in Educational Leadership, was created within the College of Education and Human Services (CEHS) in July of 2021 as part of the academic reorganization at the University of Illinois Springfield. When the School of Education was created in the CEHS, it was done so with the understanding that the School would relocate to the College of Public Affairs and Administration (CPAA) should the CEHS be dissolved. The CEHS was dissolved in November of 2021 as part of the academic reorganization.

The School of Education currently offers two master's programs, five graduate certificates, two post-master's certificates and six Illinois State Board of Education Endorsements in Educational Leadership and four bachelor's programs in Teacher Education ranging from elementary to secondary education. The school provides programs where students are able to plan and follow a path to gain teacher certification, endorsement, a graduate degree and/or post-master's certificates.

With the School of Education's mission to educate, train, and inspire teachers and educational leaders and the CPAA's focus on public affairs, the relocation of the School to the CPAA is a natural fit. The CPAA places special emphasis on its

distinctive disciplines, highlights active citizenship and education, prepares front line public servants and educators, and offers programs that contribute to understanding and solving today's challenging public policy issues, such as the current teacher shortage.

The School of Education has an aggressive growth plan for the development and implementation of new programs to address the dire teacher shortage across the state and create a continuum of teacher/leader preparation. For example, the addition of blended and online programs will provide convenience for working non-traditional and paraprofessional students and online programs will also provide a vehicle for recruiting students outside of Illinois' borders. Two important goals of the School of Education's development plan for enhancing current programs and the development of new programs are to identify and implement high impact/low-cost programs and to identify new programs that will result in enrollment growth, but not require new resources, such as the development of an undergraduate non-licensure Education degree. The CPAA supports, embraces, and stands ready to assist in these initiatives. Addressing the teacher shortage in Illinois highlights just one area in which the addition of the School of Education to the CPAA is expected to increase synergies, cross-disciplinary research, and collaboration among the college faculty.

The administrative structure of the School of Education will remain the same in the CPAA, consisting of a director to provide administrative leadership to the school and an assistant director who will assist the director in administrative duties. An executive committee will continue to serve as a steering committee, overseeing the school's assessment plan and initiatives related to the unit's strategic plan. The School of

Education is comprised of eight tenure track faculty, three non-tenure track faculty, and 22 adjunct faculty.

The relocation of the School of Education to the CPAA was voted on by the curriculum committee of the CEHS and was supported by the CEHS dean before the elimination of the college. The relocation of the School of Education to the CPAA was voted on by the curriculum committee of the CPAA and is strongly supported by the CPAA dean. The Springfield Senate approved the establishment of the School of Education in Resolution 50-38. In that resolution, the Springfield Senate stated its support for and recommendation that the School of Education be relocated to the CPAA in the event the CEHS was dissolved. Resolution 50-38 was approved by the Springfield Senate on April 9, 2021.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The interim executive vice president and vice president for academic affairs concurs with this recommendation. The University Senates Conference has indicated that no further senate jurisdiction is involved.

The president of the University of Illinois System recommends approval. This action is subject to further review and approval by the Illinois Board of Higher Education.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr.

Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

### Name the UI Health Specialty Care Building, Chicago

(21) The chancellor, University of Illinois Chicago, and vice president, University of Illinois System, recommends approval to name the Outpatient Surgery Center and Specialty Clinics facility, located at Wood and Taylor Streets, the UI Health Specialty Care Building.

In March 2020, the Board approved the ground lease, marketing, licensing agreement, and associated documents and actions to construct the patient care facility. The project, a public-private partnership (P3), is a six-story, 200,000-square-foot facility. Construction is scheduled for completion in June 2022.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The president of the University of Illinois System concurs.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

Rename the Library, Learning, and Student Success Center, Springfield  
(Capital Development Board Project)

(22) In September 2021, the Board approved the design of the Library, Learning, and Student Success Center project with a budget of \$35.0 million. To bring improved clarity to the name and function of this new building, the design committee and vice chancellor of academic affairs and provost engaged stakeholders across the university, developed a consensus, and proposed to rename the Library, Learning, and Student Success Center as Library Commons.

The interim chancellor, University of Illinois Springfield, and vice president, University of Illinois System, with the concurrence of the appropriate administrative officers, recommends approval of this proposal.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The president of the University of Illinois System concurs.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

Due to the virtual environment, a roll call vote was required for both the regular and roll call agenda, and the Board voted on both agendas simultaneously with a roll call vote. Items no. 23 through 28 appeared on the roll call agenda.

#### Approve Preliminary Operating Budget for Fiscal Year 2023

(23) State statute and prudent financial management require governing board approval of operating budgets before the beginning of the fiscal year. Although the State legislature has approved an appropriation for the System for Fiscal Year 2023 before its May 31 deadline, the extensive process involved in providing an all-funds budget by college and department will not be completed until after the start of the new fiscal year, and the prior year closes. Therefore, the interim chief financial officer/comptroller recommends that the Board authorize expenditures for Fiscal Year 2023, beginning July 1, 2022, at the levels reflected in the University's current operating budget (FY2022).

The University will seek approval of a final operating budget for Fiscal Year 2023 at a future Board meeting following the completion of the system-wide budget development process. University budget plans will be updated to reflect information obtained after this meeting. During this interim period, university units will follow current budget guidelines.

Subject to the foregoing and related Board directives, authorization is also requested for the president: (a) to accept resignations; (b) to make such additional appointments as are necessary, and to approve the issuance of notices of non-reappointment, subject to all relevant policies and statutes; and (c) to make such changes and adjustments in items included in the preliminary budget as are needed.

The Board action recommended in this item complies in all material respects with applicable State and federal laws, University of Illinois *Statutes*, *The General Rules Concerning University Organization and Procedure*, and Board of Trustees policies and directives.

The president of the University of Illinois System concurs.

On motion of Ms. Phalen, seconded by Mr. Estrada, this recommendation was approved and authority was given as requested by the following roll call vote: Aye, Ms. Craig Schilling, Mr. Edwards, Mr. Estrada, Ms. Jakobsson, Dr. King, Ms. Phalen, Mr. Verthein; No, none; Absent, Mr. Cepeda, Ms. Holmes, Governor Pritzker.

(The student advisory vote was: Aye, Mr. Mal; Absent, Ms. Mwilambwe.)

#### Approve Construction Contract for Neuropsychiatric Institute Façade Repair, Chicago

(24) In January 2022, the Board approved a \$20.5 million project to repair the Neuropsychiatric Institute (NPI) exterior, located at 912 South Wood Street, Chicago.

The project includes masonry repairs throughout the structure, window replacement, roof replacement, exterior door replacement, exterior lighting, new fall protection, new lightning protection, and improved Americans with Disabilities Act (ADA) access to the building.

Bids for the construction work have been solicited. For the project to proceed, the chancellor, University of Illinois Chicago, and vice president, University of Illinois System, with the concurrence of the appropriate administrative officers,

recommends that the following contracts be awarded.<sup>6</sup> Competitive bidding procedures in accordance with the Illinois Procurement Code were followed, and the award is to the lowest responsible bidder based on its base bid.

Establish the Concentration in Automated Trading Practices  
within the Master of Science in Financial Engineering,  
The Grainger College of Engineering and the Graduate College, Urbana

The Urbana-Champaign Senate has approved a proposal from The Grainger College of Engineering and the Graduate College to establish the concentration in Automated Trading Practices within the Master of Science in Financial Engineering. Many students in the Master of Science in Financial Engineering are interested in careers in the financial services industry, particularly in the automated and high-frequency trading space. Proprietary trading firms and hedge funds, among others, are continuously searching for new talent with a rare combination of exposure to both finance, quantitative methods, and computer science seamlessly blended together into automated and algorithmic trading systems. Employers in this space are known to actively seek out new hires from the University of Illinois Urbana-Champaign given its geographic proximity to one of the major North American trading centers in Chicago. The Automated Trading Practices concentration will uniquely provide the requisite background in numerous critical areas of knowledge coupled with first-hand actual experience developing trading algorithms using industry-donated commercial grade software and actual exchange market data that will enable students to prepare for success in this competitive, exciting, and intellectually-challenging field.

Students will be provided specialized training and professional development guidance within the field of ecological community psychology and exposure to multiple theoretical perspectives and research methods that are used across different research teams and applied traditions in psychology. The proposed concentration will facilitate opportunities for students to become involved in research with multiple faculty, broadening the scope of their training and allowing for stronger

letters of recommendation when entering the job market including both academic and applied experiences.

Rename and Revise the Undergraduate Minor in Technical Systems Management,  
College of Agricultural, Consumer and Environmental Sciences, Urbana

The Urbana-Champaign Senate has approved a proposal from the College of Agricultural, Consumer and Environmental Sciences to rename and revise the undergraduate minor in Technical Systems Management. Feedback from faculty, staff, students, and alumni indicated the Technical Systems Management program was in need of revision. In 2019, the Department of Agricultural and Biological Engineering formed a task force to propose necessary changes to the program. The task force collected feedback from current faculty and staff along with surveys of current students and alumni who graduated between 1980 and 2019. Proposed changes intend to increase the appeal of the program to a wider audience, making it more accessible to students with aligned interests. Feedback strongly suggested the name Technical Systems Management was confusing and difficult to explain to prospective students, employers, and a general audience. Based on this feedback, a new, more descriptive name of Engineering Technology and Management for Agricultural Systems was proposed. The revisions to the content of the minor are to update the rubrics of courses from TSM to ETMAS.

Rename and Revise the Undergraduate Minor in Agricultural Safety and Health,  
College of Agricultural, Consumer and Environmental Sciences, Urbana

The Urbana-Champaign Senate has approved a proposal from the College of Agricultural, Consumer and Environmental Sciences to rename and revise the undergraduate minor in Agricultural Safety and Health. This minor is designed to

provide students with an in-depth understanding of occupational safety and health issues associated with production agriculture and related industries. The program familiarizes students with the primary injury and illness control methodologies of behavioral persuasion and motivation, engineering design, and regulation or enforcement and their related strengths and weaknesses of effecting injury and occupational illness rates among agricultural populations. Students also develop an understanding of how to develop a safety risk management plan for a farm or other agricultural-related business. The addition of “industrial” to the name of the minor is more accurate. Industrial and Agricultural Safety and Health better indicates the breadth of the course topics covered by the minor. Core courses have been revised to reflect the updated rubric, which changed from TSM to ETMAS, and course titles revised to add “industrial.”
